PRICE FIVE CENTS

CITY COUNCIL: NEW CRUISERS: BORDEN ADDRESS

SEWERS NOT LONG BUT DEEP

Sewers not long, perhaps, but deep—these were discussed by the City Council last night following a very lucid report on the subject of deep versus shallow sewers presented by Acting City Engineer Mason.

Mr. Mason in his report very strongly favored the deep sewer scheme, but advised the Council against fixing, say, a five foot or a fourteen foot level for the sewer scheme. His reason for this was that owners of certain extra low lots might insist on the city's adherence to the fourteen foot level below their ground level basements, and thus put in double basements, while the city's policy is to provide only single basement deep level sewers. The Council adopted the acting city engineer's report, after hearing several important lot owners, all in favor of deep level sewers. The Council seemed unanimously in favor of the deep level policy for the future, though finances are not in sight for the deep sewers at present.

Of Grave Importance.

A communication from the city assessor, J. C. McLennan, in regard to the price it would be advisable to charge for grave in the cemetery was referred to the Park Commission.

TO WELCOME CONNAUGHT TO RUPERT

Last night the genial Finance Minister proposed that the Mayor should be authorized to call a public meeting to make arrangements for the reception of the Governor General when he arrives, and the motion was carried. City Solicitor Peters read the invitation he had prepared on behalf of the city for the Duke and which the Mayor, rather grossly, said he thought had been off long ago. The motion that the Mayor should summon a mass meeting soon for the purpose stated was carried.

EMPEROR OF JAPAN IS IMPROVING

(Special to Daily News.)

Tokio, July 22.—More favorable news concerning the illness of the Emperor of Japan came from the Palace today. The secretary of the Imperial Household announced at 8 o'clock that the condition of his majesty was considerably improved and that the attending court physicians were more hopeful. The Emperor fell asleep at midnight and had nearly six hours undisturbed rest.

Pantorium Pioneer Cleaners, Phone 4.

LORD MILNER IS COMING TO CANADA SOON

(Canadian Press Despatch.)

Ottawa, July 22.—Definite word has been received here that Lord Milner will arrive in Canada in September on a visit which will probably extend over a period of several weeks.

PROBLEM OF REPAIRING OLD SEWER

Last night the Council again wrestled with the problem of repairs to the sewer on Second avenue which is broken down. Acting City Engineer Mason was asked to advise on the matter. He said it would cost not less than \$4,000 to put in at this point part of the permanent sewer scheme. To make repairs to the existing sewer might cost a few hundred dollars or might cost a great deal more. It was impossible to say how much of the sewer was broken. This would have to be discovered by sinking. If the city were not short of cash the best thing to do would be to put in the portion of the permanent sewer—if not, then perhaps the only course would be to try and repair the sewer at as little cost as possible. The matter was finally left to the Board of Works and City Engineer for report.

FAST CRUISERS FOR THIS COAST WILL BE BUILT

(Special to Daily News.)

Ottawa, July 23.—Tenders have been called for the construction of two fast fisheries protection cruisers for the Pacific coast. Completion is to be rushed as the department is anxious to have them owing to encroachments of Russian, Japanese and American vessels on Canadian territorial waters.

MAY HAVE COL. HUGHES IN RUPERT

(Special to Daily News.)

Ottawa, July 22.—Hon. Colonel Sam Hughes, Minister of Militia, accompanied by Mrs. Hughes, left tonight on a four weeks trip to the Pacific coast. Colonel Hughes will inspect the various militia properties in the west and will ascertain the needs of the western provinces for the erection of drill halls.

Judge Goes Inland.

Judge Young left on yesterday morning's train to hold court at Hazelton.

DOCTORS AND GOVERNMENT IN GT. BRITAIN

London, July 22.—Trouble between the British government and the doctors of the United Kingdom over the national insurance act from all appearances may develop into something more serious. The doctors are determined to gain their point of securing raises in fees for attendance on the sick under the act. At private, but very representative, meeting of members of the British Medical Association was held in Liverpool on Saturday, when it was decided by an overwhelming majority that the present rupture between the physicians and the government would be supported.

Roses Football Club.

There will be a meeting tonight in the Maple Leaf Cafe at 8 o'clock sharp.

Wanted—Board, without bedrooms, for two children; boy 11, girl 9; until September 1st next.

