BULGARIANS CAPTURE LULUBURGES AFTER TERRIBLE TWO-DAY FIGHT

Bulgarians Force Turks to Evacuate Important Position and Retreat---Many Killed and Wounded in Desperate Charges

(Special to Daily News.)
Sofia, Oct. 31.—After two days' desperate fighting the Bulgarian army gained a complete victory over the principal Turkish forces under the command of Nazim Pasha, the minister of war. The Turks retreated in great disorder and the town of Luleburgas fell into the hands of the victorious invaders.

Great interest and the attention of the diplomatic and military circles has been centred on the operations of the Bulgarian army around Adrianople, especially against the town of Luleburgas. This town is an important point in the Turkish second line of defense and the fall of the city would indicate that the second line has been broken.

The Turks will probably fall back on Tcherlu, where they will no doubt make another desperate stand.

London, Oct. 31.—The silence in military circles in Sofia re-

garding the battle in Thrace has at last been broken and the announcement made that the town of Luleburgas has fallen into the hands of the Bulgarians.

Sofia, Oct. 31.—The returns of the dead and wounded are not yet from the Bulgarian army in the operations against the town of Luleburgas, but it is understood that they must have been enormous. Although the Turks fought desperately, they were unable to withstand the awful fire of the Bulgarian army and the desperate charges of the invading soldiers. Sullenly the Turks prepared to withdraw, but the Bulgarians charged and recharged their lines until all was in confusion.

KING WILL EXAMINE SCROLL OF WELCOME GIVEN TO DUKE

H. R. H. DUKE OF CONNAUGHT SENT PRINCE RUPERT'S SCROLL OF WELCOME TO HIS MAJESTY FOR EXAMINATION—MOST ARTISTIC PRESENTATION.

Mr. Morte Craig, the well-known artist, poet and Indian collector, is feeling naturally somewhat elated these days. He has received word from Victoria, that the truly remarkable and artistic scroll of welcome that he produced with such infinite skill and patience to be presented to H. R. H. the Duke of Connaught, the Governor General, upon his recent visit to Prince Rupert, has been forwarded by His Royal Highness to England and to the court of King George for the King's personal inspection, as being one of the most beautiful and artistic offerings of this character ever received by the Duke from an official body, during the long term of his public career.

It goes without saying that when the term of office of the present Governor General comes to a close, and the Royal party return to their ancestral home in the mother land, this unique work of art will occupy a place of honor amongst the host of art treasures possessed by the Royal family. Thus will Prince Rupert, the last great city in the making on the Pacific, be pictured and perpetuated for all time.

Mr. Morte Craig has good reason to be proud of his work and the just recognition it has so worthily and gracefully received.

"BULL MOOSE" CHEERED LONG

Crowd at New York Cheered Forty Minutes When Roosevelt Appeared.

(Special to Daily News.)

New York, Oct. 31.—Madison Square Garden was crammed to overflowing with a crowd anxious to hear Roosevelt upon the occasion of his first speech after his narrow escape from death at Milwaukee. His appearance was heralded with a burst of cheering which continued for forty minutes. He spoke for an hour and twenty minutes and was apparently unaffected by his wound.

THIRTY SETTLERS ARRIVE EN ROUTE TO MASSET WHERE THEY WILL BUILD

Sewell City, on Masset Inlet, Will be Settled by Experienced Eastern Farmers---Thirty Men and Women Arrive ---Land is Very Fertile

Still on board the Prince George, upon which boat they arrived yesterday from the South, and anxiously await the delayed arrival of the Prince John to take them over to Masset, are thirty bona fide, well-to-do new settlers, who are enroute to Sewell City on Graham Island, where they have purchased land and intend to start in right away and prepare homes for themselves and

piles and effects upon the ground with little or no difficulty.

This will be practically the first contingent of agricultural settlers that has arrived upon the islands with a fixed purpose in view and with the means and experience to carry the undertaking successfully through. Altogether the prospect is most rosy for the future of the Queen Charlotte Islands, and the district around Masset on Graham Island particularly. They have a bright and live little newspaper, the Masset Leader, a stipendary magistrate, good hotel and stores, schools, etc. Next spring there is every prospect of things humbling in that part of the province and an influx of settlers from the East and Middle West may be expected to start pouring in to take advantage of the opportunities to build up homes, make money and enjoy generally the manifold blessings that fall to the lot of the favored residents of this rich and prosperous portion of the Dominion.

There are twenty-five men and five women, who have been previously engaged in farming in Manitoba and the Northern Middle States.

