CARNEGIE GOES TO GERMANY WITH PEACE PLANS

DEATH OF EX-MAYOR JOHN LEE, NEW WESTMINSTER—FURTHER ABOUT MARCONI SCANDAL

HON. R. L. BORDEN MAY VISIT PRINCE RUPERT THIS SUMMER

PLANS OF PREMIER ARE NOT YET DEFINITELY SETTLED—
NUMBER OF HIS CABINET WILL CERTAINLY
TOUR THE WEST.

(Special to The Daily News.)
Ottawa, June 19.—Premier Borden has been much pressed to make a political tour of the west, and especially to speak at all the important points in British Columbia, including, of course, Prince Rupert. It is possible that the Premier may arrange to do something of the sort, as his plans for the summer have not yet been definitely settled. It is said, however, to be likely that after the labors of a very arduous session Mr. Borden may desire to take a real holiday instead of starting on a round of speech making. He is expected to return at the end of the week from Halifax, where he went at the close of the session. Whether or not the Premier goes west, a number of the ministers will do so. Hon. W. T. White, Louis Codere, L. P. Pelletier, T. W. Crothers, Frank Cochrane, W. J. Roche, J. D.

Hazen, Colonel Sam Hughes and Robert Rogers are all expected to tour the west this summer. They will not, however, go as a party. The minister of militia, Hon. Sam Hughes, is already en route to the Pacific Coast. He left Ottawa for the west on Saturday night, accompanied by General Sir Ian Hamilton. It is expected that they will visit Prince Rupert in connection with the proposed drill hall.

WILL RACE NEXT YEAR

Ulster Yacht Club Will Try to Capture America Cup
(Special to The Daily News.)
Belfast, June 19.—The Ulster Yacht Club has accepted the New York Yacht Club's sailing arrangements and rules for the Lipton challenger for the America Cup. This means that a race for the cup will take place next year.

MINISTER OF MARINE IS COMING TO RUPERT

Will Be at Vancouver to Welcome the Australian Dreadnought New Zealand on Arrival.

St. John, N. B., June 16.—Hon. J. D. Hazen, minister of marine, has arrived at his home in this city. In July he will go to the Pacific Coast, and after attending business there will be in Vancouver on July 15, where he will represent the governor general and the Canadian government on the occasion of the arrival of the New Zealand, the dreadnought which the Antipodean colony contributed to the defence of the Empire. After this function has been discharged Mr. Hazen will journey north and the Queen Charlotte Islands in connection with some matters ward and will visit Prince Rupert affecting his department, of which he wishes to secure information at first hand.

TRIAL OF ARTHUR PELKEY COMMENCES

Man Who Won in Fatal Bout With McCarty Arraigned for Manslaughter

(Special to The Daily News.)
Calgary, June 19.—The trial begins today of Arthur Pelkey, the pugilist who was unfortunate enough to give the knock-out blow that killed Luther McCarty in the prize ring here on May 24. He is charged with manslaughter.

In event of Pelkey's acquittal he will fight "Gunboat" Smith at Los Angeles on the Fourth of July, a bout for which he is now training.

EX-MAYOR JOHN LEE DIES IN MOTOR CAR

President of Provincial Conservative Association Dies at Age of Forty-five.

(Special to The Daily News.)
New Westminster, June 19.—Ex-Mayor John Lee, president of the Provincial Conservative Association, died suddenly in his motor car here yesterday from heart failure. The deceased was 45 years of age. He was mayor of this city during three years, 1910, 1911 and 1912.

FIGHTING IN PHILIPPINES

Fourteen United States Soldiers Killed by Moros.

(Special to The Daily News.)
Washington, June 19.—Fourteen United States soldiers were killed during four days' fighting recently on Jolo Island, in the Philippines. The troops were making an effort to disarm rebellious Moros. The dead were Captain Nicholls, eleven scouts and two privates of the regular army.

COMPANY BLAMED

For Death of E. W. Anderson Through Collapse of Building.

(Special to The Daily News.)
Vancouver, June 19.—The Wineland Construction Company is held responsible by the coroner's jury for the death of E. W. Anderson through the collapse of a building of the company's on Pender street last week. The fall of the building, which resulted in the death of one man and the injury of five others, was due, say the jury, to negligence on the part of the construction company.

