

MILITANTS ATTEMPT TO WRECK MIDLAND LINE

AMERICA'S TENTATIVE REPLY TO JAPAN'S PROTEST—LIBERAL OPPOSITION TO NAVAL BILL

KEYS OF SCUTARI FORMALLY HAND TO BRITISH ADMIRAL

OFFICERS AND MEN FIRST ENGAGE IN DISTRIBUTING FOOD TO THE SEVERAL THOUSANDS OF STARVING MEN, WOMEN AND CHILDREN.

San Giovanni di Medua (via Rome), May 15.—The keys of the city of Scutari were turned over to the naval commanders representing the great powers at noon yesterday in the square opposite the military barracks where Esad Pasha so recently surrendered to the Crown Prince of Montenegro. The ceremonies were brief and simple. The international force was commanded by Vice Admiral Cecil Burney of the British navy, and was escorted into the city by a Montenegrin guard of honor.

All Fought Out.
New York, May 15.—Among those on board the White Star liner Oceanic, which arrived last night, was Lionel James, the war correspondent of the London Times, who said he had only been three days in London from Adrianople when he sailed for New York to write an account of the international polo match for his paper.

With regard to the conditions in the Balkans, Mr. James said that all sides were fought out in every way and there would be peace and quietness for the next few years. He believed that the next trouble would be between Bulgaria and Greece.

"King Nicholas of Montenegro," Mr. James said, "knew just how far he could go in the Scutari matter."

O. Besner, of the Knox Hotel, returned this morning from a three weeks' trip to Montreal, whither he was summoned on account of the serious illness of his father. Fortunately Mr. Besner reached Montreal in time to see his father alive, his death, reported a few days ago, occurring after Mr. Besner had left on his return trip.

RICH COUNTRY IS DISCOVERED IN THE HINTERLAND OF RUPERT

NORTH OF GROUNDHOG AND STRETCHING FROM THE NAAS VALLEY TO TOOVA LAKE—WELL MINERALIZED AND GOOD FOR AGRICULTURE.

Another part of the hinterland tributary to this city of untold richness in natural resources, both agricultural and mineral, is brought to notice by the trip of Joseph Ulmer, a practical mining engineer and prospector, now in this city. Going up the Stikine in snowshoes he reached Telegraph Creek and from there struck southward, following the leading streams. Since then he has thoroughly prospected the whole of the unknown country directly north of the Groundhog district for a radius of a hundred miles. He is greatly impressed with what may be called his discovery and earnest in his arguments that the Grand Trunk Pacific should immediately give some promise of building the branch line surveyed through this country from Hazelton to Dawson.

formation reminds one of Colorado. In the Gartner Range, the south extension of the Cassiar Range from the main Cassiar, the formation consists chiefly of primary metamorphic and intrusive rocks. This is flanked by the great lava beds extending from the Naas to Toova Lake and southeasterly and to the east by the Skeena series of coal formations.

"The country, as I said, has never been prospected for quartz, though I believe a few prospectors have gone into parts of it after placer. It is not correctly mapped, even. I met up with W. F. Robertson, the provincial mineralogist, in the Groundhog country, to whom I gave some notes which will lead to certain minor corrections in the next provincial maps of the section I prospected over."

"It is a fine country for agriculture and is also well mineralized. Gold, silver, copper and probably iron will be found there and also the rarer minerals. Tungsten I found in quantity, and wherever you find that you find the rarer minerals associated with it. What is needed, and the only thing needed, to open up this rich country is transportation facilities. That will come in time, no doubt. The country is now ready for the prospector and the investors who have the means and the time to investigate thoroughly. I have never gone through a country that looks so promising in every respect. I am leaving on the next Prince Rupert for Granby, and after a stay there shall probably hike back into this interior country."

Delegate to Conference.
London, May 14.—The London societies' delegate to the International Geographical Conference, which is to be held in Toronto in August, is its president, Dr. A. Strahan.

CONFERENCE ON CALIFORNIA ALIEN LAND BILL.

This is the notable scene in which the Secretary of State of the United States, despatched to California by President Wilson, is unavailably pleading with the governor of that sovereign state not to pass the alien land bill for fear Japan might not like it. Governor Johnson is in the centre, with the secretary of state of California on the left and Secretary Bryan on his right. The latter's arguments were overruled and the bill has since been signed in spite of the protest of the United States, the president and cabinet of which are in great perplexity as to what they can do in the premises. As told in another column, the cabinet wrestled with this question for two hours yesterday.

