

FINANCIAL SITUATION EXPLAINED BY THE MAYOR

BULGARIA HAS REFUSED PERMISSION TO ALLOW FOREIGNERS TO LEAVE ADRIANOPOLE

FOREIGNERS IN ADRIANOPOLE NOT PERMITTED TO LEAVE

MEAGRE NEWS FROM SEAT OF WAR—FIGHTING IN GALLI-POLI PENINSULA CONTINUES—FORCES MOVE WESTWARD.

(Special to The Daily News.)
London, Feb. 6.—News from the seat of war is very meagre. There are grave reports of the fighting in the Gallipoli Peninsula and in the lines around Chatliji but no details as to the

character of the operations. The Bulgarian forces, fearing an outflanking movement by the Turks, are moving their positions westward along the Tchatalji lines. Bulgaria has refused the request that foreigners now in Adrianople be allowed to leave.

MAYOR PATTULLO EXPLAINS CITY'S FINANCIAL SITUATION

COUNCIL HAS TO PROVIDE FOR A LARGE DEFICIT FROM LAST YEAR—ONLY SANE AND LEGAL METHODS OF EXPENDING MONIES WILL BE ADOPTED.

The closing down of the local improvement work in Section One is naturally caused considering the discussion among the ratepayers as to the necessity of such step and, as might be expected, there are those who are endeavoring to make political capital out of the situation by creating an impression which is not in accordance with the actual facts. In order to properly enlighten those who might be led astray, Mayor Pattullo has furnished the following statement:

"It is the duty of each Council to provide revenue to meet the current expenses for the year. No Council has a right to load the next Council with debt on current expense. A large amount spent last year on capital expenditure, such as electric light, was illegally expended, and the Council had no authority to take the amount from the general revenue, but before making the expenditure should have submitted it to the ratepayers. The closing down of the local improvement work in Section One is naturally caused considering the discussion among the ratepayers as to the necessity of such step and, as might be expected, there are those who are endeavoring to make political capital out of the situation by creating an impression which is not in accordance with the actual facts. In order to properly enlighten those who might be led astray, Mayor Pattullo has furnished the following statement:

(Continued on Page 4.)

NEW CALENDAR MAY BE AUTHORIZED BY POPE

OSTER WOULD NO LONGER BE MOVEABLE FEAST—CHRISTMAS ALWAYS ON SUNDAY.

ome, Feb. 5.—It now seems more than probable that under Pope Pius X an entirely new calendar will be given to the world. Whether the world at large will accept the proposed new divisions of the year and will adjust all of the complicated mechanism of present day life to the new divisions is, of course, a bit uncertain. The backers of the present movement are enjoying very fond hopes that it was a pope who gave the present day calendar—Pope Gregory—who served the world well at the time it was given, and that it may serve the world as well in the future. The present time—the world is yet willing to accept the same source a new calendar and one that would be better fitted to the needs of the world today.

to bear upon Pope Pius to order the change. While the movement, at least upon the surface, is entirely in the hands of ecclesiastics, and while the proposed change also is largely for the purpose of making the great religious festival dates fall upon permanently established days, yet the proposed new calendar contains such advantages for society, commerce, labor and industry at large that many classes, outside the church are openly working for it.

The modistes of Paris, for example, who for years have favored the establishment of an unchangeable date for Easter, are bringing pressure to bear through their clients who stand high in the church. Other working and industrial bodies have also expressed themselves in favor of the proposed change, and in fact it is largely upon these classes outside the church that the backers of the movement are depending to have the change adopted by the various states and governments should the church eventually promulgate it.

It is known that the Sacred Congregation of Rites is giving serious attention to a plan that has been submitted by Father

(Continued on Page 4.)

LOCAL LEGISLATURE ON PANAMA CANAL

Policy of U.S. Government Re International Use of Canal Will be Discussed Next Week

(Special to The Daily News.)
Victoria, Feb. 6.—The policy of the United States government with respect to the international use of the Panama Canal will come up for debate in the Legislature next week. The theme will be introduced by the Premier in the form of a resolution expressive of British Columbia approval of the attitude adopted by the Imperial Government.

Mr. F. W. Hart begs to announce that his store in the Hart Block, 3rd Ave., will be closed until his return from Victoria, in a week or ten days' time. The key of the store has been left with the Mack Realty Co. 28th

MANY PASSENGERS WENT SOUTH TODAY

A Full Complement of Passengers Went Out on the Prince Rupert This Morning

The Prince Rupert southbound left this morning on time with a large crowd of passengers from the city and district. One or two are leaving the city for good—whilst a number of others are making short business and pleasure trips before the spring opens up and the busy season starts in full swing. Amongst the saloon passengers were the following: Capt. Norvick, F. D. Eason, G. W. Arnott, Mr. Herblene, T. McNeil, W. Clark Durant, M. Albert, Mr. and Mrs. F. S. Long, H. L. Bodwell, Rev. E. C. Burch, Peter Bohner, M. T. Jerome, E. C. Gillingham, Geo. J. Frizzell, G. Hare, Mrs. Ferguson, W. R. Love, John Dillman and wife, W. J. Alder, J. Piercy, I. N. Linnell, E. G. Baxter, Mr. Lemahan, G. Bain, W. McLennan, C. C. Ward and wife, L. Kendall, H. Ferhman, F. D. Eason, G. T. Carpenter, C. E. Carpenter, W. O. Lawson, Mr. Tooker, F. C. Wilson, Mr. McIntosh, S. Richet, J. M. Clancy, R. D. Pontifex, Mrs. B. Bates, Joseph Matthews, R. O. Jennings, A. Grady, John Manson, Mrs. Roberson.

