### BRITISH STEAMER WRECKED OFF THE COAST OF FLORIDA--MEXICAN REBELS VICTORIOUS

#### BRITISH STEAMER ASHORE; PASSENGERS WERE SAVED

OVER ONE HUNDRED IMMIGRANTS FROM SPAIN TO CUBA ARE TAKEN OFF BRITISH STEAMER LUGANO.

(Special to The Daily News.)  
New York, Fla., March 9.—One hundred and sixteen passengers, of whom were immigrants from Spain to Cuba, with the exception of two first class

passengers, were taken off the British steamer Lugano, which went ashore on Ajax reef, off the Florida coast, by the tug Rescue today. The extent of the damage to the vessel is not known.

#### PROVINCIAL SECRETARY IN THE CITY TODAY

His Way to the Newly Discovered Gold Fields North of Teslin Lake.

Among the passengers on board Princess May, northbound to was Hon. Dr. Young, Provincial secretary, who is en route to the scene of the latest gold discoveries to the north of Teslin in what is described as the inaccessible part of the provincial wilderness. It is for this camp that virtually the entire population of Atlin, from which it is distant about 1500 miles, has stampeded, and while as yet is known of the extent of the discoveries, it is regarded as at least distinctly promising that the two pioneer prospectors of the Atlin region, who have been in the new ground since they emerged only long enough to buy and take back their several tons of supplies. The minister expects that a meeting will be convened on as he reaches the isocamp, and plans made upon which he will appoint on the spot and other essential officials to preserve order, enforce law and transact properly the usual and necessary business of the district.

During Dr. Young's absence the capital the Premier will attend to the duties of the offices of provincial secretary and minister of education. Hon. Mr. Young will again take up the duties of the ministries of agriculture and agriculture while Mr. Ellison is convalescing. It is improbable that the resignation will come to Victoria for six or eight weeks at the latest.

#### MONTHS FOR MAIL DESTROYER

Magette who Put Phosphorus in London Pillar Boxes Sent to Prison

London, March 8.—Alice Stevens, alias Ethel Slade, a mill-suffragette, was sentenced to six months imprisonment for the Old Bailey sessions on a charge of having placed glass containing fluid phosphorus in pillar boxes. The judge excluded all women from the court during the hearing despite the voluble protests of Miss Stevens, who alleged that it was an injustice not to have a case reported by a woman reporter. The name of Ethel Slade was sentenced to four months imprisonment in London for damaging windows.

Sidney Smith, managing director of the Atlin Fisheries, left on Saturday evening for business visit to Vancouver on the Princess Beatrice. In his absence Mr. W. Cummer will have charge of the business affairs of the company.

J. Simpson, a pioneer of the Upper Yukon, and through the city this morning on the Princess May, en route to Whitehorse, Y. T.

#### WM. JENNINGS BRYAN FAVORS RECIPROCITY

New Secretary of State in U. S. Cabinet Strongly Endorses Reciprocity.

(Special to The Daily News.)  
Washington, March 9.—The new Secretary of State, William Jennings Bryan, yesterday declared himself as strongly in favor of reciprocity with Canada.

#### DUKE AND DUCHESS SAIL NEXT MONDAY

London Despatch Says Earl Beauchamp Will Be Next Governor-General of Canada.

Ottawa, March 10.—Their Excellencies the Duke and Duchess of Connaught will leave the middle of this week and will sail from Montreal for England on March 17. The Duke expects to return shortly.

London, March 10.—It is believed here that Earl Beauchamp will succeed the Duke of Connaught as governor-general of Canada.

#### ENDED IN DRAW

Scotland and Wales Soccer Equals Unable to Score

London, March 7.—The international association match between Scotland and Wales at Wrexham ended in a scoreless draw. The game was played under somewhat unfavorable conditions, and cannot be said to have risen above the ordinary. Thompson, the Scottish centre half, did splendid work, although he was not at his best. Orrock and J. Walker were also good, the latter frequently checking Meredith, the famous Welshman. To Brownlee, the goalkeeper, however, Scotland owes its immunity from defeat. For Wales Meredith, Wynn and Davies played well, while Vizard's work was splendid. On the whole, there was more combination method among the Welsh forwards, who, however, showed lack of ability to press their attack successfully.