UNITED STATES' REPLY TO JAPAN'S PROTEST

Draft Discussed for Two Hours by the Cabinet—Document Not Made Public.

(Special to The Daily News.)
Washington, May 17.—A tentative draft of the reply of the United States government to the Japanese protest against the California land legislation was considered by the cabinet yesterday. Two hours were devoted to the discussion of the draft the nature of which is not made public.

A number of army officers were ordered to Hawaii yesterday. Special efforts are being made by the army and navy departments not to start any sensational rumors by making public any orders that may be issued.

HAS RETURNED FROM IMMIGRATION TOUR

Former Resident of This City Had Successful Campaign in Scotland.

Among the arrivals by the steamer Prince Rupert this morning was J. F. McDonald, a former well known resident of Prince Rupert. Most of the old timers will remember him when he was in the furniture business here. After retiring from the mercantile business Mr. McDonald secured a government position on the Queen Charlotte Islands. About six months ago he was sent by the government to the old country to give a series of immigration lectures in Aberdeenshire, Scotland. Judging from newspaper and other reports, Mr. McDonald has had a most successful tour. He is looking particularly well after his trip abroad.

St. Andrews' Excursion

The committee in charge of the St. Andrews' Society excursion to Port Simpson on the 24, have heard from Mr. Richards, proprietor of the Northern hotel there and R. Boyd Young, the merchant, to the effect that they will have everything prepared to give the excursionists a hearty welcome, "and if it should happen to rain—which it never does at Port Simpson, they can dance under cover," writes Mr. Richards. It is well to purchase tickets before the 22nd as only a limited number can be sold.

NAVAL BILL PASSED.

(Special to Daily News.)
Ottawa, May 17.—The naval bill passed its third reading in the house yesterday by a majority of thirty-two, the Nationalists voting against it. The bill now goes to the Senate.

EMPLOYMENT AGENCIES MUST GET LICENSES

New Regulations Aim to Protect Immigrants from Unscrupulous Persons.

Chief of Police Vickers has just received from the superintendent of immigration at Ottawa a circular drawing attention to the adoption of more stringent regulations in regard to employment agencies. Under the new act all employment agencies must have a license signed by the mayor and chief of police or by the local immigration agent. The object of the new regulations is to prevent, as far as possible, unscrupulous men from engaging in the business and defrauding immigrants coming to Canada who are not familiar with language and customs of the country.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 30.134; maximum temperature, 50; minimum temperature, 40; precipitation, .06 inch.

EMPIRE DAY, MAY 24

Government Will Not Change Date of Holiday.

(Special to Daily News.)
Ottawa, May 15.—The Dominion government will not change the observation of Victoria Day from Saturday, May 24, to Monday, May 26. There has been some talk in favor of the change, because this year the celebration falls on Saturday, but the date has never been changed in the past on this account and will be observed as usual this year on May 24.

EXPRESS RATES TO BE VERY SOON REDUCED

Railway Board Issues Formal Notice Making the 20 Per Cent. Reduction Effective.

Ottawa, May 14.—The formal order of the railway board making a reduction of 20 per cent. in the express charges in the west has been issued. It is as follows:

1. That the express companies under the jurisdiction of the board be required to submit new standard tariffs of maximum mileage rates to be charged for express freight classified as "merchandise" between points west of and including Sudbury, Ont., making a reduction of approximately 20 per cent. from the maximum mileage rates in excess of 50 cents a hundred pounds now being charged, the said reduced maximum rates to carry with them the appropriate tolls of the graduated tables, scales K and M, and the special tariff for single shipments of five hundred pounds or over.
2. That the said maximum rates, so reduced, for the mileage group from 900 to 1,000 miles, do not exceed \$4 a hundred pounds in the sections between Sudbury, Sault Ste. Marie, Ont., and Crow's Nest, Canmore and Thornton, Alberta, and \$4.75 a hundred pounds in the section west thereof, in place of \$5 and \$6, respectively, as now charged.
3. That the reduced standard tariffs of the maximum mileage rates be published and filed before the fifth day of July, 1913.

G. T. P. TICKET OFFICE

Closed as a Mark of Respect to Late Passenger Traffic Manager.

