CASTRO STARTS REVOLUTION IN VENEZUELA—SCORES INJURED BY STORM IN WASHINGTON

THE NAVAL QUESTION

Devoting some fifteen or twenty minutes of his speech last night to a defence of the Borden naval policy, Hon. J. D. Hazen possibly succeeded in making a few of the rank and file believe that Canada has been grossly humiliated in the eyes of the world by the action of the senate in throwing out the naval bill. The honorable gentleman might have strengthened (?) his position materially had he quoted the following extracts from speeches made by some of the most prominent Conservatives in Canada, including Rt. Hon. R. L. Borden himself:

"No policy will be satisfactory to the people of British Columbia which does not include a substantial and prompt contribution and the ESTABLISHMENT OF A FLEET UNIT ON THE PACIFIC COAST."—Sir Richard McBride.

"In so far as my right honorable friend, the Prime Minister, today outlined the lines of naval defence of this country, I am entirely at one with him. I am entirely of the opinion, in the first place, that the proper line upon which we should proceed in that regard IS THE LINE OF HAVING A CANADIAN NAVAL FORCE OF OUR OWN. I entirely believe in that."—Mr. Borden (Hansard), March 29, 1909.

"I think that an expenditure of money designed for that purpose (local naval defence) OUGHT IN THE MAIN AT LEAST TO BE UNDER THE CONTROL OF OUR OWN PARLIAMENT, and that by making an appropriation of this kind and attending to the defence of our own coasts by co-operation and co-ordination with the Imperial naval forces we would be rendering a real service in the defence of the Empire, and we would be doing our duty not only to Canada but to the Empire as a whole."—Mr. Borden, March 29, 1909.

"It has been suggested that instead of the organization of a Canadian naval force there should be a system of annual contributions from this country to the Mother Country, and I am free to admit that from the strategic point of view I would be inclined to agree with the view of the admiralty that this would be the best way for the great self-governing dominions of the Empire to make their contributions. But, sir, from a constitutional and political standpoint I am opposed to it, for many reasons. In the first place, I do not believe that it would endure. In the second place, it would be a source of friction. It would become a bone of partisan contention. It would be subject to criticism as to the character and the amount of the contribution in both parliaments. It would not be permanent or continuous. It would conduce, if anything would conduce, to severing the present connection between Canada and the Empire.

"Permanent co-operation in defence, in my opinion, can only be accomplished by the use of our own material, the employment of our own people, the development and utilization of our own skill and resourcefulness, and above all, by impressing upon the people a sense of responsibility for their share in international affairs."—Hon. R. L. Borden, in the house of commons, Jan. 12, 1910, before he won with Nationalist votes.

JUDGE YOUNG ALLOWS APPEAL
IN THE SUIT OF H. O. RICHER

COUNTY COURT MAKES FURTHER REDUCTION IN ASSESSMENT FROM THAT MADE BY COURT OF REVISION—SAYS ASSESSMENT IS UNEQUAL.

The following judgment in the case of H. O. Richer versus the city of Prince Rupert was delivered this morning by Judge Young of the County Court:

"This is an appeal from the Court of Revision against the assessed value of Lots 15 and 16, Block 24, Section 1. For the purposes of taxation, and shall be estimated at its actual cash value. The value assessed by the assessor on these lots was \$42,000. This was reduced by the Court of Revision to \$39,000. The owner contends that this valuation is still unfair and inequitable, and I think he is just grounds for complaint. I find that the four double lots on Third Avenue and Seventh Street, Lots 1 and 2, Block 32, and 13 and 14, Block 34, Lots 23 and 24, Block 23 have been assessed per front foot approximately at \$652, \$717, \$800 and \$80, respectively. On what principle such differences in value are determined I am unable to discover.

"As a matter of fact, in view of the newness of conditions which exists here, comparative values are in a great measure a matter of opinion and unless it can be shown that there is some present established condition which is bound in all reason to be permanent, I cannot see why a distinction should be made between adjacent properties such as the one mentioned.

"To hold otherwise would be to discriminate between owners, more particularly in the matter of the tax for local improvements, which should, unless there is some substantial reason to the contrary, be borne equally by owners occupying the same relative positions.