The land is plotted into forty acre tracts, making them an eighth of a section each in area, so that a family can locate on one or more as their means allow. There is a saw mill in operation upon the ground and this year the government have been engaged upon road building that has been of a most beneficial and satisfactory nature, enabling the prospective settlers to get their supplies and effects upon the ground with little or no difficulty.

SIR WILFRID LAURIER AND GRIT LEADERS HOLD A CONFERENCE

(Special to Daily News.)
Ottawa, Oct. 30.—A gigantic conference of the Liberal leaders in the House of Commons was held here today. The conference was headed by Sir Wilfrid Laurier and was for the purpose of discussing the naval policy of the two parties.

After several hours the Liberals, it is rumored, decided to accept the advice of the chief and await developments in the Tory camp.

It was decided to contest the return of Louis Codere in Hoch-

elaga, who has been appointed to the cabinet in the shuffle following Monk's resignation. With this end in view it is asserted that the Liberals and Nationalists are making advances toward one another.

It is announced that the point on which Mr. Monk resigned had to do with the question of a referendum on the navy and the question of an existence of an emergency. From the foregoing it will be observed that the cleavage possibly lies deeper and that an open break sooner or later was quite inevitable.

It is also recalled that Mr. Monk, previous to the formation of the Borden cabinet, had some sharp passages with prominent members of the Conservative party which probably left a scar which is not entirely healed yet. On one occasion Mr. Monk was accused of a near intrigue against Mr. Borden as leader of the opposition, to which Mr. Monk replied that the newspaper making the accusation was a fanatical organ and that he was told the editor of it was an adept in betrayals and calumnies.

STILL NO CLUE OF CITY'S ZOO

In Spite of Efforts of the Police No Trace of Missing Zoo Is to Be Found.

In spite of the fact that the police are working night and day on the mystery surrounding the disappearance of every animal from the Acropolis zoological garden no trace of the marauders can be found. Numerous theories have been advanced as to the probable fate of the zoo.

The theory is that under the fattening process, so ably explained by the father of the "boy," Ald. Bullock-Webster, at the last meeting of the council the buck looked so tempting that some epicure envied its plump sides to the extent that like the wild Highlanders of long ago, he swooped down on the preserves and carried the game off. Then it has been suggested that in the spirit of benevolence and thanks giving prevailing on Monday some person, or persons, unknown, pitied the young buck, having seen its poor condition before Ald. Bullock-Webster had ordered that change from hay to bran mash and oil cake, and in the darkness of the stormy night crawled up to the bleak heights and opened the gate, "shooing" the pet of the council to the forest.

What ever has become of the deer there is no doubt that the perpetrator of the crime will be severely dealt with if he is apprehended, and some ancient law may be invoked to justify the penalty inflicted upon the border raider's death. On the range across the line a cattle rustler is often lynched for a crime not half so hideous as freeing a whole zoo.

SENATOR BELL OF N. S. DEAD

Aged Senator from Nova Scotia Died Last Night at Montreal—Had Been in Poor Health.

(Special to Daily News.)

Montreal, Oct. 31.—Hon. Adam C. Bell, senator from Nova Scotia, died here last night. For some time he had been in poor health and lately underwent an operation, from which he never fully recovered.

The deceased senator was born at Pictou, Nova Scotia, November 11th, 1847. He sat in the Nova Scotia Legislature for nine years, resigning at the end of that time to contest the constituency for the Dominion House. This was unsuccessful. He was called to the Senate last year.

R. W. Payne, manager of the New England Fish Co. at Vancouver, is visitor to the city, a guest at the G. T. P. Inn.

"BE PREARED" SAYS WINSTON

First Lord of Admiralty Tells Nation to Be Ready for Emergencies—Did Not Mention Canada.

(Special to Daily News.)

London, Oct. 31.—Contrary to expectations, Winston Churchill did not make any announcement at the Sheffield Cutlers' feast last night in regard to the Canadian naval policy and the negotiations between the Mother Country and Canada in that regard. He devoted his speech to the Balkan situation and said that from that Britain could draw a good lesson.

War could not always be stemmed off by the diplomats and the nation should be prepared to battle at any moment.

Hallowe'en Celebrations.

Tonight, All Hallowe'en, will see many festive events take place. Amongst these will be the grand annual Masonic ball at the McIntyre Hall, given by Tsimpsean Lodge of this city, which is sure to be a most gala and enjoyable affair, and a big social at the Knights of Pythias Hall, given under the auspices of St. Andrew's Society. The latter is bound to be a most popular and largely attended event, as all previous efforts of this well known society have always been crowned with success. Then there will be numerous private little parties and joyful gatherings, to say nothing of the pranks and escapades of small boys and others in celebration of the time honored custom of years gone by.

