JOHNSON AND DELZENE STRUGGLING TO BE FIRST AT CANDLE—SCOTTY MAKING HUNDRED AND TWENTY MILE DASH.

(Special to The Daily News.) Nome, April 12.—Yesterday afternoon the Alaska Derby dog team races developed into a contest between Johnson and Delzene as to which team would be the first at the turning point, Candle, which is 206 miles from the starting place at Nome. Johnson's dogs, worn down by steady driving, had to slacken the pace, while Delzene's were refreshed by a rest at Haven and are rapidly making up the time gained by pressing his leaders hard. Scotty Allen rested at Gold Run and will try to make a sixty mile dash to Candle and to return to

POST OFFICE SITE BECOMES SUBJECT OF SOME CRITICISM

H. F. McRAE THINKS IT SHOULD BE ON SECOND AVENUE, OR AT LEAST ON A CORNER IF ON THIRD.

The site chosen by the Federal Government on Third Avenue has been a dominant subject of conversation ever since the announcement that the government had expropriated the lots for this purpose. But few gentlemen would express their views on the subject for publication. The following is the result of an effort to obtain interviews that would show the general feeling in the subject: H. F. McRae: I am of opinion that is not the very best of policy to place the post office there. In the first place, Third Avenue is not the street for the post office, when second Avenue will be the main thoroughfare for all time. On second Avenue will be located the Grand Trunk Pacific hotel and other permanent provincial buildings, and the most natural thing would be to have the federal buildings on that Avenue. In the second place, the site selected is not only not a corner but lies under the brow of the hill, which will prevent the post office from being a well lighted building. This, with buildings

AT THE WESTHOLME

Domestic Dramas and Laughable Comedies as Good as Any Big Theatre Can Show.

The program at the Westholme just now is a varied and most interesting one. There is a drama that because of the excellence of the acting is every bit as interesting as if given with the spoken word, and there are two or three comedies of the kind that need no words—the comical and embarrassing situations of the characters. There is also the weekly pictorial review of passing events which have proven of so much advantage to the regular newspaper reader, enabling him to keep thoroughly posted on world movements.

PRAYERS FOR THE POPE

All the Churches of Rome Offer Up Prayers for the Pontiff's Recovery

(Special to The Daily News.) Rome, April 12.—The Pope rested easily last night but his condition is far from satisfactory. The weakness of his heart and his intermittent pulse are still causing grave anxiety. Dr. Andre Amici, who spent the night at the Pope's bedside, said this morning that his patient rested sufficiently well. His temperature is now a little above 97. In all the churches of Rome special prayers were offered this morning for the recovery of the Pope.

SPECIAL FEATURES AT THE MAJESTIC

The management of the Majestic Theatre is to be congratulated on securing an orchestra under the able leadership of Mr. J. S. Gray. The man at the drums is Mr. Sealey of Vancouver, who comes with a reputation of being "some" drummer, and with Mr. Gray Sr. as violinist, the Majestic orchestra will surely delight their patrons.
Another innovation at the Majestic commencing next Monday for a run of three weeks is a special line of features secured from Coulter's exclusive productions from their Vancouver office. Mr. Mark N. Horowitz arrived in the city on the Princess Sophia on Thursday to see that they are put on properly. Although these features have been secured at great expense, the manager announces that there will be no advance in prices.

WORKMAN SUSTAINED SERIOUS INJURIES

Fell from Wharf Upon Floating Piles—His Condition Is Serious.

Philip Gillingham, employed by Pillsbury & Shea at the new wharf that is under construction at the quarantine station, met with a serious accident yesterday afternoon, falling from the wharf upon some floating piles, a distance of 20 or 25 feet. The unfortunate man sustained a fracture of the base of the skull, a fractured shoulder and other injuries less serious.
Dr. Kergin went over in a launch and attended to the injured man. He was brought to the city and placed in the hospital about 4 o'clock.
While the injuries are of a very serious nature, Mr. Gillingham passed a fairly good night and is getting along as well as can be expected. He is a young man about 28 years of age and a native of Newfoundland.

HINDUS NOT FIT FOR BRITISH CITIZENSHIP

Strong Statement by Vancouver Member in House of Commons at Ottawa.

When the Japanese treaty was under discussion in the House of Commons at Ottawa last week Mr. H. H. Stevens of Vancouver expressed confidence that the Borden letters leave the Immigration act in full force, and made some rather remarkable statements as to the Oriental menace. He knew, he asserted, that at the time the trouble with Hindus occurred in his province one hundred thousand of these were to come to Canada from India. "These Hindus," he added, "are now on the way to the colonial office in London to insist that the Dominion action be over-riden, and the Hindus allowed to come in."
"Aren't they British subjects?" asked Mr. Lemieux.
"No," said Mr. Stevens.
"They fought in the army," persisted the ex-postmaster general.
"I saw," answered Mr. Stevens, "some of the actual conduct of Hindu soldiers in action. However, I do not wish to make international trouble, and will say no more. But they are not fit for British citizenship, either in their own country or here."

