WAR IN THE BALKANS MAY YET BE AVERTED

CITY ENGINEER REPORTS THAT THE COST OF GRADING SECTION ONE WILL BE VERY LARGE

HOPES ARE ENTERTAINED FOR PEACE IN THE BALKAN STATES

POWERS ARE WORKING TOGETHER FOR THE PRESERVATION OF PEACE IN THE TROUBLED SECTION OF EUROPE—TURKEY WELCOMES POWERS.

(Special to Daily News.) London, Oct. 8.—The tension in the Balkan situation is slackening somewhat following the consent of Turkey to accept the good offices of the powers and the willingness of the Balkan states to withdraw the ultimatum and replace it with a note.

In spite of the better outlook, diplomatic circles throughout Europe are pessimistic as to the result of the peace negotiations, and believe that hostilities can hardly be averted. The powers are working in concert for the preservation of peace.

MAH LI COULD NOT GET MONEY

After Stealing Ham's Grig He Found That Court Would Not Give Him the Six Dollars.

Wing Ham owed Mah Li six dollars and was proceeding to give him the South, carrying his little wicker grip with him, without liquidating the debt. Mah Li was right there on the Shelohin, and seeing his six dollars both metaphorically and literally floating away took the only measure he could think of to secure himself against loss and seized the aforementioned grip and ran uptown with it. Wing Ham proceeded to lay a charge of theft against his brother Celestial, which resulted in a police court case this morning before Magistrate Carss. Mah Li, who was of a sad and dignified mien, did not give the impression of being a very hardened criminal, and although acting indiscreetly impressed the court to the effect that he had no criminal intention and was let off with a little sound advice as to the danger of taking the law into his own hands.

RAILBIRDS TO THRESH CROPS

Manitoba Farmers Pay Fines of Short Sentence Men to Secure Laborers to Thresh.

Winnipeg, Oct. 8.—So pressing is the need for threshermen that farmers are coming to the city and guaranteeing to pay fines if men in jail for petty offenses they will go out and work in the fields. The authorities are agreeable, as the central police station is overcrowded, and a dozen men have been let out on these novel terms.

BRITISH PARLIAMENT OPENS; TITANIC REPORT DISCUSSED

OPPOSITION TO COMPELLING MORE LIFE BOATS ON VESSELS—IRISH HOME RULE WILL BE DEBATED THIRTY-TWO DAYS THIS SESSION.

(Special to Daily News.) London, Oct. 8.—Parliament opened yesterday. The first sitting was devoted to the discussion of the reports of the Board of Trade and Lord Mersey in connection with the Titanic disaster. Some opposition was met with in the clause compelling steamers to carry additional boats for life saving purposes. It was asserted that this would make the vessels less seaworthy. The debate on the Irish home rule measure has been limited to thirty-two days. This time, together with the time consumed already in discussing the bill,

LADIES' HOSPITAL AUXILIARY.

A general meeting of the Ladies' Hospital Auxiliary will be held on Wednesday afternoon at 3:30 in the Catholic Hall. All members are requested to attend. 237

Roche's Big Basement Pool Room is being enlarged and is now one of the most comfortable places in town. Nothing too good for the patrons of 235

IS FINED FOR BRUTAL FIGHT

Colored Man Who Was Arrested on an Assault Charge Liberated on Payment of Fine.

After occupying the time of the court for almost the entire morning, the case of Alex. Austin, charged with assaulting Texas Curtis, which was adjourned from yesterday, was brought to a close, the accused being sentenced to pay a fine of \$15 and costs. The three principals in the case—the woman, the accused and the man Albert Madore, sentenced yesterday afternoon by Magistrate McMullin to six months in New Westminster penitentiary as a vagrant—are all characters that the community could very well dispense with. Stories of the alleged assault of a totally opposite nature were told by the complainant and the accused. Magistrate Carss, taking the view that there was such decidedly conflicting evidence and the characters of the people involved, imposed the comparatively light sentence stated above.

THE WEATHER

The weather report at 5 a. m. this morning read: Barometer, 30.154; maximum temperature, 49; minimum temperature, 45; precipitation, .55 inch.

F. W. DOWLING.

RUMOR OF SALE OF P. & O. TO C. P.

Peninsular & Orient Line Reported Sold to Canadian Pacific for One Hundred Millions.

