## GREEKS OCCUPY AN IMPORTANT TURKISH ISLAND

TRIAL ORDER OF PICKLED SALMON IS SENT FROM PRINCE RUPERT TO OLD COUNTRY

### GREEKS GAIN IMPORTANT POINT FROM TURKS AND OCCUPY ISLAND

AFTER BLOCKADING PORT AND OPERATING AGAINST TURKS FOR SEVERAL DAYS GREECAN NAVAL FORCE COMPLETELY OCCUPIES ISLAND OF LEMNOS

(Special to Daily News.)  
London, Oct. 23.—The occupation of the Turkish island of Lemnos by the Greeks is complete, according to advices received here by the Greek legation and the press.

This is the first success of the naval detachment of the allied armies of the Balkans, and while the Greek ships cannot be said to have taken an active part in the fight, it was the sailors and soldiers landed from the fleet that occupied the island and forced the Turks to surrender.

Greece has a naval strength of some sixty ships and the first

### VERA CRUZ IS TAKEN EASILY

Gen. Diaz Captured by Federal Forces When City Falls Into Their Hands Yesterday.

(Special to Daily News.)  
Mexico City, Oct. 23.—The capture of Vera Cruz by the Federals has been confirmed by official circles and President Madero has telegraphed all the governors of the states to the effect that the loyal troops have been successful in defeating the rebels and capturing their leader, General Diaz. Word was also sent to the foreign consuls of the success of the Federal forces.

The capture of General Diaz, the nephew of the former dictator, crushes all hope of the old dynasty regaining hold of the government, for the present at least.

The Carpenters' Union held a very successful smoking concert at their own hall on Fraser street last evening. There was a large attendance of members and their friends, and a most enjoyable time was spent.

Another of the popular social evenings will be held at the Catholic Hall tonight, to which all are cordially invited.

Loyal Order of Moose.  
A meeting will be held in the K. of P. Hall on Thursday evening, the 24th inst., at 8 o'clock. Members please attend, as business is of importance. 250-251  
J. D. MEIKLE, Secretary.

Best meal in town at Savoy.

### B. C. FRUIT IS GIVEN HONORS

At the Dry Farming Congress at Lethbridge British Columbia Fruit Wins First Prize.

(Special to Daily News.)  
Lethbridge, Oct. 23.—British Columbia won the first prize for the best display of boxed fruit at the Dry Farming Congress, now in progress at Lethbridge. The trophy is a beautiful silver cup valued at \$400. In competition with the western province's fruit was excellent displays from Ontario and Oregon, as well as other places from across the border and on the Canadian side.

Tom McCloskie, who has been at Granby Bay most of the summer in connection with the building of that company's wharf, of which R. A. McMordie had the contract, returned to the city yesterday on the Chelohsin.

### HAULTAIN TO GET JUDGESHIP

Leader of Saskatchewan Opposition to Be Appointed to Chief Justice of Province.

(Special to Daily News.)  
Ottawa, Oct. 23.—It is rumored here on good authority that F. W. G. Haultain, leader of the opposition in the Saskatchewan Assembly, will be appointed to the position of chief justice of Saskatchewan. Arrangements have been completed for the appointment and all that is necessary is for the order in council sanctioning the appointment. This will be done in the course of a few days. The appointment will necessitate the choosing of a new leader of the Conservative opposition in the Saskatchewan Legislature.

Tom McCloskie, who has been at Granby Bay most of the summer in connection with the building of that company's wharf, of which R. A. McMordie had the contract, returned to the city yesterday on the Chelohsin.

### EXCELLENT COAL ON GRAHAM ISLAND STATES GEOLOGIST

PROMINENT MINING MEN FROM WASHINGTON, D. C. ARE DELIGHTED WITH PROSPECTS OF COAL ON GRAHAM ISLAND — WILL DEVELOP PROPERTIES THERE IN SPRING.

Messrs. M. M. Page, C. P. Page C. P. Mutter and M. R. Marshall arrived in the city yesterday afternoon on the Prince John from the Queen Charlotte Islands, where they have been looking over a big coal proposition in which they are interested. On account of the lateness of the season it was found impossible to make the thorough examination of their extensive holdings that they would have desired. Mr Campbell, who is a geologist of note from Washington, D.C., and a man of long experience, is very well satisfied with all he was able to see upon this short visit, and says that coal of a first class quality and suitable for coking purposes undoubtedly exists in large quantities, but as to the actual extent later examination will have to prove.