As a tribute of respect to the late W. E. Davis, passenger traffic manager of the Grand Trunk system, whose death occurred at Montreal yesterday, all of the passenger and ticket offices on the entire system were closed today between the hours of 11:30 and 12, Montreal time (8:30 to 9 o'clock Prince Rupert time). In addition to closing during those hours the local office in the Hart Block was suitably draped.

CANADIAN PARLIAMENT SHOULD CONTROL SUM VOTED FOR NAVY

LIBERALS CONTENT THAT ALL BORDEN PROPOSES COULD BE ACCOMPLISHED UNDER THE EXISTING NAVAL SERVICE ACT—LEMIEUX'S AMENDMENT.

Ottawa, May 15.—When the house met this morning the final stage of the naval bill was entered upon when Premier Borden called the third reading.

William German of Welland was immediately on his feet with the object of moving his amendment, rejected in committee, with the object that the money be voted annually as required and spent under the control of parliament and not of the governor-in-council, as provided by the bill. Mr. German said that the Liberals have shown a desire to have parliament united on this question and if it is not united the one man to blame is the prime minister. It had not been controverted that everything that Mr. Borden proposed to do could be accomplished under the existing Naval Service Act. Mr. Borden knew when he introduced this bill that the Liberals could not support it and remain true to the principles which have guided the party in the past. He knew his bill would prove to be contentious but was forced to introduce it because the Nationalists had been promised that the Naval Service Act passed by the late government would be repealed. Mr. German said that if

Mr. Borden would withdraw his bill and proceed under the Naval Service Act he for one would support him.

Mr. Borden, replying to Mr. German, said that in view of the Liberal contention that all that was being done by the present bill could be done under the old Naval Service Act, he did not understand the reason for the Liberal objections. They had opposed the naval bill, declaring it subversive of every principle of Liberalism. That was neither logical nor accurate.

Hon. Rudolphe Lemieux followed with an amendment in the form of a suggested new clause providing that all works under the act be executed under the powers of the Naval Service Act. He maintained that the government's proposal is a backward step which if it means anything, means the beginning of a policy of permanent contribution.

Mr. Borden asked Mr. Lemieux to say where he had ever made a statement to indicate that this was a policy of permanent contribution.

Mr. Lemieux replied that the Premier's speeches had been so conflicting that one could form no other impression.

CAR LINE STRIKE

Twenty-Six Strikers Arrested for Interference With Operation of Line

(Special to The Daily News.)
Cincinnati, May 17.—During the rioting last night two men and a youth were badly injured. Twenty-six men were arrested for interfering with the lines of the traction company, whose employees are on strike.

MILITANTS ATTEMPT TO WRECK RAILWAY

Startling Sequence to Anonymous Letter Received by Midland Railway Officials.

(Special to The Daily News.)
London, May 17.—A startling sequel to the warning received by the officials of the Midland Railway, contained in an anonymous letter dated May 12th, came to light yesterday. The letter stated that a systematic attempt would be made to wreck the main line of the company, and was so explicit that the line has since been carefully guarded. Yesterday two men were found hiding in a culvert near Whaley, Lancashire, with axes, crowbars and other tools. They were placed under arrest and it is believed they intended carrying out the threat contained in the letter from the militant suffragettes.

Anti-Boxing Bill Killed.

Sacramento, Cal., May 14.—There will be no anti-boxing law passed during the present session of the legislature, according to all indications here today. Assemblyman Brown's drastic anti-boxing bill has been killed in the assembly, and Senator Brown's amended bill probably will never be brought before the Senate for action.

CHILDREN SHOULD BE TAUGHT FIRE TACTICS.

When Mayor Pattullo suddenly turned in a fire alarm and the red devil and fire laddies whirled up to the public school the pupils, although they believed there must be a fire somewhere in the building, under the influence of their teachers behaved splendidly. In this connection the current quarterly of the National Fire Protection (published in Boston) suggests that firemen should lecture on fire protection, and undoubtedly adults as well as children would in this way receive many valuable hints as to the proper course to be first followed on a fire outbreak. These lectures could be made as popular as those on "First Aid to the Injured." The Quarterly says this:

"The point is made that in every fire station house there are usually one or two firemen, clean cut, athletic, intelligent looking, who would make attractive figures in their uniforms on the school platform before the assembled pupils. Some of these men have had full public school education; some even higher training. These men could very easily be coached for these simple talks to the pupils in the elementary schools. By the aid of the syllabus outlining topics to be touched upon in these short talks, the lecturer could make very interesting and instructive points on fire prevention in the home and shop, what to do in emergencies, etc. This new field of effort

for the fire department would have a marked effect upon the esprit de corps and personnel of the department by giving it a wider and more useful field of activity, and consequently enhanced standing in the community."