"In the present appeal I have not the power to equalize the assessment between the properties mentioned, but nevertheless I can see no reason why the principle which I have enunciated should not be applied in favor of the owner who has taken advantage of his right of appeal. Appeal allowed and the value of the lots in question fixed at \$36,450 with costs.

"The respondents to pay costs, which are fixed at \$30."

Office Closed

The office of C. H. Handasyde will be closed until August 13th owing to absence from the city.

CASTRO HAS STARTED
ANOTHER REVOLUTION

Cables Notification to Political Exile in New York Named General Hernandez.

(Special to The Daily News.) New York, July 31.—Confirmation of the report that ex-President Castro had again broken out in revolutionary activity in Venezuela has been received in a cablegram this morning received here by General Manuel Hernandez, once the leader of the Liberal party in Venezuela and now a political exile. The message reads:

"Castro's followers have begun invasion."

Upon its receipt the exiled general observed: "This is just what I expected." No further particulars of Castro's activities have been received.

INCENDIARY FIRE

Big Lumber Mills at Lethbridge Totally Destroyed.

(Special to The Daily News.) Lethbridge, July 31.—Fire with the appearance of incendiaryism broke out in the yard of the Western Canada Lumber Company at Baroles yesterday morning. The yards are a total loss with all buildings and two hundred thousand feet of lumber burned. The damage is \$150,000, covered by insurance.

PRISONERS ON PAROLE

Four Hundred Appeals from Western Provinces

(Special to The Daily News.) Winnipeg, July 31.—W. P. Archibald, the parole officer, is now in Winnipeg, having completed his inspection of the penitentiaries at Stony Mountain and other points. He interviewed seven hundred convicts who hope to be released under the new parole system and states that he received no less than four hundred appeals from the western provinces.

AN ARMISTICE

SEVENTY FOREIGNERS
KILLED BY BULGARS

It Is Reported That Englishmen and Americans Were Massacred at Xanthi.

Paris, July 27.—A telegram from Saloniki, printed in the Paris edition of the New York Herald, says the Greek army occupied Xanthi on Saturday and reported that the inhabitants, including Americans and Englishmen, were massacred by the Bulgarians. Seventy of the foreigners are said to have been put to death.

Twenty thousand Greeks and many Mussulmen and Jews are reported to have perished in the town, which was pillaged by the Bulgarians.

No confirmation of the reported massacre has been received from any other sources.

LIBERAL IS ELECTED

Conservatives Defeated in the Athabasca Election.

(Special to The Daily News.) Edmonton, July 31.—With eight out of twelve polls to hear from in the deferred provincial election at Athabasca, Hon. A. G. MacKay, Liberal, has a majority of 141 against the Conservative candidate, Mayor J. H. Woods. The remaining polls will not be heard from for several days, but MacKay's election is conceded by the Conservatives.

BRITISH SHIP MISSING

PLANS TO CLOSE THE
MEXICAN REVOLUTION

Will Do It in Ninety Days if the United States Will Allow Them Munitions.

(Special to The Daily News.) Nogales, July 31.—Venustiano Carranza, the Mexican rebel chief, has wired their Washington agents that he would pledge to make peace in Mexico within ninety days if the United States government would grant the Constitutionalists the right to import arms and war munitions freely.

Los Angeles, July 31.—Shouting "death to Diaz," a strong contingent of rebel sympathizers gave a riotous reception to General Diaz, the instigator of the rebellion in Mexico City which culminated in the death of Madero. A platoon of police with drawn clubs drove back the crowds.

I. W. W.'S USE THREATS

Secretary of Navy in Receipt of Menacing Letters.

(Special to The Daily News.) Helena, Mont., July 31.—As a result of Secretary of the Navy Daniels' patriotic utterances on his visit to Seattle recently and the riots which ensued, the head of the navy is the recipient of several menacing letters from members of the Industrial Workers of the World. The secretary has no fear of harm coming to him, his aide, however, is taking extra precautions to safeguard him.

MORE MOUNTED POLICE

Batch of One Hundred Recruits from England

(Special to The Daily News.) Ottawa, July 31.—One hundred recruits for the Royal Northwest Mounted Police have been secured in England and are now arriving in hatches. This will bring the force up to about 750, the great bulk of whom are old countrymen.

Drowning Accident.

(Special to The Daily News.) St. John, N. B., July 31.—Three young women have been drowned through the capsizing of a boat on Lake Loch Lomond. Three others were rescued after they had clung to the upturned boat for two hours.

