## MONTENEGRO TAKES SCUTARI AT BAYONET'S POINT

### MOUNTED POLICE DETECTIVE KILLED BY OUTLAWS—MILITANT BOMB FOR HON. JOHN BURNS

#### SCUTARI FALLS AT LAST TO THE BRAVE MONTENEGRINS

MADE STEALTHY ADVANCE AND THEN RUSHED THE TURKS WITH THE BAYONET—GENEROUSLY PERMITTED ENEMY ALL THE HONORS OF WAR

(Special to The Daily News.)  
London, April 25.—Scutari, after a two weeks' defence by the Turks that every day showed great bravery and determination has at length fallen. The report to this effect was verified at the War Office here last evening. It has been a fierce struggle. The Montenegrins were often repulsed but each day they pushed on and gained some little or big advantage until they had silenced all the outlying forts and were under the walls of the city. How they managed to make it a complete victory was by taking the Ottoman defenders by surprise. It was a stealthy advance right into the fortress without a shot being fired. Then at a signal a grand charge was made with the bayonet and the Turks had to give way to the force of numbers. Before the actual capitulation took place the Turks had nearly exhausted their ammunition. By the terms of surrender they were permitted to march out of the city with all the honors of war,

bearing small arms and retaining some of their light guns.  
**Madder Than a Hornet.**  
London, April 25.—As soon as the news of the fall of Scutari and its occupation by the Montenegrins reached Vienna an ultimatum was immediately issued by Austria to the powers. This was a demand that the powers drive Montenegro out of Scutari and that if they did not immediately take steps to effect this Austria herself would take measures to do it. This ultimatum is causing a great deal of talk. The determined attitude of Austria is very likely to lead to serious diplomatic complications.  
**Allies' Split Unconfirmed.**  
London, April 25.—The report of a fight between Bulgarians and Serbs at Kumanova is not confirmed from any source. The report originated at Vienna, which, as is well known, is very much interested in creating ill-feeling between the Balkan allies.

#### REDUCING EXPRESSAGE

Railway Commission Brings Down Express Charges in West by Twenty Per Cent.  
(Special to The Daily News.)  
Ottawa, April 25.—The railway commission yesterday gave out a decision in regard to express rates. After a long investigation they have found the rates charged in the west are much too high and have given an order that they must be reduced 20 per cent.  
Wallpaper—Wallace's. 891f

#### WIRELESS OPERATORS GO ON STRIKE

Every Passenger Steamers' Wireless on the Pacific Liable to be Tied Up  
(Special to The Daily News.)  
Seattle, April 25.—Wireless operators went out on strike on Wednesday night. Every passenger steamer's wireless and every wireless station on the Pacific coast is likely to be tied up. Higher wages is demanded.

#### STRUCK ON A ROCK

Steel Freighter Tore Big Hole in Her Bow but Managed to Reach Juneau.  
(Special to The Daily News.)  
Seattle, April 25.—A wireless message was received yesterday that the Alaska Steamship Company's big steel freighter Cudova struck a rock soon after leaving Prince of Wales Island and tore a big hole in her port bow. She managed to reach Juneau, where she is tied up to have temporary repairs done.

#### MONEY BYLAWS ALL CARRIED BY SUBSTANTIAL MAJORITIES

MAYOR PATTULLO EXPRESSES HIS GRATIFICATION AND EXPLAINS THE NECESSARY COURSE TO BE NOW TAKEN BY THE COUNCIL.

As was confidently predicted, all the money bylaws voted for yesterday were carried with a sufficient majority to make them law. There was not a large vote cast, for the reason, probably, that so many took it for granted that this would be the result in any case and therefore avoided the trouble of going to vote. In all, 270 ballots were cast. To carry the bylaws a three-fifths majority is required. This would be 162 for each bylaw, and, as a matter of fact, the lowest vote cast, that for the Second street excavation, was 199 with six spoiled ballots. The bylaws will now receive the formal consent of the council and become law, and the flotation of debentures to raise the money can be immediately undertaken. Everybody was pleased at the result of the voting, as it ensures a large expenditure on public works that are badly needed. "What will be the next course the council will take?" Mayor Pattullo was asked this morning. "To get the money," he smilingly replied. Then he went on to say: "I am naturally gratified at the result of yesterday's vote on the bylaws. It shows that the ratepayers are pleased with the work of the council. We are now in a position to undertake the flotation of our bonds. In this connection the public will be glad to know that we have the assurance of the Grand Trunk Pacific that they will render us every possible assistance. From this it does not necessarily follow that we will be able to make the flotation as the money market is very stringent, but the assistance of the railway is indispensable to our success. With this in view we should always bear in mind that the city and the railway must co-operate at all times for their mutual benefit. "We have a great deal of work ahead of us during the next fortnight, by which time I expect advice that will definitely determine

(Continued on Page 4.)

