### TURKEY DEMANDS NEW BOUNDARY—LISBON POLICE ARE KILLED WHEN CAPTURING BOMBS

#### FINANCIAL CONFERENCE MAY BE HELD SHORTLY IN LONDON

##### MINENT CANADIANS LEAVE FOR ENGLAND—RAID ON CAN- ADIAN SECURITIES TO BE CAUSE OF SUB- JECT OF INQUIRY.

Vancouver, July 17.—Indications suggest that an important financial conference, at which apparently organized on the part of certain Canadian securities in Europe will be discussed, will be held in London early in August.

Returning financiers and members of parliament who have been through the capital have emphasized the seriousness of the situation. R. B. Bennett, who is on his way west, has expressed the idea that certain Canadian securities are not being properly treated and he reported that the movement was extending from the west.

Mr. W. T. White is at present in London, having changed his plans at the last moment of a trip to the coast. Sir Byron Lee, of the Bank of Commerce, has also sailed for England, and the latest reports here are that after a short conference with department officials on Monday Sir William Mackenzie decided to make another trip to England and will sail this morning from New York.

It is would suggest that Mackenzie & Mann interests will be

discussed and gives weight to the rumor published some time ago that the Dominion government is contemplating some scheme to clear the financial atmosphere caused by heavy financing by the provinces relative to the Mackenzie & Mann projects.

Records have already been published of informal conferences between Sir Thomas Shaughnessy and Premier Borden at St. Andrews, where both are summering. It is said the financial situation has been discussed generally at these conferences. Although the Canadian Pacific is in splendid financial shape and is not concerned on its own account, it is interested in maintaining the integrity of Canadian securities.

Returning financiers are inclined to think that the raid on Canadian securities in London particularly has been engineered by a crowd which is heavily interested in South American and especially Argentine investments.

Unless there is a radical change in the general financial situation Parliament will surely be called to meet early in November.

#### DRUNK ON CIDER

##### An Indian Became Riotous from Soft Drinks

"When are soft drinks hard?" is the interesting question raised by the case of William McDonald, an Indian, in the police court this morning. McDonald had been imbibing drinks of so-called soft cider until he became quite lively and was taken in charge by a police constable. He was fined five dollars for being drunk and disorderly.

At the same time another McDonald, Michael, an Irishman, was haled before the magistrate. He was curious to know how the Indian had come by his name but the only information that he received was that he would have to pay for being drunk and disorderly. His fine was \$10 and \$2 costs.

(Special to The Daily News.) Victoria, July 21.—A sea captain, giving evidence before the sealing claims inquiry declared that the Japs are given the preference. He says the Canadians are badly treated by English officials.

#### POWDER EXPLOSION

(Special to The Daily News.) Nanaimo, July 21.—The black powder works at Northfield, near here, were the scene of an explosion yesterday which razed them to the ground. The force of the explosion rocked many houses and created great excitement among the inhabitants. Two Chinese were injured as a result of the explosion, which took place at 4:40 yesterday morning.

#### BOMBS DISCOVERED

(Special to The Daily News.) Lisbon, July 21.—Organized bomb throwing has been frustrated by the police. Baskets of explosives were taken from autos by the police. Several members of the force were killed or wounded.

##### Graham Eggs Meeting with Favor in Prince Rupert.

Mr. C. C. Grange, the enterprising young merchant at Woden River, has been endeavoring since he came to Graham Island, to establish a reputation as well as a market for island eggs, and although he has met with many disappointments and losses in the beginning, he believes that he has already achieved a large share of success. Last week he received two letters from different Prince Rupert dealers requesting larger shipments as the flavor and freshness of Graham Island eggs appeal to the palates of the Ruperites and they are now considered very choice on the market.—Masset Leader.

#### SENSATIONAL ESCAPE IS MADE BY LEADER OF SUFFRAGETTES

##### WEAK FROM HUNGER STRIKE MRS PANKHURST ADDRESSED A MEETING ONLY TO BE STOPPED BY THE POLICE —ESCAPED IN TAXICAB

London, July 19.—Mrs Emmeline Pankhurst, leader of the suffragettes made her escape from the police recently under exciting circumstances.

