SURF INLET MINES HAVE A PROMISING FUTURE

OLD VALUES AVERAGE \$15.00 PER TON—DEVELOPMENT WORK HAS BEEN GOING ON STEADILY—CYANIDE PLANT LIKELY TO BE INSTALLED.

Reliable and authentic information as to the progress of the mining industry in the neighborhood of Princess Royal Island was brought to the city yesterday. Mr. F. M. Wells, superintendent of the Surf Inlet Mines Co., Ltd. This company owns a group of eight claims located on the west side of Princess Royal Island, just opposite Swanson Bay. Three years ago the property was bonded by Mr. Wells, to whom was associated Mr. A. E. Clabon, from Mr. A. E. Cleveland of the firm of Cleveland and Cameron, civil engineers of Vancouver. The present company was then formed in the latter part of the year, and consisted of a number of well known and eminent business men taking the lead. Mr. Wells then took charge of the operations on the property, which has employed an average of twelve to fifteen men ever since.

The mine is situated six miles back from the water, the property can be reached in a couple of hours by means of a chain of lakes. The property, which carries gold values principally, is known among the miners as a milling and cyanide proposition. From a number of tests that have been made it has been proved to be peculiarly adapted to this process, requiring an extremely high saving without concentration.

Two thousand feet of underground, together with a large amount of surface work, has already been done. This development work has been mainly directed towards following the vein of the hill, which has at present been done for a distance of 650 feet. The ore body shows continuously. Several complete crosscuts have been made of from 10 to 20 feet in width. The last one completed was at a depth of 600 feet and crossed an ore body 20 feet in width. This ore was found upon testing to carry gold values of from \$8.00 to \$35.00 a ton, making an average of about \$15.00. At a conservative estimate it has been shown that a nice profit can be made out of \$5.00 a ton ore handled by a milling and cyanide plant with a daily output of 200 tons. From a point in a tunnel 400 feet into the hill an upraise is being driven that will probably be completed about the end of May. This will be the means of showing the ore in a properly blocked out shape when a pretty close estimate can be made of what they will have to work upon. The mill and cyanide plant will then probably be installed and operations proceeded with in an active shape.

Mr. Wells who paid a visit to the Daily News yesterday had a very fine sample of ore taken from the property. He is very enthusiastic about the future of the mining industry in Northern B. C. and particularly of the great showing on Princess Royal Island. The success attained by his company is bound to lead to the development of several other properties that are known to be of great value on the island. Mr. Wells, who is an experienced and thoroughly posted mining man, can be relied on to give a perfectly correct and conservative opinion about any property he has anything to do with. His knowledge of this part of B. C. has been gained from a number of years spent right on the ground.

The Surf Inlet mines are located about one hundred miles south of Prince Rupert.

Mr. Gaitz, of Seattle, who is associated with Mr. Stirrat in the dry dock construction returned south this morning, after spending a few days in the city.

READY MARKET IN PRINCE RUPERT

Queen Charlotte Poultry Men Find a Ready Market for Eggs in Prince Rupert at Good Price

Fred and Iver Mattock, who have a place on Lena Island not far from Queen Charlotte, are two of the most industrious farmers in this part of the country. Through their efforts in clearing land and getting it under cultivation they have demonstrated what can be accomplished when the right men undertake the work. The Mattock brothers are making a feature of poultry. Just now they have 300 chickens, from which they get an average of six dozen eggs a day. For these eggs they find a ready market at Prince Rupert at 50c a dozen.—Queen Charlotte News.

HALIBUT FISHING HAS GREAT FUTURE

Retail Price in Prince Rupert is Less Than Half Price in Atlantic States—New England Fisheries Depleted.

In the matter of fish, especially fresh halibut, British Columbia prices are less than half of those of the eastern states of America. According to quotations at Boston and Gloucester, Mass., halibut fetched the record price of 25 cents per pound, while the British Columbia fish sell in Prince Rupert for 10 cents.

Eastern advices say that Gloucester which flourished for so long as the centre of the New England fisheries is all but deserted and with the completion of the new docks at Boston the little trade that still exists will go.

On the other hand while the Eastern fisheries are becoming fast depleted the British Columbia halibut grounds are but opening up. New companies are preparing to operate from Vancouver and Prince Rupert and the Queen Charlotte banks may soon be called upon to furnish the supply for America.

