CONFERENCE ON JAPANESE PROTEST OF ALIEN BILL—OFFICIAL REPORT ON FRIEDMANN CURE

CLOSURE RULE ACCELERATES DISCUSSION OF THE NAVAL BILL

FURTHER CONSIDERATION OF CLAUSE TWO POSTPONED ON MOTION OF PRIME MINISTER, WHICH WAS CARRIED BY LARGE MAJORITY.

VOTING TODAY.
(Special to Daily News.)
Ottawa, May 10.—The vote on the naval bill was fixed to take place early this morning. The result is not yet known.

Ottawa, May 8.—The first two readings of the new closure rule occurred last night in the House of Commons during the debate on the naval bill. After a long discussion had taken place in the afternoon Premier Borden moved that further consideration of Clause 2 be postponed. This is the clause that provides for the emergency vote of \$35,000,000. After two hours' more discussion the

MAY BUILD SPUR LINE INTO COAL DEPOSITS NEAR TELKWA

G. T. P. MINING ENGINEER LEFT THIS MORNING TO INVESTIGATE AND MAKE REPORT ON THE PROPERTY.

A. J. Beaudette, mining engineer for the G. T. P., arrived in the city this morning on the steamer Prince Rupert from the north and left on the 10 o'clock train for the interior. His present visit is for the purpose of making a careful investigation into some coal properties, situated about forty miles south of Telkwa.

In conversation with a "News" representative, Mr. Beaudette seemed confident that the locality contains coal of good quality in paying quantities. The verification of this belief will be a great boon not only to the G. T. P. but to the district. If Mr. Beaudette's report is favorable it is likely that a spur line of railway will be constructed into the deposits.

BRITISH EMIGRANTS ARE NOW GOING MOSTLY TO DOMINIONS

COLONIAL SECRETARY MAKES AN IMPORTANT SPEECH IN HOUSE OF COMMONS ON SUBJECT—DIFFICULTIES OF EMPIRE FEDERATION.

London, May 8.—Important matters were referred to by Rt. Hon. Lewis Harcourt, colonial secretary, in the House of Commons today regarding imperial federations. The Dominions, including Canada, had already decided themselves of the arrangement whereby the British consular service had been placed at their disposal. He said he hoped that the report of the Dominions royal commission would be ready before the next imperial conference.

The government, he said, was doing all it could to direct emigration to the Dominions rather than to foreign countries. In 1910, when the Conservatives were in power, emigrants numbered 150,000, but only 77,000 went to places within the British Empire, and last year 220,000 out of 250,000 went to points in the Empire.

Regarding imperial federation, Mr. Harcourt said he wanted clearer information. Was it to be on a basis of population or what? Was it to be based on population alone which was to have supreme legislative powers? He would remind the members of the tea party of Boston harbor. Some

ALIEN LAND BILL

Japan's Objections Laid Before Secretary of State of the United States.
(Special to The Daily News.)
Washington, D. C., May 10.—The Japanese ambassador yesterday called at the state department and laid before Secretary Bryan the instructions of his government regarding the alien land legislation of California and the objections thereto. The protest was carefully gone over at a lengthy conference between the ambassador and the secretary, but no results have been given out for publication.

MORE SALARY FOR MAGISTRATE CARSS

Police Board Meets and Chief of Police Vickers Presents His Monthly Report.

The police commissioners met yesterday afternoon, the mayor presiding, and the estimates for the coming year, amounting to \$13,422, were presented. The report was adopted with a recommendation that the city council include the same in the city estimates.

It was moved by Alderman Maitland, seconded by Mr. McCall, that the salary of the police magistrate be raised from \$100 to \$150 per month, beginning with May 1st. The motion carried, the mayor dissenting.

The monthly report of the chief of police showed there had been 38 cases entered and 34 convictions. Of these cases 22 were of drunk and disorderly, 1 assault, 2 vagrancy, 3 obscene language, 3 theft, 1 selling liquor without a license, 2 keeping bawdy houses, 2 discharging firearms within city limits. The fines collected during the month amounted to \$249. A petition bearing thirty-five signatures was received asking that the women residing on Comox Avenue be ordered to leave that street. No action was taken upon the petition itself, but the city clerk was instructed to notify the petitioners that if they would lay a complaint in regard to the matter the same would receive attention and be dealt with in the usual course.