With Annie Kenney, one of the most ardent of the militants she appeared at a meeting of the Woman's Social and Political Union.

Both women, although suffering severely from the effects of their recent hunger strike in prison, delivered stirring addresses. Mrs. Pankhurst announced that she would rather die than submit to the government.

"My challenge to the government is 'give me freedom or kill me,'" she said.

Miss Kenney auctioned off two of her licenses under the "cat and mouse" act for \$30 each.

The police undertook to arrest

Mrs. Pankhurst and Miss Kenney. Mrs. Pankhurst escaped in a taxicab. She was pursued but so wild were the scenes of disorder outside the pavilion that she escaped. Late tonight she was at her apartment in Westminster and the police made no further attempt to arrest her.

#### COLLECTING FISH FOR BIG EXHIBIT AT TORONTO FAIR

##### WILL ATTRACT ATTENTION TO THE LITTLE KNOWN WEALTH OF THE FISHERIES AT PRINCE RUPERT—ITS GREAT EDUCATIONAL VALUE.

The Dominion government is arranging, through the department of marine and fisheries, for a ten thousand dollar exhibit of food fish at the Toronto exhibition this year. The exhibit will be the first of its kind ever attempted in Canada, and is expected to be of great educational value. Arrangements for the display are now being completed by W. A. Found, Dominion superintendent of fisheries. A large number of the leading fish companies of Canada will contribute toward the exhibit under the direction of the department. The display will include live fish in tanks, cured fish, fresh fish in cold storage and mounted specimens of some rare varieties. Andrew Halkett, curator of the fishery museum at Ottawa, will be in charge.

The exhibit will consist principally of several varieties of commercial fish, representing the fisheries of the Atlantic and Pacific coasts, and of great inland waters of Canada. Large cold storage refrigerators, with a capacity of six tons, will be installed, storage fish being visible from the outside by means of glass doors.

Special means will be adopted for diffusing information in regard to fish by means of lectures and the distribution of literature, and finally by the novel but conclusive method of giving visitors to the exhibit samples of the fish to eat. There will be a kitchen in connection with the display, and the chef will fry fish steaks, which will be served free of charge.

#### SBYTERIANS AT THE ANYOX MISSION

on Supt. Wilson Pays a Visit  
Inspection to the Smelter  
Town District.

(Special Correspondence.) Anyox, B. C., July 17.—The George A. Wilson, B. A., superintendent of home missions the Presbyterian Church for the province of British Columbia, arrived at Anyox Sunday morning the steamer Prince Rupert. Mr. Wilson preached an evening sermon to a large congregation in First Church. He left Monday and Tuesday visiting the Granby mines and large company with Rev. N. D. Peterson, the Presbyterian minister at Anyox. Tuesday afternoon he addressed a large number of ladies who met in the church quarters for the purpose of organizing a ladies' aid.

At that meeting the following were elected to the different offices of the organization: President, Mrs. Campbell; vice president, Mrs. Wooley; record-keeper, Mrs. Jones; convener social committee, Mrs. King; convener of the congregation, Mrs. Morgan. Tuesday evening a meeting of the congregation of First Church was held, at which Rev. Mr. Wilson gave a lecture on the province of British Columbia. The following were elected as board managers at this meeting: Chairman, Mr. Jones; treasurer, Mr. Campbell; envelope secretary, Mrs. Spate; missionary secretary, Mrs. Wooley; John Pipe, I. King.

The program for the remainder of the evening consisted of songs and recitations by the young men of the congregation. Rev. Mr. Wilson left Tuesday morning on the steamer Chelohsin for some of the southern points along the coast.

##### Langara Island Fishing.

The spring salmon fishing at Langara Island came to an abrupt end last week. Two of the purchasing companies decided to stop buying from the fishermen, and the launch Gryme, of the B. C. Fisheries, located at Alford, B. C., conveyed the Indians and white men to the west coast, where it was found that fish were plentiful within a few miles of their plant.

#### VANCOUVER LACROSSE CLUB PROFESSIONAL

Takes the Place of New West-  
minster Professionals, Who  
Are Now Ignored.

