

SCOTTISH HOME RULE BILL ON SECOND READING

WAR OVER FREIGHT RATES TO SKAGWAY-TERRACE TO HAVE GREENHOUSES AND NURSERIES

HAZELTON, OLD AND NEW, AND RESOURCES OF THE INTERIOR

SIDNEY BILLINGHAM'S SECOND SIX PAGE ILLUSTRATED ARTICLE IN THE VANCOUVER NEWS-ADVERTISER DESCRIPTIVE OF THIS DISTRICT.

"Prince Rupert, with all her natural resources, destined to rank among the foremost Pacific Coast cities between Panama and Alaska, can only attain that distinction when interior development reaches a stage of commercial and industrial success. To that end nothing save miracles can retard the march of progress which quickens in pace as the railroad extends. Along the line of the rails already in operation as far as Hazelton there is an absorbing interest. Abandoned construction camps and log huts dotted here and there tell of the pioneer trail blazers of the early days. There is a quaint and picturesque charm about the wonderfully varied scenic beauties. In the low lying parts of the Skeena Valley one is able to appreciate the opportunities which await the practical farmer and the crest of every hill reveals delightful panoramas, each distinctive and beautiful as they are unexpected.

"The work already accomplished by the Grand Trunk Pacific Railway Company is colossal. Construction in several parts has called for advice from the highest engineering authorities. Grading in many places has entailed tremendous expenditures, while the steel bridges which link the gaps in order to keep the line parallel with the general trend of the valley has taxed to the utmost the skill of expert engineers.

TRANSFER OF STOCK BY HARDWARE COMPANY

Sporting Goods and Shipping Outfits Turned Over to Fred Stork.

A further important step was taken yesterday in closing the affairs of the Prince Rupert Hardware and Supply Company when a large part of its stock was sold to Mr. Fred Stork. Mr. Stork has taken over the fishing tackle, rifles, ammunition, ship chandlery, engineering supplies, valves and pipe and cutlery held in stock by the retiring firm.

ENORMOUS NUGGETS FOUND IN AUSTRALIA

One Weighing Hundred and Sixty Ounces Recently Picked Up in the Mannine District.

A gold nugget weighing 168 ounces has been discovered near Meekatharra, in the Mannine district of the Murchison goldfield, Western Australia. The revival of highly payable alluvial gold mining in Western Australia is shown by a number of remarkable finds that have been made recently.

At the present time the Western Australian government is exhibiting an enormous nugget of 220 ounces of gold at Liverpool, and this slug, which is worth about \$4,000, has already been shown in London. Other recent alluvial finds have been made in the Kurnalpi district, which is one of the oldest and most famous alluvial mining fields in Western Australia.

ADD TO THEIR LAURELS

Another Enjoyable Entertainment by St. Andrew's Society

The dance given in their hall on Second avenue by the St. Andrew's Society last night was, as is usual with this society's undertakings, a most enjoyable function. There was no musical entertainment this time, nor cards—nothing but dancing to the strains of the McMeekin orchestra, and excellent refreshments. There were about thirty couples on the floor.

Loyal Order of Moose.

A meeting of importance will be held in the Helgerson Block Thursday, the 5th inst., at 8 o'clock. A large attendance of members is requested. J. D. MEIKLE, Secy.

STATEMENT OF LOVE READ ON SCAFFOLD

Wife Murderer Had Been Serving the Devil for Twenty-four Years But God Had Forgiven.

Owen Sound, Ont., June 2.—When Charles Henry Love appeared on the scaffold to pay the last penalty of the law for the murder of his wife he made no confession but the following statement, which was read by Rev. H. S. Mallowney, pastor of the Baptist church here, who has been his spiritual adviser since last Good Friday, when sentence of death was pronounced: "It is not likely that I shall say anything on the scaffold, but I want you, Mr. Mallowney, to tell the people for me that I want them to take warning. That is, when the spirit of good strives with them, to yield to good, and not put salvation off to the eleventh hour, and not be like me of twenty-three of four years wasted time serving the devil, which should have been for God. "Over twenty years ago God's spirit strove with me, but I refused to yield, and look at me now. But even at this late hour God has forgiven me and I die in peace. Yet I leave the world with this awful thought—my life has been wasted."

ENGLISH WOMAN IS JUSTICE OF PEACE

Chairman of West Ham Board of Guardians Promoted to Magistrate's Bench.