LOWER COAST CITIES

Show a Marked Interest in Future of Prince Rupert

D. A. McKinnon, of the firm of Anderson & McKinnon, contractors, returned this morning from a ten day's business trip to Vancouver, Seattle and Tacoma. He reports that business conditions in Seattle show a decided improvement. In Vancouver, while the banks are showing signs of loosening up a little, there is still a very noticeable stringency in the money market. Real estate in Vancouver seems to be particularly quiet. There seems to be, he says, quite a general interest in Prince Rupert in the lower coast cities and many expressed their intention of visiting this city during the present summer.

DELKATLAH'S STORK

Townsite Owner Presenting Free Lot in Case of Twins.

Charles M. Wilson, the promoter and owner of Delkatalah townsite, on Masset Inlet, writes to the Daily News that last week twins were born to Mr. and Mrs. Davies in what served for a time as the school house and church, the Davies family occupying the building until they can build better accommodations. The owner of the townsite was greeted with this news as he landed on the wharf from Prince Rupert and immediately donated a free lot to the little ones, to be held in trust for them until they arrive at the age of twenty-one.

OFFICIAL REPORT ON FRIEDMANN VACCINE

United States Government Report Says Remedy Does Not Justify Confidence Accorded to It.

(Special to The Daily News.)
Washington, D. C., May 10.—The first authentic and official report of the United States government's investigation of the Friedmann tuberculosis vaccine was made public yesterday. It declares that the results of the public health service's observations of the treatment, covering a number of cases, so far do not justify that confidence in the remedy which has been inspired by widespread publications.

THAT INDECENCY CASE

Five Witnesses Examined Yesterday and the Scene Viewed by the Magistrate.

Magistrate Carss reserved decision in the indecent exposure case which occupied the attention of the court nearly the whole of yesterday. Five witnesses were examined during the day, and during the taking of this testimony some discussion arose as to the distance the witnesses were from the accused, so the magistrate adjourned court and went to view the scene for himself.

Two of the women who testified said they know the accused personally, but that they could not recognize the man's face at the distance they were. Another of the women who did not know the accused personally said she recognized his face. The accused admitted that he was in the locality named at the time mentioned. He had gone out there for a walk and lay down on the grass for a nap. One of the witnesses testified that chips and bits of twigs were clinging to his coat, thus bearing out his story.

ANTI-CIGARETTE BILL

To Be Introduced in the House of Commons by Premier Borden.

(Special to The Daily News.)
Montreal, May 10.—An anti-cigarette bill is to be introduced in parliament as a government measure, according to a statement made yesterday at the W. C. T. U. conference. The bill is to be introduced by Premier Borden and seconded by Robert Bickerdike, member for Montreal.

ACCIDENT WAS SERIOUS

"Uncle Jerry" Kugler is Still Confined to the House.

Jay Kugler returned this morning from Vancouver, where he had been for the past six weeks looking after the business interests of his father, "Uncle Jerry" Kugler, who suffered a serious accident. While the latter is getting along as well as can be expected under the circumstances, the accident was more serious than at first thought. He is still confined to the house and unable to attend to business. Mrs. Kugler will return to Prince Rupert in a couple of weeks.

PRESBYTERIANS WANT BIG SUM THIS YEAR

Absolutely Needed to Carry on the Church Schemes—Go Slowly in the Missions.

The budget of the Presbyterian Church in Canada for the coming year, which will be presented to the general assembly when it meets again early in June, totals \$1,400,000. This is the sum which the finance board of the church, who have been conferring for the past few days, consider absolutely indispensable to carry on the schemes of the church. Even with estimates of these dimensions many items of expenditure have been cut down. Foreign missions, which will absorb \$400,000 could easily take \$200,000 more. The extraordinary situation in China made many of the mission board feel that extraordinary efforts should be made, but the financial board decided that it was unwise to go too quickly. Foreign missions last year were allotted \$325,000.

VETERAN HOME AGAIN

Sir Chas. Tupper Safely Reaches the Home of His Daughter in England.

London, May 10.—The venerable Canadian statesman, Sir Charles Tupper, arrived here yesterday in robust health and left last night for the home of his daughter, where he will take up his permanent residence.

AFRAID OF MILITANTS

Duke of Marlborough Yesterday Closed Blenheim Castle to the Public.

(Special to The Daily News.)
London, May 10.—The Duke of Marlborough yesterday closed Blenheim Castle to the public and placed a strong guard around it. This course was taken as a consequence of a threat to blow up the historic structure contained in an anonymous letter from the militant suffragettes.

