Blackwood on BRIDGE By EASLEY BLACKWOOD

More and more hands are opened with a bid of one club these days. And the club suits seem to be getting shorter and weaker.

The extreme one-club bidders will tell you this is for "conven- er's having the values shown by ience" in rebidding. Teacher's recollections western with difference

"Buckskin and Blackboard" by Phyllis N. Taylor (Published by Darwen Finlayson, London, England) Reviewed by Emerald Bartlett

The temptation to review something deeply significant or at least, currently fashionable, was easily overcome when I read "Buckskin and Blackboard" which is certainly not deep but is, to me, significant in the small and vanishing area of education [with which it deals.

About Diesel Firemen

A FAIR AND GENEROUS PROPOSAL

The KELLOCK ROYAL COMMMISSION REPORT shows the average number of firemen employed by Canadian Pacific was 2,927. On May 11 when the findings of the Report for protection of employment and seniority of firemen take effect:

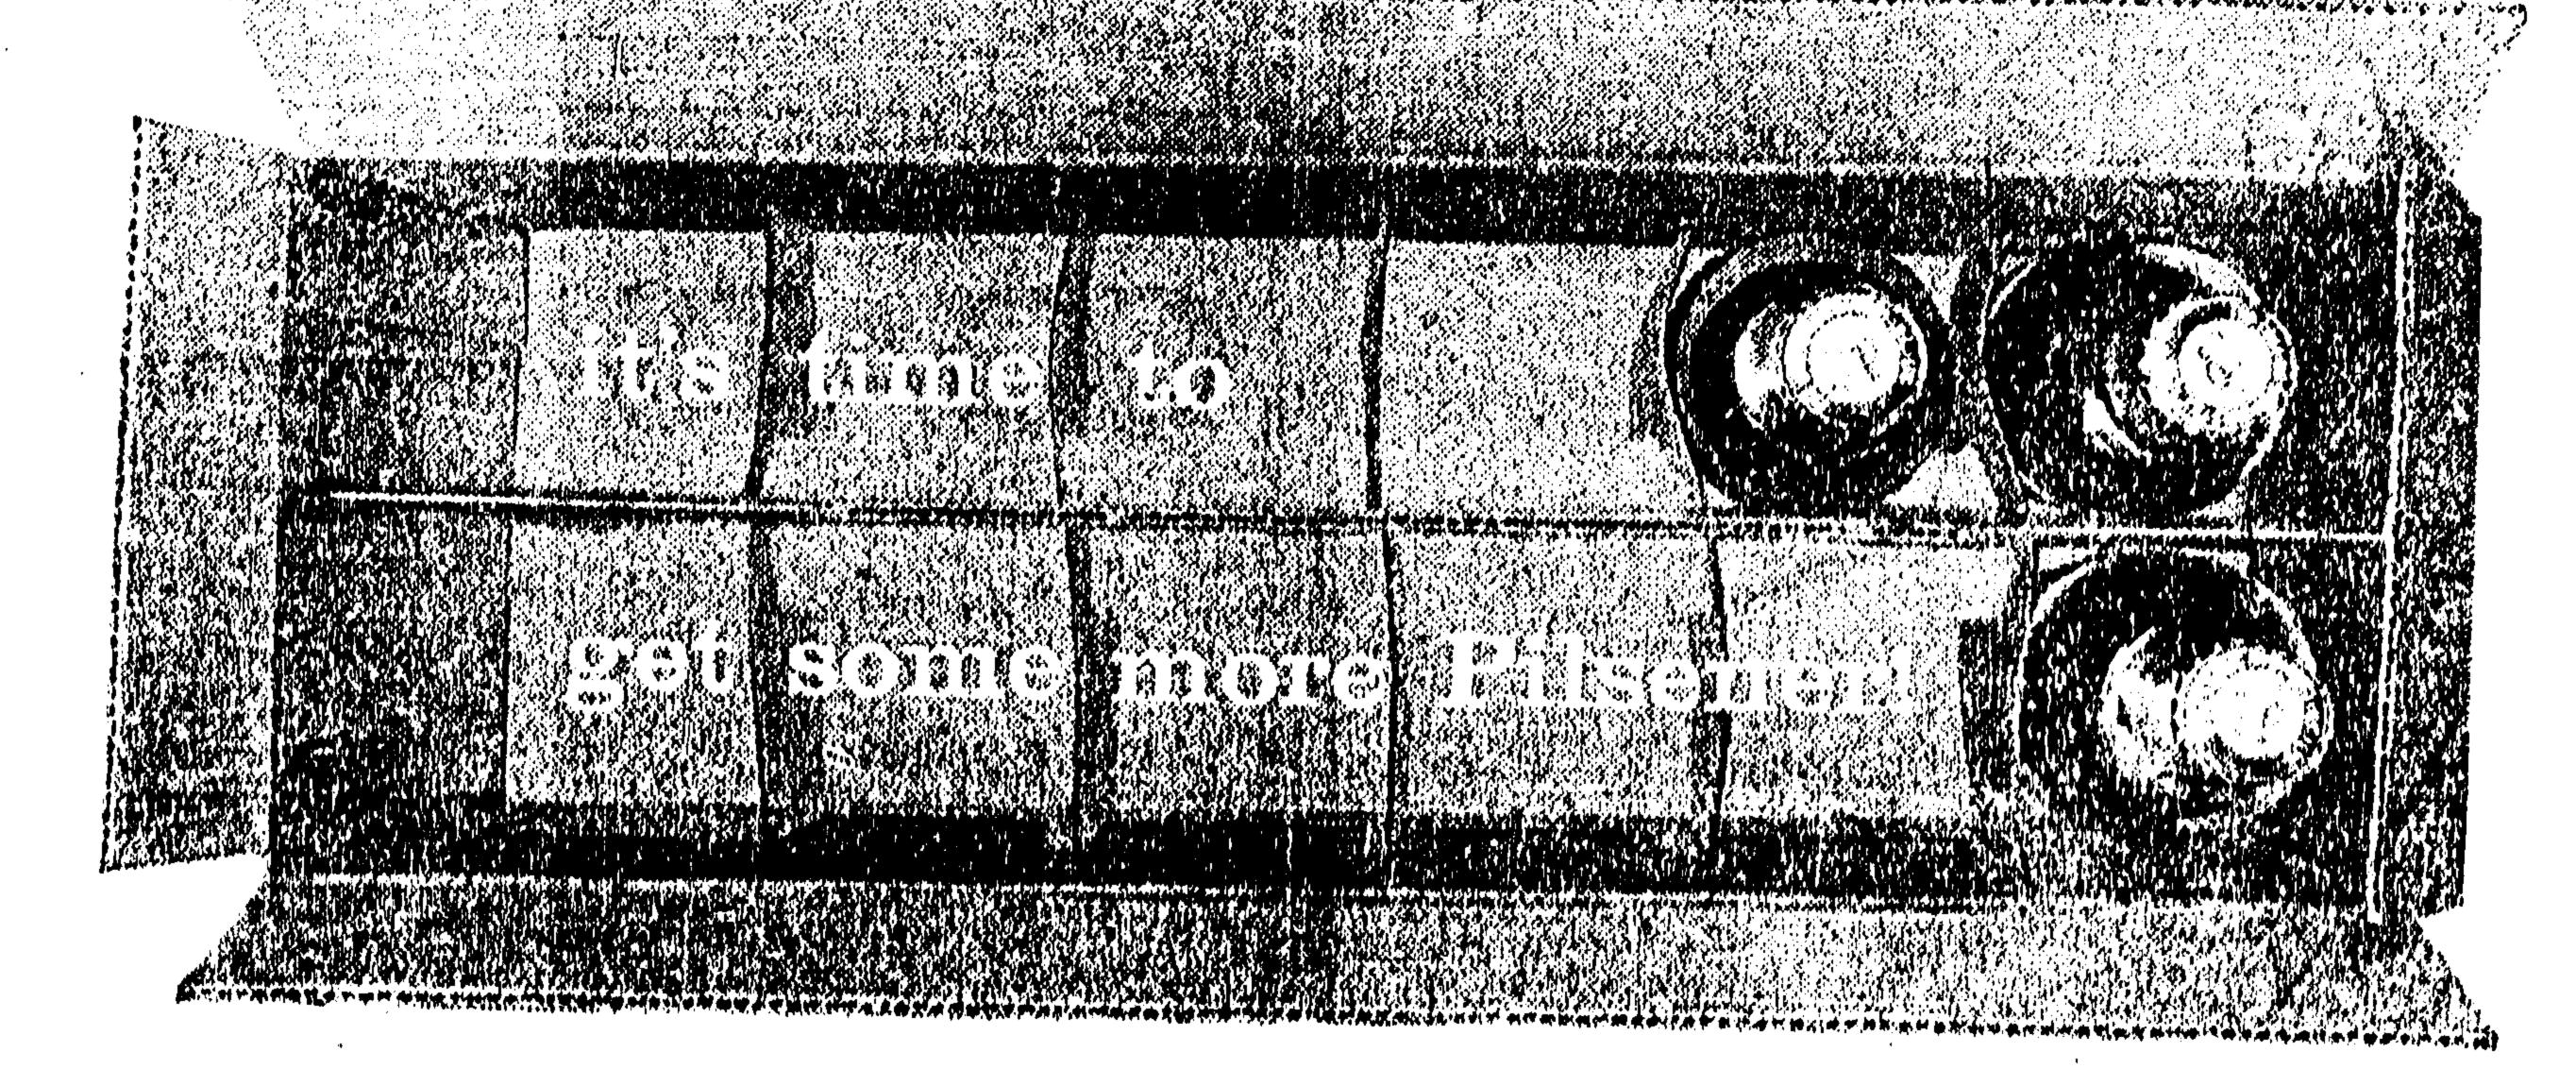

- 1. 2,350 men will continue to work as firemen just as at pesent.
- 11. 477 men will be transferred to train or yard service and, each month a fireman would have worked had no change been made, he will be guaranteed about \$350.
- lil. 100 men will be laid off and given preference for other jobs with Canadian Pacific.

The KELLOCK ROYAL COMMISSION SAYS:

In our opinion the proposal from the standpoint of the firemen is a fair one . . . we are unable to find any basis for recommending more generous terms. The proposal takes care in one way or another of all firemen who would have had reason to believe, at the time of their entering employment, that that occupation was a permanent one.
