

## TORNADO SWEEPS OVER STATE OF NEW YORK

### SIXTY PERSONS SEVERELY INJURED IN RIOT DURING LEAGUE FOOTBALL GAME AT BELFAST

#### THREE KILLED, FIFTY INJURED; PROPERTY LOSS \$250,000

(Special to Daily News.)  
Syracuse, N. Y., Sept. 16.—Three persons were killed and fifty injured by a tornado which left a ten mile trail of disaster across the northern part of Onondago County yesterday. The property loss is estimated at \$250,000. A funnel shaped cloud first appeared near Long Branch pleasure resort, ten miles from here. About four hundred persons were there and a panic followed as building after building was toppled over and two inter-urban trolley cars were hurled into a ditch.

#### POOR OF EUROPE ARE TO SUFFER HUNGER

Paris, Sept. 14.—Hunger and suffering stare the poor in the face during the coming winter here, the frigid summer, wet and sombre, having ruined the crops, from bread to wine. The news has been published broadcast. The price of bread, now the highest on record, will go higher, wine will be scarce for poor and rich; potatoes ditto. Never has Europe seen such a summer.

Pantorium Pioneer Cleaners.

#### INTENSE EXCITEMENT IN JAPAN

(Special to Daily News.)  
Tokio, Sept. 16.—The city has been kept in a state of excitement since the suicide of General Nogi and his wife, Countess Nogi, by rumors that other persons had ended their lives in testimony of their devotion to the departed Emperor Mutsuhito. All such reports, however, proved to be baseless.

General Nogi, before taking his own life, prepared three statements, which he sealed. These will probably be made public tomorrow.

Before plunging his sword into his throat, General Nogi drew a knife across his abdomen, causing the skin to break. This was done in accordance with the ancient customs of the Japanese, which General Nogi was most careful to observe in preparing for death.

#### FINED FOR RESISTING ARREST

In the police court this morning before his worship Magistrate Carss, W. McGowan, a sailor off the Prince John, was fined \$10 and \$2 costs for being drunk on Saturday evening and resisting arrest. The defendant gave a good deal of trouble, two police constables being required to escort him to the station.

H. G. Helgerson, the well known young real estate man of this city, left on the Prince Rupert this morning for a trip to the south, and will probably be away about six weeks, visiting New York and several of the eastern cities before returning.

Suits! Suits! Suits!  
Try one of ours and you will be satisfied. Sweder Bros., Tailor.

#### RECIPROCITY THE KEYNOTE OF MEETING

(Special to Daily News.)  
Montreal, Sept. 15.—"We want a larger market and that market is the United States," was the text preached yesterday by Sir Wilfrid Laurier and Hon. Rodolph E. Lemieux, who with their friends from Montreal and elsewhere, held a demonstration at St. Clet, in the County of Soulanges. Reciprocity was in the air, while the keynote of the speeches was "Down with the trusts, and larger markets."

Mr. Frank A. Dowling returned last evening on the train from a hurried trip to Hazelton.

That old buggy gives baby a terrible shaking up, doesn't it? Why not get one with a good spring at Hart's. Prices from \$12.50. 218

#### AMATEUR DRAMATIC SOCIETY WILL PRESENT "THE LIARS"

The approach of the fall and the opening of the winter theatrical season is evidenced by the revival of interest taken by the Prince Rupert Amateur Dramatic Society in the prosecution of their favorite art. The executive of the society have selected a play, "The Liars," one of Henry Arthur Jones' greatest comedies, to be put on shortly before the holidays. Mr. H. O. Creve has consented to act as assistant stage manager, relieving Mr. H. Bullock-Webster of a part of that arduous task. Rehearsals will start immediately. Amongst the cast will be the following: Mrs.

Hubert Ward, Mrs. H. Bullock-Webster, Miss Thompson, Miss Jessie Mercer, Miss Milligan and Miss Johnston, Messrs. W. E. Fisher, Basil Durant, G. S. Fitzmaurice, F. A. Ellis, J. Russel and H. O. Creve.