NEW VESSELS COMING FOR
COAST FISHERIES SERVICE

THE MINISTER OF MARINE SPEAKS OF WORK BEING ACCOMPLISHED FOR PACIFIC COAST FISHERIES—MR. CLEMENTS DENOUNCES CANNERYMEN.

The most important part of the speech delivered by Hon. J. D. Hazen last night at the public meeting at the Empress Theatre was that in which he dealt with the fisheries question.

Mr. Hazen said that yesterday morning he had inspected the fine cold storage plant at Seal Cove and today would visit the Skeena River, and later the Naas River and the Queen Charlotte Islands. He would thus be much better able to judge of the needs of the fisheries here than if he had only studied reports.

He said that he had taken the opportunity of asking parliament in the session of 1912 for the money for two modern vessels to protect the fisheries on the Pacific coast. These were now under construction by the Dublin Dockyards, Ltd., of Dublin, Ireland. The vessels were named, respectively, the Melespina and the Galiano. They were 160 feet

long and 20 feet 6 inches beam. They had a displacement of 700 tons and speed of 14 1-2 knots. The first of these vessels was to be delivered at Esquimaux, ready for service, by November 30 of this year and the second by February 15, 1914.

As work on the hydrographic surveys has not proceeded very rapidly a new hydrographic survey vessel is now being constructed at the Wallace Shipyards in North Vancouver. She will be delivered in August.

Six new fishery patrol boats were either already built this year or were now under construction. This would soon make a total of sixteen fishery patrol boats on the Pacific coast. If this number was found to be insufficient, more would be added.

Mr. Hazen also spoke of the desirability of having white fishermen. He said that he understood

DECLINES TO ACCEPT GIFTS
OF POST OFFICE EMPLOYEES

POSTMASTER GENERAL PELLETIER PUTS HIS FOOT DOWN—CHANGE IN INTERCOLONIAL RAILWAY SITUATION—INTERNATIONAL WATERWAYS CASE

Ottawa, July 31.—There will be no presentation to Postmaster General Pelletier by employees of the post office department, as stated some time ago. The movement to this end started in Dr. Coulter's department. Mr. Pelletier states that this intention on the part of the employees was unknown to him, and absolutely without his consent. The moment the matter came to his notice he sent a statement that it was not his intention to accept gifts from the employees under any circumstances.

Ottawa, July 31.—There are no new developments of interest in the intercolonial railway situation so far as Ottawa is concerned, and no application has been made in the lumber interest to the railway department for a board of conciliation. No intimation has been received of any trouble at Moncton, where General Manager Gaultier is in full control of the affairs of the road.

The government has retained C. S. Morris, K. C., of Toronto, to

prepare a case to be submitted to the international waterways commission on the injury to Ste. Marie river and to Sault Ste. Mary that the projected dam of the Michigan & Lake Superior Power Company would work. Numerous objections have been raised to the dam, one of the most important of which is that it would lower the water a foot on the Canadian side, and thus work harm to power projects and to navigation.

STORM AT CAPITAL

Brings Death, Destruction and Injury.

(Special to The Daily News.) Washington, July 31.—Like a giant cyclone a storm of wind, rain and hail whipped back and forth across the capital yesterday, leaving death in its wake. Three are dead, scores are injured and many hundred thousand dollars' worth of property has been ruined as a result.

DAILY EDITION

Thursday, July 31, 1913.

LOYALTY TO ITS PARTY

It was amusing in last night's edition of the local jeremiad, how that sheet decked itself up for the occasion in the guise of a solid political organ. It did its best to present itself before the eyes of the visiting cabinet minister as an imposing monument of Conservative opinion. But it did not succeed in passing itself off as a monument of anything. It was seen only as a tombstone erected to commemorate the past political defeats of its editor.

In the first place it had something choice about the "machine organ" in that coffin-like article in the front page wherein is usually to be found the corpse of the last mayor's hopes, in such a state of festering and corruption as to be a constant annoyance to the public nostrils. But yesterday the corpse was removed, the coffin cleaned out, and something new was put in. What was it? Well, on inspection it looked very much like the phonograph record of a puppy's squeal when its tail is stepped on.

