IMPORTANT MINING PARTY ON WAY TO STEWART VISITED PRINCE RUPERT YESTERDAY

Quite a large party of Seattle mining men were in the city yesterday, arriving on the Prince George en route to Stewart to visit the mining properties on the Salmon River. The party particularly in question that of the Fish Creek Mining Company. The party is under the guidance of Mr. James Harris, an owner of the Portland Canal district. The Salmon River, which has long been known as possessing great wealth of an assured and of its own extent, received a good deal of attention last year, and other mining experts who looked thoroughly over the field

THREE STEAMERS SET OUT

The Chelohsin left for the south last night with a good passenger list, at 7 o'clock. The Prince John sailed for Masset and Naden Harbor yesterday at 8 o'clock. The Prince George, with nearly fifty passengers, left for Stewart this morning at 8 o'clock.

TO TEST THE LABOR TRUTHS ON G. T. P.

Working conditions of Austrian laborers on Grand Trunk Pacific construction work will be investigated by Mr. Armand de Hann, Austrian consul general for Canada, stationed at Montreal, who has reached Vancouver. He makes the announcement that Austria will follow the lead of other nations and establish a consulate in Vancouver.

THE TROUBLE ON G. T. P. GRADE WITH LABOR

The latest information in regard to labor up the line is that there is no work being done between Skeena Crossing and forty miles beyond Aldermere. Between two and three thousand men have ceased work and there is nothing going on except a little station work. G. T. P. officials are unconcerned at present.

VANCOUVER ROWING CLUB SHOWING LIVELY INTEREST IN PRINCE RUPERT'S CLUB

Mr. H. G. F. Sinclair of the staff of the Bank of Montreal returned here yesterday on the Prince George after spending a very pleasant holiday below in the coast cities. Mr. Sinclair, who is the president of the local rowing club, and well known on the coast for his prowess with the oar, whilst in Vancouver was a visitor at the old established rowing club of that place. Mr. Sinclair, who was at one time a member of that club, says that the greatest kindness and interest is expressed there in the doings of our somewhat embryonic association. To such an extent is this interest shown that they have a proposal coming up before their next executive meeting to present to the Prince Rupert Rowing Club two shells as a gift, thus proving in a practical and substantial fashion their desire to see this club flourish and thrive, even if they may go down in defeat at some time in the future, when a trial of strength takes place between this young city and her older and longer established rival in the south.

DOMINION GOVERNMENT EXPERT IS HERE STUDYING THE FLOW OF THE LOCAL TIDES

Dr. W. Bell Dawson, M. A. D., M. I. C. E., F. R. S. C., superintendent of the tidal and current survey, naval service of the Dominion of Canada, with his assistant, Mr. H. W. Jones, arrived in the city yesterday on the Prince George from Ottawa. Dr. Dawson's visit as head of a department of the Dominion government, of especial importance to Prince Rupert, being as it is one of the great harbors on the Pacific coast, should be of especial interest to the people of this coast. Dr. Dawson is today engaged in establishing permanent benchmarks on some of the concrete

UNCLE SAM IS WATCHING MEXICO

Huachuca, Ariz., July 24.—Anticipating trouble on the Mexican border in the vicinity of Logan, Arizona, three troops of the Fourth United States Cavalry are on their way to that point today under orders from the War Department at Washington. Ammunition and supplies are being rushed to Nogales.

MAY SPLIT YELLOW DRAGON REPUBLIC

Shanghai, July 24.—Because the radical element think President Yuan Shi Kai too conservative, the division of China into two republics is regarded today as imminent. The radicals, who control the southern provinces, say they intend to elect Dr. Sun Yat Sen president of the new republic. The followers of President Yuan control the northern provinces.

STEADILY PROGRESSES THE DRY DOCK

To visit the scene of the dry dock operations today is to witness many striking changes in the contour of the ground about there. All the old landmarks are fast vanishing, and persuaded by the force of powder the rocks are being levelled and laid out smoothly into grade for the buildings which are to occupy the sites provided for them on the areas occupied by Hays Creek estuary, etc. City electric power is now being supplied to the machinery used by the contractors for the excavation and other works, and steady progress is being made all through.