MUST INCREASE STAFF

Canadian Home Investment Co. Will Add to Local Staff.

Among the numerous passengers who left for the south this morning by the Prince Rupert was Mr. A. P. Macnair, who has during the past three months been assisting Mr. Alex. Steven, manager of the Canadian Home Investment Co., to reorganize their staff throughout Northern British Columbia. Mr. Macnair leaves to take up a position at the company's head office in Vancouver.

The company's business has increased enormously during the past six months and particularly is this the case throughout their northern territory, of which Prince Rupert is the headquarters, and which takes in the islands, Stewart and as far east as Fort George. To keep pace with this growth it is the intention of the company to further increase their local staff. Mr. Steven is expecting three or four practical men from the head office in the course of a few weeks.

Appointed to Hague Court.
London, Feb. 6.—Rt. Hon. Jas. Bryce, British ambassador to the United States, has been appointed a member of the Hague Court. He has been United States ambassador since 1907.

BUDGET SPEECH ABOUT END OF MARCH

Debate on Naval Bill Was Continued by Two Liberal Members

(Special to The Daily News.)
Ottawa, Feb. 6.—The budget speech will not be delivered before the end of March. The naval debate was continued today by Hon. Chas. Macdill, Bonaventure, and E. M. MacDonald, Pictou.

STRUCK RICH VEIN AT ROCHER DE BOULE MINE

Is Likely to Be One of the Big Shippers in the Hazelton District This Spring.

The Omineca Herald publishes the following report of development work done at the Rocher de Boule mine, one of the most promising mines in the Hazelton district:

Recent reports from Rocher de Boule mine go to prove that the development work already done upon the property has been very profitable and that the owners were perfectly justified in going ahead. They are also justified in continuing the present work and undertaking new work which they have mapped out. On the two dumps on the upper vein alone they have now at least three hundred tons of high grade copper ore, and up to the present the owners have not attempted anything but development work. All the ore has been taken out of tunnels, shafts and what drifts were necessary to open up the property for development purposes.

The work on the drift on the upper vein has carried them into the big shoot of ore, which is five and a half feet wide, all solid ore, and in places it widens out to six feet, while in the big shaft sunk last year it is seven feet wide. Superintendent J. A. Cowan is greatly pleased with the mine. Besides proceeding with the development he has also had men at work sacking ore, and he has several hundred sacks ready for shipment. When he was visiting his home in Salt Lake City he took up the matters of a tram and shipping with his father and other members of the company, and they were agreed that the work must be proceeded with and that the machinery and tram line be put in at a very early date.

Rocher de Boule mine is one of the big propositions of high grade ore, and it is one which has already done much for the Hazelton district and which will give employment to a very large number of men.

With Rocher de Boule joining the ranks of shippers this spring the Hazelton mining district will loom up as the big new district on the American continent. The public, or at least the people of this district, are greatly interested in Rocher de Boule. A great many of them are stockholders, having purchased when the first issue was put on the market, and the great majority of the original holders are still holding their stock, having the utmost confidence in the property. This is one of the strongest recommendations the company can have, as practically every one here is personally acquainted with the mine and the ore.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 30.094; maximum temperature, 43; minimum temperature 33.

Mr. Jerry Bonneau, a well-known old timer in Prince Rupert, left this morning on a two months' trip to Montreal, New York and other eastern cities. He also expects to spend a short time in California.

PRINCESS SOPHIA WILL BURN OIL

Will Make First Regular Trip with New Fuel System on Sunday.

Vancouver, Feb. 5.—Having been subjected to a thorough inspection and trial, the new oil burners of the Princess Sophia, which have just been installed at Victoria, have been proved to be most successful, everything running smoothly and easily in the engine room.

Captain Neroutses, marine superintendent of the B. C. coast service, and Mr. J. H. Alexander, assistant superintendent engineer, have announced their satisfaction on the result of the trial.

The first run of the steamer as an oil burner has been arranged to take place on Sunday next, when the ship will go on the night run from Victoria to Vancouver and the afternoon run from this port.

WILL CARRY DEAN CASE TO OTTAWA

Attorney for Bank of Montreal Robbery Suspect Will Have Agents Argue Matter Before Supreme Court.

(Special to The Daily News.)
New Westminster, Feb. 6.—Mr. Adam S. Johnston, counsel for Charles Dean, Bank of Montreal robbery suspect, has issued instructions to his agents at Ottawa to prepare a case and to present the argument before the Supreme Court of Canada in support of his contention that a writ of habeas corpus should be granted releasing Dean from custody.

Mr. Johnston stated that nothing whatever had transpired to cause him to recede from the position he took before the Supreme Court of British Columbia, and he expects to have the matter heard about February 17th in the higher court.

In connection with the oft repeated statements that the suspects had an unlimited supply of money behind them with which to fight their cases, Mr. Johnston states that as far as Dean is concerned the reports are absolutely false, as Dean had the small sum of \$14 or \$15 in his possession when he arrived here from Los Angeles last August, and still has that sum.

