AID WANTED FOR PHIL-ANTHROPIC CAUSE.

There is in existence in Prince Rupert an organization known as the Ladies' Hospita. Auxiliary, the principal object of which is to raise funds by various methods in aid of the hospital. The organization has a nominal membership of about twenty, but in reality it is kept alive only through the efforts of less than half a dozen ladies, upon whose shoulders a far too heavy burden is being heaped.

The hospital is a public in- MR. ROGERS IN stitution for the benefit of all classes, regardless of race or religion, and it is one that, to a large extent, has to depend upon the generosity of the public for its financial support. The Ladies' Auxiliary has very commendably undertaken a large financial responsibility in connection with the institution and there is no doubt but that it will carry its plans to a successful issue. It is not right, however, that the work which this will entail should be left for some five or six ladies to perform. There are in Prince Rupert hundreds of ladies who have both the time and the ability to lend a helping hand in a philanthropic work of this kind and who owe it to themselves and to the community to do what they can. Without waiting for a special invitation, it is up to the ladies of Prince Rupert to come to the assistance of those who are at present bearing all the burden and show their willingness to help in such a worthy cause. Remember that the work of the Auxiliary is not for the present only. As

the city grows the needs of

### MACDONALD.

If Hon. Robert Rogers can. not do better on the platform than he is now doing in the constituency of Macdonald, would be advisable for him to leave campaign speaking to others and adhere to what is recognized as his forte as politician—that is, organizing corruptly for the purposes recording votes and purchasing individual electors through agents in whom he can place the necessary degree of confidence. The people of Macdonald may, it is true, decide to send the Conservative can didate to the House of Commons, but they will not do so, we are quite satisfied, on the strength of anything that Mr. Rogers has been telling them If the Conservative nominee is successful, he will have to thank his own reputation, which appears to be good, and his popularity in the constitubehalf of the Minister of the retary having given his sanction. And 99 out of every 100 unprejudiced people will tell you THE DAILY NEWS is the home paper of Prince Rupert. . . . . . . . . .

Advertisers also tell us and will tell you that results obtained from publicity carried in the columns of this paper have exceeded by far those obtained through any other newspaper published in Prince Rupert

The successful business man today is the one who advertises judiciously, who chooses the medium most generally read by citizens of a community; a business man who does not look upon an expenditure for advertising as an expense, but, on the contrary, as an investment. This type of business man you will generally find in the front ranks of his profession, turning his dollars daily and moving his goods rapidly—and all through the

liberal use of newspaper publicity. Try advertising as an investment, if only for a short time, and watch your business grow.

Let our solicitors call and explain why The News is the best medium through which you should inaugurate your initial campaign.