POPULAR RUPERT WEDDING IS FIRST EVER SOLEMNIZED IN HISTORIC HUDSON BAY FORT

The factor's house of the Hudson's Bay Company at Port Simpson was the scene of a very pretty wedding on Tuesday night, when Mr. C. L. Monroe of Rochester & Monroe of this city was married to Miss Maie E. Dineen of Port Simpson. The ceremony was performed in the ball room of the old historic fort, which was tastefully decorated with native ferns and flowers, the Rev. Dr. Large officiating. The bride wore a most becoming empire gown of crepe voile, with Oriental corsage covered in white chiffon, with which the handsomely embroidered veil blended softly. She was attended by her sister, Miss Mollie Dineen, in a dainty gown of white embroidered muslin, Mr. H. B. Rochester supporting the groom. After cordial congratulations the guests followed the couple to the dining room, where a breakfast was served by the host and hostess, Mr. and Mrs. Sharp. The occasion was distinctive in that this was the first wedding ever solemnized in the old historic landmark, which is the original building erected 83 years ago. Mr. and Mrs. Monroe will reside in their new home on Sixth avenue.

FINANCIER HAS BIG BOOST FOR CANADA

Warm, clean rooms at Savoy. "The Dominion is coming into its own as one of the greatest nations of the world. Development everywhere is substantial. In fact, this is the most noticeable thing about your development—it is substantial as well as rapid. The trip through the Dominion is coming into favor among United States tourists and more persons every year will take this trip both eastward and westward. The scenic wonders are alone worth the trip."—Mason B. Starling, Andrew Carnegie's favorite lawyer.

TRIAL OF CHAS. H. MOYER FOR FRAUD

Cripple Creek, Colo., July 24.—The trial of Charles H. Moyer and other officials of the Western Federation of Miners, charged with fraud in the management of the affairs of the union, continued at today's session of the convention. If Moyer's accuser, Thomas Campbell, of Butte, is expelled, and it is generally believed that he will be, it probably will cause the secession of the Industrial Workers of the World from the federation. Campbell is expected to take the I. W. W. members and form a rival organization.

PRINCE OF JAPAN HURRIES HOMEWARDS

St. Petersburg, July 25.—The serious illness of the Japanese Emperor has decided Prince Katsura to terminate as speedily as possible his visit to Russia. The Prince and his party will leave here for Japan July 27.

LOCAL JOTTINGS.

Dr. W. Bell Dawson, of the Tidal and Current Surveys Department of Canada, arrived in the city yesterday morning on the Prince George.
Miss McCroskie, daughter of Capt. McCroskie, harbor master at this port, arrived on a visit to her parents yesterday.
H. G. Newton, of Victoria, who has mining interests in Stewart, is in the city on his way to visit his properties at the later place.
Pantorium Pioneer Cleaners. Phone 4.

FIREMEN FINED FOR WATER USE

South Vancouver, July 25.—Starting from the inside and going out would describe the action of Magistrate McArthur, when in the police court on Saturday morning he imposed a fine of one dollar and costs on the fire department, the charge being willful waste of water. Information in the case was laid by Water Superintendent Mullett, who stated that Captain Smith had washed down the walls of one of the fire halls with a hose, an action which was wholly unnecessary, when the matter of the shortage of water in the municipality was taken into consideration.

FRANK KEELEY SELLS HIS DRUG STORE BUSINESS

Announcement is made in the city today that Mr. Frank Keeley has sold his large and central drug store business to a local buyer whose name is not open as yet for publication. The business will be carried on the same successful lines as formerly, Mr. Keeley meanwhile turning his attention to the real estate business in Prince Rupert, a business in which already he has made some signal successes as a side line. Mr. Keeley is one of Prince Rupert's old timers and served very popular. His step forth into the world of real estate is a substantial one, his choice is a substantial one of his belief in Prince Rupert.