The property loss is estimated at upwards of a hundred thousand dollars.

ANOTHER LOAN COMPANY TO OPEN OFFICES HERE

NATIONAL LOAN AND INVESTMENT CO., LTD., WILL HAVE A PERMANENT OFFICE IN PRINCE RUPERT.

Mr. E. A. Jensen, provincial manager for the National Loan and Investment Co., Ltd., of Vancouver, is in the city for the purpose of making arrangements to take over the contracts issued by the International Home Purchasing Contract Co., which recently went into liquidation. Mr. Jensen informed the "News" today that his company is willing to take over all of these contracts allowing the contract holders everything they have paid in to the Company. Naturally a new contract will have to be made but Mr. Jensen says that the terms of the contract which they will issue are more favorable to the contract holder than in the contract issued by the I. H. P. Co.

Mr. Jensen is favorably impressed with Prince Rupert and says he has decided to open a permanent office here.

LESSONS ON IMPERIALISM DEDUCTED FROM BOER WAR

DAUGHTERS OF THE EMPIRE CELEBRATED PAARDEBURG DAY BY LISTENING TO ADDRESS ON BOER WAR BY REV. F. W. KERR.

The thirteenth anniversary of the Battle of Paardeburg was celebrated in a most fitting manner by the Daughters of the Empire yesterday afternoon. Twenty-four members of the chapter gathered at the residence of Mrs. P. I. Palmer and listened with rapt attention while Rev. F. W. Kerr gave a most inspiring address upon the events prior and subsequent to the battle, its cause and effect upon after history. Mrs. McClymont, the vice regent, in a few well chosen words introduced the speaker. Mr. Kerr's opening remarks paid a high tribute to the Canadian soldiers, who, he said, perhaps displayed more bravery than any others in the war. He said that the Battle of Paardeburg was the crowning victory in the Boer war as at its conclusion Gen. Cronje surrendered to the British, which practically shattered the Boer hopes and thus ended the contest. He pointed out that victory for one side meant defeat for the other and said that the time had passed when victories were celebrated. He also spoke of the passing of such things as Johnny Cannuck and the Soldiers of the Queen. History was no longer a series of battlefields and the day of the survival of the fittest should be far behind us. Imperialism no longer meant territorial or commercial expansion. Such ideas were too small and should not be attempted in a spirit of self-exaltation.

The reverend gentleman referred to the events which were instrumental in bringing about the South African war, and spoke of the instantaneous answer to the call to arms, which came from our own Dominion. He referred to the courage displayed by both officers and men on the field of battle which perhaps was after all, not as great as that shown by Capt. Scott and his heroic band in the Antarctic regions. He said that while everyone deplored the fact of the South African war and while many considered it unnecessary it was really a necessity in order that the self respect and prestige of Great Britain should be maintained in the Transvaal and Orange Free States.

Gen. Kitchener consolidated the Free States on May 31st, 1902. A peace was arranged, and Louis Botha became premier two years later and on May 31st, 1910, a union was consummated similar to the confederation of the different provinces of our own Dominion with corresponding self government.

In justification of the war the speaker drew attention to the immense quantity of new life which poured into the South African Dominions, the large industrial and social development, which are always incentive to self development. The gifts of nature belonged to those who could use them and the same argument might be applied to the Indians of our country who while they might be thought to be the real owners of the land were not in a position to make use of their possessions.

In speaking of the results of the war in its relation to Canada, Mr. Kerr said it stimulated nature.

AUSTRALIA

The World of Toronto, a
Conservative paper, edited by a
Conservative member of Parli-
ment, W. F. Maclean, says:
The younger are young Aus-
tralian to train for the Com-
monwealth navy that candi-
dates for the Royal Navy Col-
lege were selected by ballot.
It seems that in the common-
wealth there were those who
anticipated and asserted that
sea service would be unpopu-
lar. They have been proved
wrong in their surmise, and
there is little reason to be-
lieve that the service would
not have equal appeal in Can-
ada.

