PRICE FIVE CENTS

FISH POACHING FRAY: SECT. 2 AGAIN: BIG DEAL

PRINCE RUPERT'S HOTTEST DAY FOR THE SEASON CONTRASTED WITH EXPERIENCES IN THE EAST

Today, according to the meteorological office, is the hottest ever experienced on the coast for several years. Shirt sleeves in offices, straw hats, parasols and pretty flimsy costumes are the order of the day in Prince Rupert. Nights are beautifully cool, though windows are left open, and some families have introduced the system of sleeping out of doors, more from eastern custom than because of actual necessity. The following items will show how things are during this hot spell in Toronto.

Dressed in Bear Skin.

Quite a sensation was created in a crowded ice cream parlor on Spadina avenue last night when the room was entered by a woman with a child of about three years, who was dressed like Gunga Din—in "nothing much before, and rather less than 'arf of that behind."

Babies in Distress.

It was the little babies who seemed to feel the heat most. They were dressed in the lightest possible costumes and put out in the street in every sort of a makeshift for a cot, from go-carts to biscuit boxes, but they could

not sleep and their pale, thin little upturned faces made a pathetic if mute appeal for fresh air.

Bull Terrier Bughouse.

A Boston bull terrier, owned by a Parliament street man, was overcome by the heat yesterday afternoon and attacked the zebras in the Riverside Park zoo, springing at the throat of one of them. The animal, defending her calf, interposed her head and was bitten on the cheek.

Sleep in the Streets.

The population of the Ward has moved into the street in a body. Chairs, tables, boxes, benches, and articles of every description were used to provide seating accommodation, and pedestrians were at many points well nigh forced off the sidewalk into the roadway by family parties camped there.

Sat on the Mens.

One tall, solemn looking Russian, who wore very little above his waist but a long black beard and a skull cap, presented a ludicrous appearance as he sat on a crate of live hens fanning himself in a most majestic manner with a diminutive red and white paper fan.

FURIOUS FIGHT WITH U. S. POACHERS

Victoria, July 18.—The fishery protection cruiser Newington seized the gasoline launch Bonita of Seattle two and a half miles off Nitinat on Saturday when trolling for salmon and towed the Bonita to Esquimalt today. When the launch attempted to make a get away for the boundary the Newington circled around her with the crew keeping up a fusillade of rifle fire. The cruiser finally bumped against the Bonita, turning her over and throwing the crew into the water. They were rescued and taken in custody.

SYSTEM ARC LIGHTS OVER THE CREEK

Authority was given Superintendent Matthews at the City Council meeting last night to extend the arc light system by four lights to points beyond Flays Creek, where more light is likely to be needed as the nights grow darker. The extra lights can be supplied, according to report of the superintendent, and there is money available to effect the installation.

OLD RELIABLE CHANGES TIME ON SATURDAYS

It is announced by J. H. Rogers today that the old reliable steamer Camosun will make an important change in her schedule on and after Saturday, applying to her hour of leaving Prince Rupert on Saturday until further notice. The Camosun will leave Rupert each Saturday at 10 p. m. instead of at 10 a. m. as formerly.

ARMY OF LABOR'S TOLL OF DEATH IN THE DOMINION

(Special to Daily News.)
Ottawa, July 18.—Sixty-two workmen were killed and 249 injured during June in Canada, according to the report of the Labor Department.

READY TO CALL FOR ESTIMATES FOR SECTION 2

At last night's council meeting the decision was made that if the property owners of Section Two lots will give their definite guarantee to purchase themselves the debentures issued in connection with this work, then the Council will call for preliminary estimates and ascertain exactly what the grading of the section and the various improvements proposed will cost with a view to the speedy undertaking of the work.