(Special to The Daily News.) Vancouver, July 21.—The people of this city were not disappointed in their regular lacrosse game on Saturday, as the Vancouver Athletic Club recently professionalized itself to prevent this disappointment. New Westminster now being practically ignored because of their scurvy conduct on the field Saturday week. As the club team has won six consecutive games for the Mann cup they proved a great attraction. Both sides put up a strong but clean game throughout, and again the club team was undefeated, the score being a tie of 5 to 5. This was one of the series of games for the Vancouver championship.

#### BELLA COOLA HARBOR RAILWAY TERMINAL

Eminent Engineer Is Impressed  
with Its Natural Advantages  
as a Trans-Pacific Port.

The C. P. R. steamer Princess Beatrice on arrival at this port yesterday had on board Mr. Edward Bath, M. A., B. Sc., of London, England, and Ottawa, the well known consulting engineer of the new great trans-Atlantic winter port at St. John, N. B., on which the Federal government is expending \$15,000,000.

Mr. Bath came to inspect the harbor for a terminal of a new transcontinental railway and expressed himself as greatly impressed with Burke Channel as a safe entry to the Pacific for the largest steamers, also that the harbor with its nearly two miles width of water would be safe anchorage for a fleet of cargo boats, while the waterfront is most suitable for the building of docks and grain elevators to accommodate the immense traffic that will incur from the opening up of the Peace River district—trans-Pacific port and terminal for the railway has no equal north of Vancouver.—Bella Coola Courier.

## ALL NIGHT AT THE BAR.

There were many expressions of regret on Saturday when it was heard that one of Prince Rupert's prominent citizens had been seen not merely hovering about the Bar after hours, but actually staying there all night, and giving as a reason therefore that he was so very dry!

We are then pleased to be able to correct the first report and to state that the esteemed citizen in question did not reach the Bar after all, though he has indeed been, during the major portion of the last three days, as dry as a retired army officer with no Scotch in him but his blood.

And in conclusion, since this esteemed citizen is a man of great modesty and may not enjoy having so much public attention attracted to his odysseys, let us hasten to add that we mean to refer to somebody else and not to him at all. The Bar to which allusion was made is, of course, that at Metlakatla, which is always open except when the tide is full.

## THE CITY OF THE SUN.

Those deluded easterners who, on looking at the map and seeing that Prince Rupert is only a few miles south of the Alaskan boundary, shake their heads and conclude that it is a place of sub-Arctic climate, should all have been transplanted to this city yesterday. So, too, should those misguided people who believe the stories issued from Raincovert and who imagine that Prince Rupert babies are born with

goloshes on their feet, are swaddled in raincoats and are given umbrellas to play with instead of rattles.

If these people were placed in this town during the time of this hot, clear weather they would imagine themselves on one of the islands of the South Seas. They would have scorned to return to Raincovert or to the murky cities of the east and would have declared themselves residents for the future of the City of the Sun.

## PRINCE RUPERT OARSMEN

Rowing should be the sport par excellence in Prince Rupert. There may be difficulties in the way of tennis, of football, or of sailing, but there are none in the way of rowing. There is here as fine a sheet of water as any on the continent and a climate which permits an oarsman to follow his sport the year round. Why then do not more of the young men of Prince Rupert indulge in this form of athletics? It is one of the best of exercises, calling almost all the muscles of the body into steady play. Half an hour's steady row after a day's work indoors is the best tonic a man can take. And when it comes to serious rowing there is nothing to surpass in excitement a good race in four-oared or eight-oared shells. Prince Rupert should become one of the greatest rowing centres of the Pacific Coast.

Politicians will be interested in an operation performed at Kingston the other day, where the surgeons reinforced the weak backbone of a patient.

Francis Bower Sayre.

## SECOND DAUGHTER OF PRESIDENT WILSON WILL WED MAN WHO LOOKS VERY MUCH LIKE HER OWN DADDY

Jessie Wilson has picked out a young lawyer for a husband, a young man now employed in the office of the District Attorney of New York county, who looks so much like her father that the chief difference in their appearance is found in their ages. Francis Bower Sayre is the son of a railroad builder. He hails from Pennsylvania, but some time ago made up his mind that he would like to study law. He entered the office of the District Attorney as a clerk while he studied. He has not yet been admitted to the bar, but is almost ready for his final examination. The wedding will likely take place in the fall.