London, June 2.—A woman is shortly to be invested, though in a restricted form, with the powers of a justice of the peace in England. Miss Enid S. Duncan, chairman of the West Ham Board of Guardians, has been specially authorized by the lord chancellor to act as a justice of the peace for the purpose of certifying lunatics.

Chairmen of county councils, mayors of boroughs and chairmen of urban and rural councils act, ex officio, as magistrates, but only if they are men. When Lady Dockrell, a few years ago, was elected chairman of the Black Rock council, there was a discussion as to whether she was entitled to sit on the magisterial bench, and it was decided that as a woman she was disqualified by an act of Parliament of 1907. The ex officio issue does not rise in the case of Miss Duncan, as the magistrate privilege does not attach to the position of chairman of a board of guardians, but it is now a question whether the Lord Chancellor, having granted part of the powers of a justice of the peace to a woman, has jurisdiction to grant full powers.

OUR GREAT LEADER

Resolution of Confidence Sent to Sir Wilfrid Laurier.

By a standing vote and to the accompaniment of ringing cheers the Liberal convention at Revelstoke expressed anew the confidence of the party in its great leader in the following terms: "This convention reasserts its unlimited confidence in Sir Wilfrid Laurier, the revered leader of the Liberal party under whose wise and able guidance Canada, as never before, has prospered and risen to her present position in the Empire, and rejoices in the unanimity prevailing throughout the Liberal party in Canada in the support of the time honored Liberal principles."

Royal Suit for Alimony.

Brussels, June 3.—The Duchess of Orleans, it is announced here, intends to start a suit for separation, alimony and the restitution of large sums which it is affirmed she has advanced, against her husband, Prince Louis Philippe, Duke of Orleans, the French pretender.

HOUSE ON FIRE, HE WENT BACK TO SLEEP

General Sickles Told Firemen to Notify Him if the Blaze Grew Worse.

New York, June 2.—When a small blaze in a coal vault beneath the house occupied by the aged General Daniel E. Sickles filled the whole place with smoke and drove three families into the street the general became peevish when he was aroused by firemen, went back to bed and told the fire fighters they could notify him if the blaze got any worse. Informed that the house was full of smoke, the general said: "What do I care? I love smoke. I eat it. I don't want to be disturbed at this hour of the morning. If the flames come up into the house you can notify me."

VICE CRUSADE LEADS TO SEVEN SUICIDES

Only Six Inmates of Philadelphia Houses Have Entered Industrial Pursuits.

Philadelphia, June 2.—Officials of the coroner's office reported today that since the vice crusade began in this city, seventeen days ago, seven inmates of the houses which were closed by the police had committed suicide. Only six took advantage of the opportunity offered them to enter industrial pursuits and four women became wards of the city at the houses provided for them. With the seven that have ended their lives, this leaves 116 who left the city for other towns, according to the police census.

MOST SPLENDID FILM YET

Photoplay of "Notre Dame de Paris" at Empress Tonight.

Of those who have read Victor Hugo's celebrated romance, "Notre Dame de Paris," there cannot be one who was not thrilled with its dramatic phases and with the pictures it presents of that epoch of French history when the Notre Dame cathedral of Paris stood as one of the most ancient and celebrated on the continent of Europe. In the photoplay at the Empress they will see all the celebrated characters that walk through Victor Hugo's romance, from Quasimodo the Dwarf to the wily alchemist and necromancer who roiled the great cardinal, with the Old World background of the cathedral and the old part of Paris, now known as the Latin Quarter. This is the last night of the film, and the opportunity is one which no student of history or literature can afford to miss.

WHERE IT IS WARM

Prince Rupert Weather Really Delightful by Contrast.

St. Louis, May 31.—May heat records of thirty-one years were broken today when street level thermometers registered 102 degrees at 3 o'clock.

This Helps Some.

A. T. Parkin, who recently returned from a five months' trip to England, says that Prince Rupert is widely spoken of there as a good field for investment. While on the Strand one day shortly before leaving England he met a Rupertite boasting Prince Rupert for all he was worth to a lady with an income of £47,000 per annum.

Investigating "Lobby."

Washington, June 3.—The senate judiciary committee today is selecting a sub-committee to investigate the "brand" of the lobbyists alleged by President Wilson to be working in Washington. No report, however, is expected on Senator Cummins' resolution for ten days.