Mr. Johnston has received but a small initial contribution from a man that could not even lay claim to being an acquaintance of the accused.

This amount, states Mr. Johnston, was small, and was soon exhausted in actual out-of-pocket expenses, obtaining necessary transcripts, etc. In fact, at the present time Mr. Johnston is considerably out of pocket himself and expects to be even more so before his fight for what he considers more a case of vindication of a principle rather than the acquisition of pecuniary advantages, and he will, he states, take the matter as far as it is within his rights to do.

TO STUDY THE LIFE IN THE GREAT LAKES

Ottawa, Feb. 5.—One of the most distinguished sons of Canada will do the Dominion a service this summer. Sir John Murray of England has offered to make a study of in the Great Lakes, and of the bottom characteristics generally of these great bodies of water. He proposes to bring out his deep sea exploring vessel and to co-operate with the Dominion biological board.

Pantorium Pioneer Cleaners, Phone 4.

SUFFRAGETTE DEMONSTRATION IN THE HOUSE OF COMMONS

SOCIALIST LIBERAL WAS EJECTED FROM STRANGERS' GALLERY FOR CAUSING DISTURBANCE.

(Special to The Daily News.)
London, Feb. 6.—A suffragette demonstration in the House of Commons tonight occasioned much excitement. While a division was being taken H. D. Harben, a well-known Socialist Liberal, shouted from the strangers' gallery denunciation of the gov-

ernment's treatment of women. With another disturber he was ejected from the House.

W. Clarke Durant left on a hurried business trip to Vancouver this morning and hopes to return again by the end of the week.

PROMINENT NEWSPAPER LIBELS PRINCE RUPERT

MOST LARGELY CIRCULATED NEWSPAPER IN CANADA GIVES PUBLIC MISLEADING INFORMATION CONCERNING PRINCE RUPERT AND THE G. T. P. STEAMSHIP SERVICE.

"The Grand Trunk Pacific is to run a direct service between Vancouver and the Queen Charlotte Islands. This is due to the increased traffic of the islands, and consequently Prince Rupert will be cut out of the service."

The foregoing appeared in a recent issue of the Weekly Star and Family Herald, the most largely circulated newspaper in Canada, among news items of the western provinces. While the item is too absurdly ridiculous for comment, it is unfortunate that such an item should be circulated broadcast over the Dominion. To those who have only a superficial knowledge of Prince Rupert, obtained from what they have read or have been told, it would appear that this port has been nothing more or less than a port of call for G. T. P. steamers between Vancouver and the Queen Charlotte Islands and that in the immediate future it is to be left out of the service altogether.

In all probability there was no intention on the part of the

Family Herald to do Prince Rupert an injustice, as the item has evidently been furnished by some one who is jealous of the importance of this city; nevertheless, the item will do the city much harm. The Family Herald should lose not time in correcting the erroneous impression it has given the public and the correction should be given considerable prominence.

In regard to a direct service between Vancouver and the Queen Charlotte Islands, the local offices of the G. T. P. Steamship Company have had no advice to date. Of course, it is quite possible that in due time such a service may be inaugurated, but, as previously intimated, the idea of Prince Rupert being cut out by the G. T. P. service is too absurd for comment. Prince Rupert, the western terminus of the G. T. P. Ry., is destined to become one of the most important ports on the British Columbia coast and the public can rest assured the Grand Trunk Pacific Company will continue to give its terminus everything in the way of steamship service that its future development demands.

LIBRARY COMMITTEE HAS BEEN APPOINTED

Mayor Pattullo and Aldermen Naden and Dybbavn, the committee who were given charge of the initial arrangements for the opening of a public reading room in the city at the earliest opportunity, yesterday appointed the following as a working executive to take this pressing matter up and bring the project into effect: Rev. F. W. Kerr, Principal Brady, M. A., of the high school; Mr. Basso-Bert, J. Charles Halsey and Olaf Hansen. Mr. Godson has very kindly undertaken the duties of secretary pro tem. A meeting of the whole committee will be held on Saturday to fully consider the question and come to a decision as to location, etc.

James Dick Won Trophy.

In their pleasant rooms on Second Avenue last evening a very delightful whist drive was given by the St. Andrew's Society to a large number of members and friends. The series of games proved most interesting and exciting, the trophy being finally won by Mr. James Dick with a margin of 39 points. Altogether a most enjoyable evening was spent, the many present voting the St. Andrew's Society the very best of hosts. Further entertainments of a similar nature will be looked forward to with the greatest pleasure.

Mr. and Mrs. John Dillman left on the Prince Rupert this morning. They are going south for the benefit of Mr. Dillman's health.

EASTERN CAPITAL FOR HAZELTON MINE

G. W. Arnott, Well Known Here, Left This Morning on Business Trip Connected with the American Boy Mine.

Mr. G. W. Arnott, known to all old timers of Prince Rupert as being one of the prominent members of the real estate fraternity in the early days, but who for the last two years has centred his energies in the Hazelton district, reached the city on last evening's train. Mr. Arnott of late has devoted himself extensively to mining, and it is in this connection that he is down from the interior at the present time. He is most enthusiastic as to the future of the mining business around Hazelton. The American Boy, the property in which he is at present most heavily interested, has been bonded for \$50,000, and from the showings that have been uncovered the owners feel fully justified in placing the property before the big moneyed interests in the east.

