AVIATOR MAKES NEW WORLD'S ALTITUDE RECORD

ALLEGED RAILROAD DEFAULTER ARRESTED--PRINCE OF WALES TO STUDY GERMAN TONGUE

PRINCE OF WALES WILL TRAVEL INCOGNITO

WILL BE GUEST OF KING AND QUEEN OF WURTEMBERG AND STUDY GERMAN LANGUAGE.

(Special to The Daily News.) London, March 11.—The Prince of Wales will leave here on March 17th for Germany and will travel incognito. He is to be the guest of the King and Queen of Wurtemberg, his visit being for the purpose of studying the German language.

POPULAR HOTEL MAN MARRIED LAST NIGHT

Billy Wright, Proprietor of the Windsor Hotel, Was Married to Miss Tasche Last Night.

A quiet wedding was celebrated last evening in the parlors of the Windsor Hotel when Mr. W. H. Wright, the popular proprietor, was united in marriage to Miss Edie Tasche, late of California. The Rev. W. H. McLeod, pastor of the Baptist Church, performed the ceremony before a few intimate friends of the bride and bridegroom. Mr. Wright, who is one of the most popular hotel men in the city and who is known to his host of friends as "Billy," managed to keep the fact of his approaching marriage a profound secret, selecting an evening when he knew nearly all the "boys" would be away at the all game. However, they got wind of the affair after the happy event had taken place and made sport upon "Billy," showering him with good wishes and congratulations.

"Billy" Wright is one of the best known men in the north, having been a resident of the Yukon since the palmy days of 1897 until taking up his residence with the first pioneers. Always in the forefront whenever the interests of the city were to be considered, Mr. Wright has earned the confidence and respect of the business men of the city. He has been interested in every form of sport well known and in this respect he has performed great service to the younger set in doing everything in his power to promote athletics. The best wishes of his numerous friends and admirers go out to Billy upon his launching out upon the sea of matrimony.

SMELTER MAN LOOKS OVER HAZELTON MINES

Investigating Possibility of Securing Silver-Lead Ore for Granby Smelter

Investigating the ore possibilities of this district, in the interests of the Granby Company, E. E. Campbell is spending a few days here. Already he is favorably impressed with our ores. Yesterday he visited the Harris Mines, of which he thinks highly, and today he went to the Silver Standard. It is the purpose of the Granby Co. to add a lead sack to its 2000-ton copper smelter at Granby Bay, as soon as the daily production of 100 tons of silver-lead ore is assured. The mines of this district are expected to yield the necessary tonnage in a comparatively short time.—Omineca Miner.

FIRST LADIES TO VISIT GROUNDHOG

Two Ladies Have Started Into the Groundhog Coal Fields With Dog Teams

The first ladies to travel with dog teams to the Groundhog district, according to the Omineca Miner, are Mrs. F. A. Jackson and Miss Carter, who have left for the Northern coalfield with Mr. Jackson, who is taking a crew in to build camps for the Groundhog Basin Anthracite Syndicate. This concern will do considerable development work on a large group of claims. Mr. Jackson will also supervise the work on the Laidlaw & Jackson properties, and expects to meet Mr. Laidlaw here in June. Frank says extensive work will be undertaken in various parts of the big coal field this season. Many toboggan loads of supplies have already gone in.

VICTORIA WINS RUGBY CUP GAME

Vancouver, March 10.—Although Vancouver rugby fans turned out in full strength for the McKee cup game on Saturday afternoon and rooted themselves hoarse at Brockton Point, it was only by Bullen's beautiful drop kick that the local pigskin chasers were saved from a whitewash at the hands of the Victoria fifteen, the final score being 20 to 4.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 29.958; maximum temperature, 44; minimum temperature, 29.

Mr. and Mrs. W. T. Robinson, pioneer residents of Prince Rupert, returned to the city this morning on the Prince George from an extended visit to San Diego, California. Mr. Robinson, who has considerable real estate and mining interests in this district, is delighted to be back in Prince Rupert and is greatly struck with the improvements effected since his departure for the south. Whilst in San Diego he came across a number of old time Prince Rupertites, all of whom seem to be smiling and prosperous.

EASTERN INVESTORS LOOKING TO RUPERT

Much Interest Taken in Prince Rupert by Capitalists in Eastern American Cities.

Mr. W. B. Baer, manager of the Port Edward Townsite Co., Ltd., arrived in the city this morning from Seattle. Mr. Baer has spent a good portion of the last three months in some of the Eastern American cities, where he found considerable interest in Prince Rupert. During his visit he called upon some of the G. T. P. officials in regard to the estimated date of completion of the line. While he did not get any positive assurances, it seemed to be the opinion of these officials that the linking up of Prince Rupert with the east would take place early in 1914.