Visit the Warner and Hudson pre-emption and sand beach if you want an ideal camping spot for your holiday this summer. Bathing, fishing, fun and freedom. Two hours' launch run from Rupert on Porcher Island. **tf**

THE PLEASURES AND PROFITS OF PORCHER ISLAND'S ATTRACTIVE SAND-BEACHED PRE-EMPTIONS

Presented to Premier McBride when he arrived here was a basket of beautiful strawberries grown on Porcher Island. They were grown on the Warner and Hudson pre-emption after some three years' cultivation of the ground, the plants being second and first year roots. Beautifully firm and fine flavored, Porcher Island strawberries promise exceedingly well for Prince Rupert's supplies just at this season in years to come when southern strawberries are off the market

and up river berries are not yet in.

Fine Soil and Situation.

Porcher Island on the side nearest to Prince Rupert's harbor entrance is a fine bit of land. Forest fires some seventeen years ago have cleared naturally quite large meadow patches, and here the wild flowers are blooming in profusion, showing the fertility of the soil. In the pre-emptors' garden patches every class of vegetables grow to perfection. There are cabbages, cauliflowers, leeks, carrots, parsnips, potatoes, turnips, radishes, lettuce, rhubarb and many other varieties of vegetables and soft fruits besides strawberries. Gardening is going to be a great industry one day in Porcher Island toward Prince Rupert.

Superb Sand Beach.

Landing at this favored spot is made at a superb sand beach approached through sheltering groups of islets. Nothing more lovely than this stretch of sand exists anywhere nearer to Prince Rupert. The sand is silvery, soft and deep. Children play in it without chance of harm. Even

if particles get in one's eye they are too soft and rounded by the waves to scratch or hurt for long. When the sun pours down on the stretch of sand at low tide the surface is warmed so that as the tide rises the water is heated to a degree making bathing a delight. A large picnic party which spent last week-end over there enjoyed bathing several times, even though the sunshine was cloud obscured.

Splendid Sea Fishing.

There is really splendid sea fishing to be had just off the beach. Flounders, soles, cod and all varieties of such sea fish abound. Salmon trolling is superb just a few furlongs farther seaward. At low tide bait can be found in plenty. Cuttlefish, the catching of which is a sport in itself, make great bait, and the whole beach at low tide is teeming with curious and interesting finds. Last week's picnic party went over in the swift, commodious launch Alice B. Captain W. Thomas, this launch being particularly well adapted for making convenient landings at the sand beach.

THE VISION OF SIR RICHARD

If the bottom should chance to fall out of the Borden naval policy when it is announced, what are the chances for McBride's making good on the one he wants to borrow from Sir Wilfrid Laurier?

PREMIER STEPS FROM ONE BOAT TO THE OTHER

The Prince George left at 8 o'clock this morning for Stewart. Having made connections with the Prince John by wireless, the two boats met at Kinahan Island, where a transfer of the government party was effected. S. R. Richard and his party, who have certainly covered a lot of territory in their short visit, will return here tomorrow morning at 6 o'clock, leaving for the south at 9.

GREAT WHEAT PROSPECTS

(Special to Daily News.)
Ottawa, July 18.—The latest government report, just issued, declares the prospects for spring sown cereal crops are generally favorable. Under wheat this year are 10,047,300 acres, compared with 10,377,159 acres last year. Opportune rains fall in the west.

THE WEATHER.

For twenty-four hours ending 5 a. m., July 18th: Barometer, 30.049; maximum temperature, 82; minimum temperature, 53.

WOMAN LEAPS FROM WHARF THIS MORNING

An aquatic affair, at the present time somewhat shrouded in mystery, occurred early this morning at the G. T. P. wharf. Apparently answering cries for help from the briny deep, the G. T. P. night watchman, with the assistance of some of the crew of the Prince George, fished out of the water a lady in negligee attire who had had an early morning bath and found difficulty in reaching terra firma again. Upon being brought to land she was immediately wafted away in an automobile. The police are investigating the affair.

FIERCE HEAT DRIVES RUNNERS HALF CRAZY

Toronto, July 17.—Stories of terrible sufferings amongst the runners in the Swedish Olympic Marathon come to hand from various sources. It is stated in some that competitors in the terribly trying Marathon race were driven half crazy by the heat, and that one runner, Lazaro, died of sunstroke. The American runners made good under circumstances such as no modern Marathon has ever yet occasioned, and deserve all congratulation. Scenes along the course as runners lost their self control under the blazing sun, were nerve racking in the extreme.

