

## DARING DEEP DIVE RISKED BY U. S. SUBMARINE

### SIR GEORGE DOUGHTY'S ADDRESS: OLD-TIMER'S WEDDING: CHARLES DEAN IS CHARGED

#### CHARLES DEAN COMMITTED FOR TRIAL ON CHARGE OF ROBBERY AS SUSPECTED

(Special to Daily News.)

Vancouver, Sept. 6.—Charles Dean, charged with the robbery of the Bank of Montreal at New Westminster last fall, is committed for trial. Evidence was submitted at the preliminary investigation showing that he was in the vicinity of the bank a few days before the robbery and overheard talking of the case with which the bank might be robbed. On the morning of the robbery he was identified as one in an automobile, proceeding from New Westminster towards Vancouver. Pictures of McNamara, under arrest in New York, and of Powell, under arrest at Detroit, are identified, as are also men in the automobile.

#### TURKEY SEES STRIFE CONTINUED

(Special to Daily News.)

Athens, Sept. 6.—It is semi-officially announced that an engagement has occurred at Harmonia Albania between insurgents, of whom one of the leaders was governor of Djakova, and the Turkish troops. The latter were forced to retire to Berana near the Montenegrin frontier. Djakova and Ipek have been pillaged. Another general rising of Malishori tribesmen is feared.

#### BOARD OF TRADE

The regular monthly meeting of the Prince Rupert Board of Trade will be held this evening in the City Hall at 8 o'clock sharp.

#### THE BOGUS PRE-EMPTOR BANNED

(Special to Daily News.)

Victoria, Sept. 6.—The forestry convention continues, a large number of members being in attendance. The question of so-called bogus settlement is touched on, it being urged that land suitable for timber growing should be reserved exclusively for timber and closed against all settlement, the object being to shut the man out who might locate a homestead simply for the purpose of selling timber and moving on.

#### EXTRAORDINARY FEAT OF U. S. SUBMARINE BOAT BELIEVED TO BE NEW WORLD'S RECORD

San Francisco, Sept. 6.—U. S. navy submarine F. 1, has established a world's record for depth reaching today, diving 283 feet off Point Diablo in San Francisco bay. The boat remained at this depth for ten minutes, cruising at a speed of six knots and finally rising to within ten feet of the surface with ease.

Under command of Lieut. James B. Howell "F. 1" cruised for six hours, going out through the Golden Gate and circling a pilot boat eight miles out. It was on the return trip, while passing through deep water, that "F. 1" took her famous slant into the depths while her crew of 26 were composedly going about their duties, or eating their midday meal, while the hull creaked and groaned beneath enormous pressure.

#### ALICE ARM MINING DEAL OF INTEREST

G. R. T. Sawle, who has recently been in Granby locating suitable site for his proposed newspaper plant there, mentions that A. D. McPhee has taken over the Red Point Group in the Alice district. This claim has recently caused quite a stir in the district, its showing being 19 feet of copper traceable it is claimed for four miles, and with \$20 gold assay indication. A force of men is at work now stripping the vein. Great interest is shown in the concern locally and news of the showings dispersed and a number of men at their work on road making go prospecting in the neighborhood.

#### A FITTING MEMORIAL TO GEN. BOOTH

(Special to Daily News.)

London, Sept. 6.—General Bramwell Booth has appealed for \$750,000 to erect and maintain a training school for officers of the Salvation Army as a memorial to his father. The late general always desired to establish such an institution, but feared to start owing to the large amount of money necessary.

#### SISTERS MEET HERE AFTER LONG PARTING

Mrs. M. P. Villeneau, of Kimberley, B. C., is visiting her sister, Mrs. Emmons, of the Bay View hotel. Twenty-five years have elapsed since they last saw one another.

#### ABOUT THE EXPECTED NEW SHOW

The Allen Players are bringing their summer stock season to end, next week being the last of their season at Victoria. The company will appear for seven nights including tonight's two matinees, one today and one the following Saturday.

#### INCREASE OF RAILWAY PROSPERITY

(Special to Daily News.)

Ottawa, Sept. 6.—This has been a record year on the Intercolonial railway. Gross and net receipts promise to be the largest in the history of that road. Former amounts were over a million a month. In the last fortnight power has been increased by 19 new locomotives.

