PRICE FIVE CENTS

RANCHER IS KILLED BY A DYNAMITE EXPLOSION

ALD. MONTGOMERY PREACHED AGAINST PREACHERS: "DEMOCRATICUS" GIVES ADVICE

SEWER BYLAW DEFEATED BY A BIG MAJORITY ON SATURDAY

SCHEME TO BORROW \$1,400,000 DEFEATED BY 135 MAJORITY—WAS INCOMPLETE IN DETAILS OF FINANCING AND DID NOT PROVIDE FOR ALL OF CITY

By a majority of 135 votes the bylaw to borrow \$1,400,000 to construct a sewer system in several sections of the city was defeated on Saturday by the ratepayers of Prince Rupert. The vote was counted as follows: For 117, against 282.

While the citizens appreciate the necessity for sewers, they did not feel in a position to borrow that large amount of money on the methods adopted by the present council in laying the bylaw before them for their consideration. The details of the financing of the loan were altogether lacking. No provision was made for the securing of proper outlets, and while the scheme technically might be perfect the ratepayers had no assurance of that fact owing to the refusal of the mayor and council to call in an expert to examine the scheme before the day of polling.

The fact that the proposed scheme made no provision at this time for the construction of sewers in the outlying sections was also a factor in causing the defeat of the bylaw, as was the apparent impossibility of financing such an undertaking, and which might impair the borrowing power of the city considerably.

With a progressive council next year no doubt a sewerage system will be evolved which will meet the immediate requirements of the different sections and be more satisfactory to the city under the existing conditions.

The voting was particularly heavy and especially in the morning the ballots cast were surprisingly large. This indicated clearly the fact that the ratepayers were determined to express their feelings on the bylaw, which they did in a very adverse and unmistakable manner.

ON A HUNTING TRIP.

Mr. and Mrs. Knox Browne, of Haysport, left on a fortnight's hunting expedition last Thursday on the Standard Fishing Company's boat Haysport, for some islands about a hundred miles down the coast. Mr. Knox Browne, who is manager of the Haysport Cold Storage and Fish Packing Co., is an experienced big game hunter but in this form of sport is equalled if not excelled by his wife, who is a splendid shot, both with a rifle and shot gun. Going as they are to a district that has been practically never hunted over, they are assured of getting excellent sport.

"SLAVES OF RUSSIA" AT THEATRE TONIGHT

Griffith Stock Company Put On Great Comedy Drama Tonight.

This evening the Griffith Stock Company will produce the great comedy drama in four acts, "The Slaves of Russia," at the Westholme opera house. Special scenery has been prepared for this production and it promises to be the greatest spectacular and thrilling melodrama ever put on in this city.

The advance booking is exceptionally heavy, and it looks as if the third week of the engagement at this popular company would eclipse even their previous success.

Best meal in town at Savoy.

ELECTION OF OFFICERS

Odd Fellows Elect Officers For the Ensuing Year.

At the annual election of officers of the I. O. O. F. Prince Rupert Lodge, held on November 26, the following were elected as office holders for the ensuing year: N. G. H. Daggett, V. G., J. Kellier; R. S., W. G. Barrie; F. S., W. R. Phillips; treasurer, C. J. Thorne. An open meeting will be held tomorrow evening, Tuesday, Dec. 3rd, to members and their friends at their hall in the Helgeson Block.

E. M. Sandilands, government agent for the Queen Charlotte Islands, will visit Masset before returning to his headquarters at Queen Charlotte City.

MONTGOMERY ATTACKS CLERGY FOR STAND ON SUNDAY POOL

AT MEETING LAST NIGHT CLAIMS INTELLIGENT VOTE DEFEATED THE SEWER BYLAW—MAYORALTY NEED NOT WORRY WORKERS OF PRINCE RUPERT

Ald. Montgomery strongly condemned the attitude that had been taken recently by these two reverend gentlemen, in regard to the opening of the pool rooms. He said they were ranging themselves on the side with those who were doing their best to deter rather than advance the condition of the working man.

In referring to the vote on the sewerage bylaw, he pronounced it the most intelligent ballot ever taken in the city, the cool and unbiased judgment of the ablest of the community. It was not voted down he said, out of spite, or through any idea of opposing the present council.

As to the coming election in January they need not concern themselves much as to who was elected mayor, so long as they had strong representation on the aldermanic board. It behooved them to get together and perfect their organization.