ANOTHER EARTHQUAKE

Los Angeles Got a Mild and Brief Shaking-Up

(Special to The Daily News.)
Los Angeles, June 19.—An earthquake shock of several seconds' duration shook this city today. Many ran from their homes in the panic. There was no damage done through the shock.

FIGHT ON WHARF

One Man Was Knocked Unconscious—No Arrests.

Boozers and bruisers joined together last night in a convivial party on the wharf. The blows were going fast and furious about 12:45 a. m., when the shindy was espied by some of the residents at the Inn. These promptly informed the police, who rushed immediately to the scene, only to find that the combatants had discerned in discretion the better part of valor and had vanished from the scene. How they removed from the battlefield one of their number who had been knocked unconscious is still something of a mystery, but it is thought that he was shoved on to the Prince George, which was preparing to weigh anchor.

ANOTHER MINING STRIKE

Fifteen Thousand Men May Be Affected.

(Special to The Daily News.)
Charleston, W. Va., June 19.—A general strike of miners of the New Rivers coal fields, district No. 29, United Mine Workers of America, will be called next week, according to an announcement made tonight. The strike will affect fifteen thousand men.

THE VEIL IS LIFTED FROM LOVERS' FEASTS

Screened Compartments at Royal Hotel Are Abolished—All the Licenses Renewed.

The applications for renewal of liquor licenses made by eight hotels and two wholesale dealers were all granted by the license commission when it sat yesterday afternoon. No new licenses were applied for.

Chief Vickers reported that he had managed to get the curtains removed which screened the compartments in the dining room of the Royal Hotel. The chief has for some time been wanting a bylaw passed to forbid the use of these curtained compartments in restaurants. Now, while it is not yet passed, he has succeeded in having them abolished. Secret suppers will therefore be, for the future, an impossibility at the hotel and every man must disclose to the world both what he eats and whom he eats it with, whether he devours beefsteaks by himself or tastes caviar with some ravishing beauty of a passing chorus.

STEPPED TO DEATH IN GLOOM OF NIGHT

Body of Missing Bank Clerk Was Found Floating at Head of False Creek.

(Special to The Daily News.)
Vancouver, June 19.—The body of John McLennan, the clerk of Molson's Bank who disappeared on March 22nd, and who has been searched for far and wide, was found yesterday afternoon in a badly decomposed condition floating at the head of False Creek. As there are no marks of violence about the body, it is believed that McLennan met his death by stepping during the dark of night from the street end into the water. He was 30 years of age and had been in the employ of the bank for 13 years.

SEVEN SUFFRAGETTES ON HUNGER STRIKE

Sentenced to Serve Lengthy Terms in Jail with Hard Labor They Refuse Food.

(Special to The Daily News.)
London, June 19.—Every one of the seven suffragettes who were sentenced to terms in jail yesterday has started on a hunger strike. They are following the lead of one of the most belligerent of their number, Miss Kenny, who declared that she was prepared to die for the cause. Their sentences vary in length from six to twenty-one months with hard labor.

FLYING ACROSS ATLANTIC

Canadian Aviator Obtains Financial Backing for Project.

St. John, N. B., June 16.—C. F. Montague Chambers, who proposes to fly across the Atlantic, returned to the city yesterday from Montreal. He announced that his trip had been successful and at least five Montreal financiers had agreed to contribute toward the trip. He will leave in about two weeks for France, where he will purchase the necessary machine for his trip. There is no doubt now of his making the attempt, he said.

UNIONISTS HAVE MOVED VOTE OF CENSURE ON LLOYD-GEORGE

MARCONI SCANDAL BIDS FAIR TO RESULT IN OVERTHROW OF ASQUITH GOVERNMENT—ATTORNEY-GENERAL IS ALSO CENSURED

(Special to The Daily News.)
London, June 19.—The Marconi debate on the report of the parliamentary committee has begun. It is stated that it may result in the overthrow of the Asquith administration.

A vote of censure on Attorney-General Isaacs and Chancellor Lloyd George has been moved by the Unionist members.