SALESMAN LEAVES SOUTHWARD BOUND

F. Hayhurst, the popular and energetic sales manager for F. W. Hart, who has been conducting the spectacular clearance at the Big Furniture Store on Second avenue, left on the Chelohsin last night for Vancouver. Mr. Hayhurst is well satisfied with the results obtained, an enormous amount of goods having been disposed of, and he has everything good to say about Prince Rupert and its people when it comes to doing business.

ELECTRIC FAN TROUBLE IN THE SOUTH

South Vancouver, July 24.—The electric fan, which was supposed to have been stolen from the Magistrate's room this week, has been discovered in an office in the municipal hall, doing service for the energetic officials there.

PITY THE POOR CAMEL.

There was once a municipal drom.—Edary which went on the bomb.—Said its keeper: "This hack has a back that will crack."—"Neath a phone fan that costs a small som."

CRAMPS PROVED DOOM ON SWIM

West Point Grey, July 25.—J. F. Nutt, a South Vancouver lad employed as a carpenter, was taken with cramps while swimming at Jericho beach here last night and drowned. The fatality occurred shortly after seven and was witnessed by several fellow swimmers of Nutt.

SHOT BY A GAMEKEEPER DISMISSED

London, July 25.—E. H. Watts, a prominent land owner and brother-in-law of General Sir John French, chief of the Imperial general staff, was assassinated today by a dismissed gamekeeper, who shot him while walking home from church. The gamekeeper committed suicide.

WALTER OWEN, CHIEF OF PROVINCIAL POLICE, LEFT FOR THE SOUTH ON THE STEAMER CHELOHSIN LAST EVENING.

Walter Owen, chief of Provincial police, left for the south on the steamer Chelohsin last evening.

RENEWED UNREST REPORTED IN CHINESE REPUBLIC

Arrival of delegates from different districts of the land of the yellow dragon with secret despatches for the president supposed to have contained information which now leads to the declaration that the newly formed republic is liable to be split in two under different rulers. The picture was taken by a traveller in Pekin while the delegates were proceeding on their mission. Rumors of continued strife in the outlying districts of China still prevail.

Daily News on Daily Doings

REVIVE THE BOY SCOUTS.

There is a whisper that one or two young men in the city are ready to devote their spare time and energies to the reviving of Prince Rupert's Boy Scout Brigade, which became disbanded through no fault of the boys. The organizers of it at first were called away from Prince Rupert, and there was none to take up the work. Meanwhile most of the boys missed the excellent avenue for their interest and energies provided by the brigade, and many have endeavored with boyish tentative approach to their seniors to have the movement revived. It will be a very good thing if the movement is revived. Prince Rupert has some of the finest boy material in the world running riot for want of discipline of the kind boys delight in. The spirit of the curly haired baby of seven who bore the pain of a broken arm unflinchingly because he was a boy scout, the coolness of the youngster of nine who saved his little sister from death when her dress caught fire because he was a boy scout, the manly tenderness of the boy who devoted endless ingenuity to save a drowning dog in a well because he was a boy scout—all these qualities are here richly in Prince Rupert boyhood only waiting to be brought out. Boys will not be mean, cowardly or mischievous if they are shown that it is better to be big, brave and considerate.

WHARF OPEN FOR BUSINESS.

Most conspicuously in the morning press there appears today an advertisement to the effect that the Provincial Government wharf is "Now open for business." To the ordinary mind it would seem that the

wharf's opening had been sufficiently well made known on the occasion of the Premier's visit; but, as in the case of all great innovations, it takes more than even the appearance of the mighty to convince the people that any innovation is a reality. For so many years have the public of Prince Rupert waited for that wharf that they have to be told several times that it is really "open for business." There is just a suspicion in the phrase used suggesting that the public might have imagined Sir Richard declared the wharf open "for show"; and there just the merest symptom, too, of the feeling that "good wine needs no bush" when you consider the announcement generally. However, that is quite by the way. The wharf is open for business under, a popular and evidently enterprising wharfinger, and, politics aside, the more business that comes to it the better for Prince Rupert.

