FIRE BRIGADE WITH AUTO HAD THEIR WORK CUT OUT TO REACH LAST NIGHT'S FIRE ON FLOAT

Fire broke out in the iron works and machine tool shop of Mr. H. R. Love at about midnight last night, and before the outbreak was discovered the flames had gained a good hold of the building, which is situated upon a float at Cameron Cove. The alarm was first raised by Captain Thomas of the Alice B., who was awakened by the glare illuminating his cabin. He raced out to the scene and after phoning the brigade aided materially in getting the Davis float and boat house clear of the blazing building.

reached the scene in time to do good service, and, in fact, saved the neighboring floats and boats. The struggle made by the brigade to reach the scene is noteworthy. The poor devil's wheels were plunged to the hubs in mud. The men were taxed to the limit of their strength to assist in getting the machine to a vantage point. That it got there and extinguished the blaze with the chemical is to the department's credit. They did all that was possible.

Loss About \$2,500.

H. R. Love, who lives with his brother, not far from the scene, had left his premises at 6 p. m., apparently all in safety. He suspects that the fire originated from the forge. Awakened soon after the outbreak he saw the blaze from his window and while

running, as he fancied, to help save the Davis float he realized that it was his own that had caught. Nothing has been saved from scorching of the machinery, but a good deal of the plant may be fit for duty after repair. The trouble is that there was no insurance on this plant.

Delays are dangerous. Are your premises insured? If not, be warned by the experience of others and have a policy taken out for your property at once by the Mack Realty Co. Prompt settlements after fires are the pride of the Mack Realty Co. and you will find that Mack Realty rates are not too terrifying even in Prince Rupert's exceptional insurance conditions. A sufficient insurance on your property means peace from fire fear for you.

COYOTE SHOT BIG SUCCESS AT NOON TODAY

Without any fuss beyond the usual whistle warning that the shot was to be fired, the big coyote was set off close on 12 o'clock noon today. The shot did splendid work at Cameron Bay bluff. It lifted all the rock required of it and did no damage to surrounding property. The charge had been well laid and the only hitch was that of Saturday night when failure of the electric spark to ignite the whole series of tunnels delayed the firing of the last three. These have now been fired and all is satisfactory to the contractor, Mr. Archie McDougall. Mr. McDougall expressed himself well pleased with the shot after its effects had been examined today, and his force of men is hard at work clearing up the site.

SEA MESSAGE FROM TITANIC PASSENGER

Pawtucket, Aug. 7.—A message purporting to be the last word from Major Archibald Butt, aide to President Taft, was picked up in a bottle off Block Island yesterday and read as follows: "April 16, Mid-Ocean. Help. On a raft. Titanic sinking. No water or food.—Major Butt."

The message is written on a wireless blank bearing the official imprint of the Titanic.

AD GERM FOUND ABOUT WHARF RAT

New Orleans, La., Aug. 5.—Bubonic bacilli was discovered recently on a rat found on the wharf. The discovery was made after several hundred rats had been examined here in the past few weeks. Dr. J. H. White, of the United States Marine Hospital, said the discovery did not cause alarm.

SEQUEL TO POLICE CHASE IN HARBOR

In the Police Court this morning William Montieth and A. Pienow were each fined \$100 or sixty days on being convicted of supplying liquor to an Indian. It is probable that they will take the sixty days. J. Taylor, who the police think was an associate of the two former men, was fined \$10 and costs for being drunk and disorderly. For a plain undecorated fall from grace in the matter of two much bereaved of an exhilarating nature, J. Taylor contributed five dollars and costs to the city exchequer. The police chase in the harbor yesterday was a swift measure adopted by Constable Bailey to secure an essential witness in the Indian case.

SIX LIVES ARE LOST IN LAST NIGHT'S FIRE

One poor maternal heart is torn this morning as a result of last night's float fire. One small dumb Rachel mourns her offspring because they are not. The best efforts of the kind hearted helpers at the blaze last night failed to find and save six wee kittens which had been cozily nestling with their mother when the fire began. Mother pussy made her own best efforts, too, to haul them into safety, but she was overcome with smoke and only escaped meowing with her own life by a miracle. Today she is disconsolately surveying the charred ruins.

Th. Collart of Collart & Reynolds, real estate, was a passenger on today's train for Kitsumkalum, where he is going to look over property that the firm holds in that district.