DRAFT OF PROPOSED MEASURE FOR HOME RULE TO SCOTLAND

DIFFERS FROM IRELAND HOME RULE BILL IN THAT IT PROVIDES FOR A SINGLE CHAMBER OF PARLIAMENT AND IN OTHER RESPECTS.

London, June 3.—The Scottish home rule bill passed its second reading in the house today and was then referred to a committee. It follows somewhat on the lines of the Irish home rule bill, and was introduced by Mr. William Henry Cowan, the member from East Aberdeenshire. Now that Ireland is in a fair way to receive self-government, the Scottish Liberal members have taken up more seriously the question of securing home rule for their country. A committee of three members of the house drafted a bill, which was read a second time today. It is not thought likely that it will go very far this session, but the Scottish Liberals are determined to show, if they can, that the movement is a live one.

As described by Mr. Cowan, the bill represents a further installment of the policy of devolution initiated by the government. It provides (herein differing from the Irish bill) for the establishment in Scotland of a single chamber of parliament, subordinate to the imperial parliament, and consisting of 140 members representing the existing constituencies and returned by parliamentary electors, with the addition of peers. The representation of Scotland in the house of commons will continue as at present until separate provision has been made for devolution in England and Wales, when the representation of the component parts of Great Britain in the parliament of the United Kingdom is to be reconsidered and readjusted. The powers given by the bill to the Scottish parliament include all those conferred in the Irish parliament, except the control of the post office and the power to vary customs and excise, but with the addition of the administration of old age pensions, national insurance and the labor exchanges. The executive, however, it is proposed, shall continue vested in the King, who is to be represented in Scotland by a lord high commissioner, advised by members of a privy council.

IF SPAIN WENT TO REAL WAR WITH GERMANY OVER INCIDENT

THOSE ROYAL COUSINS THE EMPEROR OF GERMANY AND THE KING OF SPAIN HAVE SAD QUARREL OVER GREASE SPOT.

Paris, June 3.—That relations between Kaiser Wilhelm of Germany and King Alfonso of Spain, personally, are very much strained is the report current here yesterday. The visit Alfonso was to have paid to Berlin this fall or winter will not be made, it is said.

At the head of the regiment of which he was honorary colonel, as requested by Wilhelm, Alfonso firmly refused, marching off in a huff to change his clothes. "It's the first time I ever left off the uniform of my country," he declared, "and your majesty may depend upon its being the last."

A number of things are alleged to be the cause of the kingly row, some of them dating as far back as Alfonso's last trip to Germany. Alfonso is then said to have donned the uniform of a German officer, he being honorary colonel of one of the Kaiser's regiments. "Sire," the Kaiser is quoted as remarking, "if you were really a colonel of mine I should have you placed under arrest."

Just before King Alfonso made his state visit to France the Kaiser invited him to come to Berlin during May. "Sorry," Alfonso replied, "but I am going to Paris." "How about October?" he was asked. "Impossible. I shall visit England," he said. "Perhaps I could come in 1914." But now it was the Kaiser's turn. "Impossible," he said. "So, according to the report here, it is all off between the 'cousins.'"

SIR E. CLOUSTON'S WILL

Leaves \$20,000 to a Niece in British Columbia.

Toronto, June 2.—When Sir Edward Clouston, baronet, president of the Bank of Montreal, and prominently identified with many great financial undertakings, died on Nov. 23, 1912, he left an estate totalling \$2,672,005.04, which is being administered by the Royal Trust Co. The estate in Ontario is inventoried at \$192,261. To Lady Clouston and daughter Major practically the whole of the estate is left. By a codicil dated Nov. 2, 1912, a legacy of \$20,000 is bequeathed to Miss Edna Clouston of Summerland, B. C., and niece of the deceased.

MUCH DAMAGE DONE TO HYDRO-ELECTRIC DAM

Workmen Are Now Engaged in Making Necessary Repairs—Damage in Thousands.

As a result of the spring rains and melting snow the temporary dam built by the Prince Rupert Hydro-Electric Co. at Falls River was partially demolished last week. Workmen are now engaged in making the necessary repairs. Although no estimate of the amount of damage has yet been made, it is likely to run into several thousands of dollars.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 29.941; maximum temperature, 56; minimum temperature, 46; precipitation, .06 inch.

