## PIERPONT MORGAN, WORLD'S FAMOUS FINANCIER, IS DEAD—ILLINOIS NOW INUNDATED

### FORTY THOUSAND MUST BE FED AND HOUSED IN DAYTON

### ILLINOIS NOW THREATENS TO BECOME A CENTRE OF FLOOD DISTRESS, CAIRO BEING IN IMMINENT DANGER.

(Special to The Daily News.)  
Dayton, Ohio, March 31.—Here the problem presented at Dayton is: Forty thousand persons must be fed, clothed and housed for a week longer. Twenty thousand persons must be cared for definitely. These are persons who have lost all when their household goods were swept away. Fifteen thousand houses and business buildings must be rehabilitated. Ten thousand houses and other structures, or what remains of

them, must be pulled down. Thousands of tons of debris must be removed.

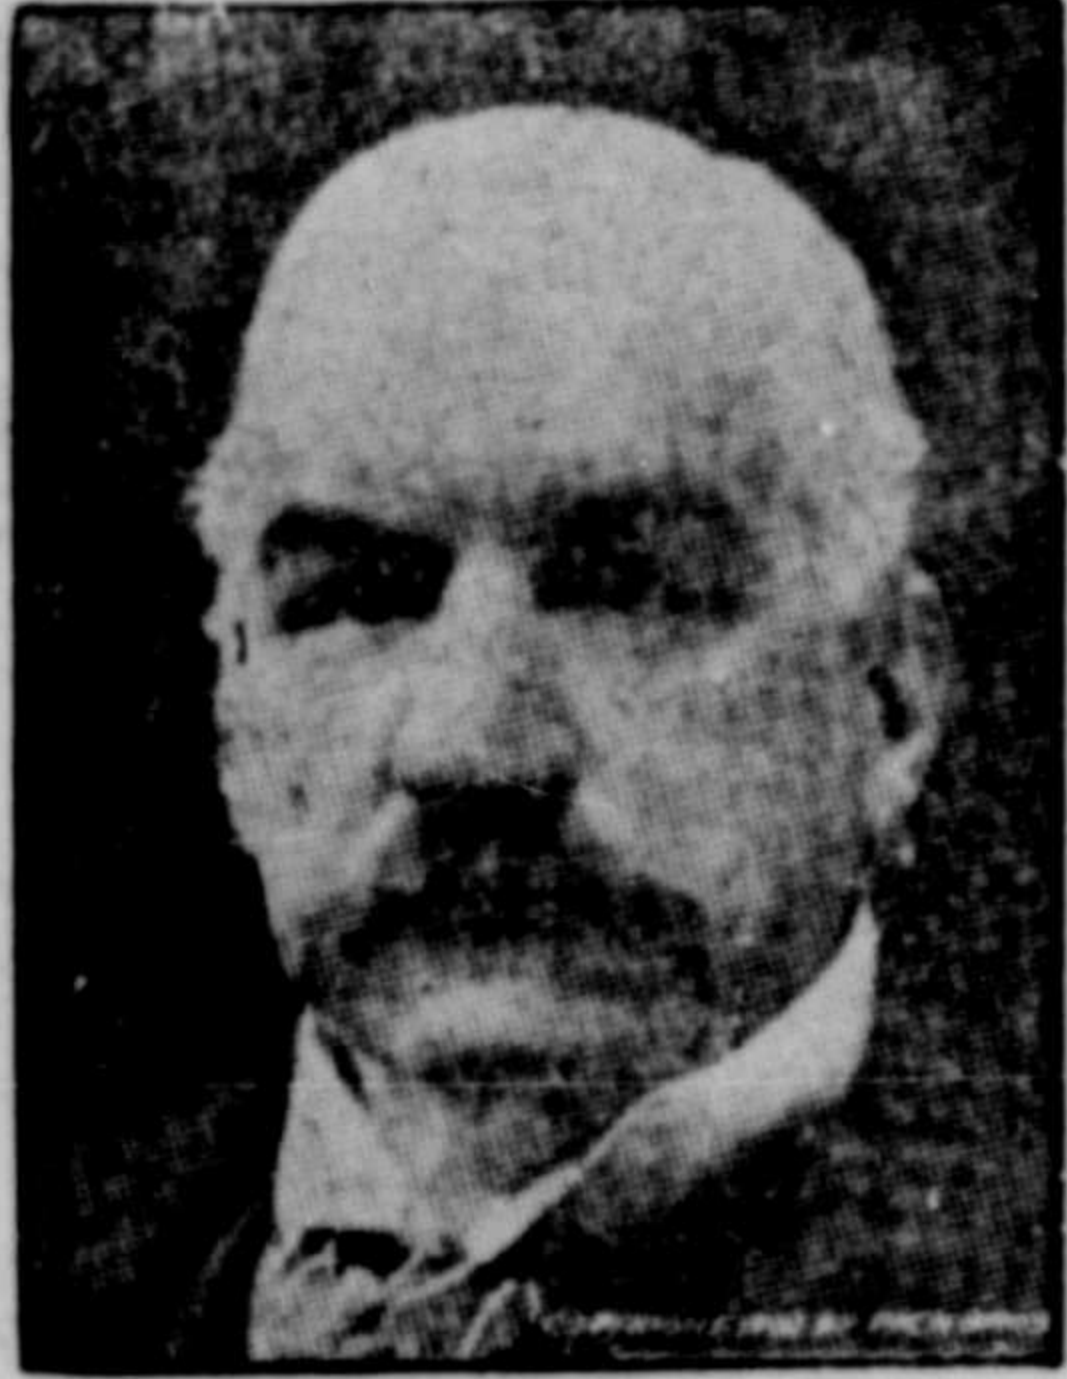

#### Illinois a Flood Centre.

Springfield, Ill., March 31.—Illinois threatens to become a centre of flood distress. Startling messages were received last night by Governor Dunne and Adjutant General Dickson, indicating that Shawnee town and Cairo are in imminent danger of being inundated. Other towns also are in

### GREATEST FINANCIER OF THE WORLD PASSES AWAY

### PIERPONT MORGAN DIES AT ROME, WHERE HE HAD GONE TO BE TREATED FOR NEURASTHENIA

(Special to The Daily News.)  
Rome, March 31.—J. Pierpont Morgan, the world famous financier, passed away at five minutes past twelve today (6.05 a.m. New York time). Dr. Bastanelli, his private physician, and Dr. Maravata, the physician to His Majesty the Pope, were with him to the time of his death. He came to Rome suffering from neurasthenia for the express purpose of being treated by Dr. Bastanelli. This was the first illness in his long career and by the time he had arrived had become a case of general debility. He failed to respond to the treatment of the celebrated doctor. On Sunday night his relatives were notified that his life was despaired of and during the night he gradually sank but regained consciousness to the last. Mr. Morgan, who was seventy-two years of age, was the son of a famous banker and financier. He began his career by the start-up of a partnership with Anthony Drexel, the wealthy Philadelphian, and establishing the present firm of Drexel, Morgan and Co. having branch houses in London and Paris. His success as a financier of late years, especially since the formation by him of the great Steel Trust, has