The Australian Govern-
ment has taken pains to en-
sure that the lads entering
service on the training ships
are made comfortable, so that
the service shall be con-
siderably popular. Pay rates
on the training ship have been
fixed at \$2.62 per week for
first class, and \$1.75 per week
second class. Pocket money
on amount of service pay in
allowed on scale ranging up
to \$50 weekly, and the balance
is placed to the credit of each
boy in the Commonwealth
Bank.

But in Canada, according to
Mr. Maclean's parliamentary
colleagues, men could not be
secured to man Canadian war
ships. We can only show our
loyalty to help in the defence
of the Empire by presenting
empty ships—built with money
borrowed in England—to Great
Britain.

If the contention of the
Government be true we Can-
adians must be the poorest
of the Anglo-Saxon
race at present alive. Our
country in Australia can build
and man a navy; and the kind-
red nation to the South, un-
der practically identical con-
ditions with those prevailing
in Canada, have the second or
third largest navy in the world.
But all we Canadians can do is
to borrow money for ship-
building purposes and then
give it back to the people from
whom it is borrowed.—Mani-
toba Free Press.

UNITING FOR
PEACE

A correspondent writing in
one of the English papers, and
professing to speak for organ-
ized labor in Canada, seeks to
dispel the illusion that the offer
of the Canadian Govern-
ment represents the united
sentiment of Canadians. Or-
ganized labor in Canada, the
correspondent declares, is
solidly against the spread of
jingoism and the growth of
armaments.

We are not aware on what
authority the correspondent
presumes to speak for organ-
ized labor in Canada, but it
would not be surprising to
learn that he speaks correctly.
Organized labor throughout
the world is arranging itself
on the side of international
peace and against the spread
of jingoism and the insane
and ruinous competition in
the development of armaments.
Workingmen throughout the
world are learning the lesson
which bitter experience has
been teaching down through
the ages, that whoever may
gain by the waging of wars
and the maintenance of huge
armies and navies, the work-
ingman loses.

A most significant sign of
the times is to be found in the
fact that organized labor in
both Germany and England is
meeting the attempts of the
jingoists and swash bucklers
in both countries to stir up
strife, by drawing together for
the purpose of promoting
peace. The labor represen-
tatives in the parliaments of
both countries have joined in
a declaration the spirit of
which is shown by the follow-
ing paragraph: "The work-
ingmen of Germany do not en-
tertain any hostile feelings
for England, nor do the Eng-
lish workmen for Germany.
Most determinedly they stand
against all those who incite to
war in both countries. They
do not demand an increase in
the capitalistic competition in
armaments, but its abolition;
not an incitement to war, but
a mutual understanding be-
tween both nations."

Wars may still be inevitable
and preparations for war may
still be necessary; but it is
very important that those
whose interests are best pro-
moted by the maintenance of
peace should be heard as dis-
tinctly and as emphatic as
those whose interests are ser-
ved by the making of wars and
the development of arma-
ments.

The canning of crabs will be en-
gaged in before the salmon sea-
son commences. The crabs at
Naden Harbor are the largest in
the waters of the Pacific, and are
plentiful.

RUSSIAN EXILE A SUICIDE

"No Honest Person in World,"
Farewell Word of Man Who
Escaped from Siberia.

Chicago, Feb. 26.—Count Fran-
cois Von Fetting, a Russian,
died, a suicide, today in St. An-
thony's Hospital. He had escaped
from Siberia, where he had been
exiled by Russia. His name and
title were found in papers opened
by the police today. He shot
himself two days ago in a pub-
lic park. A photograph of the
dead man, found among his ef-
fects, was inscribed, "To my son,
Ladislav Von Fetting, Granite-
ville, Mass."

Count Von Fetting appeared
not to be in want of money.

"I have found no honest per-
son in the world," was an ex-
pression in one of the letters
written in the Russian language,
which Von Fetting wrote shortly
before he shot himself. He had
been living alone in this city for
several months.

AGED WOMAN FATALLY
BURNED IN EXPLOSION

Was Heating Coal Oil on Stove
Preparing Lotion for Her
Husband When Oil
Ignited.

New Westminster, Feb. 24.—
By an explosion of coal oil, which
she was heating on a stove at her
residence, 1412 Fifth street, a
well known resident of New
Westminster, Mrs. S. F. Holt,
was so badly burned on Friday
last that she died of her injuries
on Saturday afternoon.