PLENTY OF HEROES PRESS FORWARD.

M. Stefansson's Arctic steamer was on Thursday last taken from the ways and run into Vancouver to be fitted up and take on supplies for his Arctic journey. As on his way north he could pass within a few miles of here, the Canadian Club might invite him to make a call, as in the event of his acceptance the sight of the vessel, the meeting with the intrepid explorer and his picked body of distinguished scientists would be an event to be long pleasantly remembered. All his party, and even his officers and crew, are British, he having determined to take no other on his Canadian Arctic expedition.

Mr. Stefansson says that there were ten times as many British volunteers as can be taken. This, he says, is one of the ways in which the effect of the Captain Scott tragedy on the British people is known. No doubt the story of these four gallant men has increased the desire for polar adventure, but it is well known that Scott himself and Sir Ernest Shackleton as well were embarrassed by the multitude of applications that poured in on them when they were forming their expeditions. So may it ever be.

NEW CONTRACT HAS BEEN LET FOR NEW PRINCESS STEAMERS

STATEMENT MADE IN VANCOUVER BY VICE-PRESIDENT BURY UPON HIS RETURN FROM AN INSPECTION OF PRINCE RUPERT'S GROWING TRADE

Vancouver, May 13.—"I am in a position to say definitely that the contract has been let for the construction of two new and modern vessels for the trade of this coast. These vessels will be of the best possible type and capable of handling the greatly increased traffic of the Pacific Coast waters." This was the statement made by Mr. George J. Bury, vice president of the C. P. R., who returned to the east on Thursday last. Mr. Bury added that, as Captain Troup had had the letting of the contract and was much more familiar with the details of the vessels, he would prefer to leave the captain to describe them upon his arrival back.

The company is authorizing Captain Troup to go to Great Britain and place a contract for two vessels for this coast service and make it clear that they were to be of a type superior (as well as larger) to the present Princesses, and it is generally understood that the new vessels will measure up to 5,000 tons. Captain Troup has experienced not a little difficulty on account of the excessive activity now prevailing in practically all ship building yards of the United Kingdom. "While I am not in possession of the details of these vessels, I know that they will excel everything that we now have here," Mr. Bury added.

FRENCHMAN DISCOVERS AEROPLANE SECRET

Invention of Automatic Stability by a Printer is Said to Be Successful.

Paris, May 13.—The French aviator, M. Moreau, who has been conducting experiments near Melun, is credited with having discovered the secret of automatic stability for aeroplanes. His invention has caused a certain amount of excitement in aviation circles and a generous patriot has sent him a cheque for \$2,000 to continue his experiments.

M. Moreau before he took to aviation was a printer and he has spent all his savings in perfecting his invention. The novelty in his design, as far as can be judged from what has been made public, consists in a suspended cage that contains the seat of the pilot and room for passengers. It is described as a pendulum seat, and the way it is attached under the frame at a certain point between the propeller and the horizontal rudders influences the centre of gravity, which is maintained constantly at a fixed point by the movements of the pendulum seat.

Two levers, which are worked automatically as the pendulum seat swings, keep the wings and rudders constantly in the position required for maintaining the stability of the aeroplane.

He kissed his sweetheart in the hall,
 He kissed her o'er and o'er.
 A jeer came from her brother small,
 "Say, mister, what's the score?"

SIR CHARLES TUPPER TELLS FACTS ABOUT CANADA'S CLIMATE

ONE OF ITS GREAT ADVANTAGES IS THAT IT MAKES MEN—NORTHERN MEN ALWAYS RULERS OF WORLD.

That splendid nonagenarian, Sir Charles Tupper talked with a representative of the London Daily Chronicle about his beloved Canada. He said:

"I have no specific for long life save one—hard work. I have never known anything else. My only holidays have been in train journeys and crossing the Atlantic. This last was the sixty-fourth time I crossed it. The first time I came to England was in 1840, when I crossed in a brigantine of 160 tons. We were forty days getting from St. Johns, Nfld., to Lough Foyle, Ireland.

