IMPRESSIVE FUNERAL OF VANCOUVER POLICE HERO—BREWSTER ELECTED LIBERAL LEADER

USUAL SUNDAY ROUGH HOUSE BY SUFFRAGETTES IN HYDE PARK

MILITANTS DEFIED ORDER OF POLICE CLOSING THE PARK AGAINST THEM—"GENERAL" FLORA DRUMMOND BETTER—HER TRIAL POSTPONED.

(Special to The Daily News.) London, June 2.—Defying the police order closing Hyde Park to their meetings, the Women's Social and Political Union sent speakers yesterday who held forth there for a long time under the protection of male sympathizers armed with weighty clubs. When the comparatively peaceful non-militant organizations, which are still permitted to use the park, finished their customary small demonstration, the flags of the Women's Social and Political Union were raised at twelve different points and as many speakers harangued the crowds. Mobs of men and women started to rush the speakers, but much to their amazement found themselves menaced by disciplined girls wielding stout clubs. The crowds had to content themselves with hooting and singing while the police looked on without attempting to check the speakers.

IMPRESSIVE FUNERAL OF A POLICE HERO IN VANCOUVER

FULLY SIXTY THOUSAND PEOPLE LINED STREETS TO CEMETERY AND OVER SIX HUNDRED IN THE FUNERAL PROCESSION.

(Special to The Daily News.) Vancouver, June 2.—Following one of the most impressive, and what is without a doubt the most largely attended, funeral ever conducted in British Columbia, Police Constable James Archibald, who was murdered by thugs last Wednesday, was laid in his last resting place at Mountain View cemetery yesterday afternoon. Lining the streets on each side as far as the cemetery were crowds numbering fully 60,000 persons, while over 600 of his brother officers, civic officials, firemen and soldiers, together with ten visiting contingents, marched with slow tread behind the remains, paying their last respects to one who died while doing his duty.

ROOSEVELT GETS SIX CENTS IN DAMAGES TO HIS REPUTATION

JUDGMENT IN THE FAMOUS LIBEL SUIT IN REFUTATION TO THE CHARGE THAT THE BIG MOOSE GOT DRUNK FREQUENTLY.

(Special to The Daily News.) Marquette, Mich., June 2.—It was expected that the libel case brought by Colonel Roosevelt against an Ishpeming editor would take a couple of weeks in the trial, but all the evidence was in Friday night and Saturday the arguments of counsel were made and the case given to the jury. The jury returned a verdict awarding the plaintiff 6 cents in damages and the costs were not assessed. Roosevelt sued for \$10,000 against George A. Nevett, publisher of the Iron Age, the libelous matter particularly complained of being that during the campaign last year, in which the colonel was a candidate for the presidency, was the published statement: "Roosevelt gets drunk and that not infrequently, and all his intimate friends know it." The result was that to substantiate his claim that the defendant was in error Roosevelt brought dozens of his personal friends to testify—newspapermen who had accompanied him on his campaign and other trips, members of his cabinet, men who had been with him in the Cuban war and in the interior of Africa, and in addition a large number of certified depositions. All of the witnesses called by the plaintiff asserted that he was only a moderate user of intoxicants, and in the mass of testimony given much of the inner life of the colonel was laid bare. The substance of the testimony as given by Philip Roosevelt, a young son of the colonel's cousin; Charles Willis Thomp-

NOW FOR THAT GOOD OLD SUMMER TIME

Everybody and His Wife and Family Was Out Yesterday, Enjoying the Sunshine.

Every perambulator in town was busy yesterday and proud Mr. Everybody with his wife and family in their best bibs and tuckers were out enjoying the sunshine and welcoming with huge smiles the coming of summer. The wharves were crowded with the present and the next generation of citizens, and there were many excursions to Metlakatlah, Tugwell Island, Schwat-lans and other points. The rippling bay was as crowded with boats as were the streets with perambulators. It was the greatest day ever for motor boats as well as row boats.

Today was another gorgeously fine day and new styles were introduced in straw hats and suits minus vests. Mr. Dowling, the weather sharp, promises that the weather of these two days are samples of what we shall get for the King's Birthday, which is tomorrow, and a holiday that will be observed all over the British Empire.

ONLY AVERAGE SHOOTING

Though Weather Was Fine Yesterday for Earl Grey Rifles.