Mrs. Holt, who was aged 85,
was preparing a lotion for her
husband, a sufferer from rheuma-
tism, when in some manner the
oil spilled on the stove and
caught fire. The woman was in
her nightdress and this quickly
became ignited. Her screams
brought her husband and her
grand-daughter, Miss Margaret
Smithers, to her assistance and
both were seriously burned about
the hands in extinguishing the
flames. Mr. Holt's condition is
regarded as critical.

Much sympathy is felt for the
family especially for Miss Smith-
ers who was to have been mar-
ried yesterday. Mrs. Holt leaves
two daughters, one Mrs. Smith-
ers, who resides in New West-
minster, and another, Mrs. But-
terfield, now resident in Califor-
nia.

THIRD PRESIDENT OF
MEXICO TO BE SHOT

Madero Not the First Mexican
Ruler to be Executed

New York, Feb. 26.—With the
killing of Madero and Saurez in
Mexico City, the list of those who
have paid the fatal price of rul-
ing Mexico is increased to seven
names, since just a little more
than a century ago, when Miguel
Hidalgo Y Costilla, the parish
priest of Dolores, arose as the
"Liberator" of Mexico and clutched
control from the feeble
hands of the Spanish viceroy.

An obscure parish priest, Hid-
algo conspired with his own parish
in 1810 and in the fall of that year,
when he rang the bell of his
church to call the people to war
an army of 50,000 rallied to his
standard. He pressed on toward
Mexico City with constantly in-
creasing numbers until he had a
following of 100,000 patriotic
but undisciplined men. A force
of only 6000 veteran soldiers of
Spain delivered a crushing de-
feat in January, 1811, and drove
Hidalgo to the mountains, where
he waged guerrilla warfare until

he was caught and shot in July,
1811.

The list of presidents and em-
perors of Mexico who have lis-
tened last to the rifleship" thus
opened, is as follows:

- Miguel Hidalgo Y Costilla, Li-
berator, 1811.
Jose Maria Morales Y Pavona,
president 1815.
Francisco Xavier Mina, presi-
dent.
Augustin de Iturbide, emperor
1824.
Maximilian, Archduke of Aus-
tria, Emperor, 1867.
Francisco I. Madero, president
1913.
Jose Pino Saurez, vice-president
1913.

CHAMPION PLAYING IN BRILLIANT FORM

Melbourne Inman Created Three Records with One Break Against Diggle. Vancouver, Feb. 26.—Melbourne Inman, world's champion English billiard player, who delighted hundreds of Vancouver enthusiasts last season by his wonderful playing in exhibition matches in the Terminal City, is playing better now than at any time during his career as a professional. His form this season has created quite a sensation in the old country, but his latest achievement of 787 against E. Diggle in the \$5,000 tournament at Soho Square, London, ranks with the best breaks made by any of the stars in recent years.

In compiling 787 Inman did not make the highest break recorded by any player. He made a new world's record with ivory balls under the present playing rules, beat all previous breaks in the tournament and established a new personal record. The champion's previous best effort under any rules was 625, compiled against Harry Stevenson in 1909.

The Sporting Life gives the champion great credit for the break and most of the old country critics class it as equal to Stevenson's record of 1,016 with bonzoline balls as all of the professionals acknowledge that it is much easier to keep the bonzolines under control than it is to keep strings attached to the ivories for such a long period. Inman played open billiards right through the break and did not stop long enough at any time to make it monotonous to watch by playing one particular stroke. He played the all-round game right through and this fact makes the run all the more meritorious. A curious feature about the new record is that it all started off a fluke and Diggle did not hesitate to remind the champion later in the game about this fact. Inman's playing against Diggle on the third day of the match was wonderful. In six consecutive visits to the table he scored 1,467 points and averaged 244 1-2 each visit. His breaks were 134, 127, 66, 140, 213 and 787.

THEY DON'T THINK MUCH OF LUTHER

Luther McCarty is giving the East a peek at him and from what they say the giant who whipped both Jim Flynn and A. Palzer will not do in a championship role. McCarty fought young Al Kaufman in St. Louis recently and this is what John E. Wray says about him: Summarized, McCarty's showing displayed the following weaknesses: He boxes flat-footed. His right hand is either useless or was held back against Kaufman, save for an occasional uppercut. His best asset, a straight left, is not straight, but a half hook. He uses entirely too much foot work for a big man. He has no snap to his punch. He lacks a restful fighting pose. He does not carry the fight well, but is at his best when his opponent rushes.

