McDONALD OF ROSSLAND IN A MEXICAN PRISON CONDEMNED TO DEATH—UNITED STATES AND CANADIAN GOVERNMENTS TO DEMAND HIS RELEASE.

(Special to The Daily News.)
Washington, July 30.—Charles Beisel and Bernard McDonald, two mine managers who are held by the Mexican federalists under sentence of death at Chihuahua, have been ordered released by the United States government, this demand being presented yesterday to the Huerta government by Mr. Algari, the charge d'affaires of the American embassy. The men were arrested by General Orozo while attempting to take American refugees over the border.

McDonald is a Canadian and is well known in Rossland and the Boundary country.

Ottawa, July 30.—The Evening Journal states that the Canadian government, through the department of external affairs, will probably ask the British minister at Mexico City to enquire into the facts concerning the imprisonment by Mexican soldiers of Bernard McDonald, mining engineer, who is a Canadian and a British subject.

Washington, July 30.—The shooting of Charles B. Dixon Jr. at Jaurez is regarded as a serious incident, but its bearing on the general Mexican situation is being minimized by officials here as

the American demands for investigation and punishment of the offenders were apparently being complied with. At the White House it was said the United States would pursue a course of diligent inquiry into the affair, and would insist on summary action to the guilty.

President Wilson does not believe the public mind in the United States is excited over the situation in Mexico, nor is he convinced that a crisis has been reached in the revolution itself. The information was obtained in official circles today with an authoritative denial that any proposal looking toward a co-operation between American military forces and the Mexican government for the restoration of peace has been suggested.

It was learned at the White House that reports accrediting Ambassador Wilson with having advocated a set of proposals contemplating military co-operation with Mexico, or intervention were unfounded. The President has received from Ambassador Wilson an historical account of events in Mexico in the last three years. The ambassador himself declared today he had not mentioned any remedies, and had not even put on paper the plans he had in mind.

TORIES HAVE NO MORE CHANCE THAN A SNOWBALL IN MEXICO

WALTER BAER, THE LIBERAL ORGANIZER, IS DELIGHTED WITH THE SUCCESS OF HIS WORK IN SKEENA RIDING—LIBERALS WILL TRIUMPH.

Political organization for an attack upon the present Provincial government has been proved to be no longer a thing of difficulty. Walter Baer, the Liberal organizer for the outlying districts of the province, is more than satisfied with the results of his recent work in this riding. Owing to the excellent assistance rendered by the committee of the local organization, as well as to his own indefatigable energy and persuasive eloquence, Mr. Baer found his work was most successful. He has no doubt at all of the triumph of the Liberals in Skeena riding at the next election. The Conservatives have no more chance than the proverbial snowball in the heat belt, for their opponents have such men and such an organization as will carry them to certain victory.

Mr. Baer has been traversing the country in the interior as well as traveling up and down the coast. He has looked into every nook and corner where there was a possible Liberal vote, and he has made the nature of that vote without doubt Liberal.

Mr. Baer performed the remarkable feat of catching the boat from Granby and connecting with the other boat for the Queen Charlotte Islands. His advance agents having made the necessary arrangements, he went everywhere preaching the gospel of Liberalism. Catching the boat again, he went to Prince Rupert and thence to the north end of the island.

Here the excellence of the Liberal organization was manifested. Robert Entwistle, having been notified of the proposed arrival of the organizer, had taken pains to notify every nook and corner of the long Masset Inlet. So carefully had he planned his arrangements that when the launch, which was specially chartered, arrived at the various landings the "boys" were invariably there. It is hardly likely, indeed, that it is most probable, that not half

a dozen votes on Graham Island were missed.

To conclude the tour a rousing meeting was held at Masset. George M. Wilson was in the chair. Mr. Entwistle delivered an address and then Mr. Baer took the platform. He found himself the object for four and a half hours of a running fire of questions on the navy, on reciprocity, on almost every conceivable political problem. He found the work of his fellow Liberals and himself well rewarded when at the conclusion of the meeting a standing vote unanimously carried support of every principle adopted by the Liberal party in their platform.

Mr. Baer says that in his opinion no bribery or corruption, no deception or delusion, no Bowser fake schemes can cause any deflection of the really intelligent electorate of Skeena district from the principles of progress adopted by the Liberal party. The Liberals are sure to carry the riding.

Mr. Baer, who returned yesterday from a trip to the interior, left here again today on the Chelohsin. He is bound for Bella Coola.

"SIR THOMAS" AGAIN

Chief Vickers received by this morning's mail a card from Constable Shiel, written at Victoria. It reads: "Sir Thomas Lipton handed over to Vancouver police. The poor gentleman was very cranky."

