LEADS OF WHITE SLAVE TRUST HAVE FLED FROM THE COUNTRY

PERSONS CONTROLLED BETWEEN THIRTY AND FORTY
HOUSES WITH SIXTEEN HUNDRED WHITE SLAVES
THEIR IMMENSE PROFITS

New York, July 9.—District Attorney Whitman has secured indictment of four persons believed to be the head of a gigantic vice trust which controlled 1600 white slaves in the old tenderloin district, and set the wireless to flashing the cable to working in an effort to apprehend the much-mentioned quartette who fled from the city when they were apprised of some mysterious way of the approach of court action. The four are Morthe Gold, his wife, Rosie Goldberg; the Barbrush and Gussie Co., the latter a large blonde woman of much renown in the underworld. Goldberg is understood to be on his way to Buenos Ayres and the wireless is endeavoring to locate him. Barbrush is on his way to France. The two women are supposed to have gone with the men, as dress servers could not locate the vice trust operated between 30 and 40 houses and reaped yearly profits from inmates of approximately \$1,120,000. Gussie Cohen is particularly wanted by the district attorney's office, as she is familiar with the dealings with the police who have, it is alleged, given them protection for years, the police receiving for their services in the neighborhood of \$100,000 yearly. The protection was fixed at \$1,000 per house, the district attorney's informant declares. The indictments were brought about through the confession of two so-called "agents" of the trust, Nellie and Josie Schafer. These two women were convicted in special sessions and were remanded to the Tombs after they had been given an opportunity to tell all they knew or go to jail. When they went to court Rosie Goldberg offered them \$2,000 a month each if they would keep quiet, but after their conviction they decided to tell a complete story.

NOTORIOUS SUFFRAGETTE HAS CONFESSED BOMB OUTRAGES

THAT SHE FIRED MILLIONAIRE SOAPMAKER'S MAN-
SION "AS A BEACON LIGHT"—SHE GLORIES IN HER
ACHIEVEMENTS

Liverpool, July 10.—A dramatic confession of incendiarism made today by a well-known militant suffragette, Mrs. Edith Rigby, wife of a physician at the magistrate sitting at the police court here. She was remanded for further hearing. Mrs. Rigby declared it was she who last Tuesday burned down the country residence at Rivington, near Horwich, Lancashire, of William B. Lever causing damage estimated at \$100,000. She then confessed to being the perpetrator of the outrage at Liverpool Cotton Exchange on July 5, when a bomb exploded caused little damage. Mrs. Rigby surrendered voluntarily to the police. When arrested today she gloried in her achievements, saying that she had killed Sir William H. Lever to consider whether his house was as valuable as a show place as a beacon lighted for the King and the country to see women suffering an insupportable grievance. She told the magistrate: "I lighted that beacon. I also placed the explosives in the Liverpool Stock Exchange to show how easy it is to procure them and to place them in public buildings. I might have just as easily blown up the Nelson monument. I chose the Liverpool Stock Exchange because the cotton industry has been built up largely by women's labor. The merchants are willing to get power and wealth out of the labor of women while the women themselves are denied the vote and citizenship. This is the first knock at the door. "Under the 'cat and mouse act' one of the greatest women in the land is going to be done to death. If the government is going to kill that woman this is a warning."

JOKE PLAYED ON THE BRITISH COMMONS

MEMBERS WERE BADLY SCARED BY
SUFFRAGETTES WITH TOY
MOUSETRAP

(Special to The Daily News.) London, July 12.—That dignified body of lawmakers, the House of Commons, were yesterday thrown into a panic by the port of a pistol fired in the members' gallery. At the same time a great yellow banner bearing the inscription "Justice for men" was lowered over the chamber. There was also a shower of pamphlets in which were wrap-toy mouse traps. The hubbub which followed made the chamber look like a burlesque of the French Revolutionary Assembly in the days of the Terror. Quiet was restored only when the perpetrators of the colloquial joke had been hustled from the gallery.