THE LATE J. P. MORGAN

been phenomenal and at the time of his death he stood head and shoulders above any other figure in the financial world. As such he exercised an immense influence in other countries besides his own, and all these influences he has exercised for the general good rather than mere personal aggrandisement. He has always been a great collector of works of art and in all probability the great Morgan museum and library will be his will gift to New York city and the nation.

### NAVAL BILL SHELVED FOR VOTE ON SUPPLY

### Hoped to Pass One-Sixth of Estimates Before End of Present Week.

(Special to The Daily News.)  
Ottawa, March 31.—Nothing is definitely known as to when the consideration of the naval bill will be resumed in Parliament. Supply will be the business taken up for the next few days, and a supply bill for one-sixth vote of practically all items in the estimates will be passed. Just when this will happen has not been definitely agreed upon, but the government is hopeful that it will be consented to by the opposition before the end of the week.

L. C. Macken left for Vancouver on the Princess Mary last night.

### "UNCLE JERRY" HAD A SERIOUS ACCIDENT

### Fell Down Companionway and Was Unconscious for Several Days—Is Now Recovering.

The many friends of Uncle Jerry Kugler in this city will regret to learn that he met with a rather serious accident about a week ago while on a trip from Vancouver to Victoria on the Princess Alice. Going down the companionway he slipped or missed his footing and fell to the deck below. Although no bones were broken he suffered a bad shaking up and was unconscious for four or five days. He had recovered sufficiently to be taken back to Vancouver yesterday and is now considered to be out of danger. Mr. J. Kugler Jr. went south last week and will remain in Vancouver for a few weeks in charge of his father's affairs. Mrs. Kugler and little child also left for Vancouver on the Prince Rupert this morning.