Then there was that fine article about Mr. Hazen, with a two column head line on the front page, and a portrait of the minister on the last page. Even more than the yelp from that coffin-like dog kennel, this article was calculated to instil in Mr. Hazen a belief in the party loyalty of The Empire.

But is there indeed any great party loyalty in The Daily Pessimist? It is more than doubtful, for surely, if such existed, the ghost of dead hopes for parliamentary honors would arise from the tomb and offer its most distinguished considerations not only to Minister Hazen but to the party's representative in this riding.

AUSTRALIA'S WARSHIP SHOULD VISIT RUPERT.

It has probably already occurred to the Board of Trade that it would be a move in the

right direction to invite Australia's new warship, the New Zealand, to pay a visit to this port; if no such action has been taken by the board, let us hope that it will be. The New Zealand, in its trip around the world, is the representative of Australia and is intended not to represent the fighting force of that Dominion so much as its resources and commercial standing. Whatever affects the material progress of Australia is the most important part of the New Zealand's commission, and therefore, as Prince Rupert is one of the nearest shipping ports on this continent to Australia, the commander of the warship would no doubt be pleased to come in touch with us. He has undoubtedly recognized the important part this port will shortly play in the maritime business of Australia in the interchange of the products of the two leading Dominions under the British Crown and in the extension of their trade. His visit here will prove to him that Prince Rupert ranks second in the British ports on the Pacific and that because of its strategic position it is bound to become the first so far as the trade with the Antipodes is concerned. To verify such important economic facts as these is one of the important objects of the New Zealand's peaceful mission around the world.

In the government organ's report of the Conservative meeting last night we read: "H. S. Clements, M. P., being introduced." This is conceding the fact that the member for this riding does need an introduction to a Prince Rupert audience, as he is not a resident, not even of the riding he represents. He makes his home in Vancouver and to all intents and purposes is a parliamentary representative of Vancouver more so than he is of Prince Rupert.

The grand master at Philadelphia has suspended two thousand Twelfth of July celebrators. His action is tantamount to saying that an orange can hold too much juice.

GERMANY UPSETS THE PLANS OF RUSSIA TO RESTRAIN THE TURK

FLATLY DECLINES TO JOIN NAVAL DEMONSTRATION TO BE MADE OFF CONSTANTINOPLE, WHILE GREAT BRITAIN AND FRANCE REPLY EVASIVELY.

St. Petersburg, July 26.—The proposal made by the Russian government that a joint naval demonstration be made off Constantinople to coincide with the mobilization of Russian troops in the southwestern province has been abandoned. Germany flatly declined to consider the plan, and Russia's allies, Great Britain and France, replied evasively.

Russia is unable to assume the task single handed of bringing pressure to bear on the Turks in Europe, and she is unwilling to do so in Asia Minor, realizing that such a course would encourage an Armenian uprising, which would only further complicate the Turkish problem.

Owing to the breakdown of the European concert the Russian government sees no hope of ar-

resting the Turks by force. No military or naval preparations are proceeding at present. Russia, however, may land a force at Burgas, a Black Sea port, 76 miles northeast of Adrianople, for the protection of lives and property of Russian subjects, if the Turks march in that direction.

At a council of ministers today it was agreed that the Russian government had done its utmost to avert further bloodshed in the Balkans, and that if the progress of the military operations led to wholesale massacres in that region the responsibility would rest on the other powers.

The Russian policy, it is understood is now entirely concerned with patching up a new Balkan league, including Roumania, as the sole means of arresting the Turkish advance.

WOULD-BE TRAIN ROBBERS FORGOT TO BRING POWDER

EAST BOUND TRAIN IN MONTANA WAS HELD UP BY BANDITS WHO LOST THEIR OPPORTUNITY THROUGH CARELESSNESS.

Mome Stake, Mont., July 28.—The eastbound North Coast Limited on the Northern Pacific was held up by three masked men early this morning a mile and a half west of Home Stake.

The attempt resulted in a farce for the would-be robbers obtained nothing.

Stopping the train with torpedoes, obtained from a bridge watchman whom they had held up shortly before the Limited was due, the desperadoes compelled the engineer and train crews to uncouple the engine and express car from the balance of the train and proceed ahead, leaving the train on the other side of a tunnel about 400 feet distant.