OLE CROSBY'S REPLY TO THE CHARGE OF INSUBORDINATION

STATES WHAT TOOK PLACE IN CONNECTION WITH THE
FREEZING OF THE WATER PIPES—HOW HE OF-
FENDED ALD. McCAFFERY

Ladies and Gentlemen,—Having been discharged from city service, and the reason of my dismissal being more or less shrouded in mystery, I concluded that the people of Prince Rupert should be made aware of the true facts of the case. The reason hinted at for my dismissal was insubordination. Only in one instance, to the best of my knowledge, have I been guilty of this charge and this I will make clear in the latter part of this letter.

As no investigation into the freezing of the water pipe has taken place and as few are aware of the true facts, this is for the information of the many. The new 18 inch pipe line from Acropolis reservoir was placed in commission in December last, and the gate was opened by the present foreman Walker, who was then acting foreman during my absence in Seattle. The gate was opened about seven turus, which corresponds to about the amount of water that would flow through a six inch pipe. When we closed the gate on January 17th, we were surprised that it was not more open and this led us to believe, for a short time, that the gate had been tampered with, but, as was afterwards shown, this was not so. The pipe line on Taylor Street froze and burst as well as in Section 6 (Taylor Street being 60 feet higher level than the outlet at Green Street Section 6.) Now, if the gate on Acropolis Hill had been shut, the pipe line on the higher level on Taylor St. down would have been drained and consequently not frozen and burst. The city engineer wanted to institute police investigation on the question of who shut the gate, until this simple

ALWAYS GOT LONG TON

City Did Not Get Short Ton from
Local Coal Dealers

In yesterday's report of the evidence given before the coal commission there was a misstatement as to the extent of the saving made by the city when purchasing from the mine instead of from local dealers. It was stated therein that the city had saved one-eighth by getting its coal by the long ton instead of by the short. It is true that the city in this way gets its coal so much more cheaply than the private individual, but this does not mean as it appeared in the report that the city had effected this saving when it transferred its custom from the local dealers to the mines. As it had always stipulated in its tenders for the long ton, it had always received it.

HAS RETURNED FROM THE GREAT CONGRESS

Rev. F. W. Kerr is Enthusiastic
Over Results of Assembly
at Toronto

Rev. F. W. and Mrs. Kerr with their child returned this morning on the Prince Rupert. Mr. Kerr has been attending the Presbyterian Congress in Toronto, at which there were some five thousand delegates from all over Canada, from China and from other parts of the world. He says it was the greatest congress ever held in any part of the world by the Presbyterian church, and he is highly pleased with the results. He will give an account in his sermon tomorrow evening. After the congress Mr. and Mrs. Kerr paid a visit to Mr. Kerr's former home in Berlin. They then proceeded to Kansas City to visit Mrs. Kerr's relatives, where they spent about two weeks. The whole trip had been most enjoyable, and Mr. and Mrs. Kerr were delighted with it while the baby too seemed to have thriven on his travels.

CABINET MAY CHANGE

Reported Sir Charles Fitzpatrick
May Go to London

Ottawa, July 10.—An interesting but unconfirmed report that if true will cause cabinet changes is current here today that Sir Charles Fitzpatrick will go to London as the permanent member of the judicial committee of the Privy Council and that Hon. Dr. Doherty will be made Chief Justice. The rumor also is that Mr. Arthur Meighen, Portage la Prairie, will become Minister of Justice. It is impossible with the Premier and the ministers involved out of town to get the slightest confirmation of the report.

Presbyterian Services

Rev. F. W. Kerr will conduct services tomorrow in the Empress Theatre at 11 a.m. and 7.30 p.m. Subject for the evening service will be "The Presbyterian Congress." Strangers cordially welcome.