Mr. Arnott, as the representatives of the bondholders, is taking a hundred pounds of sample ore from the property and with it will visit Winnipeg, Toronto and New York during an extensive tour of Eastern Canada and the United States. He has no doubt whatever that he will be successful in placing the property satisfactorily.

Mr. Arnott left for the south this morning on the Prince Rupert and expects to be away for the next two months.

DAILY EDITION

Friday, Feb. 7, 1913.

THE HIGH COST OF LIVING.

To the February number of the Canadian Magazine Professor Mackenzie of the University of Toronto has contributed a more than ordinarily interesting article on the high cost of living. The author is a mathematician, but not all mathematical experts are expert statisticians, and Mr. Mackenzie's article shows that he is one of the few who are both. It is quite impracticable in the course of a brief review of an elaborate and closely reasoned paper to give many of the details it supplies as evidence of the correctness of the author's conclusions, but those conclusions themselves are well worth reproducing. The causes of the high prices of foodstuffs are, according to him, three in number:

"The world-wide result of increasing gold supplies, of unproductive expenditure of labor and material in preparation for war, and of the checking of agricultural development owing to the migration cityward, induced by protection in the food exporting countries."

"The Canadian policy of protection has permitted further increased prices in Canada to an average of 33 per cent. above their level in 1900."

"The private monopolies apparently existing in our big cities in connection with some of the businesses of food distribution, the poor transport facilities, and a system of taxation unsuited to rapid city growth."

In support of these contentions Mr. Mackenzie gives three statistical tables covering the course of prices during the years 1900-1911: First, of general prices "in the great free market of London"; second, of Canadian food prices as published by the Canadian Labor Bureau; and, third, of retail prices in Canada during October, 1912, as published in the Canadian Labor Gazette for November last. The third table shows that retail prices of food are for most articles higher in Montreal than in Toronto, and higher in Toronto than in such towns as Charlottetown, Sorel, Hull, Peterboro, Orillia, Owen Sound, Chatham, Stratford and Sault Ste. Marie. The article will well repay careful study by those who desire information on the subject.—Toronto Globe.

MR. TAFT'S LOST LAUGH.

Do you remember Mr. Taft, laughing Mr. Taft, whose portrait was in all the newspapers four years ago when he was elected President of the United States?

He gave promise at that time of going into history as the Laughing President. But in office he soon lost his laugh. His pictures for the past year or so have shown him without laugh or smile, a serious faced man.

Defeated for the presidency, he is compelled to remain before the public until the 4th of March, when he leaves Washington as his successor enters. It is an awkward position he is in, but it must be confessed that he appears to carry himself very well.

Since his defeat he has not indulged in recriminations, scoldings, nor does anybody charge him with using his position to wreak vengeance on those who opposed him. In fact, Mr. Taft is showing the qualities with which his friends have always credited him, and a temperamental judicious and generous. On his retirement he will live in New Haven and will be a law professor at Yale. Already they say he has resumed his smile, his laugh and his game of golf.—Toronto Globe.

A Wrong Kick.

Bluffers botched into the club, jammed his hat down on a table with fierce, resounding bang, and flung himself into an easy chair. "What's wrong today, Bluffers? You look bad."

"I'll never forgive myself. I kicked a man out of my house last night!"

"Humph! I've kicked out many a one. Young fellow, I suppose?"

"No; past middle age."

"Well, those old codgers have no business to be coming around courting young girls. I would have kicked him out myself."

"Yes, but I have found out since that this man wasn't courting my daughter. He was after my mother-in-law."

Many Happy Returns.

Guest—Delightful party you are having tonight, old fellow.

Host—Yes, I am giving it to my wife. It is the twelfth anniversary of her thirtieth birthday.

Funny that a boy will tell his sister all about his love affairs, while a girl always tells another girl.

