### THE WORKINGMAN'S INTEREST

What the contribution of \$35,000,000 sent to England instead of the Laurier policy of a Canadian built navy means to the Canadian working man was clearly set forth by Mr. F. F. Pardee during the naval debate as follows:

Hon. gentlemen opposite say that they propose to send to Great Britain \$35,000,000. a large sum. What does it mean? If sir, my information is correct, seventy per cent. of that \$35,000,000—that is \$24,-000,000-will go into the pock ets of wage-earners. If that goes into the pocket of the workingmen, surely it is going to benefit practically every other class of the community. and, above and beyond all-a solace to the hon, gentlemen opposite - surely with that great band of industrial work-

THE INDIAN'S FAREWELL TO HIS CANOE.

To the swelling, and the falling, and the dancing of the tide!

Shall we race the wave together with the seagull by our side.

With the favour of good hunting, the fair promise of the year.

When the Haidas (1) brought thee over,

From thy home within the forest. Thus to me thou didst appear

Of thy graceful lines and motion, as thou floated by the shore:

With the hope that I might win thee:

And to call thee mine I parted then with all my worldly store.

From a pile of lifeless lumber, as the Whiteman builds his boat;

Thou wast cradled-grew as seed are

Germed by Nature, fed and nurtured, then by man just set affoat

Long we've cruised the coast together.

And have fronted death united half a dozen times or more:

Weathered wind and wave with joyance,

As with prow uplifted proudly thou didst ride the gale before.

Now the times have changed around us.

When to the swift the race is, and the spoils are for the strong.

And accept the proffered challenge which the world has brought

along.

And my soul's imbued with sorrow as the bushes close thee round

That the stern necessity of life should leave thee here aground.