DAILY EDITION. Saturday, July 12, 1913

ON ORANGEMEN AND ORANGE PEELERS

This is the day when Orangemen celebrate the anniversary of the Battle of the Boyne which was first fought in Ireland in 1690, and which has since then been refought annually for two hundred and twenty-three years in every part of the world. The silver eloquence of Andrew Carnegie and the golden oratory of Dr. J. A. Macdonald, though multiplied a thousand fold could not ensure complete peace on these occasions, and William of Germany is ever likely to be. However, as every woman loves a lover, so every man loves his fellows who are making holiday and we wish all good luck to the Orangemen. All good luck, too, to those guardians of the law who do their best to keep the paraders from suffering annoyance or interference. In passing, it might be suggested that since the members of the procession call themselves Orangemen, the police officers who flank it might be called Orange Peelers. The only objection to this is that the Orangemen seldom need any assistance in getting rid of their coats, if necessity compels them to spill the juice. The ambulance wagon on duty for the day also as it is usually filled with the remains from the festival, might be known as the Orange Aid.

THE RIOTING IN JOHANNESBURG

The news that the colored men have joined the strike in the Rand mines shows that they have reached the state of civilization where they are no longer content with wages that a few years ago offered them wives and cattle without number for about a year of hard work. Natives could work in

the mines for a comparatively brief period and then return to their kraals rich men and sit in the sun and enjoy themselves. If that phase has passed and the colored laborer is beginning to live up to his new standard of civilization, the rioting on the Rand is merely a sign of the times. It is sometimes said that the British and Boers are still two races apart and that there is no unity in South Africa. Riots such as these will soon bring the two white races together, for there may come a time when it will be necessary for all to stand shoulder to shoulder or get swept out of existence under a rising tide of native sons. The business of civilizing about 5,000,000 black savages is not a task that can be undertaken by an idealist or philosopher. It will be interesting to see whether the addition of the black element to the forces of the strikers does not weaken rather than strengthen their cause. So far as can be gathered at present the strike was started among the white miners, the majority of whom came from England, especially from Cornwall. The whites, however, form but a small portion of the whole body of workers. In the gold mines in the Transvaal, most of which are situated on the Rand, there are employed on an average about 200,000 people, of whom only about 21,000 are whites. The workers of the two colors have not pulled together very well in the past and it remains to be seen how the present junction of forces will succeed.

The Financial Post computes that \$56,000,000 will be distributed this month, most of it in the first week, in dividends and interest on Canadian securities. Something over \$31,000,000 of this sum is due on Canadian securities listed at home, \$10,000,000 on railway stocks and bonds listed in London, and \$7,000,000 on municipal bonds.

SCENE OF DESPERATE FIGHTING IN THE BALKANS
The war footing and the population.—The authorities differ as to the relative strength of the Balkan armies. The figures above are taken from the London Daily Mail year book, and probably underestimate the facts. It is safe to say that a million men are under arms.

SPINTLUM AND PAUL TRIALS COST PROVINCE A LARGE SUM

IT IS THOUGHT THAT FIFTY THOUSAND DOLLARS WILL NOT MEET THE BILL—WAS A COSTLY PROSECUTION

"Footing the bill," is the occupation of the criminal authorities. Crowds of ranchers, police and trackers are being paid the fees which they are entitled to for attending the Spintlum and Paul trials.

Some day someone may hazard a question in parliament as to the cost of the prosecutions but until then absolute data will not be available. It is believed that \$50,000 will not cover the cost of the two convictions. One of the most prominent of the government officials, who for very obvious reasons did not desire that his name should be given as an authority, informed the British Columbian that he had made a rough estimate of the cost down to the end of the Vernon trial and he calculated that then \$45,000 had been spent in the tracking, capture and trials, preliminary and assize, of the outlaws. When it is remembered that the Crown brought over a score of witnesses, half as many Indian police and other officials, three horses and two prisoners and kept them at New Westminster ten days, it can be seen that the fifty thousand dollar mark is probably within the mark.

The impression seems to be that if an Indian's evidence is regarded as good and reliable he should not be discriminated against.