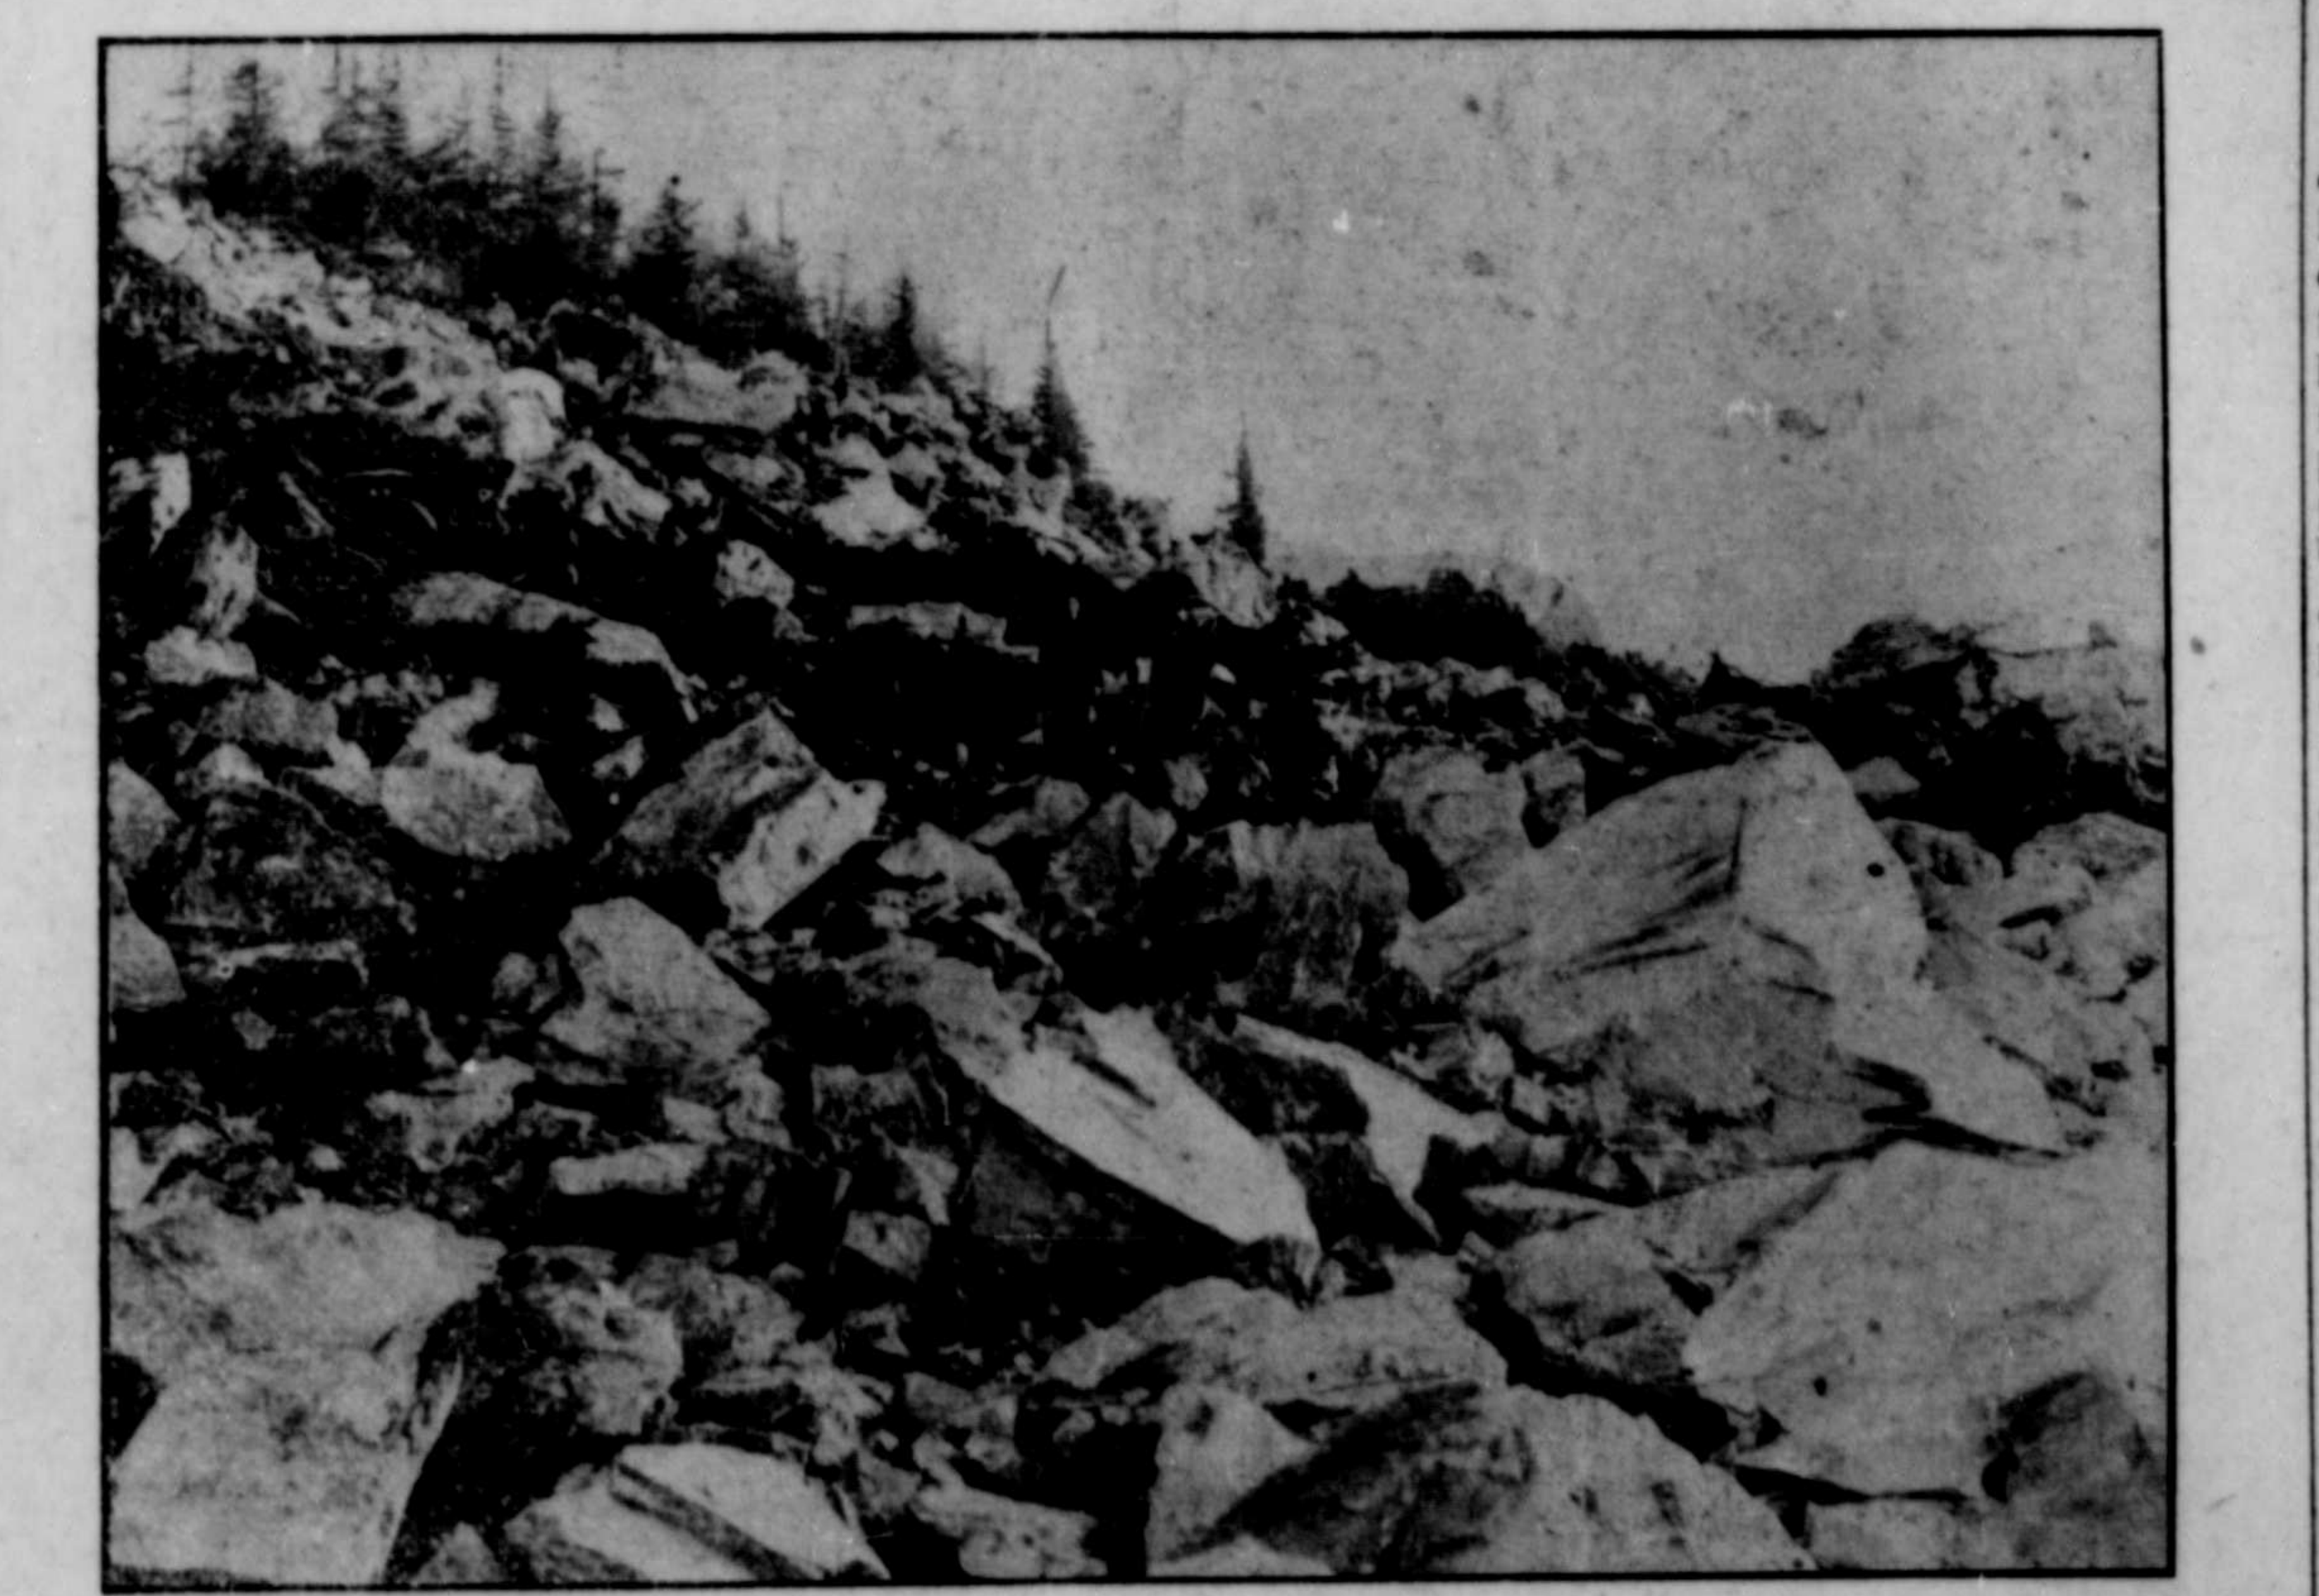

## YESTERDAY'S IMMENSE BLAST A MOST SPECTACULAR EVENT

Over Sixty Thousand Cubic Yards of Rock Instantaneously Made Ready for the Steam Shovel—Great Success in Every Particular

While not the largest nor the most costly, the blast that was put off yesterday afternoon by Contractor Archie McDougall just east of Cameron Bay was admitted by those experienced in such operations to be the most successful and by far the most spectacular ever witnessed in Prince Rupert. Long before the hour fixed for the shot—3 o'clock—crowds of citizens flocked to various points of vantage in order to witness the grand sight.

Cameras were much in evidence, particularly around the Government wharf and in the vicinity of Market place, but it is doubtful if those who ventured so near met with success. When the shot was fired rocks and debris of all kinds came pouring down in all directions with the result that the kodak artists beat a hasty retreat to places of safety. Fortunately no person was injured, although there were several narrow escapes. About the only