HARBOR MASTER'S POWERS

Enlarged by Order-in-Council Passed at Ottawa. Ottawa, Feb. 24.—An order-in-council has been passed amending the regulations which have been in force up to the present time relating to the administration of public harbors. It gives a harbor master more complete control over explosives or inflammable or dangerous goods. He shall have the power to decide whether any particular goods are dangerous, and to direct when and where they are to be loaded or unloaded. Any one disobeying the orders of a harbor master in regard thereto shall be liable to a penalty not exceeding one hundred dollars, and in case of continued violation further penalty not exceeding \$1,000 for each twelve hours.

FORT GEORGE BOXER IS CHARITABLE

Insists that His Winnings in St. Patrick's Day Fight Go to Charity. Final arrangements for a bout between the heavyweight fighters, Savoy and Sheridan, were made in The Herald office on Wednesday last. All differences were smoothed aside by the assembled fight fans, and it is announced that the bout will take place in the Fort George theatre on March 17th., St. Patrick's day.

The terms of the contest are to result in seventy-five per cent. of the gate receipts to the winner and twenty-five per cent. to the loser. Training expenses will be allowed. Sheridan holds an amateur record of champion of New York and Boston. He insists that it is to be understood that his winnings in the bout will be donated to charity, as he does not intend to enter the ring except in the amateur class. He fights for the love of the game. Great interest is exhibited in the event in sporting circles, as both men are known as clever boxers of the first class. The only detail of the arrangements which has not so far been complied with is the covering of a \$500 bet on Sheridan, placed by his backers.—Fort George Herald.

MEN WHO FOUGHT AGAINST CUSTER

Twenty-nine Indian Chiefs Take Part in Ceremony at New York. New York, Feb. 26.—Twenty-nine full-blooded Indian chiefs from western reservations, bedecked in the regalia of their rank, marched stolidly up the hill at Fort Wadsworth, Staten Island, today, with their "Great White Father," President Taft and members of his official family. At the crest of the hill, the highest point on the Atlantic coast between New York and Florida, they formed a silent group as the President upturned a spadefull of earth, breaking ground for the National American Indian memorial, a sixty-foot bronze statue of an Indian warrior which will tower 165 feet above the highest elevation around New York harbor, a tribute to a vanishing race. The guns of a fort roared a national salute of twenty-one guns at the moment the President placed his foot on the spadefull. As he stepped back, Chief Hollow Horn Bear of the Yankton Sioux, came forward from the gathering and upturned a second bit of earth with the thigh-bone of a buffalo. That done, the chief replied with a speech to an address by the President. The gathering of the Indians marked the last time, perhaps, that so many native chiefs will assemble in the east. Most of them are between 75 and 80 years old. Some of them fought against Custer, among these being Chief Hollow Horn Bear, who stands six feet four inches tall, and Chief White Man Runs Him, more than seventy years old, tall, straight as a pine tree, and one of the finest specimens of the Indians alive today.

BULLET TAKEN FROM HEART

Rare Operation Performed by Montreal Doctor—Patient, Shot by Son, Expected to Recover. Montreal, Feb. 26.—At the Royal Victoria Hospital today, Dr. George Armstrong performed the rare and remarkable operation of removing a bullet from the pericardium, or outer membrane, of G. Colangelo's heart. Colangelo was shot by his son during a quarrel last Sunday. The bullet was located by means of an X-ray photograph, and the only hope of saving the patient's life was by an operation. Late tonight the patient was progressing favorably and his ultimate recovery is looked forward to.

Pictures of Kilbane-Attell Fight for World's Featherweight Championship.

Fight fans will be out in force tonight at the Majestic Theatre to view the great three reel feature film 3000 feet in length, of the fight for the world feather weight championship between Kilbane and Attell. This great battle which was an exceptionally clean one, comes out remarkably clearly in the moving pictures, and should prove of immense interest to the lovers of the noble art of self defense. Besides the feature film, there will be shown a capital English comedy picture together with a heavy scenic drama. Mr. Witt manager of this cosy little theatre is to be congratulated upon his energy and enterprise in securing such first class bills as are being shown at present. Standing room only will be the sign outside, this evening for a certainty.