"Canada's climate is one of her great advantages, it makes men. If you study the history of the world you will see that it is men from the cold north who have always ruled it. The southern races have always gone under. Then you remember that the United States would not have had its ten millions of negroes were

it not for the warm southern states and they are increasing in those states, while native American white men are decreasing. We have been saved from that great problem. We are becoming the great highway between east and west. We will soon have three transcontinental railway lines working and we must remember that New York is a thousand miles nearer Asia by way of the Canadian Pacific and Vancouver than by way of any port in the United States.

"Seward knew this and he abrogated the Elgin treaty in order to force Canada to join the United States. Our relations with the United States are now better than they ever were. Hundreds of thousands of people from the United States come over into Canada every year and settle down. They find the law better administered with us than with them, and there is greater security of life and property."

SOCIAL, MORAL AND RELIGIOUS TOPICS OF GENERAL INTEREST

(Contributed by the Ministerial Association)
NOTE—The "News" does not necessarily endorse all views that may be expressed in these contributions

The Real Cause of War.
History brings not back the mastodon, neither can it bring back the glory of the old days of chivalry, when the princes of the blood rode forth in some holy crusade, or to vindicate the honor of native land or lady fair. It is also questionable whether ever again oppression, like the age long Turkish oppression of the Balkans, will ever be such as to cause a righteous and necessary war. Today men are saying plainly that war is urged by the lust of conquest or the baser lust of gold.

Men will always be found glad to die in defence of home and all that home stands for, of native land and all that it stands for. But men will not be found willing to die in order that the great gun manufacturers may have magnificent dividends.

At the present moment Germany is in a fever of indignation at the exposure of the Krupp gun makers. It has been proved in the German Reichstag that the Krupp publicity agents have been leaving no stone unturned to foster international enmities, to disseminate false reports regarding the military and naval proposals of Germany, to create suspicion of vast and secret preparations for unexpected blows at any moment. The Krupp agency has subsidized newspapers in many lands to conduct campaigns of hatred between nation and nation, and has sent pensioned officials everywhere to inflame the people's passion for war.

It is to be hoped that the emissaries of the Prince of Peace will be as diligent in propagating the doctrines that make for peace and for the abolition of all hatred and with it all possibility of war.

Prohibition in Iceland
London, April 20.—At the end of the present year, according to news received from Copenhagen it will be impossible for either natives or tourists to obtain alcoholic liquors in Iceland. Under the anti-spirit law permission was given to consume the present stock of liquors in Iceland, and figuring on the per capita consumption it will all be gone by the end of the year. The Government adopted the drastic prohibition laws because it was felt that the excessive drinking of the Icelanders was undermining the physical fitness of the people.

During the past twenty years the trade and industry of Iceland has increased enormously. Twenty years ago there was not a dairy in the country; now 30 big dairies are sending thousands of casks of butter to Leith and Edinburgh. Sheep-raising is also becoming an important business. Fishing, however, continues to be the staple industry of the people. Twenty years ago 15,000,000 pounds of dry cod was exported from Iceland annually; now 50,000,000 pounds are shipped each year. A fleet of twenty-one steam trawlers now sail with their hauls direct to Hull. The country still needs immigrants much of it being untenanted.

Some Big Numbers.
If you fill a tiny vessel one centimeter cube with hydrogen corpuscles you can place therein, in round numbers, five hundred and twenty-five octillions of them. If these corpuscles are allowed to run out of the vessel at the rate of 1,000 per second it will require seventeen quintillions of years to empty it.

As a rapid fire talker, a machine gun of wit and a cannonade of denunciation Colonel Theodore Roosevelt is hard to beat. But there was one time when he met his match, and it was in the state of Indiana, where every man, woman and child becomes expert in politics before learning how to walk, and dies expressing regret at not being able to live until the next election.

The colonel was rushing along in the last presidential campaign with a fine demonstration that Woodrow Wilson was totally unfit for the White House. "I don't like you!" a man on the outskirts of the crowd interrupted, rising to his feet and shaking his fist.

"You're a Democrat, I suppose," said the colonel.

The man agreed that he was a Democrat, and the speaker asked him why.