LOST ON GREAT LAKES FOR DAYS

St. Joseph, Ont., Aug. 7.—Lont on Lake Huron for ten days, the schooner Julia Larkin, loaded with a cargo of lumber and building material for this port, finally made port at Goderich yesterday. The crew of five are in bad shape. The captain says he encountered a storm and wind from the east quarter which blew him all along the lake.

CROCOATED PILES ARE ADMITTED TO CANADA FREE OF CUSTOMS FEE

Mr. McDonald, collector of customs for Prince Rupert, kindly points out to The Daily News an error in the note published yesterday regarding a double consignment of crocoated piles received for the dry dock. It was said that the piles paid duty. This is not so. Crocoated piles are amongst the few things out of the many imported by Canada from the States on which there is no customs levy.

"TIPS" MADE A GREAT HIT LAST NIGHT

Once again the Juvenile Bostonians delighted a packed house at the Westholme Opera House last evening. The fact that it was the third night of their engagement, that there was a big dance at the Kaien Island Club and that the weather was not all it might have been, did not seem to make the least difference to the size of the audience.

The up to date musical comedy playlet, "Tips," put on last evening by the clever youngsters, was a bright and sparkling attraction that kept the audience amused and delighted from the moment the curtain went up to the grand finale. The costumes and make up of the youngsters were wonderful, it being hard to dissociate from one's mind sometimes the fact that girls played the boys' parts.

The comedy work, which was excellent, was in the hands of the two little stars, Doris Canfield and Stubby Myling, and the audience was in titters of laughter all the time they were upon the stage. The dancing and singing of the entire little company was great, the race track scene at the end of the first act bringing down the house.

The play to be put on this evening, "Olivette," is said to be the star attraction of their repertoire, and from the heavy advance booking is assured of another bumper house. The engagement will terminate on Saturday evening next. On that day a matinee will be put on in the afternoon to enable a great number of grown-ups and children who are not able to be present for an evening show to witness a performance of the clever juveniles.

PRINCE RUPERT'S PRETTY NEW GARDEN PATCHES GROWING LUXURIANTLY ALL AROUND

Prince Rupert's gardens are now at their best, and a stroll around the city reveals a very marked state of advance over the same places last year. Several outstandingly good gardens were flourishing last year, and the example of their industrious and enterprising owners has led many other citizens to emulate the efforts made to coax flowers, vegetables and fruit from ground that five years ago was sheer wilderness. The results are astonishing.

Residential District Gardens.

On the central elevated stretch of Fourth avenue, where are situated some of Prince Rupert's finest residences, there are to be seen some excellent and inviting gardens, notably that of Mr. and Mrs. R. L. McIntosh. This garden, laid out as it is in terraces

made by the levelling of rock and muskeg from the cut made in clearing the site for the pretty residence of the postmaster, is certainly a feature of Fourth avenue. Other residences in the same row have also lovely garden patches, and the green grass there is acquiring velvety smoothness on lawns and borders.

Districts Farther Distant.

Throughout the city, however, there are many gardens, some of considerable area which do their owners credit, and are often already returning to him profitable vegetable produce for his home use. All along behind the Fourth avenue eminence into the numerous inhabited districts that slope mountainward there are surprisingly good gardens. You drop upon them everywhere un-awares. All along Borden street

are gardens, notably at the Roman Catholic Church and residential buildings associated with it. Sheriff Shirley's famous garden shows green as ever farther back, and most of the houses have smaller patches. In the opposite direction right away toward Seal Cove there is a regular garden district. This district, it must be pointed out, deserves especial credit because it is beyond Hays Creek and every drop of water during the last hot spell had to be carried quite a distance to the various gardens.

Tennis Champions Return.

Mr. W. S. Marshall and Mr. Basil Durant returned to Prince Rupert this morning on the Prince George from Victoria, where they have been taking part in the tennis tournament that has lately been held in that city.

TEST WAS TOO MUCH FOR THE BIG BUILDING

Unrenburg, Germany, Aug. 7.—Ten workmen are known to have perished today, thirty-seven are injured and five are missing as the result of the collapse of a machine factory here. The walls gave way under a test of strength which officials applied to the building. At least 110 persons were hurled beneath the debris. The search for victims is still in progress. The building was under construction and the entire walls crumbled up and fell in.

Miss Chapman returned this morning on the Prince George from a vacation spent in the lower coast cities.