damage of any kind reported was at the office of the Westholme Lumber Co. and at Carey's restaurant. At the former one or two rocks went through the roof, but the damage was not at all serious. The restaurant sustained quite a fusillade and had a window broken. To one who has never witnessed a blast of such large proportions it is difficult to convey in words

WHAT IT LOOKED LIKE AFTER ROSS & McCOLL'S BIG BLAST BEYOND THE CENTRAL HOTEL. THE RESULTS WERE SIMILAR YESTERDAY.

#### TWO MOUNTED POLICE SHOT BY TWO NOTORIOUS OUTLAWS

TWO LARGE POSSES OF POLICE NOW ON THE HUNT FOR THEM WITH INSTRUCTIONS TO TAKE THEM ALIVE OR DEAD.

(Special to The Daily News.)  
Tofield, April 25.—Detective Bailey, of the Royal Northwest Mounted Police, was yesterday shot and killed by an outlaw named Fenberg, whom he was trying to arrest. The two Fen-

berg brothers are notorious outlaws guilty of cattle raiding, horse stealing and a number of acts of violence, and the dead detective and Constable Whitley had been on their trail for a couple of months. They came up with them here and made an attempt to take them, with the result that both were shot. Whitley is seriously injured but will recover.

Last night ten mounted police surrounded the cabin in which the outlaws had taken refuge and waited there for some time, only to discover that the men had slipped out and taken to the timber. Edmonton was wired and a second company of mounted police was started on the hunt, the instructions being that the outlaws must be taken, alive or dead.

#### CITY'S DEVELOPMENT PLEASES VISITORS

Former Resident of Prince Rupert Visits City After Three Year's Absence

A. L. Brownlie, superintending engineer of G. T. P. steamships, arrived in the city yesterday on the Prince Albert for the purpose of inspecting its first trip as an oil burner. Mr. Brownlie expressed himself as greatly pleased with the installation and operation of the new system. Accompanying Mr. Brownlie, was Mr. Harold Brown, dock and freight agent for the G. T. P. at Vancouver. Mr. Brown was formerly in the office of Mr. A. E. McMaster, general agent at Prince Rupert. He left here about three years ago to take charge of the dock and freight office at Victoria. Mr. Brown was very much interested in taking note of the growth and development of the city since he resided here. Both gentlemen left on the Albert last evening for Masset.

#### FISHING BOAT EXPLODED; CREW HAVE NARROW ESCAPE

MOST OF THE CREW WERE HURLED INTO THE WATER AND BADLY BURNED—BOAT BURNED TO THE WATER'S EDGE.