The finding of the Marconi Committee of the House proves to have been a party verdict only. It is a report of the Liberal majority, but not of the whole majority.

The chairman is said to have favored and prepared a report acquitting the ministers of corrupt practice or motive, but charging them with indiscretion and with concealment of the facts.

Both Isaacs and Lloyd-George, in connection with the debate on the report, admitted yesterday in parliament that they had acted thoughtlessly and mistakenly, although without dishonest intention. They regretted their failure to divulge all the facts and having made denials to the house last October in regard to buying English shares. Having finished their defence, both ministers walked from the house. No discussion followed and the ending of the affair was a tame one.

The Liberal press has been divided on the question, one of the leading papers of the party admitting ministers have been glaringly indiscreet in dealing as they did in Marconi shares.

The silence of the ministers as to their holdings in American Marconi, and their implied denial that they were interested in any kind of Marconi shares when they had bought and were holding stock in American Marconi, is generally recorded as a deception. It is true that the American company is a separate concern, but it is also true that the government contract to the English company caused the price of American Marconi to advance. It is further true that the denial of ministers was generally understood to be a denial as to Marconi stocks of all countries.

FIRST STEAMER THIS SEASON FROM WHITEHORSE TO DAWSON

RATE WAR ON YUKON IS WAXING WARM—JOHN ROSENE EXAMINING NEW RAILWAY ROUT FROM HAINES.

Dawson, Y. T., June 16.—The first boat from Whitehorse this year arrived tonight with a full load of passengers. Two White Pass boats are due tomorrow night with full loads of passengers and 2,000 sacks of delayed mail for Dawson, Fairbanks and other Lower Yukon points, general freight and perishables. Four other White Pass boats are following close behind with full loads.

The rate war on the Upper Yukon waxes warm. Rates from Whitehorse to here have been slashed to as low as \$12.50 first class and \$7.50 second class, with berths and meals included.

H. E. Morgan, an Upper White River copper owner, has been appointed United States commissioner and mining recorder for the White River district.

Dr. Cairnes, Canadian geologist, with ten men and fourteen horses, is now here. He leaves in a few days for an extensive examination of the head of the White River.

It is reported that John Rosene is now en route from Haines with Bob Wiley examining a prospective railway route to the White district.

SAN DIEGO EXPOSITION PLAN VERY FAVORABLY RECEIVED

BUILDINGS AND GROUNDS MORE THAN HALF COMPLETED AND MANY FOREIGN GOVERNMENTS HAVE ARRANGED TO PARTICIPATE

(Special to The Daily News.)
San Diego, Cal., June 19.—When President Wilson signed the Kettner bill extending to the San Diego Exposition the same privileges and the same authority granted to previous expositions and to the San Francisco Exposition, the San Diego Exposition at once assumed that rank among world fairs its scope and character had prepared for it.

Starting with a comparatively modest plan in 1909, in a city at that time of 39,000 people, the San Diego Exposition was not taken seriously outside the immediate circle of the city's influence. Steady work of preparation, devotion of capital to the amount of \$50 per man, woman and child in the city, and a well-defined plan for the profitable participation of states and governments have combined to place the San Diego Exposition in such a position that it now bids fair to prove as large and more attractive than the much heralded fair at San Francisco, which, by

RECENT SLUMP IN CANADIAN PACIFIC EXPLAINED BY ROSS

LARGE QUANTITIES OF GERMAN AND AUSTRIAN STOCK WAS
THROWN ON MARKET BECAUSE OF STRAIGHTENED
CONDITIONS ON CONTINENT.

Montreal, June 16.—Mr. James Ross, who returned from London yesterday, remarked that any one owning Canadian Pacific stock would hardly feel the pinch of poverty for many years to come and also expressed the conviction that the stock would return to its former high level as soon as the present clouds hanging over various money markets of the world had rolled away. As Mr. Ross is reputed to be the largest individual holder of C. P. R. in the world, his opinion on this or any points of finance within the empire, is of interest.

Discussing the stock market position of C. P. R., Mr. Ross said one of the first reasons for the slump was unquestionably straightened conditions in Germany, where the banks which had been holding large quantities of stock were obliged to send out

calls very extensively and as a good many former buyers were unable to meet the demands for more money their stock was sold. Those well posted in London also learned that Austrian holders of C. P. R. had to unload as well. So this constituted quite an extensive selling movement from the continent.