H. S. WALLACE.

BYLAWS THAT ARE NOT ENFORCED

There was some discussion at the city council meeting last evening in regard to the complaint by D. O. Keyser, the contractor for the Empress Hotel extension, that he had been approached by the building inspector in regard to paying rent for space use and also a water rate during the period of his contract. In strict accordance with the building bylaw, he admitted he was liable. But the bylaw has so far been inoperative, and he thought it unfair that he should be the first contractor it should be enforced against. The Mayor agreed with this, as also did most of the Council. Alderman Morrissey, however, addressed a very pertinent question to the Mayor as to the wisdom of passing by-laws if they were not going to be enforced. Also he would like to know if a date could not be decided upon from which time by-laws that were upon the city statute books would have to be lived up to.

CHEER UP, JUICE WILL BE CHEAPER!

A report from Light Plant Superintendent Matthews was read in council last night setting forth that the price of electric power from the city plant can be reduced shortly to 4 1/2 cents per kilowatt hour, instead of 9 cents. The news was welcomed by the Aldermen, as it will be by users of power. Alderman Kerr gave the gratifying information that more power was wanted at the price and that further applications are coming in for light. There was a suggestion that light be also reduced, but there was some dubiety over this, and eventually this portion of the report was held over.

Visit the Warner and Hudson pre-emption and sand beach if you want an ideal camping spot for your holiday this summer. Bathing, fishing, fun and freedom. Two hours' launch run from Rupert on Porcher Island.

CHAS. DEAN EXTRADITED FOR TRIAL

(Special to Daily News.)

Los Angeles, July 23.—Charles Dean, wanted as one of the five men alleged to be implicated in the gigantic robbery of the Bank of Montreal at New Westminster last September, was ordered extradited by the American government today.

FISHERY EXPERT HERE AND BUSY

The future of one of our great commercial assets, the fishing industry, is receiving the careful and painstaking investigation at present of a party of distinguished Dominion and Provincial fisheries experts. The following gentlemen arrived in the city last evening from the Skeena, where they have been making a tour of the canneries and coast waters generally: Mr. Found, fisheries expert of the Dominion government at Ottawa; Mr. Cunningham, the Dominion fisheries expert on the coast here; J. T. Williams, the Dominion government inspector for this district, and D. N. McIntyre, deputy fishery commissioner for the province. The party left this morning for the Naas on the government launch Kyax.

BORDEN AND BRITISH BOARD OF TRADE

London, July 22.—The Chamber of Commerce entertained Premier Borden and ministers at a banquet tonight. Hon. L. P. Pelletier was indisposed and unable to be present. Five hundred of London's merchant princes were present. Borden declared that Canada would shoulder her responsibilities and that the two great races of the British and French would develop the resources of the Dominion together.

FIRE HALL BOTHERED BY VIBRATION

It turns out that the new fire hall is suffering from vibrations due to the energy of the red devil on its rushes in and out and to the fact that the fire hall basement was left free from large bracing in order that it might be used for storage purposes. Acting City Engineer Mason at last night's council meeting recommended that the basement be braced, even at the cost of its fitness as a storage place. The work is likely to be done and an estimate obtained as to the cost of a concrete basement.

HIGH SCHOOL; NEW TEACHERS; PLAYGROUNDS

Two new teachers will be in charge of rooms at Prince Rupert public school when it reopens after the vacation. The ladies are Miss Jenns and Miss Nelson. Both are experienced and come with excellent credentials. They were chosen by the board at a meeting held yesterday afternoon from amongst a great many applicants.

Application is to be made to the Minister of Education to enable Prince Rupert public school to carry on high school work, and applications will be entertained for a teacher to undertake this work for one class at first. Premier McBride and Attorney General Bowser have been approached on the subject and their support is assured.

A request from the City Council that the school trustees should disburse with the appropriation of \$5,000 from the city for improvement of the grounds about the school was read. The board felt, however, that this most necessary work for the health of the scholars and the proper development of the school in line with other schools in smaller centres of the province could not be abandoned this year. The City Council will be notified accordingly.