Translation for Archbishop

Vancouver, B.C., July 17.—Archbishop McNeill received word from Rome that he has been appointed Arch-diocese of Toronto.

\$60,000 REAL ESTATE DEAL IN RUPERT

The Continental Trust Company concluded an important real estate deal today by cable. Nine lots on First avenue, directly opposite the site of the shortly to be created Provincial government buildings were transferred to an English capitalist for the sum of \$60,000. It is confidently announced that excavation work for the Provincial buildings will be commenced almost immediately.

GOLD SHIP LANDS TODAY AT SEATTLE

(Special to Daily News.)
Seattle, July 17.—The Golden Potlach, Seattle's annual carnival, is now opened and will continue a week. The city is filled with visitors, the estimates ranging from 50,000 to 100,000 and the hotel accommodation is taxed to the limit. Some of the larger hotels are turning away guests.

Aeroplane and hydroplane flights are made twice daily along the waterfront. Tyee of the Potlach, who in real life is Geo. W. Allen, a well-known business man, is somewhere at sea in "the goldship Portland," and lands with his "chiefs and totems" on the waterfront today.

Best meal in town at Savoy.

PROPELLORS NO PROTECTION FOR THIS PRISONER

A novel means of escape was attempted by Frank Calvin, a Seattle man, wanted on a charge of shooting, who dived from the pier at Seattle and secured a strangle hold on the rudder post of the C. P. R. steamer Princess Victoria. Calvin was wanted by the United States authorities on a charge of having attempted to shoot Miss Irving, a nurse engaged in the Eatonville Hospital, Pierce County.

The man was arrested in Vancouver, where he had fled to escape while under a \$5,000 bond pending the appeal of his case to the Supreme Court. He was taken back to Seattle and when leaving the pier the man eluded the vigilance of the officers and leaped over the dock.

When the sheriff in charge of the prisoner fired a shot ahead of the swimmer, he turned and grasped the rudder of the Victoria as she was preparing to leave for the capital. The engines were stopped and a rope was thrown, but Calvin refused to grasp it. A boat was immediately lowered over the side and Calvin was again encircled by the arm of the law.

D. M. Bain, photographer, has severed all connection with the Peerless Studio and is now located at the Panama Studio, 613 Third avenue (above Burns' meat market). Portrait and commercial work. Enlargements done at reasonable prices. 21

Warm, clean rooms at Savoy.

PRINCE RUPERT THIS TIME LAST YEAR

Alderman Newton declares much city money is wasted in digging to put down sewers and then digging them up again. Alderman Hilditch offers to take Alderman Newton around town and show him hundreds of things he doesn't know about sewers. Police raid Grand Hotel and round up a couple of gamblers. Discussion regarding towing of sniff yacht suggests regular sniff fleet soon. F. T. Congdon, M. P. for Yukon, and most finished speaker, passes south through Rupert.

THURSDAY, JULY 18

Daily News on Daily Doings

BUT OUT WEST WE HAVE SEEN MUCH WORSE.

Quoted elsewhere in this issue is an editorial published in the Toronto Globe during the Saskatchewan elections. It is evident that the methods of the Hon. Robert Rogers' nominees in the fray struck the Eastern Canadian mind with shocking effect. But rough and raw as the Rogers method certainly is, crude, cruel and false as is the advertisement attempting to compel Conservative support willy-nilly, there seems nothing in it especially unusual to those accustomed to election methods used by the same party in the west. The employment of fire wardens to influence votes, the presence of Provincial constables in the polling booths, the intimidation of ignorant electors in need of work on roads and trails, the use of Dominion government vessels for electioneering purposes—long experience of such abuses has inured the elector of British Columbia, the province of the Bowser and McBride influence, to trifles like threats to electors that they cannot get homesteads or security of tenure unless they vote Conservative.

DID YOU GET YOURS ALL RIGHT?

The following appeared as part of an Ottawa despatch on the front page of a morning paper recently:
 "Ottawa, July 9.—Some Statistics are contained in the annual report of the Inland Revenue Department, showing a rapid increase in the consumption of liquor and tobacco in the Dominion during the last fiscal year.