**Auction Sale.**  
On Tuesday next, at 2 p. m., at the corner of Third avenue and Seventh street, a large quantity of furniture to be sold, new and second-hand—including 100 new chairs. Frank A. Ellis, auctioneer. 218

Launch Alice B. W. J. Thomas. Phone Green 391. Govt. Wharf.

#### TWO POPULAR CITIZENS LEAVE PRINCE RUPERT

It was with feelings of sincere regret that a party of about thirty friends assembled at the G. T. P. wharf last evening to say farewell to Mrs. and Mrs. Norman Mackintosh, who left by the Princess Mary to take up their residence in Vancouver.

Mr. Mackintosh has been a resident of Prince Rupert for the past two years, during which time he has been exclusively engaged in newspaper work, starting in as reporter on the Optimist and continuing in the same capacity when that paper became The News. A few months ago he was advanced to the editorial chair, a position which he has filled with marked ability.

As a citizen of Prince Rupert and as editor of this paper, Mr. Mackintosh took a keen interest in the city's welfare and advancement. His departure is an undoubted loss for Prince Rupert, nevertheless a host of citizens unite in wishing him success in his new home.

The Church of England choir and its local entertainments her talent as a singer will also be missed.

The News joins with their many friends in wishing them prosperity in their new home.

#### A WALK OVER FOR VANCOUVER

Winnipeg Badly Beaten in First Game of the Mann Cup Contest.  
Vancouver, Sept. 14.—In the first match for the amateur lacrosse championship of Canada and the cup given by Sir Donald Mann the C. N. R. team from Winnipeg was badly beaten by the home team, who are the present holders of the trophy. The score stood: Vancouver 28 goals, Winnipeg 5 goals.

The challengers made an extremely poor showing, although at times the playing was decidedly interesting. It was evident at the start, however, that they were not in the same class with Vancouver. Both teams played a clean game and only two penalties were handed out, one to each.

The second game of the series between the same teams will be played on Thursday next, the total goals for the two games deciding the winner.

In the city championship series Westminster defeated Vancouver by a score of 9 to 4.

## FLAG WAVING STARTS RIOT SIXTY PERSONS INJURED AT AN IRISH FOOTBALL GAME

(Special to Daily News)  
Belfast, Sept. 14.—A fierce fight was waged in the Celtic football grounds today in which sixty persons were severely injured, two of them being in a critical condition. Five of the injured are suffering from shot wounds.

The fight took place at half time in the game in the league

series between Belfast Celtic team and a team representing Linfield. The latter was leading by a score of 1 to 0. Some of the Celtic supporters unfurled a green and white flag and started to parade. Linfield partisans at once displayed the Union Jack and immediately stones and bricks were hurled at them. The police were powerless in resisting the op-

posing mobs, several thousands strong, which surged toward the players' field where a regular battle was fought in full view of the grand stand. The report of a revolver shot caused a lull and many left the grounds, but stone throwing was soon resumed, both inside and outside the grounds. More revolver shots were fired, but police reinforcements soon arrived and separated the mob.

## FATHER MURDERS HIS OWN DAUGHTER THEN TAKES LIFE OF HER HUSBAND

(Special to Daily News.)  
Golfax, Wash., Sept. 15.—Wesley Brownell, aged 25, and his 17-year-old wife Winnie, residing at Culesae, Idaho, were shot and instantly killed today by A. Neeves, the father of Mrs.

Brownell. Neeves was charged by his daughter with having maltreated her in Idaho and in aiding others to do so. The shooting took place at Charles Long's ranch, near Golfax, where Neeves and his wife had come, bringing

with them the Brownell children. Brownell and his wife had walked a hundred miles in search of Neeves. They had been without food for more than a day and had hidden out in a barn at the Long ranch waiting for Neeves to appear.

#### PRINCE RUPERT ROWING CLUB HAVE PROMISING FOURS

The members of the Prince Rupert Rowing Club have been taking advantage of the glorious weather of the last few days, with the harbor like a sheet of glass, and have been out for a spin with their clinker built coxless boat. The boat, which in rowing parlance is known as a clinker built coxless four, is one of the finest of its kind and was built by Messrs. Pocock & Co. of Vancouver.

four that will be able to give a good account of themselves in competition with the older clubs of the lower coast cities.

