ICE HOCKEY MEETING SET AT CENTRE WEDNESDAY NIGHT

Calling all ice hockey players!!!

With the advent of the cold weather and natural ice, thoughts have again turned to Canada's second national sport and the Kaien Island trophy is being dusted off in Smithers where it is hoped it will be up for competition in the near future.

Ernie Novakowski, who is trying to promote two hockey games with the interior centre said today that there is a meeting of all ice hockey players in the Civic Centre Wednesday at 8 p.m. Should a Prince Rupert; hockey team be formed,

the team will be sponsored by the Dunlop Tire Company. The Kaien Island trophy was won by Smithers in 1955, at Oliver Lake. Smithers retained in 1956. There were no games last year.

On a recent trip to the interior, I learned that Bill Anderson, former member and ice steward of the local Curling Club and now of Terrace is laid up with a very lame back. I called in upon him at his home and found Bill in bed with a heavy plaster cast on his lean frame. Although the cast does not hinder him from walking around, he has to spend most of his time lying down. He will know this coming week if he has to go south for treatment. However, as bad as this may sound, he is in great spirits and related many of the humorous incidents which happened in the hospital. I'm sure that all of us will wish him a speedy recovery and hope that we see him at bonspiel time. Also should you be in Terrace, drop in to see him as he likes the Prince Rupert Curling Club gang.

By the time this is in print, Smithers will have enjoyed approximately a week of curling on artificial ice. The Smithers-Curling club has done a topnotch job in installing the refrigeration and I believe that: they shuold have just about the best ice possible The construction of the rink floor was done in a unique way. They excavated the former rink floor and put in low concrete walls down the full length of the rink so that the top of the walls are just above the old ground level. Then they decked over the entire rink with a heavy ground flooring. The refrigeration piping was, fastened to the floor over a plastic sheeting and then the sand was put in to fill around the pipes. While I was there, the ico surfaco was completed and ready to curl upon but the mentbors decided to paint the club rooms first and finish the entire job before starting their first draws.

There are a good many proficient curiers around Smithers and they have done very well at our bonspiels in the past as many of us can recall. It might be mentioned here that these curiers had to "get the feel" of aritifical ice when they arrived here so it might be good advice to watch them closely in our next Bonspiel for they should prove to be very rough.

Finally, I would like to congratulate Jack Mitchell for winning the Gordon's Hardware trophy. Jack's rink has been curling nicely of late and I personally think that Jack is one of the best skips in our club if not the best. He proves it by being the most consistent winner of club trophics and bonspiel events in our club and I'm personally happy that he is in a different section than I'm in. l'It makes II a little easier to get
