# Where price-making is easy

VERYONE wants to get into the tariat. act!" was the mournful wail of a vaudeville comic of the twenties. And now the Communists are trying a new sales push. This time it is cars and \$1,350 to \$2,400.

These cars (which were on display at the Brussels Fair all summer) are not the small models Canadians are accustomed to think of as European-type cars. They look like two-year-old Mertype chrome. They are clearly intended for the bourgeoisie, not the prole-

Car-makers are now going to find (as aluminum producers have already discovered) that Russian price competition bears about the same relation to two Russian models, the Volga and the ordinary competition as a wood pussy Moskvitch, are selling in Vienna for bears to a tabby cat. It's an entirely different, and more virulent breed. A station-wagon for \$1,500 (reported price for the Moskvitch in Vienna) is hard to match by any known costing

### Wondrous thing

From The Calgary Herald IT IS A WONDROUS THING that television showings of the world series are being permiltied in Alberta beer parlors. It is wondrous because it suggests that enjoyment and relaxation, rather than just beer drinking, could be the aim of patrons. In Alberta drinking in the beer parlors has always been subject to a penalty of discomfort in the form of dirt, notes and choorless surroundings.

Today I feel like crying in my beer. On my desk is a letter from a friend in London which reads, "You will be sorry to learn that Mother McFadden is dead."

Mother McFadden was mother to hundreds of Canadian Servicemen in Great Britain. She was a big woman who seldom moved from her high stool in her pub on Edgeware Road.

She could spot a homesick lad in a crowd like a mother hen noting a sick chicken losing out in its scramble for the

I first met her when I wandered into her pub one Saturday night early in 1941. I was feeling low. My regular 48hour-leave pal, Johnny wouldn't be with me anymore. Johnny had been a tail-gunner on a Wellington bomber. I was staring glumly into my mild and bitters when a voice said, "Hello, Canada." straight into the friendliest blue eyes. They seemed to say,

chat with me." I talked to her for awhile. Soon a new drink was by my side, placed there by a barmaid who received a signal that I never saw. In five minutes, I was gabbing about myself, my home, and fishing pictures out of my wallet.

"Well, well chum, it can't be

"Play darts?" she asked. Alongside the bar were some Englishmen and women playing a game.

"Hoi there, George, I have a special friend of mine from Canada I would like you to meet," and over came a moustached fellow in tweeds.

The next thing I knew I was being introduced all round and playing darts. The night passed well as did many others there.

But Mother McFadden, although she had a pleasant word never concentrated the same on me again. She seemed to have the air that she had put me back on my feet. Hor eyes seemed to be constantly roving for another stray to be brought into the fold. Goodness knows how many lads she looked after this way. I can't believe she is gone.

Q. I live on Piggott Avenue, l When will this road be payed? A. The city's three-year paving program means that every major road in the city will be paved by 1000. Piggott Avenue and the whole of Rushbrook Heights' area has to be reconstructed before asphalt may be luid. This will be done in 1050 and the area will be paved in

# Goodbye to Sons of Freedom

From The Victoria Times

The decision to extend the date by which Sons of Freedom applications for emigration to Russia must be submitted is a wise one.

Nothing should be done that might discourage. Moscow from extending its invitation. Obviously, in bringing the Sons of Freedom out of Canada, the Soviet Union will act.chiefly from motives of prestige and propaganda. The world will be told that only in Russia can these people find the freedom they desire; that the capitalist countries cannot provide the

### Not blameless

From Le Nouvelliste. Three Rivers

We have been indignant when Negroes of the United States have been denied justice. But Ontario has experienced in recent years several cases of racial discrimination. There is presently a racial problem in British Columbia. Let us not judge too severely those who practice racial discrimination. We ourselves have hitherto escaped it for want of having to face a case which might hurt our own interests.
