> Prince Rupert Daily News Thursday, July 31, 1958

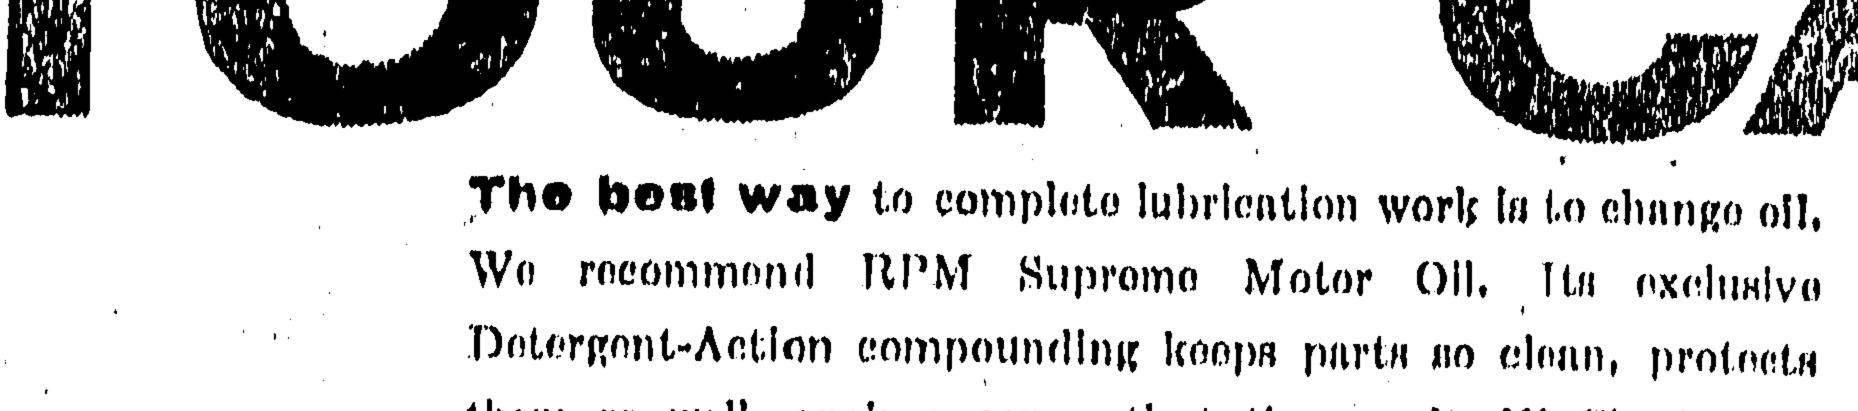

Inside story of out-and-out good service is training. Men at Standard Stations and Chevron Dealers go to school to learn the best ways to care for your car from tires to top. But our training doesn't stop there . . .

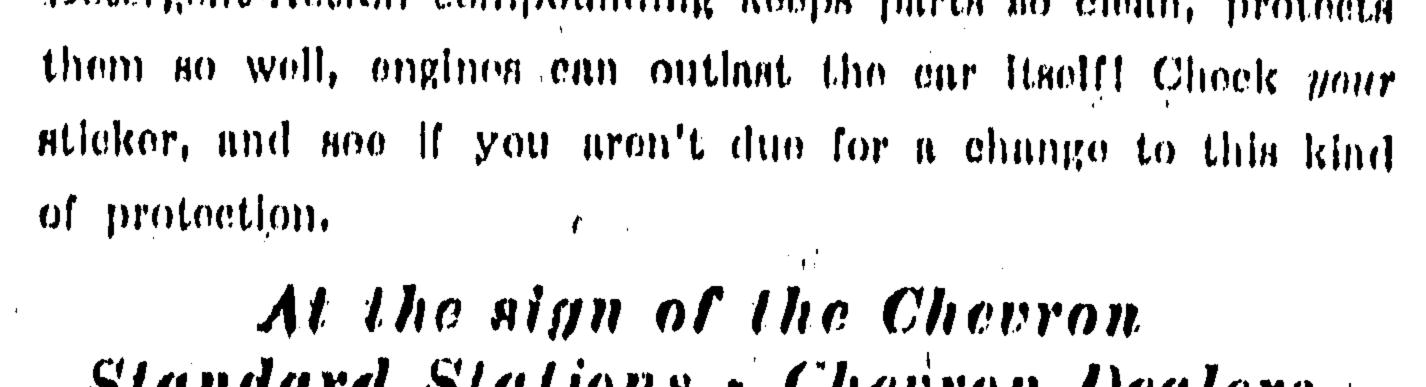

We go by the book. When it comes to lubrication, for instance, we have charts that show us how to take care of every make of car, imported and Canadian. They guide us to each grease fitting . . . and through inspections of tires, transmission, master brake cylinder and the other points that need regular, knowing attention.

This extra care means your car is safe from wear and guaranteed free from squeaks for a full 1,000 miles. It's another reason why every independent survey shows motorists rate the service at the sign of the Chevron "best in the West". And why more Western motorists carry a Chevron International Credit Card for their driving needs.