CARNEGIE TO NEGOTIATE PEACE PLANS WITH KAISER

WILL TRY TO ARRANGE AGREEMENT FOR LIMITATION OF
ARMAMENTS AND PLAN FOR BIG THREE TO
KEEP THE RING.

(Special to The Daily News.)
London, June 19.—According to general authority, Andrew Carnegie has credentials from the government of Great Britain and the United States to the German Kaiser to discuss the possibilities of a ten year agreement to the limitation of armaments. If the negotiations prove at all successful it is thought that a

new triple alliance might be formed, composed of Great Britain, Germany and the United States, to insure the peace of the world. The way for the success of Carnegie's proposals was opened, it is reported, by King George during his recent visit to Berlin. High hopes of success are entertained, as the Kaiser is said to be favorable to the plan.

QUEEN CHARLOTTE ISLANDS. A large shipment of ore was seriously injured at Lockport some time ago and taken to the hospital at Prince Rupert for treatment, returned on the John last week. Ran is looking wonderfully well, and although not yet quite fit, has made a wonderful recovery. Joe Dunn, who was injured at the same time, is still a patient in the hospital, but is recovering and will be out soon. The survey of Queenstown townsite is completed and as soon as the government selection is made the lots will be put on the market. An appropriation of \$5,000 has been made by the Dominion government for a wharf at Queenstown. When this is constructed a regular boat service will be given. A young Church of England clergyman, from Ontario, will arrive at Queenstown with his bride about the end of June to conduct services and take charge of the new church, to be built soon. One thousand fishermen are now engaged off Langara Island trolling for spring salmon. The "strike" which was in progress for a few days has been settled, the fishermen receiving 4 cents per pound for their catch. The G. T. P. steamer Prince Albert has recently made two trips to Queenstown with live stock and freight for B. L. Tingler, and drilling supplies for W. L. Barton, who is operating on the Yakoun River. Many new settlers are coming in and taking up land tributary to Masset Inlet. No greater allurements is needed than the summer climate of Graham Island, coupled with her natural advantages and proffered opportunities. The lawn tennis court at Queenstown, one of the finest in Northern B. C., is the scene of many keenly contested games these days between local tennis enthusiasts, who are getting in form for the expected tournament with the Prince Rupert club later in the season. Queenstown is the natural commercial centre of Graham Island and is the outlet for a vast area of choice agricultural land and extensive coal measures. The development of the lumber and fishing industries on Masset Inlet will also contribute largely to the rapid growth of the new town. The government road work is on in full swing at the various points on the inlet. As a consequence, Charlie Spence, the assistant road superintendent, is a very busy man these days, just a fleeting glimpse can be had of him as he emerges from the bush, going from point to point, covering the huge district under his supervision. General Manager Wright, of the Graham Island Coal & Timber Syndicate, met with an accident while coming down the Yakoun River in his launch last week. About a mile below the camp there is a bad jam, necessitating a drop of fifteen inches and a seven foot passage to navigate. It was at this point that Mr. Wright was caught on the top of his head by a jagged limb which tore a deep furrow through his scalp. Dr. Graves patched Wright up and he is little the worse for his experience.

THE ARGONAUT CREW THAT RECENTLY SAILED FROM MONTREAL TO ENGLAND. The crew, from left to right: McClary, coxswain; Wickson, spare; Russell, bow; Rice, No. 2; Riddy, No. 3; Kent, No. 4; Sinclair, No. 5; Gale, No. 6; Taylor, stroke; Joe Wright, stern. The Argonaut crew this year is the most evenly balanced team that Canada has had as her representative in some years. They expect to win the championship of the world, and with this in view will undergo strict training until they row in the big race, the Henley regatta, the boating event of the old country.

