PRICE FIVE CENTS

SUFFRAGE BILL TO BE DEBATED AT WHITSUNTIDE

POPE VERY LOW AND REFUSING NOURISHMENT—PRESIDENT WILSON ON ALIEN LAND LAW

THREE PUBLICITY SCHEMES CONSIDERED BY BOARD OF TRADE

DECIDED TO PURCHASE NUMBER OF COPIES OF NEWS-ADVERTISER FOR GENERAL DISTRIBUTION—OFFERS FULLY DISCUSSED.

The subject of the great need for publicity for Prince Rupert was brought before the board of trade by a communication from Mr. Stephens. He pointed out that the city had a number of items from this city appearing in the old country and that "Canada," the new London paper, would be pleased to publish everything about Prince Rupert that was sent to them. Mr. Mobley thought if they could advertise the city outside the small cost the board should be the advantage of the opportunity. Mr. Hays said what was anyone's business was nobody's business, and he proposed that a committee of the board be appointed to look carefully at such work. Mr. Williams doubted if "Canada" would print much about the city unless that journal received advertising from the city. Mr. Lee Baker was of the opinion that "Canada" would be very glad to use Prince Rupert items. Mr. Morris said this was no reason to quit advertising, for now

instead of publishing prospects they could give the people facts. All about the herring, halibut and salmon and how these industries had already started and were prospering.

The mayor said the board had already done its share in advertising the city and some people were asking what had resulted from it. One did not get results in advertising always right away, but the influence was there and was working. He thought that later on the city would have to spend a great deal of money in publicity.

Mr. Hays remarked that Medicine Hat city council had just voted \$28,000 for publicity this year. He thought that was the proper medicine for Rupert.

The motion then carried and the board took up the advertising scheme of Mr. Bellingham, of the Vancouver News-Advertiser. Mr. Bellingham proposes devoting six pages of a special edition to Prince Rupert, and they are to be handsomely illustrated. After discussion \$75 was voted for a number of copies of the issue, to be distributed by the board.

GRAIN COMMISSION INVITED TO VISIT THIS GROWING PORT

BOARD OF TRADE ALSO INVITES BY WIRE LARGE PARTY OF GERMAN BUSINESS MEN WHO ARE TOURING THE DOMINION.

Mr. Morrow at the board of trade last night drew attention to the visit of the grain commission to Vancouver to select sites for elevators and thought they should have been invited to visit Prince Rupert. There is no doubt the Dominion government intended to take up this question of elevators, and he thought the board would take it up with the railway officials this afternoon.

The mayor said the board had already invited the grain commission by wire, but the telegram came back uncalled for. The board had also wired the German consul at Montreal regarding the trip of a party of German business men. They also had been invited to extend their Canadian trip to this port. What the mayor thought was that the board should have a correspondent in the east to keep them posted on just such movements.

PETITION OF PROTEST AGAINST THE PRESENT POST OFFICE SITE

DISCUSSION OF BOARD OF TRADE DECIDES TO CIRCULATE PETITION—BELIEVED NINETY-NINE PER CENT. OF CITIZENS WILL SIGN IT.

There was quite a discussion on the board of trade last night regarding the post office site selected by the Dominion government, nearly all the speakers agreeing that it was by no means the best site available for such a purpose and pointing out its shortcomings. The discussion was opened by Alex. M. Manson, who claimed that the board had a right to express an opinion on the subject. He held that a public hearing should at least be on a level, while the site selected was in the middle of a block and there would be no way of receiving and despatching mail to the citizens except through the building. This would make the building very inconvenient and all light would be shut off from the front. He thought the board should go on and as distinctly opposed to the site.

Mr. Morris said it was known last October that these lots were being considered by the government and action should have been taken by the board before. Four years ago the board was asked to name a site and a site was selected; but some members of the board opposed the recommendation of the board for their own purposes. He thought that any resolution of the board now could have no effect and he would advise going slow in the matter.

Mr. Morrison did not believe it was true that it was too late for action. He would support the motion and would further suggest that a petition of protest against the site be at once distributed for signatures. He was sure that 90 per cent. of the citizens would sign it.