Montreal, Oct. 8.—The latest rumor concerning the C. P. R. and its plans for the future is given currency in the Financial Times. It says that the railway plans to pay \$100,000,000 for the famous Peninsular & Orient Steamship Company. There are nearly fifty-five fine vessels in the fleet, which maintain services from Southampton to the Orient and Australia via the Suez Canal. The acquisition of this line would give the C. P. R. a service completely around the world. No confirmation of the report can be had at the company's offices here.

'OUR BOYS' WILL BE REPRODUCED

Baptist Brotherhood Will Again Play Farce Comedy Which Won Such Approbation.

On account of the great success of the production last week of the comedy, "Our Boys," by the Baptist Brotherhood at the Westholme Opera House, it has been decided to repeat the performance on Saturday evening next, October 12th. This decision has been arrived at owing to the numerous requests made for the play to be put on again to give an opportunity for those who were unable to attend the first production a chance to see it. Nearly every one who was there last time will be sure to take it in again. Prince Rupertites are always to be depended upon to support anything of merit.

Funeral Tomorrow.

The funeral of Nicita Klimashovich, the young Russian who died in the general hospital, will be held tomorrow afternoon from E. L. Fisher's funeral parlors at 2 o'clock, Captain and Mrs. Tuttle of the Salvation Army conducting the service.

ROYAL PARTY AT KOOTENAY

Governor General and Party Arrive at Landing After Visiting Nelson—Left for East.

(Special to Daily News.) Kootenay Landing, B. C., Oct. 8.—After spending yesterday morning in Nelson, the royal party, including H. R. H. the Duke and Duchess of Connaught and last night, where they boarded the train which is to convey them to the East.

Funeral Tomorrow.

The funeral of Nicita Klimashovich, the young Russian who died in the general hospital, will be held tomorrow afternoon from E. L. Fisher's funeral parlors at 2 o'clock, Captain and Mrs. Tuttle of the Salvation Army conducting the service.

FREIGHT RATES TO PACIFIC COAST SAME AS YEARS AGO

RAILWAY COMMISSION SITTING AT OTTAWA INVESTIGATING WESTERN FREIGHT RATES LEARN THAT C. P. R. HAS NOT REDUCED IN YEARS.

Ottawa, Oct. 8.—An investigation into the western freight rates commenced yesterday before the Railway Board. Officials of the C. P. R. were on the stand all day defending the rates of that company.

Mr. Bosworth, one of those examined, admitted that during twenty years there had never

been a general revision of the traffic schedule to the Pacific Coast on a cheaper basis, but that the rate on only a few commodities had been reduced. His attention was called to the fact that three years ago United States railways had made sweeping reductions in their rates to the coast.

Masonic Grand Ball.

Tsimpsan Lodge will give their second annual ball on Halloween night, October 31st, to their friends and sojourning Master Masons. This event is always looked forward to as one of the leading social affairs of the season, and this year the members of the order hope to make it an especially pleasant social occasion.

Luncheon by the ladies of the Presbyterian Church will be given in McIntyre Hall on Thursday, Oct. 10th, from 12 to 2. 238

MR. MANN SAYS LIKES RUPERT

E. A. Mann, After Tour of South, Expresses Pleasure at Being Back in Rupert Again.

E. A. Mann, a very well known and popular young man, and one of the pioneers of this city, as well as of the Portland Canal mining district, returned to Prince Rupert on the Princess May yesterday afternoon. Mr. Mann, who was for some time on the city hall staff, has been away for several months, having spent a great portion of the time at Nelson on a visit to his brother, who is located in that city.

He spent all of yesterday afternoon shaking hands with his numerous friends, who were all delighted to see him back again in Prince Rupert. Mr. Mann has accepted a position with C. H. Orme, the pioneer druggist, and says that after all his travels there is no place like home, and that means Prince Rupert in future.

OF BENEFIT TO B. C. MINERS

Progressive Programme to Benefit B. C. Mining is Being Planned by Club.

Vancouver, Oct. 7.—The arrival of some samples of ore at the Vancouver Mining Club's quarters in the Progress Club chambers, 437 Hastings street west, attracted considerable attention among the mining fraternity.