(Special to The Daily News.) London, April 12.—William Arbuthnot Lane, chief surgeon of Guys Hospital, who performed the operation on the Duchess, states this morning that the recovery of the patient has been so rapid that he is now confident of a complete recovery. The operation was for the removal of a vermiform appendix displacement, which caused a chronic obstruction.

DEATH OF MR. BLACK

How He Is Spoken of in the Community in Which He Lived Before Coming Here.

G. R. Black, proprietor of the Pacific Rooms, who died in Portland, Ore., recently, is thus referred to in one of the Portland daily newspapers:
"Mr. G. R. Black, a well known resident of Portland, died early Thursday morning, April 3, at his residence, 475 Salmon street. He had made his home here most of the time until the past four years, being engaged in contracting and building. Four years ago he became interested in Prince Rupert, B. C. His death was due to cancer of the stomach."
"Mr. Black was born in Salem, Nova Scotia, fifty-eight years ago. Coming west while a young man, he followed the undertaking business in Minnesota and Dakota. While there he married Miss Elizabeth Grace Sibley, of Steiwacke, Nova Scotia. He leaves a widow and four children. One son, Claud W., and a daughter, Mrs. C. L. Miner, reside here. The two oldest boys, Frank and Fred, live in Alberta, Canada.
"Mr. Black was a member of the Methodist Church, and also a Mason for thirty years or more."

BOWSER'S NOSE OUT OF JOINT WITH THE FEDERAL GOVERNMENT

MINISTER OF INTERIOR SAYS NO ONE HAD RIGHT TO PAY KITSILANO INDIANS WITHOUT FEDERAL CONSENT.

Ottawa, April 10.—Information came to Ottawa last evening that Hon. W. J. Bowser, representing the government of British Columbia, had paid off the Indians of the Kitsilano reserve. The minister of the interior had heard nothing official, but stated that the action had not been approved by the government here. Mr. Stevens, when seen in regard to the matter, expressed himself as at a loss to understand the action of Mr. Bowser, and added: "I have been working on this matter for about a year and had everything ready whereby the reserve was to have been transferred to the public works department for harbor purposes at a figure to be fixed which would have been fair to the Indians. I advised Mr. Bowser fully of my efforts and intentions and regret beyond expression that he has taken such a drastic course. The Indians are wards of the Dominion government and no one is allowed to purchase their lands without the consent of the Dominion government. The action taken in this case cannot fail to raise regrettable complications and will also seriously affect the elaborate harbor plans of which the dredging of False Creek was a commencement.

DEBATE ON THE CLOSURE BILL IS CONTINUED IN THE COMMONS

LONDON NEWSPAPER DEPLORES NAVAL DEBATE IN CANADA AND DESCRIBES IT AS "AN IMPERIAL TRAGEDY."

Ottawa, April 12.—The house last night continued the discussion of the closure resolution but in a fairly quiet manner devoid of the disorderly scenes that marked the session on the evening of its introduction. On that occasion Sir Wilfrid Laurier concluded his protest against the passage of the closure in these words:
"Let me repeat to my right honorable friend: 'As you sow, so shall you reap; as you are fair, so shall you meet with fairness; as you are unjust, so shall you meet with injustice.' My right honorable friend two years ago took a certain attitude on the reciprocity bill. He has no right to complain if the same methods that he made use of is applied to him in the present case. My right honorable friend has not forgotten the words of Shakespeare:
"This even-handed justice commends the ingredients of our poisoned chalice to our own lips."
The discussion on the resolution is certain to last several days yet.

PRINCE EDWARD ISLAND

The Budget Presented Shows Reduction of Public Debt.

Charlottetown, P. E. I., April 10.—Premier Matheson, introducing his budget speech, estimates the total receipts for next year for Prince Edward Island at \$501,177, and total expenditures at \$500,361, leaving an estimated surplus of \$816. The public debt will be reduced by \$17,000, and teachers' salaries increased by \$30,000, giving each a 5 per cent. raise. A new tax will be that imposed on the black fox breeding industry. It is to be a tax of 1 per cent. on the value of the year's increase, and is expected to yield \$25,000. The income tax will bring in approximately \$20,000.

KICK AGAINST THE POST OFFICE SITE

The selection of a site for the permanent federal buildings in this city is not a party question but one in which all citizens interested in building up of Prince Rupert are deeply interested, therefore, when we express the general opinion of the city that the site which the government has expropriated is in many ways unsuitable it cannot be contended that it is a mere partisan statement.

It is stated that the building is to be of stone, that in dignity of design it is to harmonize with the expensive public buildings to be erected by the province and by the railway company—the latter having planned a two million dollar hotel of the Chateau Laurier style—and that it is to cost in the neighborhood of four hundred thousand dollars.

This is altogether outside of those questions of public utility and convenience such as daylight and the delivery of the mails from the trains and steamers. For most government buildings in choosing the site a corner is invariably chosen so that something more than the front elevation is seen, and it is sought to have, as a rule, the building detached on every side.

available from the point of view of public convenience, of course, it is that such a building can be one in which the citizens can feel that deep personal pride they hoped to feel in it is very questionable.