There was a good turn out of the Earl Grey Rifles at the ranges yesterday and the weather was de-lightful for shooting, scoring or lying basking in the sun. PRIZES FOR BIGGEST SINGLE TROUT CATCH

Doc Evans Winner of the Handsome Hand-made Rod Offered By Sidney Smith

The handsome hand-made fly rods that have been on exhibition in the window of the Prince Rupert Hardware store for some time have been distributed to the winners. The one donated by J. Sidney Smith, of the Atlin Fisheries, for the best single catch of trout, was won by Doc Evans with a catch of 26 1-4 pounds. These were taken from Boneyard creek, near Mile 21, on May 5th.

WHOLE FAMILY KILLED IN THE FAMILY FEUD

Young Couple and Daughter Dead—Outsiders May Be Responsible.

(Special to The Daily News.) Greeley, Colo., June 2.—An entire family was killed in a duel between Robert Stanley, a farmer sixty miles east of here, and his wife some time yesterday, according to information telephoned to the coroner today. According to reports the Stanleys were a young couple and the daughter was a baby. Some of the neighbors believe the family was murdered by an outsider and the revolvers found were placed in the home as a "blind."

POET LAUREATE AUSTIN HAS ENDED HIS CAREER

Became Successor to Alfred Tennyson After Four Years During Which Office Was Vacant.

(Special to The Daily News.) London, June 2.—Alfred Austin, for seventeen years the poet laureate of Great Britain, died yesterday at the age of 77. He was born at Headley, Leeds, educated at London University and in 1861 published a satire called "The Season," which contained some vigorous verse of undoubted promise. For some years he was connected with the Daily Standard as leader writer and also wrote for the Quarterly Review. From 1870 to the present time he has published some half dozen volumes of poems, all displaying a deep love of nature and no little of the true poetic feeling. He was appointed laureate in 1896, after the office had been vacant for four years. He will probably be buried in Westminster Abbey.

BALKAN ALLIES SQUABBLING STILL ABOUT SPOILS OF WAR

CONFERENCE OF PREMIERS TO BE HELD ON THE BULGARIAN FRONTIER HAS BEEN AGREED TO—GREECE AND SERVIA ALLIED.

(Special to The Daily News.) London, June 2.—Dr. Daneff, the Bulgarian peace envoy, left for Sofia today in response to a despatch from his government, the contents of which have not been given out for publication. It is believed to be in connection with the meeting of the premiers of the Balkan allies to be held on the Bulgarian frontier.

Sofia, June 2.—An agreement as to principle for a meeting of the premiers of Bulgaria, Servia, Greece and Montenegro was reached yesterday by the Bulgarian and Servian ministers, who met at Tsaribrod on the Bulgarian frontier to exchange views on the situation. During the conference of premiers the attempt will be made to settle all matters in dispute between the allies.

NOW EVERYTHING IS READY FOR THE MAYOR TO RAISE THE CASH

BYLAWS FINALLY ADOPTED AND ALSO RESOLUTION EMPOWERING MAYOR PATTULLO TO SELL THE TREASURY CERTIFICATES

The city council at the special meeting on Saturday evening formally passed the two bylaws for the issuance of approximately \$1,106,437 of treasury certificates, and also the resolution empowering Mayor Pattullo to dispose of the same as he thought fit. There was no discussion except in regard to the resolution, in regard to which Alderman Maitland took exception to the wording. He considered it was giving the mayor too much power to dispose of the certificates "as he thought fit," and that he ought to communicate the price offered before he made any sale. He noticed that the price of debentures was now 82. He would not be in favor of selling for less than 95.

The mayor said it was useless sending a man on such a mission without full power, and put the motion, which was carried with Alderman Maitland voting in the negative. This morning City Clerk Woods despatched certified copies of the bylaws and the resolution to Mayor Pattullo, and also a petition to the lieutenant governor in council for permission to issue the treasury certificates indicated in the second bylaw passed, for \$735,437, consent for the issuing of the balance having been obtained already. A telegram was read at the meeting of the council from Premier McBride stating that he had arranged to take up the matter on Wednesday. So that, all round, the telegrams from the mayor have been acted upon with expedition.

NEW PROV. BUILDINGS BUILT BY DAY LABOR

Excavation for Permanent Bldgs. Will Start This Week Under Road Superintendent.

William Manson, M. P. P., interviewed by the "News" this morning in regard to the new provincial buildings, said that he expects to see a start made this week on the excavation. This is to be done by day labor under the supervision of John Manson, road superintendent. Certain matters that have to be arranged between the city and the government have caused some little delay, but everything is now taking shape for an immediate start.

The plans have been received for the new temporary building on Third avenue, which is also to be erected by day labor under the supervision of E. H. Shockley. It is to be a two storey building of even more imposing appearance than the present government offices on Second avenue. Mr. Shockley is now busy employing men for the work.