This unfortunate man, who imagined himself now one person and now another, will no doubt be handed over to the authorities of the asylum for the feeble minded at New Westminster, from which it is presumed he escaped.

Captain G. E. L. Robertson, of the marine department, arrived this morning by the Prince George.

(Special to The Daily News.)

R. Mosher from Halifax. The department is inclined to think the conditions are not serious.

RUSSIA CUT OUT OF THE PULP FREE LIST

Most Favored Nation Treaty with United States Has Been Abrogated.

(Special to The Daily News.)
Washington, July 30.—Secretary of the Treasury McAdoo has announced that wood pulp and paper would not be admitted duty free from Russia, as the most favored nation treaty of commerce and navigation between Russia and the United States had been abrogated. The customs court recently decided that European countries having favored nation treaties with the United States were entitled to free wood pulp and paper entry, since the provision granted to Canada by the treasury department accepted the principle, but for the time being it would apply only to Austria-Hungary, Norway and Germany, which, aside from Russia, are the only countries directly involved.

DOMINION BUILDINGS

Proposal to Erect Headquarters in London

(Special to The Daily News.)
Ottawa, July 30.—A booklet has been forwarded to Canada outlining the plans for the erection of a great structure in London as the headquarters of all the self-governing dominions of the British Empire. The site selected is available as a central meeting place both for east and west London. The proposal is that this site be purchased by the several dominions acting together, and that buildings be erected to contain the offices of the dominions in London. The business advantages are said to be as great as its apparent disadvantage from the standpoint of imperial unity.

NEW RECTOR

Rev. G. A. Rix, who is coming to Prince Rupert, held his farewell services as Rector of Orangeville, Ont., on Sunday, the 20th. The church was packed, representatives of all denominations being present to show their appreciation of his ten years' ministry in the town, 164 communicants partook of Holy Communion as he administered for the last time in his old parish. He expects to arrive with his wife and two children a fortnight from next Saturday.

The congregation of St. Andrew's Church deeply regret having to part with Rev. E. G. Burch who has endeared himself to all, but realize that for the restoration of his health a prolonged rest is needed.

TO DEPRESS BONDS

Organized Campaign by United States Bankers.

(Special to The Daily News.)
New York, July 30.—The bankers have organized the campaign to depress the price of government 2 1/2 per cent. bonds demanded in a statement issued by Representative Henry Aide, the so-called insurgent Democrat on the house banking committee. Chairman Glass declared the committee had its hands full to consider the administration currency bill and did not propose to be diverted from it.

FISHERMEN'S GRIEVANCES

Will Be Heard at the Mass Meeting This Evening.

There is a movement on foot among the local fishermen to present their grievances before the minister of marine at the public meeting tonight. It is contended by them that the cannermen do not give them a fair show. Orientals are dealt with, they say, in preference to white men.

One of the fishermen who intends to speak tonight says that though he has just returned from a two months' trip the prices he received for his catch were such as to yield him no profit. He simply broke even with the cost of the trip.

"HE WAS EVER A FIGHTER" CAREER OF REV. MR. M'LEOD

THIS SKETCH OF THE POPULAR PASTOR WHO IS RETIRING FROM THE MINISTRY SHOWS THAT HE ALWAYS FOUGHT HARD FOR THE RIGHT.

Rev. Warren H. McLeod, the retiring pastor of the First Baptist Church of this city, was born at Norton, New Brunswick. He prepared for college in the St. John (N. B.) high school. After four years of life amid the charming environment of the Cornwallis valley attending Acadia University, Wolfville, Nova Scotia, he was graduated from the institution in June, 1895, at the age of 20. When he entered the university he had decided in consultation with his father to study law after graduation, but in his senior year he decided to enter the ministry. Upon the advice of the president of Acadia he became pastor of a home mission field covering sixty miles in Cumberland County, Nova Scotia. Here he built one church and repaired another.

The First Baptist Church of Amherst called him from this field as their assistant pastor. He resigned this work at the end of the first year and entered the Newton Theological Institution in Newton Centre, a suburb of Boston. He studied at that school for three years, graduating in the year 1901. While a student at

Newton he worked for two years in the evenings in the Stanford and Merrimac missions in the crowded quarters of Boston. This work was conducted by a band of five young men and resulted in great good. In preparation for this work he with others made a personal investigation of the work of the Jerry McAuley Water Street mission and the Bowery mission of New York City. During the senior year at Newton he was pastor of the Second Newton Baptist Church in addition to his studies.