#### Pleasure Seekers Rescued.

Four well known young people of the city, two ladies and two gentlemen, who went boat riding yesterday afternoon became storm bound just across the harbor and feared that they would have to camp out for the night. Rain starting to come down pretty heavily and the wind blowing at 90 miles an hour, there did not seem to be much choice in the matter. However, a friendly motor boat hove in sight and noticing their dilemma came to the rescue in the nick of time. In a few brief moments they were on board the launch and hieing back to home and supper, all their troubles forgotten and nothing but smiles and thanks for their opportune rescuers.

Come and see our brass ware. Our sale prices will compel you to buy. J. D. Allen Photo Co., 6th street. 57-59

## PRINCE RUPERT LIBERALS HELD ROUSING MEETING

Policy of Sir Wilfrid Laurier in Bitterly Opposing the Borden Naval Proposals, Was Warmly Endorsed

That Liberalism was never more alive in Prince Rupert than it is at the present moment was evident by the excellent turnout and general enthusiasm that prevailed at the open meeting held last Saturday evening in the K. of P. Hall under the auspices of the Prince Rupert Liberal Association. Mr. A. M. Manson, the president, occupied the chair, supported by Dr. W. T. Kergin, past president, and Mr. P. W. Anderson, the association's energetic and indefatigable secretary.

The president, in his opening remarks, dwelt on the work accomplished by the executive since the annual general meeting, held a short while ago. It had been decided to hold regular monthly meetings under the auspices of the association at which addresses by leading members of the party would be delivered on live political topics of the hour. Mr. H. F. McRae, the chairman of the committee which had the arranging of these meetings, had not been able to give very long notice to the speakers who were to address them that evening, but upon future occasions gentlemen would be given ample opportunity to prepare speeches to be delivered at these monthly meetings. Dwelling on the necessity and urgency of continually infusing new blood into their ranks, the speaker went on to show how the policy advocated and followed by their great leader, Sir Wilfrid Laurier, had been vindicated and justified in the light of recent events. Whilst giving a measure of credit to the provincial government for having decided to discard the old voters' list, which

had become ludicrously inadequate as representing a list of those qualified to vote in the province, the president pointed out the injury to their party caused by the short time at their disposal—up to the 7th of April only—in which to get names on the list. In view of this fact it was incumbent upon everyone of them to act promptly in getting their own names as well as those of their friends on the list before that date. Reminding his hearers of the big Liberal convention that was to take place in May, and of the possibility of another general election within the next few months, the speaker concluded by expressions of the highest praise for the wonderfully efficient and capable central organization the Liberal Association had in the province. They had great issues to deal with, something to fight for, in fact, and he had every hope that before very long their party would be swept into power again on the wings of victory.

Several motions and recommendations were made and passed on, the most important of which was that made by Mr. Howard B. Campbell, that a telegram be sent immediately to Sir Wilfrid Laurier expressing the Prince Rupert Liberal Association's sympathy and support, as well as high admiration, for the magnificent fight he and his followers were putting up in opposition to the Borden naval bill. This motion, which was seconded by Mr. McPherson, was passed with expressions of the highest approval by all present.

Mr. Fred Stork, one of the old warhorses of Liberalism in British Columbia, next addressed the gathering in one of his well known breezy and inspiring speeches. Never before in the history of the Dominion was association with liberalism as important as at the present time. The high cost of living was the curse of present day existence and the policy of the Tory party was largely responsible for this state of things. That policy was one of interests, tariff and protection for the classes, and not for the masses. It was absurd to say that reciprocity was defeated at the last general election. The whole idea had been to draw a herring over the trail and obscure the view of the electorate, with the purpose of defeating and crushing Sir Wilfrid Laurier.

Coming to the question uppermost in their minds at that moment, the debate on the Borden naval bill, the speaker became enthusiastic over the splendid fight being put up by their party in the House of Commons. He himself had been inspired perforce to send a telegram of congratulation on his own account on learning that the debate had lasted over 80 hours. It read as follows: "To Fred Pardee, House of Commons, Ottawa—Put on your cork boots, Fred, and stay with it."

In conclusion the speaker remarked that all that lost them the last election was over confidence. They thought their cause was too good to make defeat a possibility. They did not work, resting rather in a fools' paradise of false security. They must ever be up and alert in the future and victory at the polls at the next general election was assured them.