#### WESTERN TELEGRAPHERS MAY STRIKE

Winnipeg, Sept. 5.—A strike vote is being taken this week among the Canadian Pacific Railway telegraphers in the west, whether to accept the 10 per cent. advance in wages offered by the company or stand out for the 15 per cent. demanded by the men. The men will strike on Sunday and so far the vote is unanimous for a strike. Ballots are being forwarded by wire.

A special general meeting of the Prince Rupert Rowing Club will be held on Friday evening at the court house at 8 p. m. 210

A series of dances will be held in the K. P. hall, commencing Saturday, September 7, at 9:30 p. m. Music furnished by the Westholme Opera House orchestra. 211

#### Prince Rupert's Great Fishing Industry May Furnish Men for Imperial and Canadian Navy

Naturally Sir George Doughty in his address last night to the Canadian Club, dwelt on the fishing prospects of Prince Rupert. He put it very simply. He said that to his knowledge there is no place in the world where the fishing resources within reach are so abundant. He knows of no other place so rich in marine resources in the world.

Referring to the advantages coming to Prince Rupert from the establishment here of the fishing industries which are starting operations, Sir George touched aptly on the question of alien labor in these industries, and brought the thought swiftly into line with his main subject of Empire by showing that from the fishing population Great Britain has always drawn her best sailors and naval men.

Prince Rupert, he believes, will contribute seamen for the Canadian and Imperial Navy. On the question of Empire, as it affects the future of the British race, Sir George emphatically stated his belief in supremacy of the British race, pointing out what they had done in molding all that is most cherished in the world today. High principles and religion were the foundations upon which the Empire had arrived at the high pinnacle that it holds today amongst the nations of the earth. The British Empire today owes its foremost position and strength to the possession of a navy of a strength and character never equalled before in the history of nations.

The speaker dwelt for a few moments upon the policies of the great Canadian statesmen who have been guiding the destinies of the Dominion during recent years, Sir Wilfrid Laurier and Mr. Borden. He was not there to advise Canadians, he trusted to their natural sense of

## STURDY IMPERIALISM IS THE NOTE STRUCK STRONG BY SIR GEORGE DOUGHTY

**THE KEYNOTE.**  
Judge Young, president of the Canadian Club of Prince Rupert, presided at the dinner to Sir George Doughty last night, and a good audience thrilled to the principal speaker's stout assurance of the power to conquer of the British navy, and the importance that Prince Rupert should think Imperially.

the fitness of things, to guide them in the position that they

would take, as to the future defenses of the Empire.

In dealing with the German war scare Sir George pointed out that while Canada had been increasing in commercial prosperity as the years rolled by, every dollar of invested capital, depended for its protection upon the strong arm of the Imperial navy. He warned his audience not to be lulled into a sense of false security, by the idea that matters of sentiment would deter the German nation from assuming a hostile attitude, should the occasion offer of attempting to secure by arms the supremacy of the seas. In this connection this sturdy old Britisher asserted in no halting fashion, that should the nation in question make a break at the present moment, the British fleet would smother them in 48 hours.

In conclusion Sir George remarked that if Canada was to be a great country, it was not this present generation alone that merited consideration but our children and our children's children. He hoped in the future to visit Northern British Columbia on many occasions, and was leaving his son to represent him as a Canadian settler, the next best thing he could do to remaining himself.

**LOCAL JOTTINGS**  
Judge Young will leave on Monday for Skagway on his way to Atlin to hold court.

Miss Long, sister of Mr. F. S. Long, manager of the Bank of British North America, left this morning on the Prince George, after a pleasant visit spent in this city.

Mrs. J. F. Ritchie, accompanied by "Master" Bob Ritchie, left this morning on the Prince George for Victoria.

#### POPULAR OLD TIMER AND MUNICIPAL EMPLOYEE HAS RETURNED A BENEDICT

By the "Old Reliable" Camosun early this morning there arrived quietly and unostentatiously as is his wont, Mr. L. E. Macfarlane, the city sanitary inspector, bringing with him his bride. So skilfully did Mr. Macfarlane manage his honeymoon return to Prince Rupert that very few of his eagerly expectant friends with their long-stored old shoes and rice managed to get wind of his coming. The happy bridal pair had been expected by several different boats before.