"The consumption of spirits last year jumped to 1,030 gallons per head, as compared with 859 gallons per head for the preceding year, Canadians drank 859 gallons of beer per head last year, as compared with 5,434 gallons per head in 1910-11."

The reader will note that this provides for about the three gallons of whisky (to say nothing of beer) for every day for every man, woman and child in the whole of Canada. The question is: "Did you get yours? And if so, did it seem enough?"

BORDEN'S MYTHICAL DREADNOUGHTS.

Disillusioned and disappointed because of Mr. Borden's emphatic statement that the government of Canada has no intention of making an immediate contribution of two dreadnoughts to the British navy, the London Tory-Imperialists are seeking to discover the origin of the myth. That the contribution had been decided upon seems to have been very widely believed. The mythical Canadian dreadnoughts may already have been the cause of trouble to Great Britain, for the acceleration of the German ship building programme was quite possibly due in part to fear that the Borden dreadnoughts—like that of New Zealand—would be added to the British North Sea fleet. Whatever its origin, the dreadnought myth has been exploded, and if Germany has not yet begun to build real ships to match the dreadnoughts launched by the Montreal Star and Toronto News she should stay her hand. Paper ships—even newspaper ships—are not dangerous.—Toronto Globe.

Vancouver Brand :-: Portland Cement

This Cement, supplied for the Church of England, has been tested by C. D. Heward, J. H. Pillsbury and J. L. Proctor, and eight briquettes showed an average tensile strength of 792 pounds to the square inch. Standard specifications call for 450 to 550 pounds to the square inch. The city specifications called for only 400 pounds to the square inch.

NEW BARGAINS EVERY DAY

—AT—

HART'S
Big Furniture Sale

Remember that we have by far the largest stock of House Furnishings in town. It's so large that you can't possibly go through it in one day's shopping. In order to get and know what is here you ought to come back several times.

We Guarantee to save you lots of money

during this sale. It's up to you now. Come again before it's too late.

MORE MATTRESSES

We are completely sold out of the Ostermoor, but we had some Restmoors on the way and they arrived this morning. So you can now get a good Mattress cheap.

Enamelware Cheap

This is the time you ought to stock up, when you can buy so cheap. Our former prices were just about double what they are now, and we know you can't possibly buy them at such little prices anywhere else.

You know a special sale like this don't happen every day or even every month. So you had better come now while the selection is still good.

F. HAYHURST - - - Sales Manager

PEOPLE NOW DRESS IN PAPER TO SAVE CASH

London, July 16.—Though the problem of the high cost of living has not yet become so acute in this country as, to judge from the American correspondence in London papers, it has become in the United States, it is nevertheless sufficiently serious, and any method of reducing prices that is suggested is eagerly examined. The latest idea is clothing made of paper.

A representative of a large city firm of paper manufacturers states that they are at the present moment experimenting in the hope of producing a kind of paper really suitable for the making of clothes which can be sewn and hold buttons. "Paper towels are an excellent idea—these are made in Germany," he said.

Paper hats have been a fashion for some time. Instead of wearing washable cotton sunbonnets and caps, children can have each

a new paper hat costing from 2 to 12 cents, which takes one item off the laundry bill.

Paper shirts are being produced at 12 cents apiece, while the cost of a paper handkerchief is 2 cents—the price of washing a linen one.

In the household, too, the washing bill can be largely reduced by using paper instead of linen, for now there are paper blinds—lace edged—paper serviettes, paper toilette mats, paper doilies, paper table covers, white paper toweling could be adapted to kitchen use for tea cloths, dusters and similar articles.

OLD COUNTRY MAKES GOOD SHOOTING

Bisley Camp, July 17.—The team representing the mother country today won the Kolopore Cup with 761 points. South Africa was second with 750, and Canada third with 746. Guernsey made 725 and India 724.