As the result of an explosion of gasoline yesterday the G. R. Hughes, a fishing boat owned and operated by the Deep Sea Fishing Supply Co. of Vancouver, was burned to the water's edge and the majority of a crew of twelve had hairbreadth escapes from being blown to pieces or drowned. The accident occurred about 11 o'clock in the morning while the boat was lying at anchor some three hundred yards from the shore of Stephens Island and about thirty miles from Prince Rupert. The boat had made an early start for the fishing banks but on account of trouble with her exhaust had to come to anchor for repairs. When the accident happened most of the men were around the bow of the boat on deck and as the explosion was in the forward tank most of them were thrown into the water. The bow of the staunch boat was completely blown to pieces. Captain James Batt, who happened to be near the stern, with the assistance of another man immediately launched a dory. Several men were swimming and calling for lines. Fortunately all were picked up by the dory and made their way to shore. The large boat took fire as soon as the explosion occurred, but owing to the bow being blown out it filled with water, thus preventing the fire from doing as much damage as it otherwise would. About twenty minutes after the first explosion another tank in the after part of the boat exploded with a terrific report, the flames shooting high in the air.

Luckily, a fisherman from Dundas Island named Thomas Anderson saw the flames and immediately set out with a launch to investigate and assist those in distress. On his arrival at the place where the accident happened he brought the whole crew to Prince Rupert, arriving here about 7 o'clock last night. Two of the men, James March and Joseph Marsh, were quite seriously injured and they were immediately transferred to the hospital here. Two others, Kenneth Hicks and Josiah Babcock, were also taken to the hospital this morning. Nearly all had to have

burns dressed on their arrival here. About the only one who escaped without any injury was Captain Batt.

DAILY EDITION

Friday, April 25, 1913.

**BRAVE LITTLE STATE WINS BIG VICTORY.**

After a terrific siege brave little Montenegro has captured Scutari from the Turks and is now in possession. It is hoped that the powers will permit her to hold it and make it her country's capital; then the venerable King Nicholas will have no cause to abdicate. Montenegro was rather losing in popularity in Europe because she had the buckrum to defy the great powers. The victory of yesterday changes everything. All the world loves grit. It also is apt to give its sympathy to the under dog. When that under dog is a little deserving chap and the upper one a big, snarling, selfish one, that sympathy is all the stronger.

That is the way it will be with brave little Montenegro today. To please big, blustering Austria's selfishness and grab policy of the most unpopular government in Europe and, if not the most at least one of the most unscrupulous of the powers so far as international concerns may go, all the big powers were threatening to pitch onto the little kingdom. But notwithstanding this show of force, in Britain, France, Germany, Italy and even in Austria itself, the people will be openly cheering the spunky little kingdom, the never conquered people of the Black Mountain.

**PORTUGAL REPUBLIC PROVING A FAILURE.**

The bitterness of disillusion has been the lot of the Portuguese democracy, who expected so much from the advent of a republican government. When the reins of power were seized by the demagogues who engineered the revolution the Portuguese were assured that a halcyon era was about to be inaugurated. What are the actual facts? Instead of taxation being lightened, as was promised, government imposts are increasing to such an extent that owners of landed property and farmers in the country generally are refusing to pay them. Despite the comfortable assurances of the department of finance national credit is impaired and the country's resources, drained for the advantage of unscrupulous office holders, are being steadily depleted.

It is not too much to say that the country is seething with discontent as the result of the flagrant abuses of office and power which the republicans have committed since they imposed their yoke on an unwilling nation. In the words of a prominent diplomatist accredited to Lisbon, Portugal is now "a monarchist country with an anarchist capital." A powerful reaction has set in against a government which panders to Socialists and syndicalists and other forces of anarchy in order to ensure support against the approaching wave of public indignation that threatens to sweep it away.

**FURTH'S CONVICTION SHOCKS NORTHWEST BUSINESS CENTRES**

**FINANCIAL GIANT OF SEATTLE, SEVENTY-THREE YEARS OLD AND WORTH TEN MILLIONS, WAS OVERCOME BY THE VERDICT.**

Bellingham, Wash., April 23.—"Guilty." Jacob Furth, the financial giant of the northwest, stands convicted today of the crime of aiding and abetting W. E. Schricker, of Laconner, with receiving deposits after knowledge of the bank's insolvency. The jury was out for 20 hours and arrived at a verdict at 8 o'clock yesterday morning. At 9:20 the jury, having been brought into Judge Hardin's court room, the clerk read the verdict.

The crime is punishable by a sentence of one to ten years in the penitentiary or a fine not exceeding \$10,000.

Furth plainly showed his emotion. His head dropped to his breast with a jerk. The verdict was apparently a complete shock to him. His attorneys have prepared a motion for a new trial and served it on Special Prosecuting Attorneys Brawley and Corrigan. No date has yet been set for its argument before the court.

Jacob Furth as the principal banker and financier of Seattle and head of the Stone & Webster enterprise in the state of Washington, was well known in eastern financial circles, and enjoyed the personal friendship of J. Pierpont Morgan and other kings of money. Mr. Furth was chairman of the board of directors of the Seattle National Bank, which is next to the largest bank in the Pacific Northwest, president of the First National Bank of Snohomish, Wash., the Seattle Electric Company, the Puget Sound Electric Company, the Furth Investment Company, the Bank of Commerce of Anacortes, Wash., and the Chicago Land & Stock Company, and many other important companies. He is reported to be worth \$10,000,000, making him the wealthiest man in Seattle, aside from the great land and landed estate owners.

Mr. Furth is 73 years old, and of venerable appearance, with white hair and beard. He has three daughters, all married, and a wife.