MISS GLAHOLM WAS MARRIED AT NANAIMO

The marriage of Miss Agnes Bradshaw Glaholm, a young lady well known in Prince Rupert society as a frequent visitor to her sister, Mrs. F. McE. Young, took place at Nanaimo last week.

The bridegroom is David Bowden Egdell, a native of Newcastle-on-Tyne, and Vancouver, where he has been a resident for some years. The bride wore an elegant gown of white Duchess satin, trimmed with Limerick lace, and long bridal veil of the same material, and carried a bouquet of cream roses. Her bridesmaids were Miss Egdell, sister of the groom, and Miss Margaret Young, niece of the bride. Miss Young was gowned in white taffeta silk veiled with marquisette. She wore a large white picture hat, and carried a bouquet of sweet peas. Mr. H. N. Boulthée of Vancouver acted as groomsmen. The ceremony was performed by Rev. J. R. Robertson of St. Andrew's Presbyterian Church. After the ceremony a reception was held at the home of the bride's mother.

There was a brilliant assembly which included many guests and relatives from far parts of the province. Mr. and Mrs. Egdell left on the afternoon train for Banff. On their return from their honeymoon trip Mr. and Mrs. Egdell will take up their residence in Vancouver.

KAIEN ISLAND CLUB 'AT HOME' WAS CHARMING AND POPULAR

EXPLOSIVES EQUAL COYOTE HURLED MILES

Above is a picture of a giant shell, hundreds of which are stored minus their fulminating charge of course, for the protection of New York Harbor in the event of war. Great Britain, even, uses no larger shell. It is calculated that the effects of this shell after being hurled five miles would equal the destructive effect of today's coyote at Cameron Cove. The shell of course is charged with higher explosives than are used in contract shots.

Henry Avison, sanitary inspector at Stewart, who has been up along the line of the G. T. P. in connection with his official duties, is returning to Stewart tomorrow on the Prince George.

In the spacious and delightfully airy gymnasium of the Kaien Island Club last night the club held a very pleasant "at home" and dance. A number of Prince Rupert's pretty and popular young ladies graced the occasion as may be seen from the list published, and there was a good turnout of the men. The "at home" was voted a very great success, everything, reception, refreshments and music being excellent. Amongst those present were:

Mrs. McLaren, Miss Curtin, Mrs. Haskamp, Miss Ginn, Miss Brown, Mrs. and Miss Dawson, Mrs. Carl, Mrs. Renworth, Miss Paull, Miss McPhail, Miss Keen, Miss Jens, Miss Lockhart, Miss Kinkade, Miss Gleason, Miss Fisher, Mrs. Frizzell, Mrs. Ferguson, Miss Heyward, Mrs. Bain, Mrs. McCaffery, Miss Gibbons, Miss Green.

Also Messrs. McLaren, Haskamp, Nickerson, Wallace, Dawson, Simpson, Renworth, Harrap, Reynolds, McKeen, Melliar, Helgerson, Keeley, Kearney, Parker, Pooler, Linnell, Looz, Knight, Tobey, Averill, Frizzell, Bain, Hickey, Noble, Beatty, Kissick.

HEROIC WAY MOTHER SAVED HER CHILDREN

Marion, Ind., Aug. 7.—Caught midway on a trestle with her six children and a train fast bearing down upon her, Mrs. D. A. Barley and her children are alive today because the Spartan mother tossed five of the little ones to the ground, 20 feet below, and then jumped herself. The sixth child, a boy of 10, crouched between the rails and the train passed over him. He may die.

PEOPLE JUDGE PLACES BY THEIR PRESS.

The best booster a town can have is the local press and it should fairly represent the enterprise of the place in which it is published. A glance at the advertising columns of the local papers should give an outsider some idea of the city's business interests, but many do not carry a line of advertising in their home paper. Not one-half of the business men of most cities, merchants and manufacturers, appear in the local papers. Imagine the mental picture Prince Rupert would present to the outsider picking up this paper and glancing over it if the name of every business firm appeared in its advertising columns in a space large or small. Every man for his own and general good should advertise regularly in the local papers, even if he only takes an inch space. The local newspaper should be a business directory of the town. Prince Rupert has, however, several good advertisers who constantly keep their names and their town to the front, and their example should be generally followed.

COST OF LIVING; A NEW VIEW.

We will hear no more about the high cost of living when the people learn to eat just enough, and cut out such useless things as tea, coffee, liquor and tobacco. The human race has grown too greedy, and has too many frills, puffs, notions and useless habits. Get back to the simple and natural life and this howl about high cost will die away to a stage whisper.—Greenwood Lodge.