THE POLITE BURGLAR AGAIN IN EVIDENCE

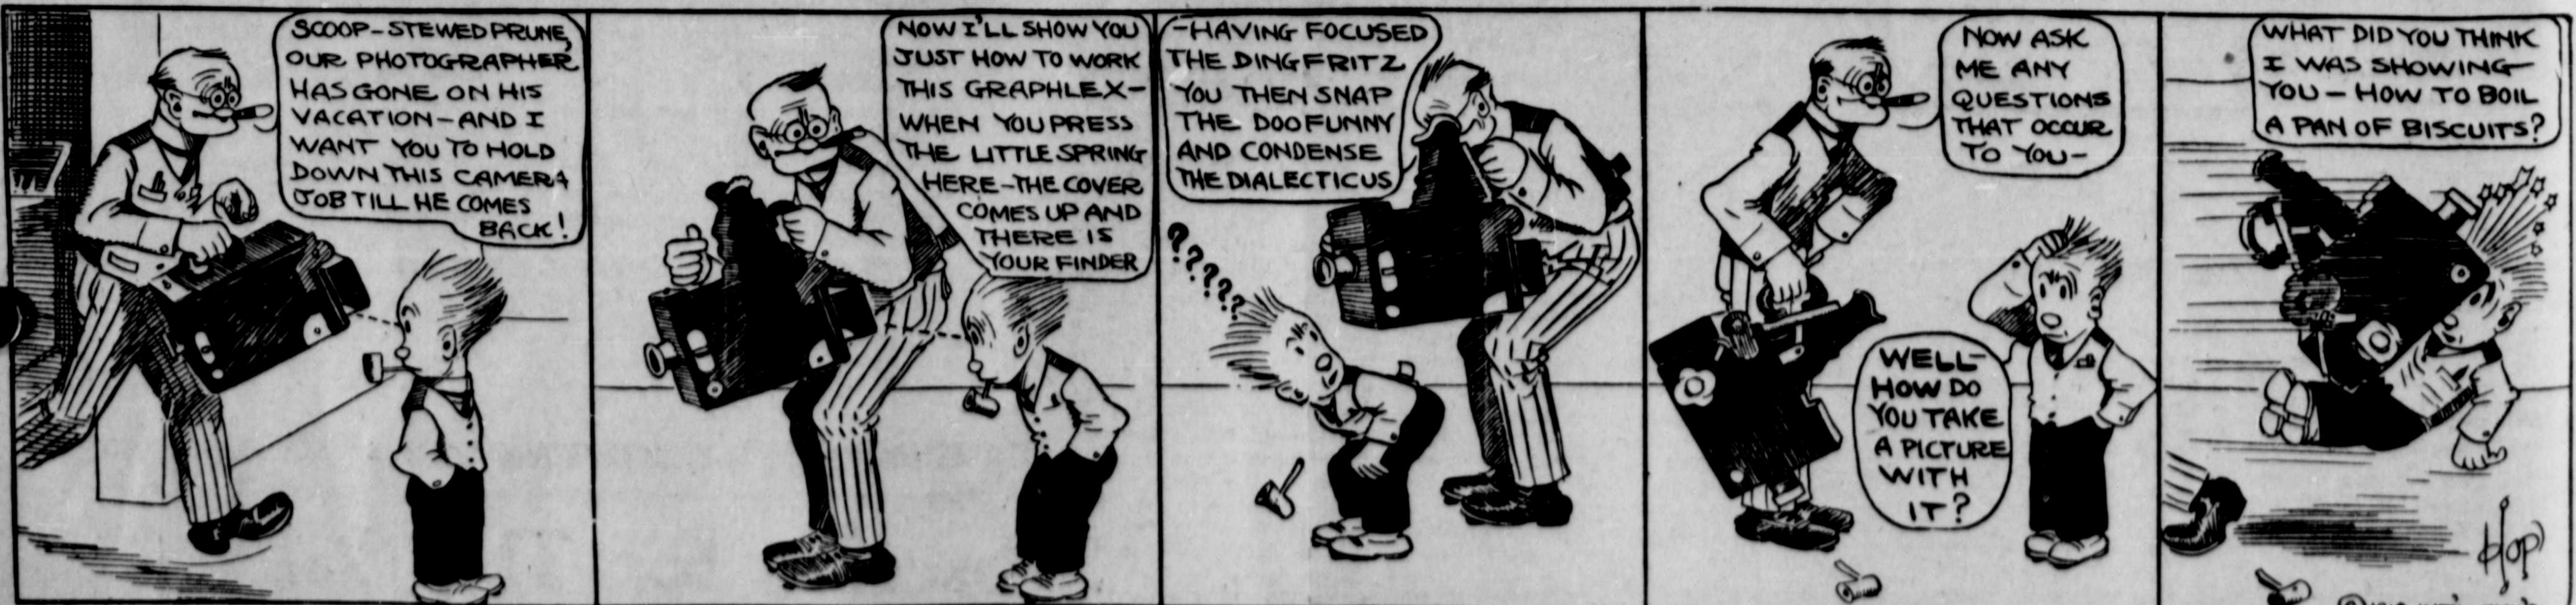

San Francisco, July 16.—"Good morning. Your careless bartender locked me in last night while I was asleep in a back room," said a well dressed young man to Thomas Lawson when he opened his saloon yesterday morning. The young man bought a drink, asked Lawson's apologies and stepped out. Lawson discovered a few moments later that his safe had been blown and \$300 taken.

CULTIVATE THE SPIRIT OF CONTENTMENT

Contentment is one of the greatest factors of happiness. Indeed it is more than that; it is another name for happiness. And there is nothing on earth so dangerous to contentment as being too much with people who have a great deal more of this world's goods than you.

You Do Not Know

Where to Invest?

Let us tell you. There should be no difficulty about a matter of this kind if you take the trouble to exercise ordinary care and common sense. You would not invest in an old decaying city whose pulse has almost ceased to beat, would you? So, you would put your money into a place where there is life and hope!

Well! Why Don't You Try the West?

We suggest the west, because the west spells progress! Here are the cities of the future, where hamlets existed a few years ago. Here are the towns which possess both sea and rail transportation facilities! Here are the towns whose strategic positions ensure them becoming large commercial distributing centres in the near future! Here is **Alberni**, the future Liverpool of Canada.

A Seaport Town of no Small Renown

So situated at the head of Alberni Canal on the west coast of Vancouver Island, its importance as a seaport town cannot be realized, or too strongly emphasized. This canal opens itself out into the Pacific Ocean, after its land locked course from Alberni, extending for a distance of 26 miles. Its water is of great depth, permitting of safe navigation to the largest vessels plying the west coast, being only three miles in width. An investment in a place possessed of such enviable features.

Must Surely be one of the Best!