HOW DICK DOES HATE IT!

"How I hate to talk about myself," an epic which consumes several thousand words in the latest issue of "T. P.'s Magazine," is well worth reading, though it will be found under another title. It is an interesting biographical work of Sir Richard McBride, inspired by Sir Richard during his recent trip to England, and is entitled "A Benevolent Autocrat." And how the Premier does hate to talk about himself! He shrinks from the limelight with the modesty of a Robert B. Mantell, but apparently Mr. T. P. O'Connor, cunning journalist that he is, was able to get Sir Richard to throw off the mat of seclusion for a few short moments and tell the story of his life.—Vancouver Sunset.

MAY MOVE DR. E. CHOWN TO THE COAST

Toronto, July 23—Methodism is agitated from Winnipeg to Vancouver over the attempt which will be made in Toronto to remove Rev. Dr. Chown, general superintendent for the west from Winnipeg to Vancouver.

Rev. Newton Powell is deputized by the authorities of Ryerson college, Vancouver, to place the request before the Methodist general conference committee now in session here.

The Vancouver Methodists say that Ryerson college, as a federated seat of learning in connection with the provincial university which is being established on a scale commensurate with the magnitude of the part provided for its site by the Provincial Government, calls for a big man as its principal. The college authorities regard Rev. Dr. Chown as the outstanding Methodist for the principalship.

Failing to induce the general conference committee to concur in Dr. Chown giving up the position of general superintendent to become a college principal, Rev. Mr. Powell has been authorized to urge that Dr. Chown remove his residence to Vancouver as a strategic point. This the Canadian middle west will vigorously oppose.

LITTLE BOY SMOTHERED BY SAND

Toronto, July 21—Head down and buried nearly up to his waist in sand, Basil Gordon Collins, aged 11, was found by his father on the lake shore at Balmy Beach, this morning.

While playing on the beach alone at dark last night, the little fellow appears to have stumbled and pitched head foremost into a three-foot hole in the sand. He had been unable to extricate himself and his struggles dislodged enough sand to bury him and cause suffocation.

NUGGETS OF GOLD DROWNED THIS MAN

Oroville, Cal., July 20—Pockets full of gold nuggets weighed down the body of a man found near here today in a dredging pond, with his head crushed and his throat cut. Further search revealed a pack burro carrying a complete outfit, drowned in a nearby pit. The burro's head was crushed.

The police believe the miner was murdered by a person having "clean-up" and that the murderer was frightened away before he had time to rob his victim.

HARVEST PROSPECTS MAINTAIN GOOD PROMISE

Regina, July 24—The crop report just issued is most favorable. Frost has not done any damage and the yield is expected to be very good. In Manitoba the frost did only slight damage to the crop in some districts.

A Modern Force in Business

ADVERTISING has established a new order of things in commerce. It has become a mighty power in business progress; a complex yet comprehensible transmitter of many parts for the distribution and selling of merchandise and service.

Its function is fivefold:

To enlighten or educate—to create new wants or to satisfy old ones—to protect and foster legitimate enterprise—to establish a medium of understanding between buyer and seller as a basis for mutual profit and advantage—to prescribe an economical price and the maintenance of a fixed standard of quality.

None know better than the buying public how well these functions have been fulfilled.

Modern advertising has given us an insight into various manufacturing processes. The producer has taken us, the consumers, into his confidence and told us just how his mince meat, his flour, his clothing, etc., is made. We know why certain things should or should not be. Advertising has told us—broadened our understanding and guided our judgment.

Modern advertising has enabled us to unlock the treasure house of the world's divinest melodies through the medium of the player-piano. The motor car has lengthened the business day and brought the fragrant countryside to our door. Men shave in comfort in ten minutes where they used to take twenty. A magic

bottle provides us with cold drinks with the weather at 90 degrees or gives us a warm beverage when Jack Frost dips at 40 below.

