Nothing Like Living in Rupert

THE success of the Second Annual Prince Rupert dents now living in other parts of British Columbia dles the dilemma of a philosophy of education which it and the United States is an ample demonstration of Japparently cannot properly implement. the strong ties formed by persons who have had the privilege of dwelling in this north coast city. Dr. Carl Reich, Jack Kirkpatrick and secretary-treasurer Arthur Thompson, ho sparked the big yearly reinonths ago are to be complime ted en their efforts which in both the planning stage and the carrying out of arrangements for the ti o "Rupert Nights" have taken up a great deal of their time and energy.

It is ironic that one has to leave the city before one gets together with other former residents to talk over "the good old days" in Prince Rupert and the enjoyment of having lived here. There are no specific organizations here who gather for an identical

It is our belief that Prince Rupert's so-called terrible reputation is the result of former residents boasting in the south of the conditions with which they have had to cope with while they stayed here.

When a Vancouver resident, in his ignorance, complains (as a matter of course) of the enormous amount of rain that is experienced in that soggy southern port, a former Prince Rupert dweller, not to be outdone, promptly assures the southerner that the Vancouver dampness is a mere trifle. He adds, to qualify his statement that "when we were in Rupert it was nothing to have 90 inches of rain a year." He sits back, thinking he's topped the Vancouverite, little suspecting that the sly lower mainland type will use this as propaganda at a future date.

Take last night for instance. As is usual when there is a big meeting or; ig sports event at the Civic postponed practically everything towards greater academic free. TV channels. Centre, "someone up there" who doesn't love us, pulled the plug in "the great big bathtub in the sky." That's the secret of his strategy: used in the classoom and with He has forced an election before the only say concerning teaching Political visitors here yesterday could quite easily the day of reckoning." have received the erroneous impression that it couldn't have been any wetter if they stepped off the dock into the harbor. But we folks who live here, know that it is just part of our mild winter and today's sunshine and blue skies are a complete vindication of any snide suggestion that it rains all the time in Prince Rupert. One can gaze at the sparkling waters of the harbor, feel the warmth of the sunshine, lift one's eyes to the mountains sifted lightly with snow and to the blue sky above and feel that things are allright with the world and with Prince Rupert in particular. Of course the proximity of spring might have something to do with an improvement in morale on a day like today, but an extension of such emotions goes a long way towards making one a little more satisfied with life and with making one's livelihood in this alleged "last place on earth one would choose to live."

The Joy Of Being An Editor

Getting out this paper is no picnic. If we print jokes, people say we're too flippant. If we don't they say we're too serious. If we stick close to the office all day,

we ought to be around hunting material. If we go out and try to hustle,

we ought to be on the job in the office. If we don't print contributions, we don't

appreciate genius; And if we do print them, the paper is filled

with junk!

If we edit the other fellow's writeup, we're too critical;

If we don't we're asleep.

If we clip things from other papers, we're too lazy to write them ourselves.

If we don't, we are stuck on our own stuff. Now, like as not, some guy will say we swiped this from some magazine.

We did.