Among the many minerals on exhibit are free milling ores from Sheep Creek camp, silver and gold ores from the Lillooet and Princess Royal Islands, copper ore of the coast district and coal from the Groundhog basin. The non-metallic products are in evidence such as limestone, plumbago, gypsum, marble and slate.

The executive of the club is outlining a progressive programme that will be of benefit to the mining industry of this province. Among the objects of the club are the collection and distribution of reliable information concerning mining operations and different camps, ascertaining the nature and character of ores of any of these camps and their prospects for future output and development. It will also obtain information in regard to undeveloped and recently discovered properties of promise.

OYSTER BEDS ARE FOR B. C.

Dominion Government Hands Over Control of Oyster Beds to Provincial Authorities.

(Special to Daily News.) Victoria, Oct. 8.—The Federal government has transferred the jurisdiction over the oyster beds of the British Columbia coast to the Provincial authorities.

MINERS CLAIM THEY ARE ON STRIKE TO ENFORCE SAFETY

VANCOUVER ISLAND COAL MINERS SAY THAT THEY WANT THE COAL ACT ENFORCED—CHARGE LAW IS DEAD LETTER.

Vancouver, Oct. 8.—A message from Ladysmith states that there are about 1,500 miners out, and that they are standing firm in their demands, and enjoying life. "They are entertaining themselves with dances and parties and are not worrying," said a labor leader the other day. Representatives of the union described the trouble as a struggle for the enforcement of the British Columbia mining laws. They say that two representatives of the union complained to the company that there was a dangerous quantity of gas in one of the mines, and that the mining in-

spector appointed by the Victoria government confirmed their report—whereupon these two men were discharged. Further complaint alleges that the reports of the government inspector are ignored by the mining companies, and that the law on the subject is almost a dead letter. The men declare that their lives are endangered, and that the union representing them should have some voice in correcting dangerous underground conditions. At the offices of the big coal dealers the other side of the argument was unobtainable.

Editorial Notes and Clippings

WHAT CANADIAN LOYALTY MEANS.

The Canadian manufacturer at the invitation of the grain growers unveiled himself a few days ago and gave the public his idea of loyalty and patriotism.

If a Western farmer, according to the manufacturer, desires to sell his produce in the most favorable market, that is treason, if that market happens to be the United States. It is rank, fierce, black treason. It is disloyalty to the mother country. These farmer people should be prepared to make some sacrifices to the good old mother country. Oh, those terrible American dollars!

And if we cannot sell our produce at good prices, because of our loyalty to the mother country, what about purchasing goods at the best rate, upon the cheapest market?

Well, that is treason too, if the market happens to be of the foreigner, according to the manufacturer.

But it need not necessarily be from a foreign country, replies the grain grower. The good old mother country charges us no toll when we sell to her. Why not let us remove the duties upon British goods coming into this country?

But that is even worse than the other, replies the manufacturer. That is doubtless the worst treason of all. If these English people want to do business with us, let them desert the English shores and come over and start business here.

Now there is the loyalty cry of the manufacturer used for revenue only.

The patriotism of the Manufacturers' Association stops very suddenly when it reaches the place where the money is kept. The manufacturer is the most enthusiastic and patriotic person when the other person is paying for the patriotism and the manufacturer is doing the collecting. — Calgary Albertan.

PUBLIC DUTIES.

Public duties, like money, evidently cover a multitude of sins in the opinion of the Conservative morning paper, which now claims that the hunting-political picnic of the "mem-

bers of the Prince Rupert Conservative Association," was, to use the Journal's own words in speaking of the Evelyn, "used on a duty that was essentially a public one."

How the picnic, which included the leading lights of the Tory machine, can be misconstrued into a public function is past our comprehension. The Journal bases its claim upon the fact that Clements was making a visit to his constituents to get acquainted, and therefore was entitled to the launch for the trip.

The fact that the gasoline was paid for by the picnickers does not lessen in one degree the fault committed by the member and his friends in using for their own private ends the property of the government, but it only emphasizes the fact that the Evelyn is being placed into competition with the men who are running launches in the passenger trade in this district, and is being operated at a cheaper rate than those men can possibly afford to operate for.

Had this been the first occasion on which the Evelyn had been employed it might have been a different matter, but almost daily throughout the summer months it was employed to the detriment of the launch owners. To such an extent did the Tories make use of the boat that the waterfront men protested, and almost went the distance of sending a "round robin" to Ottawa in connection with it. But perhaps the Journal can tell us that on all these occasions the launch was performing public duties.