Mr. and Mrs. G. R. Naden left this morning on a short vacation to the lower coast cities.

Miss Green was a passenger this morning on the Prince Rupert, going south for a short vacation.

#### CHAMBERLAIN'S HEALTH GOOD; WENT WALKING

(Special to Daily News.)  
London, Sept. 15.—The following bulletin was issued by Mrs. Chamberlain tonight regarding the health of Right Hon. Joseph Chamberlain: "There is no foundation to the reports of Mr. Chamberlain's condition. He is very well and has been out walking today."

#### DEPARTURES BY THE PRINCE RUPERT

The following left for the south on the Prince Rupert this morning: A. Stewart, J. Roberts, R. A. Nicholson, H. Helgerson, Ole Stegevig, A. D. McPhee, Mrs. A. D. McPhee, Andy Johnston, Oscar Larsen, A. Johnston, Mrs. Goodenough, Mrs. Irving, Miss Green, Father Ortolan, Mrs. Hoyt, J. Petersen, Miss J. Ross, G. R. Naden, John Albi, G. W. Bell, R. Dubeau, Mrs. G. R. Naden, D. M. Hays, Mrs. D. M. Hays.

**THE WEATHER**  
For twenty-four hours ending 5 a. m., September 16: Barometer, 29.74; maximum temperature, 76; minimum temperature, 58.

#### BALTIMORE AVIATOR IS INJURED

(Special to Daily News.)  
Chicago, Sept. 16.—Aviator Howard W. Gill of Baltimore was fatally hurt on the aviation field Saturday night. George Mestach of France, whose monoplane collided with Gill's biplane when they were participating in a race 75 feet in the air, was picked up unconscious, but later he revived and his condition was found to be not serious. Gill died an hour after the accident.

Jack Petersen, a well known mining man with large interests in the Portland Canal district, went south this morning on the Prince Rupert.

Warm, clean rooms at Savoy.

#### SUCCESSFUL HUNTING TRIP SATURDAY

C. V. Eviitt, of the Mack Realty Co., and Alex. Stowell, of the Bank of Montreal, had a most successful little hunting trip on Saturday afternoon, only being away a few hours when they were fortunate enough to bag a very fine deer, which, it is understood, is to be credited to the prowess and unerring aim of the former. Alex. Stowell remaining in camp attending to the more prosaic duties of seeing that the boat did not get away. But, of course, according to the etiquette of the followers of the chase, he shares in the glory of the expedition.

Wanted—Bids on an apartment house. Plans at W. L. Barker's office. 218

#### GOOD EXAMPLE FOR CANADIAN GOVERNMENT TO FOLLOW

The United States government has in operation in the Treasury department at Washington a laundry machine for the washing and laundering of dirty bank bills. The machine will wash paper money on a large scale and at so low a cost that it is estimated the government will ultimately save as much as a million dollars a year through the economical process. Banks, too, will be enabled to effect big savings. The essential feature of the machine consists of tiers of copper rollers set in an oblong frame work, weighing about eight hundred pounds, which may be raised or lowered in three seconds, and when in position for washing operation fits snugly into a hundred gallon tank filled almost to overflowing with a solution in which is dissolved a special soap, the formula of which was discovered by government officials. Passing back and forth over the rollers is what appears to the ordinary observer to be a web of cotton duck, but is in reality two of these endless bands, fitting snugly one on top of the other. Between these two duck belts, each sixty feet in length, travel the bills to be cleansed, and the washing or scrubbing is accomplished by the passage over the successive rollers, all of which are so shaped as to impart a peculiar rubbing motion to the soiled currency.

through the clear water of a sixty gallon rinsing tank; then a jet of air whisks it to another endless band of duck which leads over gas heated drums that dry the paper, and in an interval of less than two and a half minutes the rejuvenated bank note is automatically delivered to a tray. A supplementary machine irons the laundered bills by passing them on duck aprons over heated drums and then subjecting each bill in turn to the pressure of compressed paper drums. Each machine requires but two operatives—a girl to feed the bills and another to keep watch that the crisped money is ejected properly at the completion of the operation.