PRINCE RUPERT'S PROGRESS
ON A SOUND FOUNDATION

ABUNDANCE OF NATURAL RESOURCES AND THE STRIDE OF STEEL HAVE A CONSTANT INFLUENCE IN RAISING REAL ESTATE VALUES

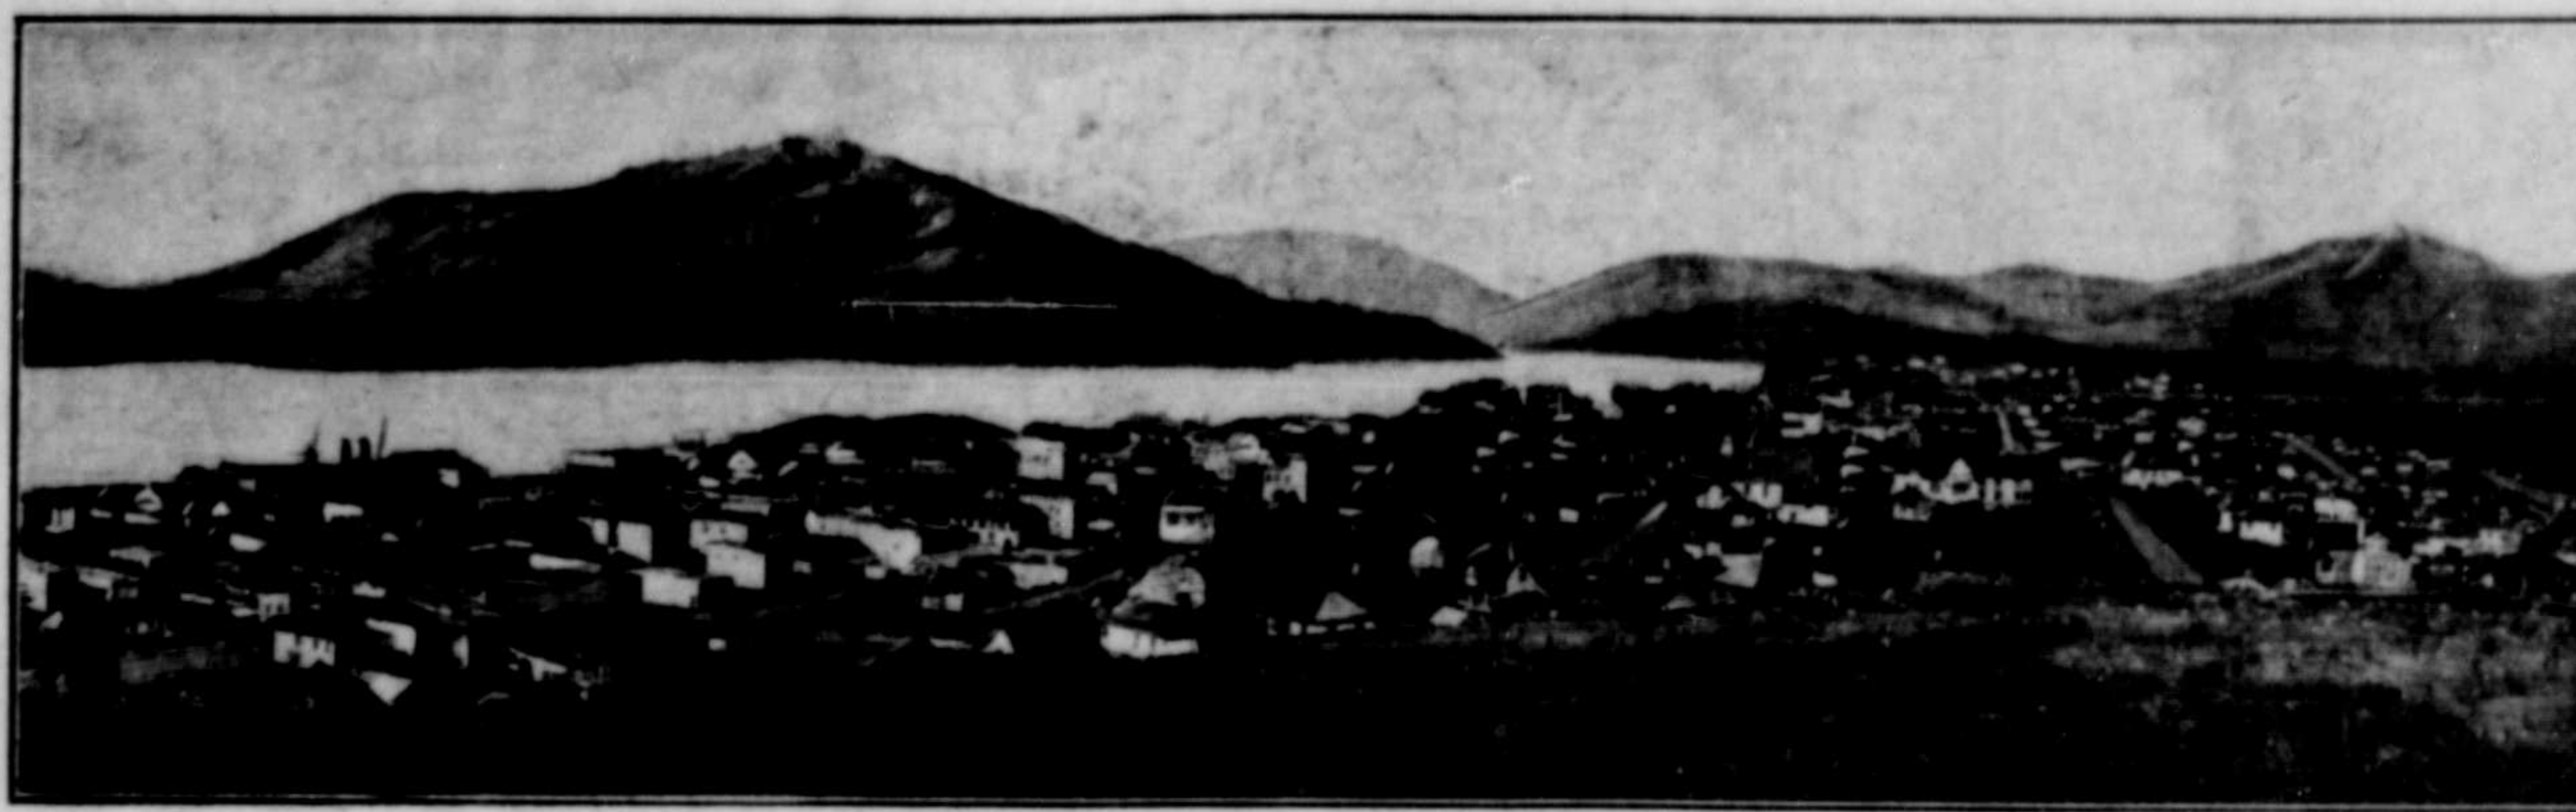

Norman Mackintosh, a former editor of the Daily News, in the last issue of the Saturday Sun-set, published at Vancouver, has an interesting article on Prince Rupert and Northern British Columbia from which the following is an extract.