TO CASSIAR Mining Party Here on Way to the Interior

A well known mining engineer, Harry P. Perks, arrived in the city from Vancouver yesterday. Mr. Perks is going to Hazelton and there about two miles overland into the Cassiar district. He will take charge of the properties of the Royal Standard Investment Co. at a point where Germanston Creek joins the Omineca River. These are hydraulic placer properties. Mr. Perks is accompanied on the trip by one of the directors of the company, F. C. Fuller, and by F. M. Chambers.

Launches for Indian Agents

In the supplementary estimates brought down at the close of the session at Ottawa figures a sum of \$10,000 for two gasoline launches for the use of the Indian department at its agencies on the West Coast of Vancouver Island and Bella Coola respectively.

Burning pine sticks is a popular evening rite at the beaches, the mosquito being the joss.

MONTHLY REPORT OF POLICE COMMISSION

Thirty-Two Cases During June—Iron Cots Installed for Prisoners

The monthly report of Chief of Police Vickers was received by the Police Commissioners at a meeting held yesterday afternoon. The report showed that the receipts from fines during June had amounted to \$320.

There had been thirty-two cases in the police court in thirty-one of which the defendant was convicted. The other case, a charge of using obscene language, was dismissed. Twenty of the convictions were for the charge of being drunk and disorderly. One keeper of a house of ill-fame was convicted and six of the inmates thereof. A gambling house-keeper and two gamblers were fined. For selling liquor after hours a firm of hotel proprietors had been fined. The police commissioners went down to the cells at the conclusion of the meeting and inspected the new cots which had been purchased for prisoners. Formerly the prisoners had to sleep on the floors of the cells but they will now be somewhat more comfortable on iron cots. Eight of these have been purchased.

Gas stock may be cheaper than it used to be, but the gas meter is just as high and haughty as ever.

OLE CROSSBY'S REPLY TO INSUBORDINATION

(Continued from page 1)

law of gravitation was pointed out to him. After my return from Seattle I repeatedly approached the city engineer to get the pipe line either back-filled at once or tamped in five places on low level, which would drain the line and prevent freezing but he refused his consent. This could and should have been carried out in a few hours, during the cold weather and when it was too late to back-fill, by putting on the tapping machine and drilling five holes of one inch diameter, these holes could have afterwards been easily plugged or stopcocks inserted.

My private diary shows cold weather commenced on January 8th. On January 14th the pipe line was tested at Hays Cove Circle and three inches of ice found inside, the city engineer being on the ground. On January 15th the water line went out of commission but no pipes had burst. I reported the matter, in person, to Mr. Mason at his house that night but still he took no action.

On January 16th one pipe on the 18 inch line burst at Hays Cove Circle. On January 17 the City Engineer gave orders to tap the pipe line to drain it if possible; we worked till 11 p.m. that night but it was then too late, the pipes being then solid with ice. On the other hand, if the pipe line had been put out of commission as was suggested to Mr. Mason by me, the only inconvenience to the people of Section 6 and 7 would have been low pressure from January 7th or 8th until January 19th or 20th, as, at that date, my diary shows mild weather. The pipe line could then have been placed in commission again as that spell was the only cold weather of a serious nature that he had.

Shortly after election, Mr. McCaffery, chairman of the Water Committee, asked me to walk with him to the reservoir and explain the reasons of the freezing of the water pipe. I explained to him all that I have here pointed out, and he accepted the explanation as correct. In the meantime Mr. Mason, city engineer, had succeeded in laying the blame on last year's Finance Committee for not finding him money to back-fill and by this means saving the pipe. As I have shown this was not the only means of saving the pipe and the city engineer's action in shifting blame on the Finance Committee of last year is most unjust.

With reference to the only instance of insubordination, mentioned in the beginning of this letter, I would draw your attention to the following: On February 28th, 1913, I received the following order from the city engineer, this order being still on hand: Prince Rupert, B.C., February 28, 1913 Foreman Crosby, City Waterworks.

