DAILY EDITION. MONDAY, JULY 8

**TO GET THE BEST FOR THE WEST.**

Most encouraging of all the many interesting features of the Panama Canal Convention, held in Calgary, is the evident recognition by the delegates, from whatever quarter of the west, of the need for the fullest co-operation of every section in the interest of the whole. There is no room for the strife of conflicting claims among the members when the whole body may gain or lose so much. Rivalry there must be, where opportunities are so numerous and development so rapid, but only rivalry of the sort that makes for efficiency by stimulating well directed effort. That the delegates realized this was evident, for the unanimous opinion was that now, as never before, British Columbia, Alberta and Saskatchewan must stand shoulder to shoulder and use their united strength in forcing a path to a common goal. If the recognition of this truth by the people of the three provinces had been the sole fruit of this conference it would have justified its existence.—Calgary Albertan.

**SYMBOL OF CIVILIZATION.**

To the unquestioned fact that it embodies within itself so completely the modern ideals of ugliness and discomfort, we must attribute the extraordinary appeal which the silk hat holds for all savage and semi-civilized peoples. Next after whisky, it is the one gift of the white man that finds universal acceptance. It seems impossible to question, the essential unity of the human race when we find the Parisian man of fashion and the Zulu chieftain exhibiting the same aesthetic standards. It is true that the African chieftain too frequently staves in the top of the hat and wears it as an ornament around his ankle, but that is only a matter of detail. To both men the silk hat is a thing that takes a high polish and creates discomfort and looks like nothing in nature, and as such it serves admirably as a symbol of civilization.—New York Nation.

**A NEW EXCUSE FOR DYING.**

One of the latest communications from the spirit world is a message, expressed in execrable English, from the late W. T. Stead, in which he declares that he has now recovered from the shock of the disaster of which he was a victim. The world beyond must be a dull place when so brilliant a man can find so little to say and say it so badly. Gladstone, when communicated with a year or two ago, was still worrying about politics. What would be the use of dying if it were not for the high cost of living?

**HAZELTON NOW COUNTS ON GREAT THINGS FROM THE HARRIS MINES ON NINE MILE**

Harris Mines has arrived. This ore assayed \$80 at the widest point and \$140 where it is 16 inches wide. The aim of the two Harris brothers, Duke and Al, who are running things is to get in shape to commence shipping just as the G.T.P. rails get to a point where the ore can be taken to the cars without using a steamboat. Many handlings of ore cost money. Sinking from the bottom will be started again on July 2nd and the shaft carried down to the 200 foot level by August 1, when drifting will be commenced both north and south on the vein. It speaks well for the mine and the district that although this shaft was started last September and carried down to 87 feet and then left to stand over the winter that not a single bucket or drop of water has yet been hoisted out of it. Number 2 vein is the biggest surface showing of high grade ore on the property. A tunnel over 300 feet long was driven last winter to cut this vein at 130 feet depth but the ore was not

**HON. MR. ASQUITH PROPOSES IMPORTANT IRISH VISIT**

**BRITISH PREMIER WILL ADDRESS HUGE ASSEMBLY IN DUBLIN NEXT WEEK ON THE BURNING SUBJECT OF HOME RULE—JOHN REDMOND WILL PRESIDE.**

Dublin, July 5.—Prime Minister Asquith has fixed the date of July 15th as the date of his visit to Dublin. The Irish people are preparing to give the Premier a magnificent welcome. On the day of his arrival here Mr. Asquith will address a meeting in the Theatre Royal, the largest auditorium available. Already almost every seat has been allotted and many persons will be disappointed owing to the impossibility of giving tickets to all applicants. John Redmond will preside at the Dublin demonstration, at which John Dillon and Joseph Devlin, among other Irish members of parliament will testify to the fealty of the Liberal leader to the cause of Irish

**DANGERS OF GASOLINE**  
 Something Everybody Living in Prince Rupert Should Know.

How many persons know what happens when a pint of gasoline is left open in a room? If the temperature is normal the liquid entirely evaporates in twenty-four hours. The vapor is heavier than air and therefore sinks to the floor. Unless disturbed, it will remain there for hours and by mixing with the air form an explosive compound about seven times as powerful as gunpowder. One pint of gasoline will make two hundred cubic feet of this compound. It is not necessary that a lighted match come in contact with it. A spark struck by a nail in a shoe will explode it. So will a gas jet or even the enclosed fire in the kitchen stove. If it is necessary to use gasoline for cleaning gloves or other articles, there is only one safe place to do the work. That is outdoors. The modern, high class place for billiards and pool. Seale's, Third avenue.

**THE IDEAL IN WIVES**

**Also Woman's Usual Idea Concerning Good Husbands—How Happy Marriages Are Made—Not All Housekeeping.**

"There is not a woman in the world who, if given her choice, wouldn't rather have a husband who came home drunk once a month and gave her a black eye, but who was amiable and pleasant and agreeable all the balance of the time, than to be married to a man who was as sober as the village pump, but who was always grouchy and cross, who never spoke a pleasant word in the family circle.

"And precisely the same thing may be said concerning women. The worst wife on earth, and the one that can bring most misery down on her husband's head, is the nagging wife. Compared with her the woman who is a poor cook, the woman who is a bad manager, the woman who is extravagant, even the vain and flirtatious woman is a capital prize in the matrimonial lottery.

"In proof of this, if you will notice, you will observe that as long as a man's wife is sweet and affectionate and cheerful and good natured and sufficiently liberal to give him some degree of individual freedom he will put up with a deal of bad housekeeping and wastefulness from her."

**Professional Affinity.**

"There goes a happy couple." "How did she happen to marry him?" "Oh, they had common interests. She was a brick throwing suffragette and he was a professional bondsman." — Kansas City Journal.

**Hope.**

"And you still have hopes of influencing old Titewad to become a regular attendant at your church?" "Yes; and I am more sanguine than ever." "You are?" "Yes. If the government really begins the coining of half cent pieces I regard it as a cinch." — Houston Post.

 Augustus W. Agnew, Agent.  
 Dated May 25th, 1912.  
 Pub. June 2, 1912.

**Jogging Laziness into Activity**

The merchant whose business lags in the summer has himself to thank.

To slacken the selling pace in the hot season—to lessen Advertising activity—indicates a resignation which has no place in modern business.

If we think we cannot keep our business booming in summer time, we surely will not.

What a jolt it must have been to the fur trade, when the first mid-summer fur advertisement was run in a daily paper! Now many fur stores are following the example of that progressive fur man who dared to believe that fur sales need not go down as the mercury goes up.

Energy, linked with Advertising, has turned the month of January into the biggest selling season for white goods. Advertisements of a high stimulative power, combined with a disregard of "seasons," have opened up automobile selling two months earlier than was once thought possible. Advertising has started Christmas shopping early in October instead of the middle of December.

Advertising rises superior to seasons and thermometers. The right kind of Advertising strikes a responsive cord in human nature—and human nature is the same in August as in December.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 303 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