Economy in house furnishing is at Geo. D. Tite's, Third avenue. 128-1f

LOCAL COMPANY WILL BUILD A GREENHOUSE AT TERRACE

WILL SUPPLY PRINCE RUPERT MARKET WITH SMALL FRUITS AND VEGETABLES—PRACTICAL MAN IN CHARGE.

Both citizens and housewives of Prince Rupert will be interested in the announcement that a company has been formed for the establishment and operation of nurseries and greenhouses at Terrace. The new concern has been organized by local men and is incorporated as the Lakelse Nurseries, Limited. It is capitalized at \$25,000 in \$50 shares.

The company has acquired 30 acres within a half mile of Terrace station. Clearing has been started already for the erection of a greenhouse. It is the intention of the company to go into the greenhouse work at present, developing nurseries at a somewhat later date.

What will particularly appeal to Prince Rupert housewives is that the company expects to supply the market here with a considerable addition to its stock of small fruits and vegetables. There is on the property a natural bed for watercourse. The company looks forward to a big demand for this delicacy and has no doubt that it will soon be shipping it in large quantities, perhaps even to Vancouver.

The greenhouse will be in charge of Mr. King, who has had many years' experience in greenhouse and nursery work, and

who is also a large stockholder in the new company. Mr. D. D. Monro, who has large land interests in the Lakelse district, is another of the heavy shareholders. Several prominent citizens of Prince Rupert are also interested. Messrs. M. P. McCaffery, E. C. Gibbons, Archie McDougall, Fred Stork, G. W. Nickerson, F. G. Dawson, L. W. Patmore and others.

Another Enjoyable Entertainment by St. Andrew's Society

The dance given in their hall on Second avenue by the St. Andrew's Society last night was, as is usual with this society's undertakings, a most enjoyable function. There was no musical entertainment this time, nor cards—nothing but dancing to the strains of the McMeekin orchestra, and excellent refreshments. There were about thirty couples on the floor.

NEW CONTINENT AND A VANISHED RACE.

When Viljemur Stefansson bid goodbye to the Toronto newspapermen he said: "I hope to see you and give you a good story in 1916. It is not likely that much will be heard from us after we leave Esquimalt." Searching for a new continent and a vanished race, Stefansson will spend the next three or four years in unknown Arctic regions. He started the world last year with announcement of the blonde Eskimo, and now he is going back to the unexplored area north and west of Beaufort Sea for some record of contemporaries of the stone age man. Stefansson expects, if he finds Eskimos near the North Pole, that the ends of science will be served by a contribution as to the life history of the world's common grandfather. "It will be a wonderful opportunity to hand down a record of a vanishing race," he says.
The second purpose of Stefansson's expedition is to secure data concerning birds, beasts, land and sea of that portion of the Arctic touching the Beaufort Sea. It is the unknown. The value of such an expedition cannot be grasped by the ordinary mind. Neither could the ordinary mind grasp the value of an expedition under command of Christopher Columbus.
That sublime curiosity which reaches toward the beginnings of life on this globe is fed and encouraged by the discovered traces of animal and vegetable life in now barren Antarctic

plateaus. Every such discovery supplying a link in the uncertain chain of evidence has a value that cannot be definitely estimated. But even if to every practical benefit and every possible gain we add the inspiring satisfaction of human achievement, it is still open to question if it is all worth the sacrifice. Hardships and privations voluntarily faced have an inspiring effect and assume spectacular aspects. Perhaps they make us forget or underestimate the heroism of meeting life's daily problems or render us negligent toward such harrowing revelations as that of famine fever among our fellow citizens. It will be well when the utilitarian tendencies of the age become an influence in directing its heroism.

GOBBLING UP THE ALASKA LANDS.

In the last issue of the Wrangell Sentinel to reach here appears the legal notice of the Vermont Marble Company, a corporation duly organized under the laws of the state of Vermont, applying for patent for seven contiguous placer marble claims. These seven claims only amount in all to 121,351 acres, and of course this is not an attempt of outsiders to blanket the natural resources of Alaska, but it looks very much like it. It is peculiarly startling just now because the attempt of the Guggenheims to do much the same thing at Cordova has been defeated.

ASKING TEN MILLIONS FOR MISSIONARY WORK

Dr. Grant Seeks Vast Sum for the Work from Presbyterians at Toronto.

