The debate at Ottawa is not a didd partizan quarrel, but a great battle for great principles and great ideals. Love for Canada; hope for Canada; faith in Canada; all are stirred by the discussion. Let us rise "to the height of this great argument."

All Canadians Together

It is not implied that these

Ideas are monopolized by Liberals. We are all Canadians. We all love our country; we all have faith in our country; we all have the highest hopes for our country. But the "Conservative party" today is in grave danger of drifting into an anti-Canadian position strangely at variance with the traditions of the party which helped to frame Confederation; which pledged the credit of the country to build a railway from ocean to ocean, when Canada had not a quarter of its present available resources; which called its tariff "The National Policy." By what strange accident or blunder do we hear the successors of the authors of the National Policy loudly cheering Winston Churchill's declaration that a great shipbuilding industry cannot be established in Canada? Who says that the skill and daring that built railways through the dangerous and difficult passes of the Rocky Mountains cannot build anything that is to float on the Atlantic or the Pacific? Who, looking back over the splendid pages of Canadian development, shall set bounds to Canadian daring and enterprise? Little Beginnings of Greatness. We are all Canadians. We have no desire to monopolize for

DEFENDED PACIFIC NEEDS A WAR FLEET

Is Pointed Out Forcefully by the Organ of the Navy League.

The Navy, in its March issue, presents "Problems of the highest importance present themselves to the statesmen of the Empire. No longer is it true to say that the great dominions can best be defended in the narrow seas. It is indeed that the heart of the Empire must be safeguarded, the command of the Pacific the question of the future and the states which lie upon that are alive to the fact that growing danger is visible and in or after the year 1920 the storm may burst. We all hope that the alliance with Japan may be sure, but there are no grounds for feeling any certainty upon that point. It is only by dominating the Pacific that permanent peace can be assured."

This is not a justification for Australia's policy which is also policy advocated for Canada the Liberals?

An Australian navy and a Canadian navy in the Pacific working harmony would go far to give the British Empire that command of the Pacific which has now been lost.

The Navy says that a strong British naval force will be necessary in the Pacific Ocean by 1920. It is just seven years away. There is thus not a moment to lose.

DEVELOPMENT WILL BE ASTOUNDING

Minneapolis Man Interested in Prince Rupert Pays His First Visit to the City.

Howard W. Baker of Minneapolis, Minn., returned south this morning after a hurried visit to Prince Rupert. Mr. Baker arrived in the city Wednesday morning and left immediately for the interior, returning last evening. Although this is Mr. Baker's first visit to Prince Rupert, he has quite extensive property interests here. He was very favorably impressed with things as he saw them and says that local residents do not fully appreciate the wonderful development that will inevitably come within the next twenty-four months. Mr. Baker had been making a visit to the Panama Canal and came to Prince Rupert as a side trip from Seattle.

TREATY WITH JAPAN

Bill for Ratification of New Commercial Treaty Passes Its First Reading.

(Special to The Daily News.) Ottawa, March 28.—In the House of Commons yesterday the Premier's resolution calling for the ratification of a new commercial treaty with Japan was carried and the bill for the same was given its first reading.

Tsimpsaan Lodge Entertains. Tsimpsaan Lodge 58, A. F. & A. M., entertained as guests at a banquet last night the officers and members of Tyee Lodge, No. 66, in a fraternal visit. Music, speeches and recitations whiled away a very pleasant evening. About one hundred were seated at the tables.

Miss Barbeau of Prince Rupert attended the bachelors' ball at Hazelton on Wednesday night.

NEW SALMON CANNERY ON THE SKEENA RIVER

Haysport Company Hope to Have One Ready in Time for Spring Run.

Among those leaving on the George this morning were Mr. and Mrs. Merlin Knox-Brown on their way to England. Mr. Brown is president of the Skeena River Fishing Syndicate, which has a small cold storage plant at Haysport. He stated last night that his mission to England was to reorganize the company and get further capital. He says that the present plant is to be added to by the addition of a salmon cannery, which he hopes to see completed in time to handle the spring run.

Captain and Mrs. G. Hodgson, of the Salvation Army, left for the south this morning on the Prince George.

BOARD OF TRADE MEETS VICE PRESIDENT OF G. T. P.

THE PLANS FOR THE ROADWAY AROUND KAIEN ISLAND DISCUSSED--G. T. P. WILLING TO ASSIST

A deputation of the council of the Board of Trade waited upon Vice-President Donaldson of the G.T.P., at the office of Mr. Mehan, general superintendent, yesterday afternoon in regard to the construction of the proposed driveway around Kaien Island. It was pointed out by the deputation that a great advantage the road will be to the city and that something in this line is almost a necessity. It was also urged that the expenditure of the money at the present time would be a great help in tiding the city over the quieter period that naturally precedes the completion of the railroad.