To-day's Impressions To-morrow's Sales. Many a September purchase is really decided in July. Many a woman is gathering information to-day that will influence her selection of a stove two months hence. Many a man is thinking right now about the store he will patronize for his Fall suit and overcoat. Many an October piano purchase is really determined on the porch of a summer hotel or home in August. How unwise, then, to put off the Advertising of these and similar articles until the actual time of their use arrives. One advertisement seldom makes a sale. It is the repeated impressions created by Advertising that develops purchases by a discriminating public—and these impressions are seldom built up in a day, a week or a month. Yet some manufacturers and merchants still procrastinate until the first nip of frost is felt—and then besiege the public with belated announcements of Fall clothes, kitchen ranges, home furnishings, winter underwear, and other articles usually purchased in the Fall. Purchased in the Fall—oh, yes—but decided upon in the Summer. Decided in favor of the goods that are continuously advertised. It's the Advertising read in July that bears fruit in September and October. For to-day's impressions inevitably lead to to-morrow's sales.

GURNEY-OXFORD

The Economizer Will Pay For the Stove

It will not take long for a Gurney-Oxford range to pay for itself. The Economizer will do it.

This device saves 1 ton of coal in every 6 ordinarily consumed, enabling the thrifty housewife to have a thoroughly efficient range with exclusive features at practically no cost.

The dividends represented by the lower consumption of fuel will pay back the original investment in a very short time.

Pages written about the Economizer could not tell of its real value to the household as has been proven by the most scientific tests.

You owe it to yourself to investigate the Economizer before concluding your purchase of your new range.

There are other vital points known only in this Gurney-Oxford, such as the Divided Flue, the New Special Grate and the Broiler attachment.

All these scientific improvements lead the housewife to perfection in the art of cooking.

Her uniformly heated oven works with her and gives her the baking results she is striving for—light delicious biscuits, flaky wholesome pastry and evenly baked bread.

The bright and shining appearance of this stove with its nickel trimmings and polished top which requires no black lead charms the heart of every good housekeeper.

She realizes that the Gurney-Oxford can fulfil here every need.

PLEASURE RESORT ON BANKS OF LAKE ATLIN
White Pass Company Shortly to Call for Tenders for Large Summer Hotel.

Plans for the establishment of a summer resort and an up-to-date hotel on the shores of Atlin Lake have been formed by the White Pass & Yukon Route. A site consisting of 130 acres of land has been secured and the scheme provides for the laying out of extensive grounds for golf links and tennis courts.

The company proposes to operate a special service of gasoline launches on the lake between the resort and the city of Atlin, about half a mile distant. There are some remarkably good roads in the vicinity of Atlin which will make automobiling ideal, and it is expected that with the growing popularity of the North for pleasure seekers a large number of tourists will visit that district.

From the proposed hotel site a magnificent view is to be obtained. Majestic mountains rise from the water's edge and soar into the clouds, while the famous Llewellyn glacier, which extends from Atlin Lake to the sea, presents a wonderful vista of chilly grandeur.

The White Pass & Yukon route expects to call for tenders for the construction of the hotel at an early date and to have construction well under way this year so as to have it ready for occupancy next season.

Will George Do It?

The question is uppermost in the minds of a few of our inquisitive residents as to whether our pioneer storekeeper intends taking the "leap" this hymeneal month—or not. Just the same, Mr. Beattie received a consignment on Wednesday morning last of several pieces of elegant furniture, which, as some one remarked, "was too good for a bachelor's apartments." Anyhow, the furniture is the real, genuine articles, made of solid oak and beautifully hand carved, and comprises a dressing table, wash stand and sideboard. The articles were made at a cost by Paul Kato, a Japanese, and are a credit to his exquisite workmanship.—Queen Charlotte News.

CAUGHT STRAY BULLET

Man Employed in Clearing Reserve at Fort George.

W. R. McDonald, an employee of J. H. McPherson & Co., which firm has the contract for clearing the Indian Reserve, was brought to the hospital last Saturday with a bullet in his thigh. McDonald stopped a stray ball but has no idea who fired it. The bullet entered the fleshy part of the thigh and inflicted a deep flesh wound. Dr. Swenerton removed the lead. The pellet was from a .22 calibre rifle.—Fort George Tribune.

AT THE WESTHOLME

"The Magic Baths" Found Favor
"The Tourists" Tonight.