Dear Sir,—Please loan to Mr. McCaffery 100 feet of 6 inch wood pipe, to be returned as soon as possible, and oblige. Yours truly, (Signed) W. Mcg. MASON, City Engineer. The chairman of the Water Committee, Mr. McCaffery, came to me for the pipe. I asked him what he was going to do with it and he told me that his private sewer was frozen up and that he had seen the city engineer about it and he wanted to use the pipe for a few days for sewer purposes. I refused the request knowing full well that I was taking a chance of losing my own position in so doing. The chair-

FISHERIES TREATY

United States Government Neglects to Ratify.

(Special to The Daily News) Ottawa, July 11.—Unless the United States government should ratify the treaty with Canada regarding the joint protection of the fisheries in international waters by December, Canada will withdraw from the treaty, as the continued delay on the part of the authorities at Washington is no longer to be tolerated.

PARALLELS THE C.N.R.

New Railway to be Built Between Calgary and Malden

Saskatoon, July 8.—Information is received of the projection in the near future of a line between Calgary and Malden and Empress. The line will open up a large territory and will parallel the Canadian Northern Railroad's Goose Lake line for a considerable distance. The new line will cross the Macklin-Moose Jaw line at Malden and will mean much to the district in the vicinity of Kerrobert.

On the Prince George.

In addition to some twenty or thirty returning tourists, the first class passengers on the first class passenger on the Prince George yesterday morning were: Mr. and Mrs. C. D. Williams, W. M. Brown, J. A. McLean, C. Morgan, H. Raste, G. Graham, Mr. and Mrs. Grubb, A. Bruce, W. Matheson, H. O. Smith, Mr. and Mrs. Jack, Miss Freda Frost, Mrs. Sinclair, Miss Ritchie, Mr. Richardson, M. F. Johnson, Mr. and Mrs. W. A. Lawson, Miss Lovie Macdonald, F. Finch, D. L. Copland, Mr. and Mrs. S. P. McMordie, Mr. and Mrs. J. Kugler, Mrs. Warren Kelly, A. A. Morrow, L. Baker, H. L. Beresford, George Sykes, A. F. Oddstav, A. Beaton, F. G. Wall, W. Hood, J. T. Phelan, Miss Irene Phelan, Miss Waller, Mrs. Holland, O. Hervonank, C. F. Johnson, Mr. Gilroy, J. C. McRae, Thomas Miles, Mr. Nutter, Mr. and Mrs. Callahan.

The cold storage boats Skugaid and Andrew Kelly came in this morning. The Skidegate had a catch of 70,000 pounds of fish and the Andrew Kelly a catch of 60,000 pounds.

man, after being refused, went off huffy and has scarcely spoken to me since; but as Mayor Pattullo knew nothing about this deal, no steps were taken against me at that time although the city engineer severely censured me for refusing. It would be interesting to know the opinions of medical men and the Chairman of the Board of Health upon the borrowing of city wood water pipe to be used for sewer purposes and then returned to waterworks department. As I could not conscientiously follow out this order, I have now paid the full penalty of my "insubordination." Thanking the people of Prince Rupert for their kindness to me in the past while in their service. I remain, yours respectfully, OLE T. CROSSBY.

FISHING EXPERT

To Inspect Bulkley River at Morristown

J. P. Babcock, of the Provincial Fisheries Department left for the interior this morning. He intends to go to Morristown on the Bulkley River in order to see whether there is any improvement in the river needed at that point to allow the fish to get up stream. It has been reported that owing to the falls there the salmon have not been able to get up the river.

In Calgary they have given the name "Lowry" to one of the city parks. Despite statements to the contrary, this park is not named after the genial colonel from Greenwood. He spells his name differently.

BIG YEAR FOR YUKON

Gold Output and Also that of Other Minerals Increasing

This promises to be the largest gold-producing year in the history of the Yukon, according to Mr. G. F. Long, of White Horse, at present staying at the Dunsmuir Hotel. He states that the number of men employed is greater than ever and conditions as regards output of the mines were never better. Not only in gold, but in iron and other ores the production is expected to prove a record.—Vancouver Province.