Never hit a man when he's got you down.

### MINING RECORDER AT HAZELTON IS CHANGED

### Government Official from Nelson to Succeed Mr. Allison.

Stephen H. Hoskin, mining recorder and assessor at Nelson, has been appointed government agent at Hazelton, to succeed W. Allison, whose appointment to the post of auditor general of the province was forecasted by the Times last Thursday.

Mr. Hoskins arrived in the city this morning from Nelson at the summons of the government and leaves for his new post at Hazelton on Wednesday morning. Mr. Hoskins has been in the provincial service for 18 years, his first appointment as provincial constable dating back to the days of Hon. Joseph Martin. For many years as constable Mr. Hoskins was stationed in Victoria and other places on the island. He was also posted for some time in the East Kootenays. Since then he has been doing office work at Nelson.

Mr. Hoskins is a well known and popular government servant, and the news of his appointment to Hazelton will be received with pleasure by his many friends here and in other portions of the province.

### TWO MONTENEGRINS GET FIVE YEARS

### Were Convicted on Charges of Forgery and Sentenced by Judge Young.

Two Montenegrins, Tom Wasich and Bill Tadich, appeared before Judge Young at Hazelton on Friday, both charged with forgery. It appeared from the evidence that another Montenegrin, Sam Metrich, had a considerable sum of money to his credit at the Union Bank in Hazelton. Leaving for a trip south, he turned over his pass book to a friend, Sam Tadich. The latter transferred it to his brother, Bill Tadich, who immediately started issuing cheques on the account, a couple of which were cashed. He then turned the bank book over to Tom Wasich, who also used the account as though it were his own. Altogether cheques amounting to \$230 were cashed.

Both men practically admitted their guilt and were sentenced to a term of five years each at New Westminster.

Constable Grant of Hazelton brought the prisoners to Prince Rupert last night and left at 9 o'clock this morning for the south.

### AMBASSADOR TO BRITAIN

### Train on Sunday Did Not Get In Until After Midnight.

Owing to the heavy rains and the frost going out of the ground, a serious rockslide occurred at Mile 86. The train had to be held until a crew had cleared the track and it did not get into Prince Rupert until nearly 1 o'clock.

### COLLART & REYNOLDS TAKE NEW OFFICES

### Have Moved from Sixth Street to the Banking and Financial District.

With the expansion of their real estate business, Messrs. Collart & Reynolds have moved into more commodious quarters in what may now be classed as the banking and financial district of the city. Their new premises are in the Hart Block, next door to the Bank of Montreal, which have been fitted up in an up-to-date manner suitable to the handling of a great business. For the last two years their business has been continually increasing and the change of premises had in consequence become imperative. They are large handlers of Fort George and other interior realty as well as of Prince Rupert lots.

### RECEIVER APPOINTED FOR CITY OF SANDON

### Former Chief of Police of Nelson Named to Take Charge of Mountain Girt Town.

Mr. Charles W. Young, a well known resident of the Kootenays during some years past, formerly chief of police of the City of Nelson, has been named by the government as receiver of the little mountain girt City of Sandon, the appointment being made upon the recommendation of Mr. William Hunter, the member for the district. Mr. Young, under his new commission, will be virtually all public officers and offices rolled into one—from mayor and city council to pound keeper and municipal dog catcher—with exceptional and unique discretionary powers.

### Liberal Meeting

### TWO RAILWAYS RACING TO ENTER CITY FIRST

### Canadian Northern and Grand Trunk Railways Both Within Four Miles of Calgary.

Calgary, March 27.—Rival camps of Grand Trunk Pacific and Canadian Northern Railways are each within four miles of Calgary's post office. A vigorous battle is being waged for the honor of being the first to enter the city limits, and it is expected that steel will reach that point on both rights-of-way within forty-eight hours.

Each road will be halted, however, at the Bow and Elbow rivers, respectively, owing to the uncompleted state of bridges, postponing entry to the terminal sites of the rival roads. These bridges will not be completed until warmer weather occurs.

### Goes North for Summer

J. H. Horne, who returned from California on Saturday last, left on the Princess Sophia this afternoon for Dawson, where he will spend the summer looking after his mining interests. Jack experienced rather regrettable weather in California during the winter but is anticipating a splendid summer in the north.