Yes! Without a shadow of a doubt it is one of the best! Don't be asleep to these great chances, which do not come so often. Remember, Alberni is all recent served by one great transcontinental railway system, the Canadian Pacific Railway, and by the end of the year the Canadian Northern will have completed a track into Alberni. Then will come the dredging of Seymour Narrows, connecting the island with the mainland. Mail and passengers from the Orient and other routes via the Panama Canal, to be opened next year, will be landed at Alberni, and transported by rail to Vancouver, saving from eight to twenty-four hours to the present route.

ALBERNI therefore is where you should invest. Lots can be bought for \$150, inside the town limits. Easy terms, 10% cash, 5% per month. Test it for yourself. Buy a lot today and help to develop the west.

THE SPIRIT OF DISCONTENT IS A SIGN OF THE PROGRESS ASTIR IN THE WORLD TODAY

The world wide spirit of unrest and discontent which is agitating the ranks of the toilers constitutes one of the most difficult and pressing problems of our times. Widely divergent views obtain as to the cause and remedies. In the pulpit, on the platform, and in the press the subject has been treated from many standpoints. What astonishes the onlooker most is the undue emphasis laid on the spirit of discontent that prevails. It seems to be regarded as something novel that the masses of the people no longer accept the traditional interpretation of St. Paul's counsel to the Philippians "I have learned in whatsoever state I am, therewith to be content." And yet, if one reflects, this dissatisfaction with present conditions is the locomotive on which all social, moral and political reformers rely for progress. From time immemorial men have provoked unrest and discontent and employed it as a lever for the redress of wrongs. But throughout this whole discussion there is an undertone of surprise and a feeling of vague apprehension because the masses of the people, without any apparent lead from the governing classes or political leaders are simmering with revolt and challenging old-established theories.