We still have at your disposal a good selection of bedroom crockery. Decorated 10 piece sets at \$3.30. This is less than half price. You will miss something good if you fail to secure one. 218

**Baptist Brotherhood Tonight.**  
An important meeting of the Baptist Brotherhood will be held at 8 o'clock this evening. All members are requested to be present as matters of importance will come up for consideration.

A. D. McPhee, a well known mining man and for some time manager of the Red Cliff Mine at Stewart, left for the south this morning, accompanied by Mrs. McPhee.

DAILY EDITION. **MONDAY, SEPT. 16**

**GREAT MANUFACTURING DEVELOPMENT OF CANADA DURING THE PAST DECADE**

The annual output of Canadian manufactures has grown to practically two and one-half times its value of a decade ago. This is shown by the following statistics based upon the census taken last year for the calendar year 1910, as compared with those of the census of 1901 for the calendar year 1900. In view of a total population increase in the decade of less than 35 per cent., according to the official census, the showing for manufacturing is notable indeed:

Establishments, 1910, \$19,202; 1900, \$14,650; increase, \$4,552; per cent. increase, 31.07.  
 Capital, 1910, \$1,245,018,881; 1900, \$446,916,487; increase, \$798,102,394; per cent. increase, 178.58.  
 Employees, 1910, 511,844;

1900, 339,173; increase, 172,671; per cent. increase, 50.91.  
 Salaries and wages, 1910, \$240,497,996; 1900, \$113,249,350; increase, \$127,248,646; per cent. increase, 112.36.  
 Materials, 1910, \$600,822,794; 1900, \$266,527,858; increase, \$334,294,936; per cent. increase, 125.42.  
 Products, 1910, \$1,164,695,032; 1900, \$481,053,375; increase, \$683,641,657; per cent. increase, 142.11.

The capital employed in manufactures increased during the decade by 178.58 per cent., and the value of products by 142.11 per cent. The number of establishments employing five hands and over last year was 19,202, being an increase of 4,552 in the decade.

**IMPORTANT WITNESSES IN NEW YORK POLICE SCANDAL ARRESTED**

New York, Sept. 14.—"Gyp the Blood" and "Lefty Louie," the missing gunmen wanted in connection with the Rosenthal murder case, which revealed such a terrible condition of affairs in the Police department of this city, were arrested tonight in a flat in Brooklyn, where the two men were living with their wives. They were seated at the tea table when the officers entered, but offered no resistance.

Don't be talked into buying the "just as good" kind of mattress. Insist on having a Restmore. Hart's price is \$9.95. 218

**AGRICULTURAL MINISTER WILL OFFICIATE AT THE PROVINCIAL EXHIBITION**

New Westminster, Sept. 16.—Hon. Price Ellison, minister of agriculture for British Columbia, has written to Manager D. E. Mackenzie of the Royal Agricultural and Industrial Society that he will be very pleased to officiate on October 1st at the dedication of the Horse Show building, which is now being erected, in connection with the Provincial exhibition which will be held here October 1st to 5th.

Mr. and Mrs. D. M. Hays went south this morning on the Prince Rupert for a short visit to Seattle and Vancouver.

**IN SPITE OF RUMORS OF ICE-BOUND STRAITS THE HUDSON BAY ROUTE IS RAPIDLY COMING TO THE FORE**

Quite according to tradition adverse reports about ice conditions in Hudson Bay and Straits have been the signal for depreciatory comment on the route by a number of influential eastern newspapers. Happily, the time is past when public opinion in the east can be so worked upon as to embarrass this project which is so near the heart of the west and which is now definitely under way. Having gone so far in actual construction work of the railway to tidewater no government could afford to stay its hand, even were a seemingly strong case against the navigability of the bay and straits a possibility. Nothing indeed is more certain than that within a very few years the route will become a commercial fact. That it will also be a commercial success has yet to be proved, just as the commercial success of the Panama canal has to be put to the test of actual operation. Great enterprises require great faith, and it is encouraging to those whose faith in the Hudson Bay route has never flagged to reflect that de Lesseps was regarded as a visionary and the commercial success of Suez canal declared impossible.

