

Mrs. T. Parkin Renamed Shoreworkers President

Mrs. Thomas E. Parkin was re-elected president of the Shoreworkers Local No. 31 of the United Fishermen and Allied Workers' Union Thursday when the group held its annual meeting in the Legion auditorium.

Other officers elected were Peter Wanner, vice-president; R. L. Gardner, re-elected secretary-treasurer; and Mrs. William Greenwood, recording-secretary.

Thomas E. Parkin, the northern representative of the UFAWU will continue to act in the capacity of business agent of the local.

The election of convention delegates and other committees was postponed until the February meeting.

Members were urged to submit resolutions as early as possible to the convention committee making preparations for the 13th annual convention of the UFAWU in Vancouver beginning March 24.

The membership adopted a local executive report in which it was generally agreed that 1950 had been a progressive year for the local. However, it was noted certain problems exist at present including the sporadic nature of employment in many of the processing plants which has created some hardships this winter among the members.

The local is under a two year agreement that will not expire until April, 1958, and therefore the local is not faced with negotiations this year.

It was decided that in keeping with the present agreement a welfare plan for shoreworkers will be established in April of

Francois Lake News

By AGNES H. NEAVE
Daily News Correspondent

FRANCOIS LAKE—Bill and Marie Wood returned to Prince Rupert by car on Thursday. The road is good so they expect to make the trip easily in a day.

The ferry crossed for the last time on Saturday night, as the ice was gathering fast with the extremely cold weather. We were rather startled to see a pick-up truck come over on Tuesday afternoon, but it came across safely. Henry Welte drove and he said he made 80 miles per hour so was not long on the ice. Several people walked across on Monday.

Monty Harrison is home again after being in the Burns Lake hospital for three weeks with double pneumonia. He is still far from well but is able to get up for part of the day.

Ernie Carlson is back driving the school bus and mail van after being laid up with mumps. Clarence Hickey had also had a bad bout and was ill for two weeks before Christmas.

It does not seem to make the children as ill as the older folk.

Four blue jays have been staying close to the Cliff Harpison home at Teleskut Lake. Miss Harrison feeds them regularly. One morning this week she did not go out as usual. She heard a few little taps on her door and went to open it, expecting to see her little granddaughter, who lives quite close. Imagine her surprise to see one of the blue jays, who had come to enquire why the usual meal wasn't on the table at the usual time, and was tapping on her door.

Four hens managed to escape from the henhouse on Sunday morning. They were wild and hard to catch, so Hugh watered until they went to roost in the evening, knowing that he could pick them up then without any trouble. He saw them sitting side-by-side on a rail beside the henhouse, he picked three up and then grabbed the fourth. She had been sitting at the end of the four and evidently the breeze hit her for she was frozen as solid as a board.

There was a sad gathering in the church on Thursday when Canon A. Atkinson held funeral service for John Boulton. Friends had come from Smithers, from Southbank (these had driven 100 miles around the head of the inlet), and Burns Lake to express sympathy with Charles and Jim, brothers of John, who was killed by a falling tree when working in the woods at Houston. Miss Clara Preston played the organ for the service. Pall bearers were Bill Richmond, Sam Wilkin, John Keefe, Peter Olson, Percy Reynolds and Hugh Neave. John was buried beside his father and little niece in the little churchyard.

TOUGH REMINDER
CANTERBURY, Eng.—Girling has been re-introduced into a boys' school here after 21 years. "The boys don't seem to bear any malice," said headmaster Christopher Rieu. "It will give them something to remember me by in future."

CYD's Cabaret Dance Outstanding Success

Some 200 people attended a most successful public cabaret dance held in the new Annunciation school auditorium Friday night staged by the Catholic Youth Organization.

Welcoming the crowd was CYO president John LaPorte, who acted as master of ceremonies for the third cabaret affair held this season.

Discussions are in progress as to benefits to be obtained from some form of "sick pay" and life insurance is expected with emphasis placed on "sick pay," it was reported.

It was also noted that welfare plans have existed for some time in sections of the fishing fleet but that this is the first time for plant workers.

PERSONALS

Miss Pauline Watkinson, RN of the Prince Rupert General Hospital staff, left this morning by Canadian Pacific Airlines plane for Vancouver where she will spend a week's holiday visiting her mother, Mrs. Emma Watkinson.

Committee in charge were Mr. and Mrs. Kolbjorn Dehl, Mrs. Oscar Giske, Mr. and Mrs. Walter Johnson, Mrs. Alf Jensen, S. S. Kristmanson and Mr. and Mrs. P. L. Peterson.

Dairyman Regretful at Moving

Regret at the necessity of transferring the entire processing plant of Northland Dairy to Smithers was expressed today by W. E. Mainprize, manager.

The dairy man said that there would be no milk price increase in connection with the move and that delivery and service "would be as usual." Milk will be shipped direct to Prince Rupert from Smithers by refrigerated truck at least three times a week.

He said Abe Philippson, distributor for Jersey farms would be the distributor for Northland Dairy and delivery men will continue on their present routes.

Mr. Mainprize and the majority of dairymen now employed here will move with the machinery to Smithers and be employed there in their same capacities.

"We sincerely regret leaving Prince Rupert," Mr. Mainprize said, "but it is impossible to operate from two such widely-separated plants on an economically sound basis and still maintain the same high standards which we have always strived to maintain."