The party, which is leaving tomorrow on the Prince George, will go straight through to Washington, and expect to return early next summer to go into the matter of developing their property, which is crown granted, and which they have every intention of going ahead with as a commercial enterprise at the earliest possible opportunity.

### LONDONDERRY MAN SAYS IRISH NEARLY ALL WANT HOME RULE

INTERVIEW GIVEN TO VANCOUVER PAPERS BY LONDONDERRY MAN SAYS THAT EIGHT PER CENT. OF IRISH WANT HOME RULE BILL PASSED.

Vancouver, Oct. 23.—That the passing of a measure giving Ireland home rule will mark an epoch of progress for that island, unprecedented in history, and that under the influence of such legislation Irish people will be enabled to develop dormant industries and stimulate stagnant commercial relations with other parts of Great Britain in place of the speculative exploitations of English landlords which have proved of such serious detriment to Ireland of recent years, is the assertion of Mr. W. F. Patterson of Londonderry, Ireland, who was among the arrivals at the Hotel Vancouver.

Mr. Patterson is a graduate of Dublin University and during the past few years he has made a comprehensive study of condi-

### PICKLED SALMON WILL BE SHIPPED FROM ENGLAND TO PRINCE RUPERT

First Shipment of Pickled Salmon From British Columbia to England is Being Made by B. C. Fisheries---Great Trade May Develop in This Line

The Prince John, which arrived in port yesterday afternoon from the islands, besides her large passenger list carried a considerable amount of freight. Amongst the latter was a trial shipment of 220 barrels of pickled salmon, which are being shipped direct to London, England, by the shortest route, as the fish have to go through a process of repickling in a month's time. This is the initial step in what may prove another branch of the profitable fishing industry of this northern coast. The shipment is being

made by the B. C. Fisheries Co. from one of their canneries near Skidegate.

The barrels that are being sent for this experimental consignment, when filled, weigh about 170 pounds and contain on an average 70 fish of the humpback variety.

It will be of interest to watch for the returns and the sale found for B. C. salmon put up in this manner in the world's biggest market.

In addition to this shipment, the Prince John brought over from the islands about 20 tons of fertilizer made out of fish

refuse by the modern methods now in use that allows of absolutely no waste whatsoever in the handling of the fishing industry.

It is expected that the unloading of the water pipes from the Crown of Galaeia will be completed this evening if the weather keeps fair, the work of loading the five thousand cases of salmon that are being shipped to the Old Country, the first shipment ever so far sent direct from Prince Rupert, is proceeding apace.

Warm, clean rooms at Savoy.

### SATISFIED WITH SHOWING

### SMALL KIDDIES FOR CANADIANS

J. Beaudette is Well Satisfied With Coal Showings on Graham Island

Mr. A. J. Beaudette, mining engineer with the G. T. P. Railways Co., returned yesterday on the Prince John from a week's visit to the Queen Charlotte Islands. Mr. Beaudette, who is very well known in his profession all over the Dominion, having for a number of years represented the Dominion government in the Yukon, spent a considerable portion of the summer making an examination of the groundhog coal mining district. He returned a few weeks ago, proceeding to Winnipeg in order to accompany Mr. B. B. Kelliher, head engineer for the G. T. P., on his trip along the line of the new railroad from Winnipeg to Prince Rupert.

The light in which some people regard Canada as an emigration field is shown by an incident at the petty sessions at Wakefield, Yorkshire. Two brothers charged with fraud were bound over on the understanding that their uncle would send them out to Canada.

The High Cost of Living. Pentiction, Oct. 23.—A rancher near Pentiction planted five acres in cucumbers this season. Every acre produced upward of 12,000 cucumbers of market size. At 2 cents each the grower would have received \$250 an acre, or \$1,000 for the crop. He shipped two or three trial lots to Vancouver. The cucumbers sold at 25 cents apiece on the market in Vancouver. The wholesaler didn't return the grower enough to pay expenses of shipping.

Pantorum Pioneer Cleaners.

Wm. Baker Recommends Sending Out Little Tots Who Will Become Canadianized.