"The Magic Baths" was the performance staged by the Frank Rich Company at the Westholme Theatre last night. It was a light popular comedy that found favor with the audience. James Wright took the leading part as Dr. Goldberg, proprietor of the "Magic Baths." Among the best songs were "Everybody Loves a Chicken" by Aubrey Carr and chorus, "Good Night, Little Girl, Good Night," a solo by Bessie Barry, and "Silvery Moon" by Edith Wilma and chorus. This evening the company plays "The Tourists."

June Rod and Gun.

The cover cut for the June issue of Rod and Gun in Canada, published by W. J. Taylor, Limited, Woodstock, Ont., shows a striking picture of a mountain climbing scene on Mt. Robson, the highest known peak in the main range of the Canadian Rockies, which Director Wheeler of the Alpine Club of Canada says may this summer witness a race for its summit that will only have been eclipsed by the celebrated race for the summit of the Matterhorn by Edward Whymper and Giordano. "The Call of the Peace," "The Cruise of the Viking (from St. John, N. B., to New Richmond, P. Q. by motor boat), "Among the Fjords of British Columbia," "Black Bear and Grizzly" (hunting in the Gold Range, B. C.), "Nova Scotia Sporting Gossip from Dr. Breck," "Fur Farming in Quebec," "Fish and Fishing in Manitoba" are some of the good things provided by the varied contents of the June issue.

PRIZES FOR LADIES

Fair Executive Committee Adopts Mr. Tomlinson's Suggestion.

While here Mr. A. H. Tomlinson, horticultural expert of the Provincial government, and Mr. Walker, the agricultural expert, made many valuable suggestions to the fair committees as a result of their large experience in such exhibitions. One of those made by Mr. Tomlinson, that prizes should be given to ladies for the best decorated table, the committee has already acted upon.

They have decided to offer three prizes, \$10, \$5 and \$2.50, for the best decorated table. The exhibits will be shown on one long table divided into spaces of four feet by three. This space will represent an individual table, the ladies to provide fancy cloths, bowls, glass, cutlery, vases, flowers and everything their fancy dictates. This table decoration is sure to prove an effective feature of the show, and there will no doubt be a large number of entries.

SAEGUARDING PUBLIC AGAINST ALL DISEASE

Railways in United States Taking Great Pains to Protect the Travelling Public.

Aside from the customary disinfection of passenger coaches the medical department of the Great Northern Railway has gone several steps farther in joining the country-wide movement to safeguard public health. It has been the custom for several years to compel all applicants for positions on dining and sleeping cars to undergo the strictest physical examination before entering the employ of the Hill system.

The latest order draws the line even finer, making it imperative that every employee who even takes a short leave of absence to undergo a physical examination by company physicians before returning to the service. In this way, the medical corps declares, it will be impossible for any employee to continue in the public service if he is suffering from tuberculosis or any other contagious disease. Further precaution is taken by the company in barring undesirable employees from employment where food is stored and linens or tableware are kept.

The Great Northern Railway is one of the few systems that owns its own sleeping cars, and thus it is enabled to carry out the innovation advocated in the leading medical journals, of placing an absolute barrier against the spreading of disease, by having its medical corps guard every possible avenue of danger.

The American Medical Association, which will convene in Minneapolis in July, is expected to launch a far-reaching public health campaign along these lines, urging every railway in the United States to join in the movement.

TOIL AND TROUBLE

C. C. Perry Strains Every Nerve to Catch Wrong Boat.

C. C. Perry, the Indian agent of Metlakatla, had an annoying yet amusing experience last night. He started off in a launch to catch the Prince George, but was not more than a mile away from shore when the launch broke down. Determined to make connections, he called to an Indian, who rowed him over as fast as he could. "I have absolutely got to catch that boat," said Mr. Perry, "for I have urgent business in Granby." His disgust may be imagined when, arriving on the Prince George a short time before her hour of departure, he found that not Granby but Stewart was her destination.

INDIANS AS GUIDES

Proposal to Form Corps of Natives if Duke Comes.

In event of the Duke of Connaught visiting Prince Rupert on a shooting trip this fall it has been suggested that a corps of guides should be formed from amongst the Indians of the neighborhood. It is a proposal that should certainly find favor with Colonel Sam Hughes when he comes here.