Other speakers were Messrs. Shaw, Denning, Morris and LeBlanc.

As to the coming election in January they need not concern themselves much as to who was elected mayor, so long as they had strong representation on the aldermanic board. It behooved them to get together and perfect their organization.

MAN KILLED HIMSELF WITH DYNAMITE BOMB

Man Found Dead Near Queen Charlotte City Believed to Have Killed Himself.

Lying dead in the woods a few miles from Queen Charlotte City a man by the name of James Bell was discovered by a party of searchers on Saturday last, having met his end apparently through being blown up by some sticks of dynamite. Such is the meagre information to be gathered through a telegram just received by the government agent of that district, E. M. Sandilands, who is at present in this city.

The deceased was a rancher but was going to work for the winter at the Falls Coal mine. He was believed to have gone over to the mine after a visit to Queen Charlotte City, and not turning up there a search was instituted with the result as stated above. Upon going to his cabin a note was discovered announcing the intention of committing suicide. It is believed the man had been dead a week when discovered. Government Agent Sandilands will have charge of the case.

BANK OF ENGLAND LOST HUGE SUM IN TRANSIT

\$50,000 Lost From Cases in Which Specie Was Being Shipped.

London, Nov. 29.—A remarkable theft of fifty thousand dollars in gold coin from a consignment of one million dispatched from the Bank of England to the offices of the Credit Lyonnais at Alexandria is bewildering the police, not only of England but of Egypt and those throughout the continent.

The crime is one of the most daring of recent times and is believed to have been carried out by a gang of international thieves, to whom information of the intended consignment of the money leaked out by some unknown means. The exceptional care with which the robbers laid their plans is revealed by the fact that although some twelve days have elapsed since the dispatch of the gold from England it is not yet known at what point en route the money was stolen.

Mr. and Mrs. C. I. Bosworth of New Hazelton are in the city and are guests at the G. T. P. Inn.

London, Nov. 30.—Joseph Martin, in the House of Commons, asked Premier Asquith if he had seen the statement in the Duke of Connaught's speech from the throne in the Dominion House to the effect that certain disclosures were made to the Canadian ministers on their recent visit to London which had made it imperative that the naval forces of the Empire should be strengthened; if so, was the Canadian government warranted in coming to that conclusion.

Coupled with this query was another from the Liberal member for East Edinburgh, who wanted to know why such an announcement had been made by the Duke of Connaught if, as was reported, the relations of Britain with the foreign powers still remained of the friendliest character.

Mr. Asquith's reply was purely non-committal. He said that a memorandum had been prepared at the express wish of the Canadian government which defined with fulness and precision the position adopted by the Imperial government. This would be laid before the House without delay, but it must first go before the Canadian government.

"DEMOCRATICUS" ADVISES PUBLIC UNITY

Let All Work for the Common Good is the Advice of 'Democraticus' Who Writes of Parties in Local Politics---Will Continue Articles

To the Editor of The News, Prince Rupert, and the Working Class and the Public Interests of the City.

The peculiar phenomenon dominating the twentieth century civilization is, without any doubt the "Social Question."

The relation between labor and capital is the subject of study by many a thinking man of our time. The greatest historical storm of modern times, the French Revolution, in doing away with the feudal privileges established theoretically the rights of man, liberty, equality, fraternity, namely, the Third State.

The Eagles of Napoleon, The Little, spread throughout the European continent, the solemn rights of the first French Republic, Lafayette as a missionary of the new gospel, came across the ocean to the new land of Columbus to inspire and help the founder of the Republic of North America.

The immense wave of human justice, permeated every sensible heart of the western world, but the economic factors deep-rooted in every individual, after little over a century, through the economic evolution and absolute freedom of the individual humanity, is not very much better off.

The principal cares of the Third State, whether under monarchies or republics, has been to protect the individual and his property, caring but little, or nothing, about the helpless class, except by individual philanthropy or public charity.

As a natural consequence, the different interests in society

gave birth to different political schools.

The great landlords and stock holders could only denominate themselves Conservatives. In fact, a better name could not be found, conserve, preserve, their economic privileges.

The industrious enterprising class of every nation, being compelled to base their economical actions on credit, and more or less dependant on the vested interests of the owners of real property, could evidently not make politically a common cause with the Conservatives, consequently, Liberalism, Liberals, wins a step further toward the interests of the community at large.