After graduation he was called upon his previous record to an important church in the city of Hutchinson, Kansas, the great salt city of the west. The members of this church had neither seen nor heard Mr. McLeod before they called him. He remained with this work for two years and had the pleasure of receiving more than one hundred and fifty new members during his pastorate there. The call of the university life was the cause of his resignation from this field. Notwithstanding strong resolu-

MINISTER OF LABOR PLEASED WITH TRIP

Says Neither Side of Colliery Strike Seems Disposed to Give In to the Other.

(Special to The Daily News.)
Ottawa, July 30.—Hon. T. W. Crothers has arrived home from his trip to the Pacific coast, where he went particularly to inquire into the long standing difficulty among the miners of Vancouver Island. The crux of the trouble, said the minister, was the recognition of the United Mine Workers' Union, and neither side seems disposed to give in. The minister has appointed Samuel Price, K. C., to make a detailed inquiry and will await his report before taking action.

Notwithstanding the pessimistic reports that occasionally reach the east, he failed to find in the existing western conditions cause for any great alarm. He was pleased with the marvellous development of British Columbia. Everywhere he looked he saw the earmarks of prosperity. With great harbor developments and the proposed construction of new railways Vancouver would benefit greatly by the opening of the Panama Canal. The outlook generally was rosy.

WATER POWER CLAIMS

Enquiry Into Those in the Railway Belt.

(Special to The Daily News.)

Robins, assistant private secretary to the minister of the interior, leave the capital tomorrow for the coast. It is not yet clearly defined who owns certain water powers there, both the federal and provincial governments claiming ownership to several.

TRANSIENT FAVORITES AMONG THE BALKANS.

There has been a constant shifting to and fro of public opinion on the knotty problems which have from time to time been presented by the Balkan states. Now one state and now another has been the popular hero of Christendom.

Nearly a century ago Byron's championship of the Greeks against the Turks showed the sentiment of the Englishmen of the day. Sixty years ago the hero was gallant little Turkey, fighting against the tyranny of Russia. Thirty years ago half of England sided with the Turk, while the other half was stirred by Gladstone's eloquent description of the Bulgarian atrocities—

atrocities committed by Turks in Bulgaria. In the recent war in the Balkans the public opinion of Christendom at first was with the so-called Christian races, which had at last swooped down on the unspeakable Turk

and put an end to his savage and barbaric rule.

Then the nations that had beaten the Turk to the ground began to fight each other. There were more Bulgarian atrocities, this time committed by Bulgarians. Presently we shall hear that the Turk is not such a bad fellow after all.

The only way to think clearly on these questions is to keep your mind free from all racial, national and religious prejudices, and think of men, women and children as you would think of them if they were all Canadians.

The Balkan region seems to be full of savagery, which cannot be laid at the door of any race or any religion. It represents one of the failures of European civilization. The powers which have made some progress in civilization would have no difficulty in policing this region if they were not so mortally afraid and jealous of each other.