Dr. W. T. Kergin, who has been absent from the city for some months, was received with great applause by the large gathering

of Liberals. In a few graceful words he thanked them for their cordial reception and congratulated them upon the obviously flourishing condition of the association. He expressed his confident and unswerving faith in the course being pursued by their great leader, Sir Wilfrid Laurier. He endorsed the stand being taken on the Borden naval policy and also impressed upon his hearers the importance of realizing that reciprocity was by no means a dead issue and that the party might yet go into power again on a vote being taken on this great question. Upon sober and mature consideration of the Borden naval policy it must unquestionably be acknowledged to be founded on wrong principles and of the nature of a makeshift and emergency undertaking. The fact that Canada gave money to the Old Country to build ships and would therefore possess the same was a fallacy. The speaker was not in sympathy with the modern war craze but one must perforce realize that the Dominion today was a nation standing amongst others and in the front rank and must be prepared to defend its position by strength of arms if necessary.

At the conclusion of Dr. Kergin's extremely interesting speech a number of suggestions and remarks were made by different members of the association. The meeting broke up at 10:15, everyone being thoroughly satisfied that they had spent a most entertaining and profitable evening. Special addresses will be delivered at the next monthly meeting on the great naval question at present occupying so much attention in Canada.

#### YUKON RESIDENTS RETURNING NORTH

Princess May Arrived This Morning with Large Passenger List for the North.

The Princess May arrived this morning at 11:15, en route north, with 140 passengers, the record list so far this season. Most of those on board, like the geese, are returning to the land of the midnight sun after spending the winter in the milder regions to the south. After a couple of hours spent at this port, enabling the passengers to stretch their legs and make a short tour of the city, the May left for Skagway with the returning argonauts at 1 p. m. There was a large crowd on the wharf to welcome the boat's arrival and numberless greetings were exchanged between the passengers and present day Rupertites, erstwhile residents of Atlin, Alaska and the Yukon.

#### THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 30.307; maximum temperature, 45; minimum temperature, 36; precipitation, .13 inch.

#### Evangelistic Services.

At the Empress Theatre last night Rev. F. W. Kerr highly commended to his congregation the evangelistic services at the Methodist Church that are being conducted by Rev. W. S. A. Crux. He described the work that is going on as the highest type of evangelism.

## MEXICAN REBELS VICTORIOUS IN TWENTY-TWO HOUR BATTLE

OVER EIGHT THOUSAND CONSTITUTIONAL TROOPS RESTED ON ARMS NEAR BORDER TOWNS OF MEXICO--REBEL FORCES STRENGTHENED.

(Special to The Daily News.)  
Douglas, Ariz., March 9.—Encamped within striking distance of several border towns, 8,500 constitutionalist troops rested on their arms today while in-

surrectos among federal garrisons strengthened materially the rebel forces. Following a 22 hour battle at Nacoari, in which many were killed and wounded, the federal garrison evacuated the town to the rebels.

#### DYNAMITE EXPLOSION WRECKS LARGE TOWN

Terrific Explosion Yesterday Wrecked Town in Scotland--Number of Dead Unknown.

Glasgow, March 9.—A terrific dynamite explosion today wrecked the town of Irvine, in Ayrshire. Just how many are dead is not yet known, but the number will be very large. Irvine is principally a shipbuilding town, with a population of about 15,000.

#### GRAHAM ISLAND HAS GREAT FUTURE

Seattle Men Have Great Hopes for the Development of the Island's Resources.

Messrs. A. J. M. Hosom and J. R. Owens of Seattle, who have extensive interests on Graham Island, arrived in the city yesterday on the Prince John and left for the south this morning on the Curacao. Both gentlemen are enthusiastic over the future of Graham Island. In addition to their mining interests, they are devoting a great deal of attention to agriculture and are doing a good deal of experimental work along that line.

Gold Commissioner J. A. Fraser of Atlin was a returning passenger on the Princess May this morning after spending a few months in the lower coast cities. Mr. Fraser was greeted on the wharf by a large number of friends and acquaintances.

Mr. Frank Kelly, of the Union Transfer Co., left for the south the latter part of last week on business in connection with developments projected in their automobile business. More cars are to be purchased, as well as machinery for the repair shop that is being installed at their garage in the Dawson Block.

#### SUDDEN DEATH OF MARINE ENGINEER

Matthew Richmond, Engineer on Tug Chieftain, Died at Bella Coola After Brief Illness.

