### "DREAM GIRL" TONIGHT BY THE JUVENILES

"The Dream Girl," which the Bostonians will present at the Westholme tonight, is said to be the best piece which this popular organization will put on during its Prince Rupert engagement. There is little doubt that there is a real treat in store for those who are lucky enough to secure seats for tonight.

The plot of "The Dream Girl" deals with the adventures of Captain Lonnie Austen (Thom Hellen) and his two faithful followers, Michael Patrick Donoghue (Patsie Henry) and Bill Principality of Baldad, which is supposed to be situated in the Balkans, the "Dream Girl" being the daughter of the prince, who, not wishing to marry in accordance with her father's wishes, pretends to be in a trance, out of which she cannot awaken until she meets the ideal of her dreams. He, of course, is the handsome Captain Austen, who gains her hand only after tricking the prince into giving his consent. During the action of the piece Doris Canfield will sing the famous Champ Clarke "Houn' sang" song, in which she scored such a success in all the cities of the States last season. All of the other song numbers are of the catchy, up to date order which will send everyone away humming.

Tomorrow night "Berta's Billions" will be presented. Owing to a number of requests, "The Ansom" will be given for the Saturday matinee, and the engagement will close Saturday night with the clever musical comedy, "Hoffman's Holiday."

**Scotland's Innings.**  
The Callies Football Club are going to occupy a box at the Westholme Opera House this evening at the performance of "The Dream Girl" by the Juveniles.

Oppenheimer and Wilson are mining men from Butte, Montana, and this is their first visit to this locality. They express themselves as more than satisfied with everything they have seen so far and are returning today on the State of California to the headquarters of the company to arrange about plans for the future development of the property.

## PROVINCIAL GOVERNMENT WILL SELL 300 PRINCE RUPERT LOTS THIS MONTH

**Definite Decision Come to at Executive Meeting Held at Victoria---Permanent Provincial Buildings Will Also be Speedily Erected**

(Special to Daily News.)  
Victoria, Aug. 8.—The Government at an executive meeting today decided to place on sale within the month some three hundred lots at Prince Rupert on the same terms and conditions as those governing last sale. The decision is come to owing to the growth of the northern city and its increased business. The government has decided that permanent government buildings are to be erected in the near future. C. D. Rand of Vancouver, has the contract for the sale of lots and may act as auctioneer.

## EVERY CITIZEN HIS OWN POLICEMAN, MAYOR'S IDEA RAISE PAY: REDUCE FORCE

At their meeting held yesterday afternoon in the city the Police Commissioners came to the decision to raise the salary of the chief of police. Chief Vickers at present receives \$150 a month. He will, according to the recommendation of the commissioners, receive \$175 after this, and increases are to go on until the maximum of \$250 per month is reached after five years' continuous service. The chief of police, previous to receipt of this raise, was getting a salary less than that of the fire chief, and Commissioner Bullock - Webster thought this hardly fair.

**Constables Considered.**  
Raises were also considered for the constables at the rate of \$10 per month each year of continuous service, pay for a constable starting at \$90 per. As present members of the force started at \$100 per, there was special provision made that the present raise arrangement shall not be retro-active. Constable Hamblin, who has just completed a year's service with the force, is to receive \$110 per month. When the other members of the force, three in all, have attained their year's service in October they will receive \$110 per.

**Reduce Constabulary.**  
There was some suggestion for the reduction of the police force by one. This was not regarded very favorably. It was felt that the public might resent the idea of having to lend aid in arresting delinquents because the force was kept low in strength. This was the opinion of the commissioners, but not of the chairman of the commission, Mayor Newton, who believes the public think there are constables enough to allow of reduction of staff by one. The Mayor brought up the idea that all a constable has to do when he finds himself inadequate for an arrest is to call in the aid of any citizen, who must help.

**Hotels, Blind Pigs, Etc.**  
The Mayor as police commission chairman came down heavily on the hotels as regards noise, which he considers they are making. He thought there were suspicious of rowdiness about the premises, and perhaps a disposition to sell to men already under the influence. He suggested that the chief of police should warn the hotel men.

