SLIGHT HOPE FOR IMMEDIATE PEACE IN MEXICO

BRITISH COLUMBIA FRUIT GROWERS WANT DUTY ON AMERICAN APPLES INCREASED

MEXICAN TROUBLES CONTINUE SLIGHT HOPE FOR PEACE

REBEL ACTIVITY BOTH IN THE NORTH AND SOUTH CONTINUES—ZAPATA DEVASTATES THE COUNTRY—ATTACKED BY MILITARY TRAIN.

(Special to The Daily News.) Mexico City, Feb. 25.—The hope for immediate peace in Mexico seems to be very slight. The rebel activity in the north greatly increased and the government's efforts to enter into arrangements with the followers of Zapata, one of the leaders in the south, have failed. The latter today continued his devastation of the country, burning and raiding. The rebels were attacked for two hours by a government military train.

WANT DUTY ON APPLES MATERIALLY INCREASED

BRITISH COLUMBIA FRUIT GROWERS' ASSN. URGE THAT DUTY BE INCREASED FROM THIRTEEN TO THIRTY-FIVE CENTS.

(Special to The Daily News.) Ottawa, Feb. 25.—That the duty on American apples be increased from thirteen to thirty-five cents per box and that the tariff marks act be enforced against them as rigorously and as effectively as against Canadian apples is the recommendation made by W. S. Fagge of the British Columbia Fruit Growers' Association. "We have all the elements of a crisis at the present time unless we get assistance. Fruit-growing in British Columbia is in a perilous state," he said.

MINISTER OF AGRICULTURE IS SLATED FOR SENATE

W. H. HAYWARD, OF COWICHAN WILL SUCCEED HIM—OTHER CHANGES ARE TALKED OF

Victoria, Feb. 21—Before the sitting of the House there will be a new Minister of Agriculture in British Columbia. Hon. George Ellison has not been satisfactory to the province, and it appears now that he is not entirely satisfactory to the president of the government. It is a certainty at least that he is slated for one of the senatorial vacancies, and already Mr. W. H. Hayward, member for Cowichan, who will succeed him, is undertaking his duties in the House.

Some Other Changes
There are other changes talked of in the cabinet. With the exception of Prime Minister McBride, Mr. Bowser and Dr. Young it is generally realized that there is a woeful lack of ability among the ministers. Mr. Bowser, who is the brains of the outfit, apparently realizes this himself, and as it is becoming evident that at the next election the administration will have to fight for his life, Mr. Bowser naturally wishes to have strong men behind him.

WILL NAME NEW COUNTRY GEORGE THE FIFTH LAND

NEW LAND DISCOVERED BY DR. MAWSON IN THE SOUTH POLAR REGIONS—EXPLORER ASKS KING FOR PERMISSION TO USE HIS NAME.

Melbourne, Feb. 25.—The new land discovered by Dr. Mawson in the south polar regions is to be named George the Fifth Land. The explorer sent a message to the King asking permission to so name the land. The new territory lies between Victoria Land and Adelie Land.

Visitor from Kitsumkalum.
Mr. F. Bohler, one of the pioneer settlers of the Kitsumkalum Valley, spent a few days in the city this week on business. Mr. Bohler is well known in Prince Rupert, having supplied the local market with garden truck and small fruits for several seasons. He has been located at Kitsumkalum for the past nine years. Mr. Bohler says that the coming season promises to be one of much activity in that section.

EX-ALD. H. DOUGLAS BACK IN RUPERT

Says That Many Business Men in Lower Coast Cities Knock Prince Rupert

Ex-Alderman Hamilton Douglas returned this morning on the Prince Rupert from a few weeks' vacation in the south. Most of the time was spent in Seattle, in which city his wife and two grown up sons reside. The late finance minister looks remarkably fit after his pleasant change and is all smiles at the pleasure of finding himself back in Prince Rupert again. Mr. Douglas states that the way many of the business men in the lower coast cities endeavor to knock Prince Rupert is a crying shame. The worthy ex-alderman, when the occasion offered, did his utmost to counteract the many erroneous impressions created in the minds of possible investors and others through these libellous statements.