DERRICK FELL ON HIM

George Lonsbury Taken to Hospital with Badly Bruised Back.

About 9 o'clock this morning the derrick operated by Neil McLeod, sub-contractor at Cow Bay, fell down and a man named George Lonsbury was struck and badly injured. He was hurried to the hospital, where it was found that no bones were broken but that the bruises on the back were very severe.

SETTLERS FOR NAAS VALLEY

About Thirty Left on Princess Mary This Morning.

The Princess Mary arrived from the south shortly after 11 o'clock last night and left this morning for Granby Bay. Among other passengers was a party of a dozen pre-emptors who came from the south to settle in the Naas valley. There was also a party of fifteen Germans who will take up land in the same district.

MILITANT VIOLENCE HAS COST ENGLAND TWENTY-FIVE MILLIONS

DAMAGE OF FIVE MILLIONS DONE IN LAST THREE MONTHS FIGHTING SISTERHOOD LEADERS DECLARE "THE WORST IS YET TO COME"

London, May 8.—The damage to property in the British Isles caused by the militant suffragettes during the last three months amounts to more than \$5,000,000, according to an official estimate made today by the authorities at Scotland Yard. To this sum, they say, must be added the increased cost of protecting lives and property. Three detectives have been assigned to watch over each member of the cabinet at all times, while all suspected persons are shadowed by plain clothes men and all public buildings have been placed under special guard. Figured at this rate, the suffragette activities are costing the country at least \$25,000,000 a year. The militant section of the British suffragettes intend to inaugurate a campaign of even greater violence in order to avenge the defeat of the woman's suffrage bill Tuesday night and the prosecution of the Central Militant Organization. Advanced members of the fighting sisterhood declared today that the events of the last few days are to be eclipsed by worse things to come.

The authorities have secured evidence that many former constitutional suffragettes have joined the military body since the defeat of the woman's suffrage bill. There is no question that the number of militants is growing.

Attack of Rheumatism.
George Larmer, one of the employees of the Wallace Fisheries Company at Naden Harbor, was brought to the hospital yesterday suffering from a severe attack of rheumatism.

MACHINERY IS ORDERED FOR BRICK PLANT AT GRANBY

PLANT WILL BE CONSTRUCTED AT ONCE AND WILL HAVE A CAPACITY OF 40,000 PER DAY.

Among the passengers arriving on the steamer Prince Rupert from the south this morning was I. T. King of Victoria, who is en route to Granby Bay with a gang of men to start immediately on the erection of a brick manufacturing plant. Interviewed by a "News" representative, Mr. King said that he had visited Granby four weeks ago and had gone carefully into the proposition. His investigation satisfied him that the necessary materials for brick manufacture can be secured at Granby and that a plant can be operated successfully for the manufacture of the brick that will be required by the Granby Consolidated Smelting, Mining & Power Company for their smelter and other buildings, even if no outside orders were received. After going into the matter with the directors of the company it was decided to proceed at once with the erection of a plant.

Mr. King stated to the "News" this morning that machinery had already been ordered for a plant with a capacity of 40,000 bricks per day, although the output will probably not exceed 25,000. Mr. King will leave tomorrow morning for the smelter city.

WINDING-UP ORDER FOR THE OCEAN FALLS COMPANY REFUSED

MR. JUSTICE MURPHY REFUSES APPLICATION OF CREDITORS FOR WINDING-UP ORDER, HOLDING IT WOULD BE PREJUDICIAL TO MAJORITY OF CREDITORS.

Vancouver, May 8.—The dissentient minority of creditors who are opposing the proposed reorganization of the Ocean Falls Co., Ltd., and have been asking for the appointment of a liquidator under the Dominion Winding-up Act lost out in the first round of the litigation this morning when Mr. Justice Murphy dismissed their petition for the appointment of a liquidator. The matter was argued at great length yesterday, Sir Hibbert Tupper, K. C., appearing as counsel for the trustee of the debenture holders, who is now in possession of the company's assets and has advertised a sale by auction. In his reasons for judgment handed down this morning, Mr. Justice Murphy says:

"Whilst as a general rule a creditor who has brought himself within the provisions of a winding-up order 'ex debito justitiae', this rule is not without qualifications. If the order is opposed by a large proportion of creditors of the same class, as is the case here, for a reason that does not commend itself to the court, and if it be not shown that such order will have something to operate upon, making it at least probable that it will result in the creditor being paid, then the court exercising a sound discretion should dismiss the petition. Such seems to me to be the principles laid down in the authorities cited to me on the argument, in so far as I can ascertain them in the limited time at my disposal.