**TO BUILD BRITISH SHIPS IN FRANCE**

**Workmen in England Getting Too Much Pay to Work Full Time in Yards.**

London, April 22.—British ship owners have recently placed orders for building four large vessels in France. Although the machinery has been imported from England under heavy tariff, the vessels will cost less than if built in British yards. This excites much comment and the explanations given serve to make the matter worse. Wages in the ship building industry in England have increased 25 per cent. in the last few years. This would not matter but for the fact that the men take advantage of the increase to reduce the hours of work instead of to increase their income. As a consequence the men will work only four days a week, although orders are pouring in. The result is that orders are going abroad.

The worst feature is that this process seems likely to continue as a consequence of the growing disinclination of the workers to work. An employer's report recently issued, and practically admitted by the representatives of the men, states that the working men lose nearly 20 per cent. of their possible working time at football and funerals. The attractions of the former are obvious, but it is difficult to explain the popularity of the latter as a pastime.

Prepare for a rainy day. Ladies' and children's rain coats and new shipment of umbrellas. Wallace's.

HOW ABOUT LACROSSE FOR THIS SUMMER

New Hazelton Correspondent Wishes Prince Rupert to Join the League

The following letter to the editor has been received from Mr. L. B. Warner, of New Hazelton: "Would you kindly inform me as to the possibility of organizing a lacrosse team in Prince Rupert this summer, as we have considerable material here and might possibly get a third team in the league. "That the material for a good team in Prince Rupert is well known, and their ability to organize revolves on their ability to secure grounds; but I would like to see the boys come in with us and start the game going."

WILLARD AND SMITH TO FIGHT NEXT MONTH

Jimmy Coffroth Will Stage the Bout in San Francisco on May Seventeenth.

San Francisco, April 22.—Surmounting in importance any match made here in the past year, with the possible exception of the Wolgast-Ritchie battle, Jess Willard, the Kansas heavyweight, is matched today to meet Gunboat Smith of California, conqueror of Bombardier Wells, at Coffroth's Eighth street open air arena on May 17. Willard is in the city, while Smith is campaigning around New York. He will be brought to the coast at once. Tom Jones, Willard's manager, plans to take him to the mountains for a preliminary conditioning spell. The big cowboy is already in fair shape, and figures on being in the condition of his life for the Gunboat.

RITCHIE NOW READY TO MEET MURPHY

But Says the Money Offer Must Be Right Before He Signs Articles.

Bozeman, Mont., April 22.—"Ritchie will fight Murphy any old time if the money offer is right."

This is the statement here today by Billy Nolan, manager of Lightweight Champion Willie Ritchie, following news that Harlem Tommy Murphy had bested Ad. Wolgast in a 20 round go in San Francisco. Nolan declared he also had received big offers for Ritchie to meet Leach Cross and Joe Rivers. "Rivers, Cross and Ritchie are the 'big three' now, and Wolgast is out of it," was Ritchie's comment.

BANKERS' TRUST CASE LASTING ALL THE WEEK

Hearn and Cook on Trial for Conspiracy to Defraud—Many Witnesses Called.

Victoria, B. C., April 22.—That the preliminary hearing of J. O. Hearn, F. G. Cook and R. N. O'Connor, charged with conspiracy in the Bankers' Trust cases, would last about another week was stated in police court on Saturday by H. B. Robertson, the prosecuting attorney. Mr. Robertson said he had about fifty witnesses to call. The session was occupied with the examination of three prominent islanders, John Brethour of Sidney, who was cross-examined by Mr. Frank Higgins for the defence; Arthur Harvey, manager for P. Burns & Co. at Sidney, and David Ford, at Duncan.

WASTED EFFORT.

Still Mexico is torn asunder. I wonder what it means? The people there are raising thunder instead of raising beans. Month after month the cannons rattle and burgs are pelted down by jays who should be herding cattle or hauling hay to town. Their leaders talk a lot of glory, while stirring up the storms, and prancing up and down in gory, bedraggled uniforms. But Mexico's becrimsoned acres should know a better yield than harvests for the undertakers and dead men in a field. I'd rather take a team of horses and plow for winter wheat than strew my doggone farm with corpses, all stark, with upturned feet. I'd rather herd a bunch of chickens and gather up their eggs, than take a gun and raise the dickens, and shoot men in the legs. I'd rather raise some mint for toddlers, or grain for wholesome bread, than have a cornerful full of bodies all plastered full of lead. I'd rather dig, in dripping sweater, than deal in swats and biffs; one cord of elm is far, far better than seven cords of stiffs. In Mexico those men amazing should put their guns away, and soak their swords and go to raising greens, sugar beets and hay. A hundred pounds of yellow pumpkins is of greater worth than twenty tons of butchered bumpkins in any mart on earth.—Uncle Walt.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 29.773; maximum temperature, 48; minimum temperature, 37; precipitation, .24 inch. When a man talks about his principles he usually means his prejudices.

THE TERRA NOVA. Scenes depicting Capt. Scott's last trip to the South Pole will be shown at the Westholme Opera House to-night and to-morrow night.