WILL RESIDE IN RUPERT PERMANENTLY

Increased Business of His Company in Northern B. C. Necessitates Permanent Residence Here.

Among the passengers from the south this morning by the Prince Rupert was Mrs. Alexander Steven with her two little daughters and accompanied by her sister, Miss Greig. Mr. Alexander Steven, who is manager of The Canadian Home Investment Co., Ltd., has decided to reside in Prince Rupert for an indefinite period with his family. This we understand was not Mr. Steven's intention at first but on account of the phenomenal growth of the business of his Company throughout Northern British Columbia during the past six months it has made it necessary for the Company to have a resident manager in this city and also to increase their local staff. There is not the slightest doubt but that the Canadian Home Investment Company can claim to have no small share in the rapid development of Western Canada. Within the short period of twenty months this Company has loaned over \$263,000 and at the present time no less than \$3,000 per day is being loaned to their Contract holders.

CONSERVATIVES ELECTED FOR YUKON COUNCIL

Bye-Elections for North and South Dawson Result in Election of Two Conservatives.

Dawson, Feb. 25.—In the bye-elections today to fill the vacant seats in the Yukon Council caused by the resignation of the former members, Messrs. E. R. Pearce and R. A. McLennan, both Conservatives, were elected for North and South Dawson. The former representatives were A. H. Smith, Conservative, and Jas. Murphy, Liberal.

Mr. Frank S. Evans, managing director of the Prince Rupert Fish and Cold Storage Co., Ltd., arrived in the city this morning on the Prince Rupert. Mr. Evans who has been in London, England, for some months on business connected with the company, was met in Vancouver by Mr. Frank A. Ellis, who has been acting as manager of the company during the former's absence. Mr. Ellis returned this morning also.

MORLEY ELECTED MAYOR OF VICTORIA

Mix-Up in Capital City Has Now Been Cleared Up—City Was Without a Mayor.

(Special to The Daily News.) Victoria, Feb. 25.—The recent mix-up in the mayoralty situation in this city was today cleared up by the election of A. J. Morley. The city has been in the rather unusual position of having no mayor.

DECLINES TO COMMENT ON MEXICAN AFFAIRS

Porfirio Diaz, Now in Egypt, Says He is Quite Aloof.

Cairo, Egypt, Feb. 25.—The statement published in the United States that Porfirio Diaz, the former dictator of Mexico, had returned to Cairo from his trip up the Nile is without foundation. General Diaz, who is still on the Nile, replied today to a telegraphic enquiry with the following despatch: "Luxor, Feb. 22.—I feel I cannot express any opinion on the Mexican situation. My absolute aloofness from the policies of my country precludes me from doing it."

PROFIRIO DIAZ.
The proprietor of the hotel at which he stays in Cairo is in constant communication with General Diaz, and declares he has not heard any expression of his intention of making an early return to Mexico.

BROTHERHOOD WINS THIRD BALL GAME

Men's Own Go Down to Defeat by Score of 35 to 21—Not Up to Previous Games.

The third game of indoor baseball this season at the skating rink was witnessed last night by a large gathering of spectators. The contesting teams were the Brotherhood Cubs and the Men's Own the latter being defeated by the score of 35 to 21. The game was not up to the standard of either of the previous games as the score would indicate. Nevertheless the spectators were provided with a good evening's amusement. The lineup was as follows:

MANY DIFFICULTIES AT SHAWATLANS

Dolphins Carried Away by the Strong Current—Consulting Engineer Returned to City This Morning.

Mr. C. G. Ducane, who was retained some weeks ago by the city council to consult with city engineer Mason in connection with the laying of the water pipe across Shawatlans Passage, arrived in the city this morning. Mr. Ducane, who was here for some little time a short while ago, will now give his assistance in the final stages of the work. In connection with this a good deal of trouble is being experienced in getting the piling driven for the dolphins that are necessary for holding the scows in place in the Passage while the pipes are being laid. The exceptionally strong current that runs there with the ebb and flow of the tide and the nature of the ground in which the piles are being attempted to be driven makes this an extremely difficult task. Mr. Ducane upon leaving for the South the last time was not aware that the difficulties to be surmounted would be as great as they are. Several dolphins placed yesterday were carried away by the current last night, notwithstanding that they were driven fifteen feet and more into the ground.