The tug Chieftain is flying the Union Jack at half mast on account of the death, two days ago, of Matthew Richmond, who was been chief engineer of the Chieftain for the past year. Mr. Richmond was taken ill very suddenly while the Chieftain was returning from South Bentinck Arm and almost immediately became unconscious. He was brought in as fast as the boat could steam and placed in the hospital at this place, where in spite of every care and attention on the part of Dr. Jamieson and his assistants after lingering several days he passed away without regaining consciousness. Captain Birkland paid touching tribute to the man who had served faithfully with him through storm and sunshine.

The funeral service was conducted by Mr. Deans at the school house. After an eloquent address by the minister the body was conveyed to the wharf to await shipment to Vancouver.—Bella Coola Courier.

#### LOCAL JOTTINGS

Sleeping and boarding quarters for the men engaged in the work of building the concrete foundations for the Prince Rupert Hydro-Electric Co.'s power house at Port Edward have been completed, the men being all on the ground ready to start operations right away.

Mr. F. G. Dawson returned on last evening's train from a short business trip into the Interior.

There never was a chance to get a supply of stationery cheap in this town before. But everyone should take advantage of Allen's sale. 57-59

## A NEWSPAPER'S RIGHT TO CRITICIZE THE PULPIT

REV. W. H. McLEOD GAVE AN INTERESTING TALK LAST NIGHT ON THE RIGHTS AND POWER OF THE PRESS.

In his ten minute address last evening at the Baptist Church service in McIntyre Hall on the subject "Has the Daily Press a Right to Criticize the Message of the Pulpit?" Rev. W. H. McLeod, in a masterly and succinct manner, showed his reasons for answering the question in the affirmative. Beginning with a short history of the daily newspaper and showing how, through the dissemination of logical and well thought opinions upon subjects affecting the welfare or otherwise of the public, a great good must necessarily be effected, the speaker drew attention to the great power of the press and the unquestionable right it had to criticize either from a point of view of merit or demerit any utterances made of a public nature. This freedom of the press, together with the molding of the thoughts and convictions of the masses of the people through

the editorial columns of the great daily newspapers, served by men of the very first rank in brains and ability, had gone a long way toward making the British Empire the power in the world it is today. In this respect the British were not alone the gainers, the same principle applied to all civilized peoples. The average citizen of a country formed his opinions and directed his actions largely on the independent and well thought out advice to be found in the editorial columns of the daily press.

The preacher in the pulpit should know what his message is before uttering it, after which it must be left to the public and the press, if they see fit to decide as to its merit or demerit. The public press of a country have the power to debase or build up

#### A DELIBERATE LIE.

There is no use of wasting words over the Empire's attempt to libel the "Daily News" in its reference on Saturday to the motives of the "News" in criticizing a particular portion of a local clergyman's sermon of Sunday week. It can be characterized as nothing more or less than a deliberate lie. The "Empire" is gaining a good deal of cheap notoriety by such tactics, but it is rapidly losing the respect of the better class of citizens.

#### THE VOICE OF THE WEST.

Western Canada has a very real grievance against the government of Mr. Borden. Mr. Turriff's resolution in the Commons demanding a redistribution measure represents the views of the people of the west, irrespective of politics. The constitution requires a redistribution after every census, so that each province of the Dominion may be adequately represented in Parliament. The last census was taken in June, 1911, and this is the second session since the general results were made known. The west is notoriously under-represented in the House of Commons. Mr. Turriff showed from the official record that British Columbia now has a member of Parliament for every 56,068 people, Alberta one for every 53,532, Saskatchewan one for every 49,243, Manitoba one for every 45,561, Ontario one for every

29,340, Quebec one for every 30,810, New Brunswick one for every 27,068, Nova Scotia one for every 27,352, and Prince Edward Island one for every 23,432. The average unit of representation in the four western provinces is thus 49,739, and in the five eastern provinces, 29,376.

The voice of the west is stifled by under-representation on the basis of the census of 1911, but that is not all. Its growth is phenomenally rapid as compared with the eastern provinces, and long before the next census and redistribution it will again be greatly under-represented. This should induce the government to bring in its redistribution bill at the earliest possible period after the census results are known, so that in some measure the Parliamentary handicap of the west may be lessened. If a general election, of which so much is being said at Ottawa, were to take place this spring prior to redistribution—and general elections often occur unexpectedly—the west for the greater part of the decennial census period, 1911-1921, would be represented by little more than half the number of members to which it is entitled.

The west demands, what in the pre-Confederation period Ontario herself demanded, representation by population. And Mr. Borden in postponing the introduction of the redistribution bill is lessening the decidedly precarious hold he has upon even the Conservatives of the western provinces.—Toronto Globe.

