### LORD STRATHCONA'S NINETY-THIRD BIRTHDAY—PEACE IN BALKANS ONCE MORE ASSURED

#### SEEK TO PROVE GREAT LAKES ARE LOWERING THEIR LEVEL

RESULT OF DRAINAGE OPERATIONS WILL BE DEMONSTRATED BY PRACTICAL TEST—SHIPPING CIRCLES ARE KEENLY INTERESTED.

Montreal, Aug. 4.—The claim which has frequently been made by shipowners and others, and which has been confirmed to a considerable extent by official records kept by the marine and fisheries department and by the harbor commissioners, that the level of the river and Great Lakes is being constantly lowered, principally by drainage operations on a large scale, is about to be subjected to a practical test which should prove convincing to the most skeptical.

According to information obtained today from Thomas Robb, secretary of the shipping federation, the gauges between Port Arthur and Quebec, which are to be used in making the test, are now all in position, their laying having been carried out under

the instructions of the special commission appointed to make the required tests.

This commission consists of Professor Haskell, of Cornell University; W. V. Forneret, chief engineer of the ship canal, and W. J. Stewart, chief hydrographer to the marine department.

As the United States minister of war did not grant the application made by the Chicago drainage authorities last year for permission to increase the quantity of water they are entitled to take from Lake Michigan, and as it has been admitted that more water is being taken than is legally permissible, the results of the practical tests which are about to be made are awaited with interest in local shipping circles.

#### QUARTER MILLION IN GEMS STOLEN DURING ONE DAY

DETECTIVES ARE WATCHING HOUSE NEAR PROVIDENCE, R. I., WHICH IS SUPPOSED TO BE "FENCE" FOR GANG OF SUCCESSFUL THIEVES.

Narragansett Pier, R. I., Aug. 4.—Private detectives are watching a residence in a suburb of Providence. This home is the long sought "fence" for the gang of thieves who obtained more than a quarter of a million dollars' worth of jewelry here during the twenty-four hours ending last Saturday at midnight, according to the theory of one of the four detective agencies engaged in the case. The man in the house cannot escape surveillance, but the police have no positive evidence upon which to proceed against him.

Another detective agency is watching a house in South Bos-

ton, believing it to be either the headquarters of the jewelry stealing band or the home of their agents.

Mrs. J. H. Hanal, who lost \$150,000 worth of jewels, has placed her case in the hands of a firm of detectives at Providence. New York detectives are entrusted with the mission of recovering the jewels of Mrs. Charles Rumsey, stated to be worth \$125,000. Several detectives are still in town, but a great number who have been here were sent to New York, Boston and other points to which more or less vague clues led.

#### SKETCH OF PRINCE ARTHUR AND THE DUCHESS OF FIFE

SOME FACTS CONCERNING THE ROYAL PAIR RECENTLY ENGAGED—THE DUCHESS PREFERS OUTDOOR SPORTS TO SOCIAL WHIRL.

Prince Arthur Frederick Patrick Albert, who is engaged to the Duchess of Fife, is the only son of the Duke of Connaught, and was born at Windsor Castle on January 13, 1883. Like his father, he was brought up to a military career. On leaving Eton he passed through Sandhurst, and was gazetted as a second lieutenant in the 7th (Queen's Own) Hussars in 1904. Two years later he joined his regiment in South Africa, but was invalided home. He has also served with the Royal Horse Artillery, and now holds the rank of captain in the Royal Scots Greys. When his father was commander-in-chief in the Mediterranean Prince Arthur served on his staff. He is also A. D. C. to the King.

During the minority of the Prince of Wales and in the ab-

sence of the Duke of Connaught in Canada and elsewhere Prince Arthur has been the chosen representative of the King on many occasions, both at home and abroad. He has undertaken important missions to most of the capitals of Europe and to several farther afield. Among the most important was his journey to Japan in 1906 to invest the late Mikado with the Order of the Garter, of which he is himself a knight. While the King and Queen were out of the country on the occasion of the Delhi Durbar, Prince Arthur was the head of the council of state, which represented His Majesty.