This year of 1913 promises to be the most remarkable year of mine development in Northern British Columbia. Prospects of Port Granby, the new mining city starting up at what was once known as Goose Bay, are wonderful. Upwards of two million dollars are being expended by the Granby Consolidated Mining and Smelting Company in the development of the splendid property they have acquired here. For months men have been at work opening up the great deposits of copper-gold ore in every direction, and the result of the preliminary work has been simply to assure the company

whole territory. Great far-reaching arms of the sea run deep in to the valleys everywhere making more accessible the ore deposits of the mountains. The rivers, too, and even the smaller creeks are capable of development for mineral transportation to considerable extent as the territory is opened up. Many of the streams which appear to be impassable at present require only the dynamiting of a few log jams to free their channels of all the other obstructions, and by a little deepening work here and there the transportation of small scows of ore can be facilitated so that miles of hard packing may be completely obviated. On the Queen Charlotte Islands at present some of the mining men interested in ore deposits there are planning the clearing this summer of a stream which has up to the present been useless as a means of transportation ow-

per real estate investment for instance, it can readily be proved by any independent investigator that not a single penny of real money has been lost to any ordinary intelligent investor in Prince Rupert property since the townsite came first on the market. Those who put their small funds early into Prince Rupert lots have never for an hour had cause to regret their investment. Amongst the earliest investors are counted many of the wealthiest men today in Prince Rupert, and amongst the investors in Prince Rupert property are counted some of the best satisfied investors in realty in all British Columbia.

No wildly exciting real estate boom in the accepted sense of the word "boom," has yet struck Prince Rupert. Fortunes have not been made in a day in the G. T. P. terminal city, and yet people have made good money steadily dollar by dollar on their investments. To have a thousand dollars today in Prince Rupert property is to know absolutely without shadow of doubt that your thousand dollars is jogging steadily along with the city's steady development, and with every inch of steel laid eastwards on the transcontinental

PRINCE RUPERT, THE PACIFIC PORT OF PROGRESS

Dawn of Productive Days

Northern British Columbia of all parts of Canada open to modern development is most free from the danger of merely real estate booming. Townsites by the very conformation of the land are prevented from becoming swamped by surrounding subdivisions to the despair of the bona fide settler. Nature has set many a big splendid barrier here in the way of the shameless subdivision promoter who would sell "city lots" miles from the real city's outermost margin, and disgrace the great Dominion in the eyes of investors, destroying for years his own city's prospects of proper prosperity.

Not fictitious land values but actual commercial value of natural products will be the basis of the wealth before long of Northern British Columbia. Minerals, timber, and marketable fish are products which can hardly be turned to the territory's harm even by the most unscrupulous of unsound promoters. Even to the most inexperienced any enterprise which aims to produce wealth from natural resources carries with it the protective idea of patience and toil necessary before the reward can be reaped. This thought safeguards the small investor and the greater from the foolish plunge without consideration, into some get-rich-quick scheme based upon the supposed coming sudden rise in value of some stretch of property unproductive and marketed upon the paper estimate of its alleged proximity to some rising centre.

Profitable Prince Rupert

Taking the case of Prince Rupert towards a doubled dollar for every dollar in the amount. Each day actually that passes while your dollars remain invested in Prince Rupert property can be counted upon as a day of increased value for that property. It would be possible for a skilled actuary to calculate almost to the cent what each 24 hours of 1913 is worth in cash to the man having so many thousand dollars invested in Prince Rupert property. Such is the steadiness of the realty market in the city at present. There may be rapid fluctuations later on though these will be upward tendencies before they are downward, but at present the market is quietly, steadily and persistently on the upward trend for Prince Rupert property, and the reason is the stride of the steel, and the abundance of the natural resources which surround the Pacific coast port of progress, Prince Rupert.

NEWS NOTES OF THE WEST FROM THE GREENWOOD LEDGE

From the Yukon it is reported that vast copper deposits have been found in the White River country.

Near Fairbanks, Alaska, George Watson recently pounded \$600 in gold out of 100 pounds of quartz.

This winter about 15,000 men from the prairie provinces are working at lumbering in the forests of B. C.

At Duncan, Chew Deb was fined \$50 for supplying liquor to an Indian woman by the name of Lucy Jack.

Daily passenger trains are running on the G. T. P. from Winnipeg to Tete Jaune Cache, a distance of 1,095 miles.

A government wharf is being built at the foot of Second street in Kamloops. There will be 125 piles in the wharf.

The sawmill at Genoa Bay, Vancouver Island, will resume operations in April. It will cut 75,000 feet of lumber daily.

E. C. Weddell of Kelowna has become a barrister and will practice law in that city. He is just 22 years old.

William Baker died in the hospital at Hazelton from pneumonia. He belonged in Spokane and was 21 years old.