On the matter of illicit sale of liquor the chief was able to report an orderly city. In regard to the restricted district questions were asked and the idea of shifting the district partially broadened without any definite action. It was held that this would be a pretty heavy task, subject to objections as regards the spoiling of amenity similar to present objections voiced regarding the present district.

### "OLIVETTE" BY THE JUVENILES A DELIGHTFUL COMIC OPERA

If anything were needed to prove the fact that the Juvenile Bostonians have made good in Prince Rupert and entirely won the hearts of the people of this city, the turn-out last evening to witness the performance of "Olivette" at the Westholme Opera House most certainly has done so. "Olivette" is a real comic opera, and one of the best at that. The impersonation of the different roles by the members of the company was simply capital, all the parts seeming to fit them like gloves.

Thom Hellen as the hero, Valentine, who has so many obstacles thrown in the way of his love affair, acted and sang charmingly as ever. The special request of the English Rose Football Club, who occupied a decorated box all to themselves, to sing again "My Wild Irish Rose" was graciously acceded to and fairly brought down the house. A beautiful bouquet of flowers was presented to Miss Hellen by the delighted boys in the Roses' box. Little Dodie Canfield, who occupies a very warm corner in the hearts of the Prince Rupert public, played a straight part, that of the Duke Des l'Is, with a charm and grace that marks her as a finished actress to the finger tips.

Stubby Myling had a star comedian part as "Coquelicot" and was a revelation in childish precocity, simply carrying the audience away by her quips and antics. Patsie Henry as the petite heroine showed her versatility as an actress by her delightful rendering of the leading part. Billie O'Neil, Jeff Monro and Thaye Crawford were all splendid in the respective parts of the Senechal, Captain De Merrimac and the Countess of Rousillon. The singing and general work of the whole company in the choruses and dances was great and kept the large audience enraptured during the whole performance. Tonight the bill will be "The Dream Girl," an entire change of programme with lots of the latest songs.

SALE OF GOVERNMENT  
LOTS IN RUPERT.

Decidedly Dame Rumor has been justified in her whispers of late regarding the forthcoming sale of the Provincial government lots in Prince Rupert. Today's telegraphic despatch confirming the rumor is the best news the business world of Prince Rupert has had to read for quite a while. The sale of these lots, so long an eye-sore to every realty man and citizen in Rupert, has been for years "a consummation devoutly desired." At last the long, long wish of the citizens and their oft repeated prayers have been gratified. The government lots are to be sold. The new Provincial buildings are soon to be commenced. At last the Premier, now the knightly Sir Richard, has realized in fact his promise. Amongst the list of urgent requests made of him at his last visit, there was none more urgent than this one, no old promise of his, the fulfillment of which had been more tediously delayed, none the granting of which at long last was better calculated to gratify the citizens. By his promptness at the eleventh hour in authorizing this sale, Premier Sir Richard McBride has certainly proved himself a politician of parts.

THE LABORER  
IS WORTHY.

It has been decided by the Police Commissioners that Prince Rupert's popular police chief shall have an increase in salary. Certainly there could be no more generally popular decision made to raise the salary of any city official. Salary raises are usually followed by protest or at any rate grumbles. This one will be heralded with approval on the part of all

citizens. Chief "Billy" Vickers is deservedly popular with young and older alike. He is efficient and courageous as an officer. He is tactful and a friend to every legitimate means for the outflow of juvenile spirits in sport or romp. His personality is worth money to the city in the maintenance of a smooth working and efficient police force.

TWENTY-FIVE YEARS  
FROM TODAY.