Toronto, June 2.—Ten million dollars and hundreds of young men were asked for today by Rev. Dr. A. S. Grant for forward work in the Presbyterian Church at home and abroad. Dr. Grant is still pressing home on the conscience of the church the fact that the Presbyterians of Canada have been entrusted with vast sums of money, and he conceives it to be his highest duty to secure a portion of it for his philanthropic purposes.
In this connection delegates to the congress have made it clear that the Presbyterian Church is not only a very rich body through its membership, but that numerically it is much stronger than is commonly supposed. The church is at work in all the nine provinces of the dominion. In three of these, according to the census of 1911, it is first in numbers. In four others it is second in point of numbers.

STYLE OF HONORABLE FOR CANADIAN JUDGES

London, May 31.—The Gazette states that his majesty the King has approved the use and recognition of the title "honorable" during the tenure of office in the case of the Canadian chief justice, the judges of the supreme and exchequer courts of Canada and the chief justice and judges of the supreme courts of Ontario, Alberta, Saskatchewan and Nova Scotia; the court of the King's bench, the superior court and circuit court in the district of Montreal; the supreme court of New Brunswick, the court of the King's bench and court of appeals and supreme court of Manitoba and the court of appeals and supreme court of British Columbia, and supreme court of Prince Edward Island.

Tenders for Lighthouse.

The Dominion Government have authorized the construction of a lighthouse at Aldenbrooke Island, Fitzhugh Channel, and tenders are now being called for.

For the energetic shoes

Of the Honorable Sam Hughes British Generals in Canada afford much exercise; But there's bound to come a day— 'Tis perhaps not far away— When Sam will tackle somebody who'll give him a surprise.—Toronto Globe.

MRS. PERCY RUTHERFORD.

The most elaborate gown on the lawn at the Woodbine was a yellow satin veiled with printed chiffon and black satin coat, worn by Mrs. Percy Rutherford.

GRAHAM ISLAND NOTES.

Fishery Officer Harrison expects the new boat for patrol service for the Queen Charlottes to arrive the latter end of August. For the present Henry Edenshaw's power sloop Josephine has been retained for service.
The spring salmon run at North Island has not yet commenced. The fish are later than usual this year, but hopes are being entertained that they will soon put in an appearance.
Four sperm whales were captured by the Naden Harbor whalers last week. The total catch brought to the station so far this season amounts to 33 whales.
A fishing boat belonging to the B. C. Fisheries was blown ashore

at Copper Bay during a south-easter on Wednesday. The boat was seriously damaged, but the two occupants escaped without injury.

The D. G. S. Lillooet, Captain Musgrave, of the hydrographic survey, arrived in the harbor on Friday afternoon and left again the following morning. The continuation of the survey of the waters of Heate Strait and Dixon Entrance will be resumed.

Mr. A. Stewart, of the B. C. Oil Fields, who was south on a short business trip, returned on the Albert to Masset last Monday. Mr. Stewart is exceedingly optimistic with the outlook at the camp on the west coast and is in hopes that oil will be struck before many weeks.

Mr. Gillespie, B. C. L. S., and party during the next six months will be engaged in surveying a tract of 100,000 acres of land on the west side of Masset Inlet.

BLAMES OWN PARTY FOR WESTERN INFLUX

Conservative Member Strongly Criticizes the Immigration Policy of Borden Govt.

Ottawa, June 3.—After a day's work, during which money was voted at the rate of several thousand dollars a minute, the main estimates, not previously considered, were all dealt with on Saturday before 11:30 p. m., when the house rose.

One of the most interesting developments was a strong criticism of the immigration department, under the present and the late governments, by Mr. D. Sutherland, Conservative member for South Oxford.

Mr. Sutherland's complaint was that Ontario is and has been neglected and that too much effort is being made to send people farther west. During the last year, he asserted, only 1,385 laborers had been placed on Ontario farms by the eighty-four agents.

Hon. T. W. Crothers, acting minister of the interior, quoted figures to prove that 122,000 immigrants had remained in Ontario during the year.
Mr. Sutherland said that they did not go on to the farms. He had no faith in the figures anyway, as many of the immigrants remained in Ontario only a few months and then proceeded west.

Bribed.

"My dear young lady, I hope you pray God every night to keep you a good girl." "I don't have to; I get eight dollars a week."—Life.