When the engine was brought to a stop, one of the outlaws enounced that he had forgotten to bring the "giant" along, and that the powder was back with the train. The incident brought forth snickers from the trainmen which were stopped by the firing of shots.

The bandits then disappeared among the rocks, and it is stated, they left the scene on horseback.

The bandits had cut the telegraph wires, and it was some

time before word could reach the authorities of the attempted robbery. Sheriff Driscoll and a posse are en route to the scene from Butte.

His Lordship's Beard.

A certain peer, who had a very long and very bushy beard, had dismissed his valet for the night. Shortly afterward, however, he was much annoyed to hear peals of laughter from below, and called back the man to explain. The valet answered that it was just a little joke, but his lordship would have none of it and demanded the details angrily.

"Well," admitted the man with reluctance, "it was really a little game we were having, my lord."

"What game?"

"Well, my lord, a kind of guessing game."

"Don't be a fool, Waters! What guessing game were you playing? Guessing what?"

"We blindfolded the cook, to tell the truth, my lord, and then one of us kissed her and she had to guess who it was. The footman held up the mop and she kissed it, and then cried out: 'Oh, your lordship! How dare you!'"

GEOLOGICAL GUIDE BOOKS FOR VISITORS

Produced for Geological Congress, Members of Which Will Visit Here in September.

For use of those attending the geological congress in Canada this year, the Geological Survey has prepared a very remarkable set of guide books. All the producing mining districts and areas presenting interesting structural features are described and mapped. The country along the whole length of the transcontinental railroads is described briefly and illustrated by maps that illustrate the noteworthy features, without being encumbered with a maze of unimportant detail. The guide books contain 140 such maps, and will for years be a valuable source of information. The maps of the whole country have been brought up to date and published in attractive and convenient form.