The eye of faith looks forward ward, says the Toronto Star, to the time twenty-five years from now when downtown Toronto will be solid business skyscrapers right up to the Normal School grounds, shops on Church and Sherbourne to Carleton, Spadina avenue, the Yonge street of the western part of the city, and Bloor street a sort of Appian Way, consisting almost entirely of public institutions. By that time the seawall and the lake parade will have been built and the park drive system will have been hooked up. Toronto is making herself big and beautiful as fast as she can spend the money. People coming back from abroad compare Toronto invidiously with European cities, forgetting that hundreds of years and millions of money have been necessary to get them where they are. Toronto is doing fairly well for her age and means. We wish nothing better than to be alive twenty-five years from now and see the improvement.

Remembering what Vancouver did in only twenty-five years, the Prince Rupert citizen is inclined to fancy the Toronto prophet slow. It is practically certain that Prince Rupert's business section will be studded with skyscrapers by 1920.

LONDON'S  
IMMENSE  
CITY DEBT

London, Aug. 7.—The aggregate debt of London secured on the rates, on March 31st, 1911, was \$550,000,000, a decrease of

\$4,350,000 during the year. A large part of this debt was incurred for revenue producing purposes.

Although the charge for interest and sinking fund on London's debt for 1910-11 was \$34,350,000, only \$19,400,000 of this was borne by the rates, the remaining sum of \$14,950,000 being a charge on the net revenues of various undertakings which are for the most part carried on with little or no charge on the rates.

ODDFELLOWS' ASSOCIATION OF  
CANADA HOLDS ANNUAL MEETING

Kingston, Aug. 7.—The annual meeting of the Odd Fellows' Relief Association of Canada was held in this city and was attended by representative men from all the provinces.

The reports showed that the assets over liabilities on June 30 were \$1,042,451.06. The disbursements during 1911 on mortuary account were \$228,000, and for the first six months of 1912 \$159,000. The interest on investments for the financial year amounted to \$34,191.19.

During the last year of the surplus \$134,313.19 was invested in securities bearing interest at 4.76; and the interest on all the securities held by the association has risen from 4.38 per cent. to 4.51 per cent. The mortality rate was 6.56 per thousand.

The report of the secretary-treasurer showed that the association had disbursed in benefits since its inception \$3,046,656.29. The total membership on June 30 was 27,895, and the deaths from

accidents numbered 20. The superintendent of agencies reported that from June to June 2,651 applications had been received and passed upon, and of these 130 were rejected by the medical examiner. Dr. Mundell's report showed that the mortality rate was about the lowest in the Dominion, though the association is thirty-seven years old.

Among the amendments to the laws of the association was one making every member liable for a capitation tax of \$1.25 per annum, to be used for the extension of the work in the newer provinces, and for the relief of the mortuary fund, the charge of collecting the assessments. This capitation tax will be collected in two installments in November and May.

Members of the Canadian Permanent Force are to be registered hereafter in the ordinary class, except during the time when they are called for active service or war.

Members of the Rebekah Degree holding certificates for \$250 will be allowed, when claims are sustained, a disability benefit of \$125.

Operators of switchboards and power houses will be in the hazardous class hereafter, and also policemen, constables, patrolmen and detectives.

From the surplus of the year, and on the recommendation of the finance committee, \$110,000 was carried to the reserve fund, making it then one million dollars.

The secretary and the solicitor of the association will ascertain during the year whether it is possible, under the charter of the association to make benefits payable to aged members in bulk sum or in installments.

The retiring directors, D. M. McIntyre and Dr. A. E. Ross of Kingston, and J. J. Reed of Montreal, were re-elected. The auditors were re-elected.

BRITAIN SUSPECTS GERMANY  
OF BUILDING SECRET SQUADRON  
OF NINE NEW DREADNOUGHTS

London, August 7.—The London Daily Express prints the following report that Germany is building a secret squadron in the race for sea supremacy with Great Britain:

"It is reported in armor circles that for some months past the firm of Krupp has been engaged in the manufacture of guns and munitions for a new squadron of nine battleships for Germany. It is understood that during the last three weeks the Angle irons and plates for the ships have been received from England.