The Golden Star talks about putting in a linotype machine. Most small papers have found this expense a mistake.

British capitalists have secured 600,000 acres of mixed farming and ranching lands in the foothills of the Peace River country.

Placer gold has been discovered on Silver Creek, 100 miles southeast of Atlin. It is the most inaccessible diggings in B. C.

Amos C. Manzer died in Chilliwack from chronic Bright's disease. He was 95 years old and a native of New Brunswick.

A medicine firm in Philadelphia will buy 800 tons of bearberry bark every year. The bearberry tree is found in some parts of B. C.

The Fernie Free Press says that in Calgary the hausfrau simply turns the water tap when she wants sardines for the next meal.

The Great Northern Railway has reduced the freight on concentrates from the Nickel Plate mill at Hedley to Tacoma from \$13 to \$11 a ton.

Last month Dr. Sugden and his partner drove from Dawson to White Horse with a dog team. It took two weeks to make the trip.

John Jackson has bought the Great Northern Hotel in Hedley. He ran the New Zealand Hotel in that town before it was burned.

A carton of eggs was shipped last week by parcel post from Chesaw to Spokane for 14 cents. By express it would have cost 65 cents.

At White Horse Shorty Bardner was fined \$50 for providing Jennie McKenzie, a native daughter, with the material for a red push jag.

There promises to be a scarcity of pack animals at Hazelton this year. There is plenty of business in sight for pack trains, but no extra horses available.

The Winnipeg Free Press is 40 years old. It was founded in 1872 by W. F. Luxton, and for many

years was printed on a Washington hand press.

John Kirkup is now stationed at Port Alberni. He has been 32 years in the employ of the B. C. government, and is one of the great figures in western life.

In New Westminster, the Columbian will put up an office building at a cost of \$53,800. The Columbian is the second oldest paper in B. C., having been founded in 1860.

James Breen, who built the smelters at Trail and Northport, is running hotels in Helena, Spokane, Portland and other cities. He is still interested in some Boundary mines.

The financial men of Europe are looking toward B. C. for mining investments. This province will soon be producing more minerals than any other part of the British Empire.

TWO CANADIAN TITLES WON BY BOY WONDER

McLean of Chicago Carries Off Half and Mile Championships at Montreal.

Montreal, Feb. 5.—The Canadian outdoor speed skating championships were held Saturday afternoon over the keenest possible kind of ice and, notwithstanding the high wind prevailing, the skaters made fairly fast time. The championships were well divided, the Canadians holding their own against the Americans, though McLean of Chicago was the only competitor to hold two championships. Summary: 220 yard championship—W. H. Jackson, M. A. A. A., won; R. McLean, Chicago, second. Time, 21 3-5. 880 yard championship—R. McLean, Chicago, won; W. Gunderson, Chicago, second; A. O. Sickey, Cleveland, third. Time, 1:27.

440 yard championship—R. T. Logan, M. A. A. A., won; R. McLean, Chicago, second; W. Gunderson, Chicago, third. Time, 1:40 1-5. 440 yard championship (backward)—R. A. Mason, M. A. A. A., won; Dr. Drew, M. A. A. A., second; R. Goodman, M. A. A. A., third. Time, 1:48 1-5. One mile championship—R. McLean, Chicago, won; A. O. Sickey, Cleveland, second; Russell Wheeler, M. A. A. A., third. Time, 3:06 2-5.

Two mile championship—Russell Wheeler, won; A. O. Sickey, second; J. Brunst, Cleveland, third. Time, 7:03. One mile (boys under 16 years of age)—Glenn Allen, Saranac Lake, won; W. G. Marks, M. A. A. A., third. No time.

SIX BULLDOGS ARE VALUED AT \$37,000

Finest Pack of Dogs Ever Imported to America Arrived in New York Sunday.

New York, Feb. 5.—Six English bulldogs, said to be worth \$37,500, which Arnold Lawson, son of Thomas W. Lawson of Boston, brought to the United States from England, are said to make up the finest and most costly pack of bulldogs ever imported into this country. The collection includes Champion Centaur, 4½ years old, which has taken twelve championship prizes and beaten every lightweight bulldog in England. Champion Beamish Blunderbus and Irish Boy were two noted heavyweights in the collection.

A 20 per cent. duty was required on the dogs, but Mr. Lawson hopes to have this rebated on the ground that the dogs have been brought here for improving the native breed.

MONARCH MALLEABLE The "Stay Satisfactory Range."

Better than Ringing Door-bells

A PIANO manufacturer recently made a house-to-house canvass. He's one of those men with an absurd fear of the "waste-circulation" bugaboo—cannot get away from the haunting thought that only 10 out of every 100 readers of a newspaper may be possible buyers of his goods.

So he refused to advertise, and went a-canvassing—inviting people to come to his piano recitals. Then he wondered why they didn't come.

This is why:

He wasn't reaching the people.

His canvassers rang every door-bell in town. They talked to some one in every house.

But one in every household isn't enough—particularly if it doesn't happen to be the right person. And, as a rule, it wasn't the right person—it was a servant, or a child. The woman of the house was seldom seen; the man of the house, never.

Now, if the piano maker had placed an ad. in the newspaper, it would have reached thousands, where the canvassers could reach only hundreds.