## Portland Canal Mining

Bringing word that a number of prominent mining firms would send representatives to the Portland Canal district before the season is over, Ben Erickson, accompanied by his wife, is back in camp after spending the winter at his home in Seattle. Mr. Erickson, in association with John McNeill, who is expected on the next boat, owns the Red Top group of six claims on the main Bear River. He is now at the property doing the annual assessment. Besides his holdings in the Red Top group Mr. Erickson is largely interested in the Olga Mining Co. on Bitter Creek, and says that A. B. Ernst, state inspector of insurance at Seattle, has succeeded in interesting a French syndicate to send in an engineer to report on the property with a view to obtaining a lease. Wolff & Co., of New York, and D. D. Muir of the Seattle office of the United States Steel Corporation, will both have representatives in the field to examine properties and Mr. McDaniel, who has large interests at Valdez, is expected to make a personal examination of a number of claims before the season closes.

Mr. Erickson first struck the camp in 1906 and was among

the early locators of claims on Bitter Creek, American Creek and the main Bear River.

Portland Tunnels—Good progress is being made in the driving of the big bore which has now passed the 1500-foot mark, being three quarters of the contemplated distance of the tunnel.

Indian Mines.—In the face of the main adit, in a distance of some 235 feet the vein measures a width of seven feet. Of this face a large portion is of solid steel galena. The new shoot has been followed for a distance of 35 feet in a splendid grade of ore. The face is under the surface a depth of 150 feet. The holdings of the company are being surveyed for crown grant.

Reed Reef.—The contractors driving the upper tunnel expect to complete their work about the end of the month or the first week in August. Much hard rock, well pregated with copper has been encountered recently.

Montana.—The leasers, Kapple & Lawrence, have now sacked some 70 bags of high grade silver-gold ore principally taken from the surface exposure of the vein. The tunnel to tap this this showing is in a distance of 60 feet.—Portland Canal Miner.

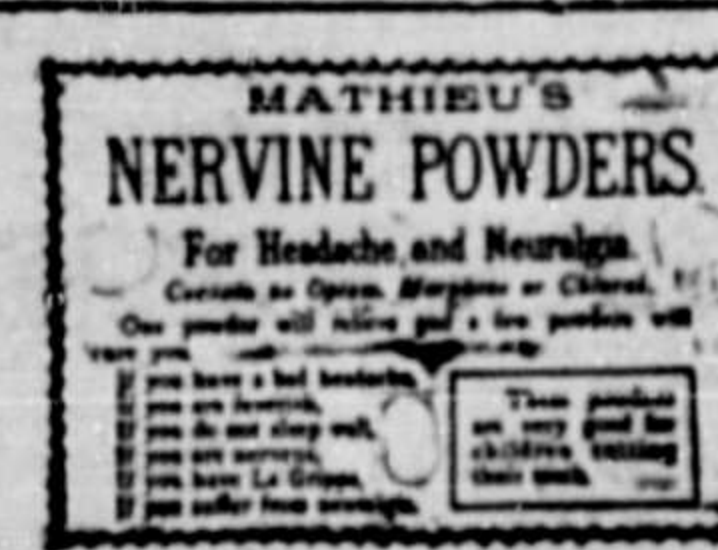

## C. P. R. STOCK LEADS IN WORLD MARKETS

Big Investors of all Countries Centre Their Attention on Canada

New York, July 19.—The New York Sun's financial article says: "Apparently Canadian Pacific has assumed the position of the leading speculative and investment stock of the world. At least it now has the widest and most active market. Immense amounts of it are held in Europe, and especially in England and Germany. But the latest figures show that the holdings in this country and Canada have increased."