### BALKAN ALLIES ARE NOW ON THE MARCH TO CONSTANTINOPLE

### BELIEVED THAT TURKEY'S GREAT SEAT OF GOVERNMENT IS DOOMED—MONTENEGRINS ARE ROUTING THE TURKS.

(Special to The Daily News.)  
London, March 31.—The Bulgarians, assisted by troops of the other allies, are now advancing from Adrianople rapidly in the direction of Constantinople. It seems now as if the seat of the Turkish government was doomed and the end of the war in sight. The powers have exhausted every hope of getting the allies to agree to the peace propositions proposed, and although they sent a peremptory demand a few days

ago to the allies that hostilities must cease the latter continued fighting in defiance of it.

#### Montenegrins Beating Turks.

Cettinje, March 31.—Since yesterday the Montenegrin artillery on the main front before Scutari has been developing great activity. The Turkish positions in the plain before the town have been bombarded heavily and the Turks have been driven from their entrenchments near the River Kir by the persistent artillery fire.

### GERMANS IN LONDON WILL HONOR THE KAISER THERE

### BELIEVED THIS IMPORTANT MOVE TOWARD STRENGTHENING ANGLO-GERMAN FRIENDSHIP WILL PROVE BIG SUCCESS.

London, March 28.—That Germans in London are going to celebrate the Kaiser's twenty-fifth anniversary of his rule in Germany in true Teutonic manner goes without saying, of course, for Germans remain loyal to their country and its rulers all the world over, but it is rather surprising to hear that the people in London who live in continuous fear of German invasions have definitely decided to have a special anniversary of Emperor William's accession to the throne.

An Anglo-German exhibition is to open at the Crystal Palace in the beginning of May and here the great festival is scheduled to take place on June 15 in the presence of King George and Queen Mary, possibly accompanied by the King and Queen of Denmark, who at that time will be their guests at Buckingham Palace.

There is every indication that this important move toward strengthening Anglo-German friendship will be a great success. Among those who are taking a close and active interest in the scheme are the Duke of Argyll, the Earl of Lonsdale and the Earl of Plymouth. It is on the suggestion of the Duke of Argyll that the project is being carried through without asking

for the support of the British and German governments.

The organizing committee feels that nothing can tend to bring Great Britain and Germany more closely together than an exhibition showing the wide range of trades and manufactures in which the two countries are mutually helpful, and also giving prominence to those numerous branches of art in which they can learn from one another.

#### BOUND FOR DAWSON

#### Contingent of the R. N. W. M. P. Passed Through on the Sophia this Morning

Among the passengers on the C. P. R. steamer Princess Sophia which arrived from the south at 11 o'clock this morning were six members of the R. N. W. M. P. bound for Dawson. In conversation with a "News" reporter they stated that it was their first trip to the north. They were very much impressed with Prince Rupert and said they expected to find a flourishing city here on their return south three years hence.

### IS MENTALLY DERANGED

### Man From Stewart Taken to New Westminster This Morning.

Tony Besich, the man from Stewart who scattered his money to the four winds and who was brought to Prince Rupert about ten days ago, left on the Prince Rupert this morning in charge of Constable Merritt. Besich, it is feared, is mentally deranged. He will be kept in charge until he shows some signs of improvement.

### Leaves for Atlin Stampede

K. Washrecker, a former resident of Atlin and a well known mining man of the north, accompanied by W. McIntosh of San Francisco, were passengers on the Sophia today, en route to the new gold diggings near Teslin Lake. They had with them a very complete equipment and are prepared to make a thorough investigation of the prospects of the district.

### Arrivals from the South

Among the passengers for Prince Rupert on the Princess Sophia this morning were: Thos. Hazel, A. D. McPhaden, Mrs. Adams, D. McIntosh, A. S. Christie, A. C. Clarke, Mr. and Mrs. Nelson, Mr. McConnell, H. Avison, Mr. Cole.

Miss Balfour left on the Princess Mary last night for Vancouver en route to her home at Hamilton, Ontario.