The temporary building is for the accommodation of the court room, judges' chambers, registrar of court, sheriff and possibly for other offices. Soundings were taken this morning preparatory to the necessary excavation and an early start will be made.

LABOR PARTY WIN IN AUSTRALIA ELECTION

Practically Assured of Being Returned to Power, Although Nearly Whole of Press Against Them.

Melbourne, June 2.—Although nearly the whole of the press of Australia is against them, the labor party is practically assured of being returned to power in the federal parliament, according to the latest returns last night. The election was marred by rough weather, but that did not deter the party supporters from going to the polls. The voting was heavy, quite the heaviest known in the commonwealth, and was nearly all on strict party lines.

Contrasted with Canada. Fremantle, W. A., June 2.—Hon. Mr. Nolan, attorney general of New South Wales, returning from an extended visit to the old country, during an interview stated that he was surprised at the view of English people in regard to the commonwealth. Their idea of the country, he said, was an absolute misconception, and people judged Australia by what had been seen in Canada. Wherever he spoke he always made a point of emphasizing the fact that Australia was not a replica of her sister dominion in constitution nor in ideals. Australians he concluded, should make an effort to reassure London financiers and acquaint the world with Australia's democratic policy.

THE SENATE DID ITS PLAIN DUTY

In declaring that the senate could not pass the Borden naval bill until the measure had been submitted to the people, the senate did its plain commonplace duty. It could not properly have decided otherwise. It is apparent to everyone that the measure is not a popular one, and did Premier Borden elect to go to the people with it, while its various phases are fresh in the popular mind, there is no doubt whatever that both he and the naval bill would suffer defeat. That he is astute politician enough to know this is shown by his action. His contention is and has been all along that the vote of \$35,000,000 asked for was to meet a pressing British emergency; yet he elects to submit it to popular vote, or to hope that it will be forgotten, by purposing to hold the election in November or December. That shows his appreciation of the emergency.

It is quite understood by the government of Canada and those supporting its naval policy, that the three dreadnoughts that were to be placed in the hands of the British admiralty, to be used at whatever point they would best serve the interests of the Empire. The interests of the Empire in the opinion of the admiralty expressed through Winston Churchill, will be best served by strengthening the North sea and Mediterranean fleets and it was to one or the other of those seas that the Canadian ships would have been assigned. They would pass

entirely out of the control of Canada, and except as factors in the defence of the Empire in European waters, Canada would have no further concern in them.

The senate no doubt took this important point into consideration, as if war should break out between Great Britain and Germany, or between Great Britain and Japan, the coasts of this country would be left entirely undefended. The imperial fleet might, and possibly would, be able to protect the Atlantic seaboard; but this harbor and every port in British Columbia would be left entirely at the mercy of the enemy.

Mr. Borden's apologists in the press talk vaguely of the unfolding of his naval policy and hint that a Canadian navy is to be built at some time in the future. But when? It was Mr. Borden's strongest plea for the naval bill the senate turned down, that a Canadian navy is an impossibility in Canada for half a century, either to build the ships or to man them when built. If he has modified his view since the debate it is scarcely possible to place any reliance in such a leader of the government. Sir Wilfrid Laurier's naval policy was a permanent policy. Mr. Borden has no permanent policy except the permanent policy of keeping in office, and, under all the circumstances of the case, it is impossible for intelligent thinkers to conclude otherwise than that the action of the senate was wise, patriotic and in every respect laudable.

UNITED STATES SENATOR IS ADVERTISING RUSH TO CANADA

EXPLAINS WHY ONE HUNDRED THOUSAND AMERICANS ARE COMING EVERY YEAR TO SETTLE IN THE DOMINION.

One of the best advertisements of Canada's land policy is furnished by Senator William Borah, who, in a letter to Samuel Friedman, of the Anti-Congestion league, New York City, states that "statistics show that 100,000 of our people are going into Canada every year for no reason, in my judgment, other than the manner in which our public lands are administered." This letter has been widely published by the press of the United States, and it is certain that it will have the effect of directing attention, not only to the unsatisfactory methods of administering the lands of the neighboring republic, but also to the fact that in the Dominion land is offered to settlers on attractive terms. The views of Senator Borah on the land policy of his government are embodied in his letter, which is appended:

"I am in receipt of your recent letter in which you describe the condition of the congested districts in New York City and ask for assistance to send these people into the states that they may aid in developing the large tracts of uncultivated lands. I certainly sympathize with these poor people. I have seen enough of their condition to know how miserable it is. And I am more than willing to give any aid I can in a practical way to relieve the situation.