"Because," replied the disturbing element, "my great-grandfather, my grandfather and my father were Democrats."

"My dear friend," said the colonel, with excellent sarcasm, "if your great-grandfather and your father had been such a fool what would you be?"

"Sir," said the interrupter, "a bull mooser."—Popular Magazine.

Publishing Campaign Funds.

At present an investigation is under way in Ontario regarding certain contributions by a corporation to Hon. W. J. Hanna of the Whitney cabinet. The acceptance of all such contributions will be attended with suspicion until both parties unite in the policy of publishing all campaign contributions, as they are now doing in the United States.

The Liberal party of Ontario have put themselves on record as favoring that policy, as seen in their following declaration of principles:

"We will prohibit under adequate penalties all corporations over which the province has jurisdiction from making campaign contributions; require the publication of all campaign contributions to candidates and political organizations, and provide for the appointment of a public prosecutor as in England, whose duty it shall be to intervene in contested elections to see that all who are guilty of electoral fraud or corruption are duly prosecuted."

Against White Slavery

Hon. J. C. Doherty, Minister of Justice in the Dominion parliament, is bringing in a bill against white slavery which is practically the same as the stringent bill lately passed in Britain. The bill includes the application of the lash for procurers, and has simplified the code so as to make conviction much easier than formerly.

JASPER PARK TO BE MECCA FOR TOURISTS

Prominent Men and Women from All Parts Will Visit New Wonderland.

Lieutenant Colonel S. Maynard Rogers, superintendent of Jasper Park, who has just spent a month in this new national playground, which covers an area of 1,400 square miles, says:

"We expect prominent men and women from various parts of the world to visit the new wonderland in the Northern Canadian Rockies as soon as the Grand Trunk Pacific has completed its transcontinental system to Prince Rupert.

"During my stay in the park I saw quite a number of red deer and mountain goats, and it is hoped that by strict preservation of all animal and bird life within its borders the visitors will be afforded increasing facilities for shooting during the Alberta game season in the adjoining district, the park remaining a sanctuary for all kinds of game.

"The staff at the park is now engaged in building a wagon trail to Pyramid Lake, one of the finest spots there for the erection of summer cottages. Pyramid Lake affords excellent fishing. Professor Prince, superintendent of Dominion fisheries, has promised to stock this and other lakes in the park with fish that will thrive in these waters, thus still further increasing the attractions for those desirous of pursuing this sport. The park contains numerous ideal fishing resorts, with the purest of water and a pleasant climate. The noonday temperature during the first three weeks in April was from 70 to 83 degrees in the shade, with real summer conditions prevailing throughout."

Bolivia's New President.
La Paz, Bolivia, May 14.—General Ismael Montes was elected president of the Republic of Bolivia today in succession to Dr. Elodora Villezon, who has been chief executive since 1909. Dr. Montes has served one term as president, his period of office expiring in 1908.

SPECIAL PAMPHLET ON CABBAGE CULTURE

Mass of Valuable Official Information Free to All Farmers Interested in Subject.

There is perhaps no vegetable grown in Canada that is more easily raised than the cabbage. It does well in almost any soil provided with a reasonable quantity of moisture and manure; it thrives from the most southerly part of the province of Ontario to Dawson City in the north and from the Atlantic to the Pacific coasts. The cabbage does best in a moist, cool soil and responds well to heavy fertilizing and good tillage. Market gardeners have learned not only this but also that there are great differences in the value of different varieties. It has been found by actual experiment that it is possible to have more than \$200 per acre difference in the value of the crop of a poor and good strain.

For twenty-four years the horticultural division of the Central experimental farm has carried on variety and culture experiments with cabbage and has learned much of value on the subject. This work has been carried on for the benefit of the public, who are fully entitled to the lessons gathered during this long period. Year after year results of this work have been published in the annual report of the experimental farms, but such references have necessarily been of a fragmentary nature. In order to treat the subject of cabbage growing fully in a single publication, the Dominion horticulturist, Mr. W. T. Macoun, has brought out pamphlet No. 11 of the Central experimental farm, which takes the subject up under the heads of the soil and its preparation, varieties, sowing the seed and raising the plants, planting, cultivation, harvesting and control of insects and fungus diseases. A section is also devoted to the culture of the cauliflower, which is stated to be more difficult to grow than the cabbage.