Beside these two sections of every community, there is to be found the little merchants, the little property holders, the elite of intellectual, and manual labor; forming a combination that has as its political exponent the

extreme wing, called radicalism, with a sub-section of Radical Socialism.

At the end of the ladder we find "Socialism" as the exponent of labor interests of all denominations, preaching for the interests of the class against all other sections of the political arena.

These different political schools are not based on sentiment but on purely economic existing conditions.

The municipality, being a little state in the big state, cannot do away with politics, therefore the argument that we often hear, keep party politics out of municipal affairs is out of reason. In Prince Rupert the political schools are somewhat confused. Our present mayor, a Conservative, poses as the champion of the class interests, with extreme protectionist tariffs.

I am sure that the intelligent reader, whether a little property holder or little merchant, whether an intellectual laborer or a manual one, will agree with me that a new city like Prince Rupert, depending totally on the good will of outside capital, cannot adopt the theories of the class struggle as a municipal motto without paying very dearly for the consequences, and the experience that we have had in the last two years should teach us a lesson.

Let us then work hand in hand for the real interests of us all let us break the vicious circle in which the whole city is confined, and more especially let us endeavor to clear the political ground. This, we will do in another article. DEMOCRATICUS.

LOCAL BOYS PROVE TO BE VERY GOOD BOXERS

Good Card Put on at Wright's on Saturday by Local Amateurs

Several excellent exhibition bouts of the noble art of self defence were given on Saturday evening in Wright's gymnasium at the Windsor. They were all exceptionally clean, clear cut and were devoid of anything in the least objectionable.

In all the four bouts put on the boys were local athletics and amateurs. The cleverness of their work was surprising, in view of the short time that the gymnasium season has been open, and it speaks well for the energy and enterprise for Trainer Ulmann, who has charge of the classes.

While several of the lads lacked the finish and style that makes the professional boxer and scientific expert, the boxers all had a fair knowledge of the requirements of the game, and mixed it with the greatest goodwill and friendship, in each case shaking hands at the finish of the go.

A large sized crowd was present and the fans were delighted with the fine sportsmanlike exhibition given by each boxer.

It is the intention of Trainer Ulmann and Mr. Wright to put on a good strong card before the public in the near future, and in the meantime those interested can see the boys in training at the gymnasium.

Several youngsters of fifteen are making splendid showings in the training quarters and are developing into splendid athletes under the hardy training.

NOVEMBER WEATHER.

The reading at the government weather office this morning was as follows: Barometer, 29.266; maximum temperature, 41.0; minimum temperature, 35.0; precipitation, .78. During the month of November the mean temperature was 41.0 and the precipitation 13.52 inches. The highest temperature was recorded on the 1st and 27th, when the reading was 53.0, and the lowest during the same period was 26.0 on the 10th.

FISHERIES CASE HEARD IN THE SUPREME COURT

Case Between the Provincial and Dominion Authorities is Being Heard.

Ottawa, Nov. 30.—The Supreme Court began the hearing of the reference by the Federal government as to the respective jurisdictions of Federal and Provincial governments in the matter of control of the fisheries. The issue will decide the powers of legislatures to grant exclusive fishing licenses and as to the Dominion government's ownership and control of fishery regulations in the navigable waters of the various provinces. Argument was begun before a full court by the Deputy Minister of Justice on behalf of the Federal government. The two main questions submitted are as follows:

1. Is it competent for the Legislature of British Columbia to authorize the government of the province to grant by way of lease, license or otherwise, the exclusive right to fish in any part or parts of waters within the railway belt, (a) as to such waters as are tidal and (b) as to such waters as although not tidal are navigable?

2. Is it competent for the Legislature of British Columbia to authorize the government of the province to grant by way of lease, license or otherwise, exclusive right or any right to fish below low water mark in any part or parts of the open sea within a marine league of the coast?

Newcombe, K. C., deputy minister of justice, and Hon. A. W. Atwater appeared for the Dominion government. Lafleur, K. C., and H. A. McLean, K. C., deputy attorney general of British Columbia, for British Columbia. Messrs. Nesbitt, Geoffrion, Bayley and Chris Robinson for Ontario, Quebec, New Brunswick and Manitoba; S. B. Woods for Alberta and Saskatchewan.

Editorial Notes and Clippings

THE DEFEAT OF THE BYLAW.

