A NEW SOLUTION FOR
THE MEAT QUESTION.

Roast caribou for Sunday
dinner! That is, in four words,
the gist of a proposal recently
made by F. N. Conway, manager
of the Seattle branch of
Armour & Company. Mr. Conway
has been in Dawson investigating
the possibilities of a trade in Arctic
meat products. He has come to the
conclusion that the present shortage
of meat in the Chicago and other
great markets might be remedied
by an introduction of the flesh of
the reindeer and caribou. It is his
opinion that this can be put on sale
at such a price as to compete
successfully with the ordinary kinds
of meat.

If his advice is put into effect
it should be both of direct benefit
to the housewives and of indirect
benefit to all the citizens of Prince
Rupert. It is hardly necessary to
dwell on the advantages which would
accrue from having a dish placed
on the tables of all, which is now
reserved for the wealthy few who
can afford to indulge their epicurean
tastes. If we cannot have beef, by
all means let us have caribou.

The marketing of this meat
would probably mean, moreover,
the creation of vast caribou and
reindeer ranches in Northern
Canada and Alaska, and the creation
of this new industry in that part
of the world could not be anything
save a gain to the leading ports
on the Pacific coast. Let us hope
then that Mr. Conway's suggestion
will be speedily adopted.

IN THE CITY OF
PERPETUAL SPRING.

The weather in Washington
these days is so hot that President
Wilson is attending to his
correspondence in his shirt
sleeves and drinking freely of
iced milk. The senate, for their
part, while holding sessions
are clad in the lightest
costumes that the laws of society
will allow. Travelling northwest
from Washington to Vancouver, we
find a city so deluged with rain
storms that its citizens may yet
be transformed, by operation of
the biological law of adaptation
to environment, into some new
species resembling the duck family.
When in Vancouver we have heard
natives of that damp and dismal
city talk disparagingly of the
climate of Prince Rupert, but that
was only because the poor
unfortunates didn't know good
weather when they saw it. It is
hardly for the resident of Vancouver
to cast slurs upon the City of
Perpetual Spring.

Another grievance due to the
mistakes in our social system
has been exposed. Baron Henri
de Rothschild has written a play
setting forth the misery of being
a millionaire.

There is one man who would
be a treasure to the militant
suffragettes. Upton Sinclair, the
novelist, believes in occasional
fasting for the benefit of his
health and has several times
taken nothing for a fortnight
but pure water and fresh air.
He should be made adviser-in-
chief to the Pankhursts.

ONE PRINCESS WHO WEARIED
OF COURT LIFE OF RUSSIA

PRINCESS OLGA GOLITZINE LEFT HER OWN COUNTRY FOR
THE UNITED STATES TO BECOME AN ACTRESS BUT
FAILED

New York, June 24—The story
of a Princess who tired of the
court life and the husband to
whom she was married when but
16 years old, her desire to become
an actress, and her flight to
America was revealed here today
when it became known that
Princess Olga Golitzine, of Russia,
will sail for England Monday
after having spent several
months in this country.

Princess Andre Golitzine, her
husband, is an officer in the
Czar's Own Imperial Cavalry,
but the Princess is now practically
without funds, and appealed
to the Russian Embassy at
Washington for transportation.
Princess Golitzine is twenty
years old. According to her own
story told today she was betrothed
to Prince Andre when 15 and
was married when 16. They

did not live happily, and the
princess secretly attended a dramatic
school, long having desired to
become an actress. She then
disappeared from Russia. The
Russian police were set to work
to find her, and rumors that a
wealthy American had spent
much time with her on shipboard
and ended by eloping with her.
The princess insisted however,
that an English woman was her
only companion. Arriving here
she was unable to get an
engagement, and went to
Washington, where she was
recognized by the Russian
authorities. She had pawned the
last of her jewels, and after
returning again to New York,
was forced to seek aid.

Princess Golitzine is of the
house of Teherkasskian, a family
reputed to be as old as the
Romanoff dynasty.

MISSING ADVANTAGES
Finance Minister White Weighed
and Found Wanting

The Underwood Tariff Bill,
which is now nearly through the
United States Senate and Congress,
gives to Canada practically
every exporting advantage
which she would have obtained
under the reciprocity treaty of
1911. The Canadian tariff, as
preserved by the Borden tariff,
secures to the Canadian people
every importing disadvantage
which would have been wiped
out by the Reciprocity agreement.
The United States will gain
the advantages of the reciprocity
treaty. Canada will gain
every disadvantage of reciprocity
and tariff combined. Up to date
Hon. Mr. White has not appealed
to Ontario to have no truck
nor trade with the Yankees,
nor has he done anything
to help the tax-burdened
Canadians.

Lot 39, Block 17, Section 1;
fronts First Ave., rear is on
Cameron Cove; natural basement;
\$6,500; 1/4 cash, 1, 2 and 3 years.

Stick to your business and
your business will stick to you.—
Wm. Mathews.

HOW ABOUT THE YARD?
Are You Welding Rake and Hoe
and Broom for Health's Sake?

What possible excuse has the
lazy and negligent householder
to offer for not cleaning up his
premises?

It isn't such a Herculean task
to gather up the winter's accumulation
of muck. There is a
pleasure in wielding the rake and
hoe in behalf of cleanliness and
health.