SCENE OF RECENT ATTEMPTED OUTRAGES BY BRITISH SUFFRAGETTES.
The famous golf links at St. Andrews, Scotland, where the tournament was taking place. The militants threatened to ruin the links at this point by putting acid on the grass. The picture shows the club house and the spot where the suffragettes were arrested.

gram Sunday from lawyers in Chicago saying that the late fighter's estate would reach about \$65,000, and that she would be able to claim the money if action were taken at once.

ROSS RESOLUTION OF LIBERAL CONVENTION

Senator Sir George Ross Congratulated on Stand He Took on Naval Bill.

At the Revelstoke Liberal convention the following resolution was sent to Senator Sir George Ross: "The Liberals of British Columbia in convention assembled desire to congratulate you on the high imperial and Canadian stand which you have taken on the navy question."

TO GET BARRIEAU HERE

He Has Been Asked to Meet Lem Kegg in a Bout.

Since Lem Kegg appeared in the preliminaries of the last boxing contest here his work has been watched with great interest.

There is nothing either good or bad but thinking makes it so. —Shakespeare.

WOLGAST WANTS TO MEET RITCHIE AGAIN

Expects to Beat Dundee and Anderson and Then Have Bout with Titleholder.

Los Angeles, June 2.—Ready to make his final stand in Los Angeles for rehabilitation in the regard of fight fans, Ad. Wolgast began training today for his match at Vernon June 10 with Johnny Dundee.

Chicago, June 2.—When Gunboat Smith and Jim Buckley arrive in New York the title of heavyweight champion of the world will be claimed for the gunner.

GUNBOAT SMITH PUTS IN CLAIM FOR TITLE

"White Hope's" Manager Says Gunner is the Best Man in the Heavyweight Ranks.

Chicago, June 2.—When Gunboat Smith and Jim Buckley arrive in New York the title of heavyweight champion of the world will be claimed for the gunner.

RAILWAY TAKES APPEAL

Against Railway Commission in Regard to Fort George

Ottawa, June 2.—The Grand Trunk Pacific, in conjunction with the Grand Trunk Townsite Company, has filed a motion of appeal to the governor-in-council against the judgment delivered by the board of railway commissioners recently in the Fort George townsite case.

Big Hotel for Fort George

The Grand Trunk Pacific Railway will build a \$200,000 hotel on their townsite at Fort George, and work will commence on the construction of this splendid hostelry as soon as the material can be landed on the ground.

Originality is the one thing which unoriginal minds cannot feel the use of.—John Stuart Mill.

PRINCE ARTHUR NOT LIKELY TO SUCCEED THE DUKE

London, May 31.—The story circulated to the effect that Prince Arthur of Connaught may succeed his father, his royal highness the Duke of Connaught, as governor-general of Canada, is extremely improbable.

Those Unfortunate Queens.

Avast! Avast! Begone! Away! 'Twas not four kings, with ugly faces, That beat the colonel's queens, I say

In the Highest Degree Profitable

Some men figure that as the mercury climbs up sales will fall down. And figuring that way, fate is kind and does not disappoint them.

So there has grown up a commercial superstition that Summer is a dull season.

No greater fallacy has ever gone so long unchallenged.

Summer is a dull season for many lines—but there is no fundamental reason why it should be.

For instance, take a typical case—that of the Canadian wallpaper manufacturers.

They wished to secure their placing orders from the retailers before the early Fall—when American lines are offered. Through education by Advertising, they advanced the season to start the middle of June, instead of the end of August, and they now beat their foreign competitors to the market by nearly three months.

Perhaps you face a selling problem that education by Advertising will solve. Perhaps your Summer business needs the tonic of Summer Advertising.

As the mercury climbs up to its highest degree, increase, rather than slacken, your Advertising and selling efforts. You will find it profitable—in the highest degree.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 505 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

Modern Insurance

We hear a great deal now-a-days about crooked insurance and the iniquities of insurance companies, and a great many people look on insurance with profound distrust. Still it must be apparent to any sane person that it is a very necessary thing.

Of course there are some very crooked people in the insurance business, as in all other businesses, and a few insurance companies have been swindling institutions—in other words men are not angels. Nevertheless it cannot be denied that insurance in its fullest and collective sense is only second to capital itself as an elementary part of the industrial machine. It is a great equalizing influence that spreads itself over the whole vast field of human enterprise, to lessen, yea, almost to eliminate the great catastrophes that every once in a while overtake the community, making the losses to bear rather light upon the many than heavy upon the few—making sport of calamities and disasters that would otherwise appal, paralyze and perhaps overwhelm the energy and fortitude of the whole population. In other words may we not call insurance the anaesthetic of the commercial world, stealing through its veins, quieting its nerve centres, and rendering them oblivious to the shocks of external violence.