The defeat of the sewer bylaw on Saturday by such an overwhelming majority was not the result of any personal spite a protest against the unbusinesslike methods employed by Mayor Newton and his council in presenting the measure to the citizens for their approval.

Technically the plans were excellent and the scheme no doubt was a good one and reflects great credit on City Engineer Mason, but the manner in which the affair was handled was lamentable.

Brought up in the council about a month ago it was discussed in that and the subsequent meetings an aggregate

of about one hour, and then without giving the public any information on the scheme whatever it was brought to a vote.

Finally two public meetings were held last week to discuss the scheme, but these, at the instigation of Mayor Newton, developed into political gatherings at which personal abuse was more of an issue than the bylaw. The meetings were valuable in that they revealed what an incomplete measure the council with the exception of Ald. Clayton, was trying to foist onto the electors.

Throughout the year the methods employed have been the same in the handling of the city business with the result that their money bylaws have met defeat.

NEWSPAPER ADVERTISING IS THE BEST KIND SAYS EXPERT

NEWSPAPER ADVERTISING IS FAR AHEAD OF OTHER KINDS OF ADS. IS THE CONTENTION OF MAN WHO UNDERSTANDS THE BUSINESS AND GIVES THE REASONS

The following is a report of a lecture on "The Value of Daily Newspaper Advertising," delivered at the Department of Journalism, New York University, recently by Mr. J. W. Adams, manager of the Daily Newspaper Club:

"The big problem of the producer and seller of goods is one of merchandising, which includes advertising. The producer or merchandiser of today accepts advertising as a demonstrated business factor—an integral part of the business machinery—not merely as an outside aid or adjunct. He needs to be shown neither the desirability nor the necessity of advertising, but what medium of advertising is best suited to his purpose.

"It is, of course, manifestly impossible in every case to predicate exactly what one medium will be most productive, but generally there is one which is distinctly best for the achievement of the advertiser's specific objective.

"For the successful advertising of certain few commodities circularization is the best; for that of certain other commodities the trade or vocational publication is preferable; for advertising which depends for its efficiency upon high excellence of color work, or of quality of paper on which the imprint is carried, the magazine of general circulation is desirable. For that of a commodity which, from its very nature, only a relatively few members of the general public would have the desire, the need or the financial ability to be counted as potential purchasers—that is, for the advertising of a commodity designed for sale to a special class—to women alone, to people of sufficient wealth, for instance, to own country estates, or to those who would have a special desire or need for such particular commodities—a class publication is to be recommended—that is, a publication with a circulation practically restricted to just that class of readers who would be most likely to desire, or need, or to afford such a commodity. In other words, a commodity whose potential buyers would be a very limited part of the whole general public—a relatively small class.

"All advertising media are good for special purposes—no advertising medium is without value; but for the advertisement of commodities of widespread consumption—general consumer commodities—the daily newspaper is overwhelmingly the best media; and it is 'general consumer commodities' advertising that I wish in particular to consider on this occasion.

"There are eight (8) essential presuppositions which are the factors in the equation that will produce the maximum of merchandising success for the producer or merchandiser of any commodity—whether one for general consumption or for limited consumption. These presuppositions or factors are as follows:

1. Honesty, economy, efficiency in the organization.
2. Excellence in quality of goods.
3. Desirability of goods.
4. Adequate supply of goods.
5. Proper distribution of goods.
6. Excellence in style and method of advertising the goods.

7. Adequacy of advertising appropriation.

8. Right choice of advertising medium.

"There may be a measure of success even though some of these factors have not attained their full strength. If the third factor in this equation is fully assured—that is, if the goods are desirable—the remaining problem is to make them desired. The vital factor—the one that determines this—is the eighth; i. e., the right choice of advertising medium must be made.

"The first seven factors may properly be assumed as fixed, no matter what advertising medium be chosen. On this fair assumption, then, the advertiser should address himself to a proper determination of this eighth factor—namely, the 'right choice of his advertising medium.' Therefore, it is evident that this is the crux of his whole problem.