Mr. and Mrs. Macfarlane were married in Vancouver at the First Presbyterian Manse by the Rev. J. R. Wilson on the 21st of August. As all Prince Rupert knows, Mr. Macfarlane's bride was Miss Hughes of the General Hospital staff, a staff of late quite often called upon to furnish brides for eligible Prince Rupert bachelors. Miss Hughes' return as Mrs. Macfarlane is cordially welcomed by her many friends and the bridegroom's friends of the city staff are delighted to welcome him warmly. It is over four years now since Mr. Macfarlane arrived in Rupert as a pioneer, before there was even a plankway. He has now a pretty new home on a splendid corner lot site on Sixth avenue, and to it he welcomes a bride whose popularity is assured.

#### WORKERS WANT PRICES REDUCED

**Special to Daily News**  
Halifax, Sept. 6.—At a meeting of the Provincial Workingmen's Association grand council a resolution was proposed in reference to the high cost of living. A committee was appointed to draft a resolution asking the federal government to make an inquiry into the reasons for the increasing prices of articles of consumption.

#### BLASTING TAPS LAKE INTO MINE

South Porcupine, Sept. 5.—The waters of Pearl Lake broke into a drift of the Schumacher Mine and sixty feet of the roadway have disappeared. Several buildings are undermined. A branch of the Traders Bank almost fell into the chasm and is now tilted at a dangerous angle. The cave-in is the result of a fierce round of shots fired by the miners.

**A Good Remedy.**  
Some people have trouble with their feet; others buy their shoes of Scott, Froud & Co.

Mr. W. H. Hatch, brother-in-law of William Watson, of this city, who was a heavy purchaser at the recent sale of government lots, left on the Prince George this morning for his home in Winnipeg.

#### SOUTHBOUND TODAY BY THE GEORGE

Following were passengers south by the Prince George today: Miss Long, Gains Peck, J. T. Talbot, Robert A. Greene, J. J. Whalen, B. Anderson, H. McLaughlin, E. L. Stover, Mr. Clifford, S. Miller, C. #### MAY HAVE A DRY TOWN IN SPOKANE

Spokane, Sept. 5.—Petition containing 10,307 names asking that the question whether the sale of intoxicants should be prohibited in Spokane should be submitted to the voters at the general elections in November, was filed today with the city clerk. The number of signatures is largely in excess of amount required.

#### INSTINCTIVELY CONSERVATIVE VIEWPOINT

(Special to Daily News.)  
Quebec, Sept. 6.—The reception to Premier Borden promises to be a right royal one and even Wilfrid Laurier, in his palmy days, never had such an enthusiastic reception as that accorded. The Victorian is due to arrive at noon.

DAILY EDITION.  FRIDAY, SEPT. 6

**BE IMPERIAL NOT PAROCHIAL.**

Never was better note struck by speaker for Prince Rupert than that strong note of Imperialism struck last night by Sir George Doughty. Prince Rupert is in danger of becoming too parochial. Citizens of Prince Rupert who have concentrated their minds for long on the affairs of the city internally are rather apt to miss the stupendous aspect of the city of Prince Rupert regarded as an important strategic point in the great campaign of Empire building by the Parent Land of Britain. Not military but industrial is the campaign, and men like Sir George Doughty are in the vanguard of the vast bloodless battle. Why, then, is Sir George Doughty posting himself at Prince Rupert? Because here for him is the base of industrial operations on an imperial scale which will carry the name and the fame of Prince Rupert from border to border, from centre to farthest flung outpost of the British Dominions, the Old Land, and beyond the seas. The big upbuilding thought of the part Prince Rupert is destined to play in the whole splendid Empire of Britain should be ever present above the petty toils and irritations of Prince Rupert's lesser life.