PREPARATIONS ARE NOW BEING MADE BY FISHERMEN FOR A BUSY SEASON—RUN OF SPRING SALMON WILL BE LARGE.

Already there are signs that this is going to be a banner year in the fishing industry. This at any rate must be the deductions to be arrived at when one hears of the preparations being made on all sides to handle the business this coming season. The Rupert Marine Iron Works have recently sold three Frisco Standard engines to be installed in boats to be used in the fishing business this Summer. One of these of 20 horse power is for a boss Jap fisherman who works for the B. C. Packers Association at their cannery at Naas Harbor. George Ness a well known fisherman of Prince Rupert has purchased a 5 horse power engine, as has also Mr. Matthew Johnston of Port Simpson. The latter reports that there is every indication of there being a phenomenally early and prolific run of Spring salmon this year. Already they are catching them in great numbers on trolls. The herring run this Spring which was greater than was ever known before, is now over, every one of the myriads of little fish having left the harbor. Several hundred tons of the latter were put up this season for halibut bait and domestic use. The Crippen Boneless Herring Co., Ltd., will account for quite a large amount of the catch set aside for domestic use. In this connection it is worthy of note that an excellent picture of Mr. Crippen's exhibit at the pure food congress that has been lately held in Vancouver is to be found in last week's number of the Vancouver Saturday Evening Sunset.

CONTRACTORS AND MEN FOR PORT EDWARD POWER PLANT

THIRTY SKILLED MECHANICS ARRIVED THIS MORNING TO START WORK ON FOUNDATION OF PORT EDWARD PLANT.

Every day fresh evidences of the great activity that will prevail all over this section of the province this coming year is apparent. This morning there arrived on the Prince Rupert Messrs Purdy & Henderson, contractors of Vancouver, who are to build the cement foundations and superstructure of the Prince Rupert Hydro-Electric Power plant at Port Edward. Accompanying the contractors are thirty skilled mechanics, many of whom have been in the employ of the firm a number of years. The party will remain in the city for a day or two, guests at the Premier Hotel, before going to the scene of their future operations. The addition of these men to the working staff of the company will bring the strength up to one hundred.

HUNDRED THOUSAND FOR GOVERNMENT BUILDINGS

PROVINCIAL ESTIMATES INCLUDE LARGE AMOUNT FOR PRINCE RUPERT—\$35,000 FOR MORSE CREEK BRIDGE.

Victoria, Feb. 25.—The estimates brought down yesterday in the Legislature are exceedingly liberal for Skeena district. The appropriations for roads and trails in that district is \$403,000 out of a total of \$9,657,600 for the province. In addition to this there are appropriations for bridges in the district which amount to \$100,000, a decided increase over last year. Provision is made for the establishment of three ferries on the Upper Skeena river at an expenditure of \$4,500 each. There are in addition to the aid to hospitals, schools, agricultural associations and for the civil service salaries and \$35,000 for the Morse Creek bridge, and \$100,000 for the provincial government buildings on Market Place.

MUCH ACTIVITY EVIDENT IN FISHING INDUSTRY

CITY BAND FOR PRINCE RUPERT

Enthusiastic Meeting Held Last Sunday—Permanent Quarters to Be Acquired.

At a meeting, called by Mr. Al. Prescott of the Westholme Orchestra, at the theatre last Sunday, for the purpose of forming a city band, there were seventeen local musicians present. An organization was formed, and Mr. Prescott was unanimously appointed leader. Quarters will be immediately procured for the purpose of band practices, which will also be available at all times, for the use of the members who may desire to do so. It was considered most encouraging to see such a large turnout at the organizing meeting on Sunday, and everything looks favorable for Prince Rupert having a city band, in the near future, that will hold its own with any in the province.