WHY MONK WAS GIVEN JUDGESHIP.

Mr. Bourassa in Le Devoir still pins his faith to Mr. Monk. He says that "after having by his speeches, by his votes, by his constant action extending over almost two years, condemned the naval law of the Laurier government and the no less unucky policy of Mr. Bourden, Mr. Monk will not remain twenty-four hours in the ministry, he (Bourassa) is convinced, if the first minister and his colleagues refuse longer to repeal the Laurier Navy Act." Brave words! They will be put to the touch soon.—Toronto Globe.

PANAMA CANAL WILL AID IN THE DEVELOPMENT OF B. C.

DELEGATE TO IMPERIAL TRADES CONGRESS IN LONDON IS ENTHUSIASTIC OVER POSSIBILITIES FOR PROVINCE FOLLOWING OPENING OF THE CANAL.

Vancouver, Oct. 7.—That British Columbia is well thought of and well known, not alone in every part of the British Empire, but also throughout the entire old world, is the opinion expressed by Mr. A. G. McCandless, the former president of the Vancouver Board of Trade, and delegate to the eighth congress of Chambers of Commerce of the British Empire, held at Guildhall, London, during the month of June, who has just returned to the city.

If there is anything that interests Mr. McCandless particularly, it is the commercial and financial outlook of Canada, and especially British Columbia and Vancouver, for whose industrial development he is in no small measure responsible. There is no doubt in the mind of Mr. McCandless that this province, and in fact the entire Northwest, may look to a wonderful industrial development with the opening of the Panama Canal.

"Industries will increase rapidly upon the completion of the canal, and the British manufacturer has his eyes already wide open to the possibilities of our province, whose almost inexhaustible natural resources are no mean incentive to the shrewd investors of the old world," said Mr. McCandless. "But we must not overlook the fact," he con-

MINING NOTES OF THE CANAL

Start Made on Two Thousand Foot Tunnel to Tap Mines—Good Showings in Drifts.

Stewart, Oct. 7.—The start on the 2,000-foot bore to be driven by the Portland Canal Tunnels, Ltd., will be made today with an initial force of from eight to ten men. As the work proceeds this force will be considerably augmented. The site of the tunnel is about half way between the Portland Canal Mining Company's concentrator plant and Glacier Creek, and 150 feet higher than the water flume. Power will be obtained from the compressor plant at the mill. The undertaking is for the purpose of tapping at depth the main fissure zone crossing Glacier Creek, on which are located some of the most important mining groups in that section of the district and the tunnel will be of sufficient size to accommodate all probable future traffic as well as provide drainage, ventilation and the most economical means for future development.

President Charles Bunting of Cascade Falls spent a few days in town this week ordering supplies for the winter. From three to four men will be employed on the property. Meanwhile the force is completing the 300-yard trail from the main government trail to the mine and stacking wood for the winter period.

Manager George A. Clothier of the Indian Mines reports that the face of the 190-foot tunnel has a good showing of galena and work is being continued following the lead. It is altogether probable that the force will be

continued, "that we will have strong competition from the East, for wages are 25 per cent. lower than in British Columbia."

Financial help from the old country will come to Canada beyond a doubt, provided that not too many loans are put before the financiers of Great Britain. Mr. McCandless believes. He stated that the market was a little glutted at the time of his visit to the Empire's capital, but there is little fear for the financial future of British Columbia, as he found more than usual attention paid to the tempting advantages offered by this province and the Canadian North-west in general.

Money, however, will not be obtained as easily as it has in the past, when one takes into consideration the fact that the old world financiers are not alone underwriting enterprises for Canada and the British Empire, but for the entire world. It will not come as a surprise to those in a position to know that if Canada continues to make demands upon the British financiers during the next two years, at the same rate as it has in the past, that the percentage of interest will have to be raised to gain the old world financier's favor.

Launch Alice B., W. J. Thomas, Phone Green 391, Govt. Wharf.

largely increased for the winter with a view to sending out ore shipments.

The development at the Northern Terminus is being confined to extending the main tunnel. It is anticipated that during the winter the mine will send down some high grade silver for shipment to the outside.

For some weeks past development at the International has been in progress on a new copper-gold showing, which was uncovered during the summer and excellent values obtained from the surface.