"Since American speculators burned their fingers in Canadian Pacific it rose from 195 because they refused to believe that the Britishers would not sell out. It has been left rather severely alone, and has been held an excessively foreign specialty. But if this opinion is adhered to the tremendous market in it in Wall street during the past few weeks has been the cause of a good deal of mystery. Since the beginning of June half a million shares of Canadian Pacific have been traded in, representing a turnover of \$100,000,000 worth of stock. Of this total 450,000 shares were dealt in roughly speaking, within a range of ten points, or between 211 and 221. At the moment therefore it would seem as if the big active speculators on both sides of the Atlantic were centering their attention upon Canada."

# GRANBY SMELTER COMPANY TO INSTALL A FURNACE FOR LEAD

WILL BE ABLE TO PRODUCE COPPER FROM HIDDEN CREEK NEARLY TWO CENTS CHEAPER THAN AT THEIR PHOENIX PLANT.

"Just as soon as our copper furnaces are in operation, sometime early next year, it is the intention of the company, providing we are assured of a sufficient supply of lead ores, to install a lead furnace at the new Granby Bay works," said J. P. Graves of Spokane, vice president and general manager of the Granby Consolidated Mining & Smelting Co., to The Miner on the occasion of his recent visit to Stewart. The general manager was accompanied north on a trip of inspection by A. C. Flummerfelt, a fellow director in the big enterprise. While here both made many inquiries regarding the mining outlook, and were particularly interested in the project of the Portland Canal Tunnels, Ltd., to tap the Glacier creek vein series at depth, and in the development, being undertaken in the Salmon river. Mr. Graves stated that while no invitation had been extended to his company to send mining men into the district he intended to take up this phase of the matter after a conference with F. M. Sylvester, acting general manager at Granby Bay. He also stated that there was, generally speaking, a far greater interest being manifested in mining, and that the development of the Hidden Creek mines on Observatory Inlet, together with the erection of an immense smelting plant which would represent an investment of about \$3,500,000, had in its turn attracted considerable attention to the mining possibilities of the Portland Canal district, and he felt sanguine in stating that his company would not be behind in participating in development of other mines besides its Hidden creek holdings. In speaking of the immense sum now being invested in the north, he said: "Our initial outlay for the improvements being carried out at Granby Bay will represent an expenditure of about \$3,500,000, all of which has been provided for by the board of directors. This sum will cover the cost of properties, development, a smelter with a capacity of 2,000 tons daily, a converter, dam and powerhouse, a railway connecting the mine and smelter, and ore docks. We have over 4,000 men engaged now, mainly in smelter construction work, and expect to have the new plant in operation early in January of next year. The permanent force will not fall short of the same figure. "The smelter will be the most modern plant of its kind ever built on this continent, and we expect to produce copper at from 1 1/2 cents to 2 cents cheaper than our costs in the Boundary district. According to an estimate of our engineer, O. B. Smith Jr., the ore now in sight in the mines at Granby Bay is about 8,000,000 tons, from which we expect recovery values double those secured from our mines at Phoenix, B. C. The ores in the north contain good subsidiary values in gold and silver. Tunnels, shafts and drifts have blocked out and proven up the ore bodies to a point 650 feet below the outcrop on the top of a mountain, and in addition diamond drills have encountered the same characteristic ore below the bottom of the lowest working to a depth of 300 feet below sea level. This ensures an available tonnage far exceeding the probable production during my lifetime," he concluded. To Mr. Graves and the late S. H. C. Miner of Granby, Que., belong the credit of laying the foundations of the largest mining and smelting industries of Canada, at Phoenix and Grand Forks, in the Boundary district. The company began active operations thirteen years ago, its plant treating over 4,000,000 tons of copper-sold ore annually in recent years, and having paid to date dividends of nearly \$3,000,000. In the company's new Hidden Creek mine Mr. Graves asserts his corporation has a larger proposition than its Phoenix properties, famed for their magnitude and the self-fluxing character of their ores—Portland Canal Miner.

# SECRET CABAL HAS CONTROL OF THE ARMY OF MILITANTS

POLICE HAVE BEEN UNABLE TO DISCOVER THE MACHINERY OF GREAT ORGANIZATION WHICH TERRORIZES BRITISH PARLIAMENT.