Glance for a moment at the wonderful capacity of an office like ours which writes general insurance.

We insure you against the destructive elements of fire and air (FIRE);—against the raging sea (MARINE);—against the machinations of the wicked (BONDS);—against the thief in the night (BURGLARY);—we insure you against the staggering drunkard (PLATE GLASS);—we insure you against the legal action of those who wrong you, and that lawyers will not fatten off your (EMPLOYERS' LIABILITY);—we insure you during the swift hours of fleeting pleasure (AUTOMOBILE);—and lastly, when life is over, and you have passed out of this earthly existence, we carry forward your personality and foresight into future ages, and insure those near and dear to you against want and misery, and thereby even assure you of getting a loving remembrance after you have passed away (LIFE).

Nor, dear reader, must you think us sacrilegious when we say we have provided against some at least of the contingencies of what may befall you in the life beyond the grave. A great many people believe in the doctrine of the transmigration of souls,—that, after death, we live again in the bodies of animals, etc. Should such be the case, and should you be reincarnated in the body of some domestic animal, do not forget that we carry live stock insurance, and can insure you of a useful and profitable existence for those who may own you in that future state.

Such is the wide range of abilities of a modern and up-to-date general insurance office such as that of

SUMMIT OF ROCKIES TO BE ILLUMINATED

Louis W. Hill Preparing Brilliant Finish for Auto Race from Minneapolis Next Month.

Minneapolis, June 5.—Announcement of the itinerary of the national A. A. A. reliability tour from the Twin Cities to Glacier National Park, Montana, July 11 to 19, made yesterday, was accompanied by the statement that Louis W. Hill, chairman of the board of directors of the Great Northern Railway, will illuminate the Rocky Mountains for the special benefit of the tourists.

Here is how Mr. Hill proposes to have the tourists get their first glimpse of the real Rockies: He will have stationed on the mountain peaks along the picturesque range just back of the unique log hotel at Glacier Park station a score of men who at a given signal will touch off several tons of red, white and blue Roman fire. This striking illumination of the heavens revealing the mountain scenery will be a spectacle that the tourists driving over the prairies the last night of the tour will remember. This spectacular revelation will be pulled off when the pilot car of the tour is within forty miles of the Rocky Mountain range.

The itinerary bears the official sanction of the A. A. A. This is the first time a national reliability run has gone to the Rocky Mountain range and this fact, coupled with the entry of Long-Time-Sleep, a full blooded Indian from the Glacier Park reservation, adds considerable interest to the tour.

GOLDEN HAired DOLL PUT IN HER COFFIN

Distracted Mother Cared for it as if it Were the Little Daughter She Had Lost.

Trinidad, Colo., June 2.—It was only a doll—a big, golden haired, "shut eye" doll, but to the fever racked mother who tossed on tear stained pillows in the county hospital it took the place of another little doll that slept in a Kansas cemetery.

She cared for it as she had cared for the living doll which God had taken from her. And as death slowly crept upon her she hugged the waxen image to her breast and begged that it share her grave.

She was penniless, a county charge; she looked forward only to a tiny plot in the potters' field. But her pleas touched the doctors who attended her and when the end came a little group of hospital attendants stood beside a new made grave in the Catholic cemetery and their tears fell upon the cheap wooden coffin that held a woman and a doll.

DENVER CITY HALL HELD BY THE POLICE

Mayor and Officials Will Not Permit New Commissioners to Take Possession.

Denver, June 2.—Armed policemen are on guard here today at the city hall and court house, at the city hall and court house. Stocker and Sheriff Sullivan are resisting the newly elected city commissioners taking control of the government. The commissioners refuse to attempt violence and no trouble is expected. Mayor Arnold and the other city officials in office say their action is designed to force the commissioners to start legal proceedings to test the legality of the commission form of government.

The new commissioners organized today, elected a mayor, passed an ordinance validating all existing ordinances and then formally demanded control of the city.