"Statistics show that at least 100,000 of our people are going into Canada every year for no reason, in my judgment, other than the manner in which our public land laws are administered.

"It may be that we are approaching a change. It may be that the east in her congested condition will see the common sense and common justice of opening up the public lands to every bona fide settler, every man who goes there in good faith to acquire and make a home and to aid him instead of retarding him in his effort.

"If the new era is at hand, then I can say to you that you can find homes for thousands of your

people upon lands which will make most desirable farms and upon which families may be reared with accompanying prosperity and happiness. But before you send your friends west, out of mercy to them, I suggest that you join some of us in an effort to stop this everlasting hounding of people who are in good faith trying to settle up the now worthless lands already in Victoria.

SENATOR FAVORED THE CORDOVA "GRAB"

Delegate Wickersham Makes a Grave Charge Against Senator Chamberlain Before Committee.

Washington, May 27.—Delegate Wickersham, of Alaska, startled the senate territories committee by declaring today that Senator George E. Chamberlain, a member of the committee, had inadvertently been the author of a bill in a previous congress which would have turned over to the "Guggenheims" absolute control of the harbor of Cordova and the entrance to Behring River coal fields.

"There was a little inoffensive looking bill introduced in congress, I believe you were the author of it, Senator Chamberlain," said Wickersham, "giving the right-of-way to the Guggenheims from Mile 25 on the Copper River road, to Three Tye Point. You didn't know what that bill meant. It passed the senate, but when it reached the House, I killed it. If it had passed it would have given the Guggenheims title in fee simple to all of Cordova harbor and they would have had a monopoly like that of Mr. Ryan on Controller Bay."

Senator Chamberlain made no reply.

BIG BUSINESS FOR "UNCLES."

He left his foster parents in Wellington County, where he ran away from home 27 years ago, and they have never heard from him since. Now they live in Oregon, U.S.A., and have chased him up, after years of search, so that they can leave their money to him.

UNWRITTEN LAW IN AN ENGLISH COURT

Man Who Admitted Shooting and Killing His Brother Is Acquitted for Cause.

London, May 27.—A trial of a remarkable nature, notable for the application of the "unwritten law" in an English court, has just ended in the acquittal at the Wiltshire assizes, of a man who admitted shooting and killing his brother. The prisoner, who is a laborer named Price, committed the murder in "an agony of despair," over his brother's drunkenness and brutal conduct toward his bedridden father, aged mother and adopted sister. Sympathy with the accused was such that his defence was provided by public subscription and a burst of cheering greeted his acquittal.

The pessimist seems to get a lot of low grade fun out of being miserable.

THE PRICE OF HOMAGE. ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect. BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency. SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall? DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

LONG LOST VERSES OF THE BIBLE FOUND

Translation of Manuscript Found in Egypt Reveals New Words of Christ.

London, May 17.—Some long missing verses of the New Testament are included in the manuscripts of the gospels discovered in Egypt, six years ago and purchased by Charles L. Freer, of Detroit, Mich., according to a study made of the Freer manuscript by the Times.

The Freer manuscript, after the passage in which it is said that Jesus unbrired his disciples for their unbelief, the text continues as follows: "And they excused themselves, saying that this age of lawlessness and unbelief is under Satan, who through the agency of unclean spirits suffers not the true power of God to be apprehended."

Fur seals caught near Bella Bella. Had to Plead They Were Killed in Self Defence to Retain Them.

If you were out in a boat in the pursuit of your business and an aquatic carnivorous mammal of the family Phocidae, Callorhinus Alascanus, poked its nose above the side of your boat and evinced a notion to climb over and get inside, what would you do? If you shoot it you are, according to the provisions of a solemn convention held in July, 1911, liable to bring down on your head the wrath of the President of the United States.

FUR SEALS CAUGHT NEAR BELLA BELLA

Had to Plead They Were Killed in Self Defence to Retain Them.

If you were out in a boat in the pursuit of your business and an aquatic carnivorous mammal of the family Phocidae, Callorhinus Alascanus, poked its nose above the side of your boat and evinced a notion to climb over and get inside, what would you do? If you shoot it you are, according to the provisions of a solemn convention held in July, 1911, liable to bring down on your head the wrath of the President of the United States.

Mr. Robert Whiteside, the well known cannery man, while out in a boat near Bella Bella had such an experience. He did not shoot the Callorhinus Alascanus, but he clubbed it on the nose till it was hors de combat, and when its mate came along he treated it the same way. He then skinned the animals, salted the skins and took them to Vancouver.