Mr. Rogers said he had spoken on the subject to a Dominion government official recently, who had said that he did not think the site would be permanent but thought the government would build its permanent building somewhere else. He believed it was the duty of the board to head

(Continued on Page 4.)

MONTHLY LUNCHEONS

Board of Trade Considering Advantages of Adopting Canadian Club Methods.

Mr. Allison suggested to the board of trade last night, with a view to make the meetings more attractive and thus increase the membership, that a monthly luncheon should be given and some distinguished speaker obtained to deliver an address. Alex. M. Manson thought the idea was a good one and made a motion that a committee be appointed to consider the matter which was carried.

ONE REPRESENTATIVE OF PRIMROSE LEAGUE

Is Today Honoring the Memory of the Late Lord Beaconsfield.

F. H. Warlock, representing the Victoria-Phoenix Brewing Co. of Victoria, who has been in the city for several days on business, is today honoring the memory of the late Lord Beaconsfield, the eminent statesman and novelist, by wearing a primrose in his buttonhole. Today, April 19th, is Primrose Day, the thirty-second anniversary of Lord Beaconsfield's death, which is honored by nearly two million members of the Primrose League throughout the world. The league was founded in 1883 to commemorate the distinguished statesman's political services and to promote the principles which he advocated. Inquiries failed to locate any residents of the city who are members of the league.

ACTION FOR DAMAGES HAS BEEN ADJOURNED

Case of David Graham Against G. T. P. S. S. Co. Will Not Come Up Until September.

Dr. Cade, who left on Monday last for Vancouver to give evidence in the case of David Graham against the G. T. P. Steamship Co. to recover damages for injuries sustained at the wharf here in October last, returned to the city this morning. He reports that for some reason that was not explained the case was not called and will not come up until September.

The doctor enjoyed his trip and reports things quiet in Vancouver with weather fine.

Smartly cut, well tailored, having the right "hang" about them—the ladies' suits at Wallace's. 891f

TO MEET THIS AFTERNOON

Board of Trade to Hold Conference with Visiting Railway Officials at 4 o'clock.

It was expected that Vice President Dalrymple and other visiting railway officials would appear before the board of trade last night, but at the opening of the board meeting President Dawson announced that he had been advised that Mr. Dalrymple was slightly under the weather and could not attend. He invited the council of the board to meet him in the Inn parlors at 4 o'clock this afternoon. The president said he would be glad to see as many members present as could make it convenient, whether of the council or not. Mayor Pattullo said he should certainly make it a point to be present.

GOOD NEWS FOR SQUATTERS

Lands in Railway Belt of Province to Be Opened for Settlement.

(Special to The Daily News.) Ottawa, April 19.—The railway belts in British Columbia will soon be thrown open to settlement. Squatters already on the land will be given the first chance to purchase the land.

SUPERINTENDENT OF EDUCATION IN CITY

Left This Morning on Trip of Inspection to Hazelton.

Alexander Robinson, superintendent of education for B. C., arrived from the south this morning and left on the 10 o'clock train for Hazelton on a trip of inspection. He will likely visit Prince Rupert on his return.

MILITANTS IN ABERDEEN

Arson Squad Nearly Succeeded in Burning Down Handsome Railway Station.

(Special to The Daily News.) Aberdeen, April 19.—An arson squad of militant suffragettes almost succeeded in burning down the station here yesterday. The most careful watch is being kept upon the militants now.

THRILLING PICTURES AT THE MAJESTIC

Program for Next Week Secured at Enormous Expense but Prices Remain Same.

The large audiences at the Majestic yesterday were given a real treat in the picture line when "The Auto Bandits of Paris," Eclair's great three reel feature, was presented.

These pictures are truly the tragic triumph of the cinematic world. They picture the most stupendous warfare against desperadoes in the police annals of history, and were photographed by the heroic Eclair camera men in the rain of bullets and during the dynamic duel between "Bonnet the Tiger" and the French army. The papers of all countries were filled with accounts of the auto bandits, yet the actual depiction of this awe-inspiring drama has been made possible by the all seeing eye of the cinematograph camera in the hands of men more daring and resourceful than most war correspondents.