**Difficulties There Are.**

No one denies that peculiar difficulties surround the Hudson Bay route and possibly if the gain were not so immense it might not have been found worth while to face them resolutely with a view to overcoming them. But these difficulties are magnified for the faint-hearted by misapprehensions of the actual dangers to be encountered, while, banished to the background is the salient fact that the bay and its approaches have been successfully navigated by ill-equipped vessels with an extraordinary absence of disaster year in and year out for over 200 years.

**Ice Bugbear.**

Misapprehensions of its dangers are well illustrated by the latest account of them, provided by the Beothic, a privately-owned boat, which reports that on August 10 while on her way from Port Nelson to Moose Factory she encountered packed ice for eight days along the southern shores of the bay. Icebergs were also encountered at Belle Isle off Labrador. In Hudson Straits there was considerable ice. In the bay itself, however, there was not much ice and it was not of dangerous proportions.

**Quite a Fallacy.**

The above is used by the Ottawa Journal as the text for saying that some doubt is thrown on the belief of the probability of the route becoming a future Atlantic highway. But this claim does not bear analysis. It suggests an ignorance of the basic conditions of Arctic navigation and creates an entirely false impression; namely, that if conditions are so bad on August 10 they will be worse later on when the new crop movement sets in. Of course, the exact contrary is the case. Sub-Arctic ice begins to move in June and the movement continues through July and the early part of August. Big floes break up, detached masses crowd out of the Hudson Bay through its straits and join in the slow procession to the warmer waters of dissolution past Labrador and Belle Isle.

**Bay "Inclined Prairie."**

As for the bay itself, is is nothing more or less than an inclined prairie, tipping up towards its south end, where shallow waters debar James Bay as a navigable outlet for ocean shipping. Here imprisoned ice is driven and stranded, formidable possibly from the bridge of the Beothic but through which a properly sheathed vessel could steam as though so much spin-drift, should she be so misguided as to be so many miles out of her course. For no ocean bottom would have any business at the foot of the bay, but would maintain her deep water course from

Port Nelson or Fort Churchill to the straits through blue water scoured by ice by the powerful tides.

**Tides are Factor**

In Hudson Straits themselves, these tremendous tides prevent ice forming even in depth of winter in sufficient thickness to stop a powerful and properly protected steamer. Only when ice is crowding out of the bay in the early summer months is there danger of a blockade, and it is this period which presents the most difficult problem so far as the bay and straits are concerned; but it is a problem rather of delay than of physical danger, affecting rather the price of charters than of marine insurance.

**Danger Outside**

Greatest dangers are to be feared and encountered outside the bay and straits and in the open sweep of the Atlantic on the Labrador coast line, where great detached masses of the floe known as icebergs thow down from Baffin Bay and Davis strait. But icebergs are to be found at this season at the entrance to the St. Lawrence, and though they must necessarily be more numerous and more formidable further north, yet it is a known danger, and as such not insuperable to careful navigation. In a word, the difficulties of the route are trifling after the end of July so far as the bay and the straits are concerned, and the real danger lies in the north Atlantic waters beyond. This danger can be minimized by the resources of modern science, of which wireless telegraph stations on the coast line and on all ships plying the Western Canadian trade is the greatest factor for safety. —Manitoba Free Press.

**Lumber For Lighthouse**

The Lester W. David Lumber Company has received another large scow load of lumber, containing over a quarter of a million feet for the lighthouse being constructed on Holland Rock.

**15,000 ACCIDENTS FOR EVERY 100,000 PEOPLE YEARLY IN THE STATES**

Convincing evidence of the imperative necessity for accident insurance can be found in the following statistics in regard to annual accidental deaths and injuries in the United States:

Annual accidental deaths (nearly 10,000 by railroad accidents), 63,000.  
 Disabled for life, annually, 100,000.  
 Temporarily disabled, annually over 10,500,000.  
 Non-fatal accidents, annually, 11,000,000.  
 Non-fatal accidents from ordinary causes, daily, 30,000.  
 Fifteen thousand accidents to every 100,000 of population.  
 Six per cent. of deaths from all causes are due to accidental injuries.