Mr. Baer stated to the "News" that the Port Edward townsite would be put on the market on March 25th. In regard to industrial prospects there he said that negotiations were under way for the location of several fishing concerns, also that the construction of grain elevators is under consideration by several corporations.

MINISTER OF INTERIOR WAS OPERATED UPON

Successful Operation Was Performed at Rochester, Minn., on Hon. Dr. Roche.

(Special to The Daily News.) Rochester, Minn., March 11.—Hon. Dr. Roche, the Minister of the Interior for Canada, underwent an operation today for gall stones. It is thought that he will recover.

PRINCE GEORGE BRINGS MANY PASSENGERS

Several Former Residents Are Included in the Passenger List—Heavy Cargo of Freight.

The steamer Prince George arrived on time this morning under the command of Captain Dan Donald. She had a large cargo of freight and a good passenger list, amongst whom were the following:

Dr. Ferguson, Miss L. Richey, E. De Howe and wife, Miss Edna Wilson, Peter Moore, H. J. Johnson, Mr. Owan, H. G. Smith, Miss Leona Eldred, E. N. Lavigne, E. Callaghan, J. E. Beauchamp, W. T. Robinson and wife, F. A. Brown, E. D. Miller, Miss May Smith, James Gilmore, A. F. Cummings, H. Avison, E. L. Kinman, S. Harrison, Mrs. H. L. Pearsall, Miss Annie Black, Hazel Jones, H. P. Jones Jr., C. Gale, H. P. Jones, R. L. Gale, M. Alberts, Miss Hazel Lawrence, W. C. Durant, Mr. Duncan, W. J. Carr, C. Hainsire, T. E. Muir, R. J. McMillan, W. O. Rowan, A. G. Donahue, Miss S. Clausel, J. Schmidt, J. R. Shayer, Wm. Little, H. Whalen, D. J. Ludwig, Wm. Leask, R. Welch, J. F. Webber, P. Warnless, H. S. Irwin, F. W. Hart, W. M. Lewis, Albert R. Mack, Mrs. A. J. Mallett, Mrs. J. H. Sweder, W. J. Garity, J. H. Harris, Frank Barkshaw, Captain Davis, Captain Barlow, P. H. Morris, J. W. Fogarty, A. Dearle, John Hunderle, Harry Walker, E. C. Gibbons and wife, G. M. Keidler, W. Woodworth, H. G. Jefferson, W. B. Baer.

CANADA'S PROGRESS IS WONDERFUL

(Special to The Daily News.) London, March 11.—Sir Algon Firth, president of the Chamber of Commerce of the United Kingdom, at the annual dinner of the delegates declared that Canada was not going too fast. The progress of the country, he said, was wonderful, he found, after his visit to that part of the Empire.

CONTINUOUS SESSION IN FULL SWING

Remarkable Scenes in the House at the Closing on Saturday Night.

(Special to The Daily News.) Ottawa, March 11.—What promises to be the second week of continuous session on the naval debate is in full swing. The closing scenes on Saturday night were remarkable. When Mr. Borden moved that the House adjourn Sir Wilfrid Laurier asked if it was to be presumed that consideration of the same bill would be continued on Monday.

"As soon as government orders are reached we will proceed with the consideration of this bill," replied Mr. Borden with some emphasis.

As the members rose from their seats, William German of Welland started "God Save the King." For a time the notes did not rise above the cheering which came from both sides at the instant the speaker left the chair. Soon afterward both sides of the House joined in. Then Hon. H. S. Beland of Beauce struck up "Oh, Canada," which was sung by the Liberals, while a large group of Conservatives stayed to sing "Good Night, Ladies," a compliment to a large number of women who were crowded in the galleries. Then they left the chamber with cries of "No surrender."

The honor of closing the long struggle was given to F. B. Carvell of Carleton, N. B., who throughout the week has captained one of the Liberal brigades.

THEIR EXCELLENCIES TO SAIL MARCH 22ND

Duke and Duchess Will Leave Halifax on C. P. R. Steamer Empress of Britain.

(Special to The Daily News.)

Ottawa, March 11.—A definite announcement has been made from Rideau Hall concerning the departure of the Duke and Duchess of Connaught. They will sail from Halifax on March 22nd via the C. P. R. steamer Empress of Britain.

Mr. F. W. Hart returned this morning from Victoria, where he had been attending the funeral of his late wife, who died at St. Joseph's Hospital in that city before Mr. Hart reached her bedside. Whether or not he will remain in the city permanently, Mr. Hart has not yet decided.

TURKEY MUST PAY WAR INDEMNITY

Balkan Allies Are Willing to Accept Mediation of European Powers.