Modern advertising has elevated the standard of business ethics. It protects the manufacturer from unscrupulous competition and the consumer from base imitation. It conserves trade—extends business—creates good will. It enables the corporation, the manufacturer or private individual on trial to take his case directly to the public, and to secure the public's judgment on his policy or character based purely upon their respective merits.

Modern advertising has opened up new opportunities to the oppressed and poor of far-off lands. It has turned an unceasing tide of immigration to new countries. It has developed nations, and made the name of the New World a promise of better things among the people of the Old.

All this advertising has done and will continue to do. It is the ever-increasing influence for the advancement of mankind—the most potent, indeed, of the many forces influencing human action.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

PRINCE RUPERT'S THIN LINE OF COMMUNICATION WITH THE CENTRES OF SOUTH AND EAST

Wonders of the Telegraph Wire Which Keeps Rupert in Touch With the Doings of the World Without---Work of Supt. J. T. Phelan, Now in the District, and His Phalanx of Able Assistants

In the district at present on one of his periodical trips of inspection is Telegraph Superintendent Phelan, who looks after the thread of wire which keeps Prince Rupert in touch with the south and the centres of Canada, like an over wrought but marvellously enduring nerve.

Battle with the Wild. The government line covers a territory which the ordinary commercial companies would never think twice about operating in, not only because the business originating there is small, but because the difficulties to be encountered in installing and maintaining a service are so manifold and ceaseless that the keeping open of the line for communication settles down to one continuous grim battle with the elements; fire in the summer months, wind in the equinoctial seasons of spring and fall and snow all the long winter.

Rupert's Own Wire. The Dominion government maintains telegraph service in the Lower St. Lawrence and the Maritime provinces, a small service in Ontario and a large number of comparatively small services in different parts of British Columbia, the total revenues of which for the fiscal year 1910-11 amounted to \$169,585.15. Of this amount the Ashcroft-Dawson services contributed no less than \$119,065.98 revenue.

Hard Worked Staff of Athletes. This service gives employment to approximately four hundred men, linemen and operators. They could keep a large number more fully occupied if the exigencies of economy did not enter into the question. But as expenses have to be kept down, and the individuals attracted to that kind of life are satisfied to work on a basis equivalent to nine days or more a week, they all manage to do nicely. It is not the money that attracts the government operators and linemen to this telegraph service, but the savage satisfaction of having placed in their hands a small section of the wilderness over which they may have authority so long as they maintain it in a proper state of subjection.

Enemies of the Service. If they cannot keep their section of the line open for communication they know they are not fit to rule. For the wilderness is always fighting back. The wind topples over trees and carry down both wire and poles. Forest fires spring up out of nothing and lash up and down the northern valleys, and the snow fed streams from the mountains are likely to become raging torrents overnight to carry away not only the telegraph poles and other appliances but stations as well. In the winter the snow is a still more persistent enemy.

Fearful Exertions Faced Coolly. Every man has his own section of line to look after and keep in repair. A trail is cut when the construction of the line is done, and it is up to the linemen to keep this trail open. If the line crosses a stream, the linemen must have it bridged, and this he does cunningly with trees balanced on the cantilever system, for the watercourse which he can wade across ankle deep this morning is likely to be twenty feet deep and with a current racing forty miles an hour before he returns at night. No canoe could ever stem the raging waters, and his fragile, swaying bridge is his only sure method of fording the stream at all times. In the winter time snowshoes are used. The distances which the linemen have in charge vary with the nature of the country, the smallest being about seventeen miles and the longest, on the open prairie country where a horse can be used for riding, fifty miles.

CANADA'S COASTWISE SHIPPING

Ottawa, June 25—The volume of Canadian shipping shows a steady though not marked increase, according to figures for the last year just completed. The total number of vessels in the service is 8,087, an increase of 183 over last year. The aggregate net tonnage is 770,446 as against 751,929 last year, an increase of 19,517. The number of seamen, men and boys, engaged is 41,447.

BRITAIN IS INCREASING HER NAVY

London, July 24—Introducing the supplementary naval estimates in the Commons today, Secretary Churchill announced that Great Britain intends to increase her shipbuilding program for the next five years to twenty-one Dreadnaughts, five the first-year, and four annually afterwards. Fifteen hundred men will be added to the personnel of the navy this year.