The bargains at Scott Froud and Co.'s will please and surprise you. 48

TWO GOVERNMENTS—
A CONTRAST.

On October 10th, 1911, Premier Borden and his Ministry were sworn in. They have already faced one Parliamentary session and are now toward the end of the third month of a second. It would be hard to point to any useful legislation they have accomplished in that time. The outstanding facts of the Conservative regime so far are the resignation of Hon. Mr. Monk owing to the shuffling over the naval question; the refusal of the government to proceed with the project for building a Canadian navy; the proposition to send a gift of \$35,000,000 to Great Britain, for which they have no mandate, and upon which the country is absolutely divided; the proposition to grant \$10,000,000 in aid to agriculture, a continuation of Liberal policy; the proposition to secure better trade relations with the West Indies, also part of the Liberal policy; the dismissals of thousands of government employees all over the country and the election scandals of Macdonald, Richelieu and Antigonish. The main accomplishments are resignations, dismissals and scandals. Sir Wilfrid Laurier and his cabinet were sworn in on July 11th, 1896. A brief session of Parliament was held from August 19th to October 5th. Then the cabinet settled down to the promised revision of the tariff. They were ready again March 25th, 1897. A month later the famous Fielding Tariff with its beneficent readjustment of duties and the inauguration of the Imperial Preference, which aroused the enthusiasm of the Empire, was brought into effect, and on June 3rd, Sir Wilfrid left for England, where at the Queen's Jubilee and the Imperial Conference he won still greater fame for Canada. This was all within the first year of Liberal Administration.

The change to Borden rule does not seem to have benefited Canada.

NEW CHINESE ALPHABET

Among the more important reforms that have followed the rise of Republican Government in China is the creation of a new alphabet. To the reformers the Chinese language must have proved an almost insuperable obstacle to their plans for infusing into the teeming millions of the Empire their own enthusiasm for the spirit of western progress. With an alphabet of 8,000 characters which the children are forced to memorize before

they can make a beginning at acquiring the thousands of ideograms which in their tongue stand for some sound, some syllable, or some object, the Chinese language was a veritable barrier, more potent than the great wall, to intercourse with the outside world. China has been drawn, by the revolution, into the vortex of international politics. Her chief problems at present are those that affect her relations with other powers. Little wonder, therefore, if the new China demanded the modernization of her alphabet. The change will prove a relief to those who patronize Chinese laundries and who are always lost in amazement at the hieroglyphics by which John Ching seeks to identify his customers.

Joy is reigning in the schools of the Eastern Republic, for a new alphabet of forty-two characters only is to supersede the use of the thousands of queer ideograms. The task of drawing up the new alphabet was entrusted to a committee of learned men in China, including Chow-Hi-Chu, the Secretary of the Chinese Legation at Rome; the Assistant Secretaries, Wan and Chou, and Solonghelo, professor of Chinese and Japanese at the School of Oriental Languages in Naples, and one of the greatest polyglots in the world. This committee made a systematic study of all the alphabets, and have drawn from various languages in the formation of the new alphabet, which consists of twenty-three vowels and nineteen consonants. Of the vowels, four are taken from the Greek, four from Russian, five from Latin, and one from Chinese. Of the nine remaining vowels, two are modified or elongated signs, and seven are reversed ideograms. Of the consonants, fourteen are from Latin, three from Russian, and two from the Greek. With these it is now possible to write all the words used in the common tongue in any part of China. The new alphabet has been enthusiastically received, particularly in the southern provinces, and it will be in general use in official circles by the end of this year.

This reform is one of the most remarkable in the history of letters. It brings China into closer touch with Western peoples. It will greatly simplify the work of missionaries, to whom the language has hitherto proved a great initial difficulty. Awakened China is setting an example in the removal of obstructions to progress which Western nations might follow with profit.—Toronto Globe.

PROVINCIAL GOVERNMENT
HEAPS ON TAXATION

SALMON CANNERS WILL HAVE TO PAY TWICE AS MUCH AS BEFORE—BANKS WILL PAY \$250 FOR EACH BRANCH INSTEAD OF \$125—CHURCH SITES WILL ALSO PAY.