(Special to The Daily News.) Sofia, March 11.—It is stated here on reliable authority that the Balkan allies have agreed to accept the proposal for European mediation but insist that Turkey must pay a war indemnity.

London, March 12.—The Balkan situation came up for discussion in the House of Commons today. Premier Asquith said:

"An agreement on one or two points only and these not vital ones is required to secure the complete accord of the powers on the question of the boundaries of Albania. Turkey has agreed to mediation by the powers and we are now waiting to hear whether the allies also will accept."

Mr. Asquith added that a settlement had been reached on the question of Serbia's economic access to the Adriatic and as to an autonomous Albania under a European guarantee.

AVIATOR MAKES NEW ALTITUDE RECORD

French Aviator Reaches a Height of Nearly Four Miles—Previous Records Broken.

(Special to The Daily News.) Paris, March 11.—A new world's altitude record was established today when Aviator Perreyon rose approximately 19,650 feet.

REAL ESTATE MAN GIVEN WARM RECEPTION

E. C. Gibbons, a Popular Real Estate Dealer, Arrived in the City Today with His Bride.

The many friends of Mr. E. C. Gibbons were down on the G. T. P. wharf in full force this morning to welcome the latter's return with his bride. Mr. Gibbons, who is a member of the firm of McCaffery & Gibbons, real estate and financial agents, has been absent from the city for some months visiting his old home at Bangor, Maine. Some six weeks ago he was married to Miss Margaret Mullaney in his home town and has since been enjoying a honeymoon trip in the Southern States and California. Although known to be on the boat this morning, his host of friends, all armed with a plentiful supply of rice, were kept on tenterhooks for some time owing to the non-appearance of the bridal couple. Nothing daunted, however, they stuck to their posts and were finally awarded by seeing the genial and smiling "E. C." emerge from the saloon, accompanied by his bride. As soon as they came within range a veritable fusillade of rice was started by the little army of expectant friends upon the wharf. After much hand-shaking and numerous congratulations the smiling couple were escorted to a waiting automobile, repairing immediately to the residence of Mr. and Mrs. J. C. McLennan, whose house they will occupy during the latter's absence on an extended visit to Eastern Canada and the United States.

Many Women Drowned

London, March 11.—Sixty-eight women were drowned through the swamping of a boat on Lake Scutari, says a Vienna despatch.

There Are Others.

Many bargains have been had at Scott, Froud & Co.'s big shoe sale, but there are still some left. Get busy. 60

GRADING OPERATIONS WEST OF FT. GEORGE

Construction Will Start From Fort George as Soon as Weather Will Permit

The Fort George Tribune says: "Grading stakes have been placed along the waterfront here and for a considerable distance west, and everything is now in readiness for grading operations to begin as soon as the contractors have their plant on the spot."

"Harvey Carleton, who has the twenty-five miles west of here, is bringing down the steam shovels with the intention of starting work as soon as the weather permits."

"The grading stakes along the banks of the Nechaco in front of this town are set about ten feet above high water level, which will mean that a considerable amount of material will be cut away from the banks when dirt begins to fly."

Mr. S. Harrison, of the firm of Harrison & Gamble, real estate and financial agents, returned this morning on the Prince George, after an extended visit to Vancouver and Victoria. Mr. Harrison has been busily engaged whilst in the south in connection with the placing upon the market of the Port Edward townsite, for which his firm are the financial agents.

QUEBEC EASILY DEFEATS SYDNEY

Final Score 14-3—No Danger of Stanley Cup Leaving Ancient Capital.

Quebec, March 12.—The Quebec hockey team, holders of the Stanley cup for two seasons, successfully defended the classic bit of silver against the Sydney, N. S. team, champions of the Maritime League, on Saturday night, and so far the only challengers for the cup this year. The score at the end of the hour's play was 14 to 3, but that by no means represents the run of the play, as the winners were at all times masters of the situation and could have scored many more goals if they had felt so inclined.

FIREBUG CONFESSES

Benjamin Fink Said to Have Given Names of "Arson Trust."

Chicago, March 12.—Benjamin Fink, alleged "firebug," has made a detailed confession, implicating thirty-five members of the alleged "arson trust," according to First Assistant State's Attorney Johnson today.

Fink, also known as Franklin and Finkelberg, has been under arrest in South Bend for two months, but has heretofore steadfastly denied any complicity in incendiary fires.

Consulting Engineer Returns

Mr. G. C. Duncane, civil engineer of Vancouver, retained by the city for the last few weeks to consult with city engineer Mason as to the laying of the water pipe across the Shawatians passage, arrived in the city again this morning. He immediately left for the works at Shawatians, accompanied by the city engineer. It is not known yet what course he will advise as to the future methods to be pursued in attempting to accomplish the undertaking.