### TELLS WHY MONEY IS TIGHT IN THE WEST

Half Last Year's Crop Has Not  
Been Marketed, Says  
W. A. Lowry

Winnipeg, March 8.—W. A. Lowry, president and general manager of Lowry's Limited, arrived in Winnipeg today to open a branch here.

The company already has branches located at New York, Montreal, Toronto and Calgary. Mr. Lowry who has just come in from the west, says that money appears to be tight throughout the prairie provinces. This situation he ascribes as being due to the fact that people are hanging on to their ready cash owing to the war in the Balkans and also because 50 per cent of last year's crop has not been marketed. Mr. Lowry states that he has heard on good authority that 50 per cent has not been marketed along the Canadian Northern lines alone. This, he says, is not due to any grain blockade but to the low prices for grain which have prevailed lately. He points out that farmers are now in better financial circumstances and they are liable to hold on to their wheat until the prices go up.

#### OFFERED POISON TO BABE

How New York Robbers Tortured  
Mother Whom they Bound

New York, March 8.—Robbers tortured Mrs. Henry Jacobs, wife of a post clerk, by binding and gagging her and in her presence offering her 16-months-old baby a slice of bread on which poison had been spread, because she would not reveal where she kept her money, according to the story told by her to the police.

After binding the mother and tying the baby in his high chair, Mrs. Jacobs said, the three men took a bottle marked poison from a closet where drugs were kept and poured the contents on a bite of bread. The mother was told she would see the baby die unless she gave the information wanted.

"Nod your head if you will tell us," one of the trio said to Mrs. Jacobs, as he held the bread out to the child. The baby knocked it to the floor. They repeated the offer, and the baby again refused the poison. Abandoning this effort, the men searched the apartments. A pocketbook containing \$23 was stolen and the thieves left the house before Mrs. Jacobs could release herself and give the alarm.

#### RAILWAYS MUST PAY

Toronto, March 8.—Railways are required to protect their passengers from the elements. Nine judges have voiced their opinion in the action brought by Mr. G. H. Morrison against the Pere Marquette Railway. While waiting for a belated train Morrison contracted a bad cold at Marshfield, Ont., where fire had destroyed the station in July, 1911. Serious illness followed the exposure and he sued for damages. He was awarded \$500 at the trial. The court sustained the award. Now the appellate division has dismissed the company's appeal.

### BALKAN WAR UPSET BALANCE OF POWER

German Government Explaining  
to German Public Why the  
Army Increase is Ne-  
cessary

London, March 8.—The Times Berlin correspondent says: "Public opinion in Germany is almost exclusively concerned with speculation about the extraordinary levy on property from which it is proposed to cover the initial cost of the new increases in the German army. It is, however, practically impossible to form an opinion about the public reception of these extraordinary proposals. To draw the line between genuine expressions of opinion and inspired speculation is difficult.

"The government is now—and none too soon—devoting itself to the difficult task of explaining to the German public that its demands are necessary. The Cologne Gazette published last night a long telegram of a highly official character from Berlin. The gist of its argument is that the downfall of the Turkish Empire and the rise of the Balkans have created, not so much a new situation as a new prospect, and that the German people are called upon to face it. There has been a shifting of the balance of strength in favor of the whole Slav element and though fear of conflict is remote, Germany has to deal with possibilities quite different from those which existed before the war.

#### Peace Strength of Army

Cologne, Germany, March 8.—The new German military bill will add 84,000 recruits to the annual contingent called up for service in the army, according to the well-informed Volks Zeitung. The total strength of the peace footing of the army will thus be increased by 168,000 men, bringing it up to 806,000 excluding officers.

The German war office sent today telegraphic orders for the commencement of the new barracks along the frontiers, showing that the military authorities are certain of the passage of the bill through the Imperial parliament.

The Daily News has the largest circulation in Northern B.C.

### DETAILS OF STRIKE ON SILVER CREEK

Indians Have Staked Out Several  
Hundred Rich Claims in the  
District.

Vancouver, March 7.—News has come down from Atlin of the new strike that has caused a stampede on Silver Creek and adjacent creeks. According to the despatch, which was sent down to a friend in Vancouver last night by Messrs. Kershaw, Wrong, Sands and James, of Atlin, Indians discovered the creek last fall and became enthusiastic over the showing. They staked about two hundred claims in the vicinity where good, coarse gold had been found without practically any careful prospecting.