**Ages Twenty to Sixty.**  
 Annual accidental deaths, 40,500.  
 Annual deaths from disease (all disabled prior to death), 435,000.  
 The proportionate mortality

through accidents (among males) out of every one hundred deaths from all causes is 12 per cent. Railroad accidents for the last twenty years, injured, over 1,000,000; killed, over 150,000.  
 Cost of civil war, 61-65 from wounds and disease, both less than 300,000.  
 Cost of Spanish-American war, Cuba and Philippines, less than 2,000.  
 "War with its awful carnage is terrible, but in comparison with the fearful result of the daily unlooked for accidents, war is safety," comments the Preferential Pilot in setting forth the foregoing statistics.  
 Customs returns of the Dominion show an increase of twelve millions and more for the five months of the fiscal year. The receipts for the month just closed totalled \$10,147,908, as against \$7,678,395 for the corresponding period last year, an increase of \$2,469,512. For the

## Woman's Rights

It is your inalienable right to demand in a range—Economy, Promptness and Satisfaction. It is your privilege to expect the same attention, progress and efficiency in the things you use in your daily work as have been brought about in other and often less important lines of endeavour.

The Gurney-Oxford is the foremost example of cooking efficiency.

The Gurney Economizer regulates all the drafts by lifting or dropping one small lever. It keeps the fire alive for hours with practically no coal consumption. It saves 1 ton of coal in 6. The Gurney Economizer is found only on the Gurney-Oxford range.

The Gurney-Oxford Oven is absolutely and always heated the same on all sides and in all corners because the heat is evenly distributed.

This is a sure and unfailing guarantee that whatever comes out of the Gurney-Oxford Oven is crisp and light and delicious—this is the final test and the point most often advanced by those who cook on a Gurney-Oxford, those who believe it is woman's right and privilege to have in her kitchen the labor, time and money saving principles embodied in the Gurney-Oxford.

## FRED STORK

PRINCE RUPERT

## VERY MUCH IMPRESSED WITH RUPERT'S PROGRESS

Indian Agent Lowery, a pioneer of pioneers of this province, who has been stationed at Hazelton for the last twenty-five years, came down on the train last evening, his first visit from his home district for nine years. Mr. Lowery, needless to say, was greatly impressed with the changes he saw all around him and the marked effect of the march of civilization. He left this morning on the Prince Rupert to

further investigate the phenomena of the onward progress of the twentieth century, as presented in the cities to the south of us.

Mr. G. Fisher, father of W. E. Fisher, barrister of this city, returned to Victoria this morning on the Prince Rupert after spending a pleasant visit with his son. At Hazelton today you can buy a beautiful Morris chair for \$9.50. The ordinary price was \$14.50.

## At the Theatre

A Side-Splitting Farce on Saturday Night Kept Audience in Roars of Laughter—"Sweet Nell of Old Drury" Tonight.

The usual Saturday night audience filled the Westholme Opera House to witness the performance of the Allen Players in the screaming farce, "Whose Baby Are You?" The play went with a swing from start to finish, all the players infusing a spirit of life and animation that was fairly infectious. The many absurd complications and mix-ups in which the various characters got tangled caused uproarious merriment, the house simply splitting its sides with laughter. The play was made for laughing purposes only and most assuredly filled the bill.

The introduction of the local real babies made a great hit, all three showing varied and marked ability of a decided character. Miss Verna Felton, both in her acting and singing specialties, was a particular favorite, whilst all the other members of the cast came in for their share of applause.

This evening the company puts on its piece de resistance, the famous London success, "Sweet Nell of Old Drury," a costume play of the time of Charles II. Special and elaborate scenery, and furniture is carried for this production, and all the characters are excellently cast. It is understood the advance booking is very heavy and another bumper house is assured.