Notice to Eagles.
During June, July and August, meetings will be held on the second and last Wednesdays in the month at the K. of P. Hall, 430-32

WAR OVER FREIGHT RATES TO SKAGWAY

Started on Monday with the Sailing of the Steamer Leelanaw from Vancouver.

Vancouver, B. C., June 2.—A freight war in the carrying business between Puget Sound ports, Vancouver and Skagway has resulted from the up river fight being carried on by the Northern Commercial Company and the American Yukon Navigation Company, the latter a subsidiary corporation of the White Pass & Yukon Railway.

The first vessel to leave Vancouver on the cut rates is due to sail today, when the steamer Leelanaw, under charter to Webb & Sons, operating as the Skagway Steamship Company, will carry freight to Skagway at \$4 a ton flat, as against the former commodity rates, which ranged from \$7 to \$10 a ton.

DOUGLAS A PROUD PAPA

Ex-Finance Minister Assisted His Son to Put on Kermess.

Ex-Alderman Douglas must be a pretty proud fellow these days, as the Seattle Post-Intelligencer devoted nearly a column of space to a description of the kermess there arranged by his son, the professor of dancing. The Moore Theatre was engaged for the occasion, and all the local newspapers praise the performance. Forty of the pupils of Professor Douglas took part in the dancing pageant, and every form of dance, ancient and modern to the very latest, was shown.

Miss Ethel Gray of this city appeared in a historic dance, of which the Post-Intelligencer says: "Act 6, although it was nearly midnight when it came on, was well worth staying to see. Here a number of excellent dancers gave numbers of historic worth, an Egyptian dance in Louise Lohse, Ethel Gray, Collette Fohn, Baby Seecamp and Inez Zimmerman were the principal figures."

"In this group the children, costumed in perfect form, historically correct in looks and motion, gave a representation of those ancient, weird and passionate dances, even to the much talked of "Vision of Salome Death Dance," with startling reality, sinuous beauty and an interpretation of the music and poetry which gave a fitting close to a most astonishing performance. Truly it may be said that grace of motion is inherent in man when these little tots can dance away the hours without seeming fatigue and with the poetry, grace and precision of the trained dancers of the theatres."

Bound for North.

The Pacific Coast steamer Spokane left for the north at midnight, having on board from this city Messrs. Tarry Sheere, W. B. Woodworth, S. Cohen and E. C. Latace.

D. W. Black, compositor in the office of the Daily News, who is in the hospital, is slightly improved today.

A. D. Stewart has notified the police that he has lost his fishing license on the street. Until it is recovered he will be unable to prosecute his business.

The Zorra, recently converted from a yacht into a fishing vessel and now the property of the Atlin Fisheries, Ltd., commences her maiden voyage in the new capacity at 3 o'clock this afternoon.

G. F. Allen, local representative for Johnston Bros. of Vancouver, left on the steamer Prince John last night for Masset.

Mr. Harry Sheere, the local manager of the Skeena River Syndicate, which is engaged in the fishing industry at Haysport, left for the north last night on the Spokane.

Mrs. F. G. Saunders was "at home" for the first time yesterday afternoon at her handsome new home at the marine station, Digby Island. The hostess received in a handsome gown of soft blue silk with yoke of Irish crochet and was assisted by her daughter, Miss Olive Saunders, who wore a dainty frock of rose pink with black trimmings. Mrs. Hubert Ward and Mrs. Cyril Orme served tea and delicious refreshments from a table prettily decorated with pink carnations. A large number of ladies availed themselves of the opportunity of visiting Mrs. Saunders in her new home.

FORESTRY CONVENTION

Ottawa, June 5.—The Canadian Forestry Association have announced July 7-9 as the date of the Dominion forestry convention to be held in Winnipeg. Arrangements are under way for what promises to be one of the most representative and successful gatherings ever held in the west. Delegates from all parts of Canada, and from many states of the Union, will convene in the Industrial Bureau Hall as guests of the provincial government and the city of Winnipeg to discuss the problems of the forest resources of Canada.

The farmers' plantation, windbreaks, and other phases of prairie tree growing will naturally occupy a large share of the attention of the delegates, but the protection of forests from fire and kindred topics will also be taken up.

The program which is now in preparation will be a most interesting one, and of this and of the convention railway rates to delegates, particulars may be had from James Lawler, Canadian Building, Ottawa.

For furniture, carpets and linoleums, inspect the Geo. D. Tite's stock for quality. 128-1f
