HOW HOTIS HOT?

The common yardstick for measuring heat is the British Thermal-Unit . . . the amount of heat required to raise the temperature of one pound of water one degree farhenheit.

Rockgas propane has a heat content of 2,550 BTU's per cu. ft. This is far greater than most other fuels—including natural gas. Rockgas therefore gives a hotter flame. And this means faster hot water heating, more efficient space heating, speedier clothes drying, quicker cooking and boiling.

Safe, clean, thrifty Rockgas can be delivered right to your doorstep almost anywhere in B.C. Call your local Rockgas dealer.

Gerry James announces plans for winter

Versatile Winnipeg Blue Bomber Garry James has disclosed his plans for the winter season. 'No change,' said Gerry, 'I'm relying on "Prestone" Brand Anti-Freeze. just as I did last year. I know I can depend on "Prestone" Anti-Freeze to protect me from freezeups, rust, clogging and corrosion

in my car's cooling system.' You can depend on "Prestone" Brand Anti-Freeze, too. Its magnetic film coats every rubber and metal part of your car's cooling system-protects against the worst that winter can do! Insist on "Prestone" Brand Anti-Freeze and you'll get it. Look for the Green Tag on your radiator that assures you of complete winter protection-"Prestone" Brand Anti-Freeze protection. PMS8.19