Mr. Donaldson, in replying to the deputation, was not able to give any very positive information as the matter was largely in the hands of Mr. Chamberlin, the President. He understood that the G. T. P. had proposed certain changes in the plans of the B.C. Government and had little doubt that if the latter would meet them in these matters the G. T. P. would assist financially in the work and that it could be started with little delay.

Mr. W. C. C. Mehan, general superintendent, returned last evening from an inspection trip up the line of the G. T. P.

Mrs. Neher Is Recovering.

The friends of Mrs. Cora V. Neher will be pleased to learn that she has partially regained her sight and that her general health is sufficiently restored so that she will soon return to Prince Rupert. Her brother, Mr. A. J. Burroughs, of the Ocean Falls Co., Ltd., left for Vancouver and Seattle on the Prince George this morning and it is expected that Mrs. Neher will return with him, arriving here next week Saturday on the Prince Rupert.

Will Reside in U. S.

Among the passengers south-bound today by the Prince George were Mr. and Mrs. Edelbrock, Mrs. Haskamp and son and Miss Haskamp, all of whom are bound for Portland, Ore., where Mr. and Mrs. Edelbrock will make their permanent residence. Mrs. Haskamp and son and Miss Haskamp will also remain there for a short time, after which they will go to Los Angeles, Cal., where they intend to reside.

DEATH LIST OF THE DELUGE NOW NUMBERS FIVE THOUSAND

Property Loss in Dayton Alone Estimated at Twenty Millions--- Hundreds Marooned Without Food Since Last Tuesday--- Floods Show Signs of Subsiding

(Special to The Daily News.) Chicago, March 28.—From every town of the flooded districts of Ohio and Indiana comes word of the loss of life. These reports are in many cases possibly exaggerated and in others underestimated, but it is now believed that the estimate of five thousand who have perished in the disaster will be found near the correct figure. One good thing is that the worst may be said to be over, as during last night the flood waters receded by three feet. But a fierce blizzard is now raging over the submerged district, and this is materially interfering with rescue work.

Dayton, Ohio, March 28.—The Chief of Police declares that out side of the loss of life on the north side of the river, which at present cannot be correctly estimated, there will not be over 200 fatalities in Dayton. But conditions are still fearful, notwithstanding the beginning of the

rescue work, and many are being starved to death or are on the verge of starvation. In the downtown section, where the flood is deepest, hundreds of people are still marooned who have been without food since Tuesday. In the workhouse are sixty men who became desperate on Tuesday night and demanded a chance to fight for their lives. The superintendent marched and locked them in the madhouse and they have since been without food or water. The superintendent says he dares not release them now, so desperate have they become. The fire is under control and the flood has fallen three inches, so the people in the centre of the flood district are beginning to feel a trifle more hopeful.

Lima, Ohio, March 28.—It is reported here that the great reservoir at Celina, one of the largest of its kind in the world, has been weakened by the floods and that the banks are threatening to burst. If this should happen

many towns in the wide valley below are doomed to certain destruction.

Cincinnati, O., March 28.—At least one hundred bodies have been taken from the debris of the flooded district at Chillicothe, and it is estimated that over five hundred were drowned there.

Michigan City, March 28.—The United States Life Saving crew have left this morning on a special train, with a number of life boats, to assist in the rescue work at Peru, Indiana.

Dayton, March 28.—The following tabulated estimates of conditions here were issued this morning: 70,000 people marooned; 15,000 residences submerged; 1,120 miles of streets inundated; 5,000 persons given food at the rescue stations; 500 horses killed; 1,000 automobiles damaged; property loss, \$25,000,000. These are tentative figures.

TWELVE HUNDRED MILE TRIP THROUGH ERROR

San Francisco Passengers Got on Wrong Boat at Vancouver and Landed Here.

Probably for the first time in the history of Prince Rupert the city received three visitors today who came against their wishes. They were Mrs. Anna Jacobs and her two children, who boarded the steamer Spokane at Seattle on Tuesday night and arrived here at 12:30 this morning. Mrs. Jacobs thought she was on a steamer bound for San Francisco and her mistake was not discovered until the steamer was a considerable distance out of port. The Spokane's first stop after leaving Seattle northbound is Prince Rupert, a distance of more than 600 miles.