**TEMPTATION FOR MR. BORDEN.**

There are many pitfalls before Mr. Borden in this business of providing a naval policy for Canada that will meet the situation by a contribution to Great Britain postponing to a later date the formation of a permanent scheme. This would be a mistake, however. Canadians want the whole plan before them—if not in detail, at least in outline.—*Manitoba Free Press.*

**COULD USE THE CASH HERE.**

While Germany's increasing naval armaments are pointed to from Great Britain as having no other purpose than one which makes it imperatively necessary for British safety that British armaments shall be increased in still greater proportion, the increase in British armaments is pointed to from the other side of the North Sea as placing Germany in such deadly peril as to make it imperative that German armaments shall be increased. And so the pouring out of millions upon millions continues for the provision of huge floating fortresses, monsters of destructiveness which are marvels of devastating power and of costliness. It is a strange pass, surely, that civilization has come to in this twentieth century of the Christian era, when such immense amounts of human endeavor, that might be devoted to transforming the world and putting an end to most of its crime and misery, are devoted to preparation for terrific destruction of human lives and property.

**VOX POPULI VOX DEI.**

All the financial journals are unable to see how anyone can possibly object to the proposed C. P. R. melon-cutting. It is nobody's business, they say, but the C. P. R.'s and its shareholders. The people, however, who pay the freight rates which make the melon-cutting possible, are most decidedly of the opinion that it is their business; and they intend to make themselves heard.

**Expert on Tour.**

Ottawa, Sept. 5.—H. J. Grisdale, director of the experimental farm, has left on an extended tour through the Canadian west.

New York, early today, a policeman, going through the ruined rooms, came upon the charred body of John Rich, tenant of the burned out apartment. Rich was a picture film actor, and yesterday spent a strenuous day posing as the hero of an apartment house fire. Reaching home late at night he slept so soundly that he was not awakened by the flames in his room until it was too late.

**RANCHERS' BATTLE MAY MEAN MURDER CHARGE FOR FURIOUS SHOOTER**

(Special to Daily News.)  
 Port Angeles, Sept. 5.—Charles Bates, a young rancher, was probably fatally wounded in a gun fight between Bates, William Bender and D. C. Sisson, Bates' employer. The fight was over horses belonging to Sisson and occurred at Bender's cabin, ten miles southwest of Port Angeles. Bates and Sisson, according to their stories, went to settle for damages done Bender's field by horses and when approached Bender shot Bates, tearing away the muscles of his arm and mutilating his side. Bender then fired at Sisson, who returned the fire with his rifle, shooting five times. Bender and Sisson escaped injury. Bender was arrested.

**COMING OF NEW SHOW COMPANY**

It is definitely announced that that famous Allen Stock Company will arrive in the city on Wednesday next on the Prince George, opening that evening in the Westholme Opera House with Mrs. Leslie Carter's great success, "Zaza." It will be the greatest event that has so far occurred in the theatrical business in Prince Rupert. The company, which numbers eighteen people, outside of the special Hungarian orchestra which accompanies them, are known as the best stock company playing on the Pacific coast. They played to crowded houses for three months in Victoria, one of the most critical and difficult cities to please on the coast. A list of plays in their repertoire and further particulars will appear shortly.

**TROUBLE IN NICARAGUA CONTINUES**

San Juan Del Duro, Nicaragua, Sept. 5.—Fifty American marines have reached Managua. Rear Admiral Southerland, commander-in-chief of the United States Pacific fleet, controls the situation. American naval contingents are garrisoning the principal towns along the railroad. The rebels have suspended operations. A detachment of marines from Corinto reached Leon on Sunday. The populace showed evidences of indignation at the coming of the Americans, but the leaders kept them well in hand.

**HARD BLOW AT ROOSEVELT THROUGH COURT**

Philadelphia, Sept. 5.—Legal papers were signed today asking the United States Court to restrain the secretary of the commonwealth from certifying to the nomination of those electors on the Republican ticket in Pennsylvania, who favor Roosevelt for President.  
 Charlotte, N.C., Sept. 5.—The Republicans of North Carolina have come to the parting of the ways and two state conventions were held, one by the supporters of Taft, and another by the followers of Roosevelt. As a result of the clash there will be two electoral and two state tickets in the field.