TO BUILD MONUMENT FOR ILL FATED TITANIC OPERATOR

London, July 24—Nearly \$2,000 has been subscribed today toward a fund, organized by the mayor of Godalming, to provide a suitable memorial in his home town to Jack Phillips, the wireless operator who went down with the Titanic. The memorial is to take the form of a drinking fountain, to be placed in a prominent position on the main road in full view of travellers between London and Brighton, and to be surrounded by a small park.

That the municipal camel has got the hump.

That a fly on the fly is worth two thousand on the fly paper.

That only a bad boy scouts the idea of reviving the Boy Scouts.

That the Provincial Government wharf is at last doing business at the old, old stand.

That the Mayor mustn't think he has only got to veto a proposed purchase in order to have it made by the citizens.

That Dr. W. Bell Dawson is not attempting to work a King Canute stunt with the tide.

That if those concrete piles don't stand quite still the tide figures may prove puzzling.

That the civic dromedary doesn't answer to "Fanny."

GREAT BRITAIN HELPED BUILD PANAMA CANAL

Washington, July 24—Senator Percy, of Mississippi, today in the House declared that the United States should hold to its bargain with Britain regarding the Panama canal, as without Britain's foregoing certain rights under the Clayton-Bulwer treaty the United States could not have built the canal.

BANK DEPOSITS INCREASED BY THREE MILLION

Ottawa, July 24—The June bank statement shows that the total deposits in Canada now total one billion and five million an increase of three million during the month and a new high record. Banks are withdrawing money from the United States and loaning it in Canada. Call loans in Canada increased during June by sixty-five millions with corresponding decrease in call loans by Canadian banks outside Canada.

Mrs. J. H. Hilditch was a passenger south yesterday on the Chelohsin.

Dated June 10th, 1912. ALONZO HAMBLET. Pub. July 16, 1912.

HARD FOR SHIPS TO ENTER CANADA

Ottawa, July 24.—The Canadian Gazette contains notice of a number of new regulations representing the ports of Halifax, Quebec and Esquimaux, which will make entrance of these ports more difficult. The regular ones follow those of the British admiralty and are of most stringent character. For instance, if entrance to a port is prohibited, three red vertical lights by night or three red vertical balls by day will be displayed. It is also proposed that special care must be taken by mariners in entering the large ports mentioned when search-lights are working.

Provision is also made by which a special ship will be appointed to examine vessels desirous of entering the ports mentioned, and "as the institution of the examination service at any port will be never advertised, special care should be taken in approaching the ports by day or night, to keep a sharp lookout for any vessel carrying the distinguishing marks and to be ready to bring to at once when hailed warned by her by the firing of a gun or sound rocket." Masters are warned that they must give due attention to these regulations at their own risk and strictly obey all instructions given them by the examining steamer.

GLANCE OF THE AXE LEFT BAD MARK

New Westminster, July 25.—Mr. J. P. Goudy, of Colebrook, met with a serious accident yesterday. He was at work in the woods, about ten miles from New Westminster, and while felling a tree, the axe glanced off, coming down with great force on the centre of his right foot severing two of the toes and splitting his foot four inches. He was promptly brought to the Royal Columbian Hospital here where he was attended by Dr. Rothwell. He is reported to be resting easily.

IS DROWNED ON A TWELVE STOREY ROOF

New York, July 25.—Robert Kinsella was drowned today on the top of a twelve storey building. He had gone to the roof to release a foot and a half of water. He ran his right arm down into the drain pipe and as he released the rubbish the suction of the rushing water caught him. His arm was drawn in up to his shoulder and became wedged in the pipe.

An Extra Week's Pay

When your Savings Bank Account reaches a reasonable amount the interest begins to tell.

One workman, who had a few hundred dollars on deposit, said that the interest seemed like receiving an extra week's pay each year. They all had to start once. Lose no time in making your initial deposit. One Dollar starts an account in