J. H. Rogers, local agent for the Pacific Coast Steamship Co., received instructions by wireless to look after the woman on her arrival here and purchase tickets for her back to Seattle by the first boat. The unfortunate woman did not have to wait long in Prince Rupert. With her two children she left at 9 o'clock this

morning on the Prince George. The officials of the company are at a loss to understand how the lady got past the officer at the gang plank with the wrong tickets.

JAPANESE THREATEN WORK OF RETALIATION

If the Anti-Oriental Bills Now Before California Legislature Pass.

San Francisco, March 26.—Cable advices received in Vancouver from Tokyo indicate that the Japanese resent keenly the measures before the California State legislature directed against Orientals. If the bills are adopted by the state a vigorous agitation, it is said, will begin in Japan to boycott the San Francisco exhibition. Japan has already consented to be represented, but it is felt that this consent will easily be withdrawn should a sufficient number of the public so demand.

Charged with Supplying.

At the police court this morning Rudolph Durand, proprietor of the Columbia Restaurant, on Third avenue, was charged with supplying liquor to an Indian named M. M. Timothy. The evidence was considered incomplete and the charge was dismissed.

LITTLE JOKER SHOWS EARLY ELECTION SURE

Conservatives Have Already Provided in the Estimates for Expenses Under Election Act.

The little item of \$125,000 in the estimates to provide for expenditure under the election act should be a wink as good as a nod to the wise ones. The evident purpose of the appropriation is to meet the expense of a general election. When the election will come is, of course, problematical as only the cabinet has the information. But if the government is guided to any extent by the motive of political expediency it will make the date an early one. The situation could not be better, from a party point of view, than it is in Alberta at the present time for the Liberal party, most especially in view of the deplorable failure of the Conservative opposition in the present session to disclose the terrible financial tangle into which the province is alleged to have been plunged or to discover the crisis within the party which was supposed to be already to open up a split in the Liberal ranks as wide as the Yellowhead defile, through which the Conservatives proposed to walk into power. — Edmonton Capital.

TEN THOUSAND MEN COMPLETING RAILWAY

Seven Thousand of Them Between Tete Jaune Cache and Hazelton.

Arrangements have been made for the employment of 10,000 men this summer, of whom 7,000 will be strung out along the 426 mile gap on the main line between Tete Jaune Cache and Hazelton, B. C. Steel is laid on this section as far as the Rau Shuswap River, 1,123 miles west of Winnipeg. A steel structure spanning this river will be placed in position as soon as the footings (upon which work has already been started) are complete.

East of Prince Rupert the head of steel is now 195 miles from the Pacific Coast; between that point and Aldermere, which is approximately 1,500 miles from Winnipeg, several steel bridges have yet to be erected, and some grading still remains to be done. From Aldermere easterly the grade extends to the Endaka River, 341 miles from Prince Rupert. There is then a gap of 126 miles to Prince George, upon which clearing work is being done.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 29.410; maximum temperature, 40; minimum temperature, 36; precipitation, .95 inch.

To Bring Back a Bride.

Mr. Baxter, of the Dominion engineering staff, left on the George this morning and it is stated that he will bring back a bride and take up his permanent residence here. On his way back he will make a brief stay at Bella Coola on Dominion business. He expected to be away only two weeks.

JAPAN AND THE PANAMA EXPOSITION.

Japan has plainly intimated to the state legislature of California that if it passes the law, now under consideration, to exclude Japanese from owning real property in the state, her support will be withdrawn from the San Diego and San Francisco expositions, to be held on the opening of the Panama Canal in 1915. The attorney for the Panama-Pacific exposition warns the state that if this law is passed it will not only offend Japan, but will be displeasing to England and Germany, both of which nations desire a liberal Oriental representation before their merchants and manufacturers co-operate in the exposition, says the Vancouver Sun.

It is not difficult to see where the pressure is coming from, but it is unfortunate for California that the representative men she has chosen to manage the great fair should have such a limited view of the interests of their state as to prefer a transient gain, which, after all, will only put money into the pockets of hotel and boarding house keepers, to the permanent good of the country. California has learned, as British Columbia is learning, that Asiatics should not be permitted to occupy the land. The Panama Canal exposition will be a magnificent affair, but will

only last a few weeks. The State of California will exist as long as the world lasts and its destiny as one of the great states of America is now in the making, but if people who have special interests to serve are allowed to control the legislature, as the exposition commission evidently wishes to control it, California will, in half a century from now be no place for a white man to live.