Kenny McLaren, George Conroy and Charlie McCulloch, with other reliable miners, have just returned to Atlin from a visit to the creeks, and they speak very highly regarding the cleanups that are being made. They are all preparing to go back with large outfits.

Dikeman, the discoverer of the Iditarod, has purchased several of the claims staked by the Indians, has two men on Silver Creek working for him and has just started in himself. The only good winter route to the new discovery is via Atlin, according to the message which came down last night. From that city to Silver Creek is said to be a good trail.

### In the Letter Box

To the Editor of the Daily News:

Sir,—Would you allow me space in your paper to say a few words in regard to an editorial in the Journal of this morning concerning the fight the Liberals are making at Ottawa. The Tory organ states that the Steel Trust is backing the Liberals in their fight against the navy bill.

Now, sir, would the Journal tell us when the Steel Trust came to be such good friends of the Liberals, when only eighteen months ago, the Hon. Clifford Sifton, one of the head men of the Steel Trust, supported and took the platform of the Hon. R. L. Borden against the policy of Sir Wilfrid Laurier.

Now, sir, if the Journal would state honest facts we might overlook the slur cast on one of the best statesmen that Canada has produced and who in a speech in Montreal not long ago to the trusts said they had no friend in him. If the Hon. R. L. Borden were the same stamp of a statesman as the Grand Old Man of Canada, he would take his policy to the people and have them endorse it or turn it down. That's what Sir Wilfrid Laurier did with the reciprocity policy of the Liberal party. That is the reason why the sons of Canada stand by the policy of Sir Wilfrid Laurier. When I say sons of Canada, I mean men who have been born in Canada. We do not expect people who come here to make their home here to be posted on what the Liberal policy stands for. They know nothing of the reform movement of years ago. It was the reform movement of 1837 to 1841 that saved Canada to the Empire and was the means of breaking up the family compact, better known as the Tory party, who thought of nothing only graft. Let all the Tory newspapers speak the truth, and they will praise the Liberal policy of the past for it stands for all that is pure and good.

Thanking you for space and trouble,  
 Yours truly,  
**A. H. McPHERSON,**  
 Prince Rupert.

### PICKED TEAM WILL TACKLE CHAMPIONS

Victoria Cup Holders Pitted Against Best of Other Players in Coast League.  
 Vancouver, March 10.—The Pacific Coast Hockey League season was brought to a conclusion last evening, when the Victoria team cinched the championship, defeating Westminster by 1 to 0. Immediately after the game Frank Patrick announced that the three postponed games of the New Westminster club would be cancelled and instead a picked team from the Vancouver and New Westminster teams would engage Victoria in a series of two games in preparation for the visits of the eastern teams. The first game will take place at the Vancouver Arena next Tuesday evening and the return game at Victoria on Friday night.

### St. Patrick's Concert

A concert will be given under the auspices of the Catholic church on St. Patrick's night, March 17. 58

### Mr. William Lynch, of Lynch Bros., general merchants of this city, who have opened a branch business in New Hazelton, arrived in the city from the latter place on last evening's train.

### The cuts in prices of pictures in the J. D. Allen Photo Co.'s sale should certainly be taken advantage of. 57-59

### NOTICE TO CONTRACTORS.

Tenders will be received up to 6 p.m. Wednesday, March 12, for the erection of a residence for D. C. Stuart, Esq. Plans and specifications may be secured at the office of the architect.

**J. W. POTTER, Architect.**

### DEMERS

Just arrived, a new shipment of Suits and Coats of all sizes and colors, varying in price from \$18 up.

Wanted—A woman for first class alteration work.

### LOCAL NEWS ITEMS.

Mr. A. G. Fallowfield of Masset was amongst the arrivals yesterday on the Prince John.

Mr. Wilfrid Doughty, managing director of the B. C. Fisheries, left for Skidegate last night on the Prince John.

Mr. Robert Jennings, provincial government road superintendent, returned on last evening's train from a trip to the interior.

Mr. A. Fairnie, of the firm of Helliwell & Co., chartered accountants of Vancouver, returned to that city on Saturday night after spending a few days in Prince Rupert on business.

The Curacao, of the Pacific Coast Steamship Company, arrived in port shortly before seven this morning southbound. The Spokane will arrive from the south on Saturday next.

A pleasant little skating party took place at the roller rink on Sixth avenue on Saturday afternoon last, about a dozen young couples enjoying themselves to their hearts' content for an all too brief hour or two.