**FRANTIC EFFORTS OF PREMIER BORDEN.**

In his frantic efforts to obtain some favorable consideration for his naval proposal Premier Borden is now telling the people of Canada that "if the contracts are let with the utmost despatch for the construction of three battleships they will not be ready to be placed in commission before the next general election. In case it should then be the will

of the Canadian people to recall these ships and make them part of a proposed Canadian naval service, it will be perfectly feasible to follow that course."

colleagues to present, at a later period, a permanent policy, involving the construction of a Canadian navy. When the theory of an emergency was exploded and there was no longer any argument on which to base a program of contribution, Mr. Borden took the ground that Canada could not construct a navy and that if assistance was to be given to Imperial navy defence it must take the form of tribute to the admiralty, "that splendid organization which the empire already possesses." To bolster up this new argument, which meant the abandonment of his permanent policy, he secured a memorandum from Mr. Winston Churchill, who had been instrumental in framing his original proposal for him. Between them they were at great pains to convince the people of Canada that a Canadian navy was an impossibility within half a century at least.

And having made the government's position in this point perfectly clear Mr. Borden now, frightened apparently at the hostile feeling in the country, again shifts his position and tells us that if the public will support him in offering this contribution to the admiralty he will so arrange matters that we can reclaim the three dreadnoughts and include them in our own navy should we decide to establish one for ourselves—that is in the navy which cannot, as he told us before, be constructed within half a century.

**NEW REGULATIONS AT EXPENSE OF CANNERS.**

If, as is alleged, the new fisheries regulations affecting the salmon canning industry in the Skeena district are intended to benefit the cold storage enterprises at the expense of the canners, Mr. Bowser's legislation, which he induced the Dominion government to adopt, is apt to be almost as disastrous to the true interests of the province as the general policy pursued by the McBride government. We shall all agree that where it is possible to do so, without injury to legitimate investments, made in good faith in British Columbia, consideration should be shown to white workmen. This province should unquestionably be kept for the white people and as far as possible for the people of the Anglo-Saxon race. But any government or any minister of the Crown who, under the pretense of seeking that end, endeavors

to serve selfish interests or give an unfair advantage to corporations, is unfaithful to his oath of office and does not deserve the confidence of the people.

Abundant grounds exist for the presumption that the new regulations on the Skeena will operate to the disadvantage of the cannery industry if, indeed, it will not before long make it impossible to operate that industry at a profit. Nor will the result, which it is said the British Columbia government is seeking, that is, to assist the cold storage enterprise, furnish any equivalent for this loss to the province.

In the meantime, observes the Vancouver Sun, it does appear that there is not a sufficient number of white fishermen in the north to justify the new regulations, and that the canneries, as a consequence, are likely to suffer. If it is true, as stated, that Mr. Bowser disposed of interests of his own in the cannery business before these regulations were passed, his action is a commentary on the conduct of the legislator which it is unnecessary for us to more than allude to.

**CANADA A PARTY TO NEW JAPAN TREATY**

Will Join Great Britain in Commerce and Navigation Pact.

Ottawa, March 27.—The government has decided that Canada shall become a party to the treaty between Great Britain and Japan, which was concluded in 1911.

It is termed a treaty of commerce and navigation, and was entered into on the understanding that it should not apply to any of the British dominions except such as should within two years signify their adherence to it. The two years will expire on April 3, and the Prime Minister has given notice of the introduction of a bill in the Commons giving Canada's adhesion to the treaty.

In brief the British treaty places the subjects of either power upon terms of equality with native subjects in both countries as regards rights of travel, residence, commerce, possession of property, immunity from extra taxation and reciprocal freedom of trade and commerce.

It also provides that articles, the products or manufactures of either country shall not be subject to higher duties other than those levied upon similar articles from other foreign countries. And, further, that there shall be reciprocal freedom of shipping except as regards coasting trade.

The Dominion act, however, will make provision that nothing in the treaty shall affect the terms of the Canadian immigration act.

**COUNTESS ZINARDI'S NURSE LOSES HER LIFE**

Run Down by London Auto While Protecting Zinardi Children

The heroism of a nurse, who lost her life in a London Street in saving her two little charges, was the touching story revealed at a Paddington inquest.

The brave nurse was Annie Lalotgerger, aged forty, and the children were those of Caroline Countess Zanardi Landi, whose remarkable life story and her claim to be the child of the late Empress Elizabeth of Austria were recently published in the Daily News.

The tragic story of the accident was described in the witness box by the Countess. With her two children and the nurse the Countess said she was crossing from Marble Arch to Edgware-road, and was walking toward a street refuge when the traffic was started quicker than she expected. The Countess said she noticed the approach of a motor car and the nurse hurriedly stepped backward. The Countess said she saw the nurse being knocked down. As she was falling she pushed the two children away from her, undoubtedly thereby saving their lives.