We have the same Asiatic problem in British Columbia that our neighbors to the south have, and like them we have influences among us which prevent us from controlling and regulating Oriental immigration. The solid sense of California will probably override the opposition to the exclusion bill which is coming before the legislature, but unhappily British Columbia is not yet prepared to take an emphatic stand on this question. It is a matter of fact that aliens of every kind are given a far better opportunity by the government to take up lands than British subjects are; the province, and especially the island, is honeycombed with Chinese and Japanese settlements, and if the government continues its present policy of inaction it will not be long before we find out, as California has discovered, that white settlement in many of the most promising districts of the province will be impossible.

ASSASSIN OF KING GEORGE WAS ALONE IN THE CRIME

SCHINAS, WHO SHOT THE KING OF GREECE, REFUSES TO
IMPLICATE OTHER PERSONS

Salonika, March 26.—The assassin of King George of Greece is held in close confinement. At various periods throughout the night he was forced to undergo an examination but without eliciting any further facts to show that other persons were implicated in the crime.

Schinas is not a mad man but probably weak minded. He lived by begging, and three weeks ago came to Salonika by way of Athens. He stopped for a few days at Volo, where he delivered addresses in which he stated that within a short time he would succeed in establishing equality that there would be no longer either rich or poor and that work

which was now accomplished in one hour would be spread over two. Interrogated as to why he assassinated King George, Schinas replied:

"I had to die somehow, as I suffer from neurasthenia and therefore wished to redeem my life."

He appears to have led a wretched existence, subsisting almost entirely on milk. His family has long ceased to acknowledge him. Schinas for a time was an instructor in the medical department of the University of Athens. He refused to give any explanation of the crime beyond that two years ago he applied for assistance at the palace and was driven away by an aide-de-camp.

FURS TO BE MUCH DEARER NEXT YEAR

At This Year's Sale They Went
Fifty Per Cent. Higher.

London, March 24.—Furs will be much dearer next year. A pre-Easter sale in London last week shows that all furs are selling at from 10 to 50 per cent. higher than they did last year.

The sale here had an unusually large attendance, the buyers numbering more than 200 and representing every country of Europe, as well as the United States. The demand for furs has increased by leaps and bounds, while the supplies have been rapidly diminishing, as was prophesied. China and Africa now remain the only places which had not developed for skins, and there is a likelihood that the next few years will see several novelties.

As usual the highest priced furs are going to Russia. One of the features of the sale here was 500 sea otters, which probably will be the last consignment for several years, as they will now be placed on the prohibited list to prevent their extermination. All brought extremely high prices.

One skin sold for the record price of \$2,300, going to Russia. This skin will be used only for making coat collars. Only about five are obtainable from the skin. The price works out at \$410 for the rough material, but a single skin, by the time it reaches the wearer, is likely to cost \$1,000.

Silver foxes were 50 per cent. higher than last year. One brought \$1,750. Blue foxes established a new record, one fetching \$145.

One feature of the sale was the increasing popularity of the American skunk. A million and a half were offered and they were eagerly taken.

The only skin which showed a decline was the lynx, which was 40 per cent. cheaper than it was a year ago, but the buyers are agreed that last year's price for lynx was unjustifiably high.

LUTHER MC CARTY HAS FOUR BOUTS IN SIGHT

Big Fellow Will Take on Three
Soft Ones and Then Tommy Burns.

Chicago, March 26.—Luther McCarty has practically signed up for four fights within five weeks.

The white heavyweight champion of the world will be kept busy from now on as much as it will be possible for him to be. He intends to take all of the offers made to him that are reasonably fair in a financial sense.

From present indications McCarty's bank roll will be increased by a matter of \$24,000 if all these fights go through as per schedule. He agrees to all the agreements his manager has made for him. His schedule is: April 15, six rounds in Philadelphia with Tom Flynn; May 13, six rounds in Pittsburgh with Frank Moran; May 10, ten rounds in Kansas City with Carl Morris, or some one else; May 15, about ten or more rounds in Calgary with Tommy Burns.

The first three matches are regarded by McCarty, his manager at the present time, a cinch. He is still negotiating by letter and wire with the promoters in Calgary relative to the Burns match, and last night it looked very much as if the two sides would come to blows. The Flynn and Moran matches will net McCarty \$5,000 each, the Kansas City match will bring him in \$4,000, and he will receive for his share, irrespective of the result with Burns, a guarantee of \$10,000, making the total for the four battles \$24,000.

LOCAL NEWS ITEMS.

Mrs. Hyde was among the southbound passengers on the Prince George this morning on a two weeks' trip to Vancouver, partly on business and partly in hopes that the little change will prove beneficial to her health.

