DOOMED DOVES—Winter is anything but for the birds as far as these European rock doves are concerned, here accepting a handout from Lawrence Briggs of Vancouver. They may not know it but, says a British Columbia ornithologist, 80 per cent of they and their feathered brethren won't be around to see the spring. Charles Suiget of the Provincial Museum in Victoria said only 20 per cent of featherdom's inhabitants live more than a year, snow or no snow, food or no food.

Commodore R. P. Stewart gets 'bird' at last Outboarders meeting of '58 By GLADYS BALDWIN

An early bird came to rest at the home of R. P. Stewart last week. During the regular monthly meeting of the Prince Rupert Outboard Association a surprise turkey draw was held and R. P. Stewart, commodore of the association came up with

Wrathall's Photo Finishing 209 3rd Ave. West

the lucky ticket. At the conclusion of regular business a Johnson's Illm on "Rules of the Road" for motorboaters was shown.

Three water craft have taken to dry land in the last week. A clean-up, paint-up and dry-up project is under way for the 18-foot, Sturdy-Craft Gull, belonging to Charles Roberts. 952 Ambrose Avenue.

Two 16foot Dreemboats, the "Bri-Den" the R. L. Eby's cruiser and the "Sea Spirit" belonging to F. A. Eby were also hauled out and put in storage for the winter. Some work to be done on both of them before next spring.

New owners of the "Mermaid" are J. D. McRae and Duncan McRae. They expect to get a lot of use out of the sleek, 21-foot fibreglass cruiser. Former owner Dr. William Hicks brought her up from Victoria more than a year ago. She is powered with a 185 horse power inboard motor.

Len Gibbons whose conversion of the "African Queen" from a gillnetter into a motor sailor has | been under way for some time, is doing some extra fancy work! for the boat. Confined to hospital with a smashed shoulder, Mr. Cibbons has been looking for a picture of a ketch rigged sall- | boat to do in copper as a plaque for the craft.

Norman Kinslor has the outboard races for 1959 on his mind already. A Mark 50 H is quietly || sitting in the corner of his wrokshop, ready to try out. Wouldn't be a bit surprised, if the weather stays mild, that he'll be trying it out anythme, if he hasn't already done so.

There are several good marine distress flare kits on the market today for pleasure bout owners. Although not required by law it lis a common sense idea and could well save a life or a bont.

Some of them come complete! with dye markers, whistles, flures and matches. They vary In price according to the type Hand number of flares desired.

Two flashlights, an ordinary l"two cell" for use around the bont and a powerful one for laignals if needed abould be on every bont. Christmas idea?

Since this will be the last propivash until 1959, Tel like to wish you one and all a Marry Christmas and happy hoating