SCOTT EXPEDITION. Moving Pictures Made by His Party in the Course of their Ill-Fated Voyage. Capt. Scott carried with him on his expedition in search of the South Pole a complete moving picture apparatus in order to have a complete record of the journey that would be beyond doubt or dispute. The pictures made from these records will be shown at the Westholme Opera House tonight and tomorrow night and their representation of the real experiences of the heroes of the expedition are certainly to be viewed with deep interest.

CAPT. SCOTT

KINGS AND QUEENS AT ROYAL WEDDING. Rulers of Many Nations Will Attend the Marriage of the Kaiser's Daughter. London, April 19.—The preparations for the wedding of Princess Victoria Louise, the Kaiser's daughter, to Prince Ernest of Cumberland give promise that it will be one of the most brilliant ceremonies ever seen in Europe. The galaxy of royalties to be present will include the Kaiser and Kaiserin, King George and Queen Mary, the Czar of Russia, the King and Queen of Italy, Archduke Franz Ferdinand of Austria, the King of Denmark and probably the Kings of Roumania and Norway. The value of the wedding presents is estimated at \$2,500,000. The Kaiser's gifts to his daughter include jewellery of his own designing. The bride also will receive costly gifts from all the royalties of Europe. Phone 262 P. O. Box 907

MAULED TO DEATH BY A MAD HORSE

Minnesota Farmer Killed by a Stallion of Which He Had Made a Pet. Crookston, Minn., April 22.—Suffering from terrible injuries, his entire body bruised and bleeding, Napoleon Casavan, 55 years old, a prominent farmer of Louisville township, was rushed to the city last evening and placed in the hospital, where he died shortly after midnight. His injuries were received from a stallion which he had raised and had always treated as a pet. He was ditching in his fields when one of the horses became mired. The traces were loosened and as the horse attempted to get up, Casavan being at its head, the stallion made a lunge at him, bit his arm and knocked him down. The infuriated beast then knelt on the prostrate man and proceeded to bite and tear his body.

Dies of Old Snake Bite. Hamburg, Germany, April 22.—Slow working snake venom was the cause of the death of Karl Hagenbeck, the animal collector, on April 14 according to the physician who attended him. He was bitten seven years ago and the venom eventually affected his liver.

Germany Buys Cartridges. London, April 22.—The German government has just bought 130 tons of cartridges from Turkey. Germany is now purchasing all available Turkish war material.

our course of action. It is quite possible, with the concurrence of the council, that the city solicitor and myself will take a trip east, but this will depend upon developments.

"Pending the sale of our debentures none of the big undertakings can of course be started. Meantime, however, a very considerable amount of work will be in progress. There is the work on the pumping station at Shawatians; there is the work in Section One; there is the new work in Section Two of plank roadways and grading, and I have taken up with William Manson, M. P. P., the matter of grading at Market place.

"The government's share of this piece of grading is over half the total amount. I am pleased indeed to say that Mr. Manson immediately tendered his best services with the utmost readiness. I believe he is now pushing the matter vigorously and I am satisfied that his efforts will meet with success. This will give us approximately another \$50,000.

"And let me here say that this is the kind of thing we want in Prince Rupert: co-operation all along the line, having in view solely the welfare of the city at large."

The vote on the bylaws was as follows:

Table with 3 columns: Item, For, Against, Spoiled. Includes Sewer, Drill Hall, Morse Creek bridge, etc.

ALIEN LAND BILL

President Wilson Begins to Take Action in Regard to the California Legislation

(Special to The Daily News.) Washington, April 25.—Secretary of State Bryan is likely to go to California to talk over the Alien Land Bill with Governor Johnson.

WEEKLY HALF HOLIDAY

All Retail Merchants to Give Their Clerks a Holiday During the Good Old Summer Time.

The retail merchants of the city have got together and jointly agreed to give all their clerks a half holiday every Thursday, beginning in May and ending in August, and the clerks very much appreciate this liberality.

CANADA NOT AFFECTED

Wireless Operators on This Side of the Line Did Not Join the Strike.

The strike of wireless operators, declared on Monday, was only of Pacific Coast operators of the United States and did not affect Canadian operators at stations or on vessels at all.

GAG LAW NOW RULES IN HOUSE OF COMMONS

Government Passes the Closure by a Machine Majority of 33 After Hard Fight.

(Special to The Daily News.) Ottawa, April 25.—After a long, wearisome night, in the morning hours the closure resolution was passed by the house by a strict party vote, 108 Conservatives voting for it and 75 staunch Liberals against. This gave the measure a majority of 33. The rule comes into effect at once and will no doubt be employed to force the obnoxious naval bill to a final passage.

STRUCK A POCKET

Twenty Thousand Dollars in Nuggets Sniped Out of Bedrock Crevice in a Day.

(Special to The Daily News.) Tanana, April 25.—News has just come in that four miners on four above, Emma Creek, in the Koyukuk, while ground sluicing bedrock came across a split in the rock that proved a bonanza. It was literally stuffed with nuggets and in one day the men took out \$20,000 in dust and coarse gold.

