#### POPULAR ELECTION FUNDS SCOUTED

A despatch from Ottawa to the Mail and Empire says that a personal appeal has been made to Liberals in Ontario and elsewhere to contribute a dollar each or more to a legitimate expense fund for elections. In New Brunswick, it is said, an appeal for contributions has been made openly in the Liberal press over the names of three Liberal members, Hon. H. R. Emmerson, F. B. Carvell, and Onesiphore Turgeon. In this appeal the Liberals are told that the party expects nothing from the "interests" and the "trusts." The correspondent adds:

"The appeal seems to be meeting with a ready response Large numbers of letters are coming in to the Parliamentary post offlice addressed to Sir Wilfrid Laurier on a printed form and marked "Free." In some cases the more careful contributors are taking the precaution of registering the doles."

We congratulate our contemporary, says the Toronto Star, on giving publicity to a report which reflects much credit on the Liberal party. The movement is good. The principle is sound. If you believe in Liberalism you ought to ' " willing to contribute according to your means to advance its principles. Campaign funds ought to come, not from the wealthy corporations, but from the whole body of the people.

BODY BURIED IN SLIDE

Grim Reminder of Fatal Slide at Sandon Last December.

Nelson, B. C., June 8 .- As the cook employed at the Noble Five mine at Sandon was coming down hill Friday he saw a hand sticking out of the slide. A party of sixteen men later made an examination and succeeded in recovering the body, which proved to be that of Henry Johnson, who with two other men were carried away by the Noble Five mine slide during the last week in December.

Neither of the other two bodies have been recovered. Johnsen's body was badly smashd, his neck being broken and the skull crushed.

Difficulties With Managers in Regard to Weight of Their Men When at the Ringside.

San Francisco, June 8 -From all appearances, the negotiations for the match of Willie Ritchie fight for the afternoon of July in this city are off.

After a conference lasting al ment, containing 40 acres more were unable to come to an understanding. Neither side would recede from its contentions regarding the weight question.

While neither side has intimated that conferences are end Take notice that Ole J. Jensen, of Kit- ed, Matchmaker Eddie Graney mkalum, B. ## Making a Flat World Round

When Columbus set out to reach India

by sailing westward, he met with opposition and ridicule.

He believed the earth to be round.

Wise men held that it was flat-that Columbus was mad -and that he'd fall off somewhere if he departed from established beliefs.

But Columbus' belief found him a continent and made him blessed of memory.

The Business World is flat to some men Their profit-bearing shores of Opportunity stretch only so

far as their grandfathers trod. Custom, superstition and apathy have set them confines which they may not pass. For instance, they believe the business year is a flat onenot an all-year round of trade, with East joining West,

with Spring merging into Autumn-but just two distinct seasons, with sawed-off edges gaping into space. They confine their activities to a Spring trade and to a Fall trade. To them there is no intervening continent

with stores of waiting wealth. Their world is flat. They have not explored the mid-year months of Summer trade. June, July and August are never-never land. Surely this conception of Summer as a "dull" season is

as fallacious as the delusion that the earth was flat. People have just as much money in the hot weather and spend quite as freely as in Spring and Fall. Granted that they are not buying skates and snow shovels in August, yet they are buying staple articles. Furthermore, they have an eye on luxuries and comforts they are counting upon purchasing in the Fall.

The modern Columbus has discovered this

Summer trade—this golden West lying between the known continents of old beliefs. Departing from established habit, many have made their energies and their Advertising an all-year-round proposition.

Keeping up Advertising during the Summer months not only links your Spring and Fall, but produces rich harvests from the Summer months themselves.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part - so write, if interested.

### The Hand That Moves The Lever Saves 162-3 Per Cent. of Your Coal Bill

Here is the opportunity for the housewife to deal the high cost of living question a hard jolt without any effort on her part.

The way is to make sure that her new range is controlled by a Gurney Economizer, which will save 1 ton of coal in every 6 burned in an ordinary

The Economizer is to the stove what the control lever is to the engine or automobile. Without control neither is efficient.

With the Gurney Economizer it is possible to quickly vary the heat of the oven. Various foods require different temperatures. The Economizer keeps this desired temperature absolutely uniform.

It also means that when cooking is over, you may have a cool kitchen and still have your fire going — while you can have the fiercest heat in a few minutes by a slight pressure on the lever.

If you possess a Gurney-Oxford your advantages are innumerable. The Divided Flue means heat for every hole on the stove. The New Special Grate guards the lowest fire. The Broiler exposes every inch of the coals.

These features are exclusively "Gurney-Ox-

## VERY NARROW ESCAPE

Drifting Rowboat -- Took Three Hours for Her to Recover

An accident occured on Sunday last on the Skeena, which would undoubtedly have ended fatally, but for the quickness and skill in handling a tiny rowboat by two well known Skeena men, "Paddy Binns and Paul

A young Indian woman named Hester Ryan was crossing the Slough from Dominion cannery on the stroke of in some way she lost her oars month; price \$2,000; cash \$1,200. For nine. Among those on board overboard and they were carried few days only. Charles Monroe 1101 reach them. She then attempted to propel herself by means of a wooden bailer, but as the tide was running strong at the time she was rapidly being carried out to sea. This must have frightened her to such an extent that in endeavoring to put more energy into her work with the bailer she lost her balance and fell overboard.

This catastrophe was fortunately seen by Binns and Wix, who ? were crossing over at about 300 yards distance from the girl, they immediately set out at full speed to the girl's assistance, but be fore they succeeded in reachin her she had gone down twice and was sinking for the third time when grabbed by her rescuers and only after considerable diffieulty did they succeed in getting here safely into the boat, (she being a very heavily built woman, Buys 5 acres near Prince Rupert and their boat being very small and cranky.) This was finally ac- FINE LAND complished and all speed was made for the Dominion cannery, where for some time it was feared that rescue had come too late. But after nearly three hours hard work by the cannery men, and very welcome assistance by SEE the officers of the s.s. Celtic, (which happened to be at the Harrison, Gamble & Company cannery at the time) she showed signs of life, and is now progressing very favorably.

It was only last winter that her father, Abel Ryan was drown ed off Prince Rupert.

Every credit is due to the two young men who saved her life. for the speed at which they Georgetown, underwent an reached her, and the manner in a tiny 10 foot skiff built only to carry two, belonging to M