Among varied distinctions the prince holds those of being the youngest privy councillor, an elder brother of Trinity House, a

#### WHOLESALE GRAFT CHARGES AGAINST MONTREAL FOREMEN

ONE OF CITY FOREMEN HAS BEEN ALREADY PUT IN CELLS—HE PUT FORTUNE IN BANK—OTHER ARRESTS LIKELY TO FOLLOW.

Montreal, Aug. 4.—Petro Ceilli, a foreman employed by the city, was placed under arrest late yesterday afternoon on a warrant technically charging him with obtaining money under false pretenses. The arrest is the outcome of wholesale charges of graft among city foremen, intimations being made that city laborers were compelled to pay for their jobs.

Ceilli was taken to police headquarters and searched. A bank book showing deposits during the present month of \$1,000 were found on him, as well as \$76 in cash. Notwithstanding his protest, he was locked in the cells, where he will be compelled to remain until he is arraigned today.

Other arrests are likely to follow shortly. The warrant for Ceilli's arrest was issued after a consultation between Controllers Lachapelle,

Godfrey and Ainey, Chief Engineer Janin, City Attorney Laurondeau and Chief of Police Campeau.

### B. C.'S FAILURE TO GRASP SOLUTION.

British Columbians, who have already suffered much through the influx of Orientals, see visions of another influx from another quarter which they anticipate will be quite as blighting as the Chinese horde, and less controllable. This newest menace is the Russian peasant, who is given a direct route from the steppes to British Columbia by the new steamship line which is just now being established between Vancouver, Prince Rupert and Vladivostok.

British Columbians, however, are a little given to worrying without making any consistent attempt to apply the remedy. British Columbia, in point of natural resources, is one of the richest countries in the world. But British Columbia has allowed successive pillaging governments to lock the resources against the settler and to hand them over to favorites of the government to be used as a means of exploiting the landless. British Columbia has never yet grasped the free land idea. British Columbia's theory of colonization has always been the master and servant theory. The obsession of the original aristocrats who first governed the province was that the country should be divided into estates—which they proceeded to do—and peopled

by hirelings who would work for landlords or pay the owners of the estates for the privilege of access to wild land. The natural effect of such a system has been to drive all the workingmen into the cities, good, bad and indifferent. The man with the initiative to get out and establish a home for himself in the wilds is precluded from so doing by the foolish laws which British Columbia has enforced, and he is consequently thrown back into the cities and forced into competition with the Chinaman, the Jap, the Hindu and now the Moujik.

The result is dissatisfaction, distress and industrial unrest; and in the process the very best of their potential citizens are worst hit.

When British Columbians learn that, as Lloyd-Georgers say, "God gave the land to the people," they will have discovered the solution of their difficulties. With their resources thrown open, the Russian peasant will not hurt British Columbia. Alberta has many thousands who were driven out of Russia long before Vancouver ever had a steamship to Vladivostok, and Alberta is nothing loser by their presence. On the contrary, they are a valuable asset, and it was the Czar who booked a losing when he failed to recognize it.—Edmonton Capital.

## UNITED STATE WILL FOLLOW PLAN OF NON-INTERFERENCE

SECRETARY BRYAN VIGOROUSLY ASSERTS HIS REAL INTENTION—WILL ASK CONGRESS FOR APPROPRIATION FOR DESTITUTE AMERICANS.

Washington, Aug. 4.—Secretary Bryan vigorously disclaimed today that his request to congress to appropriate \$100,000 for bringing destitute Americans out of Mexico had any connection with any policy the administration may evolve in dealing with the Mexican situation.

"Statements aiming to put a scarehead construction on the request for an appropriation are entirely without excuse, and cannot be explained on any theory consistent with an interest in the public welfare," he said. "In furnishing aid to any indigent person desiring to leave Mexico, the government is simply doing what it does at any time when American lives are in danger by insurrection, and there is no reason why anybody should attempt to misconstrue it."

Secretary Bryan's request was generally interpreted as one step in the administration's plan for dealing with the Mexican problem.

Far from being regarded as a preliminary to intervention—which President Wilson has told friends on various occasions is out of the question—the request for funds is really thought to be the forerunner of a policy of non-interference.