Victoria, Feb. 22.—Salmon cannery packers of cured and pickled salmon, manufacturers of whale oil and the by-products of whales, banks and churches are affected in the shape of increased taxation by the provisions of the bill to amend the Taxation Act which was introduced in the Legislature last night.

Under the present act the cannery of salmon pay tax of two cents per case of output in addition to the taxes they pay on real property, personal property other than salmon and income. The amending measure raises the tax to four cents per case on canned salmon, and while the owners of canneries are also required to pay an additional tax on their real property, they will not hereafter be required to pay taxes on their personal property used in connection with salmon canning, neither will the income derived from this business be taxable.

Milk cured salmon is to be taxed 75 cents per tierce of 750 pounds or under and the taxes for tierces exceeding that weight will be at the rate of 10 cents for each additional hundred pounds. Every person engaged in the curing or pickling of salmon is to be taxed at the rate of 15 cents per barrel of product up to or under 200 pounds weight and he will also pay a tax at the rate of 5 cents per 100 pounds on all dry salted salmon put up.

Manufacturers of whale oil and the products and by-products of whales will be taxed at the rate of ten cents per barrel of forty-six gallons or under for whale oil and at the rate of 20 cents per ton or under of 2,000 pounds to the ton on fertilizer, whale bone and bone meal.

All banks engaged in business in British Columbia, in addition to being taxed on their real and personal property—in the latter case property from which no revenue is derived—shall pay, in lieu of any tax on income from business transacted in the province, or arising therefrom, where only one banking office is carried in the province, the sum of \$1,500. Up to the present the charge has been \$1,000. In cases of banks operating more than one office in the province there shall be paid: For one of such banking offices the sum of

\$1,000, and for each of the remaining banking offices \$250. In the past the tax for additional branch offices has been \$125. In accordance with the promise of the government, made some months ago, the poll tax of \$3 per head on all male inhabitants of age in the province is abolished.

The manufacturers of coke will be benefited by a third reduction in the tax on their output when the bill is passed. Today coke makers pay a tax of 15 cents per ton of 2,240 pounds, and this is to be cut to 10 cents.

The churches are affected in that under the exemption clauses of the old act "every place of public worship with the site thereof" is declared to be free of taxation, while the amending bill strikes out the words "with the site thereof," making the site of churches taxable. This applies, of course, only in unorganized districts.

WOMEN MARCHERS
NEARING WASHINGTON

Havre de Grace, Md., Feb. 22.—After a good night's rest here the little band of suffragettes marched out of Havre de Grace with full ranks this morning for Belair, Md., fourteen miles distant, where it was planned to stay tonight. The hikers seemed eager for the day's tramp and were cheered by the knowledge that they had a good road before them in contrast to the mud through which they ploughed Friday. A brief stop was to be made at Churchville, about midway between here and Belair, for luncheon.

Indian and white trappers report moose in considerable numbers throughout the country. Their presence in this part is accounted for by the extensive operations on the line of the Grand Trunk Pacific.—Bella Coola Courier.

It is hoped that the executive of our local farmers' institute will take the opportunity afforded by the Agricultural and Industrial exhibition to be held at Prince Rupert next fall, and see to it that a good exhibit of local farm produce is displayed.—Bella Coola Courier.

POWERS OF COMPANIES
LIMITED BY PROVINCES

Deputy Minister of Justice Con-
tends That Provinces Have
Right to Limit Powers of
Companies Which
They Incorporate.

Ottawa, Feb. 24.—That the powers of companies incorporated by provincial statute can be limited by the province incorporating them was the contention of Newcombe, deputy minister of justice, in presenting the Government's side of the case bearing on the argument of the Companies' case by the Supreme Court.