George Rudge, a well known old timer of Northern B. C., located at Port Simpson, and who owns extensive farm lands in the Kitsumkalum Valley, is paying a visit to the city and is a guest at the G. T. P. Inn.

Magistrate McMullin presided at the police court this morning in the absence of Magistrate Cars, who has gone on a short visit to the lower coast cities.

J. W. McLean, who was before the court a few days ago on a charge of being drunk and let out to be given a chance of earning enough money to pay his fine of \$10 had not made good, but had rather aggravated matters by becoming in the same condition again. He was ordered by the magistrate to serve the ten days.

A. E. McKenzie appeared to answer a charge of attempted theft from the person of William S. Williamson upon the premises of the Empress Hotel Cafe shortly before midnight last evening. From the evidence it appeared that the accused, who is a stranger in the city, having been around the hotel in question on and off for the last week, was noticed last evening about 11:30 by the porter of the hotel standing over Williamson, who was lying in a drunken stupor on a bench in the adjoining pool room, making a systematic and thorough search of the latter's pockets, presumably with the object of robbing him of any money or valuables in his possession. The porter drew the attention of Mr. J. G. Crombie, an accountant in the city, who happened in just at that moment to partake of a late supper at the cafe, and who immediately telephoned the police. Constable Cargill arrived on the scene in a few minutes and took the accused in charge.

Editorial Notes and Clippings**PREPARE FOR
THE FUTURE**

The future of any city depends a great deal upon the foresight and business acumen of the pioneer business men. Even as an injury to a tree will be shown in the growth of the trunk and will bear evidence of the wound after years, so will a city always bear witness to the follies or wisdom of its pioneers, and the mistakes of today will be the wounds of tomorrow.

When David Oppenheimer wanted the citizens of Vancouver to secure the street ends along the waterfront, they laughed at him and said he was trying to waste money. When he recommended the corner of Pender and Granville streets for the site for the post office he was accused of bartering away the rights of the citizens and compelling them to submit to an inconvenience because he was deriving personal benefit from the sale of

the lot. But now that he is dead and twenty-five years have passed, a monument is erected to his memory and the site of the postoffice proved to be the best corner in the city.

Vancouver had good hard-headed business men in control of the destinies of the city in the early days, and, although they made grave mistakes in many instances, on the whole they laid the foundation for the most remarkable city in Canada today. The early councils and boards of trade worked together and continually for the advancement of the city.

Prince Rupert has the right kind of men, business men who foresee the future in store for the city and who appreciate the requirements of the present, and it behoves these men to get together, compare ideas and formulate schemes for the solid foundation of the city which must inevitably grow out of the Prince Rupert of the present.

M'BRIDE CONDEMNED BY UNION MEN OF NEW WESTMINSTER, B. C.

ROYAL CITY WORKERS CONDEMN M'BRIDE AND GOVERNMENT FOR THEIR ACTIONS IN REGARD TO STRIKING MINERS AT LADYSMITH—UNION BEHIND THEM.

Vancouver, Oct. 30.—Locked-out coal miners at Cumberland and Ladysmith will receive the financial backing of the United Mine Workers of America. This, in effect, is the statement of George Pettigrew, member of the executive board, who passed through this city on Wednesday, en route to Nanaimo from Indianapolis. The company is endeavoring to secure non-union miners and engineers. The men realize that this will be a turning point in the history of the union on Vancouver Island; for better or for worse and so are determined to leave no stone unturned to win their fight.

About 140 Chinese and Japs have gone back to work, but are unable to accomplish anything like the work done under normal conditions. The locked-out miners are firm.

The New Westminster Trades and Labor Council, at its last meeting, October 23rd, unanimously passed the following resolution:

"Whereas, The Mines Regulation Act provides that the miners have the right to appoint a committee to examine the mines in regard to the safety of the workings; and

"Whereas, In exercising that privilege the committee appointed by the miners on Vancouver Island discovered the presence of gas in the workings, the government inspector of mines also reported finding the same conditions; and

"Whereas, Members of that committee were discriminated against by the mine owners; and

"Whereas, The Miners' Union appealed to the Premier of the

province asking that he hold an investigation into all the circumstances, which request he refused; and

"Whereas, It is one of the fundamental principles of organized labor that an injury to one is the concern of all; therefore, be it

"Resolved by the New Westminster Trades and Labor Council, That we, the central body of organized labor in this city, enter a most emphatic protest against the government in allowing such discrimination to continue, and urge upon them the necessity of making a strict investigation into all the facts, and that a copy of this resolution be sent to Sir Richard McBride, premier of British Columbia, and to Thomas Gifford, M. P. P., member of this constituency.