SECTION 2 GRADING IN ABEYANCE

In reply to a communication from the city clerk to C. E. Bainter, secretary of the Property Owners' Association of Section 2, in regard to the amount of money that would be forthcoming toward the building of the bridge over Morse Creek, Mr. Bainter replied that, having received encouraging assurances from the government during the recent visit of the ministers of substantial assistance from the Provincial government, they would like to leave the matter in abeyance for a week or two until hearing from Victoria further in the matter.

LONDON MAN IS KING'S PRIZE WINNER, 1912

Bisley, July 22.—Private Fulton of the Queen's Westminsters, London, won the King's prize. Fulton won the King's prize in 1888 also.

Captain Forrest of Vancouver won second prize for St. George's vase. He was also well up in the King's competition, being some thirty odd points behind the winner.

Launch Alice B., W. J. Thomas, Phone Green 391. Govt. Wharf.

"MOST IMPRESSIVELY" MAYOR VETOES COUNCIL'S VOTE IN FAVOR OF BUYING \$15 FAN

Over certain requisitions for the Telephone department, including a ventilating fan for the switch board room, there broke out an unseemly enough altercation between Alderman Morrissey and the Mayor in council last night.

Mayor Was Wrathful.

It was the Mayor who began it. He resented most "impressively," as he put it, this "continual demanding of things which they know very well the city cannot afford." The Mayor resented the necessity being thrust upon him frequently of objecting to such expenditures.

Morrissey Is Gallant.

That irrepressible gallantry of his race came out vigorously in Alderman Morrissey, as he stoutly stood up for the sanctioning of the fan requisitioned. He pointed out that the little hello girl, busy with both hands and wearing hot ear pieces and head bands as part of the apparatus of her employment, cannot use the natural manner of cooling herself in a close, stuffy room by fanning with a kerchief. She cannot leave her seat to take a breath of fresh air at the door.

Undignified altercation at the Council Between Executive Head and Board of Works Chairman—Mayor Charges Morrissey With Extravagance; Morrissey Says the Mayor is Penny-wise, and Needs Help Over Trifling Finance.

Alderman Morrissey supported the requisition of the electric fan.

Mayor's Outburst.

At this the Mayor broke out with considerable emphasis, railing at Alderman Morrissey for "always supporting these extravagant expenditures, for which he knows well we have not the money."

Indignantly Alderman Morrissey denied the allegation, declaring that, on the contrary, he had shown the Mayor himself how to save enough money to furnish the city hall, and adding scornfully: "You were only too glad, Mr. Mayor, to avail yourself of my suggestion."

Montgomery in It.

Without making any outcry, though the voices of the Mayor and Alderman Morrissey had

risen angrily, Alderman Montgomery added his support to the requisition. Alderman Maitland said he did not belong to the Finance committee and did not want to. He supported the requisition. Alderman Bullock-Webster suggested referring it to the medical health officer. The motion went to the Council and was carried in favor of the requisition's being granted and the fan supplied.

"All right," said the Mayor with determination, "but mark you, I shall not sanction this requisition."