Health officials have long
sensed the danger of disreputable
filth and garbage in back yards
and vacant lots. In other words,
the doctor has prescribed cleanliness
as a preventive of pestilence,
and the short sighted is he who
pays the doctor and gives no heed
to his advice.

In the absence of an organized
movement to clean up it devolves
upon the individual citizen, who
has any degree of civic pride, to
beautify his premises.

Jail at Masset.
Work has commenced in Masset
at clearing the ground for the
erection of a Provincial government
jail there.

Pretty Tough On An Artistic Temperament

Drawn for The Daily News by "Hop"

RECENT PICTURES OF THE PRETTY DUCHESS OF CUMBERLAND.

The Kaiser's daughter and her hubby, the cousin of George V of England, have settled down seriously to the high position of Grand Duchess and Grand Duke, which means the rulers of a wide territory assigned to them by the Kaiser as a wedding gift.

# Jogging Laziness into Activity

The merchant whose business lags in the summer has himself to thank.

To slacken the selling pace in the hot season—to lessen Advertising activity—indicates a resignation which has no place in modern business.

If we think we cannot keep our business booming in summer time, we surely will not.

What a jolt it must have been to the fur trade, when the first mid-summer fur advertisement was run in a daily paper! Now many fur stores are following the example of that progressive fur man who dared to believe that fur sales need not go down as the mercury goes up.

Energy, linked with Advertising, has turned the month of January into the biggest selling season for white goods. Advertisements of a high stimulative power, combined with a disregard of "seasons," have opened up automobile selling two months earlier than was once thought possible. Advertising has started Christmas shopping early in October instead of the middle of December.

Advertising rises superior to seasons and thermometers. The right kind of Advertising strikes a responsive cord in human nature—and human nature is the same in August as in December.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lansden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

## CONSERVATIVE CROP REPORT FROM BUREAU OF STATISTICS

NEARLY TEN MILLION ACRES IN WHEAT AND NEARLY AS LARGE AN ACREAGE IN OATS—CROP CONDITIONS FAVORABLE.

Ottawa, June 23.—A bulletin of the census and statistics office issued recently gives preliminary estimates of the areas sown to the principal grain crops and reports on their condition at the end of May, according to the returns received from crop-reporting correspondents throughout Canada. The report shows that the month of May proved cold and dry, with frequent night frosts, and that these conditions, while favorable to seeding, retarded the growth of the crops sown and caused them to be unseasonably backward.

The total area under wheat in Canada is provisionally estimated at 9,816,300 acres, or 57,900 acres more than in 1912, the area in spring wheat being 8,990,500 acres, or 13,100 acres more. Oats occupy 9,608,500 acres, as compared with 9,216,900 acres in 1912, an increase of 391,600 acres. Barley occupies 1,425,200 acres, an increase of 10,900 acres, and rye 126,500 acres, a decrease of 9,610 acres. For wheat, barley and oats taken together the increase represents 459,500 acres. The estimated acreage under hay and clover is 7,475,600 acres, compared with 7,633,600 acres last year.

For the three northwest provinces of Manitoba, Saskatchewan and Alberta the total wheat area is estimated at 9,013,800 acres, as compared with 8,961,800 acres; that of oats at 5,207,700 acres, compared with 4,913,900 acres, and that of barley at 852,600 acres, compared with 809,800 acres, these differences representing increases of 52,000 acres for wheat, 293,800 acres for oats and 42,800 acres for barley, or 388,600 acres for the three crops.

On May 31 the condition of the crops was reported as generally favorable throughout Canada. Expressed in percentage of the usual standard of 100, taken as representing the promise of a full crop, the condition on May 31 for the Dominion was as follows: Fall wheat, 80.62; spring wheat, 91.55; oats, 91.72; barley, 94.19; rye, 87.70; peas, 88.24; mixed grains, 90.15; hay and clover, 81.12; pastures, 85.08, and alfalfa, 77. At the corresponding date last year the condition of fall wheat was only 71.46. All the other crops were then above 90, excepting rye, 87.24, peas 83.85 and mixed grains 87.32. The poor condition this year of alfalfa is due to the effects of the winter and cold spring.

G. D. Tite's stock of house furniture is up-to-date in handsome designs. 128-17

Love is blind—especially the kind of love that attacks egotists.

### DROPS DEAD AT HIS DESK

Mr. Walter Sparrow Victim of Apoplexy.

Vancouver, June 23.—Stricken by apoplexy, Mr. Walter Sparrow, a well known resident of this city, yesterday dropped dead in Mr. Simon Leiser's office.

The deceased, who was about 57 years old, had been in poor health for some time. He was a native of Colborne, Ont., and came here in 1862 with his father, who for many years was bookkeeper for Pendray & Sons, passing away a number of years ago. He received his education in Victoria, and when a young man left here for Oregon, where he resided for some time, returning here twenty-five years ago and taking a position as bookkeeper with Simon Leiser & Co., which he held until his death.

### Guggenheim's Geni.

The Yukon Gold's Twelvemile hydro-electric power plant has started, and is driving the company's eight dredges. The company's big water ditch is carrying 5,500 inches of water, and many hydraulic giants are running. The company's work is booming, with 600 to 700 men on hydraulic and dredge work.—Dawson News.