SIR RICHARD MCBRIDE AS LEADER AT OTTAWA.

Zounds! and What Ho! the Black Knight is off to Ottawa, prepared for battle. Sir Richard McBride—he of the flowing locks and fluent speech—is away to pry Premier Borden away from his job, according to rumor, and British Columbia will watch the quest with interest.

There are many in British Columbia who must hope that Sir Richard will be more successful than before. The Government supporters will wish him well through friendship and the glorification of the province; the opposition will pray that he gets what he wants, for nothing would more surely spell the instant doom of the present Dominion Government.

GRAHAM ISLAND POLES FOR PANAMA CANAL

Contract Practically Let for Five Thousand Straight Sticks for Telegraph Line

Five thousand poles for use on the telegraph lines along the Panama Canal, are to be cut and shipped from Graham Island, in all probability, according to S. D. Sewall, of the Star Realty Co., Vancouver, who arrived on last Saturday's steamer with a few investors come to inspect the land in the vicinity of the new townsite of Sewall.

Considerable of the land the company owns is quite heavily timbered with just such timber as will make excellent poles for telegraph purposes. It is understood that the contract has practically been let to the Graham Island interests.

If this goes through, it will be the first of the pole timber of Graham Island that has found a market. It will amount to a beginning of a no doubt large industry, for those who have cruised the timber areas of the interior all say that nowhere else exists timber so adaptable for poles, particularly flagpoles.

FLOATED HIS HOUSE DOWN MASSET INLET

But Gavelled Tides Wrong and Traveled Thirty Miles Instead of Fourteen

It isn't every country in which a man may float his residence takes a notion to move from one locality to another; it isn't every country where nature has provided a "railway" by means of tides, ebbing and flowing. But, even under this apparently pleasant condition, there are drawbacks which will make Albert Goulet think a long while before he attempts to move again by water.

Last week Goulet moved his two-storey house from up Masset Inlet to Delkallah. The distance he planned to travel was not more than fourteen miles, but, before he finally landed his residence upon its new foundation, he had grown grey hairs aplenty, for in some manner he miscalculated the tides, and, instead of floating smoothly along in the direction of Delkallah, Goulet and his helpers, started in the opposite direction and covered more like thirty miles than the originally intended fourteen.

Prices of lots in Prince Rupert have risen since the first sale in 1909. In the beginning—only three years or so ago—the man or woman with a couple of hundred dollars could "get in" at Prince Rupert. Today as many thousands would hardly suffice. Port Edward offers you a vast opportunity, similar to that offered by Prince Rupert a few years ago. Port Edward is controlled by a company composed of some of the soundest business and professional men in Canada, many of them Prince Rupertites. Its capital stock—\$1,000,000—is all subscribed. A development fund of \$175,000 to take care of preliminary work has been provided and approximately \$60,000 of this fund has been expended. Of all Western Canada, no section offers such sterling opportunities just now as the North Pacific. And of all North Pacific, no place offers so certain, so solid an opening as

TELLS EXPERIENCES ABOARD A ZEPPELIN

Dinner Served in Proper Hotel Style

A fascinating description of an air trip by Zeppelin from Dusseldorf to Berlin is supplied by a correspondent to the World's Work, from which the following is an extract:

"In the meantime individual tables had been placed in position and luncheon was served much as it is in the ordinary dining car. There was soup, an entree, a roast—all piping hot—vegetables, salad, cheese and coffee, more of a dinner than a luncheon, and all served as though the chef and waiters had the conveniences of a grand hotel at their command. The principles of the fireless cooker had been brought into service in preparing the food; the exhaust from the engines being made to supply heat.

"After luncheon several passengers dozed comfortably in their armchairs enjoying the sun that shone through the starboard windows. A better place for an afternoon nap than the cabin of a Zeppelin airship cannot well be imagined. The drone of the motors becomes a lullaby. There is the sense of motion—swift motion—and yet not even the slightest jar. An almost imperceptible vibration is felt only when a hand is placed on a side wall of the cabin.

Baptist Church services will be held in the Westholme Opera House until the new church is completed. This arrangement commences on Sunday evening, April 13th.

Papers print much about the operation of the Grand Trunk Pacific Railroad, about the effect of the operation of the Panama Canal. People read a good deal about these things, too. BUT THE WORLD HAS NOT YET EVEN DREAMED OF WHAT THESE EVENTS WILL MEAN.

These two great events will come about within a few months of one another. Their combined influence on Northern British Columbia will be remarkable. That vast, wonderful treasure house of natural resources, perhaps the richest area of its size in North America, will flash before the world in all its magnificence. Development will follow with a rapidity as yet unknown.

Only by reading the detailed literature can you form any real conception of what the future of this North Pacific country will be. The literature is yours for the asking. Send your name and address on the coupon attached. Doing so does not entail any obligation. We do not even ask you to read the information contained in this literature. BUT WE ADVISE YOU STRONGLY TO DO SO.

Port Edward is a safe place for your savings—Don't be influenced to make a decision by this advertisement—We'd rather you would ask for the complete literature and make all possible inquiry, but we advise immediate action—Mail this coupon now, today.