A splendid crayon birdseye view of the lately laid out Port Edward townsite at Porpoise Harbor is on view in the window of the offices of the company in the Hyde Block, opposite the post office. Preliminary work is being prosecuted to the fullest extent by the company on the townsite.

Miss Doris, the charming little daughter of Mayor and Mrs. T. D. Pattullo, entertained a number of her young friends at a party on Saturday afternoon last. A visit was made early in the afternoon to the moving picture matinee at the Westholme, the kiddies later adjourning to the home of Mr. and Mrs. Pattullo on Fifth avenue, where a delightful tea was served.

Considerable interest is being evinced by those having business on the waterfront at the foot of Centre street in the changes that are daily taking place there. The geography of "at part of the city is changing almost hourly. This morning the Canada Railway news stand had vanished from the spot it had occupied the night before, and was to be found alongside the G. T. P. shed No. 1, next to the freight office. The overhead way is being completed rapidly. A few steps up Centre street the big steam shovel is tearing up things in great style and is a fascinating sight to watch as it prods and tears relentlessly at mother earth and grabs huge chunks of rock which, together with earth, roots and gravel are transferred in its vast maw from ground to railroad trucks.

### A NEWSPAPER'S RIGHT TO CRITICIZE PULPIT

(Continued from Page 1.)  
 citizenship. Immeasurable good may result as well as incalculable harm be effected by the tone taken by men responsible for the editing of a great newspaper. Canadians, the proud citizens of the pearl colony of the British Empire, should thank God for the freedom of the press and that their lot was cast in this fair Dominion and not in an oligarchy, such as Russia for instance. In conclusion the reverend gentleman reiterated his previously expressed conviction that it was the absolute duty of the daily press to criticize and comment upon any public utterances either from the pulpit or from any other branch of social life, and that if this was not exercised there would be cause for condemnation of the press for prostituting the great power for good placed in its hands.

In his sermon proper, the Rev. Mr. McLeod preaching on the subject, "Shall the Church Help or Crush a Sinner?" was particularly earnest and convincing in comparing the tenets of the old pagan religions with those of the religion we as Christians follow. The principles laid down by our Savior during His sojourn on earth were plain enough for any of us to follow, and that we should do otherwise as members of the Christian church than to do everything in our power to aid and help a fallen brother was impossible to countenance. The Church of Christ was there to help the sinner, continually, if necessary, if he kept on falling, and never give a human being up as lost entirely, while there was a spark of life left.

## DELKATLAH TOWNSITE

Delkatalah Bay. The Northern Terminal of the new G. T. P. service, Vancouver to Queen Charlotte Islands, commencing April 1st. The necessary centre for all the settlements on the north half of the islands. ## Better than Ringing Door-bells

A PIANO manufacturer recently made a house-to-house canvass. He's one of those men with an absurd fear of the "waste-circulation" bugaboo—cannot get away from the haunting thought that only 10 out of every 100 readers of a newspaper may be possible buyers of his goods.

So he refused to advertise, and went a-canvassing—inviting people to come to his piano recitals. Then he wondered why they didn't come.

This is why:

He wasn't reaching the people.

His canvassers rang every door-bell in town. They talked to some one in every house.

But one in every household isn't enough—particularly if it doesn't happen to be the right person. And, as a rule, it wasn't the right person—it was a servant, or a child. The woman of the house was seldom seen; the man of the house, never.

Now, if the piano maker had placed an ad. in the newspaper, it would have reached thousands, where the canvassers could reach only hundreds.

And even though only 10 per cent. of the readers are actual piano buyers, this does not mean that the advertising read by the other 90 per cent. is wasted. Advertising talks, not only to the prospective buyer,

but also to his wife, his grown-up sons and daughters, his mother—even his mother-in-law. Their coaxing will help to convince the head of the house—and pretty soon there'll be a piano in that home.

This and dozens of similar cases which might be cited to show that "waste circulation" is an empty bugaboo, and should deter no one.

Take the motor truck. It can be sold only to large firms. Yet a motor truck manufacturer is successfully advertising in daily papers. He realizes that he must reach, not alone the managers of the concerns that require trucks, but also their directors, their foremen, their head machinists, etc. It is found in actual practice that this Advertising radiates in a thousand directions, and again converges most astonishingly to influence the house that has made up its mind that horse-trucking is too costly and inefficient.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write if interested.