**SETTLEMENT OF ISLANDS IS RAPID**

Arriving in the city Wednesday, en route to Masset, were Messrs. S. D. Sewall and Nicholas Monjo of the Star Realty Company of Vancouver. This company, of which Mr. S. D. Sewall is managing director, have about 20,000 acres of excellent farm lands, located on Messet Inlet between Ain River and Kundis. The company operating this tract is the Graham Island Development Co., subsidiary to the Star Realty Co. The land is divided into forty acre farms and is already for the settlers to arrive and start working their holdings. Mr. Sewall states that a number who have purchased land will arrive on the ground in a very short while. A saw mill plant is on the way, in fact being on the British Empire, which arrived in port yesterday.

**FEATHERWEIGHT FIGHT.**

Sacramento, Sept. 5.—Sally Salvador of Sacramento and Roy Moore of San Francisco, both featherweights, fought twenty fast rounds to a draw here last night.

**VERMONT ELECTION RESULTS**

New York, Sept. 5.—Chairman Hilles of the Republican National Committee early this morning issued a statement on the Vermont election. "At 2 o'clock returns from 206 of 246 towns indicate that the vote of Fletcher, the Republican candidate for governor, would approximate 30,000. That of Howe, Democrat, approximate 21,500 and that of Metzger, Progressive, approximate 18,000 and the combined votes of the Prohibitionist and Socialist parties 3,000. The Republicans have elected a substantial majority of members to the Legislature, so that choice of Fletcher will be confirmed by the joint assembly.

Ribbon with a picot edge appears on some of the new hats. Corduroy competes with felt in children's millinery for fall. Half and whole belts are being used to a great extent on suits. Steel beads are now combined with white pearls for trimmings. Boudoir slippers of brocade are made to match brocade tea gowns.

**NEW STUNT BY AMATEURS ON FRIDAY**

The amateur night entertainment to be put on this evening at the Westholme Opera House bids fair to be of an especially attractive character. Besides the popular Westholme orchestra, that has proved such an attraction for the last few weeks, and the several turns of the local favorites, the show will be reinforced by the addition of two newcomers, Messrs. Harvey and Joe Fillion. The former will appear in character sketches and the latter in a celebrated acrobatic stunt of a paralyzing and stupendous character, as performed before all the crowned heads of Europe and America.

**HIS LAST HOLD-UP FAILED**

New Orleans, Sept. 5.—A Louisville & Nashville passenger train leaving here for the north at 8 o'clock was held up near Micohead, twelve miles from here. A lone bandit took the registered mail and money from all the passengers, but before he could make his getaway he was knocked senseless by a brass torch in the hands of Engineer Baer. All the loot was recovered. The robber is expected to die.

**CHAIRMAN H. L. DRAYTON BUCKLES TO**

Ottawa, Sept. 5.—H. L. Drayton, K. C., successor to the late Judge Mabee, chairman of the Dominion Board of Railway Commissioners, has now started work at the offices of the commission. He will preside at the first sitting, on September 17th, here. A heavy list of cases is promised. Mr. D'Arcy Tate, vice chairman, leaves on a holiday trip tomorrow to Europe, not to return until the middle of October. The freight rates case and the telegraph case will outstand until his return.

**Phone Manager Resigns.**

Mr. Ernest Love, the manager of the city telephone system, has handed in his resignation to the City Council to take effect at the end of the present month.

KEIR HARDY SEES BREACH WIDENING

Before leaving for New York the other night, J. Keir Hardy, the British labor leader, who arrived aboard the Hesperian, announced that the breach between the Labor party and the Liberal government in Great Britain was growing wider and wider and that at the next elections the Independent-Labor party intended to fight their own way, irrespective of Liberal promises.

GERMANY CERTAINLY HAD SPIES EMPLOYED IN BRITAIN

London, Sept. 6.—Despite statements to the contrary fear of war between England and Germany is increasing rather than decreasing. Arrests made of persons accused of espionage by the military officers of both nations have inflamed public opinion. That Germany is watching every movement made by the British war office is proved conclusively by revelations made during the trial of Arma-gaard Karl Graves, who has just been sentenced to 18 months' imprisonment by the justices of the Scottish high court sitting at Edinburgh.

Secret Codes.

Secret cipher codes, cryptogram cable note books with pages gummed together to conceal records made by the spy, were unearthed by the detectives who trailed Graves. A few of the many notes were deciphered after patient investigation, were the following:

"Current rumors. Present. Incoming. Outgoing. Clearing for action. Have lowered defending nets. Land fortifications are ready for action. Protective manoeuvres are being carried out at sea. Coal being carried by rail. Coal steamer arrived at town. Preparations are being made. Remarkable influx of reservists. Mine fields being laid. All is quiet. Important to report. Liners are appearing."