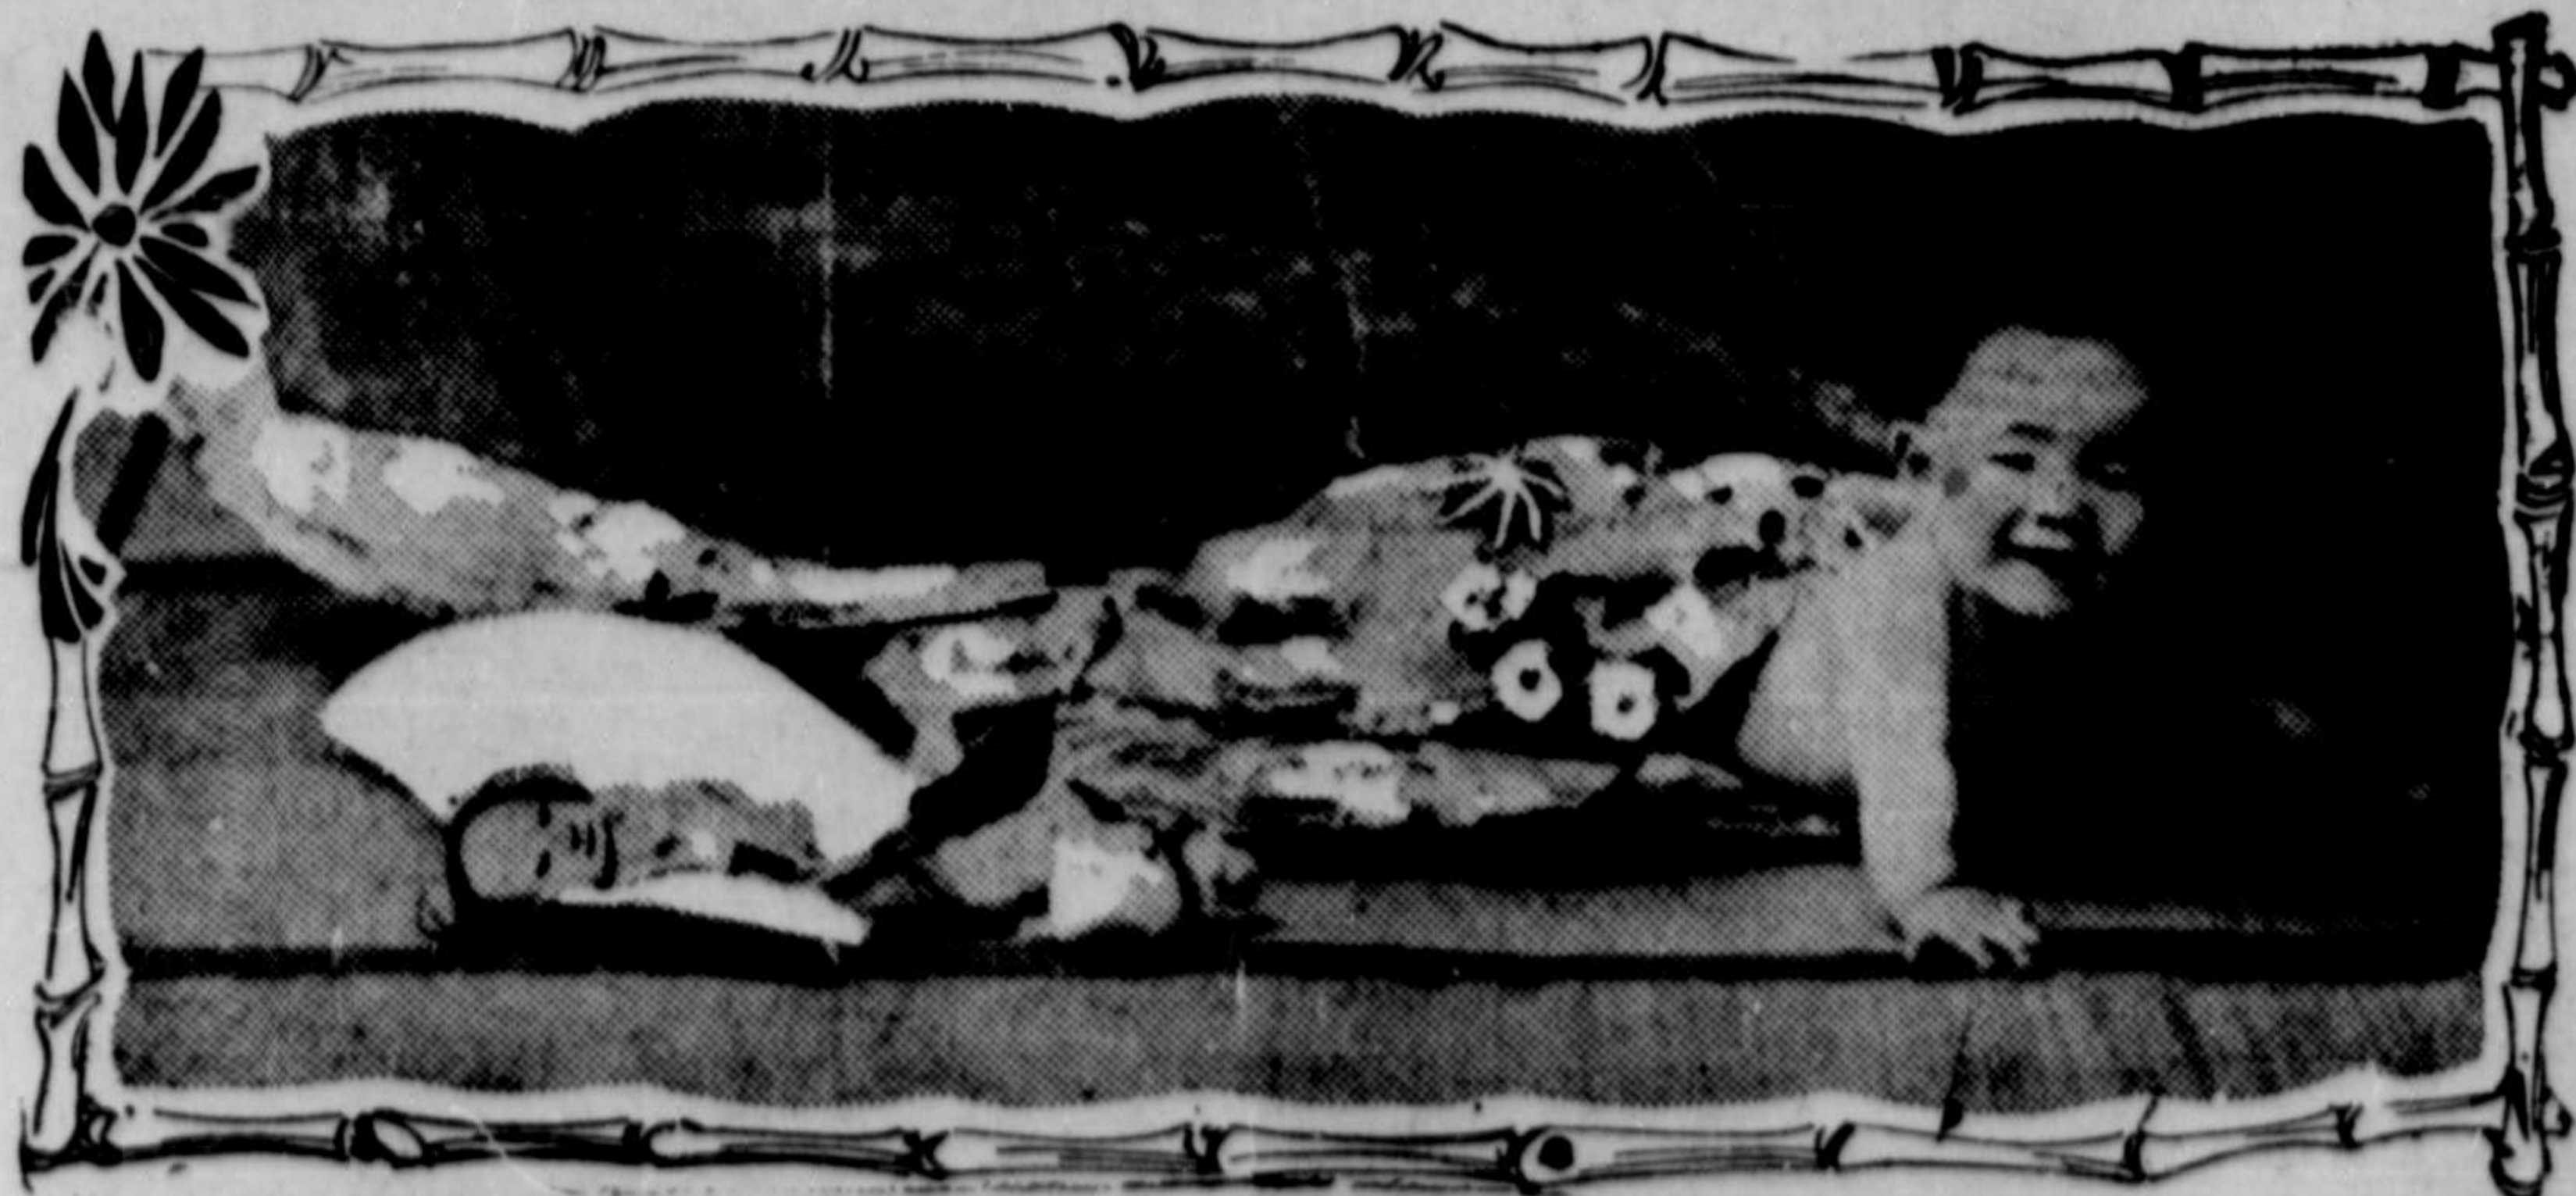

"We can override your veto," put in Alderman Morrissey.