Other evidence showed that the traffic at that time was in a good deal of confusion, no fewer than eight lines being controlled by one constable, and the nurse, in stepping back, stepped right in front of the approaching car. If she had not moved the accident might not have happened.

The verdict was one of accidental death.

Countess Zanardi Landi's two children are Antony Franz Josef, aged ten, and Maria Christina Elizabeth, aged eight.

**THIRTY-NINE LEPERS ARE BURNED TO DEATH**

By Order of Chinese Officials of City of Nanning

Thirty-nine lepers, men, women and children, were burned to death recently by order of the president of the Kwang-si province as "the rejected of heaven," and useless encumbrances on the earth. These unfortunate creatures were under the charge of the Catholic Mission, which had bought ground near the city of Nanning and began building a leper hospital. The plans of the father in charge for gathering the lepers in one place for care and treatment were warmly favored by local merchants, but while negotiations were being carried on for their purpose, a large pit was dug on the parade ground, the intended use of which was never suspected.

One morning more than a hundred soldiers surrounded the leper village so that none could escape. The lepers were then driven, at the point of the bay-

onet, to the parade ground—to the pit that had been so carefully prepared. A thick layer of wood covered the bottom of the pit into which all were obliged to descend. One by one the poor women, carrying their babies, descended the ladder and took their seat on the fatal pile; then the rifle fire was opened on the poor victims, a copious supply of petrol was poured over them and a burst of flame announced to the town the massacre of the lepers.

In issuing a proclamation in which these facts were duly stated, Tean Hao Ming, the president of Kwang-si, concludes with the words: "I assured myself of universal approbation." Commenting on the incident, the Shanghai Times says the Chinese officials and those who appointed them seem to stand equally outside the pale of civilized nations.

The paper that prints the facts—the Daily News.

GREAT BRITISH HERO HAS GONE TO HIS REST

Recent Death of Lord Wolseley and Comparison of His Career with Lord Roberts.

The name of Lord Wolseley and Lord Roberts are associated in the minds of the British people as the two greatest military commanders of their country and generation. Lord Roberts seems to have possessed more of those qualities which win for a commander the personal affection of the soldiers and the people.

Lord Wolseley was severely wounded in one of the earlier actions of the Crimea War and was mentioned in despatches. He was then barely of age and this was his second campaign. He had entered the army at nineteen and the same year earned a medal in Burma.

**DEPARTMENT TO AID FARMERS OF PROVINCE**

Arrangements Made for Sale of Pure Sires to Farmers' Institutes.

The live stock branch of the British Columbia Department of Agriculture will sell pure bred sires to farmers' institutes within the province under the conditions as outlined below:

Bulls will be sold on the following terms: One-third of purchase price when bull is delivered, one-third at one year from the date bull is delivered, and one-third at two years from the date bull is delivered. No interest will be charged except after payments have become due; in such cases interest will be charged at the rate of 10 per cent. per annum. The Department of Agriculture will pay all transportation charges, so that the animals will be sold for their initial cost to the live stock branch at the points where they are purchased.

Boars and rams will be sold on the same conditions as bulls, except that they shall be paid for by two equal payments; the first payment to be made at date of delivery, and the second payment at one year from that date.

The selection of the breed to which a bull shall belong shall be made by the majority of the members of a farmers' institute present at a meeting called for that purpose, of which due notice shall be given. The selection of a breed should be given the most careful consideration, and the members should have in mind a permanent policy. No progress can be made by a periodic changing from one breed to another.

Requisition for animals shall be made by the use of a form supplied by the department and signed by the president, secretary, directors and six additional members of the farmers' institute.

The live stock branch realizes that in the case of rams and boars it will often, if not always, be found best to have each animal the property of one or two men. In such cases the farmers' institute shall have the privilege of selling to such person or persons on the same terms and conditions under which the department sells the animals to the farmers' institute.

The farmers' institute shall agree to carry out the instructions of the live stock branch relative to the care and management of the animals until all payments have been made.

The live stock branch reserves the right to fix a maximum service fee.

**The Greatest in the World of Merchandise**

When it comes to slaughtering prices on the best, seasonable merchandise, O'REILLY has them all backed off the walk. The questions are asked: "How does he do it?" Because he buys in large quantities and knows how to buy. "Why does he sacrifice on these goods?" Because one store is enough. Never again will the people of Prince Rupert have an opportunity to buy clothing at such ridiculously low prices.