The Majestic program for next week is secured at enormous expense and, judging by this week's program, a genuine treat is in store for the patrons of the "movies." In other cities the prices for such a program have run from 25 cents to 35 cents, but the Majestic is offering them to citizens of this city at the usual prices. For Monday the Majestic announces another big three reel feature entitled "The Power of Destruction."

POPE STILL VERY LOW

Generally Believed That the Pontiff's Days Are Numbered.

(Special to The Daily News.)

Rome, April 19.—The Pope passed the night without any new accession of fever, but his pulse is still high. This morning the patient's temperature was 99.4, which was a shade of improvement. His nourishment consists exclusively of beaten eggs and milk and it is increasingly difficult to get him to take this.

HOUSE TO DEBATE ON WOMAN'S SUFFRAGE

Date Is Fixed but It Happens to Be Whitsuntide and Many Members Will Escape.

(Special to The Daily News.) London, April 19.—May 5th and 6th have been set aside by the House of Commons to discuss woman suffrage, but as this is the eve of the Whitsun holidays many members may be expected to be holidaying in order to escape voting for the measure, in face of the militants' criminal conspiring. The Pall Mall Gazette states the pass to which suffrage has now come it is time to lower the flag of anarchy.

GRANBY OFFICIALS IN THE CITY TODAY

Will Leave Tomorrow to Inspect Progress at Granby Bay.

Among the passengers arriving from the south by the steamer Prince Rupert this morning were a number of the officials of the Granby Bay Mining, Smelting and Development Co., Ltd., en route to Granby Bay, where the company has in course of construction the largest smelter on the coast. Among those in the party are O. B. Smith, general superintendent; G. W. Woster, secretary-treasurer; W. A. Williams, smelter superintendent, and Dr. Dickson. These gentlemen intend spending some time at Granby inspecting progress and looking after the general interests of the company. They will leave for Granby tomorrow morning on the Prince Rupert.

TEAMSTER HURT YESTERDAY

Was Squeezed Between Wagon and Pile of Lumber.

George Martinovich, a teamster in the employ of the Westholme Lumber Co., was admitted to the hospital about 5 o'clock yesterday afternoon suffering from injuries sustained by getting a bad squeeze between his wagon and a lumber pile. No bones were broken and his injuries are not serious.

Will Serve Twenty Days. H. Clark, drunk and disorderly, was given twenty days in jail this morning by Magistrate Cairns. This is the second offense within a week.

UNFAIRNESS OF FISHERIES REGULATIONS FULLY DISCUSSED

BOARD OF TRADE TO MAKE A STRONG REPRESENTATION TO OTTAWA AS TO THE DISCRIMINATION AGAINST DISTRICT

Mr. Nickerson made a motion at the Board of Trade meeting last night, that the new Dominion fishery regulations be referred to the fisheries committee and that they be instructed to represent at Ottawa the unfairness of these regulations.

Mr. Mobley did not see why the Dominion government should have discriminated against the northern part of the province. We were not only discriminated against compared with the Atlantic coast and other fishing stations east, but even against the district to the south of us in the same province. If they could get this condition of affairs altered it would be a thing worth doing.

The motion was carried and the President noticed us a visitor George W. Morrow. He was a charter member and the Board would be very glad to hear from him.

Mr. Morrow was heartily cheered as he arose. He naturally spoke on the subject of fishing as that had been the last, and told some interesting experiences of his own. He said that he had been doing very little speaking since leaving Prince Rupert and was much pleased that the Board was taking up the subject of fishing. When first he came to this coast he had the ambition to go into it and made application for a cannery site on the Skeena. Had that application been granted he would never have left Prince Rupert. But it was not for the reason that politics were permitted to interfere. He had received a communication from the deputy-minister refusing his application on the ground that there were plenty of canneries on the Skeena on the very day of election.

"COUNT" GENE CARBONNEAU NOTORIOUS YUKON ADVENTURER

The despatch we published recently regarding the arrest of "Count" Carbonneau proved of great interest to many old timers from Yukon and called to mind many incidents in his adventurous career. When the count was arrested at Boulogne about to sail for England he had with him a pretty girl of fifteen who he claimed was his daughter. At the time of his arrest the Paris office of the Huga-Cuen-

aca Railway Company, of Ecuador, of which it is said he is the promoter, was searched, and all papers and funds seized.