"I am told that delay in giving a decision will be disastrous to large interests. Hence although I have not been able to consider the matter as fully as I would have wished, I am of the opinion that this application should be dismissed. The reason for the opposition of the majority of the creditors is, I gather, that they fear a winding-up order will render their chance of getting payment less than it is at present. That appears to me to be a sound reason if founded on fact and business men, such as are the dissentient creditors, ought to be the best judges of the real position. It has not been shown that the order will have anything to operate upon. I understand all the company's property is in the hands of a receiver for the debenture holders.

"The petition is dismissed without costs."

DAILY EDITION

THE WASTE OF WAR NOT UNMIXED EVIL

"The bill for a superdreadnought," says a paragraph now going the rounds of the press, "is \$15,000,000, which would build 6,000 homes at \$2,500." It would also support 15,000 families for a year at \$1,000 each, and, if it does not do this, it does something very like it.

The waste of war is very great, but do not let us get false notions on the subject. Take a superdreadnought at \$15,000,000 and give the builders 10 per cent. profit on the work. This leaves \$13,500,000 every dollar of which, at some stage or other, is paid out for labor of some kind or another. The principal material used in the construction of this is steel. The production of the steel means the employing of a great deal of labor; the building of the ship means the employment of more labor; the preparation of the other materials used in the ship means the employment of labor; the preparation of the other materials used in the ship means the employment of labor; so does the manufacture of the engines, the cannon and everything else.

Out of the money paid out for this labor, families are maintained, houses are built, farm produce is paid for and so on. Doubtless it would be infinitely better if the money could be spent in some other way; but let no one deceive himself with the idea that because a government builds a warship it is depriving workmen of an opportunity to earn money. On the contrary it is enabling them to earn money.

"CUPID UNLIMITED" CANADIAN TRAINS

It is possible that the Canadian railways may find it necessary to add a "Cupid Unlimited" to their transcontinental service. A woman immigration agent speaking at the Central Immigration Board meeting in London this week referred to the inevitability of marriage when marriageable maidens visit the Canadian West. By way of illustration she mentioned the fact that she herself had received seven proposals in seven weeks, and of a party of forty-five girls leaving Montreal for Vancouver only five reached their destination untied.

Many Small Birds.

Never before have small birds been so numerous in and around Whitehorse as this spring. While they are not song birds, it is pleasing to see them here in such great numbers. Also there are more birds in the hearts of the people of Whitehorse this spring than for a long time and they are the most cheery of all song birds. A bird in the heart is worth two in the bush.—Whitehorse Star.

IF JAPAN SHOULD GO TO WAR FILIPINOS WOULD SUPPORT HER

DELEGATION TOURING CANADA SAYS THE JAPANESE ARE THEIR FRIENDS AND THEY COULD NOT FIGHT AGAINST THEM.

Vancouver, May 7.—"Japan could grab us easily, and we would not complain."

So answered the leader of a party of Filipinos who are in the city on their way east and on to Europe, via the Canadian route, when asked what would happen in the event of hostilities between the United States and Japan over the anti-Asiatic legislation of California. Although the visitors have not a ready command of the English language, they possess enough to understand questions and to make themselves understood in their replies; and their views upon the situation may be interesting as illustrating, to some extent, the opinion of the people of the Philippines.

Asked whether their people were content under American rule the answer was a shrug of the shoulders which may have meant anything, but which, in view of subsequent declarations, was evidently designed to signify the negative.

"Taft was a big man who un-

derstood us, but he was only one, and there are many Americans. If we had to deal with Tafts we might have faith in Americans; but the sort we meet in business are too cute—is it you say?—when they are trading with us. We may seem content under American rule, but we are like other people, we want freedom, and we want to govern ourselves. We are promised that that will come, but promises take long to fill."

The spokesman of the party said that while the Americans had a big army in the Philippines, it would not be of much use against the Japanese, for the reason that there are "many, many Japanese amongst us," who have made friends with the Filipinos, and who would soon find means to create an anti-American sentiment in the islands.

"Japanese are our friends. We could not fight against them," was the way in which he summed up the situation in the event of a war.