London, Oct. 23.—William Baker, director of Barnardo's homes, told the Imperial Trade Commission that he strongly favored emigration of children about 7 years of age so that they might grow up Canadians from childhood. Canada offered children better conditions than South Africa or Australia, he said, and could absorb all they could send.

The light in which some people regard Canada as an emigration field is shown by an incident at the petty sessions at Wakefield, Yorkshire. Two brothers charged with fraud were bound over on the understanding that their uncle would send them out to Canada.

Miners Resume Work.

Cumberland, Oct. 22.—Nearly 200 men, mostly Orientals, started to work Tuesday morning in No. 4 mine, and fifty additional men went to work in No. 7. It is stated 500 men have signed an agreement for two years and the engineers and firemen have expressed their willingness to return to work. It is generally believed all the mines will be working full capacity within a week.

J. H. Young, principal of the Indian school at Port Simpson, was in the city yesterday, en route south on a short business trip.

### MAJESTIC HAS GOOD PROGRAM

Arrangements have been made at the Majestic Theatre to offer every Thursday a gold prize for children. The affair will be conducted by the boys and girls themselves and will be in the form of a drawing. Every ticket purchased will bear a coupon which the purchaser will hold until Thursday night at 9 o'clock when the drawing will take place.

If the holder of the first coupon drawn is not in the house another will be drawn and so on until one with a corresponding number in the theatre will have been drawn. Tonight a splendid programme has been arranged for and several excellent comics will be shown.

The Prince George left this morning for Stewart on her last run to that place this winter. The future service will be by the Prince John, weekly. There was only a small passenger list, including Mr. A. Erskine Smith, the president of the Red Cliff Mining Co., which is located about fourteen miles from Stewart, and Mr. M. R. Jamieson, the proprietor of the Northern Hotel at that place, who has been a patient in the hospital here for the last ten days.

## Editorial Notes and Clippings

PREPARE TO EXERCISE  
YOUR FRANCHISE.

The franchise is one of the dearest privileges that man can hold and it is the sacred obligation of every person entitled to hold the franchise to exercise it to the best interests of himself and his fellowman.

An election will be held for the selection of mayor and councilmen of this city in January next, but although it is several months before the ballot will be taken, it is necessary for those who value their franchise and wish to have a voice in the selection of the public office holders to see to it that their names are properly placed on the voters' list. Registered owners of property will be eligible without further trouble, but holders of licenses,

road tax payers and householders must register their vote this month at the city hall.

The choice of a competent council to represent the citizens is even more important now than when the city is older, for it is in the initial stages that the foundation for the great city of the future must be laid, and the mistakes of today will be difficult to remedy in the years to come. It will be necessary for the voters to carefully consider their choice of mayor and council for the ensuing year with a view to the future of the city as well as to the present, and the man eligible to vote who does not do so should not complain no matter what the result of the council's actions are.

DR. VROOMAN TELLS OF THE  
NECESSITY FOR PROTECTION

NOTED LECTURER AND EDITOR TELLS OF THE DANGER OF  
BRITISH COLUMBIA AND ADVOCATES A NAVAL UNIT  
AND ARMS FACTORY ON COAST

Victoria, Oct. 23—Dr. F. B. Vrooman, B. Sc. (Oxon), Ph. D., editor of the British Columbia Magazine, said in an interview here, in speaking of the "Yellow Peril," and the defence of Canada's western coast:

"The problem of the new Pacific outlook is race and commercial conflict. Disguise it as we may, conceal the fateful issues if we will, juggle with ugly facts and stifle friendly warnings, the persistent fact protrudes through all our shams; the problem of the new era of the new Pacific and of new Asia, is the struggle of the white and yellow peoples for world supremacy."

Dr Vrooman pointed to China's new industrial awakening, in which that country, with its myriads of peoples, is adopting modern machinery and methods in its industrial and economic activities. This, he contends, can only have one meaning, and that is that at some future date more or less removed, these Celestials will have to be reckoned with commercially, and more than any other places by Western Canada and Australia. "Then the important need at once becomes apparent for a fleet on the Pacific coast," Dr. Vrooman said.

