### KING AND QUEEN AT PITHEAD IN ENGLISH MINE DISASTER

**Seventy-Five Dead Brought to the Surface Today After Dreadful Double Explosion---Harrowing Scenes Amongst the Bereaved ---Queen's Sympathy With Widows---King Descended Adjoining Mine Shortly Before the Disaster**

Special to Daily News  
 Coalsborough, England, July 10.—Following rapidly one after the other two terrible explosions drove through the Cadeby Colliery yesterday, causing the death of nearly a hundred miners. Many are missing, and it is feared the death roll will run up higher yet. Three government mine inspectors were killed in the explosions, which resulted from the ignition by a shot of an immense

volume of gas and dust laden air in the workings. King George and Queen Mary were in the vicinity visiting the collieries when the disaster occurred, and the King had been down an adjoining mine very shortly before the accident. Seventy-five bodies were brought to the surface today, and the King and Queen personally visited the scene, expressing sympathy directly with many of the bereaved. The pithead scenes

were harrowing in the extreme, women fainting and giving way to wild hysterical outbursts of frantic grief. Her Majesty was visibly affected.

### SASKATCHEWAN ELECTION FEVER RUNS VERY HIGH

(Special to Daily News.)  
 Regina, July 10.—Charges and counter charges are marking the closing days of the bitterest campaigns in the history of Saskatchewan elections. Feeling is running high and both sides are confidently claiming victory. Both parties are calling upon their workers to arrest impersonators and heeblers. Trouble is expected on polling day and stormy scenes are expected at the polls. The "Province" newspaper here in an editorial actually calls upon the electors to arm themselves.

### HORRIBLE IS HEAT IN EAST

**Twenty-six Deaths Yesterday—Heat Crazed Laborer Leaps 100 Feet to Death from Moving Train—No Relief Yet.**

(Special to Daily News.)  
 Montreal, July 10.—The hot wave continues throughout the east and the terrific heat in the big cities has claimed many more victims. Seven deaths occurred in New York, nine in Chicago and two here, with several in other cities, making a total of the casualties due to heat for the day of twenty-six. No signs of relief yet. Near North Bay, while a heat crazed laborer was being taken to town, he jumped from the train to the river 100 feet below and was drowned.

### C. H. SAWLE IN THE CITY

**Editor of Omineca Herald Pays Visit to Prince Rupert and Has Good News of the Up River City of Mines and Agriculture.**

One of the visitors at present in Prince Rupert is Charles H. Sawle, an old timer of the city's newspaper life and a pioneer of newspaper work in Hazelton, as well as in Prince Rupert. Mr. Sawle, who was formerly city editor and part proprietor of the Optimist (now The Daily News), has established in Hazelton the Omineca Herald, a live newspaper for the great mining district. His accounts of mineral development in the Hazelton district at present are of the rosiest, and undoubtedly big big things will be seen up there when the railway reaches the city, which will be very soon now.

### SCOTSMEN HERE HONORED DEAD

**Funeral of Late Miss Mary Macdonald Held Yesterday Under Auspices of St. Andrew's Society to City's New Cemetery.**

With the simple dignity of an old land funeral to the far away kirk yard in the glen, the remains of the late Miss Mary Macdonald were borne yesterday to their resting place in Prince Rupert's new cemetery, still separated by considerable distance from the city's centre. Under the auspices of St. Andrew's Society of Prince Rupert the funeral was conducted, and a beautifully situated lot was secured for the grave. The funeral cortege started from E. L. Fisher's chapel on Second street, where service was held by Rev. Mr. Andrews of the Presbyterian Church. At the end of the as yet unfinished plank roadway to the cemetery the casket was borne on the men's shoulders to the graveside, where further services were held. Many friends of the deceased attended, and pall bearers from amongst leading citizens and members of St. Andrew's Society took the positions of deceased's distant relatives at the graveside. Following were the pall bearers: Alderman George W. Kerr, P. Kerr, George Scott, J. McKechnie, Robert Ross and M. J. McNeil, president of St. Andrew's Society.

**Pressure on Space.**

### BRO. MOODY HAS GONE BACK HOME

**Pioneer of Rupert's Early Days Takes His Very First Holiday in Four Years—Will Visit His Mother.**

After presiding over the territorial requirements of Prince Rupert from the earliest days of the city's establishment here, Brother Moody, the well known pioneer barber, has decided that a holiday will do him good. It is his first holiday in four years, and he is going back east to see his mother in the old home in Durand, Wisconsin. Afterward he will visit the eastern centres and will return to Prince Rupert in about six weeks or two months. Meantime his parlors are in charge of A. Gayzley.