London, July 18.—The days when the suffragettes were treated with mild amusement or kindly banter by Englishmen have gone by, and if one of the bomb throwing and incendiary militants should now be caught in the act she would be lucky to escape without serious handling. Reasons have been found for believing that the militant clans are by no means known to the police. The rank and file of the militants are receiving instructions and encouragements by methods which novelists have made familiar as those employed by secret societies on the continent. Even militants of considerable standing profess to be ignorant of who is in charge of the organization, who is drawing up the plans for the future, or who has the care of the funds. Widespread apprehension exists of the possibility of an outrage which will surpass all its predecessors, something that will come near the realization of the boast about "staggering humanity," and although the government's belated action against the leaders of the Women's Social and Political Union struck a severe blow at the organization it is still believed that serious danger remains so long as Christabel Pankhurst is allowed to conduct the campaign from Paris and terror has not been put in the hearts of the rank and file by the infliction of the condign punishment fitting the crime. The Ottawa Journal hails Arthur Meighen as the man who put the "sure" in closure. There appears to be no doubt that the doubtful honor of devising the "gag" rests with Mr. Meighen.

# NEWS NOTES FROM TELKWA.

The provincial game warden has appointed Walter Gale, of the firm of R. L. Gale, Telkwa, as deputy for the district for the issue of gun licenses of every grade, also free permits for prospectors and ranchers as set forth in the game act of 1913.

Mr. Harrup, representing Piercy, Morris & Co. of Prince Rupert, paid a business visit to the valley last week.

The firm of Cohen, Zackon & Co. has sold out their New Hazelton store to Lynch Bros., and the partnership has been dissolved. D. Cohen is taking over the Telkwa store.

Telephone connection is to be established between Smithers and Telkwa as soon as the necessary work in connection with the installation can be done. It is to be a part of the Foley, Welch & Stewart system, but the merchants interested in the two towns are to bear the expense.

J. S. Kennedy and Pete Carr have returned from the Starr Basin, where they started a couple of men at work on the Starr group, owned by Carr Bros. and Kennedy.

Jack Ashman has come in from Hudson Bay Mountain for supplies. The property in which he is interested adjoins the Coronado group, and Ashman is engaged in development work.

F. B. Chettleburgh and William Sweeney have left town for Coal Creek. It is their intention to go down Copper River and examine some placer holdings somewhere in that vicinity, returning by way of Hazelton.

Mr. and Mrs. D. Scott are among the new arrivals this week, coming right through from Scotland to the Bulkley Valley. Mr. Scott, who is a butcher by trade, was employed last year by P. Burns & Co. at Mission Point. He is a brother of Ben Scott, well known in Telkwa.

The baseball enthusiasts of Smithers have organized a team which they think will be able to clean up the Telkwa ball team with ease, and they are going up Sunday, the 20th, to lock horns with them.—Telkwa Tribune.

Evelyn Thaw Gives Caution Against Raising Hopes of Creditors  
London, July 15—"Yes, it is quite true; I am engaged for the Victoria in New York by William Hammerstein, opening on August 4," said Evelyn Thaw last night. "What about that rumored \$4,000 a week salary," she was asked. Evelyn shut her eyes and clasped her hands. "What a glorious dream," she said. "If it were only true. And what would my husband's creditors say? poor dear things. Don't go raising their hopes that way."

### TERRACE NEWS.

Terrace, July 19.—The arrivals on today's train included Mr. and Mrs. Munro, who have recently made Terrace their home.

There seems to be much building activity in town. The co-operative store, Mr. Marsh's house and the government buildings are all nearing completion.

Miss Joyce, who has been visiting Mrs. Little, leaves for Seattle on tomorrow's train.

Mr. Giggey tells us that he expects to begin work on the new Presbyterian church shortly.

Mining development is coming increasingly to the front in Terrace. Several new claims have been staked and a number are preparing specimens of ore to exhibit at the Chicago fall fair, under the recent request of the G. T. P. authorities.