"In support of the assumption as to the superiority of the newspapers over any other medium for advertising 'general consumer commodities,' probative matter is readily adducible. The manufacturer wishes to induce the greatest possible number of consumers to use his commodity. If his goods are retailed in but few communities, his course is obvious. There will be no question in this case but that local advertising is demanded, and he would have to choose between such media as billboards, car cards and painted signs on one hand—passive influences which the reader must go out to find—and the daily newspapers on the other—active influences which go into the readers' hands and into their homes. If the advertiser has a truly national distribution he can, with a degree of profit, advertise in the general magazines. Assuming factor five of the equation to mean that the advertiser has complete distribution—in other words, that every community carries his goods—then, and then only, can he secure the maximum of the general magazine's advertising efficiency. Otherwise he would be paying for waste circulation, and the waste would be in proportion as the distribution was incomplete. And even under the conditions most favorable to the effective employment of the

magazines for the advertising of a 'general consumer commodity,' magazine advertising will not reach as many prospective buyers as will the newspapers in communities where the advertised goods are on sale.

"The newspapers have as their audience all classes. They are daily and in general carefully read by business and professional men who have, in the main, little inclination and less time for magazine reading. Of the intelligent mechanic and artisan class the same is true, though perhaps to a somewhat smaller degree. The large army of the less intelligent workmen read little else than the daily newspaper.

"Here, then, we have an audience almost as varied and as inclusive as the population itself—a true national audience. There has been a long continued and widespread belief that to reach this national audience a publication with a so-called national circulation is the effective medium—in other words, the magazine."

SPORTS

The Chicago Cubs asked waivers on Pitcher Ensign Cottrell, a drafted player and under the new interleague waiver rule, Connie Mack took him. He was with Scranton in 1912.

The White Sox have a deal on with their ruddy hosed brethren for Buck O'Brien. It is said that Buck's unpopularity with Joe Wood will get him off the world's championship club.

Claude Cooper, outfielder drafted by the Boston Braves from Fort Worth, has been transferred to the New York Giants. Cooper is small in size, but is said to be very fast, another Josh Devore, in fact.

Marty O'Toole may join the baseball colony that has invested in northwestern farms. He has been in Seattle looking over the lay of the land and getting pointers.

When Ray Collins and Larry Gardner of the champion Red Sox returned to their native state of Vermont, the University of Vermont and the city of Burlington tendered the two boys a great reception.

THE WARNING COUGH—THE WEARING ILLNESS

Colds often herald their coming with a warning cough. This warning demands instant attention. The health is in danger, the body is attacked, the risk is terrible. Act on the first symptoms. Mathieu's Syrup of Tar and Cod Liver Oil arrests the cold at once.

Tar and Cod Liver Oil are the great twin agents for cold cures, the Tar healing the inflamed parts and the Cod Liver Oil building up the whole body. They are combined in Mathieu's Syrup to produce marvellous results. Large bottle 35 cents.

At all dealers. When headache and fever are present with a cold take Mathieu's Nervine Powders to reduce the fever and allow the cold to run its course. J. J. Mathieu Co., Props., Sherbrooke, Que. O. C.

Notice is hereby given that it is my intention to issue at the expiration of thirty days after the first publication hereof a duplicate of the Certificate of Title to the above-mentioned lands in the name of Ella Lloyd Certificate of Title was issued on application dated the 4th August, 1912, and is numbered 624 B. and Registry Office, Prince Rupert, B. C., on November 9th, 1912.
WILLIAM E. BURRITT, District Registrar.

SPORTING CRITIC SAYS JOE IS ANOTHER RING CHAMPION

AFTER SEEING BAYLEY WORK OUT, OLD TIMER PREDICTS THAT HE WILL YET WEAR WORLD'S CHAMPIONSHIP BELT.

"All that boy needs is a little schooling in the finer stuff, and he will be a world beater," was the opinion of Charlie Gleason, a former star among the welters of the other side, as he witnessed Joe Bayley go through his paces with Cyclone Scott at the J. B. A. A. gymnasium recently. Gleason was one of the good sized crowd of spectators who were on hand, and he was more than tickled at the splendid showing of the Canadian lightweight champion.

"Bayley is another Wolgast, of the same sturdy, rugged and lion hearted class, that the Michigan boy belongs to, and he has everything that makes a champion," continued Gleason. "He lacks the finish of a fighter

like Willie Ritchie or other lightweight stars, but he is sure there with the punch and can stand the punishment. Give Bayley another year or two to learn the finer side of the game and I really think he will top the whole bunch of 'em."

Though Scott had about twenty pounds on Bayley and a big advantage in reach, the pair milled matters pretty lively. The champion appeared in perfect condition and took on Al Hardwick after Scott has retired to the cooling comfort of a shower. For another three rounds he exchanged love taps with the James Bay wrestling star and finished up by skipping the rope. Bayley jumped on the scales after the workout and just tipped the beam at 134 pounds.

