MORE PUBLICITY IN PUBLIC LIFE.

Under the heading "The Mar-
conis and After," the new inde-
pendent English weekly, the New
Statesman, puts forward an inter-
esting suggestion for the preven-
tion of the existence in the future
of such difficulties as arose from
the Marconi transaction.

"For our own part," says the
Statesman, "we suggest that the
way out lies along the path of
publicity. We have no respect for
the furtive secrecy in which Eng-
lishmen like to shroud the sources
of their incomes. It would be bet-
ter for all concerned if our income
tax returns were filed for public
inspection, like our wills and our
death duty accounts. But our tim-
id legislators need not go so far as
this all at once. What the present
situation demands is, as regards
elected representatives and public
officials, high and low—if only for
their own protection against a sus-
picion and libel which, after this
outburst, we shall otherwise not
escape—the safeguard of open ac-
counts. We propose (1) the com-

pulsory publication year by year,
of the detailed receipts and expendi-
ture of all "party" funds, includ-
ing those of all propagandist soci-
eties and committees, in the same
way as individual election expen-
sures; (2) a compulsory annual
return, by all persons filling an
elective position of a salaried of-
fice in the state or municipal ser-
vice of the property, investments
and income (including changes of
investments of all kinds) of them-
selves and their wives, to be annu-
ally laid before parliament or the
local council with which they are
connected, and (3) the compulsory
registration, in the cost of all trust
holdings, of the names of the pre-
sent beneficiaries as well as of the
trustees. The Positivists' maxim,
'Live Openly,' is the one we have
now adopted."

The tightness of the London
market is diverting the floating of
municipal loans to other financial
centres. Saskatoon recently placed
\$500,000 city bonds with a Chi-
cago firm, who also took an option
on \$400,000 more.

VALUABLE HINTS ON KEEPING FOOD DURING THE DOG DAYS

UNITED STATES DEPARTMENT OF AGRICULTURE SENDS OUT
OFFICIAL WARNING TO GUARD AGAINST FOOD UN-
FIT FOR HUMAN CONSUMPTION

Washington, D.C. July 8.—The
Department of Agriculture today
issued the following practical
suggestion in regard to keeping
food and drink in hot weather,
with a view to helping the pub-
lic to avoid sickness from eating
spoiled articles of diet:

While people should be careful
about the condition of the food
they eat at all seasons of the
year, they should be particu-
larly watchful during the summer
months. In hot weather, bacteri-
a multiply far more rapidly than
in cold weather and produce
chemical changes in some foods
which greatly lessen their nutri-
tive value and often make them
unfit for human consumption.
Unfortunately there is no quick,
absolute, simple, practical way
of determining the presence of
harmful bacilli in foods, or of ob-
taining evidence of the presence
of ptomaines. The average fam-
ily does not have the delicate ap-
paratus needed for these tests,
nor the skill to detect these mi-
cro-organisms.

The housewife will find eyes
and nose the safest practical de-
tectives of bad food in hot weath-
er. If any article has any
suspicion of any unusual odor
or looks abnormal it should be
avoided. People eating in doubt-
ful restaurants should be particu-
lar about meats or fish cooked
with a highly spiced or aromatic
sauce which might disguise a
bad taste or warning odor. Only
sweet smelling clean food should
be eaten. Spotted, green, slimy
or frothy raw meat, or meat

which is soft in spots also should
be regarded with suspicion.
Taste, of course, is a supple-
mentary test, but one to be used
after eyes, nose and fingers. A
mother before she allows her
child to eat anything, should ex-
amine it carefully in good light,
smell it and finally taste it.

CHAMBER OF MINES

Several More Exhibits from the
Local Mines are Installed
(Portland Canal Miner.)

Since the initial shipment of
samples of local ores to the Van-
couver Chamber of Mines, a num-
ber of other properties are now
represented, as mentioned edi-
torially. In the majority of
cases, writes Secretary F. S. Pil-
ling to The Miner, in addition to
the samples set out in glazed
stand-cases, the chamber has
larger specimens, arranged on
open stands around the exhibit
halls. The Chamber has recently
received a fine set of specimens
from the Kitselas district, and
also an interesting collection of
copper ores from the lime belt
on Valdes Island, which have
been collected and presented to
the Chamber of Mines by Dr. D.
D. Cairnes of the Dominion Geo-
logical Survey. The latest speci-
mens received comprise a fine
group from the Atlin district and
additional samples from Trout
Lake, Slocan, Lardeau, Ains-
worth, Nelson, Grand Forks,
Omineca and Quesnel mining di-
visions.

Another Railway for the Naas

Notice is given that applica-
tion will be made to parliament
at the next session for an act to
incorporate a company under the
name of the Naas Valley & Nor-
thern Railway Company, to con-
duct lines of railway commencing
at a point at or near the
mouth of the Naas River, and
following a general northerly
direction along the valley of the
Naas River to Stikeen River and
onward northerly following the
shore of Teslin Lake to the junc-
tion of the Yukon and Hootalin-
qua rivers in the Yukon terri-
tory.

Sylvia Pankhurst's cohorts
are making a specialty of the
"Marseillaise," but they should
remember that a great many
warblers of that ditty lost their
voices suddenly under the guil-
lotine.

NO HURRY FOR MONEY

Montreal, July 10.—No endeavor will be made by the city for some time to float the new \$14,000,000 loan authorized some months ago. The condition of the money market is urged to be such that any attempt to raise money would scarcely be likely to meet with success.

"It will be better for us to wait for a time," C. Arnold, the city treasurer, said today.

"If we were to make an unsuccessful attempt to float a loan it would only damage the credit of the city. We should always be sure of getting the money as the underwriters would take over the amount unsubscribed by the public, but there is no need for hurry."

JUNE SHOWED PROGRESS IN DRIVING BIG BORE

For the month of June the big tunnel being driven to tap the Glacier Creek vein series at depth was put forward 218 feet for the thirty days. On June 30 the total distance of the bore was 1477. Manager W. J. Elmendorf advised The Miner that the rock at present being drilled into is extremely hard, but he expects that in a short distance a change to take place.

Indian Mines — The holdings of the company are now being surveyed for crown grant.

Columbia and Evening Sun—Arthur Bagge is still continuing development on the Evening Sun claim.

Big Missouri—For the past three months three men have been continuing the main cross-cut tunnel to one of the big ore showings and on another tunnel work was prosecuted following the vein.

Cascade Falls — Development is continuing at the mine, and considerable assessment work