EVER SEEN THIS STYLE OF MAN?

Roosevelt's enemies are searching all literature for fitting descriptions for him, as they conceive him to be. The New York Post quotes from Carlie a sketch, which it considers suitable: "Examine the man," says Carlie, "who lives in misery because he does not shine above other men; who gives about producing himself, gifts and claims; struggling to force everybody for God's sake as if were, to acknowledge him a great man, and set him over the heads of men; who cannot walk on quiet paths, unless you will look at him, wonder at him, write paragraphs about him, he cannot live."

MORE MEN THAN GIRLS ALL THROUGH THE DOMINION

The recently issued census reports place Canada among the countries in which the male inhabitants exceed the female in number. Of the 7,204,838 people held to be living in the country last year, 3,822,067 were males and 3,382,771 females, an excess of the former of 439,296. The figures by provinces are as follows:

Table with 3 columns: Province, Males, Females. Rows include Alberta, British Columbia, Manitoba, New Brunswick, Nova Scotia, Ontario, P. E. Island, Quebec, Saskatchewan, Yukon, and Territories.

It is noted that while the males are most markedly in excess of the females in Western Canada,

there is no province in which the females are in excess. The situation, as regards the Dominion as a whole, is not a new one. The census of 1904 showed an excess of females over males of 432,001, and back to 1871 the censuses showed lesser, but growing, excesses, all being put into the background by the record of last year.

PRIVY COUNCIL JUDICIAL COMMITTEE HANDS DOWN MARRIAGE CASE DECISION

Situation as at One Year Ago Seems to be Unaltered by Ruling--- Dominion Has No Power to Interfere With Provincial Marriage Regulations---Cases in Doubt are Subject to Legal Process Still

London, August 5.—The judgment of the judicial committee of the privy council on the No Temere case recently delivered in effect is to confirm the answers given by the four judges of the supreme court of Canada that the Lancaster marriage bill was ultra vires. Their lordships expressed the opinion that provincial legislatures in legislating on the solemnization of marriage within the province could impose conditions affecting the validity of the contract.

Effect of Decision

The judgment of the privy council in the case stated to it by the Dominion government dealing with the proposed Lancaster bill and the present marriage laws of the province of Quebec, is decisive and final on one important point.

It declares that the Dominion parliament has no power to pass legislation governing the solemnization of marriage or fixing the conditions which determine the validity of marriage.

It finds that all these powers are inherent in the provinces and can be exercised only by the provincial legislatures.

Supreme Court Confirmed

In this the privy council confirms the unanimous finding of the Supreme Court of Canada. This was also the view taken of this legal question by leading lawyers of the present and former parliaments—by Sir Allen Aylesworth, former Minister of Justice, Sir Wilfrid Laurier, Mr. Borden, and C. J. Doherty, the present minister of Justice.

The second important point submitted in the stated case their lordships decline to deal with. This was a question as to whether under the circumstances prevailing in the celebrated Hebert case—two Catholics married in the province of Quebec by a Protestant minister—the marriage was legal.

When the case was before the Supreme Court the Chief Justice of Canada declined to answer this question on the ground that an actual case, not a hypothetical question, was already before the courts of Quebec for decision. Justices Idington, Duff and Davies held that such a marriage was legal; Mr. Justice Anglin that it was invalid.

A Point Held Back

The refusal of the privy council to render a judgment will make it necessary that the Hebert case should be carried to this court for final action. In this case Mr. Justice Charbonneau of Quebec Superior Court found that the marriage was legal. This judgment is now under review by the highest court in the province of Quebec. Their decision, when rendered, can be appealed against the case being carried directly to the privy council by way of the supreme court of Canada.

"As You Were," State The legal representatives of the province of Quebec asked the supreme court not to give an answer to question 2, which dealt with an interpretation of a law of the province, and repeated the request at the hearing of the case before the privy council. To sum up the situation now is practically what it was believed to be a year ago: The status of mixed marriages and of marriages of Catholics before Protestant ministers in Quebec remains in doubt and can only be determined by legislation arising out of actual cases and carried to the ultimate court of appeal.

The Dominion parliament is powerless to intervene and institute a general Dominion law or a provincial law. It has no power whatever with respect to the solemnization of marriage.