The examination disclosed the fact, it is said, that the Hudero brothers, of Mexico, were at the head of a gigantic scheme which was planned in conjunction with a projected railway in Central Mexico. The bonds of this railway

FOR ADMIRALTY COURT

Saving of Expense to Have One Here Instead of Taking All Cases to Vancouver for Trial.

A letter was read at the board of trade last night from Alex. M. Manson, secretary of the bar association, requesting the board to urge upon the Dominion government the need of an admiralty court for this district, as at present all cases of such nature had to go to Vancouver for trial. He enclosed a letter from O. H. Nelson, secretary of the Conservative Association, strongly supporting the proposition. A resolution was passed instructing the secretary of the board to at once communicate with the local member of parliament on the subject.

Three New Members.

At the meeting of the board of trade last night applications for membership were received from Thomas C. Chalmers, Hubert O. Crew and Alderman Dybhava.

Why You Should Buy A Gurney - Oxford Range

Because the Gurney Economizer saves 1 ton of coal in every 6 burned in other ranges.

Because the Economizer gives you absolute control of your stove and the fuel consumption.

Because the range is air tight and consequently does not waste the heat.

Because its new Special Grate is another fuel saver and the stove is shaken with one operation.

Because its Divided Flue makes every hole a cooking hole.

Because of its sanitary artistic design.

Because of its Broiler equipment.

Because of its polished top which requires no stove polish.

Because of its roomy over-size oven which results in perfect baking of any article of food.

The Gurney-Oxford range will do everything that a stove is intended to do—and infinitely more in that it has four scientific fuel-and-labor-saving devices that are exclusive—the Economizer, the Divided Flue, the Special Grate, and the Broiler.

A Gurney-Oxford will prove of inestimable worth in your kitchen. It will save your time, it will never aggravate your temper, it will end your trials.

COUNT GENE CARBONNEAU NOTORIOUS ADVENTURER

(Continued from Page 1.)

way were issued by Henri Rouchette, the French banker, whose condemnation to imprisonment for alleged transactions in France and his failure to appear in court aroused much interest.

Both of these railways exist only in the imagination, and the case is still pending in the court. Carbonneau, it is said, issued railroad bonds on April 8 and realized \$1,750,000 therefrom. It is said that Carbonneau has already been in difficulties with the Canadian and French authorities, and that he was condemned in connection with the failure of the Gold Run mining scheme to two years' imprisonment. The losses of the victims in that case amounted to several million dollars. There is said to be a further charge against him involving hundreds of thousands of dollars, which will be pressed now that his identity has been established.

It was in 1899 that Carbonneau, known already as the count went to Dawson City from Montreal, where he had been a waiter and restaurant proprietor. He had little money, but his pleasing manners made friends, and it was not long before he had acquired many promising claims. He found a quicker way to fortune, however, by marrying Belinda Mulrooney, owner of the hotel at the junction of Eldorado and Bonanza Creeks, and holder of claims to many valuable properties. The magnificence of the wedding celebration is still talked of by Dawson oldtimers.

At the time of the kidnapping of Miss Agnes, it was thought her sister had begun divorce proceedings, but in 1911 it was Mrs. Belinda Carbonneau, former "Klondike Queen," that she sued Tiffany & Company, of New York, for jewelry valued, she said, at \$11,454, which she had stored with the company so that the "count," from whom she had parted, could not get them. He did get them, it seemed, and while the company paid Mrs. Carbonneau \$500, which was the value named when the jewelry was deposited, she sued for the difference between that and \$11,454. At the same time she brought action against Revillon Freres for \$6,400 worth of furs, which her husband had also succeeded in getting after she had stored them.

At the time Mrs. Carbonneau said that when she married Carbonneau she had believed him to be a French count, but had learned that his polished manners were acquired in a Montreal restaurant. She had left him, it was said, in the fall of 1904, and had gone to New York. Carbonneau followed, and, learning of his wife's presence in the city, she stored her jewels and furs before returning to the Klondike to look after her mining interests. When she came back, she learned that Carbonneau had procured both jewelry and furs, and had disappeared.