RELIEF IN SIGHT FOR COAL FAMINE

Relief is in sight in the matter of the coal famine that has existed in the city during the last week or so. This morning at 10 o'clock the S. S. Bertha of the F. W. Swan Co. of Seattle arrived in the harbor with a cargo of 300 tons of coal. She proceeded immediately to the Cold Storage Co.'s dock at Seal Cove, where she will unload 200 tons for the Atlin Construction Co. The remaining 100 tons is for Rogers and Black, and will be unloaded on the G. T. P. wharf. This firm has an additional 200 tons due to arrive this evening on the British Columbia. The Prince Albert is also in port with 200 tons for the Atlin Construction Co. Next week the S. S. Amur is expected with a cargo of 800 tons for Rogers and Black. The latter firm is announcing through the press their preparedness to take orders to deliver coal to their customers tomorrow.

ADEQUATE DEFENSE OF PACIFIC SUBJECT OF CONSIDERATION

PREMIER OF AUSTRALIA WILL MAKE EFFORT TO HAVE CANADA FALL IN LINE WITH SISTER COLONIES.

Melbourne, Feb. 27.—With the approach of May political campaigns are commencing throughout Australia with great vigor, and a determined effort is being made by the Labor party to again occupy the federal benches, while an equally determined attempt will be put forward by the Liberals to oust their opponents from the coveted seats.

Free trade and protection, it now appears, are to be the principal policies on which the opposing parties will appeal to the country for support during the general federal elections.

The Melbourne Age is at present running a series of articles demonstrating that Australia is losing millions of pounds annually in wages owing to the defects in the present tariff.

The paper is making an urgent appeal to the Liberal party to reject all free trade proposals, and to help Australian industry by encouraging a strong tariff.

PIRATES WERE BEATEN BY BROTHERHOOD CUBS

THE MOST EXCITING GAME IN THE SERIES WAS PLAYED LAST NIGHT—PIRATES AND CUBS NOW STAND EQUAL CHANCES.

By the handsome margin of 19 points to 9 with an innings to spare the Brotherhood Cubs defeated the Pirates last evening, at the Indoor Baseball league game played at the Skating Rink on 6th Avenue. This puts the Cubs a tie with the Pirates for first place up to the present. The match, which was of a very exciting character, was witnessed by a large crowd of spectators, there being nearly a hundred paid admissions, besides the regular season ticket holders who number about fifty. The Pirates who, until their defeat last night have had an unbroken series of victories to their credit, were somewhat surprised to have the Brotherhood Cubs put it over them to the tune of ten runs last evening, besides the regular season ticket holders who number about fifty. When the People Refuse to Pay

EVER since King John signed the Magna Charta the people have been discovering new rights and asserting them.

Long ago the people learned how to get what they wanted—by the simple expedient of "refusing to pay."

In the days when kings played "war" with one another the people could always put a sudden end to the fun by "refusing to pay."

To-day, when men play the great game of business, they have to depend on the people, even as did those kings of long ago. When the people stop payment, the game ends.

Of high importance is "the right to know" as applied to modern commerce. The people have found they want a "reason why" before they buy.

We awoke to this fact but a short while ago, when a few manufacturers began to tell us some of the things they thought we should know about their goods. They were the pioneer advertisers.

Soon the world discovered that it had an appetite for facts. And in the re-adjustment of things for the proper satisfaction of this appetite, we have developed a new science—its name is "Advertising."

Now that we have learned there is a way of telling us we demand to know. By the exercise of a power that has never failed—the refusal to pay unless satisfied—the people have set up a new order of things. The manufacturers and merchants are telling us everything we want to know—through Advertising.

When we buy soap, we must know "Whose soap?" "How is it made?" "What are its properties?" "What are its uses?" "Wherein does it excel?" The Advertising tells us.

It's the same with well-nigh everything we buy—food, clothes, furniture, pianos, automobiles. We will have the facts about these things—or we will refuse to pay.

We, the public, have created a new world force. We call it "Advertising."