Immediately the symptoms appear learned economists proceed to examine the social rash as a chemist would a new bacillus. They theorize and dogmatize, but the patient is not satisfied to be treated as a doctor would treat an obscure disease. The patient in this case claims to know more about his malady than the learned men who surround the dissecting table or pore over weighty tomes in search of precedents and remedies. In short, he denies to any class of men, however learned in their own conceit, the right to supply remedies without reference to his own desires. It is this phase of the labor unrest that causes astonishment. The workingman is discontented and in a state of revolt not only because of his condition, but also by reason of the fact that under existing party systems of government he may have the power to vote on legislation, but has no power to initiate it. Every avenue to the

governing power is blocked by the governing classes.

The popular delusion that a governing class cannot exist in democratic countries has been exploded. The fight in the United States is the revolt of the people against class privileges and arrogant rule. It is a repetition of the old struggle of Cromwell against Charles, of the people against the barons. On every side one hears appeals to authority based on class rule. Authority claims obedience and respect when it springs not from a self-centered class, but from the whole people. Government is divinely ordered when it draws its inspiration and life from the whole community, recognizing all the governed as active partners in the responsibility that gives it birth. Subordination to authority has been too long preached by the few to the many. There is a revolt against the political idolatry that substitutes the worship of the golden calf for the gospel of equality and liberty.

Happy the statesman, the party, or the nation that recognizes in this universal unrest the voice of Truth calling men back to a healthy and commendable quality when identified with the legitimate and progressive desires of the great bulk of humanity. Throughout the world it is identified today with a growing demand for a fuller measure of self government as opposed to class rule.—Toronto Globe.

BANK OF MONTREAL ADDS TO CAPITAL

The shareholders of the Bank of Montreal have authorized the increase in authorized capital to \$25,000,000. When the recent issue of \$1,600,000 is fully paid up in August the capital will stand at \$16,000,000, so that the authorization asked for means the addition of \$9,000,000 to authorized capital.

A Modern Force in Business

ADVERTISING has established a new order of things in commerce. It has become a mighty power in business progress; a complex yet comprehensible transmitter of many parts for the distribution and selling of merchandise and service.

Its function is fivefold:

To enlighten or educate—to create new wants or to satisfy old ones—to protect and foster legitimate enterprise—to establish a medium of understanding between buyer and seller as a basis for mutual profit and advantage—to prescribe an economical price and the maintenance of a fixed standard of quality.

None know better than the buying public how well these functions have been fulfilled.

Modern advertising has given us an insight into various manufacturing processes. The producer has taken us, the consumers, into his confidence and told us just how his mince meat, his flour, his clothing, etc., is made. We know why certain things should or should not be. Advertising has told us—broadened our understanding and guided our judgment.

Modern advertising has enabled us to unlock the treasure house of the world's divinest melodies through the medium of the player-piano. The motor car has lengthened the business day and brought the fragrant countryside to our door. Men shave in comfort in ten minutes where they used to take twenty. A magic

bottle provides us with cold drinks with the weather at 90 degrees or gives us a warm beverage when Jack Frost dips at 40 below.

Modern advertising has elevated the standard of business ethics. It protects the manufacturer from unscrupulous competition and the consumer from base imitation. It conserves trade—extends business—creates good will. It enables the corporation, the manufacturer or private individual on trial to take his case directly to the public, and to secure the public's judgment on his policy or character based purely upon their respective merits.

Modern advertising has opened up new opportunities to the oppressed and poor of far-off lands. It has turned an unceasing tide of immigration to new countries. It has developed nations, and made the name of the New World a promise of better things among the people of the Old.

All this advertising has done and will continue to do. It is the ever-increasing influence for the advancement of mankind—the most potent, indeed, of the many forces influencing human action.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.