At the close of the week the crosscut tunnel being driven on the Red Reef property was in a distance of 96 feet. Charles Baker, who is superintending the work for H. E. Newton, the owner, has a force of ten men on the job.

Building permits in Vancouver up to Saturday last, total \$1,400,000. A feature of the September building was the great number of residences. The exhibit hall for the permanent Provincial resources exposition has been opened for the instalment of exhibits. All parts of the province will display resources.

Fort William business men will tour Western Canada in a special train to advertise the city's industrial products. Canadian Pacific freight sheds and steel dock are nearing completion. The sheds and dock are each a thousand feet long.

Calgary bank clearings for September were \$24,100,000. Last September they were \$16,900,000, an increase of 42 per cent. Building permits were \$4,170,000, as against \$903,000, an increase of 360 per cent.

ITEMS OF SPORT

The Chicago National League team withdrew its draft on Russell Blackburne, former short-stop of the Chicago American League Club. President Comiskey, who had second call on the player, also refused to take him, so that Blackburne will stay in Milwaukee.

AUSTRALIANS TO PLAY STAR TEAM

Australian Rugby Players Will Meet Aggregation from B. C. and Two Other Teams.

Vancouver, Oct. 7.—An all-star British Columbia rugby team will be selected to meet the touring Australians in one match when they visit Vancouver in November, while a local team will meet the tourists in another match. Victoria is also anxious to field a team against the Australians, and a match will be arranged, but steps will be taken immediately to organize an all-star team for one match of the series. Three matches will be played in B.C. The Vancouver Rugby Union will probably take the matter up at the next meeting.

Reggie Woodward, the well-known local official, received a letter from Jimmy McMahon, who managed the 1908-9 tour of the Wallabies in the old country and who visited Vancouver with the team. He writes that only five members of the team which played here three years ago were included in this year's team. They are Woods, the half back, and Griffin, Carroll, Prentice and Richards, a quartette of husky forwards. Dr. Otto Bahrsman is in charge of the tour, while W. W. Hill, secretary of the New South Wales Rugby Union, also accompanies the players.

SPORT GOSSIP OF THE EAST

Breezy Items from the Sport Centres of Eastern Canada.

There is some talk of an amalgamation of the Toronto Rugby and Parkdale Canoe clubs in the senior series of the O. R. F. U. Such an amalgamation would result in a very formidable team that would give the Intercollegiate or Interprovincial champions a tough battle. Later advices state, however, that the players on the Parkdale team, almost to a man, are opposed to the union, so it is not likely to materialize.

Billington, the famous kicker of the McGill team, will be home in time to participate in the McGill-Toronto game next Saturday. Should there be any unexpected delay in his arrival, Shaughnessy, the coach, says that they will have to go into the game without a kicker. Jimmy Lane, the captain of McGill thinks that his team will try for the Canadian honors should they be successful in landing the Intercollegiate, despite the contrary opinions of the faculty.

Reports from the East show that there has been a notable lack of interest in the fall meeting of the Ontario Jockey Club. The club officials blame the weather for this, it having been inclement during the major portion of the meet, but some of the sport writers are inclined to think that the almighty dollar is influencing the policy of the Jockey Club more than a desire to encourage the breeding of good horseflesh, and urge in justification of their criticisms the fact that the stables this year have been more famous for the quantity of their horses than for the quality. The attendance at the meet has been remarkably small.

Eddie Durnan's chances of winning the sculling championship of the world from Ernest Barry are stated by English experts to be excellent. They say that Durnan's speed is good, but much will depend upon his staying powers. Durnan has been working out with Lou Sholes, ex-holder of the Diamond Sculls, and has secured the services as trainer of the famous "Bessie" Phelps, who looked after Armit in his races recently. The race will be held on October 14, over the course from Putney to Mortlake.

WATER NOTICE

For a License to Take and Use Water. Notice is hereby given that George E. Beards and William H. Clarke, both of the City of Vancouver, intend to apply for a license to take and use eight cubic feet per second of water out of a certain stream rising in the hills to the south and east of Hegan Point, flowing about north-west by west till the point of compass bears north-west, thence south and west, discharging into the pass one mile south of Hegan Point. The water will be diverted approximately southeast from Hegan Point one and a half miles distant and will be used for industrial purposes on the lands described as Lot 19 and Lot 2737, Range 5, Coast District.