"The importance of this in-

formation consists in the fact that in the event of Germany forcing the pace either for herself or for the other members of the Triple Alliance, a fresh battle squadron of nine battleships could be ready within a year, or, at most, eighteen months. It is understood that the action which has been taken is a reply to Mr. Churchill's speeches on his accession to office.

## Grave Peril to England

"An addition of nine battleships to the German fleet in 1914 would place this country in the gravest peril with which it has ever been faced.

"Mr. Churchill, in the House of Commons a few months ago, laid it down that the absolute minimum of safety was the maintenance of a sixty per cent. margin of superiority in capital ships over Germany. In the House of Commons ten days ago he said that at the end of 1914 we would have a minimum of 33 and a maximum of 41 battleships fully manned and in full commission against 29 of Germany.

"Mr. Churchill added that 33 to 29 does not, perhaps, sound a very satisfactory proportion. It is certainly not an excessive proportion, but it is impossible to settle this question merely on numbers.

"If nine battleships were added to the German fleet the comparison for 1914 would stand as follows: Germany 38; Great Britain, minimum 33, maximum 41. These figures tell their own story.

OLD COUNTRY  
WEATHER AT  
ITS VERY BEST

Throughout the whole of England the most delightful weather has prevailed all the week, and four fears, occasioned by the many wet days in June, that we are not to enjoy any more real summer this year have been dispelled.

Looking down the weather reports for health resorts all around the coast, one finds under the heading, "Bright Sunshine," 12 and 13 hours recorded in several places, while under the heading, "Rainfall," in every case this week the report is nil.

The southeast of England has felt the heat of the sun more than other parts of the country. On Monday the maximum shade temperature recorded in London was 86 degrees, and on the following day 88 degrees were registered at Hampton Court. The sun temperature, 122 degrees, has not been equalled since September 2, 1911.

Deaths from the heat have occurred, and in the Times of Wednesday no fewer than seven, all in the north of England and Wales, are reported, and there were eight more recorded yesterday.—Weekly Times, July 19th.

## COAL MINERS BELIEVE THEY KEEP THE KEYS OF WAR FOR THE WHOLE WORLD TODAY

It is only natural to expect that there would be debates of exceptional interest at the 23rd International Congress of Miners which has just concluded its labors at Amsterdam, and at which 1,159,000 organized miners were represented. The contrary was the case. That which weighed heaviest on the minds of the delegates was just that about which the least was said.

### Maintain Peace

The first political aim on which unanimity prevails is the maintenance of peace. To stop the coal supply is to stop war. This was said more than once, and the miners are confident they hold the key of the situation. But there are laws, especially in Germany, which allow trade union meetings and organizations; but, if politics are introduced, then these laws no longer apply. The British and French delegates had proposed to discuss the possibilities of preventing war by an international strike. This might, however, involve some of the delegates present in legal difficulties.

### Miners Will Watch

The committee therefore decided that a statement from the chair should be made but with-

out submitting a resolution. Mr. Smillie, as Vice-President of the British Federation of Miners, explained the position. If, he remarked, arbitration was preferable to a strike, it was still more needed as a substitute for war. The Miners' International Committee would make it their duty to watch the chiefs of States, the financiers, and the newspapers. If at any time they appeared likely to succeed in bringing about war, a special International Congress of Miners would be convoked to see what action they could take to prevent the outbreak of hostilities.

## SUPERB WHEAT ON EXHIBITION IN OCTOBER

Lethbridge, Alta., August 7.—One of the largest stools of wheat ever exhibited has been received at the International Dry Farming Congress office from D. E. Harris of Cardston, Alberta, having 195 spikes. This enormous number of spikes is thought

PATIE HENRY,

With the Juvenile Bostonians in "The Dream Girl," tonight at the Westholme.

to establish a new world's record, for Dondinger, a wheat authority, says that in the observations of experts only as many as 52 spikes have been observed in a single stool. There are other authorities, however, who credit the finding of 95 as possible, while Humboldt believed 70, which was found in a stool in Mexico was the limit. Pliny, in his works, recounted reports of the finding of as many as 200 in Northern Africa and Italy, but Dondinger, in commenting thereon, says it is probable he "was seeing with the eyes of an enthusiast."