WHALING SEASON HAS BEEN SPOILT BY ROUGH WEATHER

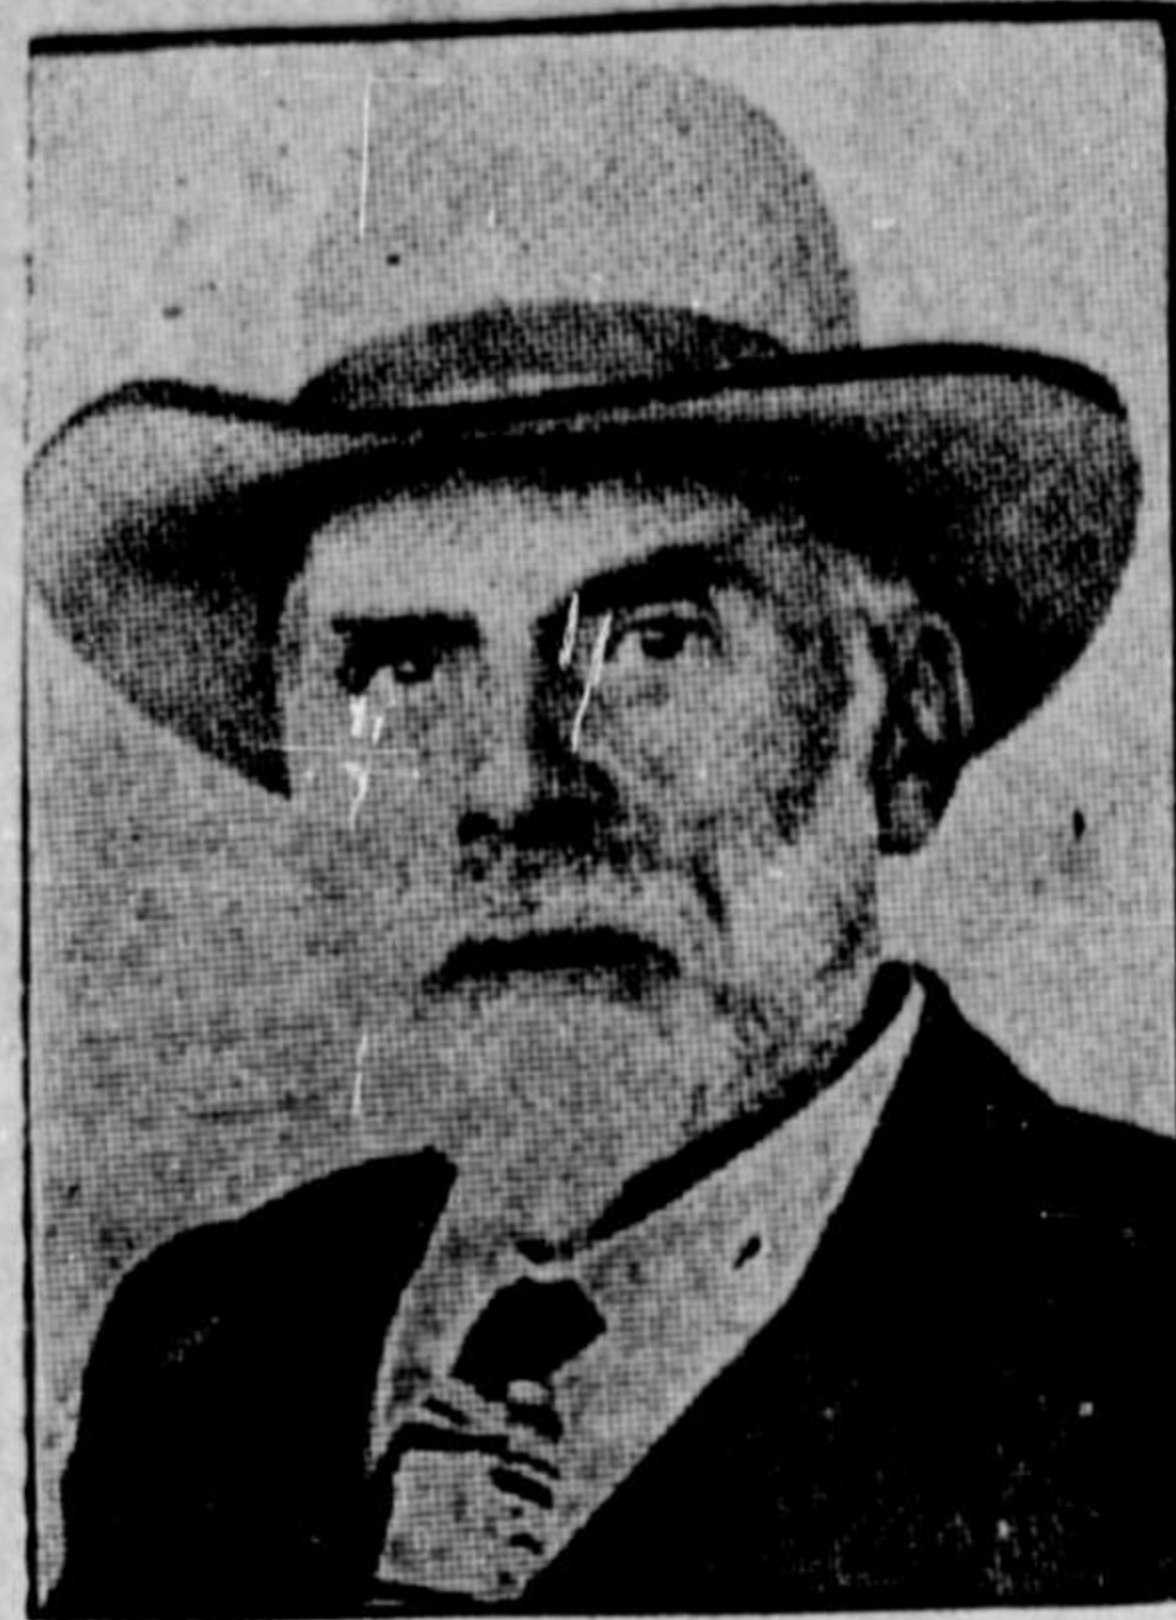

FEW WHALES HAVE BEEN TAKEN IN NORTHERN WATERS THIS YEAR AS AGAINST LAST YEAR'S CATCH—TOO MANY SOUTHEASTERS.