Every Home Has Its Purse

And 99 out of every 100 unprejudiced people will tell you THE DAILY NEWS is the home paper of Prince Rupert.

Advertisers also tell us and will tell you that results obtained from publicity carried in the columns of this paper have exceeded by far those obtained through any other newspaper published in Prince Rupert. The successful business man today is the one who advertises judiciously, who chooses the medium most generally read by citizens of a community; a business man who does not look upon an expenditure for advertising as an expense, but, on the contrary, as an investment. This type of business man you will generally find in the front ranks of his profession, turning his dollars daily and moving his goods rapidly—and all through the liberal use of newspaper publicity. Try advertising as an investment, if only for a short time, and watch your business grow. Let our solicitors call and explain why The News is the best medium through which you should inaugurate your initial campaign.

NEWS NOTES OF THE GREAT WEST

In Lethbridge, W. H. Fairfield, chairman of the jury of awards for the Dry Farming Congress at Lethbridge the week of October 21st, selects W. C. McKillean, superintendent of the Dominion experimental farm, Brandon; Prof. C. I. Lewis, regon Agricultural College, Corvallis, Ore.; F. W. Edmonds, Oklahoma City, as three of the judges at the exposition.

The awards have been announced in the Canadian Pacific alfalfa growing competition in the irrigation block east of Calgary. The prizes aggregate \$750. The winner of the first prize was J. R. Allgood, Gleichen, Alberta. Prof. Fairfield, superintendent of the Dominion experimental farm at Lethbridge, judge of the competition, stated there were some fine stands, and there is no doubt the irrigation block is well adapted for the growth of alfalfa. Irrigation insures a fine crop here. Winners will be brought to Calgary and the prizes presented with fitting ceremonies.

The Lethbridge, Alta., bank clearings for September were \$2,650,000. Last September they were \$2,240,000, an increase of 18 per cent. Building permits were \$264,000, as against \$97,000, an increase of 172 per cent. Customs collections totalled \$50,000, as against \$32,000, an increase of 56 per cent.

In Regina a new moving picture theatre has been announced, to seat 1,000 persons. Regina bank clearings for September were \$9,730,000. Last September they were \$6,160,000, an increase of 47 per cent.

Saskatoon bank clearings for September were \$9,640,000. For last September they were \$5,450,000, an increase of 76 per cent. Building permits were \$364,000, as against \$331,000, an increase of 9 per cent. The customs receipts were \$117,000, as against \$11,000, an increase of 185 per cent.

Building permits for the year in Winnipeg pass the \$18,000,000 mark.

Bank clearings for nine months were over a billion dollars, an increase of 35 per cent over the same period last year.

A new bond house has been opened with a capitalization of \$2,000,000.

Construction has been started on a \$350,000 ice plant.

TWENTY-FIVE FEET OF ORE

Brown & Wood Have Three Big Parallel Veins—Will Be an Immense Producer.

The Morrice River country is receiving a great deal of attention just now as the result of the work being done on the group of claims recently bonded by Frank A. Brown and Lou Wood. A couple of weeks ago Lou came in with some samples that made the property take on an air of something big. On Wednesday Frank Brown came in with some more samples taken from a point ten to fifteen feet deeper. The ore is getting a finer grain and looks much better. Frank states that they have what he believes to be the greatest producer in Northern British Columbia. It is a low grade concentrating proposition, but they have so much ore that it will take many years with a big plant and a big bunch of men to work it out. They have three parallel veins which will give over 25 feet of ore, and Frank states that with a very few thousand dollars he can block out two hundred thousand tons of ore that will average twenty dollars or better. He is very enthusiastic over the property.

The new trail will go up from Houston, a very pretty townsite in Pleasant Valley, and one which has a large farming community tributary to it. The mine will be only about sixteen miles from the railway at that town, and the concentrator, when built, will be at the mine as there is ground and lots of water and fuel.

The ore is copper, lead and zinc, with fair gold values. —Omineca Herald.

Frank Kelly, of the Union Transfer Co., who paid a flying visit to Vancouver last week, has brought back with him a brand new 1913 latest model Tudhope touring car. It is a thing of beauty and a joy to look upon, and will be a great addition to the vehicular traffic of the city.