Doomed to Disappointment.

If you let another day go by without some bargains from Scott, Froud & Co. shoe sale, you will be disappointed. 60

Announcement.

Miss Barbeau wishes to announce her spring millinery opening beginning tomorrow, March 13th. 60

BARRIEAU AND GOOD WILL MEET TONIGHT

Much Diversity of Opinion as to Who Will Win in Tonight's Contest.

Vancouver, March 12.—Fistic fans of the coast cities are taking great interest in the boxing contest scheduled for Edmonds tonight between Sammy Good and Ernie Barrieau, Vancouver's two cleverest lightweight boxers. A large amount of money is being wagered on the result and it promises to be the biggest betting affair of the kind held hereabouts in a long time.

While Barrieau is conceded to be the more skilful boxer of the pair, the backers of Good think that Sammy's superior stamina and punching ability will bring home the coin. It promises to be a clever exhibition no matter what the result. Barrieau is a great defensive midwilder, and in none of his bouts except that unfortunate affair at Edmonton when Kid Sealer dropped him in a hurry has he taken much punishment. He has already achieved a victory over Good, stopping the latter in two rounds when they were amateurs, and he is confident that he can repeat. Good has shown wonderful improvement since then, however. He was very raw when he was pitted against Barrieau before and he has learned much during the year that has elapsed. He has never been beaten since and he has had quite a number of bouts. He is burning to avenge that previous defeat and those fans who take in the show are bound to see some fast work.

Good's backers seem to think that the weight will hurt Barrieau, and that while Ernie may be able to outpoint Sammy for a few rounds that latter will be able to come through in the last five rounds and earn a decision if he does not actually stop the former amateur champion. It is a question that can be settled only by actual conflict, however. Whether Good has improved enough to reverse the story of their other battle when Ernie's straight lefts brought home the bacon is causing the fight fans lots of argument, and the result is a great amount of speculation on the coming mill.

GOLD SEEKERS ARE SAILING FOR NORTH

Stampede for the Lake Atlin Country Has Begun from Seattle.

Seattle, March 10.—Two steamers will sail for Skagway, Alaska, tonight with every berth sold. Most of the passengers are gold seekers, lured by the report that a rich gold strike has been made in the Lake Atlin country, in Northern British Columbia and Yukon Territory. The fortune hunters, who go equipped for the hardships they must undergo, will leave the boats at Skagway, take a White Pass train for Cariboo Crossing and there strike out across the snow trail for two hundred miles northeasterly.

Another Great Rush.

A great rush for bargains is taking place at Scott, Froud & Co.'s big shoe sale. Get in line. 60

Mr. M. Albert, of the Westholme Lumber Co., who has been absent from the city for some little time, returned this morning on the Prince George.

DAILY EDITION

Wednesday, Mar. 12, 1913.

A GREAT FACTOR IN PRINCE
RUPERT'S PROGRESS.

Any one who is at all familiar with the wonderful natural resources of British Columbia is forced to admit that this province is bound to become, in the not distant future, one of the most important of all the provinces in the dominion. Almost day by day new resources are being discovered and greater possibilities are becoming evident. For some time past it has been known that the Groundhog coal district, which is within two or three hundred miles of Prince Rupert, is rich in anthracite of an exceptionally good quality, but it is particularly gratifying to learn from an expert who has examined coal areas on nearly every continent that this particular district is destined to become one of the greatest coal producing centres in the world. Just what this means to Prince Rupert it is impossible to estimate, but it will, beyond doubt, play an important part in the city's development. The presence of such a high grade coal in large quantity so close at hand is bound to be an important factor in the development of the city as an industrial and manufacturing centre and the working of the coal fields themselves will necessitate the employment of thousands of men in a district for which Prince Rupert is the natural distributing centre. The Groundhog coal areas is an asset that probably was not counted on when Prince Rupert was chosen as the terminus of the greatest transcontinental railway in America, but it is one that will not play the least important part in the building up of one of the most important commercial cities on the Pacific Coast.

FOR CANADIAN
AUTONOMY

The colors of the Liberal party were nailed to the masthead by Sir Wilfrid Laurier early yesterday morning. The Liberals of Canada are unalterably opposed to Mr. Borden's policy of "hiring" naval defence. They believe that as the daughter nations of the Empire grow in strength and wealth they should protect their own coasts and trade routes, and be prepared, if the need ever comes, to take their place in the Empire's firing line.

That is the policy of the Liberal party today. It was the policy of the Conservative party also in 1909, when the Parliament of Canada deliberately adopted it. Upon that policy Sir Wilfrid Laurier challenges the Borden Government to take the verdict of the people by a general election.