This stool of wheat was pulled on July 1st from a field that was seeded on August 1st, 1914, and the whole field is the admiration of the farmers about Cardston. When this sample was pulled the wheat was fully 45 inches in height on the average.

This stool of wheat, and many others sent to the International Dry Farming Congress that merit it, will be used in the decorative work of the exposition next October.

## REMARKABLY FINE SAMPLE OF DRY FARM OATS

Lethbridge, Alta., Aug. 7.—One of the finest samples of oats seen this season was brought in a few days ago by L. P. Tuff, who lives three miles west of Diamond City, S. E. 4-10-22, being 54 inches tall and well headed out. Mr. Tuff has turned his sample over to the International Dry Farming Congress for decorative work, and it will be given a conspicuous place in the exposition next October. He has 70 acres of these oats, which are of the Abundance variety. They grew on summer fallow, seeded on May 17th, and he used only two bushels of seed to the acre. It is a wonderful field throughout, even in height, and the crop will run far ahead of 100 bushels to the acre.

Warm, clean rooms at Savoy.

## STEADY UPWARD TREND OF TRADE IN GREAT BRITAIN AS TEXT AGAINST TARIFF

How British trade steadily advances is shown by the figures for the first three months of 1912, as compared with the same months of the two preceding years; and March this year was signalized by the great coal strike and the partial stoppage of many works.

Compared with 1910 imports in March quarter increased by £22,724,415, and exports by £22,144,808.

This is not a bad record for a country whose trade is, according to some, going to the dogs through lack of protection.

Protection really means the exploitation of the consumer. Speaking at Edinburgh on October 3rd, 1904, Mr. Balfour said: "The object of protection is to encourage home industry. The means by which it attains that object is by the manipulation of a fiscal system to raise home prices. If the home prices are not raised the industry is not encouraged. If the industry is encouraged, it is by the raising of prices. That is, in a nutshell, protection properly understood."

It can be understood that such utterances as these helped to bring about the late Tory decision—B. M. G. "Balfour must go."

## PHOTOGRAPHERS HELD A REGULAR BACCHANALIA

Philadelphia, Aug. 7.—Tales of the doings at the now notorious banquet of the Photographers' Association continue to be the topic of conversation. It is said that the niece of a well known Philadelphia photographer had a white lawn dress literally torn from her, beer poured down her back and she was afterward treated to a champagne bath.

She finally broke from her tormentors and fled the banquet hall. The wildest of dances were

danced. Wine was imbibed from slippers and young women in abbreviated costumes brought to the banquet to distribute prizes smoked gold tipped cigarettes. Many of them had to be thrown into taxicabs and sent home. Some were dressed merely in shawls. Following the story of the alleged orgy, Harrison T. Heiser, chairman of the Photographers' Society of Philadelphia, was arrested on a charge of enticing 16-year-old Miss Williams to his studio.

St. Catharines, Ont., Aug. 7.—E. A. Lancaster, K. C., M. P., father of the marriage bill, was quite surprised to learn that the Privy Council had decided his bill is ultra vires. ## THE FIRST OF RUPERT'S TRAWLERS

The steam trawler Canada sailed from Grimsby last Friday under the command of Captain F. R. Evans upon the longest voyage ever undertaken by a craft of her kind. She has been acquired by the British Columbian Fisheries, Limited, and sailed as the pioneer craft of a fleet of 70 steam trawlers which is to work in the Pacific. The voyage of 16,000 miles will occupy about 120 days, and the crew are under agreement for two years. The vessels will operate from Port Vancouver for the present, but Prince Rupert will ultimately be their headquarters.—From the London Weekly Times, July 19th.

That there is liable to be something doing now the Provincial government has at last wakened up to the importance of putting those lots on sale.