### CHURCHILL KISSED THE BLARNEY STONE

London, July 3.—Mr. Winston Churchill, first lord of the admiralty, paid a visit of inspection to the Haulbowline dock yard at Cork yesterday, motored afterward to Blarney Castle and kissed the famous Blarney Stone, after ascending a tower 100 feet high to do this. He had to lean over the top of the tower head foremost, while Sir James Long held him by the leg to prevent the hope of British democracy from falling.

Mr. James D. Witten, one of the best known traveling men on the coast, and the western representative of James B. Robertson & Co.'s Scotch whisky, is a guest at the G. T. P. Inn.

#### THE COMING SHOW

**Advance Man for Del S. Lawrence Stock Company Here.**

Mr. George W. Beattie, in advance of the Del S. Lawrence Stock Company is here to smooth the way and prepare for the coming of the noted organization he represents. The two years in Spokane, two years in Seattle and one year in Sacramento and fourteen months in Vancouver is a sufficient guarantee of this company's excellence. Every member is an artist, they bring their own scenic equipment and will present a sequence of plays of the very highest class, superbly mounted and with casts flawless in every role. Every play produced will be staged and dressed with the same careful attention to detail as would be shown in any of the larger cities. The theory that anything will do for Prince Rupert holds no lodgment with the management of the Lawrence Stock Company. As a company it is their first introduction to this city and they intend to make good from the jump.

#### ENGLAND'S DANGER

**H. G. Wells Declares That It Lies in the Legislature.**

"With our whole social order in danger, our Legislature is busy over the trivial little affairs of the Welsh Established Church, whose whole endowment is not equal to the fortune of any one of half a dozen Titanic passengers or a tithe of the probable loss of another strike among the miners. We have a Legislature almost antiquarian, compiling a museum of Gladstone legacies rather than governing our world today."—H. G. Wells, in the London Daily Mail.

### ARRIVAL OF DR. CHANG KANG JEN

**Distinguished Visitor is Welcomed by Canadian Club President and Secretary and is Being Conducted Around City.**

Our distinguished visitor, the Chinese consul in Vancouver, the Hon. Dr. Chang Kang Jen, with his wife and two children, arrived this morning on the Prince George under most auspicious circumstances as regards weather, and a large gathering of citizens assembled on the wharf. The consul was welcomed by the Hon. Judge Young and Dr. W. T. Kergin on behalf of the Canadian Club. The consular party are registered at the G. T. P. Inn.

Today will be spent in visiting points of interest in the city, including a visit to Seal Cove and the big cold storage plant, which, by the way, will be in actual operation in a day or two. This will be of especial interest as showing the progress being made in preparing for the big industries in hand toward the upbuilding of our young city.

#### ASQUITH FACES A CRISIS

**Labor Members Threaten to Withdraw from House and Go on Stump.**

London, July 8.—The Asquith government is facing a serious domestic crisis, the first serious rift in the coalition lute that has not taken place. The Labor party has declared that unless the government candidate is withdrawn in the Hanley bye-election contest they will visit Hanley in body during the whole campaign and thus withdraw forty-three votes in the Commons. It

is declared on good authority that the government will persist in its intention to contest Hanley and thus a rupture is assured. It may be only temporary, but the consequences must be permanent.

The present challenge by the Labor party comes as a climax to a long series of incidents which have filled J. Ramsay Macdonald and his colleagues with bitterness. Seeing how narrow have been many of the recent government majorities in the House of Commons, the loss of the Labor vote on a motion of importance would imperil the existence of the cabinet.

### PRINCE RUPERT TWENTY MINUTES AGO

Municipal sprinkler leaves the rose garden for Sixth street to allay the dust trouble. Memories of a magnificent outing make many Anglican Sunday scholars wish for another Porcher Island picnic. Rumors of awful auto accident reach Seal Cove, but the man who tripped over a dog near the auto is all right. In the delicious coolness of ideal summer weather Prince Rupert sends sympathy back east. Merely Mabel says she's not going to make the mistake of the Vancouver lady who addressed the wife of the Chinese Consul in Pidgin talk and received a reply in pretty and perfect English.