Mr. Borden met Sir Wilfrid's challenge by the announcement that the Government confidently believed that in its policy it had the Canadian people behind it, and would therefore press its proposals to a conclusion in Parliament. The issue is joined. The Borden Government will not consult the people unless it is forced to do so by the withholding of supply or the prolongation of debate on the naval bill with the object of preventing its passage. Sir Wilfrid's speech seems to indicate an intention to force the question to a decision at the polls. Canada may have a general election on the navy issue in May or June. In that election Liberalism will stand for Canadian control of Canada's defensive forces on land and sea.—Toronto Globe.

GREATEST COAL PRODUCING
CENTRE IN THE WORLD

THAT IS THE OPINION EXPRESSED BY NOTED EXPERT IN
REGARD TO THE GROUNDHOG DISTRICT

Gustav Grossman, one of the best known engineers in the province of British Columbia, was a visitor to the city yesterday morning, says the Victoria Times. He is a graduate of Freiberg School of Mines and Heidelberg University, and has engaged in experting properties all over the world, having acted for the Pearson Syndicate in Burma and Peru and for other firms in Africa, China, Siberia, Borneo, Australia and on this continent.

Last year he reported on three hundred and thirty-five claims in the Groundhog Mountain coal district for the Groundhog Amalgamated Anthracite Coal Syndicate, taking in a party of nearly twenty men and spending the entire season in compiling a voluminous report, which he submitted to the provincial government yesterday morning.

He estimates that there are over two hundred million tons of fine anthracite coal available in the Groundhog field and believes that that will become one of the greatest coal producing centres in the world. His examination covered the slopes of the Skeena, Stikine and Klappan Rivers.

There is in the Groundhog field," he said to the Times yesterday, "one of the greatest national assets of the Dominion. The coal I have tested in laboratories has shown as high as 85 per cent. fixed carbon, with an average of a little over 80. Some of the seams are exposed at the surface and the country offers no difficulty for railway construction, and in addition the owners have many admirable sections which may be used as townsites."

W. Fleet Robertson, provincial

government mineralogist, in his report of the field says that the coal is undoubtedly an anthracite, while Dr. Martin, of the United States Bureau of Mines, after examining many specimens, reports it is a "good, firm anthracite."

Mr. Grossman is confident that the anthracite fields of Pennsylvania, where his father before him was an expert, and where he himself was brought up, is no better in its resources than the Groundhog basin. There is one mountain there, he says, which is almost all coal.

"I cannot conceive," he says, "that there should be any delay in the railway companies entering that field for the certain tonnage, not only to the tidewater, but throughout the northern sections of the prairie provinces."

"All along the western coast of the United States there is a shortage of coal for household and manufacturing purposes and though they have had in the past large forest areas and mills to draw upon for firewood this resource is now being dissipated and more and more strongly on coal. As their manufacturing industries increase with the opening of the Panama canal and the influx of settlers and cheaper labor the demand for good steam coal, such as anthracite, will be enormous and the companies first in the field and best able to supply the demand of that market are the ones who will benefit most from the demand. Anthracite is peculiarly adapted to steam-making, and there is nothing to prevent the Groundhog field from becoming one of the best on the continent."

SOUTH AFRICAN
POLITICAL SPLIT

Premier Botha and General Hertzog Still at Loggerheads—Later Will Only Be Satisfied If Botha Resigns the Leadership.

Cape Town, March 10.—The differences between General Botha and General Hertzog are still occupying the attention of the Nationalist party. At a recent caucus of the Nationalists a large majority declared in favor of General Botha retaining the premiership, and therefore as a party the Nationalists are supporting General Botha.

It is now said that General Hertzog's adherents are considering the advisability of separating themselves entirely from the Nationalist party. In their opinion the bulk of the Afrikaner constituencies are with General Hertzog in spite of the fact that the majority in the parliament are against him. Meantime General Botha continues to hold office as premier, and parliamentary business is being carried on under disturbed conditions.

General Botha has issued a statement denying General Hertzog was left out of the new cabinet owing to his statement that he placed the interests of South Africa before those of the empire, declaring that he himself and his colleagues agree with that principle. The differences arose as the result of General Hertzog's speeches and general conduct. He declares that since parliament met every effort has been made to reach a solution of the difficulties, but owing to the fact that General Hertzog will only be satisfied if General Botha

resigns office as premier the ministers have found it impossible to go further as they do not agree that such a step would be in the direction of peace.

In answer to General Botha, General Hertzog denies having made the retirement of General Botha an absolute condition of his return, or that the negotiations failed on account of his having taken an absolute stand. He maintains that if General Botha can find honorable terms suitable to himself and General Hertzog, he will be willing to sink all personal feeling and submit to the will of the people.

