## Sarah Churchill Fined On Drunkeness Charge

Prince Rupert Daily News

MALIBU, Calif. (AP)—Sarah Churchill, actress daughter of Sir Winston Churchill, apologized Thursday for causing "any inconvenience to the public and those I love," and pleaded guilty to a charge of being drunk in public.

She was fined \$50.

Miss Churchill, 44, Judge Charles H. Woodmansee and said she would like to make a statement concerning her arrest last Monday at her beach

### A PERFECT EXAMPLE OF CO-OPERATION!

Few of the things people spend their dollars on have increased in quality as much as today's high octane gasolines. For instance, two gallons of present-day gasoline will do the work of three gallons of 1925 fuel—but, the cost is higher, too. Co-op members in Saskatchewan, Manitoba and Northwestern Ontario, through ownership of their own Co-op Refinery at Regina—the world's first Co-op Refinery—and oil wells in Saskatchewan and Alberta, serve themselves at cost because the savings on operations are passed back on the basis of patronage.
