## Take a sweet-riding chassis,

# take a silent, beautiful body

... bond them together into a single, solid unit and you have the quality car of the low-price field!

Now go for a ride. That's how to find out what Ford's solid construction means to you in terms of sheer comfort, relaxing quiet, and complete dependability.

Ford strongth starts with the chassis. Its heavy girder frame has five cross members for extra rigidity. And the frame's side rails extend obtaide the passenger area for extra protection. Passengers sit lower, too, for greater stability, less swing and sway when going around curves.

Bolted and bonded to the frame is a body that's built of the same heavy-gauge steel used in many of Canada's most expensive, cars. All parts of the body are interlocked for maximum strength and resistance to flexing. And Ford has the most complete sound and weather insulation in its field.

Brawn and beauty combined to perfection -you can't find a botter value for your monoy anywhere! Take that ride seen --at your Ford Donlor's.