GEORGE TITE'S DARK PAST

The following clipping was reprinted in the Victoria Times of October 28th from the issue of that date 25 years ago, and will prove interesting in that it has reference to one of Prince Rupert's leading citizens;

"In the police court today George Tite was charged with using a catapult on Sunday morning. He admitted using it, but did not know he broke windows.

His Honor read a bylaw showing that it was unlawful to throw snowballs or other things. As it was the first case he was discharged. The superintendent said catapults are for sale in the stores, and many complaints are received of broken windows and the use of catapults by small boys."

TRAWLERS LEAVE GRIMSBY FOR BIG RUPERT FISHING CONCERN

GEO. E. FOSTER AND ANDREW KELLY START ON THEIR LONG VOYAGE TO PRINCE RUPERT FROM ENGLAND. WILL ARRIVE HERE NEXT JANUARY.

Two more steam trawlers are now on their way from Grimsby, England, to Victoria via the Straits of Magellan, according to advices which were received by the Times yesterday. On October 8 the sister trawlers G. E. Foster, named after the minister of trade and commerce, and the Andrew Kelly, which takes its name from the well-known merchant in Winnipeg, started from Grimsby on their 15,000 mile voyage.

The two trawlers resemble somewhat the Celestial Empire, at Vancouver. They are heading from Grimsby to St. Vincent, and will then cross the Atlantic to Montevideo. They will stop at Punta Arenas for supplies, and then steam to Coronel for more coal. Whether the trawlers will be able to make the long run up the coast from Coronel to Victoria is not known. It is possible that they will have to drop into Acapulco or San Diego for coal as their bunker capacity is not large.

Expected in January.

It is not expected that the Foster and Kelly will be here before the middle of next January as the

IMMENSE BODY OF IRON ORE

Bella Coola Resident Discovers Rich Body of Hematite Ore Near That Place.

What promises to be the largest deposit of hematite iron ore that has yet been discovered, and possibly one of the largest in North America, has been located by Messrs. William McNair and Peter Kenyon, of Vancouver and Bella Coola, respectively. According to their calculations, there are at least 20,000,000 tons of hematite ore in sight.

This vast deposit occupies a most favorable position and can be transported to tidewater at Bella Coola over very easy and favorable grades.—Bella Coola Courier.

Empress House League.

The second game of the league was bowled last night between the Hawks and the Pelicans and ended in an easy victory for the Hawks. A. Ackerberg, of the Hawks, had high score, 196, and also high average, 178. Tonight's game will be between the Doves and the Ravens. Last night's scores were:

Mr. Ernest Love, the late manager of the civic telephone system, has secured a like position with the B. C. Telephone Co., and is now manager of the big Nanaimo system.

The Foster and Kelly will form the nucleus of a big fleet of trawlers, which will come to this coast to operate in conjunction with the big cold storage plant. The British Columbia water will soon rival the celebrated Grimsby fishing grounds as with the B. C. Fisheries and Canadian companies operating large fleets of trawlers and other companies in the course of formation, the fishing industry of this province is bound to assume amazing proportions.—Victoria Times.

H. E. Newton, of Victoria was in arrival yesterday on the Prince George, en route to Stewart, Portland Canal. Mr. Newton, who is an old-time resident of British Columbia, having resided in Victoria for over 20 years, besides being a well-known business man of that city, is heavily interested in mining in different parts of the province.

At the present time he is on the way to Stewart, where he is developing a very likely looking prospect, a group of claims known as the "Red Reef". This property is located right on the water at the head of the canal, within half a mile of the Stewart townsite.

A considerable amount of work has been done. At the present time thirteen men are engaged upon three separate tunnels. One was found last August running about five dollars per ton and from present indications there is every reason to believe there is an extensive body of gold.

The location of the property being such, that the ore can be sent straight down to the water's edge from the mine, is of the first importance, all that is now required is to ascertain the extent of the body of paying mineral. The values are gold and copper.

Mr. Newton, who is one of the most enterprising and debonair mining men who has ever gone into the Portland Canal District, is at the present time the biggest operator up there. He is going to decide upon this trip whether it will be possible to keep working all the winter, the heavy snow fall being a deterrent to the development of the mine at the early stages. It is understood that several big capitalistic concerns are ready to take hold of the property at an early date if the present owner wishes to sell.

Our prices are as low as any. Call on us before ordering.