NO VOTES FOR WOMEN FOR A GENERATION SAYS SIR CONAN

MILITANT SUFFRAGETTES HAVE FORGOTTEN BUT ONE MEAN THING: TO BLOW UP A BLIND MAN AND HIS DOG.

London, May 7.—Sir Arthur Conan Doyle fiercely denounced the militant suffragettes at a meeting at Wells recently.

"It is necessary," he said, "to differentiate between honest constitutional suffragettes and these female hooligans and the even more contemptible class of people who find them the means to carry out their malicious monkey tricks."

"It would seem that the only thing for the militants to do in the way of meanness is to blow up a blind man and his dog."

"They imagine that in a proud old nation like ours they can move men by an appeal to their fears to do something which their knowledge tells them is not right."

We can proudly boast that our country has some of the best women in the world. He would not be an honest man, however, who did not admit that we have also some of the worst, who have let down the fair name and dignity of our English womanhood. Probably if we had women judges and jurists we should not see the weakness that now appalls."

Sir Arthur, whose speech was punctuated by applause, prophesied that the vote will not now come to women for a generation.

At a meeting at Tunbridge Wells, where recently a cricket pavilion was burned by the suffragettes, a resolution was passed condemning the outrages of the militants.

Sir Tatton Sikes Dead.
 London, May 7.—Sir Tatton Sikes, one of the best known breeders of race horses of the past century, is dead here, aged 87. Church building and the turf were Sir Tatton's chief hobbies. He spent more than \$7,000,000 in restoring thirty old church edifices.

SOCIAL, MORAL AND RELIGIOUS TOPICS OF GENERAL INTEREST

(Contributed by the Ministerial Association)

NOTE—The "News" does not necessarily endorse all views that may be expressed in these contributions

Marriage Reform.

Ontario is seriously considering the necessity of drastic reform in her marriage laws. Border cities are chiefly culpable regarding the marriage of irresponsible young people coming across from the American side and effecting runaway marriages. The bill as proposed by the government contemplates that a marriage license cannot be issued unless one of the parties be a resident of the municipality for at least thirty days prior to the event, or unless they have advertised the fact in the local papers for at least three weeks before the issuance of the license.

Glorious Rain.

Is it raining, little flower? Be glad of rain. Too much sun would wither— 'Twill shine again. The clouds are very black, 'tis true, But just behind them shines the blue.

Art thou weary, tender heart? Be glad of pain. In sorrow sweetest virtues grow, As flowers in rain. God watches and thou wilt have sun When clouds their perfect work have done.

High Life.

Court life in Great Britain is to be cleaner. Queen Mary announces that no favor will be shown the man or woman who is known to be of unworthy character, regardless of rank. And President Wilson has set out to put the social life of Washington on a higher level. The absence of the inaugural state ball and the President's reading of his own message to Congress impresses the public with the thought that here is a man with an eye to the essential regardless of precedent.

Peace Centennial.

Suggestions for the centennial of peace between Britain and the United States are being made in both those countries and in Canada. Various monuments and public memorials are included in these proposals, and it is also suggested that a marine "peace parade" be held on the Great Lakes. A world's fair in Toronto, devoted to the arts of peace, is still another plan. Thank-giving services in all places of worship will be given a foremost part in whatever scheme of celebration is decided upon.

DAIRY HANDKIE. No. 910, 70c each. Lace 1 1/4 inches deep

Buy some of this hand made Pillow Lace. It LASTS many times longer than any machine made variety, and imparts quite an air of distinction to the possessor, at the same time supporting the village lace-makers, bringing them many little comforts otherwise unobtainable on an agricultural man's wage. Write for the absorbing and descriptive little treatise entitled "An Interesting Home Study"; this contains over 100 striking examples of the lace maker's art, and is sent POST FREE to any part of the world.

16TH CENTURY DESIGN COLLAR \$1.00 3 in. deep

Lace for every purpose can be obtained and within reach of the most modest purse. Every sale, however small, is a support to the industry.

No. 112, Price 15 cents per yard. WRITE TO MRS. RUPERT ARMSTRONG Olney, Bucks, England

When Grover Cleveland's little girl was quite young her father once telephoned to the White House from Chicago and asked Mrs. Cleveland to bring the child to the telephone. Lifting the little one up to the instrument, Mrs. Cleveland watched her expression change from bewilderment to wonder and then to fear. It was surely her father's voice—yet she looked at the telephone incredulously. After examining the tiny opening in the receiver, the little girl burst into tears: "Oh, mama! she sobbed, "how can we ever get papa out of that little hole?"