A STRANGE COINCIDENCE IN DROWNING ACCIDENT

YOUNG MAN DROWNED IN BELLA COOLA RIVER — FATHER DROWNED SAME PLACE UNDER SIMILAR CIRCUMSTANCES 15 YEARS AGO

A sad accident, unhappily attended with fatal results, occurred on Tuesday afternoon last. The unfortunate victim was a young Indian named Charles Dickens, who while crossing over the Bella River on the ice broke through, with the result that he was immediately caught by the strong current and drawn under the ice. Constable Tuck-

er and Broughton were quickly on the spot and a search for the body was commenced, with the result that same was recovered on Thursday close to the scene of the accident. Strange to say, the deceased's father was drowned under similar circumstances and at practically the same spot 15 years ago.—Bella Coola Courier.

PRESIDENT-ELECT STOOD GAVE HIS SEAT ON TRAIN TO WOMAN HE SAW STANDING

Princeton, N.J., Feb. 24.—The president-elect of the United States gave his seat on a train today to a woman who was standing in the aisle. She was not near him at the time, but at the other end of the car when he spied her, arose, bowed and beckoned for her to take the seat he had vacated. She smiled, thanked him and took it. Governor Wilson made the trip here from New York on an accommodation train. A holiday crowd was aboard and he stood for nearly an hour till the train reached Rahway. He was hardly settled down in his seat when he saw the woman standing and he promptly surrendered it.

MAY SUE WHITE STAR FOR FULL DAMAGES

U. S. Circuit Court of Appeals Decides Point Regarding Titanic Claims. New York, Feb. 25.—The United States Circuit Court of Appeals has handed down a decision which permits relatives of Titanic victims to commence suits immediately against the steamship company for full damages. The decision is a victory for the lawyers representing the claimants. The ruling of the court modifies an injunction issued some months ago by the Admiralty Court, preventing claimants from bringing suits within the year allowed by law. In order to bring the matter to an issue, A. L. Broughtman, a New York lawyer, representing 200 claimants, violated the injunction and was declared in contempt, thereby bringing the issue promptly to the attention of the higher court. Today's decision opens the way for immediate bringing of suits by relatives or heirs of every one of the 1,600 or more persons lost on the ship.

YOU JUST CANNOT BEAT THE IRISH

The Winter League is now gossiping of the possibility of an Indian battery for the New York Giants, if Jim Thorpe, the great athlete, is used by McGraw as a twirler. With Meyers on the receiving end, they will surely form a great battery. But the Irish, as usual, lead them all. Here are some notable batteries in the National list: Irish—Ed. Walsh and Billy Sullivan. Indian—Thorpe and Meyers. German—Ruelbach and Schalk. Hebrew—Peltz and Kling. Polish—Covaleski and Block. Dutch—Liefeld and Onslow. Swede—Walter Johnson and Severoid. French—Dubuc and Dondeau.

ELDER DIAZ WOULD RETURN IN CASE OF FOREIGN INTERVENTION HE WOULD GO TO MEXICO AND LEAD THE ARMY AGAINST OUTSIDERS.

Paris, Feb. 22.—If there is any foreign intervention in Mexico, ex-President Diaz will return and lead his country's army and sacrifice his life for her. So he is quoted as saying by Gonzala Enrile, the emissary here of the Mexican insurgents, who frequently talked with the former chief executive of that country before the latter left Paris for the east. He declared further than this, if the revolution succeeds and foreign interference does not occur, he will eventually return to Mexico, but he is too old to ever think of accepting the presidency again. Porfirio Diaz is still up the Nile, and telegrams for him are held up at Cairo. He is ignorant of the situation in Mexico. He had arranged to go to Mexico to head the movement of General Felix Diaz when the latter's arrest caused him to change his plans and he went to Egypt instead.

COBB AND CRAWFORD STILL HOLDING OUT

Detroit, Feb. 24.—Manager H. Jennings of the Detroit Americans, left here today with the first squad of players for the southern training camp at Gulfport, Miss. Pitchers Mullen and Lake and Shortstop Rush were the veterans accompanying the squad today. Jennings predicted that Outfielders Cobb and Crawford and Pitcher Debut will be in the fold by March 1.

TWO NEW STEAMERS FOR LOWER YUKON

Both Will Be Constructed at Whitehorse—A Busy Season in the Shipyards Is Expected.