"Will you be quiet!" snapped the Mayor. "I am talking. Will you stop interrupting with your remarks?"

"Let me remind you," continued Morrissey unperturbed, "that you deliberately sanctioned the granting of allowances to city employees leaving, though there is nothing in your bylaws to warrant it. This is an expenditure of only \$15. The other was \$400 and more."

"Oh, I know! I know!" exclaimed the Mayor, "but it's \$15 here and \$17 there and \$40 against, and that's what breaks the camel's back!"

SEWERS NOT LONG BUT DEEP.

Even if the City Council had really desired to commit Prince Rupert to a policy of shallow sewers the citizens are quite evidently wide-awake enough to have prevented this. Last night the Council to a man fell in line with the recommendations of Acting City Engineer Mason in favor of a deep level sewer system, not necessarily tied down to any fixed depth, but serving single basements at all events in all parts of the city where sewers are to be constructed. Mr. Mason showed the Council the danger of a policy specifying a certain depth of sewer. It might bind the city to construct sewers to serve double or treble deep basements in certain favored spots where nature has provided lots with below grade depth equal to three storey height of building above grade. In adopting the Acting City Engineer's report Prince Rupert shows confidence in its own future. Shallow sewers or sewers not designed to meet the needs of a great and growing community might serve this city for a season or two, but would have inevitably to be reconstructed at enormous expense by the very same taxpayers who would pay today for putting in the system.

A SMALL BONE OF CONTENTION.

It was a pity that the Mayor last night chose to fall out with Alderman Morrissey over the petty question of the cost of an electric fan, purchase of which was proposed by the Electric Light and Phone committee to render the lot of the "hello" girls more congenial on sultry days. No matter how right the Mayor may be as regards the difficulty of financing various expenses necessary for the city, his veto of this proposed purchase in the teeth of a majority vote in its favor by the whole Council is not calculated to improve his popularity. All Prince Rupert knows

that the municipal phone system is good, and the service excellent. All Prince Rupert knows that the municipal phone system for long held the position of being the only municipal concern that was actually paying. Prince Rupert is not too large a city yet for the citizens using the phone to appreciate the personalities of the ready and attentive "hello" girls who help in no small measure to make the system the envy of the Pacific Coast. There are few citizens surely who would not even go out of their way to further the comfort of the phone girl cooped up at the switch board with fairly heavy and hot head gear. But while the gallant Irishman in Morrissey makes him do battle for the girls, while his consistent consideration of the welfare of labor makes Montgomery follow suit, while Maitland and others at the council board are big enough men every way to favor the fifteen dollar outlay, the Mayor chooses to cheese-pare "most impressively" over one little item involving the comfort of girl labor for the city.

WEST REMEMBERS RECIPROCITY.

Just as nothing succeeds like success, so nothing fails like failure. Everybody can see now that it was the height of folly for Mr. Rogers to identify himself with the conduct of the Saskatchewan campaign. The Free Press warned him before the fight began that nothing but success, which was highly problematical, could justify his interference; but at that range warnings were wasted. The intervention of the Dominion forces undoubtedly accentuated the Liberal victory. The electors resented what they regarded as an attempt by eastern interests operating through the Dominion government to destroy a government whose fiscal views they did not view with favor and slaughtered the Conservative candidates right and left.—Manitoba Free Press.

Vancouver Brand :- Portland Cement

This Cement, supplied for the Church of England, has been tested by C. D. Heward, J. H. Pillsbury and J. L. Proctor, and eight briquettes showed an average tensile strength of 792 pounds to the square inch. Standard specifications call for 450 to 550 pounds to the square inch. The city specifications called for only 400 pounds to the square inch.

VANCOUVER STABBING FRAY
IS RESULT OF OLD VENDETTA;
ONE MAN DEAD, ONE IN GAOL

(Special to Daily News.)

Vancouver, July 22—Five years ago there was a sworn vendetta in Italy between two men named Giuseppe Bruzzisi and Antonio Bianca. Last night Bruzzisi was stabbed to death and Bianca lies in the police cells, though the charge against him is the nominal one of carrying concealed weapons.

Story of the Crime

The murdered man left the house of a friend named Antonio Barbor, near Victoria drive, and had gone but a few yards when he was done to death. According to a mutual friend of both men quarrelled in Italy over a girl and since then the feud has been kept up. Bruzzisi came to this country just before Bianca was convicted on a charge of having stabbed Tony Ross in a saloon quarrel and

upon his release the men apparently became friends.