From the first the President has believed that in crisis in turbulent republics the single solicitude of the American government should be the protection of lives and property. Should the administration here adopt a policy of non-interference it might well refrain from action with respect to the destruction of property on the grounds that claims for damages would, under international law, eventually cover losses. The chief consideration has always been and will be caring for the lives of Americans and foreigners. In any crisis, Americans of means, on warning, would easily be able to flee the country, but dangers always beset those who through lack of funds could not make the journey promptly. To meet such

an emergency the present request for an appropriation is directed.

The administration, while hopeful that peace negotiations may bring the two factions to a suspension of hostilities, realizes that with the resignation of Huerta or any other political change Americans may become alarmed and the desire to obtain funds to care for those who may be anxious to leave Mexico is a precautionary measure.

Secretary Bryan's request will come up at the first meeting of the house appropriation committee next week. Chairman Flood, of the foreign affairs committee, said today he believed the committee would vote to include the \$100,000 appropriation in the deficiency bill.

"We at least owe it to the stranded Americans in Mexico to provide means for their return in these turbulent times," said Mr. Flood.

### FORCED TO APOLOGIZE

Insulter of Jack Tar Given a Severe Beating.

North Vancouver, Aug. 4.—At the conclusion of the band concert at Capilano yesterday afternoon, when the strains of the national anthem were given, two Jack Tars, as is their duty, came to attention. They were standing some distance from the crowd, but three strangers noticing the action commenced to ridicule and use insulting remarks. The sailors paid no heed and stood to the finish of the air, but a friend who was with them stepped up to the insulter and quietly led him to a secluded spot off the roadway and there gave the offender a pummeling and made him apologize. His friends were quite satisfied not to interfere, so the disturbance ended without undue commotion. The tars' friend, it appears, was a retired service man.

## TREMENDOUS FLIGHT MADE BY AVIATOR ACROSS EUROPE

EUGENE GILBERT FLIES 1,030 MILES BETWEEN SUNRISE AND SUNSET—WENT FROM PARIS TO PORTUGUESE FRONTIER WITH ONE STOP.

Paris, Aug. 4.—Eugene Gilbert, a French aviator, flew from Paris today to Pejabo, on the Portuguese frontier, a distance of 1,030 miles, in an effort to win the Pomery cup.

The prize is awarded semi-annually to the airman who makes the longest flight across country from sunrise to sunset in one day. He may stop as often as he wishes to replenish fuel.

Gilbert beat the record of 875 miles on December 11 by Marcel C. Brindejone Des Moulins, when he flew from Paris to Warsaw.

Gilbert left Paris at 4:45 o'clock this morning and made a seven hours' non-stop flight to Victoria, in Spain, where he landed. Ascending again at 1 p. m., he headed for Portuguese territory,

and at 8 o'clock this evening was reported to have descended at Pejabo.

### BUSY TIMES AHEAD

Optimistic Prediction of Canadian Northern Official.

Montreal, Aug. 4.—H. M. McLeod, general manager of the Canadian Northern Railway, has announced here on his return from an inspection trip over western lines that 25,000 men are employed on construction work in Alberta and British Columbia. Most of the men are on the main line, which will be completed before the close of 1914. "I believe that the next five years will be the most active so far as railway construction is concerned that the prairie provinces have witnessed," declared Mr. McLeod.

# MOTHER'S BRAINS BLOWN OUT AS SHE SLEEPS BESIDE BABY

## TWO GIRLS ARE HELD BY THE POLICE PENDING THE MAKING OF AN INVESTIGATION OF A GRUESOME MURDER IN WINNIPEG.

Winnipeg, Aug. 4. — Lying peacefully on her left side as if in prayer, Mrs. David Feinstein, a Russian Jewess, aged 28, was found at 3 o'clock yesterday morning by Victoria Komonowska, her hired girl, with a bullet hole through her right temple, and blood and brains spattered over her 2-year-old baby, Fanny, who was sleeping beside her.