As yet no allusion to the Botha-Hertzog quarrel has been made in parliament which, however, is supporting General Botha, mainly on account of the fact that the speech made by General Hertzog at Smithfield was of an outrageous character, but General Hertzog's influence in the country is by no means ended. It is generally felt that the breach between the two leaders is final and that the solidarity of the Nationalist party is thus broken up.

ALLEGED DEFAULTER
ARRESTED AT RHEIMS

Fled from Brussels Last October—Alleged to Be Short Over a Million Dollars.

(Special to The Daily News.)
Rheims, March 11.—Wilmart, former manager of the Grand Tervanzen Railway, who fled from Brussels in October, 1912, after alleged defalcations amounting to over a million dollars, was arrested here today.

The paper that prints the facts—the Daily News.

PERFORMED DARING
FEAT AT MASSET

Crossed Inlet on a Single Log
With Tide Running at
Its Swiftest

The Masset Leader gives the following particulars of a daring feat performed recently by an experienced river man:

"Displaying remarkable agility acquired on the swift rivers of Eastern Canada, Robert Violet, a new comer from Kelowna, last Tuesday successfully crossed Masset Inlet on a single log. He stood upright for the whole distance, steering the strange craft with an oar. The tide was running out at its swiftest at the time and it was calculated that he travelled nearly four miles in little more than twenty minutes.

Those watching him from the shore near the Woden river thought he would capsize more than once when the eddies caught the log and whirled it around. This happened several times, but each time Violet succeeded in steering the log out into quiet water, and headed with the tide.

Violet had accompanied Albert Goulet and Patrick Galvin to inspect some land up the inlet across from the Woden river and during the night their boat went adrift and landed on the opposite side of the inlet. Against the advice of his companions Violet secured a log and set out across after the boat, in which he soon returned to the others.

INTERESTING REVIEW OF JOHNSON-FLYNN FIGHT

O. F. WOODY, FLYNN'S CHIEF ADVISER, TALKS WITH NEWS SPORTING EDITOR ABOUT THE BATTLE AT LAS VEGAS.

That Jack Johnson is merely a shadow of the fighter who faced Jeffries at Reno and that he will never engage in another genuine championship battle, is the opinion of O. F. Woody, here with the Johnson-Flynn fight pictures which open at the Majestic this evening for a two days' engagement. Mr. Woody was Flynn's chief adviser and in his corner during the recent battle at Las Vegas, New Mexico, and in fact has been at nearly all the big mills fought in the past ten years. To the "News" sporting

Johnson and nearly breaking his neck. The big negro has gone back so far that good fortune alone gave him the victory over Flynn, and a bigger and stronger man than the Pueblo fireman would have defeated him, Johnson had no strength whatever. He hit Flynn often enough, but there was no steam behind his punches. He was against a man who not only wasn't afraid of him but who kept boring in all the time in his anxiety to mix it. Johnson held on to save himself, and

JACK JOHNSON

editor Mr. Woody said: "Had Jim Flynn taken the advice offered him by Doc Roller and myself instead of, in a moment of rage caused by the holding tactics of Johnson, listening to the advice of the savage Hamid, the Turk who was also in Flynn's corner, he would have won the decision in the Las Vegas battle and Luther McCarty would today be the legitimate heavyweight champion of the world instead of champion heavyweight of the white hopes. Hamid, the Turk, advised Flynn to butt Johnson if he did not cease his holding tactics and as a result in the eighth round Flynn jumped three feet three successive times, butting

Flynn is so much smaller that when the negro clinched with him he could not break himself loose. Johnson says he could have put Flynn out at any time, and that it was his intention to knock him out in the tenth. The fact is that when the fight ended in the ninth the big negro was so tired that he could hardly walk out of the ring, while Flynn was as fresh as though he had just started. In the last four or five rounds Johnson was pleading with Referee Eddie Smith to give him the decision on a foul. That doesn't look as if he was to land a knockout at any time, does it? I do not think Johnson will ever again be seen in action. I think he is through."

PACKEY GETS SHADE

Jack Britton Shows Better Punch and Finishes Stronger.

New York, March 8.—Packey McFarland outpointed Jack Britton in ten rounds of fairly rapid and clever fighting at Madison Square Garden last night. While McFarland had the better of the argument as a whole, Britton made the better showing in the final round.

Neither of the two Chicago lightweights whose long talked of match has excited such interest boxed up to the expectations of those who have been anxiously looking for a meeting between them. Packey showed that he was the cleverer boxer, but Britton proved that he was the harder hitter.