GILLETTE advertisement featuring an image of a razor and text: 'The Symbol of Clean-cut Modern Manhood. By making shaving so easy, the Gillette Safety Razor has done much to develop the typical man of to-day—that strong, aggressive, successful individual who scorns to disguise his features with a beard or to appear with an unkempt stubble on cheek or chin.'

JIMMY CLABBY AND M'GOORTY GO A DRAW

Despite Fact That Clabby Gave Several Pounds He Worried McGoorty.

Denver, Colo., May 6.—Despite the fact that he gave away several pounds to his opponent, Jimmy Clabby, the Hammond, Ind., fighter, drew with Eddie McGoorty of Oshkosh, Wis., in a fast ten round bout here. The mill was advertised as a middleweight championship go, but Clabby stepped in at the welterweight notch.

There was not a knockdown during the fight and neither man was in distress at any time. Clabby used his left jab often, but McGoorty fought a cool, heady battle. There is talk of signing the men for a return match. Clabby displayed great cleverness, his left jabs to the face and impenetrable defence worrying McGoorty considerably. McGoorty's punches, although landing less frequently, carried more force, a right to the face drawing blood from Clabby's nose in the fourth.

Carpentier and Bombardier

Paris, May 7.—Bombardier Wells, British heavyweight champion, has been matched with Georges Carpentier, the French middleweight champion, for a twenty-round bout here on June 28. This bout will take the place of the Johnson-Wells fight, which will be staged next fall. Carpentier has outgrown the middleweight limit, and this will be his first appearance in the heavyweight ranks.

An old countrywoman stepped in a suburban drug store and laid on the counter a prescription for a mixture containing two decigrammes of morphia. The druggist exercised the utmost care in weighing the dangerous drug. "What a shame!" she cried. "Don't be so stingy; it's for an orphan girl."—Lippincott's.

BRITAIN WILL NOT KEEP EMPIRE DAY

Premier Asquith Takes Remarkable Attitude Regarding the Celebration of May 24

London, May 7.—Imperialists in parliament and out of parliament are incensed over the refusal of the ministry to recognize Empire Day in any official way. In answer to Mr. Page Croft, the member for Christchurch, in the House of Commons last night, Premier Asquith refused to order the flag to be flown over government buildings on Empire Day, because that day is not officially celebrated in this country, where we officially keep the King's birthday.

In spite of many protests from provincial mayors and masters of public schools and other authorities, the war office has issued a decree that no regular or volunteer troops, not even the public school cadets, are to take part in Empire Day celebration, which in recent years have become occasions, at each centre throughout the country, for patriotic and civic rejoicings and Empire speeches. Last year 61,400 schoolboys in the Empire, representing nine millions of scholars observed the day, and nearly eighteen million British subjects co-operated in the celebration.

COUNTESS KILLED BY AN ACCIDENTAL SHOT

Wife of Earl of Cottenham Receives Death Wound in the Hunting Field.

Henley, Eng., May 6.—"Death by the accidental discharge of her own shotgun" was the tragic fate this morning of the Countess of Cottenham, wife of the Earl of Cottenham. The countess's twin sister, daughter of the Marquis of Abergavenny, was found dead in 1910 with a gunshot wound through the heart in the grounds of the family residence in Oxfordshire.

Today's affair was a mystery until the Earl of Cottenham testified at the coroner's inquest at noon. He said he had been out with his boys and when he returned and found his wife missing he instituted a search which resulted in the discovery of her corpse with the gun beside it near the stump of a tree over which she had evidently stumbled, at the same time accidentally discharging the weapon. The jury thereupon returned a verdict of accidental death.

PIONEER OF THE NAAS

To Operate Launch Connecting Port Nelson with Granby Steamers.

W. A. Myers, of Myers & Dunlap, proprietors of the Naas River Transportation and Trading Co., is in the city today. He has lived in the Naas country for the past three or four years and is most enthusiastic as to the future of that district. His company is operating a launch connecting at Port Nelson with Granby steamers for all points up the Naas. They also conduct a store at Gwinoha. The launch conveys passengers to the very heart of the pre-emption district. Mr. Myers says that all kinds of fruit and vegetables have been raised successfully in the district for years. He is expecting a large number of settlers during the present year.