WHAT TO DO TO REVIVE THOSE APPARENTLY DEAD FROM SHOCK

USEFUL KNOWLEDGE OF WHAT TO DO IN CASE OF ELECTROCUTION—NEW METHOD BEING TAUGHT WHERE WIRES ARE DANGEROUS.

The following instructions are being widely circulated throughout power houses and places where death may result from electric shock, and are of utmost importance and value to all:

The Schaefer method, which in the course of some years will probably penetrate to the little red school house, was unanimously adopted by the commission as far better than the Sylvester. The rules give the following instructions for applying the method. They are worth quoting as being probably the most authoritative of all directions on this particular matter. The rules say:

1. As soon as the victim is clear of the live conductor quickly feel with your fingers in his mouth and throat and remove any foreign body (tobacco, false teeth, etc.). Then begin artificial respiration at once. Do not stop to loosen the patient's clothing every moment of delay is serious.

2. Lay the subject on his stomach, with arms extended as straight forward as possible, and with face to one side, so that the nose and mouth are free for breathing. Let an assistant draw forward the patient's tongue. (It may be intercepted, however, as in the Sylvester method.) If possible, avoid so laying the subject that any burned places are pressed upon. Do not permit bystanders to crowd about and shut off fresh air.

3. Kneel straddling the subject's thighs and facing his head; rest the palms of your hands on the loins (the muscles of the small of the back) with thumbs nearly touching each other and with fingers spread over the lowest ribs.

4. With arms held straight, swing forward slowly so that the weight of your body is gradually brought to bear upon the subject. This operation, which should take from two to three seconds, must not be violent—internal organs may be injured. The lower part of the chest and also the abdomen are thus compressed, and air is forced out of the lungs.

Fresh Air in Lungs.
5. Now immediately swing backward so as to remove the pressure, but leave your hands in place. Through their elasticity the chest walls expand and the lungs are thus supplied with fresh air.

6. After two seconds swing forward again. This repeat deliberately twelve to fifteen times a minute the double movement of compression and release—a complete respiration, in four or five seconds. If a watch or clock is not visible follow the natural rate of your own deep breathing—swinging forward with each expiration and backward with each inspiration.

7. Continue artificial respiration (if necessary, two hours or longer), without interruption, until natural breathing is established, or until a physician arrives. Even after natural breathing begins carefully watch that it continues. If it stops start artificial respiration again. During the period of operation keep the subject warm by applying a proper covering and by laying beside his body bottles or rubber bags filled with warm (not hot) water. The attention of keeping the subject warm should be given by an assistant or assistants.

8. Do not give any liquids whatever by the mouth until the subject is fully conscious.

COMMON TALK OF THE NATIONAL PROSPERITY

Canada's Trade Now Greater than United States in 1875

Ottawa, Nov. 29.—Continuing the debate on the address in the Senate yesterday, Senator Loughheed said that Canada was on the eve of an era of prosperity that he believed Canadians were unable to properly appreciate. This was not so with outsiders, and the people of the United States, becoming aware of the vast commercial opportunities looming in the near future, were making active preparations to exploit them. The trade of the latter country in the year 1875 did not reach a billion dollars, whilst that of Canada had already reached that figure.

Senator Bostock drew attention to the lack of provision that was made for additional senators for the Province of British Columbia. He asked for something to be done immediately in this respect.

OBITUARY.

The funeral of the late H. N. Raymond, who died on Saturday evening last in the living quarters of Mr. Archie McDougall's construction camp, near Hays Cove, will be held on Wednesday next at 2 p. m. from E. L. Fisher's funeral chapel. The interment will be at Fairview Cemetery in the Masonic plot, the members of that body having charge of the arrangements. Rev. W. E. Collison will be the officiating clergyman.

Famous Philanthropist Dying.
 Redlands, Cal., Nov. 30.—A. K. Smiley, 84, nationally known advocate of international peace and civic benefactor, is believed to be dying at his immense estate in the outskirts of Redlands. He is suffering from a nervous breakdown.

Find it through a Daily News "Want Ad."

HEARD ON THE CORNER

Several good shows are billed for tonight. Comedy drama at the Westholme, moving pictures at the Empress and Majestic and a civic burlesque at the city hall.

To those who heard in the still cold dawn of the morning the plaintive cry outside the window of a fair maiden, "Alice, Alice, speak to me, Alice?" believe that the days of romance are not yet dead.