### Not at Metlakatla.

### NEWS FROM SMITHERS

Passenger trains are expected to reach here within four weeks. Meanwhile the work of developing the townsite is going steadily forward. The first clearing contracts are nearly completed and preparations have been made for the immediate commencement of street grading and draining operations. An additional contract for clearing 700 feet at the east end of the railway reserve has been let by the railway company. This extra yard room is required for the Y.

The clearing has made a great improvement in the appearance of the townsite, showing the level character of the ground and allowing a splendid view in every direction. The business men now on the ground, with hundreds of others who intend to purchase lots, are anxiously awaiting the sale of lots. The marketing of Smithers property will be done in a legitimate manner, however, and until the provincial government has made its selection of one-fourth of the lots none will be offered to the public. It is expected that Government Agent Hoskins will be here in a few days to choose the government blocks.

The announcement is made that the railway company has arranged for the immediate construction of sidewalks on the townsite. It is stated that a mile and a half of walks will be built this fall.

John N. Carr of Smithers was recently married at Vancouver to Miss Kate Ryan, daughter of Mr. and Mrs. M. Ryan of Ottawa.

L. L. DeVoin and Gus Rosenthal are developing one of the best farms in the neighborhood of Smithers. Mr. DeVoin left on Monday for Hazelton, where his mother and children reside. He intends to bring the family here as soon as passenger trains are in operation.

E. J. Hill has arranged to operate a daily stage service between Telkwa and Smithers, beginning this week. His local headquarters are at his ranch adjoining the townsite. Mr. Hill has sold his business in Hazelton and will devote all his attention to his local interests.

Archie McInnes, of the Pioneer ranch, has returned from the coast with a fine lot of cattle.

One of the most widely known mining properties of the district, the Coronado, will be operated on a large scale in the near future, according to the plans of R. J. McDonnell, the principal owner. The group, which is located on Hudson Bay Mountain, ten miles from Smithers, has one of the finest showings of silver-lead in the province, returning high values—Smithers Review.

J. F. Henderson of San Diego, California, who has been here for some weeks past on business, returned south this morning on the steamer Prince Rupert.

W. C. Bowles of Winnipeg, general freight agent of western lines of the C. P. R., passed through the city on Saturday. He was on the Princess May, going south after a trip to Skagway.

Miss Joyce of Seattle, who has been the guest of Mrs. Little at Terrace for a couple of weeks, was a passenger south by the Prince Rupert this morning.

W. H. Beer, general manager of the Wineland Construction Company, is in town. His company has the contract for the buildings at the dry dock.

Robert Stalker and his family left on Saturday by the Princess May. The family will go to Golden, Mr. Stalker accompanying them only as far as Vancouver.

Judging from the location of Major Gibson's yacht, the Nancy Jane, high and dry on one of the points between Prince Rupert and Metlakatla, the major must have been on a timber cruise rather than a yachting party.

H. Silverthorne, who arrived in the city Saturday morning on the steamer Prince Rupert, brought with him several head of thoroughbred stock, including a valuable stallion which he is taking to his ranch in the interior at Silverthorne.

Andrew Johnson of Hull, England, the head of a well known firm of exporters and importers of fish, left on Saturday by the Princess May to return to England. He has been here for some weeks considering the establishment of a fish curing business here.

Miss Margaret McCraney, a highly accomplished musician, who has been visiting at the home of Mr. W. R. Lord for the past two or three weeks, left this morning for her home in Vancouver. Miss McCraney has studied under the most eminent teachers of music in Europe.

Those who were present yesterday evening at the Presbyterian service in the Empress Theatre were greatly pleased with the excellent solo, "The Promise of Life," rendered by Miss Effie Nauman. Many of the listeners were surprised at the maturity of voice and the skill displayed by so young a singer, as Miss Nauman is only about fourteen years of age. Her solo was so attractive that efforts will be made to have her sing again shortly at one of the Presbyterian services.

### LOT CLEARING CAMPAIGN

Masset Clearing Out Those Un-sightly Stumps.

The residents of Masset started in on a lot clearing campaign this week and the results are already noticeable. Mr. Martin is placing a heavy plank sidewalk in front of his store and his adjoining lot and will also build a sidewalk from the store to the warehouse, clearing operations for this purpose being now under way on the lower portion of the street.