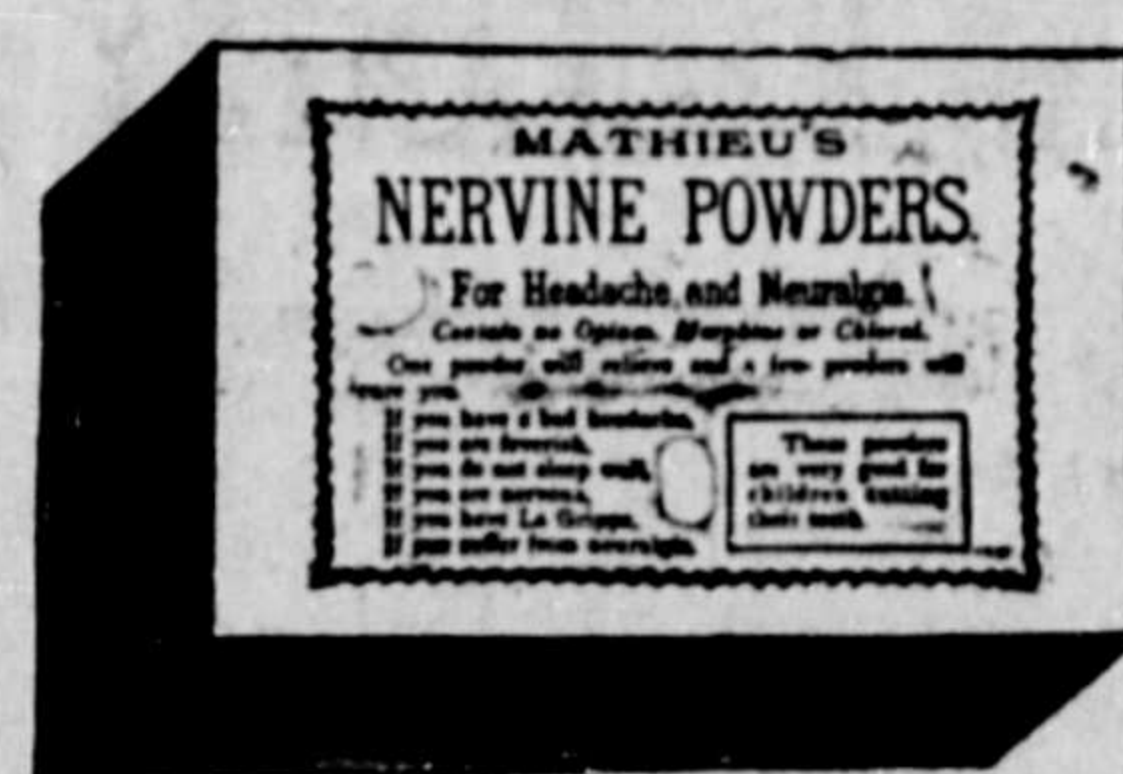

The undertaking was a gigantic one, but it has been very successfully accomplished. Director R. W. Brock and the whole staff of the Geological Survey have made a splendid success of the work, and the government printer has shown that Canada has facilities for turning out such work in a remarkably short time. To publish such a large number of maps and accompanying text without taking several years for the work was only a few years ago considered quite impossible. It is therefore very creditable to find that Canada has prepared for our European visitors the best set of guide books yet issued by any country.

KING PRESIDES AT SCENE OF POMP AND PAGEANTRY

ORDER OF THE BATH HOLDS ITS FIRST CHAPTER SINCE THE YEAR OF WATERLOO—ONE OF THE OLDEST ORDERS OF CHIVALRY

London, July 26—King George's love of pageantry was again shown today when he presided over a chapter of the Order of the Bath in King Henry VII's chapel, Westminster Abbey. The order of the Bath is the second oldest of the orders of chivalry, having been founded in 1399, 50 years after King Edward III. had instituted the Order of the Garter.

The ceremony of installing the Knights Grand Cross and the Knights Commanders in their respective pews, over each of which waved the silken banner of the occupant, was private, but was most impressive. Thousands of spectators gathered outside the abbey to watch the arrival of the knights, who made a brave show in the long red velvet cloaks, jewelled collars and star of the order. The Duke of Connaught, as Grand Master of the Order, occupied the place of honor on the King's right and among the distinguished knights grand cross (G. C.) grouped around the royal pew were Cromer, Brassey, Roberts, Grey, Dudley and Clarendon.

The Dean of Westminster, as dean of the order, officiated at a short religious service, and the muster roll of the knights was called by an official who has not been needed since 1815, when the last chapter was held. This was Bath King-of-Arms, a gorgeous

figure in golden tabard, the present holder of the post being Sir Spencer Ponsonby-Fane, a well-known member of the Royal household.

Bank Man Gets Promotion.

The Bank of British North America announces the appointment of Mr. Jackson Dodds to be secretary of the bank, with headquarters at London, England, in succession to Mr. A. G. Wallis, who retires on pension after a service of 46 years, during 32 of which he filled the post of secretary. Mr. Dodds, who is the third son of Jackson Dodds Sr., for many years collector for inland revenue for the City of London, was born in 1881 and educated at the City of London School. After four years' service at the London, England, branch of Comptoir National d'Escompte de Paris, he entered the service of the Bank of British North America in February, 1901, at Halifax. He was subsequently stationed at the Montreal, Ottawa, Brandon and Darlingford branches. In 1907 he was appointed manager at Reston, Man., and in 1909 assistant manager at Vancouver. In February, 1911, he was appointed assistant secretary at London. Mr. Dodds, who is well known on this side of the water, was recently in Canada and paid a visit to the most important branches of the bank.

Money makes the man who makes the money.

MASSET NOTES

Chas. P. Nutter, J. M. McDonald and Milner Roberts, who represent a Seattle firm, arrived in town recently. These men are making a close examination of coal measures in the vicinity of camp Robson.

The first marriage in the history of Lawn Hill was celebrated on Tuesday, July 22, when Mr. Nicholas Schaffer, of Southeast harbor, and Mrs. Lucy Bruce (nee Rose) of Skidegate, were joined in matrimony.

Seventy-five boats left for the Tlel river and Copper Bay last week. A scow will convey the dog fish livers from the bay to the oilery, which is working full blast completing an 80-thousand gallon oil order.

Masset's new lock-up, now building, will contain two steel cells for the prisoners and a stockade in the rear for exercising. Quarters are also provided for two constables. About 20,000 feet of lumber will be used in its construction.

Contractor Chris Hunsby has completed his undertaking of digging the West narrows. The contract called for completion August 1, thus enabling boats of the B. C. Fisheries Co. to make quick trips at low tide from the west coast halibut grounds. Over 1800 cubic yards of material was removed and banked.

THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

SUN YAT SEN ESCAPES THE DEATH PENALTY

Rebels in Chinese Revolt Likely to Be Pardoned by President Yan Shi Kai.