The first round was fairly even. The next three rounds were McFarland's on points and the eighth also went to his credit, although his face and body had been found frequently by Britton's blows. Packey swung a right to the head in the ninth, but he delivered in this round, which was Britton's by a good margin. The final round was Britton's, but the honors of the bout went to McFarland. There was a good deal of betting, with McFarland the favorite at seven to ten.

Consider Challenge Tonight.

New York, March 12.—Sir Thomas Lipton's challenge for the America's cup will be considered tonight at a special meeting of the New York Yacht Club called by Commodore Pratt. Already a difference of opinion has arisen among the club members whether the challenge should be accepted on the terms proposed by Sir Thomas Lipton, that the competing yachts be limited to 75 feet on the water line.

ADMITS FORGING CHEQUES

Gustav Blanc, Arrested at Calgary, Makes Confession.

Edmonton, March 8.—Another alleged forger was arrested today when Detective Smith brought in Harry Zellingsky on a charge of forging a cheque amounting to \$54.55. He is also accused of forging a cheque for \$16.50. Both these cheques had the name of the F. Anderson Brick Company attached to them.

Gustav Blanc, who was captured at Calgary on information supplied by the Edmonton police, has confessed to being implicated in the forging of cheques amounting to \$6,352 on the W. T. Parsons Railway Construction Co. The confession was made to Chief of Police Silas Carpenter and Captain David Simpson. Blanc exonerates two suspects held here, but implicates a man named Tremore, who, he claims, got something like \$4,000. Blanc had \$3,064.55 when captured.

NEW BASEBALL LEAGUE FORMED

Chicago, March 11.—The Federal Baseball League with six clubs already assured will be christened today at Indianapolis. The league, which is incorporated under the laws of Indiana, will be composed of Chicago, St. Louis, Detroit, Indianapolis, Cleveland and Pittsburgh. Cincinnati, Milwaukee and Kansas City are seeking franchises.

General Manager Fraser, of the Royal Standard Investment Company, a Vancouver concern with large placer holdings in the Omineca river district, is expected to reach Hazelton on tonight's train with a crew of fourteen miners, and will proceed at once to the company's property to begin the season's work.—Omineca Miner.

GREAT ENTHUSIASM AT GAME LAST NIGHT

Pirates Won from Cubs but Later Still Have Hopes of Winning the Championship.

Enthusiasm among the local baseball fans reached fever height last night when the Pirates and Cubs met at the skating rink in what many considered the deciding game of the series. That the popularity of the two teams is about equally divided was evident from the deafening cheers that rent the air throughout the game, for it cannot be denied that while the Cubs were the losers there were many brilliant and spectacular plays to their credit. Up to the third inning it was anybody's game and for a brief space the Cubs seemed to have the Pirates guessing. The score at the end of the third inning was four all. While the play was decidedly interesting right up to the end of the game, the Pirates had the

Charlie Embleton Putting Over a "Fast One."

better of their opponents and finished victors by a score of 16 to 4. For the Cubs Vance did splendid work in the box and Brooks on second was much in evidence.

The lineup was as follows:
 Pirates..... Cubs.
 Lees..... Catcher..... Rogers
 Embleton..... Pitcher..... Vance
 Ramsey..... 1st Base..... Earsman
 Evans..... 2nd Base..... Brooks
 Henning..... 3rd Base..... Weber
 Pooler..... Field..... Ives
 Gray..... Field..... Cars

The referees were Jos. W. Scott and F. L. Wallace.

The present standing of the teams is as follows:

	Won.	Lost.
Pirates.....	4	1
Cubs.....	3	2
Men's Own.....	1	3

The Cubs have by no means given up hope of winning the championship. They have confidence that they can beat the Pirates in the next game, which, not considering the games with the Men's Own, would make the two teams a tie. The remainder of the series will be followed with much interest.

Butte Capitalists Arrive.

Frank A. Brown, a well known mining man in Northern British Columbia, arrived in town this morning with a number of capitalists from Butte, Montana, and left at once for the interior. Mr. Brown is interested in several properties in the vicinity of Hazelton, which, in all probability, will be developed this summer.

New Fight for Bat Nelson.

Chicago, March 11.—Batting Nelson, who never has been known to refuse almost any kind of a fight, today began to make preparations to engage in a new style of battle for him—that of the divorce court. Until yesterday the batter could not believe that his wife, formerly Fay King of Denver, was sincere in her statement that she intended to sue the former lightweight champion for divorce, but having decided that she was not jesting, he retained an attorney to look after his interests.

Reduced prices for lumber on Graham Island are responsible for considerable building activity at Masset.

EXPECT FIVE POINT DOG SHOW IN MAY

Terminal City Kennel Club Officers Enthusiastic Over Prospects for Exhibition.