CANADA HAS INVITED CHURCHILL

Ottawa, Aug. 5.—It is stated in official circles here that pressing invitation has been extended to Hon. Winston Churchill, first lord of the admiralty, to visit Canada during the next session of the Canadian Parliament in order that he may lend the weight of his advice to the government in connection with Canada's temporary and permanent naval policy. Should Mr. Churchill consent to come it is improbable that he will arrive before January owing to the stress of work in the British House during November, when the home rule debate is expected to be at its hottest.

THRILLING SURGICAL WORK SUCCESSFUL

Hartford, Conn., Aug. 5.—By performing an unprecedented combination of operations, two lives were saved last night at St. Francis Hospital, and the surgeons confidently predict that Mrs. Josephine Lipton of Bloomfield and her twelve pound son will live. The main operation consisted of the Caesarian section. Before that, however, the hazardous resource of blood transfusion from the husband was necessary and again after the birth of the child a second infusion of life blood was deemed necessary.

TO ESTABLISH LOW RATE TO DULUTH

Ottawa, Aug. 5.—It is understood that in order to facilitate the shipment of the new western crop as much as possible the government will at an early date this autumn apply to the Interstate Commerce Commission for the rate on grain to Fort William and Duluth which was in force last spring, the rate being the same as that given by Canadian railways from Winnipeg to Fort William. The opening up of this route at an early date in the season, it is believed, will do much to prevent a recurrence of the serious and prolonged congestion of last season.

NORWAY'S MARINE STRIKE IS OVER

Norway has just come through a strike which at the start looked as though it would cause considerable trouble for Norwegian shipping. But although there were, during the few weeks that the strike lasted, of course, some delays, on the whole everything went off satisfactorily.

The Norwegian government very energetically stepped in and placed navy captains and engineers at the disposal of the most important companies on foreign and local routes, and the ship owners also to some extent hired foreign steamers. For shorter routes motor boats were employed to a large extent. The strike closed more quickly than anticipated and although the engineers obtained some of their demands, they retrenched considerably on their original demands during the negotiations.

NONE LEFT BUT LUNATICS ON EARTH

London, Aug. 7.—The vision of a mad world and an era of lunacy was prophesied by Dr. Forbes Winslow yesterday while expressing his dissent from the statement made at the Eugenics Congress by Dr. Mott, that increases in lunacy are more apparent than realized. He said: "There will be more lunatics in the world than sane people three hundred years hence. This prophecy is based on the present rate of growth of lunacy revealed by recent returns. We are rapidly approaching a mad world. In every part of the world civilization is advancing and so insanity is bound to advance. There were 36,762 lunatics in 1859; there are now 135,000."

HON. F. D. MONK RETURNS FROM LAKE PORTS

Ottawa, Aug. 5.—Hon. F. D. Monk, minister of public works, arrived home on Saturday from his tour of inspection of the lake ports. The minister is much impressed with the necessity of steps being taken with as little delay as possible to improve shipping facilities on the Great Lakes and rivers in order that the Canadian route may be in a better position to cope with the growing export trade, originating in the Canadian west.

A GOOD RULE FOR DANGER NECKTIES

Fond du Lac, Wis., Aug. 5.—The superintendent of the Soo Line shops has decided to bar long trailing neckties of workmen, as too many of the employees have been injured through their neckties catching in the machinery.

A Hermit for Five Years

WHAT would make the greatest impression on a man who had been shut away from human intercourse and denied the use of newspapers for five years—what would most forcibly attract his attention—on regaining the society of his fellowmen? "Well," you say, "he is fairly certain to be interested in learning whether there's been a change of Government."

True, and probably he will show mild excitement if you can tell him there's been a big war in Europe. But it won't be until you get down to a recital of things that come closer to him, personally, that you'll bring him to his feet with eager questioning.

Tell him a mighty empire has fallen, and—so long as it isn't his empire—a drop curtain of highly embroidered indifference will mask his face. But tell him the automobile has been so simplified that he can now buy one for the price of a horse and buggy, and he'll promptly bombard you with questions.

You see how it is: Newspapers carry a "news of merchandise" that is just as interesting, just as vital, as the "news of events" which the editors gather for us. And, since this "news of merchandise" finds its only expression in the form of Advertising, must we not admit that the Advertising columns are quite as worthy of our serious attention as the scariest "scare head" or the most ponderous editorial?

Shut your eyes to Advertising—the news of things that make life worth the living.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write if interested.