Stabbed in the Dark

In company with Bianca and another Italian, known as Dominic parties left Barbor's house shortly before nine o'clock. Bianca and Bruzzisi had quarrelled earlier in the day but the trouble was thought to have been amicably settled. Barbor was alarmed a few moments later on hearing a cry and the sound of some one falling on his doorsteps. Rushing out he found Bruzzisi lying on the street with his hand clasped over a wound in his stomach just below the heart. The wounded man was gasping for breath, with blood flowing from a knife wound below the heart and a few moments later died without regaining consciousness. Bianca returned while the detectives were in the house and appeared to be confused. Re-

cognizing him as a man who had taken part in a similar affair before Detective Perry followed him when he hurriedly made his exit after murmuring something to Barbor. He was then arrested.

SESSION OF
PARLIAMENT
NOT FIXED

(Special to Daily News.)

Ottawa, July 22—The Canada Gazette contains notice of the prorogation of parliament until August 31. As there is no possibility of the House meeting before November, the notice is certain to appeal at least once more before the date of sitting is definitely fixed.

A Modern Force
in Business

ADVERTISING has established a new order of things in commerce. It has become a mighty power in business progress; a complex yet comprehensible transmitter of many parts for the distribution and selling of merchandise and service.

Its function is fivefold:

To enlighten or educate—to create new wants or to satisfy old ones—to protect and foster legitimate enterprise—to establish a medium of understanding between buyer and seller as a basis for mutual profit and advantage—to prescribe an economical price and the maintenance of a fixed standard of quality.

None know better than the buying public how well these functions have been fulfilled.

Modern advertising has given us an insight into various manufacturing processes. The producer has taken us, the consumers, into his confidence and told us just how his mince meat, his flour, his clothing, etc., is made. We know why certain things should or should not be. Advertising has told us—broadened our understanding and guided our judgment.

Modern advertising has enabled us to unlock the treasure house of the world's divinest melodies through the medium of the player-piano. The motor car has lengthened the business day and brought the fragrant countryside to our door. Men shave in comfort in ten minutes where they used to take twenty. A magic

bottle provides us with cold drinks with the weather at 90 degrees or gives us a warm beverage when Jack Frost dips at 40 below.

Modern advertising has elevated the standard of business ethics. It protects the manufacturer from unscrupulous competition and the consumer from base imitation. It conserves trade—extends business—creates good will. It enables the corporation, the manufacturer or private individual on trial to take his case directly to the public, and to secure the public's judgment on his policy or character based purely upon their respective merits.

Modern advertising has opened up new opportunities to the oppressed and poor of far-off lands. It has turned an unceasing tide of immigration to new countries. It has developed nations, and made the name of the New World a promise of better things among the people of the Old.

All this advertising has done and will continue to do. It is the ever-increasing influence for the advancement of mankind—the most potent, indeed, of the many forces influencing human action.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

MIGHTY LUMBER INDUSTRY LOCATING ITS DISTRIBUTION CENTRE IN PRINCE RUPERT

People in Prince Rupert have
 hardly yet properly realized the
 immense proportions of the Oc-
 cean Falls Lumber plant and saw
 mills, the distributing headquar-
 ters of which are soon to be es-
 tablished in Rupert. The capacity
 of the plant at Ocean Falls which
 is being greatly enlarged, will be
 early this fall upwards of 50,-
 000 feet of lumber per hour and
 150 tons of pulp per day.

Million Dollar Plant
 The saw mill plant is run by
 a battery of six immense saw-
 dust burning boilers. The pulp
 mill is run by electricity gener-
 ated by water power. The con-
 struction mill has been in op-
 eration for some months, running
 double shift, and cutting up-
 wards of 100,000 feet of lumber
 per day, much of which has been
 used in the construction of the
 big plant, which now represents
 the expenditure of over one and
 three-quarter millions of dol-
 lars, and is considered one of the
 most complete and up to date
 plants in existence.
 The company has had a force

BETTER TO THROW BRICKS AT PASTOR

(Special to Daily News.)
 Chicago, July 22--O, God, send
 us another Bob Ingersoll to ar-
 ouse the people," was the plea
 made by the Rev. Charles B. Mil-
 chell, pastor of St. James' Meth-
 odist Episcopal church at the
 Desplaines camp meeting today.
 "They sit in the pews with dull
 dead indifference that breaks
 our hearts," he cried. "It would
 be better if they threw bricks at
 us as they did at Wesley, but
 they don't even talk back. This
 is an age of doubt. We ministers
 need more than apostolic suc-
 cession in their scoffing indif-
 ferent and godless age. The pen-
 dulum I believe will soon begin
 to swing back again."