"Operating jointly with the Australian fleet, this part of the world will then be a little better prepared than it is now for what ever emergency the future may

bring with it. Moreover, I believe that not only should the fleet be stationed here, but that the ships should be built here, and that the Pacific coast, somewhere in this vicinity, should manufacture its own guns and shells."

Dr. Vrooman dwelt upon the tremendous possibilities for British Columbia which will follow the opening of the Panama Canal, but he laid equal emphasis upon the activity of the Japanese and Chinese, who are reaching out vigorously in every possible direction. Under present conditions, he declared, Japan, as the ally of Great Britain, is the only nation which is really in a position to offer protection to Western Canada, and this very fact carried a very great danger with it.

"All of us sympathize heartily with the race ambitions of any great people," he said. "And there is no disputing the fact that China, which has just become a republic, and is awakening to a realization of its vast resources, and Japan, which long ago proved her right to be called progressive, are great nations.

"But it is because they are great nations that we must no longer consider them negligible. Their splendid qualities make them formidable opponents in peace or war, and their very efficiency is a menace which Canada must provide itself against.

BRUSH WON'T PAY  
New York Owner Refuses to Pay  
Percentage to League

New York, Oct. 23.—A red hot fight to prevent giving up one-fourth of his receipts in the world's baseball championship series to the coffers of the National League is promised here by John T. Brush, president and owner of the New York club.

Last winter, Barney Dreyfus, president of the Pittsburgh club, caused the adoption of a rule providing that the pennant winning club transfer 25 per cent. of its

receipts from the world's series games to the National League. Brush contends this rule was illegally adopted, and has forced the appointment of an arbitration committee to consider the case.

Are you going to make that promised trip east or to the Old Country this fall? The Great Northern Ry. will book you through all Atlantic Ocean lines represented.

## GRAHAM NEWS OF INTEREST

Four Scotch families are expected to arrive at Skidegate on the next boat. They will be employed by the B. C. Fisheries, and several cottages are being erected for them by the company.

The neighboring mountains received their first coating of snow for the season during the past week, and the sharp touch in the atmosphere in the mornings marks the approach of winter.

A concert and dance was held at Skidegate Indian village on Friday night. A large crowd attended and the selections played by the band were well rendered and highly appreciated.

The steamer British Empire arrived Saturday morning with a consignment of gasoline for the mill company and D. Cochrane. The captain reported that the Vadsos went on the rocks at Union Bay during a heavy fog. She had on board freight for the Premier Hotel and the B. C. Fisheries.

Charles M. Pomeroy, manager for the Queen Charlotte Mining Company at Cumshewa, was in town over Friday night on business. Mr. Pomeroy reports that development work at the mine is progressing satisfactorily and that several tons of ore are ready for shipment to the smelter.

Mrs. A. J. Gordon, of Skidegate, returned home last Monday from an extended holiday in Vancouver and other cities.

Mr. J. Walsh of Tl-El River went south last Monday. He will visit Seattle and other coast cities before returning.

Max Ruff, Andy Christiansen and Charlie Heartie left on Thursday on a trapping expedition between Yakoun Lake and the west coast.

Mr. W. J. Sutton, for years geologist for the Dunsmuir companies, and now with the successors, the Canadian Collieries (Dunsmuir), Limited, recently gave an address in Victoria on Graham Island.

Samson Young, of Skidegate, has bought a new boat. It is 38 feet long and has an 18 horse power Fairbanks engine. It arrived on Wednesday afternoon from Jedway.

On one occasion (Eleanor A. Towle tells this story in "A Poet's Children"), being asked to meet an Irish enthusiast who spent about the country enlightening people's minds on the subject of Popish errors, Hartley Coleridge after dinner asked to be presented to the lecturer; and, taking his arm while the guests were gathered around, he addressed him with solemnity: "Sir, there are two great evils in Ireland." "There are indeed," replied the Irish guest, "but please to name them." "The first," Hartley resumed, "is Popery." "It is," cried the other, in emphatic acquiescence; "how wonderful you should have discovered it! Now, what is the second great evil?" "Protestantism," was Hartley's reply in a voice of thunder, as he ran away screaming with laughter.

"How's the chorus getting along?"

"Oh, it's a howling success." "And the orchestra?" "All played out."

"Do you think he loves that girl?"

"I couldn't tell you. You see, I have never gone to the same picnic with them."