As only a limited edition of this work has been printed it will not be sent out to the regular mailing list, but copies will be sent free to all who apply for them to the Publications Branch of the Department of Agriculture at Ottawa.

On a cold night a man was square with his overcoat buttoned up to his chin. He was rather anxious to know what time it was, but he was too lazy to open his coat in order to get his watch. Just then he saw a well dressed man approaching and remarked to himself: "This is a cinch. I'll e'en ask you genteele stranger what time it is and he will unbosom."

He perceived that the stranger was buttoned up just as he was. When he came up, the man who wanted to know the time removed his hat politely and said: "Sir, do you know what time it is?"

The stranger paused, removed his right glove, unbuttoned his coat from top to bottom, unbuttoned his under coat and finally pulled out his watch, while the chill wind cut into his unprotected chest. Holding up the watch so that the light would shine upon its face for an instant he glanced at it and growled: "Yes!"

Then he passed on without another word.—Cleveland Plain Dealer.

Many a man's interest in a woman is confined to wondering what fool thing she will do next.

Dated March 22nd, 1913.
Pub. Apr. 21, 1913—June 16, 1913.

FOR A CANADIAN LIVE STOCK SHOW.
Plans are under way for an annual winter live stock exhibition in Toronto to eclipse anything given in Chicago or elsewhere on the American continent. Government and civic assistance are forthcoming and start will be made with the above building to cost seventy thousand dollars. Until the completion of other permanent buildings to accommodate the big show, the present commodious buildings of the Canadian National Exhibition will be at the disposal of the winter show management. The Premier of every province in the Dominion is a vice president of the show and competitions between the various provinces will, it is expected, serve to stimulate the already large live stock industry in Canada.

The Latest Expressions in Jewellery

THE MOST SELECT IN WEDDING GIFTS AND BRIDAL JEWELLERY may be selected from our new summer booklet, which has already been mailed to our many British Columbia patrons. This is one of the most interesting summer publications we have issued, and it should be in the hands of every wedding gift buyer in the province.

BLUE BIRD JEWELLERY
This pretty novelty owes its origin to Maeterlinck's story of the blue bird. It is considered a symbol of happiness and good luck. We supply it in Brooches, Pendants and Scarf Pins. This Jewellery is made from genuine cloisonne enamel on sterling silver. Write for this summer booklet.

FIREWORKS FOR THE PRINCE RUPERT FAIR

Fleet of Airships in Mimic Warfare, Daylight Fireworks and Other Features.

The Hitt Fireworks Company of Seattle, which has the contract to illuminate the Prince Rupert Agricultural and Industrial fair this fall, has produced a most elaborate program for each day, comprising set pieces, the newest aerial devices and also the Western-Japanese daylight fireworks. These daylight fireworks are likely to prove a great attraction to those who have been long away from the great centres of civilization.

These daylight shells are bombs which when exploded release the figures of all kinds of apparently animated objects, soldiers, flocks of sheep with their shepherds, geese and the goose girl and so on, all very wonderful and many very comical. One of them is called "Alexander's Ragtime Band," and shows aerial figures of the musicians with the high tones of their instruments floating down to the spectators.

Apart from the many gorgeous set pieces and new aerial devices is one called "Aerial Warfare," which certainly must be up to date. A fleet of Hitt's patent aeroplanes are carried aloft by rockets and then released to manoeuvre, cutting curves and describing circles, firing volleys and leaving their trails outlined.

Altogether, the pyrotechnic exhibition is likely to prove not one of the least attractive features of the fair.

RICHARD ROEDIGER DIED LAST TUESDAY

Pioneer Newspaper Man Had but Recently Been Appointed Surveyor General of Washington.

Tacoma, May 15.—Mr. Richard Roediger, recently appointed surveyor general for the state of Washington and a pioneer newspaper man of the northwest and Alaska, died at his home here Tuesday of Bright's disease, from which he had been seriously ill for two months.

Mr. Roediger was a native of New York and 59 years of age. He came to Tacoma in 1884 and purchased an interest in the Tacoma Daily News. In 1899 he went to Yukon Territory and established the Dawson Daily News. At subsequent times he was proprietor of the Fairbanks News, Fairbanks Tribune and Tacoma Tribune, but had no newspaper holdings at the time of his death.