Vancouver, March 8.—An announcement was made at a meeting of the Terminal City Kennel Club last night that His Worship Mayor Baxter has consented to accept his election as honorary president of the club. Word was received from W. M. Coates, secretary of the Pacific Coast advisory board of the Canadian Kennel Club, appointing May 1, 2 and 3 as the dates for the club's spring show, also advising that the Canadian Kennel Club will donate two silver and three bronze medals for the best dogs in the show.

The committee have decided to give special classes in each breed for dogs owned by members of the Terminal City Kennel Club of British Columbia.

The indications are that the show will be the biggest ever held on the coast. The show will run three days. The last show was a four point one, but came so close to being a five point one that with equal prospects this year the committee expects to equal other big cities in that respect.

President Elkins was in the chair last night. Already twenty cups have been offered and assurances were given that this number would be doubled. It was decided to provide a junior puppy class, while all other standard breeds will be catered to in the premium list. It is expected that over 300 dogs will be exhibited at the approaching exhibition.

EVEN WALL STREET WAITERS JOIN CRUSADE

Fear Their Employment Will Go If Sulzer Measure Passes.

New York, March 10.—Waiters, elevator men, telephone operators, bank messengers, telegraphers and clerks in the financial district are engaged in a crusade, the like of which Wall Street has never seen. It is directed against Governor Sulzer's bills affecting the Stock Exchange, and in particular the bill to raise from \$2 to \$4 the state tax on the transfer of ownership of each one hundred shares of stock.

Members of the Stock Exchange say such a measure would seriously reduce the amount of trading on the exchange, which already is at a low point, and among the 20,000 wage earners in the neighborhood of Wall street there is genuine alarm lest many of them be thrown out of work.

After the Stock Exchange members had done what they could in the way of protesting to Governor Sulzer and the Legislature, their employees took up the fight.

A committee is to be sent to Albany for the hearing on the bills before the legislative committee next Wednesday.

LOCAL NEWS ITEMS.

Mrs. J. H. Sweder returned this morning on the Prince George from a few weeks' visit to Seattle.

Mr. H. Avison, provincial government sanitary inspector, who has been on an official visit to Victoria, returned to the city this morning.

Mr. W. Clark Durant, superintendent of the Prince Rupert Hydro-Electric Co., Ltd., returned today from a hurried business visit to Vancouver and Victoria.

As announced previously, the committee in charge of the arrangements for the grand 17th of Ireland St. Patrick's concert to be given next Monday evening at the Westholme Opera House are leaving no stone unturned to assure the affair being the most successful entertainment of the kind so far brought off. Most of the leading amateur musical and dramatic talent will appear, and altogether a most pleasant and delightful evening can be counted on. The fact that it is some months since there was anything very ambitious attempted in the line of amateur entertainment in the city should assure a big turnout on Monday evening next.

Loyal Order of Moose.

The lodge will meet in the K. of P. Hall Thursday, the 13th inst., at 8 o'clock. A large attendance of members is requested.

Better than Ringing Door-bells

A PIANO manufacturer recently made a house-to-house canvass. He's one of those men with an absurd fear of the "waste-circulation" bugaboo—cannot get away from the haunting thought that only 10 out of every 100 readers of a newspaper may be possible buyers of his goods.

So he refused to advertise, and went a-canvassing—inviting people to come to his piano recitals. Then he wondered why they didn't come.

This is why:

He wasn't reaching the people.

His canvassers rang every door-bell in town. They talked to some one in every house.

But one in every household isn't enough—particularly if it doesn't happen to be the right person. And, as a rule, it wasn't the right person—it was a servant, or a child. The woman of the house was seldom seen; the man of the house, never.

Now, if the piano maker had placed an ad. in the newspaper, it would have reached thousands, where the canvassers could reach only hundreds.

And even though only 10 per cent. of the readers are actual piano buyers, this does not mean that the advertising read by the other 90 per cent. is wasted. Advertising talks, not only to the prospective buyer,

but also to his wife, his grown-up sons and daughters, his mother—even his mother-in-law. Their coaxing will help to convince the head of the house—and pretty soon there'll be a piano in that home.

This and dozens of similar cases which might be cited to show that "waste circulation" is an empty bugaboo, and should deter no one.

Take the motor truck. It can be sold only to large firms. Yet a motor truck manufacturer is successfully Advertising in daily papers. He realizes that he must reach, not alone the managers of the concerns that require trucks, but also their directors, their foremen, their head machinists, etc. It is found in actual practice that this Advertising radiates in a thousand directions, and again converges most astonishingly to influence the house that has made up its mind that horse-trucking is too costly and inefficient.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write if interested.
