Mr. Muzzy Will Never Learn To Defer Taking a Finesse

Mr. Muzzy will never learn that it's a winning play to defer the taking of a finesse until the last possible moment. Sometimes it is possible to wait until very nearly the end of the hand, and by that time you may have gained information indicating that the finesse is not necessary. Or possibly you may have discovered which way to go when you have a two-way finessing situation.

Mr. Champion was right. Mr. Muzzy should have played as folturn by Mrs. Keen at trick three, lead a spade to dummy's ace. Return a club and ruff it. Enter dummy by ruffing a low heart, lead dummy's last club and ruff

On this last trick, Mrs. Keen would show out of clubs, proving she had started with three clubs. 'She would discard a heart. Now play, the ace and king of hearts, throwing two small diamonds from the board. On the third,