Whitehorse, Y. T., Feb. 25.—A telegram from President O. L. Dickeson of the W. P. & Y. R. company, who is now in Chicago, having recently returned from a meeting of the stockholders of the company of which he is president, in London, has been received here announcing the intention of the company to construct two elegant steamers for use on the lower Yukon river, which means the Dawson-Fairbanks run.

It is probable that the new steamers will run only between Dawson and lower river points, connecting at the former place with the same company's upper river steamers. But both passengers and freight will be routed through direct from the outside for all lower river points, the transfer being made at Dawson.

While it is a bold move on the part of the W. P. & Y. R. people to enter a territory which has so long been monopolized by the lower river combine, the Northern Navigation and the N. A. T. & T. companies, the class of steamers it is proposed to put on and the superior service which will be given, is bound to get the business. In fact, there is a treat in store for the people of the lower Yukon country, who have been the victims of a monopoly in matters of transportation ever since the country was opened up.

Both steamers will be built at the local shipyards, work being started on them about March 1st. It is expected that the largest force of men employed at the shipyards for several years will be at work this season.

MATRIMONIAL.

Schafer-McDonald.
Mr. John Schafer, proprietor of the Prince Rupert Dairy, and Miss Jean McDonald, late of the hospital staff, were united in marriage last evening by the Rev. W. H. McLeod, Baptist minister, at their future home on the corner of 6th Avenue and McBride Street. Mr. Henry Schafer and Miss Sarah Schafer, brother and sister of the bridegroom supported the contracting parties. A large gathering of friends of the young people were present to take part in the ceremony. A splendid wedding supper was provided and a most enjoyable and happy evening was spent, healths being drunk and best wishes expressed for long life and happiness to the newly wedded pair.

OBSCENE LANGUAGE COST TEN DOLLARS

Recent Arrival from Grimsby Did Not Adhere to the King's English on the Street.

George Davis, one of the recent arrivals on the Canada Fish and Gold Storage Co.'s steam trawlers from Grimsby, England, was fined \$10.00 and costs this morning in the police court by Magistrate Carss for using obscene language upon the streets. Trouble between himself and other members of the crew who had been drinking together at the Premier Hotel culminated in a general row in which the accused apparently played a star part.

An amusing case in which a man by the name of Alfred Stanley sought to get payment of wages claimed by him for losing after city poundkeeper O'Brien whilst the latter was slightly under the weather also came up before His Worship for adjustment. It transpired that Tom was not in any very serious danger and the actions of the complainant were considered by the pound keeper more in the light of a Good Samaritan act than as services performed as between employer and employee. After considerable amusement had been caused the court by the evidence adduced on both sides His Worship dismissed the case.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 29.858; maximum temperature, 41; minimum temperature, 28.

When the People Refuse to Pay

EVER since King John signed the Magna Charta the people have been discovering new rights and asserting them.

Long ago the people learned how to get what they wanted—by the simple expedient of "refusing to pay."

In the days when kings played "war" with one another the people could always put a sudden end to the fun by "refusing to pay."

To-day, when men play the great game of business, they have to depend on the people, even as did those kings of long ago. When the people stop payment, the game ends.

Of high importance is "the right to know" as applied to modern commerce. The people have found they want a "reason why" before they buy.

We awoke to this fact but a short while ago, when a few manufacturers began to tell us some of the things they thought we should know about their goods. They were the pioneer advertisers.

Soon the world discovered that it had an appetite for facts. And in the re-adjustment of things for the proper satisfaction of this appetite, we have developed a new science—its name is "Advertising."

Now that we have learned there is a way of telling us we demand to know. By the exercise of a power that has never failed—the refusal to pay unless satisfied—the people have set up a new order of things. The manufacturers and merchants are telling us everything we want to know—through Advertising.

When we buy soap, we must know "Whose soap?" "How is it made?" "What are its properties?" "What are its uses?" "Wherein does it excel?" The Advertising tells us.

It's the same with well-nigh everything we buy—food, clothes, furniture, pianos, automobiles. We will have the facts about these things—or we will refuse to pay.

We, the public, have created a new world force. We call it "Advertising."

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.