## SMART NEW POWER BOAT

The trim gasoline launch "Polaris" left the harbor Saturday morning with a party of government surveyors, under Messrs. Brownlee and Nash, for Masset, on Graham Island. The Polaris, which has been known for some time on these waters, would hardly have been recognized by old time acquaintances, having been entirely refitted and overhauled. A brand new 24 horse power four cylinder Regal engine has been installed in her by Messrs. Parkin and Ward. She is electric lighted throughout, with a searchlight, and has all the most modern and up-to-date equipment. Altogether she is as fine a craft as ever sailed out of Prince Rupert harbor. Included in the party aboard the Polaris were Mr. Edenshaw of Masset and his daughter.

## SATURDAY NIGHT ROBBERY; SMALL SUM SECURED

There have been one of two complaints of petty thieving that has been going on in the city lately, and on Saturday evening a serious offense was committed. F. W. Hart's Big Furniture Store being burglariously entered and the cash register rifled of the sum of \$26.55. Mr. Hart had had a busy day between his two stores, and leaving the premises on Second avenue about 10:15 to transact a few little matters around town before the shops all closed, he returned shortly before 11, when he found the safe wide open, papers and packages scattered around and the cash register cleaned out of the above mentioned amount of money. An entrance was effected through a window at the back, and the thief must have been in hiding in the store when Mr. Hart returned, making his departure through a side door without being noticed, as later on the door, which had been locked during the evening, was found standing wide open. The police were immediately communicated with.

When pressing a seam or crease in a wool garment use damp wrapping paper instead of a damp cloth between the garment and the iron. The pressing will be more satisfactorily done.

By slipping stiff collars into a glass tumbler after they are ironed and allowing them to thoroughly dry they can be made to keep their shape.

## MERELY MABEL REMARKS

That Prince Rupert would gladly share its warm sunshine with the prairie provinces for the garnering of the harvest.

That the retiring editor's popularity among the fair sex as experienced at the G. T. P. wharf last night is envied by many of Prince Rupert's bachelors.

That the Metlakatla band concert on Sunday afternoon was very much appreciated.

That evidently Prince Rupert is going to eclipse anything heard of so far in the matter of decorations for the forthcoming royal visit.

That there must have been a marked absence of young people at the church services yesterday. The beautiful sunshine and the water seemed to prove a stronger attraction.

## CROTHER'S ADVICE TO LABOR

Three Rivers, Quebec, Sept. 13.—"Try to keep public opinion on your side," was the advice of the Hon. G. Crothers, Minister of Labor, to the members of the Federation of Labor assembled here in convention. "I am glad," he said, "to find that there is such respect for law and order and that you are not proposing any revolutionary means such as are being proposed in some parts of Canada. Get public opinion on your side and you get almost anything you want." He declared the workingman had as much right to organize for self protection as the doctors and lawyers.

## H. S. CLEMENTS WILL ARRIVE HERE SHORTLY

H. S. Clements, M. P. for Comox-Atlin in the House of Commons, is expected to arrive here on Wednesday. He will leave almost immediately for Hazelton and interior points, and upon his return proceed north to visit the outlying parts of his large constituency.

## WATER NOTICE.

For a License to Take and Use Water.  
Notice is hereby given that George E. Beattie and William H. Clarke, both of the City of Vancouver, in the Province of British Columbia, merchants, will apply for a license to take and use eight cubic feet per second of water out of a certain stream rising in the hills to the south and east of Hegan Point, flowing about northwest by west till the point of compass bears northwest, thence south and west, discharging into the pass one mile south of Hegan Point. The water will be diverted approximately southeast from Hegan Point one and a half miles distant and will be used for industrial purposes on the lands described as Lot 19 and Lot 2737, Range 5, Coast District.  
This notice was posted on the ground on the 13th day of August, A. D. 1912.  
The application will be filed in the office of the Water Recorder at Prince Rupert, British Columbia. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, British Columbia.  
GEORGE E. BEATTIE,  
WM. H. CLARKE,  
Pub. Sept. 9, 1912. Applicants.