Bad weather in northern waters continues to interfere with the operations of whaling steamers working in conjunction with the Naden Harbor and Rose Harbor stations. Very few whales have been taken at these stations in comparison with last year's catches.

At Rose Harbor the whalers are running down as far as Triangle Island in pursuit of the whales. Naden Harbor has piled up a small catch and the prospects

that this will be the poorest season since its inception.

If the weather would keep clear, as at present, and give the whalers a chance to follow the big game the totals might be increased considerably. As long as southeasters continue to howl the catches will grow very slow. Whales in Pacific coast waters are not nearly so plentiful at the present time as they were a few years ago. Big hauls made by the whalers in the past have thinned them out considerably.

DISGUISED AS A MAN, GIRL WINS LOVE OF HER RIVAL

WHEN SHE WAS JILTED BY HER FIANCEE THIS WILY DAMSEL UNDERTOOK THE DESPERATE ADVENTURE OF CAPTURING HER RIVAL'S HEART.

Wheeling, W. Va., July 26.—Harry Pendleton refuses to say whether Henrietta Aiken, a belle of Bridgeport, Ohio, has permitted him to resume his courting. For more than two years Harry was engaged to Dessie McIntyre, of this city. Recently he changed his affections to Miss Aiken. Angered by the tricks of Cupid, Miss McIntyre thought she would go the little love god one better. She went to Bridgeport, cut her hair short and donned the attire of a modern Beau Brummel. Dessie lost no time in making the acquaintance of Miss Aiken, and immediately began a rapid fire courtship that swept Pendleton completely out of the running. Henrietta dismissed Harry and allowed the masquerading Dessie to monopolize her. When Dessie was certain her trick had succeeded she disclosed her real identity to the horrified Henrietta and then returned to Wheeling.

BRIDE WHOSE LIFE WAS THREATENED

Sir Joseph and Lady Tichborne on their way from church after their marriage. The day before this event, Lady Tichborne, then Miss Greville, received a letter threatening her life if she married Sir Joseph. The writer was Miss Theresa Douglas-Tichborne, daughter of the famous "claimant" for the Tichborne estates 50 years ago, when the trial of the suit was the sensation of England for several months. The father of the present Sir Joseph was then an infant, and the claimant represented himself as the uncle whom everyone thought had been lost at sea. He served a term of 14 years for perjury after the trial was over. His daughter Miss Theresa, was this week sentenced to six months' imprisonment for sending threatening letters to Miss Greville, the bride-to-be.

FISPA ARRIVES

New Government Steam Launch Brings Local Member.

There is now lying at the Government wharf the Fispa, a new vessel belonging to the Dominion department of marine. It is a neat, trim little vessel, admirably adapted for carrying government dignitaries and officials on short jaunts. It is under the charge of F. Cunningham, the general inspector of fisheries for this coast.

The Fispa last evening brought in H. S. Clements, M. P.; D. N. McIntyre, the deputy commissioner of fisheries for the province, and Mr. Cunningham himself. Mr. Cunningham has recently been making an inspection of the canneries.

To Moricetown.

This morning's train was the first passenger train to run from Prince Rupert to Moricetown on the regular schedule. On Saturday the train had, indeed, to go through, but that was only in order that it might start on its run from Moricetown on Sunday, as scheduled.

Revolutions—Always misfortunes, and greater evils than the abuses against which they are directed.—Luthardt.

organized in Prince Rupert. He resigned the pastorate in Woodstock and his resignation was accepted in August, 1910. He arrived in this city in September, 1910, and has carried forward the Baptist work ever since. The new church building, dedicated this week, is the result of his untiring efforts and is a credit to the city.

Mr. McLeod has been specially interested in work among young men. The Baptist Brotherhood in our city is one of the best organizations of its kind. It is especially enthusiastic in athletic work, capturing about 60 per cent. of the first prizes last field day. Mr. McLeod has continuously urged the city to provide an athletic park and recreation grounds and was appointed secretary of the park commissioners last year.

Mr. McLeod has resigned the pastorate of the church here in order to enter the profession of law. He leaves for Victoria about the first of August to commence his studies. All his friends, and they are many, wish Mr. McLeod the best of success in his new profession, for which his many character and vigorous intellect admirably adapt him. With his departure Prince Rupert will lose one of its most popular citizens, and one of those who has done most for the moral betterment of the community.