And even though only 10 per cent. of the readers are actual piano buyers, this does not mean that the advertising read by the other 90 per cent. is wasted. Advertising talks, not only to the prospective buyer,

but also to his wife, his grown-up sons and daughters, his mother—even his mother-in-law. Their coaxing will help to convince the head of the house—and pretty soon there'll be a piano in that home.

This and dozens of similar cases which might be cited to show that "waste circulation" is an empty bugaboo, and should deter no one.

Take the motor truck. It can be sold only to large firms. Yet a motor truck manufacturer is successfully advertising in daily papers. He realizes that he must reach, not alone the managers of the concerns that require trucks, but also their directors, their foremen, their head machinists, etc. It is found in actual practice that this Advertising radiates in a thousand directions, and again converges most astonishingly to influence the house that has made up its mind that horse-trucking is too costly and inefficient.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write if interested.

LOCAL NEWS ITEMS

Captain P. Rorvik, manager of the Standard Fisheries, left for the south this morning on the Prince Rupert.

John Piercy, of Piercy, Morris & Co., returned to his home in Victoria this morning after a visit of a couple of weeks in this city.

Mrs. Roberson, wife of Captain Roberson of the G.T.P., was amongst the southbound passengers this morning on the Prince Rupert on a visit to Vancouver and Victoria.

Hugh Tooker, of the staff of Ritchie & Agnew, civil engineers and surveyors, left on a short vacation to the south this morning.

M. Albert, of the Westholme Lumber Co., was amongst the passengers going south this morning on the Prince Rupert. He is on a business visit to the company's headquarters at Victoria.

George J. Frizzell left this morning for a short vacation in the gay cities to the south of us. Mr. Frizzell was all smiles at the prospect of his well earned little jaunt.

W. J. Alder, a former resident of this city, who has been paying Prince Rupert a visit for the last ten days, returned to Victoria this morning to rejoin his family. Mr. Alder, who has travelled extensively in both Canada and the United States, says that for a place of residence, not to mention the unparalleled opportunities offered for making money, Northern British Columbia, and Prince Rupert particularly, is the best place he has struck yet.

Among the arrivals on last night's train was Mrs. D. J. McPhee of Telkwa, who was at once taken to the hospital suffering from a serious illness. Although the trip from Telkwa to Prince Rupert was a strenuous one, Mrs. McPhee stood it remarkably well. The sixty mile drive from Telkwa to Hazelton with the thermometer below zero was particularly trying.

F. R. Jessop, engineer with the G. T. P. construction, reached the city on last evening's train, a year having elapsed since he was last in Prince Rupert. Mr. Jessop, who will leave on an extended visit to the lower coast cities in the course of a week or so, is very much struck with the vast progress the city has made since his last visit here. He will make a run over to Masset to visit his brothers, who are residents of the Graham Island capital, before leaving for the south.

The Rev. E. C. and Mrs. Burch are on their way to Los Angeles, California, for a two months' visit, left this morning on the Prince Rupert. The Rev. Mr. Burch, who is rector of St. Andrew's Episcopal Church, has been forced to take a vacation on account of ill health. It is sincerely hoped by the numerous friends he has made during his short sojourn in this city that the change will completely restore him. During his absence the duties of the parish will be carried on by Bishop Du Vernet, assisted by the Rev. W. E. Collison.

Mr. F. S. Long, formerly manager of the local branch of the Bank of British North America, left this morning for Calgary to assume the management of the branch of that institution there. A large number of Mr. Long's friends were on the wharf this morning to wish him goodbye and good luck. During a residence of a little over two years in Prince Rupert, as manager of the Bank of B. N. A., Mr. Long has made a large number of warm personal friends. Previous to coming here he was for a number of years on the staff of the bank in Dawson City, going there first in the palmy days of 1900, when the golden city was at the zenith of its wild and exciting career. In common with all who were there in those halcyon days, Mr. Long enjoyed the bizarre and unconventional life, and looks back upon them as amongst the happiest and most interesting of his career. For some time he was acting manager of this important branch, and not the least of the regrets at his departure from Prince Rupert are those expressed by his many old Klondyke friends now resident in this city.

BASEBALL LEAGUE MEETING LAST NIGHT IN CITY HALL

At the meeting of the executive of the Indoor Baseball League, held last evening in the city hall, the following teams were represented and made application to enter the league: Brotherhood, Men's Own, Tigers and Pirates. The first of the schedule of games will be played at the skating rink on Sixth avenue on Thursday next, February 13th, the opposing teams being the Brotherhood and Pirates. After concluding this business the meeting adjourned and assembled again immediately for the purpose of organizing an association to be known as the Prince Rupert Amateur Athletic Association. It was decided to make application for affiliation with the B. C. Association, which would mean in turn affiliation with the Dominion Amateur Athletic Association. Application has also been made to the G. T. P. for a lease of a park site back of Block 41, Section 5, near Hays Creek. The following officers were elected as heads of the new organization: F. Landes, president; W. D. Vance, secretary; H. J. W. Brooks, treasurer.

E. G. Baxter, Provincial government engineer, with headquarters in this city, left for Victoria this morning on business connected with his department.

H. L. Bodwell, G. T. P. resident engineer, left this morning on the Prince Rupert for Vancouver on business connected with the company.