BUTCHERY BY INSURGENTS IN MEXICO

(Special to Daily News.)
 Mexico City, July 22--The
 dead as a result of Saturday's
 attack by Zapatistas on the Mex-
 ico-Cuernavaca train near Par-
 res, on the edge of the Federal
 district today number eighty-
 four. Three of the wounded died
 last night in the railway hospi-
 tal. The second relief train
 which early today reached Mex-
 ico City brought twenty-three
 passengers who had escaped the
 butchery and made their way in-
 to Tres Marias, a few miles away.
 Eleven were accounted for last
 night.
 Best room in town at Savoy.

—THERE ARE NO "DEAD ONES" HERE—

MERELY MABEL REMARKS

That it was certainly "most impressive."

That a small fan at a low price may fan up quite a blaze between fiery city fathers.

That industries may soon begin to respond to the song, "Come Where the Juice Is cheaper."

That the Finance Minister seems quite spry of a Tuesday morning in spite of the city fathers' "early to bed policy."

That it takes two Joes at least to keep the fishery experts properly posted regarding local conditions.

That maybe the Mayor thought the phone girls wanted ivory fans with jewelled initials on them.

That the water superintendent is right when he says, "The hand that propels the perambulator rules Prince Rupert."

That the Mayor's camel with the delicate back must be somewhere in the Park Commission's menagerie.

Wife—What would you do, George, if you were left a widower?

Hubbie—Oh, I suppose the same as you would do if you were left a widow.

Wife—You horrid wretch! And you have told me that you could never care for any body else—Boston Transcript.

PRAIRIES NEED MANY HELPERS

(Special to Daily News.)

Regina, July 22.—The Government leaders estimate that 25,000 men will be required to handle this year's crop. They are laying plans to get a number from Eastern Canada. Last year the plan was followed with immense success and for 1912 it is intended to duplicate where possible. Tom Malloy, the head of the labor branch and Frank A. Mantle, Minister of Agriculture, have the matter in hand. The C.P.R. and other roads are co-operating.

NEW STABLE WATER BYLAW WILL BE BROUGHT INTO COUNCIL SHORTLY

It was moved by Alderman Kerr and seconded by Alderman Bullock-Webster that a bylaw be introduced reducing the water rate charged proprietors of stables and barns. The present rate for stables particularly being considered too high.

Skeena Land District—District of Coast, Range V.

Take notice that I, James Coxford, of Pembroke, Ont., occupation lumberman, intend to apply for permission to purchase the following described lands: Commencing at a post planted at a point where G. Take notice that I, Anthony Ludgate, of Kismukahm, occupation lumberman, intend to apply for permission to purchase the following described lands: Commencing at a post planted at a point where G. T. P. Rly. intersects the Zymagotiz River, about 24 chains southwest from most westerly point of Lot 1717, thence easterly 48 chains along the G. T. P. Rly. right of way, thence northerly and westerly about 60 chains following shore line of island to point of commencement.

Dated July 6th, 1912.
Pub. July 25, 1912.

FORT GEORGE

Fort George is situated midway between Prince Rupert and Edmonton, being at the junction of the two great waterways, the B. C. and the Canadian Pacific. FORT GEORGE will be the Hub of British Columbia, because the railways, following the rivers for a natural trading centre, like Calgary, Edmonton, Winnipeg, because all the grain of the prairie will come through there on its way to the coast. FORT GEORGE will have miles and miles of track facilities, also elevators, mills, breweries, etc. Fort George has a good climate and is a good mixed farming country. FORT GEORGE district and cariboo district are rich in minerals. FORT GEORGE will be connected by train with Edmonton by next spring. Lots in Fort George are selling fast and advancing in price; take advantage of this disappearing opportunity and call once at.