Hamlet (S. M. N.) contemplating the defeat of his money bylaws—"Then doomsday is near."

The genial Jack Thompson attempted to house clean yesterday morning and late last night was unable to get near his downy couch for the assortment of various articles piled there. About midnight he concluded he had better stay overnight at the hotel.

Capt. Reed has reported to the admiralty that the civic snuff yacht is in an unseaworthy condition, and First Lord of the Admiralty Babington may include the fact in the next maritime report.

ARRESTED AND CHARGED WITH MURDER OF CHILD

Man Believed to Be the Postal Card Murderer Is Arrested.

New York, Nov. 30.—John H. Hickey was brought here last night from Toms River, N. J., and locked up in a police station until this morning, when he was taken on the Empire State express to Buffalo. While at headquarters Hickey was identified as a man who was arrested as a suspect ten years ago in the case of the murder of Michael Kruck, a newsboy, in Central Park. Hickey admitted he was arrested for that crime and subsequently released, as was stated recently by officials of the local police department.

Chief of Police Gilson, of Lackawanna, who has Hickey in charge, showed the prisoner two letters Hickey sent to a friend last summer. The letters were on commonplace matters, but the writing, according to Gilson, is very similar to the writing on the cards which led up to the finding of the body of the Josephs boy. According to Gilson, Hickey last night admitted he wrote the letters to the Boston friend, although he denies writing the postcards.

Gilson said that Hickey had also admitted that he was in Boston on November 9 and in this city on November 12. On November 9 Gilson received a postcard regarding the Josephs murder from Boston and another was posted to Gilson on November 12 from this city.

Dies of Broken Heart.

Los Angeles, Nov. 30.—Mrs. L. Enert, 65, is dead of a broken heart. She sank to the ground lifeless in Rosedale Cemetery as the body of her dearest friend, Mrs. Matilda L. Wilson, was being lowered to its final resting place. Throughout the funeral services Mrs. Enert's grief had been intense, and as the casket disappeared into the blossom lined vault, she sat down by the grave and then collapsed. She was dead when her daughter reached her side.

Seattle Merchants Duped.

Seattle, Nov. 30.—Declaring that Seattle merchants are duped out of at least \$100,000 a year by fakirs, who solicit advertising for pamphlets and programmes under guise of getting money for charitable purposes, the Ad. Club of this city is pledged to lead to a "show them up" campaign. Each merchant will be asked to sign an agreement not to give money or buy advertising from solicitors unless they show proper credentials.

Christmas Suggestions**DR. JAEGER'S LOUNGING ROBES AND HOUSE COATS**

Of all the gifts for a man these approach nearest the ideal gift. They mean more solid comfort—more real genuine pleasure than it is possible to crowd into the same money any other way.

Lounging Robes \$13.50 to \$25.00

House Coats \$8.00 to \$12.00

HAND LUGGAGE

Your judgment will be unerring should you give him a fine Suit Case or Hand Bag for Christmas. We have an especially large line to choose from.

\$3.75 TO \$30.00

UMBRELLAS

Nothing you could think of would please him any more than an Umbrella.

Cotton \$1.00 to \$1.50

Silk \$2.50 to \$7.50

SOMETHING TO WEAR

Makes the Ideal Christmas Gift
 Because It Is Appreciated Above Everything Else

Every year the trend of gift giving turns more and more to useful articles.

Something to wear comes nearer to the ideal gift than anything else. It is a constant reminder to the recipient of the giver, and to be a pleasant reminder the gift must be of superior quality.

Every article from this store has this happy, satisfaction-giving quality, and the prices are really less than you'd expect.

You will find us always ready and anxious at all times to help you in every way with suggestions regarding the solution of your gift problems.

A Christmas**Suggestion**

Before buying Christmas presents for your wife or children why not ask yourself what gift would be the least expensive and yet bring the most happiness and best returns for the money invested. With Ten Dollars Cash and ten dollars each month you can now buy

A Lot in Fort George

What caused the advance in Prince Rupert Real Estate?

"THE AUCTION SALES"

held by the G.T.P. and the Government. You now have a chance to buy in Fort George before the "Auction Sales." Don't wait till next Christmas; the trains will be running into Fort George before that time.

For free information and maps call on

Collart & Reynolds
 225 6th St. Prince Rupert, B.C.