(Special to The Daily News.)
Peking, July 31.—It is anticipated that all rebels pledging alliance to the government will be pardoned under a proclamation to the misguided people issued by President Yan Shi Kai at the beginning of the revolution. The leaders of the revolt, however, must now flee for their lives. Throughout China Dr. Sun Yat Sen has many sympathizers, both amongst Chinese and amongst foreigners. It would not be surprising, therefore, if Kai pardoned him. His name is conspicuously absent from the presidential order sentencing the other three instigators of the revolt to death.

SMALL FIRE CAUSED A LOT OF TROUBLE

Telephone System of Montreal Has Been Disorganized for Some Days.

(Special to The Daily News.)
Montreal, July 31.—Working relays of expert electricians are rapidly restoring the Bell Telephone system to its normal state. From the damage done by an unimportant blaze which started on Tuesday afternoon the heart of the system has been entirely disorganized. The service is far from being repaired. The service will be working by Friday morning, when offices open for business.

MORE FIERY DEBATES ON NEW TARIFF BILL

Republicans Are Charged with Attempting to Create a Panic by Their Speeches.

(Special to The Daily News.)
Washington, July 31.—The Republicans and Democrats clashed again in the debate on the Underwood-Cummins tariff bill when Senator Stone charged the Republicans with deliberately attempting to bring a panic in speeches attacking the pending measure. The Republican leaders denied the intention to bring about a disaster and declared they feared that it would actually result after this oratorical storm. The earthenware schedule has been completed, except a few paragraphs which were passed. The metal schedule has been taken up.

"THE GIRL IN THE TAXI"

One of the Best Comedies Ever Seen at the Westholme.

The Griffith players certainly outdid themselves last night and gave their large audience not a single moment to rest their risibles. It is a skit on high life in New York, in which the husband and fathers, and even the budding son, sneak out of their rooms at dead of night to play high jinks on the Great White Way. When the upright father, who is held up as so worthy an example, in an effervescent state of jollity misses his private supper room and strolls into one where his very young hopeful is taking supper with a pretty young married woman who is a guest at his home, the situation between father and son can be better imagined than described. The other married people of the play also get into the most laughable scrapes with comical denouements, and Mariette, the maid to Mrs. Stewart, is one of the wittiest, naughtiest and most charming of French soubrettes ever seen here.

All the characters were cleverly sustained and the toilettes of the ladies are distinctly up to the modes one would expect to meet with in the cabarets and lobster palaces of the famous Broadway "The Girl in the Taxi" will be repeated this evening.

NEW VESSELS COMING FOR COAST FISHERIES

(Continued from page 1)

that many had not learned in time this year that a number of licenses were reserved for independent fishermen until March 15. More publicity would remedy this next year, although the time might be extended till June 15th.

The fisheries, he said, should be watched carefully, and if it was found that they were being depleted experts should be employed to devise the best means of protecting them.

H. S. Clements, the member for Comox-Atlin, also spoke considerably on the fishery question. He declared that Prince Rupert ought to be one of the greatest fishing centres in the world if only the proper care were taken. White fishermen must be encouraged. No twelve canneries should control the fishing interests. For his part, Mr. Clements said he was doing his utmost to convert Northern Pacific coast fishing into a white fishermen's industry. Concerning the change in the matter of licenses, he thought that every white fisherman who applies should get a license on the 15th of June.

The cannermen, he said, had not given proper assistance to the departments. They had acted throughout in a most selfish manner. On the other hand, Captain Newcombe and the other officials of the department had done fine work in protecting the fisheries.

Mr. Clements suggested that an appropriation might be made for the purpose of studying the habits of fish in these waters.

Short addresses were also delivered by William Manson, M. P. P.; Senator Thorne of St. John, N. B., and Acting Mayor Dybhavn.

FEDERAL BUILDING

Work Will Be Started on It Very Soon.

Mr. Clements, when addressing the meeting at the Empress Theatre last evening, publicly announced that the plans for the federal building here had been approved. The building was to be of a value of from \$175,000 to \$200,000. Work was to be started shortly on the erection of the building. Mr. Clements said also that he would endeavor to secure an addition to the allowance of \$35,000 which had been made for the drill hall. Work would be started on this as soon as the deed for the land was handed over by the city.