POLICE COMMISSIONERS ORDERED AN APPEAL

Matter Dropped on Refusal of Informant to Sign the Papers.

At a meeting of the police commissioners, held on Wednesday, it was decided to enter an appeal against the decision of Magistrate Cars in the case of indecent exposure, recently dismissed, and Mr. W. E. Fisher as prosecutor in the case was instructed to make the necessary arrangements. At a subsequent meeting of the commissioners, held yesterday, Mr. Fisher reported that he had proceeded according to instructions, but that the complainant in the case, the husband of one of the witnesses, had refused to sign the documents instituting an appeal. His refusal was due to the nervous condition of his wife, brought on largely as a result of the strain in the last trial. On account of this refusal the matter of an appeal has been dropped.

Resignations Accepted.

The resignations of Mr. Arthur Herward Floyer of Sooke and Mr. Uels C. Nelson of Quatsino as justices of the peace have been accepted by His Honor the Lieutenant Governor in Council, as has also been the resignation of Mr. Ernest D. Phee, provincial police constable at Hazelton.

When it comes to work, in the spring almost anybody is willing to pose as a total abstainer.

S. S. PRINCE RUPERT'S PASSENGER LIST

About 70 Saloon Passengers Arrived This Morning—Several Local People Returned.

The steamer Prince Rupert, Captain Duncan MacKenzie, arrived on time this morning with 70 saloon, 1 second and 47 third class passengers. The list of saloon passengers was as follows: L. AT THE CHURCHES.

St. Peter's Church, Seal Cove.
Evening service every Sunday at 7:30 o'clock.

Presbyterian Services.
"Keeping the Sabbath in Summer-time" will be Rev. F. W. Kerr's topic in the Empress Theatre tomorrow evening at 7:30 o'clock. Morning service and Sabbath school are held in the theatre at 11 o'clock. Everyone is cordially welcome.

Baptist Service.
In the Westholme Opera House tomorrow evening at 7:30 o'clock Rev. Warren H. McLeod will give a dramatic presentation of the Book of Esther, entitled "Esther Before the King." This will be a vivid portrayal of a most interesting event. Everyone cordially invited to this service. Sunday school in Westholme Opera House at 11 a. m. An interesting lesson for adults will be taught by the pastor.

FAREWELL DANCE
Enjoyable Dance Last Evening as Farewell to Miss Thompson

A fashionable gathering assembled in the Roman Catholic Hall last evening as a compliment to Miss Thompson who is leaving on Monday on a three months' visit to the east. A programme of twenty-four dances was arranged and carried out to exquisite music by Werner's smaller orchestra. Delicious refreshments were served at midnight and the merriment was un-abated until a very small hour. The guest of honor was charming in a pretty white satin gown with tunic of gold dewdrop chiffon, relieved with touches of pale blue, and was the recipient of many good wishes for a pleasant holiday.

The guests included Baron and Baroness de Bernis, Mr. and Mrs. Bullock-Webster, Mr. and Mrs. J. M. Christie, Mr. and Mrs. Stanley Lucas, Mr. and Mrs. Hubert Ward, Mr. and Mrs. Harry Cambie, Dr. and Mrs. Tremayne, Dr. and Mrs. McNeill, Dr. and Mrs. Cade, Mr. and Mrs. A. E. McMaster, Mr. and Mrs. A. J. Morris, Mrs. Ritchie, Mrs. Le-mont, Miss Nelson, Miss Thompson, Miss Johnson, Miss Milligan, Miss Mercer, Miss Grant, Miss Olive Saunders, Miss Ivy Jennis, Miss Sylvia Jennis, Miss Denison, Miss Reichel, Miss Ellet, Miss Drummond, Mr. Harrison, Mr. Crew, Mr. Warton, Mr. Wilson, Mr. Hull, Mr. Adair Carss, Mr. Taylor, Mr. Jardine, Mr. Marshall, Mr. Fitzmaurice, Mr. Titus, Mr. Ray, Mr. Fisher, Mr. Young, Mr. Tooker, Mr. Pillsbury, Mr. Blaine, Mr. Clancy.

"Ready Made Farms."

Calgary, May 14.—The department of natural resources of the Canadian Pacific announces that thousands of acres of the best land owned by the company will be thrown open for settlement under the "ready made farm" plan this spring. Much of this land is located in the neighborhood of Brooks.