YESTERDAY'S IMMENSE BLAST WAS SPECTACULAR EVENT

(Continued from Page 1.)

a true conception of the quantity of rock that was moved and broken into fragments and still more difficult to paint a picture of the spectacular sight. It is not exaggerating to say that yesterday's operation was the instantaneous removal of a large part of a solid mountain of rock and the crumbling of what was not blown into the harbor into fragments sufficiently small to be handled easily with the steam shovel. Before the shot was fired there was a ridge of rock more than a hundred yards long and about the same width at its base, varying in height from 30 to 50 feet. The amount of rock in this ridge was estimated at 60,000 cubic yards.

For many anxious minutes the spectators waited in all directions. Out in the harbor beyond the ridge at safe distances could be seen a number of launches, taken there for safety. Finally a man with a red flag was seen coming away from the hill and shortly after the shrill whistle of the steam shovel began to sound its note of warning. There was still some delay and everyone was in an expectant mood. Another warning whistle, not so prolonged as the first, was given and shortly afterward the electric connection was made and the huge ridge shot into the air, a blackened mass. It was one gigantic puff and as the mass rose it appeared to split, a large portion toppling over into the harbor. The greater bulk, however, settled where it had been before but in a broken, shattered mass. The ridge had been razed and had spread itself out ready for the steam shovel to load it into cars to be transferred for fill where needed. Above the mass of rock and dirt rose huge clouds of light gray smoke from the powder and the air was filled with redhot fragments that resembled shooting stars. It was a sight such as would prove an unequalled attraction at a world's fair and was indeed a golden opportunity for the moving picture speculator.

As soon as the smoke had cleared away hundreds of spectators were seen generally admitted that the shot was a perfect success and that it had accomplished to a nicely just what was desired. Although information could not be obtained from the contractor's office as to the exact quantity of powder used, it was stated by men experienced in such work that there would be approximately 30 tons. Coyote holes were driven under the ridge both on the harbor and city sides. Contractor McDougall is to be congratulated on the success of the work, which means several thousands of dollars saved. His numerous big blasts in this vicinity have demonstrated that he is an expert in this line of work.

POPE IS IMPROVING AND MAY RECOVER

The Pontiff Now Able to Take a Short Walk and Anxious to Get Back to Work

(Special to The Daily News.) Rome, April 25.—The Pope was much better this morning and was able to take a short walk. He has been anxious to get out for two days but his physicians have taken the greatest precautions from making any exertion as likely to prove dangerous. He has also asked several times asked to have his private secretaries sent for, as he is anxious, he says, to go back to work. The doctors have not permitted this but have permitted one of the secretaries to read to him a few of the more important dispatches.

ST. ANDREW'S SOCIETY RECEIVES DONATIONS

Work of Art and Volume of History are Presented by Capt. Rowe

Both the art museum and the library of the St. Andrew's Society were yesterday materially added to by generous gifts. Capt. Rowe, of the Salvation Army, has presented to the society a handsome gilt-framed picture of the officers of the 48th Highlanders of Toronto, and a large volume devoted to the history of the Highland regiments of Scotland. Capt. Rowe was a non-commissioned officer of the 48th Highlanders of Toronto and represented that distinguished body in the South African war, for which he holds a medal. His idea is that his donations may stimulate the aspirations of the sons of Scotland resident here, and he hopes lead to the organization of a Highland company of militia here, especially as the city is soon to have a drill hall. The officers of St. Andrew's Society are mightily pleased with the captain's gift and at their next meeting will inscribe to him a formal vote of thanks.

FISHING BOAT EXPLODED; CREW HAD NARROW ESCAPE

(Continued from Page 1.)

The G. R. Hughes was formerly known as the Rosene and is well known in Prince Rupert harbor. She was 70 feet long with a beam of 16 feet and had a 125 horse power Gorman engine. She was about five years old. All last winter she was used in the harbor here towing herring scows. Captain Cullinton, who has been making his headquarters in Prince Rupert, is the local manager of the company operating the boat. Nearly all of the crew are Vancouver men. They left here about 5 o'clock on Sunday morning but on account of bad weather had been able to do only a little fishing. The men are extremely grateful to Mr. Anderson for his timely rescue. Had he not put out at once it is difficult to say what sufferings the injured men might have endured. Reports from the hospital indicate that they are resting comfortably. It is expected that a party will leave today to locate, if possible, the hull of the burned boat.

SPECIAL FEATURES AT THE MAJESTIC

Good news is hardly the name for it. This is great news. The management of the Majestic Theatre has succeeded in securing the world's famous feature film entitled "Perils of the Atlantic." One of the most exciting scenes in this feature depicts the steamer Terrific striking an iceberg, forcibly reminding one of the Titanic disaster, in which so many lives were lost. In addition to this special feature the program for tonight and tomorrow night will include another three reel feature which in its melodramatic sensation breaks all records in the line of feature films. "The Mystery of the Bridge of Notre Dame," the film in question, is brimful of excitement and is the kind that pleases everybody to the pitch of wanting more. These two features, accompanied by several comedies and western pictures, will be shown at this popular Third avenue theatre tonight and tomorrow night at the usual prices, 10 and 15 cents.

NOTICE

On and after this date the Regal Cigar manufacturers of this city will change their style of firm into Prince Rupert Cigar Manufacturers.