There were also the names with code equivalents, of various classes of battleships, cruisers and destroyers, such as the Orion class, the dreadnought class, the Lord Nelson class, the Lion class and the invincible classes. "It is an extensive code dealing with practically the whole of the British navy, including torpedoes, destroyers and submarines, mine layers and mine searchers," declared the solicitor general for Scotland.

BRITISH HARVEST RAIN SPOILT WILL MEAN HIGHER PRICES FOR CANADIAN WHEAT

New York, Sept. 6.—A cable to the Tribune from London says: The deluge of rain was renewed with increased severity in most parts of England yesterday. In some places rain has been falling continuously for 48 hours. More than half an inch fell in London yesterday, the downpour lasting for nine hours, which means that the remarkable total of more than 3,750,000 tons of water deluged the country around London before 10 a. m.

For 12 hours yesterday Norwich was swept by a rain storm of unparalleled violence, in the course of which a fall of six inches was recorded. This eclipses all previous records in the British Isles. There seems to be no immediate prospect of improvement in conditions. The outlook is extremely grave for agriculturists. Crops are rotting in the ground. The records show this to be the wettest August since 1881.

Crops Are Ruined.

This is the crucial time for crops. Unless at least a fortnight of good sunny weather gives crops a chance to ripen and be gathered the English harvest will be a total failure. Under the best conditions the crop will be only fair in quantity, while in quality it will be far below the average. It is estimated that the continuance of rains and the untoward weather of the last week has cost British farmers close to \$100,000,000 in the destruction of crops, and another fortnight of the same kind of weather will mean a total loss of a quarter of a billion dollars.

Prices to Be High.

The total sales of wheat in the London market last week were only 18,500 quarters, at an average price of 35 shilling and sixpence, as compared with 105,600 quarters, at an average price of 31 shillings and eightpence during the same week last year. The prospects of good crops in Canada and the United States, with a large surplus for export, have held the prices down so far, and America is looked to to save the situation in England.

Supposed Tuberculosis Anti-Toxin

The scientists at the Johns Hopkins' hospital, Baltimore, Md. are of the belief that an anti-toxin has been discovered that may make the human race immune to tuberculosis. For a long time Dr. Louis Hamman and Dr. Charles F. Austrian have been working on a virus, and for several months have been experimenting on rabbits. About six months ago a rabbit was inoculated with the anti-toxin, and later was given an injection of tuberculosis germs. At the end of a month the rabbit showed no signs of ill-health. On the contrary, its appetite improved, and it took on weight. Naturally the formula of the anti-toxin is a great secret with Drs. Hamman and Austrian. The latter has gone to Germany to further his great discovery.

Better Be Prepared For Bills

Officers of the New York Coal Merchants' Association are now agreed that there will be a serious shortage of coal throughout the east this winter, no matter how much is mined during the next two months. The suspension of mining in April and May, it is declared, will be, under the most favorable conditions, a supply one-tenth less than normal this winter. Independent operators, who are not bound by the schedule prices of the coal carrying companies, have begun to sell anthracite at a premium of 25 cents a ton and upward. The officers of the Coal Merchants' Association insist, however, that there is no necessity for becoming alarmed, because the anthracite will be distributed in such a way that there will be no serious distress.

Labor Seems Settled

Ottawa, Sept. 5.—The Labor department reports quiet conditions throughout the country insofar as regards industrial disputes. Strikes in July did not extend into August, and there are only a few disputes pending. In all cases conciliation boards have either been appointed or are at work.

Every Home Has its Purse

Ana 99 out of every 100 unprejudiced people will tell you THE DAILY NEWS is the home paper of Prince Rupert.

Advertisers also tell us and will tell you that results obtained from publicity carried in the columns of this paper have exceeded by far those obtained through any other newspaper published in Prince Rupert. The successful business man today is the one who advertises judiciously, who chooses the medium most generally read by citizens of a community; a business man who does not look upon an expenditure for advertising as an expense, but, on the contrary, as an investment.