C. C. Perry, Indian agent, of Metlakatla, left on the Prince George this morning for Vancouver.

The large freighter Amur left last night for the south after discharging a cargo of coal for the G. T. P. and hay for Foley, Welch & Stewart.

James Pepper, of the crew of the Prince George, was admitted to the hospital yesterday suffering from inflammation in one of his legs, the result of injury sustained some time ago. The case is not considered serious.

A shipment of fresh milch cows will arrive by the Princess Mary this afternoon for the Prince Rupert Dairy.

Mrs. Shafer and Miss Shafer, mother and sister of Mr. Shafer, of the Prince Rupert Dairy, left on the Spokane this morning to take up their residence in Ketchikan.

Mrs. Storey is now presiding at the piano at the Empress Theatre. She is a notable addition to the musical talent of the city. She is a pupil of Letchinsky and a graduate of the Berlin Conservatory.

Hazelton Ball.

The assembly hall given by the bachelors of Hazelton on Wednesday night was a grand success in every way. The hall was very prettily decorated and the gowns were extremely beautiful. About fifty couples were in attendance. The music was supplied by Gray's orchestra of Prince Rupert and was satisfactory in every respect.

The London Times refers to Mr. Borden's naval policy as one which lays "the foundation of a permanent Canadian fleet." It is evident the Times is working on

either party the qualities which have made Canada great. Before Mr. Borden's policy was announced, we pledged him our hearty support if he would develop and enlarge the naval organization which he found ready. Let our opponents laugh at the Niobe and the Rainbow as they will. They were the beginnings. We were and are willing that the idea should be developed, and the navy enlarged. Mr. Borden and his friends were and are welcome to any prestige that might come from that enlargement.

The Pioneers of Canada
But Mr. Borden has allowed himself to be discouraged. Read the history of Canada, and say whether there is any ground for discouragement. Your ancestors left their comfortable homes in Great Britain and the United States, struck out boldly into the pathless forests of Canada, endured hardship and loneliness, made homes and farms. They were not such homes and farms as we see in Ontario today. But we do not despise, we venerate the log hut and the little clearing which prepared the way for the spacious farm house and the scientific agriculture of our day. Why, then, laugh at the beginnings of a Canadian fleet? Why seek to discourage the grandsons of men who successfully carried out an enterprise even greater than the building of a Canadian fleet?

A Model for the Empire
Your ancestors were told that they could not govern Canada; they laughed at the men of little faith. They built up a system of responsible government which has been extended to Australia and South Africa and is the glory and strength of the British Empire. They covered Canada with schools and churches and all the complicated machinery of civilization. They carried scientific farming up to a point not surpassed by any State in the American Union. In manufacturing industry the Canadians progressed steadily, from the simplest to the most advanced forms, until now they deem nothing beyond their powers. Surely it is only in the thoughtlessness of partisan zeal that any Canadians can cheer Winston Churchill's message of discouragement. Mr. Churchill knows the needs of the Empire. But we know Canada's history and Canada's power better than Mr. Churchill. When we speak of Canada we say: We know what master laid thy keel, What workmen wrought thy ribs of steel, Who made each mast and sail and rope, What anvils rang, what hammers beat, In what a forge and what a heat, Were shaped the anchors of thy hope. Mr. Churchill is an able man. But he must not tell us that the men who built Canada cannot build a ship.—Toronto Star.

Things are not always what their names would indicate. For instance the vacuum cleaner is never used to clean vacuums.

Be Suspicious

BE suspicious of that of which nobody is proud. Be suspicious of the mere low-price argument offered in favor of an article with no reputation, no backer, no guarantor.

Better buy the thing you know and can trust, than an article unbranded and unvouched for.

The branded shoe, made by a maker with a reputation, is a safer shoe to buy than the one made in an unknown factory by an unknown maker.

The underwear made by a firm whose name is as familiar to you as your own, is worth more to you than underwear nameless or labelled by a maker of whom you have never heard.

Tea sealed in a packet bearing the name of a reputable firm is to be preferred to tea of which the packer is not sufficiently proud to advertise its quality.

That in which much money has been invested to make or keep it good is worth more than that on which nothing or but little has been spent.

Peace of mind is worth something, just as quality is. Buy peace of mind.

When you buy anything worth while buying, buy that of which you know—from advertisements, or from other dependable acquaintance. Buy the article with the "money back" guarantee—with the pledge of a known name behind it.

Put your faith in the advertisements appearing in good newspapers. Beware of the article that cannot stand the spot-light of publicity. The commodity an advertiser backs with his own money is something worth your buying.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 508 Lumsden Building. Enquiry involves no obligation on your part—so write, if interested.