At 3 o'clock the maid was awakened by the 6-year-old son,

who told her that baby, aged 7 months, was crying. She went into the room and tried to awaken the mother, but without success. Being frightened, she went to the next door neighbor, who rushed in and discovered the murder.

No traces have yet been found of the revolver.

The maid, and a girl who was dismissed a week ago, Mary Manastaka, are being held by the police awaiting investigation.

### LIST IS MADE PUBLIC

#### Canadians Who Will Go to London to Learn Warfare.

Ottawa, Aug. 4.—At the commencement of the English army manoeuvres the list of Canadian officers selected by Colonel Sam Hughes, minister of militia and defence, to go to England and take advantage of the lessons to be learned from them is now out. The first officer to leave was Lieutenant Colonel A. C. MacDonnell, Lord Strathcona's Horse, Royal Canadian Mounted Police, who sailed from Montreal on Saturday. Other western officers selected were Lieutenant Colonel H. M. Thomson, 79th Cameron Highlanders of Winnipeg; Lieutenant Colonel R. G. E. Leckie, 72nd Seaforth Highlanders of Canada, Vancouver, and Lieutenant Colonel E. A. Cruikshank, D. O. C., of Calgary. Eight officers from Eastern Canada have also been selected, leaving at the end of the month.

### TO MURDER CHIEF

#### Detective Was Made Target for an Enemy's Bullets.

Omaha, Aug. 4.—An unsuccessful attempt to assassinate Chief of Detectives Stephen Maloney was made early today when an unknown person fired two bullets at him as he sat in his office at the police station. Chief Maloney's office is about a hundred feet from a switching track on which were standing several box-cars. The two shots were fired from behind these cars and came crashing into the window of the chief's office.

### HE GOT THERE

#### Would-Be Suicide Reaches End by Unexpected Route.

Los Angeles, Cal., Aug. 4.—Attempted suicide by hanging resulted in death from a broken head in the case of Edward Schmidt, a wealthy property owner.

Schmidt hanged himself yesterday in the basement of his home here. The rope broke. He was found with a fractured skull, from which he died.

Schmidt was 71 years old and reputed to be worth half a million dollars. The widow and a daughter are in Europe.

### THE STEADY SUBSCRIBER.

How dear to my heart is the steady subscriber.

Who pays in advance without skipping a year.

Who lays down his money and offers it gladly.

And casts round the office a halo of cheer.

Who never says: "Stop it; I cannot afford it";

Or, "Getting more papers each day than I read."

But always says "Send it; the whole outfit likes it—"

In fact, we regard it a business need."

How welcome is he when he steps in the sanctum.

How he makes "our heart" throb, how he makes us all dance;

We outwardly thank him—we inwardly bless him—

The steady subscriber who pays in advance.

### NO MORE BLANKETING

#### No Longer Permitted to Stake Whole Creek in Alaska.

Under the new mining law, as passed by the Alaska legislature, the blanketing of wide areas will be impossible. When a man stakes a piece of placer ground he must proceed at once to do work upon it. He must do \$100 worth of work for every twenty acres within ninety days from the date of discovery, and he cannot record his claims until he has done such work upon them.

Furthermore, he may not stake more than two claims a month for himself, and not more than two pieces for each of two friends or grubstakers. Fancy anybody staking an entire creek and doing \$100 worth of work for every 20 acres within ninety days. The thing is impossible. The dusk of the hatchet-and-pencil man has arrived. It is dawn for the honest prospector. —Fairbanks Times.

### DOG IN THE MANGER

#### Precedent as to Fishtraps Has Been Established.

Sustaining the decision made by Judge Thomas R. Lyons that the title of the Hawk Inlet fishtrap belongs to the user, C. J. Alexander, the Ninth Circuit Court of Appeals, sitting in San Francisco, upheld the ruling of the federal court in the Alexander-Barron fishtrap controversy and a precedent that will undoubtedly stand forever has been established.

The decision establishes the fact that trap sites may not be held without trap construction. The case was one of the hardest fought ever heard in Juneau. Winn & Burton appeared for Barron, plaintiff, and Z. R. Cheney represented Captain Alexander.

## THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

### DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—write, if interested.
