THE VALUE OF A FALL FAIR.

The proposal to hold a fair in Prince Rupert next fall will meet with the endorsation of every person interested in the development of Northern British Columbia. This portion of the province is richer in the wealth of the forest, the land, the mines and the sea than any other portion of the Dominion of Canada, and in consequence is attracting world-wide attention.

What is needed to bring the ALL DUE TO North into its own is genuine SIR RICHARD investors who are willing to come in and develop the Godgiven natural wealth in the manner in which it should be developed.

The establishment of northern fair at Prince Rupert would furnish an opportunity for the prospective bona fide investor to decide at once as to the locality in which hel wishes to investigate in view of starting an industry or developing a mine. If before him he has the mineral samples from the Hazelton district and the great islands, the agricultural wealth of Fort George and the product of the numerous canneries, he can at a glance get a better idea of the country than he can by many weeks of travelling.

Prince Rupert, as the gate-

way to this great district and the North would vertainly be the place for the exhibition, and if it is to become an accomplished fact no time can be lost in starting actual work.

Alderman Bullock-Webster, displaying a very commendable spirit, has journeyed to Hazelton with the intention of gathering the views of the people there on the subject, and his report will be heard with interest.
